FOREWORD

An imposing system of education has evolved over a period of time in Karnataka State as is evident from the data of schools, teachers and students.

In order to provide infrastructure facilities and teachers for schools of the State, organize capacity building programmes for teachers, provide stimulating incentives such as free textbooks, uniforms and mid-day meals to students in comprehensive and efficient ways, there is a need for basic data about the school system. It would not be possible to provide a meaningful and balanced school support system, for all the schools within the jurisdiction of 34 educational districts, 204, educational blocks and 4103 cluster resource centers without the availability of basic data. It is the responsibility of the 'Educational Management Information System' unit of the Department of Education, the EMIS unit, to collect, process, consolidate and publish educational data which are of foundational value for the system of education in the State.

The EMIS unit has been functional since 2004-05. It has been publishing educational data every year which have been useful to the government for educational planning, implementation of programmes, monitoring, supervision and evaluation of efforts. These data are invaluable in appraisal of status and direction of education in the State and for realization of goals of universalisation of elementary education. Educational data for the year 2013-14 are currently available. The current volume uses these data for the analytical report on significant parameters and concerns of education in the State.

The need for a valid and reliable data base has assumed unprecedented significance due to the location of elementary education as a fundamental right under article 21A, in the Constitution of India, as well as the consequent rights-based approach to planning, implementation and performance-reviews.

The analytical report, the district / block level reports are being extensively used in preparation of Annual District Plans for Sarva Shiksha Abhiyan, submission of reports to Joint Review Missions, preparation of regional plans, sampling design for research studies and reviews of progress in the State. **They are also useful for review exercises in regard to RTE implementation.**

