STATISTICAL ABSTRACT

WEST BENGAL

2013

**BUREAU OF APPLIED ECONOMICS AND STATISTICS
GOVERNMENT OF WEST BENGAL**

P R E F A C E

Statistical Abstract 2013 provides statistics on various socio-economic aspects of the economy of the State of West Bengal. It contains time series data on various sectors of the economy at the state as well as district level upto the latest available year. State wise comparative tables have also been presented in a separate Chapter. Efforts have been made to provide explanatory notes, coverage, definitions of the terms used, inter-alia.

We are grateful to different State and Central Government Offices, Local Bodies, Public Undertakings and other Organizations for their active co-operation in the process of collection and compilation of such a voluminous work.

I am thankful to the Officers and Staff of the Bureau, without whose hard work and sincere efforts this publication could not be brought out in time.

I hope that this publication will prove to be useful to the planners, policy makers and academicians. Suggestions for improvement of this publication are most welcome.

Tapas Kumar Debnath
Director
Bureau of Applied Economics and Statistics,
Government of West Bengal.

Statistical Abstract, 2013

Introductory Notes

1. **Purpose:** This is the Ninth issue of the New Series of Statistical Abstract for the State of West Bengal. This publication has been prepared by the Bureau of Applied Economics and Statistics, with the co-operation of various Government Departments, Local Bodies, Semi Government and other organisations. It is designed to serve the purpose of a convenient reference year book for quantitative summary information regarding the various aspects of the socio-economic conditions of the State, mostly at district level and over time.
2. **Scope:** The scope of the Abstract may be revised from time to time to include new statistical information as it becomes available. Current data for many of the series appearing in the Abstract are contained in the Statistical Hand Book issued by this office.
3. **Area covered:** Except in few cases most of the statistics are related to the State of West Bengal.
4. **Period:** The tables in the Abstract contain up to date information. Figures are presented in the form of a longtime-series.
5. **Changes of base:** Owing to changes either in the method of computation or in the area covered, the statistical series do not, in many cases, maintain absolute uniformity over the period to which they relate. In such cases, a footnote is added indicating the nature of the difference.
6. **Revisions:** In some cases, data incorporated in this Abstract are marked "P" i.e., Provisional as supplied by the source offices and may be revised subsequently.
7. **Rounding of figures:** Wherever necessary, each figure has been rounded off to the nearest unit. For this reason, apparent discrepancies between the sums of the constituent items and the totals shown may be observed in some tables.
8. **Symbols:** The following symbols have been used throughout the abstract:

..	=	Not available
–	=	Nil or negligible (less than half unit)
P	=	Provisional
R	=	Revised
Q	=	Quick
9. **Responsibility:** The contents of the Abstract are taken from a large number of sources mentioned at the bottom of each table. The Bureau of Applied Economics and Statistics does not accept the responsibility for the accuracy and limitations of the data presented in the book, other than those compiled directly by the Bureau.
10. **Comments and suggestions:** Readers are requested to suggest their views on specific requirement of data and make comments for further improvement of the presentation of data. Such suggestions are always welcome.

CONTENTS

TABLES

TABLE		PAGE No.
1 AREA AND POPULATION		
1.1	Geographical Area of West Bengal by District	2
1.2	Administrative Divisions of the State of West Bengal-2013	3
1.3	Population and Density of Population Per Square Kilometer by District in West Bengal	4
1.4	Decadal Variation of Population by District	5
1.5	Rural and Urban Population by District in West Bengal	6
1.6	Population by Sex and by District in West Bengal	7
1.7	Population of Kolkata Urban Agglomeration, 2001 Census	8
1.8	Cities and Towns (with population one lakh and above) Classified by Population, 2001	12
1.9	Scheduled Castes and Scheduled Tribes Population by Sex and by District, 2011	14
1.10	Population by Age-Group, Sex and District in West Bengal, 2001	15
1.10a	Population by Age-Group, Sex and District in West Bengal, 2011	20
1.11	Population by Community and District in West Bengal, 2001	30
1.12	Population by Religion, Sex and District in West Bengal	31
1.13	Distribution of Population by Major Scheduled Languages, 1991	37
1.14	Population by Age-Group, Sex and Civil Condition, 2011	38
2 CLIMATE		
2.1	Mean Maximum and Minimum Temperature by Station and Month in West Bengal	42
2.2	Rainfall by District and Month in West Bengal	52
2.3	Rainfall by District and Month in West Bengal (Ten Years' average of 1993-2002 & 2003-2012)	57
2.4	Relative Humidity by Station and Month in West Bengal	59
3 ENVIRONMENT		
3.1	Number of Towns & Villages According to Population Size in West Bengal	64
3.2	Station wise Average Ambient Air Quality in Kolkata	65
3.3	Station wise and Month wise Ambient Air Quality in Howrah	71
3.4	Station wise and Month wise Ambient Air Quality in Haldia	76
3.5	Water Quality Monitoring of River Hooghly	81

4 VITAL STATISTICS AND PUBLIC HEALTH

4.1	Estimated Population of West Bengal by Sex and by Region	92
4.2	Estimated Population of West Bengal by District	93
4.3	Projected Total, Urban and Rural Population by Sex of West Bengal	94
4.4	Annual Estimated Rates of Vital Events in West Bengal	95
4.5	Expectation of Life at Birth by Sex in West Bengal and India	96
4.6	Health Facilities in West Bengal	97
4.7	Number of Registered Medical Practitioners in West Bengal in different years	102
4.8	A Profile of Malaria in West Bengal	103
4.9	Reported Cases and Death Due to Kala-azar in West Bengal	104
4.10	Epidemiological Data on Japanese Encephalitis	105
4.11	Achievement of Universal Immunization Programme by districts of West Bengal	106

