13.	Attendance Tracking under SSA	
	Attendance Tracking of Teachers under SSA: Progress in 2011-12	232-250
	Attendance Tracking of Students under SSA: Progress in 2011-12	251-270
14.	Status of states with respect to RTE	271-276
15.	Summary of Physical Progress in all Quality Interventions up to 31 March 2012	277-289

Brief Overview
of
Quality Improvement in Sarva Shiksha Abhiyan

FOCUS ON IMPROVEMENT IN QUALITY OF ELEMENTARY EDUCATION

Sarva Shiksha Abhiyan is the flagship programme of the Government of India for Universalisation of Elementary Education [UEE]. Ensuring education of satisfactory quality is a key SSA goal.

Accordingly, SSA has several features that seek to improve the quality of elementary education. These essentially pertain to (I) ensuring basic provisioning to enable improvement in the quality of classroom transactions (II) large scale capacity building of States, for undertaking and evaluating interventions for quality enhancement and (III) focus on assessment of learning outcomes and their improvement, as key indicators of the quality of learning. A strong focus on quality issues in elementary education underpins all efforts under SSA, especially as the programme enters its final phase of implementation. There is a clear outcome orientation within the programme, reflecting an understanding in the light of the RTE implications that quality inputs of different kinds are integrated, whether in the form of additional teachers, training programmes, textbooks, grants and academic support mechanism etc. must translate into tangible outcomes, having a nuclear objective that impacts and reflects on the improvement in the quality of our classrooms processes and pedagogic practices aiming the advantage to the learning levels of children.

I. Basic provisioning to create enabling learning conditions

A variety of inputs are needed to address quality in education. These include adequate physical infrastructure in schools, trained teachers, adequate teaching learning materials in classrooms, on-site academic resource support to teachers, relevant curriculum and textbooks etc. Sarva Shiksha Abhiyan concretizes several inputs for quality improvement, so that these lead to tangible outcomes in the form of satisfactory learning achievement for children. SSA ensures basic provisioning for effective classroom transactions, as follows:

a. Provision of good school building and equipment to all schools

19.01 lakh new primary, upper primary schools and additional class rooms have been sanctioned under SSA so far (including supplementary appraisal). There is also a provision for teaching learning equipment for new primary schools @Rs. 20,000/- per school and for new upper primary schools @ Rs. 50,000/- per school. In 2011-12, it has been planned to provide school grants to 13.20 lakh schools, and TLE grants to 16,973 new schools opened under SSA. The progress up to March 2012 is 97% for School grants, 95% for TLM Grant and 48% for TLE grants has been consumed. Most of the states have mentioned that the type of materials procured through school/SDMC level committee recommendations includes things like, work-books, work sheets, Hindi reading cards, English reading cards, Science kit, Maths kit, maps, charts on different

subjects, globes, atlas, dictionary, story books, SLM, library books, equipment and furniture etc.

b. Providing quality ECCE to all children until 6 years of age

SSA supports early school education in the form of ECCE as a part of the interventions related to innovations. Every district is supported an amount of Rs. 15 lakh per year to strengthen their measures towards ECCE material development, teacher training and classroom processes. Many States including Sikkim, Chandigarh, Punjab, Assam, Delhi etc. have utilized this provision effectively to promote effective ECCE. For this SSA authorities collaborated with the Department of Women & Child Development or Social Welfare Department, who run Anganwadi Centers and undertake various related activities. SSA has been insisting on the States that these ECCE centers need to integrate and operate with the regular schools, so as to have a double advantage of preparing the pre-nursery kids for schooling as well as targeting the girls to be mainstreamed, who remain engaged in sibling care.

c. Ensuring minimum instructional level as per RTE & meaningful stay of each child in school

This has remained a major thrust of the SSA to design various strategies to make the school a happy learning center where the teacher undertakes various joyful activities to encourage optimum participation of all children in the teaching learning processes. At present, majority of states have been supported for large scale Learning Enhancement Programmes (34 at Primary level and Upper Primary level) which are mostly activity oriented initiatives and involve all children in and around schools. This has improved the nature of classroom processes and attracts higher participation of children. Mid Day Meals across the country also has contributed significantly to higher enrolment and retention in schools. In order to implement the provisions of RTE, there is an overall focus now on the transformation of the class room processes in a children centric way. The states have emphasized that the teacher instruction time be got reduced and learning opportunity time for children be increased, to ensure that the children remain engaged in the process of learning. As per the provisions of RTE, Primary schools and Upper primary schools are supposed to observe a minimum of 200 and 220 working days and 800 and 1000 working hours every year respectively. Similarly teachers are also to devote 45 working hours every week including preparatory hours. This whole emphasis is aimed at a meaningful learning opportunity time for children in the school.