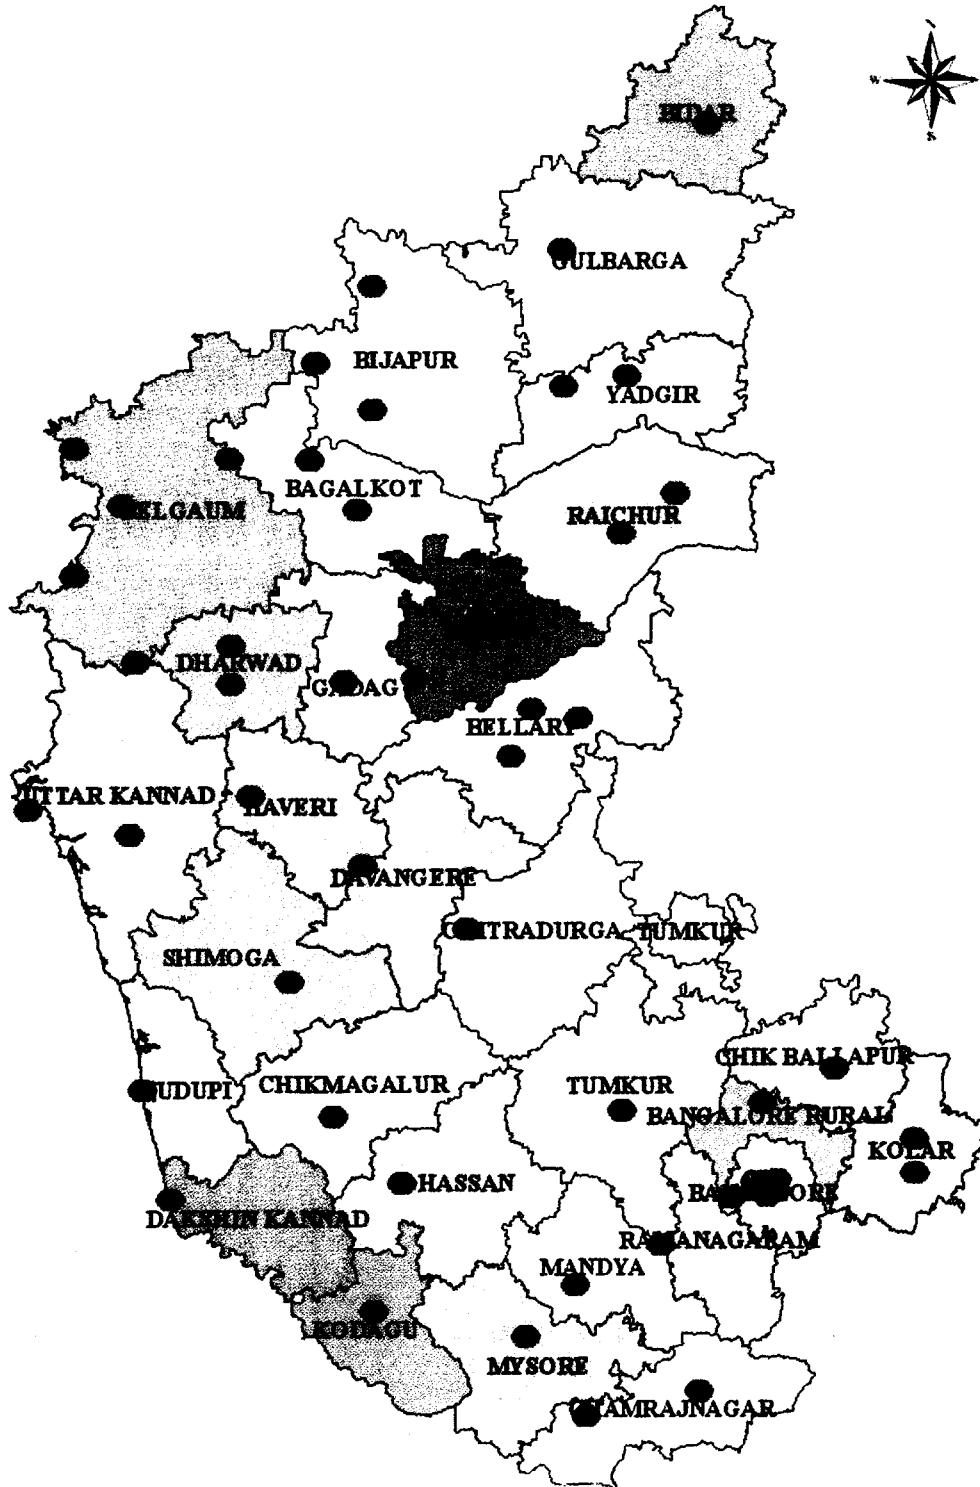

'Progress of education' section on the status of progress of education in the State is updated from 2006-07 to 2013-14

A few additions have been incorporated in 2013-14 analysis. Rural-urban load across managements at various stages of schooling ; districts that record overall gains in enrolments as well as gains at all three stages ; increases in English medium schools in State and enrolments thereon over the years are a few illustrations.

The current DISE volume for 2013-14 is being sent to all those persons who are concerned and interested about the system of education in the State as well as the Department of Education of the State government. It would also be of value to educational policy-makers, planners, administrations, researchers, statisticians and enlightened public. We eagerly look forward to feedback and constructive suggestions on this volume so that the U-DISE unit may function in a more efficient and meaningful way in future.

Even though the proportion of rural schools run by the Department of Education in the State 78.55 (All level schools) percent, it goes up to 89.57 percent in case of rural lower primary schools. The participation of private players both in regard to aided and unaided managements is quite low in rural areas. It is marginally visible only in case of high schools which are normally located in big villages.

HPS	81.32	3.77	13.12	24142
HS	45.84	25.25	24.63	8364
				55189

- LPS in rural areas constitute 41.11 percent of total schools of all levels in State.

90.11 percent of Rural LPS schools are run by the DoE. At HPS stage the figure is 81.32 percent.

URBAN LOAD

[in percentages]

- DoE participation in urban areas is significant at the LPS stage. Private unaided schools dominate the urban areas at all levels.

Inference:- Government schools serve rural areas. Private managements run schools in urban areas. It is clear that commercial designs outweigh concerns of rural development among private players.