5 EDUCATION

5.1	Distribution of Literates by Sex and District	108
5.2	Scheduled Castes and Scheduled Tribes Literacy in West Bengal by District, 2001	109
5.3	Distribution of Literates by Level of Education in West Bengal, 2001	111
5.4	Number of Schools (General Education) in West Bengal by District	112
5.5(a)	Number of Students (General Education) in West Bengal by District	114
5.5(b)	Number of Students (General Education) in West Bengal by District	119
5.6	Number of Teachers (General Education) in West Bengal by District	120
5.7	Distribution of Colleges in West Bengal by District	122
5.8	Results of Examinations Held by the West Bengal Board of Secondary Education and Council of Higher Secondary Education	127
5.9	Results of the University Examinations	128
5.10	Number of Newspapers and Periodicals by types in West Bengal	145
5.11	Number of Newspaper and Periodicals by Language in West Bengal	146

6 AGRICULTURE AND RELATED SUBJECTS

6.1	Land Utilisation Statistics in West Bengal	149
6.2	Broad Pattern of Land Utilisation in West Bengal	150
6.3	Nine fold Classification of Land in West Bengal by District	154
6.4	Gross Cropped Area, Net Cropped Area and Cropping Intensity of West Bengal by District	159
6.5	Area under Crops by District in West Bengal	161
6.6	Production of Crops by District in West Bengal	179
6.7	Yield Rates of Principal Crops by District in West Bengal	197
6.8	Area and Production of Fruits and Vegetables in West Bengal	216
6.9	District wise Area and Production of Fruits and Vegetables in West Bengal	217
6.10	Index Number of Agricultural Area, Production and Productivity in West Bengal

1. AREA AND POPULATION

1. This Section deals with area and population of the State of West Bengal, their distribution and characteristics.
2. The main source of population data is the decennial population Census of the country. The first regular Census in Bengal was conducted in 1872, though it was scheduled to be taken in 1871. Since 1881, Census was held regularly at the interval of ten years. The latest Census was the fifteenth one, which was held in 2011.
3. It may be mentioned that the present state of West Bengal came into existence as a result of the partition of Bengal in 1947. The eastern part, which was included in Pakistan, later on emerged as an independent country viz. Bangladesh in 1971. There were fourteen districts in West Bengal including Kolkata at the time of partition. On 1st January 1950, the State of Cooch Behar was merged with West Bengal and was constituted as an additional district.
4. Chandannagore, formerly a French possession, merged in the state of West Bengal on 2nd October, 1954 as a part of the District of Hooghly.
5. As a result of reorganisation of State boundaries, certain territories of Bihar were included in West Bengal on 1st November, 1956. The added area formed the new district of Purulia and the sub-division of Islampur in the district of West Dinajpur.
6. Later, on 1st March 1986, the district of 24-Parganas was divided into South & North 24- Parganas and on 1st April, 1992, the district of West Dinajpur was divided into Uttar & Dakshin Dinajpur and the no. of districts in West Bengal reached to eighteen and it remained same up to December, 2001 as no other administrative reorganisations took place within this period. Finally, on 1st January, 2002, the district of Medinipur was divided into Medinipur (Purba and Paschim) and the number of districts in this state became nineteen. Administrative Divisions of the state of West Bengal are presented in this section.
7. The report of Census 2011 has already been released by the Director of Census operation, West Bengal. As per report of Census 2011, district wise data for Total Population, decadal variation of population, sex distinction of population etc. are presented in this section. Density of population is based on district wise Total Population as per Census 2011 and Geographical Area (in Sq. KM) of different districts are as per Census 2001. No data on district wise Geographical Area have been published for Census 2011.
8. Information about some important demographic features like population by religion, Population by Major Scheduled Languages etc. have not yet been released for 2011. In such cases, 1991 & 2001 Census figures have been given.
9. It may also be mentioned that definitions of terms like "House", "Village", "Town", "City", etc. have undergone some minor changes during successive censuses. These changes have not been taken into consideration in the preparation of time-series.

AREA AND POPULATION

TABLE 1.1
Geographical Area of West Bengal by District

West Bengal.

2. CLIMATE

1. The major factors that influence the climatic condition of a country are temperature, rainfall and humidity. The seasonal variations of these climatic factors in West Bengal for years are shown in this section.
2. Climatologically, the State of West Bengal has been divided into three zones, viz., Hilly zone, Sub-Himalayan zone and Gangetic zone. Hilly zone consists of three hilly subdivisions of Darjeeling district. The northern districts of Cooch Behar, Jalpaiguri, Siliguri subdivision of Darjeeling, Uttar and Dakshin Dinajpur and Malda form the Sub-Himalayan zone, while the Gangetic zone covers the remaining southern districts.
3. The Department of Meteorology, Government of India, collects climatological data from a number of stations spread all over the country. These stations are the primary sources of such data. In West Bengal, there are a number of meteorological stations from which the daily weather reports are collected. The Department of Agriculture of the State collects rainfall data from each district for every month.
4. In this section, figures on temperature and humidity are presented for eighteen important meteorological stations of the State. The daily average figures for twelve months are shown separately.
5. The mean reading shown in different tables represents the simple arithmetical average of the data for the period of record or of the recording centres, as the case may be.

