PREFACE

The 'Statistical Abstract of Mizoram 2013', which is the fourth in its series, has been brought out by the Directorate of Economics & Statistics (DES), Mizoram.

This issue contains time series official statistics generally for the past years upto the latest available year 2012-13 for state aggregates relating to various sectors of the economy to present the trends of socio-economic development in Mizoram and to facilitate comparative and analytical study. As far as practicable, the state aggregates are followed by District wise data for the latest year so as to reflect the Comparative Development Scenario amongst the District.

This Directorate gratefully acknowledge the kind co-operation extended by the different Departments of the Central and State Governments, Public undertaking and NGO's in making the requisite data available for incorporation in this publication.

I fervently hope that the data in this publication would serve as an useful source of information to Administrators, Policy Makers, Planners and Researchers. It is also hoped that it will be a useful reference to all readers and users having interest in the state's economy.

I would like to express my thanks to all the officers and staff of Technical Section who were the architects in bringing out this publication.

Lastly, suggestions for further improvement in terms of quality, coverage etc. for the next publication would highly be appreciated.

contd...

*Only 43 ha is maintained by the deptt. due to paucity of fund and for encouraging more plantation in private farms.

**Only 6 ha departmental plantation is continued and the remaining 37 ha is left to be demonstrated by assisted new private planters.

***Some tea plantation had been laken up for town extension, thus, the area under tea plantation had been squized to 7 ha only.

Newly planted under NLUP & CSS Schemes

Note: Coffee, Rubber, Large Cardamom & Tea Plantations during 2010-11 include those under NLUP & CSS Schemes

The National Sample Survey Organisation is an organisation under the Ministry of Statistics and Programme Implementation of the Government of India. It is the largest organisation in India conducting regular socio-economic surveys.

NSSO is responsible conducting surveys in the field of socio-economics, Industrial Statistics, Agricultural Statistics, Prices, etc. as per the approved programmes. Raw data collected from the surveys are transformed into the final form of Key Indicators or estimates in tabular Format which are further used for developmental planning and research.

The success of any survey largely depends upon the cooperation from the respondents and correctness of the information provided.

Appeal is made to all to be aware of their responsibility in providing correct information when their turn as respondents arrived

The Directorate of Economics & Statistics is the Nodal Agency for all Statistical Activities within the State for developing efficient Statistical System and ensuring technical coordination in all matters.

The Technical Section of the Department is responsible for collecting information and data from various agencies and individuals in respect of the following matters:

- i) Farm Harvest Prices and Industrial Statistics for estimation of State Income*
- ii) Weekly, monthly and quarterly prices for constructing price indices which are further used for calculating minimum wages and inflation rates.*
- iii) Economic Census for complete counting of all establishments/units which are located within the geographical boundaries of the country.*
- iv) Agricultural Census for collection of detailed data on structure and other characteristics of Agriculture holdings.*
- v) Employment-unemployment Statistics for realizing the condition of the people within the state.*
- vi) Building Statistics for working out housing shortages within the state.*
- vii) Basic Statistics for Local Level Development (BSLLD).*

Besides these, the Department is also responsible for collecting data from State Departments to formally disseminate them among public and some of these data are also used for estimation of State Income.

The main purpose of these surveys and censuses is to frame policies and programmes to bring down poverty in the country.

Thus, it is the duty of every citizen to assist the Government in implementing the developmental policies and programmes by providing information, if asked, to the best of his knowledge.