Schools by Medium of Instruction:-

Majority of students are pursuing their studies in schools which have adopted Kannada, English, Urdu, Marathi, Telugu, and Tamil as Medium of Instruction. Information about number of schools by the Medium of Instruction adopted by them is given in the following tables.

Table 12 Distribution of Schools by Medium of Instruction

Note :

1. Medium wise Schools are more than the total number of schools because one school may be having multiple mediums
2. Sum of all schools by Medium will not tally with Total Schools in the State at LPS / HPS / HS, as one school will get counted under different Medium. For instance, a school with Kannada and Marathi medium sections will get counted fewer than two columns, one for Kannada and the other for Marathi.
3. English Medium schools (sections) are increasing. The figure was 6033 in 2006-07 and 11267 in 2013-14.

ENROLMENTS IN THE STATE

Total Enrolments, Gross Enrolment Ratios, Net Enrolment Ratios, Number and proportion of children who leave the school mid-way, Repetition Rate, and Enrolments by sex, Social category, School grades, Transition Rates, Completion Rates are the prominent indexes of Enrolments. Some of them are measured against school-age population. **It is noted that total enrolments in 1 to 10 standards in the State, during 2013-14 continues to be above the 10 million mark.**

There is an insignificant decline of children from other media of Instruction also in favor of English Medium Schools. English medium schools have gone up from 13.43 percent in 2012-13 to 13.99 percent in 2013-14. At the same time, there is no notable decrease in Kannada medium schools. Proportion of Kannada medium schools has slightly increased 77.73 in 2012-13 to 77.78 in 2013-2014 percent. While proportion of children in Kannada medium schools has slightly increased from 73.31 in 2012-13 to 73.37 in 2013-14 percent in 2013-2014.

Tables 12A and 16A reveal that in 14.04 percent of schools 20.01 percent of children are studying through the English Medium. As per population census, proportion of people whose mother tongue is English is far below this percentage. Hence it is understood that either children whose mother-tongue is not Kannada and at the same time facility for schooling in their mother-tongue is not available at their place of stay or others who do not prefer to pursue their studies in their mother tongue may opt for English as Medium of Instruction.

Notes:-

- 1) There are 08 out of 34 educational districts in the State which belong to North Eastern Karnataka and identified as backward districts. 30.77 percent of enrolments in the State are in these 07 districts.
- 2) Percentage share of districts is comparable across districts for 1 to 5 and 1 to 7 enrolments. When 1 to 8 enrolments and 1 to 10 enrolments are considered, the relative positions of districts receive a juggling. Enrolments at 8th standard and beyond that stage make a difference.
- 3) Difference in 1 to 10 enrolments for the whole State between 2012-13 and 2013-14 is 55145 (decrease).
- 4) Break –up of difference at 1 to 5 and 1 to 8 are 26775 and 73355.

Total Elementary Stage [1 to 8]

- a) Increases in proportion from State Total Enrolments in 2013-14 as compared to similar proportion in 2012-13 → in 08 districts viz ; Bagalkot ; BNG North and BNG South, Belgaum Chikkodi, Bijapur, Gulbarga, Koppal, Yadgiri and Bangalore Rural.
- b) Proportion is steady in 03 districts viz ; BNG Rural, Chamarajanagar and Haveri.
- c) There is a decrease in proportion, marginal or big in all other districts.

Total 1 to 10 standards.

- a) Increases in proportion from State Total Enrolments in 2013-14 as compared to similar proportion in 2012-13 → in 13 districts viz ; Bagalkot, BNG North and South, Bellary, Bijapur, Raichur and Sirsi (Uttara Kannada)
- b) There are decreases in proportion in all other districts.

Table 18A Drop-out Rates in STATE, 2013-14

Category	Lower Primary	Higher Primary (In %ages)
Boys (All)	3.39	4.96
Girls (All)	2.50	5.15

SC (All)	6.37	9.92
ST (Boys)	1.38	3.35
ST (Girls)	1.01	5.02
ST (All)	1.20	4.14

* Drop-out rates in the State have marginally increased from 2.56 percent at LPS stage to 2.96 percent. This trend is true across sex and social categories. Highest drop-out rate is observed among SC Girls, the value being 10.07 percent.

