Foreword

It is a matter of great joy and satisfaction that the School Education Department has been able to bring out yet another edition of a repository of relevant data and information in the form of “Annual Publication 2013-14” with reference to 30th September 2013, thanks to the tireless efforts put in by the officers and staff of this Directorate. The information contained in the present edition may not be necessarily complete, given a plethora of other publications where such data and factual details as are not incorporated in this, have been reflected.

I find no words in my dictionary to express the profundity of my gratefulness to subordinate officers, such as the District Education Officers, Sub-Divisional Education Officers, etc. for their active involvement by way of furnishing relevant data and other inputs, but for which this publication, I believe, would not have been possible. The officers and staff of the Statistical Cell deserve kudos for their toil and dedication towards bringing out this publication.

I am confident that this publication, albeit thin, would prove to be a critical source of information to those who are interested in the dynamics of education in Mizoram.

Preface

It pleases me to present an Annual Publication which contains important statistical data on list of Schools, number of teachers and students enrolment for the year 2013-2014. Efforts have also been made to present another volume of publication titled 'Statistics of School Education at a glance 2013-2014' which will be an important indicator on different parameters of School Education.

I would like to place on record my appreciation for all the hard work put in by Statistical Cell in the Department in bringing out this publication. I hope that the planners, policy makers, public administrators, Research Scholars and public will find the publication both informative, useful and readily reference in our day to day works.

Further suggestion/ Comments for improving the publication are always welcome.

I hope that this publication will be useful to Policy makers, Administrator, Planners and Researchers and its contents will guide them towards the betterment of the society and the development of the State.