3. ENVIRONMENT

1. Environment Statistics have become an integral part of requirement to assess quality of life. United Nations Development Programme (UNDP) has urged all nations to reflect the status of environment through statistical / quantitative presentation on vital environmental indices. In the current issue, an endeavour has been made to present key environmental parameters collected mostly from West Bengal Pollution Control Board. It is expected that the present effort would be user friendly and we would try earnestly to provide additional indicators in future. Economic Development of a state is now unquestionably backed by possible environmental impact. Environmental Statistics would provide a basis for environmental degradation prevailing in an economy. Based on their information strategic measures are to be taken for abatement of pollution.

4. VITAL STATISTICS AND PUBLIC HEALTH

1. This section deals with statistical information on vital events, medical facilities and districtwise population of the state estimated by compound annual growth rates of population based on Census data.
2. Demographic parameters like Projected Population, Crude Birth Rate, Crude Death Rate, Infant Mortality Rate and Expectation of life at Birth, which have been presented in this chapter are estimated and issued by Registrar General of India on a regular basis.
3. Annual statistics of medical care include data on districtwise number of medical institutions and beds. These data are compiled by the office of the State Bureau of Health Intelligence under the Directorate of Health Services, Government of West Bengal.
4. The data relating to registered doctors (allopath) are maintained by the Registrar, West Bengal Medical Council. Number of registered homoeopathic practitioners and kavirajs (ayurvedic practitioners) are maintained by the Council of Homoeopathic Medicines, West Bengal and Pashchim Banga Ayurved Parishad respectively.
5. Information regarding attack of Malaria, Kalazar and Japanese Encephalitis in West Bengal, which have been included in this chapter, are collected from the State Bureau of Health Intelligence, Govt. of West Bengal. The table on Achievement of Universal Immunization Programme has also been incorporated in this Chapter.

* Census Figures

Notes : 1) The figures from 2002 to 2010 and 2012, 2013 have been estimated on the basis of Geometric growth rates calculated from 2001 & 2011 Census population figures.

2) The aggregate of all districts will not exactly tally with population of West Bengal which has been calculated independently.

Sources : (1) Census Reports.

5. EDUCATION

1. Statistical information relating to Literacy and Education has been presented in this section.
2. Information regarding number of schools, students and school teachers has been collected from the respective District Statistical Hand Book. Information on number of colleges in West Bengal is obtained from Directorate of Higher Education. The Information on literacy is based on decennial census data.
3. Examination results of Calcutta University, Jadavpur University, Burdwan University, Kalyani University, Rabindra Bharati University, Vidyasagar University and North Bengal University alongwith the results of the examination conducted by Board of Secondary Education and the Council of Higher Secondary Education are furnished in this section. Various Universities across the State have been included in this edition.

EDUCATION
TABLE 5.1

6. AGRICULTURE AND RELATED SUBJECTS

1. This Section deals with statistics relating to agriculture and allied sectors. Figures relating to land-use, land holdings, area, production and productivity of major crops, agricultural inputs, agricultural implements and machinery, irrigation, forests, livestock, veterinary and fishery are presented in this section. Information on land holdings as revealed from agricultural censuses are also furnished here.

2. Crop Statistics: The main source of agricultural statistics of the state is the Directorate of Agriculture, Government of West Bengal. Crop surveys for both area enumeration and yield estimation were conducted by the Bureau of Applied Economics and Statistics, Government of West Bengal up to 1985-86. Since 1986-87, the area estimates are being prepared by the Socio-Economic and Evaluation Branch of the Directorate of Agriculture under E.A.R.A.S. scheme. Area enumeration is being undertaken by the field staff of the Land Records and Surveys. Crop cutting experiments are being conducted in different seasons by the field staffs of Bureau of Applied Economics and Statistics and Directorate of Agriculture. On the basis of the results of these experiments, the yield estimates of nineteen major crops are prepared by the Bureau and after obtaining the area estimates from the Directorate of Agriculture, the production estimates are also prepared by the Bureau. Crop statistics, released by State Agriculture Department are based on these estimates and the same relates to crop year (July -June). Vegetable production has been increased considerably in West Bengal in recent years. The information regarding area and production of fruits and vegetables in West Bengal, which have been presented in this section, are being maintained by the Directorate of Food Processing Industries and Horticulture.

3. Crop seasons: According to the period of harvesting of crops the crop year in West Bengal is divided into four crop seasons viz. 1) Bhadoi or Jute – Aus, 2) Winter or Aman, 3) Rabi and 4) Summer. The Bhadoi season commences roughly from 1st July and continues upto the middle of October while the Winter season begins from the middle of October and ends in the middle of January next year. The Rabi season starts from the middle of January and extends upto March and finally the Summer season commences from the beginning of April and ends in the end of June.