* Boys in general have recorded lower than State average drop-out rates at both LPS and HPS levels. This is true of SC Boys at lower primary stage.

* Drop-out rate at HPS stage is considerable, at 5.15 percent. This value also has decreased from previous year (5.40percent).

Note: For calculation of drop-out rates, the State is following Average Annual Drop-out method ; alternatively, MHRD follows simple cohort method (Primary Cycle and upper primary cycle). Methodology adopted in both the methods are given below:

- 1. Average annual Drop-out:** Drop outs are estimated / calculated across two consecutive years. That is for example numbers of children in 1 to 7 standards in 2012-13 minus number of children in 2-8 standards in 2013-14 divided by number of children in 1 to 7 standards in 2012-13. One hundred minus of this figure is drop-out Rate. Drop-out rates in State using this method are given in the table.
- 2. Simple cohort method:** drop-out rate at elementary stage, 1 to 8 standards, is calculated by dividing number of children who completed 8th in 2013-14 minus number of children who joined I standard in 2006-07 and divided by number of children who joined I standard in 2006-07. One hundred minus of this figure is Drop-out rate. This method is adopted by the SES/ MHRD as a residue of grade completion.

Notes:-

- 1) Transition rates that cross the three digits figure (More than 100) from 5th to 6th standards may be possible because of inter-district exchange of population (school-going), especially in border areas, as well as rural to urban flow.
- 2) Transition Rate in the State Increase marginally from 94.62 percent in 2012-13 to 94.95 in 2013-14.

Notes:-

- 1) Transition loss in state 7th to 8th has decrease from a figure of 5.57 percent in 2012-13 to 5.36 percent in 2013-14. In case of girls the decrease in loss is from 6.56 to 5.96 percent. decrease in Transition Loss may be because of adoption of student code in DISE 2012.
2. Negative signs are due to marginal volume of inter-district migration of children.

Note:

1. When the enrolment of boys in 1st to 5th standards is compared with that of girls to examine Gender Parity, a ratio of 0.94 gets on surface. Likewise, this ratio, again, works out to be 0.93 for 6th to 8th standards. It is clear that the index of gender parity is more than 0.90. This is a welcome development, as compared with national level update. The Department is on the right path in reducing sex-wise disparities in enrolments, though there is a need for intensifying the efforts in future and arriving at a figure of unity after netting out sex-ratio effects in 6-14 age population.

2. A comparison of values of gender parity in enrolments in Govt. sector schools as against private unaided schools at both LPS and HPS state clearly reveals the phenomenon of son-preference for the household investments in choice of schooling in the state. It is uniformly observed across all the districts of the state, both LPS and HPS, that the differentials in gender parity between enrolments in Govt. sector and private unaided sector varies across all the districts. Disparity is considerable in Yadgiri, Bidar, Raichur, Belgaum, Bijapur and Bellary Districts.

Enrolments of SC/ST at Elementary Stage :-

- There are 53.52 lakh children who are studying in the lower primary stage of 1st to 5th standards. This stage included enrolments in 1st to 5th standards in 1st to 5th lower primary and 1st to 7th or 1st to 8th higher primary schools as well as 1st to 10th high schools or 1st to 12th higher primary schools

Like-wise, there are 20.08 lakh children in 6th & 7th standards, in the State. They may be distributed in HPS / HS or HSc schools.

It may be observed from Table 21 that there are 19.78 lakh children from the SC / ST categories among 73.60 lakh children in 1st to 7th standards in the State. Of them, 13.96 lakh are SC while 5.82 lakh are ST students. The number of SC / ST children in 1st to 10th standards in the State is 26.63 lakhs percent.