To track and enhance student's enrolment and retention in schools, several measures have been undertaken at different levels. The Quality Monitoring Tools operationalized in all States provides a quarterly feedback about attendance of students from school level to cluster and higher level. Other than this, States have been supported to undertake external surveys on student and teacher attendance on a regular basis to track and enhance attendance rates of both students and teachers. With the implementation of the RTE, there is a serious attempt to integrate and empower the community in the whole school development process. The community/ civil society members are empowered to keep a tab on the attendance of the teachers as well as the students through SDMCs, in which more number of parents and more of mothers will be involved. The Ministry is also committed to undertake studies on attendance rates to assess the progress in this regard. A study undertaken in 2006 - 07 showed that there

has been approximately 70% attendance of students and 80% attendance of teacher in schools during the year 2006 – 07. To assess the progress further in this regard another study has been undertaken for the year 2009 – 10.

Providing trained and committed teachers in all schools

To ensure adequate number of teachers in all schools, appointment of about 20.99 lakh new teachers has been approved under SSA since the inception of the program, out of which 12.26 lakh teachers have been recruited up to December 2011.

The SSA framework has been amended in tune with the implications of RTE w.e.f. 2010-11 and the supplementary PAB has been held and funds allocated to each State/ UT in consonance to the RTE norms. As per the norms, there will be 2 teachers in the primary school up to 60 children, 3 teachers for 60-90 children, 4 teachers for 91-120 children, 5 teachers for 121-200 children. There will be one head teacher other than 5 teachers above 150 children in a school. Similarly at the upper primary level at least there will be 1 teacher for every 30 children and a separate teacher for science/ Maths, social sciences and Language specific educational background.

As required under RTE norms the regulatory body of teacher education (National Council for Teacher Education) has prescribed qualification for teachers' appointment at elementary level. The qualifications apart from academic/ professional degree or diploma also prescribe that every State will conduct Teacher Eligibility Test for recruiting the teachers. The CBSE and fourteen other States have already conducted the TET as per prescribed directions of NCTE. The states who have conducted TET include Andaman & Nicobar, Andhra Pradesh, Chandigarh, Daman and Diu, Gujarat, Haryana, Jharkhand, Madhya Pradesh, Manipur, Nagaland, Punjab, Rajasthan, Uttar Pradesh and Uttarakhand. Other States are going to introduce the TET from the ensuing academic session. Moreover, to ensure that teachers who are newly recruited are adequately trained, SSA also provides for 30-days induction training to orient newly recruited teachers about their roles and responsibilities, expectation of the SSA programme and specific state/district priorities in order to have quality education.

Moreover, to ensure that all schools have adequately trained teachers, SSA provides for 60-days training to teachers who have not received pre-service training. As per the implications of RTE the teachers need to be professionally trained as per the qualification prescribed by NCTE. Untrained teachers has been the major issue in several states like Jharkhand, Chhattisgarh, J&K, WB and majority of the NE States. The states have been emphasized on the recruitment of the trained teachers only, along with evolving a clear strategy to train the existing untrained teachers to clear the back log with in a shortest possible time frame. All the working teachers will have to acquire the prescribed qualification as per NCTE norms. Out of a target of 2,31,972 untrained teachers 74,732 have been trained with overall 32% achievement till March 2012. There is over all emphasis on the states that no further recruitment of the untrained teachers to be continued. The intake capacity of the TTIs be enhanced, more options be worked out for a partnership with IGNOU, Govt. and Privately recognized TTIs. Teacher training through distance mode has to be a 2 year diploma as recognized by NCTE. Those teachers who have undergone 6 months CPE diploma are required to undergo further 18 months training to complete 2 year as approved by NCTE. All the states

facing untrained teachers problem are weighing all options to comply with the RTE implication in the cushion period.