4. Land Use Statistics: Reporting area of the state is the land area for which the information on land use is available. The total reporting area of the state is classified into nine categories according to their uses. The districtwise figures for nine –fold classification of land has been presented in Table 6.3 of this section. In Table 6.1, these classes have been clubbed into five major groups as follows.

a) Area under forests: Area under 'forests' includes area actually forested or lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private and whether wooded or maintained as potential forest land. The area of crops raised in the forests and grazing lands open for grazing within the forests are also included under the forest area.

b) Area not available for cultivation: This group includes the following categories:

i) Land put to non-agricultural uses: This stands for all lands occupied by buildings, roads and railways or lands under water, e.g., rivers and canals and other lands put to uses other than agriculture.

ii) Barren and unculturable land: This covers all barren and unculturable land like mountains, deserts etc. Lands which cannot be brought under cultivation unless at a high cost, is classified as unculturable, whether such lands are in isolated blocks or within cultivated holdings.

c) Uncultivated land excluding current fallow: This group includes the following categories:

i) Permanent pastures and other grazing lands: This covers all grazing lands whether they are permanent pastures and meadows or not. Common grazing lands of the villages are included.

ii) Miscellaneous tree crops and groves not included in the net area sown: This class includes all cultivable land which is not included in net area sown but is put to some agricultural use. Lands under casurina tree, thatching grass, bamboo bushes and other groves for fuel etc. which are not included under 'orchards' are included under this category.

iii) Culturable waste: This includes land available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or the other. Such lands may be either fallow or covered with shrubs or jungles which are not put to any use. They may be assessed or not assessed and may be in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for the last five years or more in succession are also included in this category.

iv) Fallow land other than current fallow: This includes all lands which are taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

d) Current fallow: This category of land consists of cropped areas which are kept fallow during the current year. If any seeding area is not cropped in the same year, it is also treated as current fallow.

e) Net area sown: This consists of net area sown with crops and orchards, area sown more than once being counted only once.

5. Index of agricultural area, production & productivity: Index numbers of area, production and productivity with base 1981-82=100 for the State as a whole as well as for the districts have been presented in respect of all the important crops. Moreover, the indices of cropping pattern, cropping intensity, productivity per hectare of net area sown of selected crops and of net area sown have been included in this section.

6. Agricultural inputs: The information on consumption of fertilizers is maintained by Department of Agriculture, Government of West Bengal. The consumption of pesticides is collected from the plant protection and quality control unit of the Directorate of Agriculture, Government of West Bengal.

7. Irrigation: In West Bengal irrigation is done mainly through Government canals. The Department of Irrigation and Waterways is the primary source of information on major and medium irrigation projects. The information on minor irrigation (i.e. through deep tubewells, shallow tubewells, river lift irrigation etc.) is maintained by the Water Investigation & Development Department, Govt. of West Bengal.

8. Agricultural Census: The first agricultural census was held in 1970-71 and since then it was conducted quinquennially as the part of a national programme. Figures relating to the Ninth Agricultural Census, 2010-11 have been incorporated in this section. This Census had been implemented in the State taking reference year as 1st July, 2010 to 30th June, 2011, as a joint venture of Land and Land Reforms Department and the Evaluation Wing of Directorate of Agriculture, Government of West Bengal. The table relating to agricultural census provides information on number and area of operational holdings in West Bengal for different censuses starting from 1980-81.

9. Forest: The Principal Chief Conservator of Forests, Government of West Bengal and the Forest Development Corporation Limited are the sources of forest statistics in West Bengal.

10. Livestock, Veterinary & Fisheries: The only source of livestock statistics is the quinquennial livestock census which provides the data on number of different categories of livestock, their composition in terms of age, sex and breed and output of various livestock products and by-products. The first census is carried out in 1912 while the last census was held in 2012. The figures for 2003 and 2007 along with 2012 which have been presented in this section are issued by the Directorate of Animal Resource and Animal Health. The information on veterinary furnished in this section relates to veterinary aids maintained by the Directorate of Veterinary Services, Govt. of West Bengal. The progress of fisheries in this state is also presented in this section.

- Notes :
- i) Index of Cropping pattern in the j-th year = $\frac{\sum C_{ij} Y_{io} P_{io}}{\sum C_{io} Y_{io} P_{io}} \times 100$
- Where $C_{io} = \frac{a_{io}}{\sum a_{io}}$ = Proportion of area under the i-th crop in the base period
- $C_{ij} = \frac{a_{ij}}{\sum a_{ij}}$ = Proportion of area under the i-th crop in the j-th period
- Y_{io} = Yield per hectare of the i-th crop in the base period
- P_{io} = Price per unit of the i-th crop in the base period
- ii) Index of Cropping Intensity = $\frac{\text{Index of area under crops} \times 100}{\text{Index of net area sown}}$

Note : Figures include area irrigated under Kharif, Rabi & Boro Cultivation.

* Area reduced due to less Storage of the Kangsabati Reservoir.

+ The sharp increase in the figures for Jalpaiguri and Darjeeling in 2000-01 and onwards is due to the inclusion of Teesta Barrage Project.

This was not included in previous years' data.

Irrigation in West Bengal was suffered due to severe draught situation in the year 2010-11

7. MINES AND POWER

1. This section deals with the statistics on Mining Sector in West Bengal. Data on value and production of major minerals are presented in this Chapter. Data on production of coal are collected by various official agencies and published periodically in different reports. The information relating to coal is based on statements received from the Director General of Mines Safety, Government of India.
2. The production of coal in West Bengal are confined to three districts namely Burdwan, Bankura and Purulia, but the coal fields in Burdwan alone produce more than 99 percent of the total output of coal in West Bengal .
3. The Department of Power collects statistics relating to the installed capacity, generation and sales of electricity in West Bengal.
4. In West Bengal, electricity is generated in thermal, diesel, hydel and gas plants. The figures for installed capacity, energy generation, import / purchase, sales to ultimate consumer, loss of energy and other information relate only to the public utilities and exclude non-utilities like self- generating industries and railways.
5. Number of villages, where electricity is available, is also shown in this section. Information on total number of household actually electrified in rural West Bengal has also been included in this section.