- 19.78 lakh children from SC / ST categories are in 1st to 7th standards in the system of schooling in the State. An analysis of location of these 19.78 lakh children in the schools of the State by management reveals that 69.56 percent of SCs and 73.02 percent of STs in 1st to 7th standards are in schools run by the Department of Public Instruction. Proportion of SC / ST students in State and State supported schools that are schools run by Education Dept, by Department of Social Welfare, Local Self Government Institutions and Private Aided Institutions is 82.10 percent.

SC / ST proportion in un-aided schools of the State at 1st to 7th standards is quite low as they cannot afford to pay fees charged by such institutions. Their total proportion is just 18.04 percent.

Enrolments of SC / ST at High Schools Stage :-

- There are 26.47 lakh children in 8th, 9th & 10th standards in the State. 4.6 lakh SCs and 1.91 lakh STs are out of this total constituting 6.52 lakh children
- Analysis of distribution of SCs and STs in high school stage by management reveals that 46.26 percent of SCs and 51.31 percent of STs are in high schools belonging to the Department of Education.

INFRASTRUCTURE FACILITIES

The Sarva Shiksha Abhiyan accorded special significance and weightage for the provision of infrastructure facilities to schools. School buildings, additional classrooms, maintenance and repairs of school buildings are included herein. 8 facilities are recognized as Basic Facilities for schools comprising of Common Toilets, Girls' Toilets, Electricity, Play Ground, Ramps, Library, Compound and Drinking water. A review of progress of schooling in the light of provision of infrastructure facilities to schools reveals that there has been notable improvements in enrolments of children, enrolment ratios, retention rates, student – classroom ratios, teacher-pupil ratios, transition rates and gender parity in enrolments.

An update on provision of infrastructure facilities in the State is provided in this section.

School Buildings

44153 out of a total of 60485 elementary schools in the State belong to the Department of Education. 98.42 percent of schools of the Department possess / own the buildings. Rent need not be paid to 0.68 percent of schools owned by the Department. Another 0.56 percent of schools are run in rented and private buildings. 0.01 percent of schools are run without any building facility.

There are 207652 classrooms in 44513 elementary schools of the Department of Education 71.11 percent of classrooms are in good condition. 16.39 percent of classrooms need minor repairs, while 12.50 percent of classrooms are waiting for major repairs. It is to be noted that the position regarding to classrooms which are in good condition has marginally decreased from 71.43 percent in 2012-13 and that require minor repairs has decreased from 17.19 percent in 2012-13. However the percentage of classrooms which require major repairs has increased from 11.49 percent during 2012 13 to 12.50 percent during 2013-14.

There are 24457 classrooms in 4542 high schools of the Department of Education. 81.58 percent of classrooms are in good state. 11.42 percent of classrooms need minor repairs while 4.41 percent of classrooms need major repairs. Rooms that need minor repairs and major repairs have decreased from 2012-13 to 2013-14.

Number of classrooms at the elementary stage of schools has increased from 203950 in 2012-13 to 207652 during 2013-14, an increase of 3702 classrooms. This is good. However, number of classrooms in 4452 high schools of the State has increased from 23711 classrooms during 2012-13 to 24457 classrooms during 2013-14 an increase of 746 classrooms, 3.14 percent increase. This is also good. There were 1487 classrooms in high schools which needed major repairs during 2012-13 while this figure increased to 1077 classrooms during 2013-14.

8 Basic Facilities (as per MHRD specifications) :-

Even though increasing attention is being given over the years to provision of basic facilities in schools, database on availability of basic facilities leaves much to be desired. The U-DISE data of 2013-14 informs us that there is no separate toilet for girls in 0.10 percent of elementary schools while 0.08 percent elementary schools do not have drinking water facility. Provision of Ramps in High Schools needs serious attention as the current provision is hardly in 45.29 percent of schools

The 8 Basic facilities identified by MHRD are

Common Toilet ; Girls Toilet ; Electricity ; Play Ground ; Ramps ; Compound ; Drinking Water ; Library

Note :

It is difficult and challenging to reach a value of 100 Composite Index as provision of playground in urban areas is a pious dream.