d. Improving the quality of existing pre-service teacher education programme

Pre-service teacher education remains a major influence towards the quality of teachers recruited in the system and also their performance in schools. SSA since its inception has laid strong emphasis on deeper convergence and collaboration with the Teacher Education Institutions (TEIs) including District Institutes of Educational Training (DIETs), Colleges of Teacher Education (CTEs), Institutes of Advanced Studies in Education (IASEs) and State Council of Educational Research and Training (SCERT) in States. In recent regional workshops on Education of Equitable Quality for State Education Secretaries, State SSA Project Directors, SCERT Directors and State Pedagogy Coordinators and also in PAB meetings of Ministry this issue has been discussed and states have been urged to synchronize their pedagogical renewal processes and teacher capacity building exercises in collaboration with TEIs with focus on child – friendly and inclusive curricular frameworks. Also states have been encouraged to give special emphasis to renewal of teacher education curriculum and teacher training processes keeping in view the ground realities like multi grade classrooms, children's learn process, increasing diversity in classrooms, and new approach to learning assessment, etc. States such as Bihar, Orissa, Kerala, Tamil Nadu have already initiated processes in this regard.

e. Organizing quality in-service teacher education to all teachers on a periodical basis with a follow-up mechanism

SSA places great emphasis on building the capacity of teachers for teaching, through continuous in-service training programmes. The Scheme provides for regular annual in service training for up to 20 days per teacher. The SSA framework was recently amended to give more emphasis to practical classroom related teacher training by providing for a maximum of 10 days institutional training at BRCs level, and another 10 days specifically at cluster/school level in order to ensure follow-up, peer learning and experience practical classroom transactions. It has been emphasized that for renewed teacher training, States need to evolve a motivated resource pool. In 2011-12, SSA sanctioned financial help for providing in-service training of 20-days to 41.58 lakh teachers, and up to March 2012, 83% has completed the training. Similarly 1,46,662 resource persons were targeted to be trained for 10 days and 65% received training till March 2012.

All trainings funded from SSA cover several pedagogical issues, including content and methodology with a view to improving teaching-learning transactions at classroom level. Some of the major focus areas of training include guiding principles of NCF 2005, how children learn, executive summaries of NCF related position papers, subject-specific content or learning difficulties, nature of classroom processes, activity-oriented methods, use of TLMs or learning kits, nature of learning assessment, performance tracking of teachers & trainers, quality management, etc. NCERT prepared fresh guidelines for in service teacher training under SSA in January 2007 in a document known as 'The Reflective Teacher', which has been shared with all States.

Majority of States provide follow-up to the training programs through regular visits to schools by the CRPs and BRPs to observe whether the training inputs are reflected in classroom practices, and to provide on-site support to teachers where needed. Moreover, Cluster-level meetings are organized usually on a monthly basis, as a platform for teachers to discuss emerging classroom issues and obtain additional training support and resources on a needs-basis.

States such as Gujarat, Maharashtra, Bihar, Kerala, Uttarakhand, Andaman & N Island, Daman & Diu, Himachal Pradesh, Andhra Pradesh, Madhya Pradesh, Chandigarh, Nagaland and Rajasthan have all used teacher training as a platform for addressing emerging issues in education, and enhancing learning outcomes in a focused and organized manner as part of large-scale learning enhancement programs.

f. Creating and sustaining teacher motivation

To create and sustain teacher motivation, SSA has promoted various measures including provision for their regular exposure to innovative pedagogical approaches, teaching learning materials and good practices through annual in-service teacher training and monthly reflective meetings. An annual grant of Rs. 500 per teacher is available under SSA for enabling them to develop & use contextual teaching learning materials, scope for action research to enable teachers study various issues related to their teaching learning processes, etc. Such provisions have enabled teachers to enhance their professional skills and knowledge in education. States have also designed various innovative schemes to document, appreciate and share good practices of teachers through awards, reports and audio-visual aids. Good practices of many teachers have reached educational functionaries across the nation and have motivated their peers. Good works of teachers in EGS/ AIE centers in different states, active schools of Maharashtra, ABL & ALM programmes of Tamilnadu, Kunjapuri pedagogy of Uttarakhand, Language pedagogy of Kerala, Reading programmes of Uttarakhand, Himachal, Mathura, etc. have motivated many of their peers in different lands. Also good books on education depicting innovative approaches of teachers in different parts of the world have found wide circulation in different states.