MINES AND POWER

8. MANUFACTURING INDUSTRIES

1. *The Industrial Statistics Act* was passed for the first time in 1942. The Act provides for an annual census of manufacturing industries in India covering all establishments coming under the purview of section 2(i) and 5(i) of the Factories Act 1934. Afterwards, in 1956, *The Industrial Statistics Act, 1942* was replaced and *Collection of Statistics Act, 1953* was brought into force and rules framed thereunder in 1959. The Annual Survey of Industries (ASI) conducted under the statutory provisions of this act replaced the Census of Manufacturing Industries in 1959. After that, *Collection of Statistics Act- 2008* was brought into force and rules framed thereunder in 2011. At present Annual Survey of Industries (ASI) has been conducted under the statutory provisions of this act since 2010-11.

2. The coverage of ASI extends to all factories registered under sections 2m (i) and 2m (ii) of Factories Act 1948, with a) 10 or more workers using power or b) 20 or more workers not using power on any day of the preceding 12 months. The census sector comprises factories employing 100 or more workers using power and 100 or more workers not using power. The remaining factories belong to non-census sector.

3. From 1980 onwards, Bureau of Applied Economics and Statistics, Government of West Bengal has started conducting Annual Survey of Industries in West Bengal in collaboration with National Sample Survey Organisation, Government of India.

4. The district wise data covering Annual Survey of Industries in West Bengal, which have been presented in this section, are compiled by Bureau of Applied Economics and Statistics, Government of West Bengal. The rest of the tables on ASI are compiled from the ASI reports on Factory Sector published by CSO.

5. In October, 2006 the Micro, Small & Medium Enterprises Development (MSMED) Act, 2006 was introduced. The act has sought to simplify the procedural formalities for the enterprises in micro & small scale sectors. The procedure of registration of unit has been substituted by the procedure of filing of Entrepreneur Memorandum (EM). EM-I is required for proposed unit and EM-II for already established unit. Relevant statistics in this regard are furnished in this section.

6. Bureau of Applied Economics and Statistics constructs the Index numbers of industrial production for West Bengal. From 2004-05 onwards index of industrial production with base 2004-05 = 100 has been introduced. Table for present series consists of figures for last eight years since inception.

7. Economic Census provides information on economic activity, especially for the unorganised sector. The first Economic Census was conducted in the country in 1977 as a centrally sponsored scheme under the technical guidance of the Central Statistical Organisation. This census covered only the non-agricultural establishments of the country. The second, third, fourth and fifth Economic Censuses were carried out in 1980, 1990, 1998 & 2005 respectively. In these censuses, all the agricultural as well as non-agricultural enterprises were covered.

8. Some concepts as used in the Economic Census are given below:

Agricultural Establishment: An establishment engaged in any of the activities relating to livestock production, agricultural services, hunting, trapping and game propagation, forestry, logging and fishing is defined as an agricultural establishment. Activities pertaining to crop production and plantation were excluded from the coverage of Economic Census.

Non Agricultural Establishment: All establishments engaged in activities other than those stated above are non - agricultural enterprises.

Own Account Establishment: An establishment, which is operated only with the help of the members of the household of the owner, is termed as an own account establishment.

Establishment: An enterprise or a part of an enterprise that is situated in a single location in which one or predominantly one kind of economic activity is carried out is termed as an establishment.

9. EMPLOYMENT AND LABOUR

1. Decennial census provides figures on employment in all important sectors of the economy. The final estimates for occupational classification of census 2011 have been presented in this section. It divides the entire population in two broad classes viz. workers (main & marginal) and non-workers. The workers are subdivided into four economic statuses viz. 1) cultivators, 2) agricultural labourers, 3) household industry (manufacturing, processing, servicing and repairing) and 4) other workers.

2. The Bureau of Applied Economics and Statistics, West Bengal collects and compiles staff statistics of Government of West Bengal. The office of the Chief Inspector of Factories compiles figures on employment in industrial establishments and other relevant data from the returns submitted by the factories registered under the Factories Act. The figures presented in this section relate to the National Industrial Classification 2008. Figures for employment in small industries are collected and compiled by the Directorate of Micro & Small-Scale Enterprises. The name has been changed as "Directorate of Micro, Small & Medium Enterprises". Employment data for mines are available from the Directorate General of Mines Safety, Government of India. Statistics on employment in Tea Plantations have been collected from the Tea Board.

3. The office of the Labour Commissioner collects information about strikes, lockouts and other disputes occurred in industries and establishments. The Statistics on accidents in different industries have been collected from the publication 'Labour in West Bengal'. The figures on workmen's compensation are collected and maintained by the office of the Commissioner for Workmen's Compensation.

4. Statistics on industrial disputes are limited to the cases, which involve ten or more workers irrespective of its duration. Information regarding accidents occurred in the industrial establishments and mines are covered by the Factories Act and Mines Act respectively. Statistics collected under the workmen's compensation act relate to those to whom compensation have been paid.

5. There are about 73 employment exchanges mostly located in the urban areas of the state. The employment exchange statistics include number of persons seeking employment, number of vacancies notified, number of persons placed in employment etc. This information is maintained by the Directorate of Employment, Government of West Bengal.

* As on 31st December.

E : Estimated.

