FOREWORD

It is a well known fact that effective planning and policy making need adequate reliable information/data. Therefore, maintaining/documentation of reliable data by Department/Organization/Agencies concerned is a vital necessity. The Directorate of Economics & Statistics, Manipur as the main agency which collects, compiles data and disseminates these to the concerned depts. for formulation of plan and policies has its own importance and relevancy in Governance. This significant role of the Directorate, however, cannot be carried out without the cooperation/contribution of other data source agencies. They all have to work together and in unison. Their efforts need recognition and appreciation.

I hope this publication which is the 14th in the series would go a long way in meeting the needs of all the data users and encourage all the data processors in their commendable job.