To identify, understand and enhance teacher performance, Ministry in collaboration with UNICEF has catalyzed an initiative named Advancement of Educational Performance through Teacher Support (ADEPTS) to promote development and use of performance indicators for teachers and trainers. In 2011-12, 31 states have identified performance indicators for their teachers and trainers, and about 13 States have begun tracking the performance levels of teachers and trainers against these indicators. Some of these good practices are seen in Gujarat, West Bengal, Madhya Pradesh, Assam, Orissa, Chhattisgarh, Andhra Pradesh and Uttarakhand.

g. Revitalizing supervision system for quality elementary education

About 6,676 Block Resource Centers (BRCs) and 74,524 Cluster Resource Centers (CRCs) have been set up to provide decentralized academic support and supervision to teachers and schools. Block Resource Centres are venues for training of teachers. Trainings are also held at Cluster Resource Centres, for facilitating peer learning and interaction amongst teachers. There are subject - specific resource persons at BRC/CRC level, who often travel to schools to observe classroom transactions and provide

feedback and on-site training to teachers, on pedagogic and content related issues. BRCs/CRCs are also involved in academic monitoring, supervision of schools, classroom observations, and development of resource materials for teachers and need-based teaching learning materials for students. BRPs and CRPs have played an active role in contributing to quality improvement programs in States like Tamil Nadu, Chhattisgarh, Karnataka, Kerala, Uttarakhand, Himachal Pradesh and Gujarat.

Moreover, many States have set up State, District, Block and Cluster Level Resource Groups in order to work in conjunction with SCERTs, DIETs & BRCs in guiding a comprehensive gamut of quality improvement measures, by bringing in technical resource networks outside the government system, including talent also in the teacher community, as well as to enrich efforts at systematic reforms and changes at decentralized levels for improved teacher and school performance. This has helped producing better textbooks, teaching learning materials and training modules. State level academic resource groups have been set up in 31 States, for developing a vision and perspective regarding pedagogy, textual materials, teachers training etc. and making classroom transactions more activity based. In addition, 29 States have set up Resource Groups at the District level, 26 States at the Block level, and 26 States at the Cluster level to assist in the above activities as well as to help track the progress and impact of quality interventions under SSA. Some examples of States that have been able to mobilize vibrant Resource Groups include Andhra Pradesh, Tamil Nadu, Kerala, Assam, Orissa, Chhattisgarh, Jammu & Kashmir, Madhya Pradesh, Uttar Pradesh, Rajasthan, Gujarat, Himachal Pradesh, Uttarakhand, Bihar, and West Bengal.

h. Re-organization of curriculum to imbibe local needs and incorporating the concerns of NCF 2005

Each State has been urged to renew its own State curriculum in light of NCF 05 by bringing in changes in the curriculum content, teaching learning material, teaching methods and assessment systems.

Kerala, Orissa, Bihar, and Chhattisgarh are some examples of States who have developed their own State specific curriculum document after wide-scale discussions of NCF 2005 at different levels in the State. For example, Kerala constituted 14 Subject-wise Focus Groups for developing various position papers. Based on these, a draft curriculum document was prepared, which was discussed extensively at School, Panchayat, District and State levels. More than 50,000 people participated in these discussions. The new Kerala Curriculum Framework 2007 was designed on the basis of social constructivism and critical pedagogy, and has been accompanied by efforts for ensuring activity-based, experiential classrooms, and making assessment continuous and comprehensive through children's profiles. Similarly, Chhattisgarh organized number of envisioning workshops on NCF 05 with the support of NCERT Resource Persons, and invited stakeholders like teachers, teacher educators, community members, subject-experts, educationists, NGOs to participate and give their views while framing the state curriculum. Both a State level curriculum and District level curriculum documents were prepared.

i. Development of competency-based contextual teaching-learning materials

Free textbooks are distributed every year to over nine crore children, including girls and children from special focus groups like scheduled castes and scheduled tribes. SSA

guidelines have been amended to include all children under this provisioning, of course not duplicating States' own efforts in this direction. In 2011-12, it has been planned to provide free textbooks to 9.94 crore children across the country, out of which 9.63 crore (97%) have already been supplied up to March 2012.