10. CONSTITUTION AND ADMINISTRATION

1. This Section consists of information about the following subjects:
 - (i) Constitution and Elections.
 - (ii) Administration of Police.
 - (iii) Working of Local Bodies, such as Municipalities and Municipal Corporations. Information on Panchayats has not been included.
2. Statistics relating to election are generally published after every general election. The general election was held for the first time in 1952 under the new Constitution of India. The broad features of the results of the election in West Bengal in 2004 and 2009 for Parliamentary Constituencies and for the years 2006 and 2011 for Assembly Constituencies have been presented in this section.
3. The primary sources of statistics of Police Administration are the Offices of the Police Directorate in the State. The information about the Police Administration for areas excluding Kolkata and Suburbs are collected from the Inspector-General of Police, West Bengal and the same statistics for the city of Kolkata and suburbs are maintained by the Commissioner of Police, Kolkata.
4. Data on the working of Local Bodies are compiled from the annual returns received from the Local Bodies. The papers contain various aspects of working of the Local Bodies including their income and expenditure.
5. The income and expenditure on revenue account of the Corporation of Kolkata presented in this section are based on the Budget reports of the Kolkata Municipal Corporation.

CONSTITUTION AND ADMINISTRATION

12. STATE DOMESTIC PRODUCT

1. This section presents estimates of Net State Domestic Product (NSDP) and Per Capita Income of West Bengal by industry of origin both at current and constant (2004-05) prices. The estimates of the present series of the State Domestic Product with base year 2004-05 have been prepared in accordance with the methodological guidance of the National Accounts Division of the Central Statistical Office, Government of India. The entire economy is classified in three broad sectors, namely, Agriculture and Allied, Industry and Services. The estimates of SDP have been obtained by the product approach for commodity producing sectors like Agriculture, Forestry, Fishery, Mining and Manufacturing (registered) and by a blend of income approach and expenditure approach for the remaining sectors of the economy.
2. The estimates of Gross Domestic Product (GSDP) at Current and Constant (2004-05) prices have also been incorporated in this section.
3. The Per Capita Income is obtained by dividing the estimates of total NSDP of a particular year by estimated mid-year population of the same year. The mid year population has been estimated on the basis of 2001 census population by the office of the Registrar General of India.
4. The district level estimates of Net Domestic Product by industry of origin both at current and constant (2004-05) prices have been prepared and presented in this chapter. In conformity with the production approach followed at State level for Agriculture Sector, the estimates for value of output at district level for different crops have been prepared. In Forestry Sector, the State level estimates have been allocated amongst the districts using suitable indicators like district-wise forest area and district-wise rural population. For the Fishery Sector, the district-wise estimates have been prepared on the basis of district-wise production of fish. In Manufacturing Registered Sector, the State level GVA has been allocated amongst the districts in proportion of the district level GVA prepared by ASI. In the sectors like Manufacturing (un-registered), Construction, Electricity, Gas & Water Supply, Transport, Storage & Communication, Real Estate, Public Administration and Other Services, the working force engaged in respective activities is used as the main indicator. The state level estimates for the sector Trade, Hotel & Restaurants have been allocated to the districts in proportion to the gross value of output of commodity producing sectors by districts. In case of Banking and Insurance the State estimates are allocated to the districts on the basis of district-wise no. of bank offices. In case of State Domestic Product, the estimates upto 2012-13 (Provisional) have been presented but for District Domestic Product, the estimates upto 2012-13 (Quick) have been presented. In case of India, Net Domestic Product estimates upto first revised estimates as per press release on 31.01.2014 have been presented.
5. The per capita income for the districts has been estimated by dividing the Net District Domestic Product by estimated mid-year population of the districts.

13. STATE FINANCE

1. The Budget Publications published by the Finance Department, Government of West Bengal are the primary source of information for this Chapter. The publications issued by the Reserve Bank of India viz. "Report on Currency and Finance" and "State Finances, A Study of Budget" also provide data on Public Finance. National Savings Commissioner, Government of India collects and compiles Statewise figures of investment in Small Savings Schemes.

2. The Civil Budget Estimates containing all the anticipated revenue and expenditure of the State Government for the ensuing year (April to March) prepared by Finance Department, West Bengal are presented by the Minister-in-Charge of Finance to the State Legislature during February/March every year. Besides the budget estimates of the ensuing year, the revised estimates for the current year and actual of the previous year are also shown under different heads of accounts in the Budget Publications.

3. The Accountant-General keeps day-to-day accounts of the expenditure and the balances of different heads of accounts.

4. Revenue: The sources of State Government revenue are quite different from those of the Central Government revenue. The items of revenue receipts are broadly classified into four heads according to source. These are (1) State tax revenue, (2) Share of Centrally levied taxes, (3) State non-tax revenue and (4) Grants-in- Aid and Contributions from Central Government.

State taxes which are collected in West Bengal are Agricultural Income Tax, Land Revenue, State Excise Duties, Stamp Duties, Registration Fees, Electricity Duty, Sales Tax, Motor Spirit Sales Tax, Taxes on vehicles, Entertainment Tax, Betting Tax, Raw Jute Tax, etc. Besides the receipts from these Taxes, the Government of West Bengal gets a share of the net proceeds of Corporation Tax, Taxes on Income other than Corporation Tax, Taxes on Wealth, Customs, Union Excise Duties, Service Tax, Taxes on Income and Expenditure and Taxes on Railways Passenger fares from the Union Government.

5. Expenditure: Expenditure on revenue account is grouped into three classes viz., (1) General Services, (2) Social & Community Services and Economic Services (Developmental Expenditure) and (3) Grants-in-Aid and Contribution.

6. It may be stated that the revenue and expenditure data maintained by the various departments may not agree with the actual shown in the budget estimate. This is due to the fact that the actual shown in the budget estimate are arrived at after making various adjustments between the State Government and the Central Government accounts but such adjustments are not usually taken into account by the Departments for departmental figures.

