**Government of Telangana  
Directorate of Economics and Statistics**

## PREFACE

Statistics is the pivotal component for drawing inferences, initiating policy formulations and also for research purposes. In this endeavor, considering the importance of the statistics, this Directorate of Economics and Statistics (DES), Government of Telangana has made an attempt to bringing out a publication namely **“Economy in Brief – Telangana State, 2015”**, containing important statistics on important economic parameters, including certain key demographic and other characters of the state.

This is the first publication after formation of the new State. The contents of this publication, at a glance, are functioning of administrative units in the State, population, economic profile, State Budget, agriculture and industrial scenario, communications and banking facilities, comparative statistics of districts and certain major states are given.

We hope the statistical information contained in this publication is useful to the Government Departments and research institutions, including research scholars and also various segments of people.

The efforts put in by the officials in bringing out this publication are highly adorable.
