

TELANGANA STATE AT A GLANCE 2017

DIRECTORATE OF ECONOMICS AND STATISTICS
GOVERNMENT OF TELANGANA
HYDERABAD

PREFACE

The Economy of Telangana state is closely linked with the availability of abundant natural resources, providing a comparative advantage in resource extraction and processing. As such, the Telangana economy is relatively more capital intensive than that of other states. In addition, the state is having a strong base in services sector, such as Real estate, Trade, Education, Health, Finance, Insurance, construction etc., which, in the recent past have been accounting for larger share in the economic output of the State. Noteworthy progress in all the three broad sectors of the economy, have put the state on a higher growth pedestal. The state has more potential to grow and show greater promise. The Government is making all out efforts and introducing various new and innovative policy initiatives, in order to make the growth inclusive and sustainable.

This publication “Telangana State at a Glance, 2017” of DES, provides an overview of economic performance of the state, besides various other parameters like Demography, Agriculture, Health, Education, Transport, Public distribution etc. The objective of this publication is to provide the readers a quick reference to latest data on key parameters.

I put on record, the cooperation extended by various departments for their prompt and enthusiastic response in furnishing required information. The committed efforts of the DES officials in compiling this publication in an appealing manner truly deserve special commendation.

This publication can be accessed at the Directorate of Economics and Statistics website: www.ecostat.telangana.gov.in.