7. (i) The "Economic Classification" of the State Government Budget enables us to assess the economic significance of the various Government transactions and their impact on the rest of the economy. For the purpose of this study the rest of the economy is taken to be inclusive of Central Government, other State Governments, Local Bodies, Statutory Public Undertakings, Private Commercial & Non-Commercial Corporations on Companies & Individuals.

(ii) The Economic-Cum-Purpose Classification of the State Government Budget is a two way cross classification, which indicates the distribution of budgetary expenditure for a particular purpose among different economic categories.

(iii) Both the classifications have been done following the methodology adopted by C.S.O., Government of India. The compilation work has been done by Bureau of Applied Economics & Statistics, Government of West Bengal.

(iv) From Economic-Cum-Purpose Classification of State Government Budget, we are able to assess the Capital Formation of Government Administration & Enterprises within the State.

8. The figures relating to Income and Outlay account of administrative departments of the State, Expenditure and Receipts on Current account of Public Authorities (enterprises) and on Capital account of Public Authorities (both administration and enterprises) have been presented in this section. Data on Capital Formation of Government Administration and Enterprises of the State have also been furnished.

14. TRANSPORT AND COMMUNICATION

1. Statistical information relating to transport and communication of the State of West Bengal are presented in this section.

2. **Roads:** In West Bengal, the Public Works Department and Public Works (Roads) Departments are responsible for construction and maintenance of roads under the direct control of the Government. Information relating to roads maintained by Municipalities and Zilla Parishads, as available from the respective local bodies, have also been presented in the section.

The State Government nationalised the bus services of Kolkata in 1948 and converted it into a Corporation in 1960. North Bengal State Transport Corporation was also formed in 1960. The South Bengal State Transport Corporation, which is responsible for running buses in Durgapur and some other places in South Bengal, was established in 1963. The Calcutta Tramways Company Ltd. was formed in 1967. In 1989, another transport undertaking viz., West Bengal Surface Transport Corporation has been established, which deals with buses and ferry services. Statistical information regarding the activities of these organisations has been presented briefly in this section. The Director of Public Vehicles in Kolkata and the District Authorities in different districts are the primary sources of information regarding motor vehicles on road. However, the data presented here have been collected from the Department of Transport, Government of West Bengal.

3. **Railways:** The State is served by three zonal railways, viz., Eastern, South-Eastern, North-East Frontier Railways and Metro Railway in Kolkata. Statistical information relating to railways presented in this section has been collected from the offices of these zonal and metro railways. To calculate route kilometers, double or triple lines are counted only once.

4. **Shipping:** The statistics relating to foreign and coastal shipping in respect of Kolkata Port and Haldia Port are published by Kolkata Port Trust and those have been incorporated in this section.

5. **Post and Telegraphs:** The information regarding post offices are collected from the office of the principal Chief Post Master General, West Bengal Circle.

6. **Telephones :** The Statistics relating to telephone facilities available in Kolkata and West Bengal (excluding Kolkata) collected from the offices of the Chief General Manager, Calcutta Telephones and Chief General Manager, Telecom, West Bengal Circle respectively have been presented in this section. The number of mobile users in the State of West Bengal, including Andaman & Nicobar, as well as for India as a whole as given by Telecom Regulatory Authority of India (TRAI) have also been furnished in this section.

Note : Roads in Kolkata maintained by KMC are shown in Table 12.4

20 km roads maintained by City Divn. (PWD), which was previously included in 24 Pgs., has been shown against Kolkata from 2004.

Definition

Surfaced : Road coated with materials like cement concrete, bitumin, stonechips etc. over earthen base.

Unsurfaced : Earthen road without any layer of road material.

Note : Figures relate to the vehicles for which road tax was paid.

Source: Transport Department, Govt. of West Bengal.

N.B. It appears that in the year 2009 and 2010, number of vehicles on road has reduced due to removal of vehicles aged more than 15 years as per Court order

15. TRADE AND COMMERCE

1. This chapter deals with statistics on trade, banking and currency, insurance, joint stock companies and co-operative societies.
2. Statistical information on the above subjects is systematically collected by different Government agencies and is published periodically in different reports. These reports are the primary sources of data on tertiary sectors of the economy.
3. Indian trade statistics are collected by different agencies. Information on foreign and coastal trade are collected by the customs authorities at the Indian seaports, airports and land customs' stations, while those on internal and land frontier are collected by the railways and steamer companies. All such statistics are published by the Director General of Commercial Intelligence and Statistics (DGCIS), Government of India.
4. It may be stated that the figures on foreign trade are based on declarations made by importers and exporters in the bills of entry and shipping bills respectively. The quantity recorded is generally the net weight, i.e., excluding packing and the value is C.I.F. (carried in freight) in the case of imports and F.O.B. (freight on board) in the case of exports.
5. The Reserve Bank of India was established on the 1st April, 1935 as the central bank of the country, under the Reserve Bank of India Act, 1934. The Bank was constituted to act as the bank of bankers and to regulate the issue of bank notes and to operate the currency and credit system of the country. A number of returns are submitted to Reserve Bank of India by Commercial Banks in the country. The information furnished therein is published in different monthly or quarterly bulletins and annual publications of Reserve Bank of India.
6. Since 1st September, 1956 the life insurance business in the country was taken over by the Government of India. Statistics on new business in the State of West Bengal are included in this section.
7. Data relating to Joint Stock Companies working in West Bengal are collected from Registrar of Companies, West Bengal, under the Indian Companies Act, 1913 and in subsequent amendment of 1956.
8. In West Bengal, the Registrar of Co-operative Societies maintains the detail statistics on the working of the co-operative societies in the different districts of the State.

