DIRECTOR

**DIRECTORATE OF ECONOMICS & STATISTICS,
ODISHA**

FOREWORD

The Directorate of Economics and Statistics is bringing out the present publication "Odisha At a Glance, 2015" which is first in its series. It presents comprehensive collection of data on various social and economical aspects of the State for a quick and easy reference. As we know Statistical data plays a vital role in providing information to understand the socio-economic progress so far made and the emerging trend of developments. Thus, these data will be immensely useful to the Administrator as well as planners as they help it in formulating Micro and Macro planning through an effective management system.

I acknowledge with thanks the cooperation received from different Government organizations, who have made available the data presented in this publication. I also appreciate the endeavour put forth by the officers & staff of publication division in collecting and organizing the data under the active supervision of Dy. Director who shoulder the entire responsibility of presentation of the data and designing of the report.

I hope that the report will be useful for the policy makers, planners and the researchers. I welcome any constructive comments and suggestions for improvement in the quality of the future publications of this issue.

D. Behera