Sarva Shiksha Abhiyan also provides for grants to schools @ Rs. 5000/- per annum for primary schools and @ Rs. 7000/- per annum for upper-primary schools. Grants are also provided to teachers @ Rs. 500/- per annum for developing local context specific, teaching learning materials that have the potential to improve pedagogical processes in the classroom. In 2011-12, it has been targeted that more than 44.19 lakh teachers would receive TLM grant (out of which 95% has already been achieved up to March end 2012). 33 States/UTs have indicated that 85-100% of schools in their state are using teaching-learning material other than textbooks. A wide range of teaching learning materials (TLMs) has been developed under SSA. At the Primary level the most common materials being used are workbooks or worksheets, story books or booklets, Activity Based Learning cards or reading cards, maths or science kits, Computer Aided Learning materials, TLMs made from locally available materials, charts and maps, Teacher Handbooks/ Reference books, radio programmes, monthly magazines, and multilingual material for tribal children. At the Upper Primary level, the most commonly used material other than textbooks are Computer Aided Learning materials, Maths & Science kits, labs or clubs, supplementary reading materials, workbooks, charts and maps, low-cost TLM developed by teachers, teacher reference books, Social Science labs, EDUSAT and radio programmes. States which have strongly promoted such teaching learning materials include Tamil Nadu, Kerala, Andhra Pradesh, Orissa, Chhattisgarh, Uttarakhand, Delhi, Himachal Pradesh, and Assam.

Improving teaching learning processes to make them child-centered, activity-based, mastery learning oriented

SSA advocates a shift from a teacher-centered classroom to an active classroom that promotes maximum opportunity time for active student participation and learning. States have undertaken various initiatives to promote such changes in classroom processes. Since 2008-09, till date in 2011-12 about 17 States have launched programs that focus specifically on promoting activity-based learning at the primary level (including Andaman & Nicobar, Assam, Chandigarh, Delhi, Gujarat, Jammu & Kashmir, Kerala, Madhya Pradesh, Maharashtra, Puducherry, Rajasthan, Tamil Nadu, and Uttarakhand). 4 states have implemented such programs at the upper primary level (Chhattisgarh, Madhya Pradesh, Puducherry and Uttarakhand).

In 2010-11, the planning and appraisal processes related to quality related interventions focused on pedagogical processes in schools in a detailed manner. By analyzing learning related issues, all inputs and processes were designed to address the emerging issues and improve the nature of classroom processes.

k. Introduction of formative evaluation and grading system to make it stress free for children

Various states have been making efforts to move towards continuous and comprehensive mode of assessment under SSA, so that assessment does not remain stressful or threatening to children. So far, approximately 23 States have initiated efforts towards

changing the approach to assessment in their State, towards more comprehensive and continuous assessment in their schools.

Some **examples** of States that have focused on bringing changes in their approach to assessment include **Kerala, Andhra Pradesh, Uttarakhand, and Tamil Nadu's ABL self-learning assessment.** Examples of the **types** of activities States have implemented towards CCE include changing the typology of question papers to assess abilities like students' own creative thinking and knowledge construction (Kerala), introducing a competency ladder or conducting competency-based assessment (Tamil-Nadu), integrating assessment with on-going class room activities, using progress charts to record the progress of each student against certain learning indicators, and using a variety of assessment methods such as project work, home assignments, experiments, co-curricular activities, etc.

NCERT has developed 5 different **source books** on learning assessment for different subject areas after piloting it in 10 States. These documents are expected to shift assessment methods at primary level towards the quality and extent of a child's learning, construction of knowledge and his/her interest and attitude towards learning as manifested in different activities. Various states are in the process of rolling out these NCERT Sourcebooks for promoting changes in the assessment systems in the State.

