Foreword

Directorate of Economics and Statistics, U.P. is publishing "Districtwise Development Indicators" annually since 1978. The publication provides information about inter-regional disparities in various socio-economic sectors of the State. The current issue of 2008 is thirty first issue of the series.

In this edition, 125 development indicators regarding population, health, education, infrastructural facilities, agriculture, animal husbandry, fisheries, industry & minerals, banking, finance & co-operation, manpower and state income have been presented separately for various economic regions as well as districts, for the year 2001-02 and for the latest year for which data could be available. The requisite data have been furnished by the respective departments of the State Govt. and other agencies.

The cooperation extended by various departments/agencies in furnishing the required data is highly appreciated.

I am sure that the present issue of the publication will be of immense use not only to planners, policy makers and departments implementing different developmental programmes but also to researchers in understanding the multifarious socio- economic changes taking place in the State.

Suggestions from users for further improvement in coverage and presentation of this publication shall be warmly welcomed.

PREFACE

Economics and Statistics Division of the State Planning Institute, Uttar Pradesh has been bringing out the "District-wise Development Indicators Uttar Pradesh" for every year since 1978. The publication of the year 2008 is the 31st issue of this series, UP is divided among four economic regions: Western, Central, Bundelkhand and Eastern. In these regions there exist inter-regional disparities which are adequately highlighted in the publication. For balanced and well-planned development of the state various indicators have been evolved. Keeping the immense utility of the publication this issue has been made bilingual. It consists of 125 indicators mainly based on Population, Health, Education, Infrastructural Facilities, Agriculture, Animal Husbandry and Fisheries, Industry and mines, Banking, Finance and Co-operative, Man Power and Income. Drop-out rate a new indicator has been incorporated in the publication.

The publication has been prepared by Shri Jai Lal Ram Gupta, Asstt. Economics & Statistics Officer, Smt. Anushri Pandey and Dr. Manju Dikshit, Economics & Statistics Inspector. under the guidance of Sri A.K.Tewari, Addl. Director & Sri Banarasi Singh, Deputy Director and under the supervision of Dr. Shuaib Ahmad, Economics & Statistics Officer. Cover page and graph/charts displayed in the publication have been prepared by the Graph Section. I am grateful to concerned departments of State Government for furnishing of requisite data.

I hope, this publication will go a long way in meeting the felt need of policy makers, administrators, planners and researchers engaged in Policy making. Suggestions from the users for its further improvement are most welcomed.

Foreword

Directorate of Economics and Statistics, U.P. is publishing "Districtwise Development Indicators" annually since 1978. The publication provides information about inter-regional disparities in various socio-economic sectors of the State. The current issue of 2008 is thirty first issue of the series.

In this edition, 125 development indicators regarding population, health, education, infrastructural facilities, agriculture, animal husbandry, fisheries, industry & minerals, banking, finance & co-operation, manpower and state income have been presented separately for various economic regions as well as districts, for the year 2001-02 and for the latest year for which data could be available. The requisite data have been furnished by the respective departments of the State Govt. and other agencies.

The cooperation extended by various departments/agencies in furnishing the required data is highly appreciated.

I am sure that the present issue of the publication will be of immense use not only to planners, policy makers and departments implementing different developmental programmes but also to researchers in understanding the multifarious socio- economic changes taking place in the State.

Suggestions from users for further improvement in coverage and presentation of this publication shall be warmly welcomed.

PREFACE

Economics and Statistics Division of the State Planning Institute, Uttar Pradesh has been bringing out the "District-wise Development Indicators Uttar Pradesh" for every year since 1978. The publication of the year 2008 is the 31st issue of this series, UP is divided among four economic regions: Western, Central, Bundelkhand and Eastern. In these regions there exist inter-regional disparities which are adequately highlighted in the publication. For balanced and well-planned development of the state various indicators have been evolved. Keeping the immense utility of the publication this issue has been made bilingual. It consists of 125 indicators mainly based on Population, Health, Education, Infrastructural Facilities, Agriculture, Animal Husbandry and Fisheries, Industry and mines, Banking, Finance and Co-operative, Man Power and Income. Drop-out rate a new indicator has been incorporated in the publication.

The publication has been prepared by Shri Jai Lal Ram Gupta, Asstt. Economics & Statistics Officer, Smt. Anushri Pandey and Dr. Manju Dikshit, Economics & Statistics Inspector. under the guidance of Sri A.K.Tewari, Addl. Director & Sri Banarasi Singh, Deputy Director and under the supervision of Dr. Shuaib Ahmad, Economics & Statistics Officer. Cover page and graph/charts displayed in the publication have been prepared by the Graph Section. I am grateful to concerned departments of State Government for furnishing of requisite data.

I hope, this publication will go a long way in meeting the felt need of policy makers, administrators, planners and researchers engaged in Policy making. Suggestions from the users for its further improvement are most welcomed.