16. PRICES

1. The Section deals with the movement of prices over time with focus on West Bengal in the form of index numbers.
2. The Bureau of Applied Economics and Statistics, Government of West Bengal, compiles the index numbers of wholesale prices of agricultural commodities in Kolkata (Base: 1980-81=100) have also been furnished. Further, the index numbers of wholesale prices of agricultural commodities in West Bengal (Base: 2000-01=100) have also been presented from April, 2011 to December, 2012. The index numbers of wholesale price by major groups in India issued by the Economic Adviser to the Government of India, have also been included in this section.
3. The Bureau of Applied Economics and Statistics, Government of West Bengal compiles the consumer prices index numbers of Kolkata by groups of items of consumption and by monthly per capita expenditure (MPCE) class with base 2006-07=100. The population are classified according to four MPCE classes (viz., Rs. 1 – Rs. 600, Rs. 601 – Rs. 1000, Rs. 1001 – Rs. 1800, Rs. 1801 – above) and in each class of MPCE, six groups of items namely i) Food, Beverage & Tobacco, ii) Fuel & Light, iii) Clothing, Bedding & Footwear, iv) Housing, v) Miscellaneous and vi) All combined have been considered.
4. The Labour Bureau, Government of India, is publishing index numbers of consumer prices for Industrial Workers (with base 2001=100) for selected towns in West Bengal, for important urban centres of the country and also for the country as a whole. The index number of consumer prices for Agricultural Labourers (with base 1986-87 = 100) are also being published by the Labour Bureau, Government of India, for different States as well as for the country as a whole.

17. PLANNING AND DEVELOPMENT

1. This statistical information relating to Planning and Development has been presented in this section.
2. The tables in this section are based on the data collected and compiled from published as well as unpublished records of the Planning Department (earlier known as Development and Planning Department) and Finance Department, Government of West Bengal. The figures for agreed outlay and expenditure from the Ninth Five Year Plan 1997-02 onwards for the State of West Bengal have been presented for different heads of development. Comparative statements on outlay / expenditure of different plans under major heads of development for India and West Bengal have also been given.

18. SOCIAL STATISTICS

1. The tables on houses and amenities available to Households in West Bengal compiled from 2011 census data have been released in the form of a report by the Director of Census Operations, West Bengal. The district wise data on distribution of occupied census houses by type of use as obtained from the said report are included in this section. Districtwise data regarding distribution of Households according to the condition and status of their residential houses and drinking water facilities available to them are also included in this section. The concepts of different status of houses as observed in Census are given below:

Permanent Houses: Houses in which both wall and roof are made of permanent materials are called permanent houses. Material of wall can be burnt bricks, G/metal/asbestos sheets, stone with lime or cement or cement concrete. Roof may be made of tiles, slate, shingle, corrugated/galvanized iron or zinc/other metal of asbestos sheets, bricks, lime and stone, stone, RBS/RCC or concrete.

Semi-Permanent Houses: Houses in which either wall or roof is made of permanent materials or the other is made of temporary material are called semi-permanent houses.

Temporary Houses: Houses in which both wall and roof are made of materials which have to be replaced frequently are termed as temporary houses. Wall may be made of grass, thatch, leaves, reeds, bamboo, mud, plastic/polythene, un-burnt bricks or wood. Roof may be made of grass, leaves, bamboo, thatch, mud, un-burnts bricks or wood.

2. A table showing comparative data on literacy of general population and slum population in municipal towns of the state has been presented here. The data relate to Census 2011.

20. NATIONAL COMPARISON

1. This chapter presents data on inter-state comparison regarding demographic features and vital statistics released by Directorate of Census Operation and Registrar General of India respectively.
2. Performance in foodgrains production in major states collected from Department of Agriculture, Govt. of India and progress of the major states in the industrial sector as revealed from ASI reports have been incorporated in this section. Statewise sale of electricity, which undoubtedly is a major indicator of economic activities especially in industry sector, has also been furnished here.
3. The state wise data on Gross State Domestic product (GSDP) and Net State Domestic Product (NSDP) at Constant Prices (2004-05) and Current Prices collected from the Directorate of Economics & Statistics of respective State Governments, and for All-India from Central Statistics Office have been presented here. This chapter also includes data on some important fiscal indicators like state wise per capita revenue receipts, per capita revenue expenditure, per capita tax revenue, per capita developmental expenditure etc. of the states compiled from R.B.I. publications.
4. The State wise percentage of population below poverty line estimated by Planning Commission, Government of India has been furnished in this chapter. Estimated quantity of cereal consumption per person by states and per capita consumer expenditure by states as revealed from NSS Report on Household Consumer Expenditure in the different rounds have also been included here. The regional estimates of per capita consumer expenditure over time reflect the change in the level of consumption pattern in both rural and urban areas.
5. Some other relevant statistics like cheque clearance, drinking water facilities and criminal activities by major states have been incorporated in this section.

1. Neo-natal Mortality Rate: = Number of infants dying within the 1st month of life (under 28 days) per 1000 live births in a year.
2. Post Neo-natal Mortality Rate = Number of infants dying between 28 days and 1 year of age per 1000 live births in a year.
3. Child Mortality Rate = The probability of dying between the first and the fifth birth days.