NCERT has also developed a set of **measurable and verifiable learning indicators** that can be used to assess students' learning levels for Class III, V and VIII. These focus on observable indicators of not only cognitive development but also aspects like reasoning skills, discussion, cooperation, sensitivity to others, concern for equity and justice, etc. States have been encouraged to develop their own set of learning indicators along these lines based on their own State curriculum.

Additionally, to enhance the understanding of faculty from NCERT, SCERTs and selected states on approaches to assessment, the Technical Cooperation Fund (TCF) has been set up under SSA to expose them to good practices and resources from different countries. This is expected to influence the approach to learning assessment at elementary level.

1. Reduction of curriculum load

SSA in the light of the Yashpal Committee report and the NCF 2005 has always emphasized on reduction of curricular load. Presently it is in the process of discussing with States regarding how to cater to basic principles underlying child's learning processes and role of teacher in this while designing own curriculum, syllabus, textbooks and other teaching learning materials and take care of the curricular load. States have been helped to identify their varied approaches to the above areas and design cohesive and synchronized quality improvement plans that do not increase the curricular load on child because of different thinking and approaches to pedagogical renewal at different levels without sticking to the basic beliefs and assumptions about child - centered pedagogy. This is expected to bring in more of convergence, collaboration and synchronized pedagogical thinking at different levels while undertaking various pedagogical activities.

m. Introducing participatory management of elementary education with community support

States have taken various steps towards involving community members in improving the quality of education at the elementary level. Community members are encouraged to check the academic progress of children's through monitoring and supervision of classroom processes, sharing of report cards, use of TLM, filling of Quality Monitoring Tools, organizing various competitions for improving children's skills, identifying the lower-achieving students and organizing remedial classes, etc. For example, States like Andhra Pradesh, Assam, Chhattisgarh, Karnataka, Kerala, Nagaland, Uttarakhand have developed various strategies to engage the community members to contribute to school development and quality improvement under SSA.

II. Capacity building and academic support.

Capacity building of states, to address quality issues in EE, is also a regular feature under SSA. Technical and academic support is available to States, through NCERT, IGNOU and the technical support group [TSG] for SSA at the National level. States are encouraged to tap non-governmental sectors as well for professional inputs, whenever and wherever suitable through resource groups or contractual mechanisms.

a) NCERT

The National Council of Educational Research and Training has developed the National Curriculum Framework [NCF] 2005, which proposes a complete change in the paradigm of school pedagogy. NCERT has also undertaken a rigorous process of syllabus drafting and textbook writing to incorporate a more constructivist approach to learning. It is now working to take the exercise of curriculum framing, syllabus, and textbook preparation to the State level (as at elementary level of education the States determine their own curriculum, syllabus and text books) to give expression to local-specific, context-based elements. NCERT has also designed a series of Sourcebooks for pupil assessment at the primary level, and a set of in-service teacher training guidelines for SSA. NCERT has undertaken documentation of good practices under SSA and periodic pupil achievement surveys as well. NCERT is also undertaking monitoring of quality aspects of SSA through its Quality Monitoring Tools. As part of the quality enhancement agenda under SSA, NCERT has launched a reading programme for the early grades of the primary stage, as an exemplar for States to build their own programmes for strengthening children's' reading skills. It has also launched a programme for improving the teaching of Mathematics at Grades I & II.

b) Technical Support Group [TSG] for SSA.

TSG facilitates quarterly workshops for review of progress in implementation of quality related interventions under SSA and also for cross-State sharing of best practices. It compiles and maintains data on progress of all key quality indicators for cross-country comparisons, for use by the Ministry and also on the SSA website in the public domain. States with slow progress or those requiring technical support in designing quality related strategies are specially covered by assistance from pedagogy unit of TSG. The pedagogy unit of TSG also liaisons with NCERT and IGNOU to ensure targeted strategies under SSA for quality improvement. It assists in addressing key thematic areas through

workshops/seminars such as on (a) enhancement of basic literacy and numeracy skills at the early primary grades, (b) Reading enhancement programmes, (c) Multilingual education for States with substantial tribal population (d) Multi grade, Multi level pedagogy, (e) Resource enhancement of teachers (f) Quality improvement at upper primary level, (g) Strategies for improving Science and Mathematics education, (g) Strategies for Improving Social Science education, etc. It has also promoted documentation of good practices under SSA. Further, it has promoted awareness and understanding of non-government efforts for quality education.