Pancha Soulabhya :-

The government of Karnataka identified 5 facilities, on top priorities as most essential for schools. Some of them are common to the 8 basic facilities identified by the MHRD. Four of these five facilities are 1) Drinking Water 2) Common Toilets 3) Play Grounds and 4) Compound wall. The fifth one is school buildings. An update across all these facilities follows.

Note:

- It is observed that SCR at the Lower Primary stage in elementary schools of the DOE are quite lower than that in other management schools. At Upper primary stage SCR is 22.3 which is also lower than the RTE norms. Aided Schools need attention in respect of RTE norm of 1:30 SCR. SCR in secondary schools is quite high in Government schools.
- PTR and SCR as per State Govt. norms are different from that of RTE norms. RTE specifies 1 classroom for 1 Section and each section in a standard for 30 and <30 children. This arithmetic progresses with increasing student strength.

Note:-

- Districts with 20 or >20 percent increase in Composite Index over last 06 years, that is 2008-09 to 2013-14 are Gulbarga, Belgaum, Yadagiri, Bidar, Uttara Kannada, Dharwad, Raichur and Bagalkot.
- Districts that figure among Bottom TEN in Composite Index at both Elementary and Secondary lists are : Bangalore Rural and Chikkamangalore
- District that figure among Top TEN in Composite Index at both elementary and secondary levels are : Belgaum, Bidar, Uttara Kannada and Bagalkote.

Note:-

Negative values do not indicate decrease in provisions. They are due to definitional variations across the years. e.g.: compound wall included even fence around school in 2008-09.

Method of Calculation and Interpretation of Indexes of Basic Facilities in Schools of the State in Tables 31 and 32

- 8 Basic Facilities (as identified by the MHRD) that need to be located in Elementary and High Schools are :: Common Toilets, Girls' Toilets, Electricity, Playground, Drinking Water, Ramps, Library and Compound Wall. One score is earmarked for each one of these facilities. A school having all the eight facilities shall get 8 scores. Otherwise, the school shall get as many scores as the number of facilities located in it.
- In this way, total scores obtained by each one of the schools of a district are summated and divided by the total number of schools in that district. The product of the division is the index of current availability of 8 basic facilities of the district.
- Assuming that all schools of the District have all the 8 Basic Facilities, the number of schools is multiplied by the digit 8. The product is an index of total availability.
- Index of current availability is divided by the (assumed) index of total availability and multiplied by 100. The product is an index of percentage of availability of 8 basic facilities.
- Tables 31 and 32 provide indicative information about the provision of 8 Basic Facilities across the schools of the state in the various districts. They are enabling in identification of districts which are lagging behind in availability of infrastructure facilities. This type of information would be quite useful in prioritization of resource allocations across districts under plan schemes as well as projects in cases of provision of infrastructure facilities. However, one has to go beyond statistics in taking district specific decisions in regard to the provision of specific types of infrastructure facilities and prioritize them within the districts.
- Performance of the State in regard to provision of 8 basic facilities at elementary and high school levels is recorded as 88.88 and 85.06 percent respectively.
- When the position in regard to provision of 8 basic facilities in the elementary schools is compared with that in the high schools, it is observed that districts which are quite good or quite low in provision of facilities at the elementary level need not also figure as such at the high school stage.
There are exceptions of districts to the foregoing generalization. Exceptional districts are identified here.
- When the top 10 districts in provision of 8 basic facilities in the State at the elementary stage are juxtaposed with top 10 districts on the same counts at the high school stage, it is observed that only 04 districts appear in both the lists. These districts are Belgaum, Bidar, Bagalkote and Uttarakannada.
- District which are common in the lists of bottom ten districts in provision of infrastructure facilities at the elementary and high school stages are Chikkmangalore and Bangalore Rural.
- Districts at the bottom end of the scale need special attention.

