P R E F A C E

There is a need for women related statistics for planning various Women Empowerment Programmes at State and Sub-State levels on various indicators. Even though many efforts are being made by Government and Non-Government Organisations (NGOs) for Women Empowerment, sufficient data on Gender Statistics at District Level is not available at Present.

To fill the gap on availability of these data, the Directorate of Economics and Statistics was brought out first publication on Gender Statistics for the year 2010 with gender related data. In continuity, the present publication of "GENDER STATISTICS, ANDHRA PRADESH-2011/2012" is second in its series and consists of 13 districts data. Severe efforts have been made in bringing out this publication by incorporating information on several genders related issues. Hope that this publication will be very useful to the Government departments, NGOs and others working in the area of Women Empowerment.

We wish to keep on record the cooperation extended by various Government departments and other agencies who supplied several data sets for incorporation in the Report.

The efforts put in by the Officers and Staff of Social Statistics Division of Directorate of Economics and Statistics are highly appreciated.
