GENDER STATISTICS

ANDHRA PRADESH

2013/2014

**DIRECTORATE OF ECONOMICS AND STATISTICS
GOVERNMENT OF ANDHRA PRADESH
HYDERABAD**

P R E F A C E

Gender inequality is the most pervasive form of inequality around the world and a pressing human rights concern. A critical aspect of promoting gender equality is the empowerment of women with a focus on identifying and redressing power imbalances and giving women more autonomy to manage their own lives. For that there is a need of women related information to plan various Gender related programmes both at State and Sub-State levels on different indicators. So far many efforts have been made by Government and Non-Government Agencies for Women Empowerment. Still there is a data gap in Gender Statistics at District level.

For that, the Directorate of Economics and Statistics, Andhra Pradesh is bringing out an annual publication on Gender Statistics since 2010. So far two (2) publications were released. In its series the present publication of "*GENDER STATISTICS, ANDHRA PRADESH-2013/2014*" is (3rd) publication. In bringing out the publication severe efforts have been made to compile the information on women economic empowerment, leadership & participation, health, education, violence against women, and employment. Hope that this publication will be very useful to the Government departments, NGOs and others working in the area of Women Empowerment.

We wish to keep on record the cooperation extended by various Government departments and other agencies who supplied several data sets for incorporate in the Publication.

The efforts put in by the Officers and Staff of Social Statistics Division of Directorate of Economics and Statistics are highly appreciated.
