PREFACE

The present publication "BASIC STATISTICS 1995—" presents important information relating to different aspects of State's economy in the form of tables.

This issue includes State level information as well as district-wise details relating to various socio-economic and development activities as provided by different Central and State Government departments. The data presented in this publication relates to the calendar year 1994 or the financial/agriculture/co-operative year 1993-94 except where otherwise indicated.

The latest information incorporated in the publication could be possible due to timely co-operation extended by the various departments of State and Central Government, for which the Directorate is thankful to them. It is hoped that this publication would serve as an important reference handbook to the planners, administrators, policy makers, research scholars and institutions etc.

Constructive suggestions for improvement in the presentation and coverage of "BASIC STATISTICS" would be appreciated.