c) IGNOU

IGNOU is running a major programme for training of untrained teachers. Approximately one lakh teachers have been registered for certificate and diploma courses offered by IGNOU. These courses have approval of National Council for Teacher Education (NCTE), and are of help to the States in assisting untrained teachers acquire professional qualification in a time bound manner. The courses being offered by IGNOU are: CETE (Certificate in Elementary Teacher Education), DPE (Diploma in Primary Education) and CPT (Certificate in Primary Education). The Distance Education Programme under SSA [DEP-SSA], located in IGNOU, assists in capacity building of functionaries at State level and training of teachers in preparation of distance learning training materials in self learning print and audio/video form.

d) National Resource Group for Quality Education

A level National expert committee has been constituted under Task force on curriculum to deepen understanding on various quality issue.

e) National Sub-Missions on Learning Outcomes and Teachers Training

Under SSA, six Sub-Missions have been constituted at the National level to provide guidance and resource support in guiding SSA interventions, two of which relate specifically to quality interventions. One is the Sub-mission on 'Defining Learning Outcomes and Assessment/Monitoring of Students' Achievement Levels', and the second is the Sub-mission on "Teachers Training, Strengthening of academic support to institutions and other aspects of quality improvement under SSA". Both of these held their third meeting in October 2009, which led to useful recommendations for strengthening these two areas under SSA.

f) Technical Co-operation Fund

The TC Fund has been set up in 2008 under SSA in collaboration with development partners namely the World Bank, DFID and EC. The Fund will support and facilitate strengthening of capacities at national level and at the State levels in the specific areas of (i) Learning Assessment Systems and (ii) Evaluation of Quality Initiatives. It will enable access to relevant national and international expertise to support effective capacity development, and provide expert guidance and facilitation for institutional or organizational development and strengthening.

g) Documentation and dissemination of good practices in quality education

Such documentation has been undertaken through NCERT and other resource persons, from time to time. The following interventions have been documented and shared with all States and UTs:

- i) Quality Improvement Programme, Andhra Pradesh
- ii) 3 Rs Guarantee Programme, Maharashtra
- iii) Integrated Learning Improvement Programme, West Bengal.
- iv) School Performance Monitoring, Uttaranchal.
- v) Learning Achievement Tracking System, Orissa
- vi) Home based Education Practices for Children With Special Needs in SSA
- vii) NGO initiatives in inclusion: SSA experience
- viii) Shiksha Sangam – Documentation of innovative interventions under SSA by IIM Ahmadabad

Other than these, NCERT has also documented the following state initiatives for quality improvement:

1. School Improvement Initiatives in Kolhapur, Maharashtra
2. Learning Guarantee Programme, Karnataka
3. Activity Based Learning, Tamil Nadu
4. DISHA Reach Indian Project, Delhi
5. Children's Language Improvement Programme, Andhra Pradesh
6. Early Childhood Care and Education : A community owned agenda – an alternative approach by MAYA (Movement for Alternatives and Youth Awareness), Karnataka

III. Monitoring and evaluation of quality related components under SSA, with focus on learning outcomes.

- a) Monitoring of quality aspects of SSA is being undertaken by NCERT, with focus on a) students' attendance b) classroom processes c) BRC/CRC performance in providing academic support to teachers d) learning achievement etc.
- b) The annual District Information System on Education (DISE) by NUEPA provides information on achievement levels of children at the exit classes of primary and upper primary stages.
- c) Periodic pupil achievement surveys by NCERT are also conducted, at key grades of the elementary education cycle for national trends, interstate comparability and independent assessment.