Note :-

- After the adoption of RTE Act and release of rules in the State in April 2012, provision of toilets and drinking water to all elementary schools gained momentum. Saturation was attained by December 2012..
- The State Government has estimated the need for additional classrooms and teachers as per RTE Norms. RTE norms are more relaxed than the State norms. Karnataka State has a large number, nearly one-third proportion, of small and unviable schools; viability defined in terms not only of infrastructure facilities but also in terms of academic pursuits as well as holistic personality development of children as envisioned under section 29 of the RTE Act.
- Viability can be stepped up by merger of schools, pooling of resources and investments and by ensuring enrolment, attendance, retention and completion of elementary grade by all children through a network of transport facilities, safety and security of urchins.

Percentage of Teachers working at LPS/HPS/HS stages of schools of various Managements

Note:

55.33 percent of teachers working in the State therein including all levels of schooling belong to the Department of Education. If a tally is taken of only of Elementary School level teachers this percentage goes up to 62.31 percent. If a tally of proportion of teachers whose salary is paid by the government, that is Department of Education plus schools run by the Department of Social Welfare and Local Bodies along with private schools getting grant in aid are considered then, the proportion of teachers maintained by it is nearly 69.24 percent at the elementary level, and 66.27 percent at the High School level.

Teacher Pupil ratios for working teacher are in a satisfactory state in Government schools. This ratio is 23.03 at the elementary schools of the DoE. Still variations in this ratio are observed across districts of the state, blocks within districts and schools within blocks. For instance, this ratio is 1:38.78 in Yadgir district while it is 1:12.92 in Chikmagalur district. A process of rational deployment of teachers is in progress so as to set right such imbalances in teacher pupil ratios.

There being one teacher for every 23 students in the Department of Education, these ratios are observed to be 42 and 32 in private aided and unaided schools.

Gap between sanctioned and working teachers elementary and high school stages in the DoE are 24981 and 4571 respectively.

There is a need to engage in a Potential Stock Vs Actual Need analysis and freeze sanctioned positions.

Notes:-

- Government needs to improve the position in regard to proportion of female teachers.
- Private Aided high schools, located mostly in urban areas, big villages and block head quarters appear to be friendly to male teachers. However, they appoint trained and qualified teachers, as per government stipulations.
- Private unaided schools located by and large in urban areas apart from big villages and block head quarters are quite friendly to women teachers. There is no update on the qualifications and training status of teachers of unaided schools. The RTE specifies appointment of qualified and trained teachers at elementary level and across all managements.

PROGRESS OF SCHOOL EDUCATION IN THE STATE (From 2006 – 07 to 2013-14)

- Overall enrolments in the State and in the Department of Education have marginally decreased during the period 2006-07 to 2013-14 at 1st standard, at LPS 1 to 5 HPS 1 to 7/8 and 1 to 10 standards.
- Enrolments at 1st standard have marginally declined – overall in all management except in private aided and unaided schools; the overall decline being a phenomenon of population deceleration. There is a decrease of 56,000 students during the reference period. The enrolment at 1st standard in the State is 11.34 lakhs and it is 5.72 lakhs in the Department of Education. Proportion of enrolments at 1st standard in the Department of Education is 49.47 percent of the total enrolments in the State.
- Enrolments in 1 to 5 lower primary schools have marginally decreased from 57.24 lakhs in 2006-07 to 53.51 lakhs in 2013-14.
- Enrolments in 1 to 7 higher primary schools have marginally decreased from 78.26 lakhs to 73.60 lakhs.
- Enrolments at the 1 to 10 high school stage have marginally decreased from 102.37 lakhs to 100.07 lakhs.
- Enrolments have declined at all stages in schools of the Department of Education.
- Enrolments at 6 to 8 standards have marginally appreciated at the Higher Primary Stage under all managements except at the Department of Education. There appears to be a marginal lateral shift from the schools of the Department of Education towards private unaided and aided schools.
- Proportion of children in 1 to 5 , 6 to 8, 1 to 7/8 and 1 to 10 stages in the schools of the Department of Education are 28.07, 15.29, 39.18, 43.37 and 49.50 lakhs respectively. As a proportion of total enrolments at these stages in the State. The respective percentages are 52.65,51.46,53.27,52.12 and 49.47
- **DoE has lost 13.81 lakh students from 2006-07 to 2013-14. Private unaided and aided schools have gained 10.58 lakh and 0.60 lakh students during the same period. Nearly 3.00 lakh loss in DoE may be due to population deceleration.**

Notes :-

- There is a net decrease of 2.30 lakh students during the period 2006-07 to 2013-14, a Eight year count. Decrease in Department of Education, 1 to 10 standards. is 13.81 lakhs of which 4.12 lakh may be discounted due to demographic changes. In case of rest of the 9.69 lakh children, there may be a lateral shift to the private sector schools. In effect, there is an overall shift of over 14.8 percent in Eight years, from Government schools, at an average rate of 2.06 percent per year.
- Looking at the overall trend across the country and in neighbouring States like Kerala and Andhra Pradesh, the lateral shift from Government schools in Karnataka State, is an insignificant phenomenon. Schools of the Department of Education have been improving over the years. They have, by and large, held on to their holding potential. The admission of children from disadvantaged homes in private aided and unaided schools under 25 percent quota as per section 12 (b) and © of the RTE Act has also led to marginal erosion of demand for government schools.

GENDER PARITY IN ENROLMENTS IN SCHOOLS OF THE STATE

- When Gender Parity differentials between 2006-07 and 2013 -14 across all levels / stages of schooling in the State are compared, it is observed that the Gender Parity indicator has increased in DOE between the Eight years 2006-07 and 2013-14 as the parity figures are 49.61 and 50.79 for the reference years respectively.
- Gender Parity has increased in the private unaided schools at all stages and marginally in private aided schools.

Notes :-

- Gender-parity has crossed 50 percent mark within the Department of Education as reflected in enrolments at I, 1 to 5, 6 to 8, 1 to 7, 1 to 8 and 1 to 10 standards. It is uniformly impressive. Gender Parity value is uniformly less than 50 percent in private Unaided followed by private aided schools. This may be due to son-preference in family favours.
- Gender-Parity is lowest in private unaided schools on all counts.
- Minus sign indicates decrease across the two reference years 2012-13 and 2013-14 while positive sign indicates Increase.

Notes:-

1. There is a decline everywhere. Hence, Minus sign is not used for the values.
2. There have been steady decline in enrolments in the State over the years 2006-07 to 2013-14, an Eight n year count. This is true at 1 to 10, 1 to 7/8, 1to 5 stages and at 1st Standard. However it is at 1st standard that the proportion of decline is quite high for girls than for boys. Decrease for girls at 1 to 10 stage is lower than that for boys, while it is not so at other stages. This is because of a low base of girls enrolment in 2006-07

Note: -

Number of schools have increased in the State steadily over the years from 2006-07 to 2013-14. As of 2013-14 there are 74954 schools across LPS / HPS / High Schools of all managements. 55622 schools are under management of Department of Education as well as private aided managements. It is only at the LPS stage that there is a virtual decrease in number of schools. This may be because the LPS get upgraded into HPS. In exceptional cases LPS schools have been merged with large size schools because of less than 10 students in 1 to 5 standards due to demographic changes in certain remote habitations. This is a miniscule phenomenon.

- The private unaided schools have experienced increases at the LPS, HPS & high school stages, while quite a number of private unaided high schools were brought under grant-in-aid during 2009-10.
- Overall the gain in number of schools inclusive of all schools is 2.73 percent 23.83 percent and 34.80 percent respectively across DoE, Aided and Unaided managements.

Notes:-

There is an increase of 3702 classrooms at the elementary level and 746 classrooms at the high school level in the State. In spite of this increase, there are a few districts where the number of classrooms has reduced during the year 2013-14 as compared to that in 2009-10. This is because of carried over classrooms in dilapidated condition which were ultimately declared unfit for use.