NCERT has conducted the Round 1 Assessment Survey, Round II Assessment survey and proposes to conduct Round III survey in 2010 to study the status of improvement at three levels during the course of implementation of SSA. For Class V, Round I was done in 2001-02 and Round II was done in 2005-06. For class III, Round I was done in 2003-04 and Round II was done in 2007-08. The impact of various quality interventions of SSA as revealed through Round I and Round II are outlined below, showing the National level picture:

Results of NCERT's Round I and Round II Surveys

Class	Language		Maths		EVS/ Science		Social Science	
	Round I	Round II	Round I	Round II	Round I	Round II	Round II	Round II
Class III	63.12	67.84	58.25	61.89	-	-	-	-
Class V	58.87	60.31	46.51	48.46	50.30	52.19	-	-
Class VII	54.24	57.35	30.50	40.38	37.78	42.86	34.04	44.73

Source: NCERT's two rounds of surveys

***third round of survey is still going on**

The results of these studies are expected to be factored in by States, to address systemic issues in elementary education, for quality improvement under SSA. NCERT will repeat national sample checks every three years to ascertain changes in achievement levels. Now the NCERT has also started 3rd round of achievement for class V, the reflections are likely to be shared by NCERT by 2012. The NCERT has also been requested to enhance the capacity of the state functionaries to analyze the data to reap maximum advantage to further boost the learning improvement strategies.

d) States/UTs have on their own established, time tested systems for periodic assessment of student's learning at school level.

e) Other quality monitoring systems in SSA

- Progress against key monthly indicators and a more detailed quarterly progress report is obtained from States. These include several indicators on quality, namely distribution of free textbooks, coverage of teachers under annual in-service training and another 25 quality parameters in the quality reports which are more detailed. Financial progress under quality sub-heads is also tracked every quarter as well as annually.
- A computerized Educational MIS system gives annual school-based data. (Data for 2010-11 (Provisional) released by NUEPA). Educational Development Index has been developed & States are reviewed in terms of their EDI ranking. School wise cards have also been developed & can be seen at the web site of NUEPA at www.dpepmis.org. The DISE database includes several indicators reflecting quality, namely details on teacher deployments, qualifications, pupil learning outcome levels, repetition rates, completion rates, etc.
- 41 National Social Science Institutions have been tagged to all States/UTs to make independent & regular field visits to monitor performance. 21 States/UTs have been covered so far & review in respect of 14 States/UTs is under progress. Reports are available on website www.ssa.nic.in. The reports cover significant quality indicators i.e. timeliness of /availability of free textbooks; use of TLMs in classrooms, teacher presence, functioning of BRC/CRC; teacher training, etc.
- An independent Joint Review Mission reviews the progress of SSA twice a year, along with external funding agencies (14th JRM held in 18-28 July 2011 and 15th JRM in progress 16-30 January 2012). The 10th and 11th & 12th JRMs have made focused observations on the need to improve quality and made recommendations

- on quality aspects under SSA impacting the children-centric class room practices, as has been enshrined in the NCF 2005.
- Secretary (SE&L) holds a Review Conference of SSA Programme with State Education Secretaries and SPD's/Director SCERT's twice a year. (Last meeting held in December 2011). The focus of such reviews is markedly on quality improvement, monitoring its progress, sharing good practices and strategizing for improvement in student outcomes.
- National research studies/evaluations/feedback on quality aspects under SSA.

The following research studies have been completed:

i) Study of Students' Attendance in primary and Upper Primary Schools

GOI has conducted an independent study on 'Students Attendance at Primary and Upper Primary levels' in the year 2006-07, in 20 States. This study also involved collection of data on teachers' presence in schools. The study was conducted by 12 independent agencies as per a detailed TOR (Terms of Reference) developed by MHRD, indicating a common methodology and tools. Students' and teachers' attendance in 300-400 schools per state was captured during three unannounced visits made to the sampled schools. Teachers' presence was assessed by head counting on the day of unannounced visits during the first period and last period of the school functioning.

According to the study, 19 % teachers in primary schools were not in the school on a routine working day. The teacher absence rate was found to be about 20% for upper primary teachers. This reflects an improvement of 5% in teacher attendance rates from 2004, when the teacher absence rate was found to be 25% according to a Harvard-World Bank Study. Students attendance rate was found to be 70.75% at the primary and 71.19 % at the upper primary stage.

ii) Study of Teachers' Absence in Primary & Upper Primary Schools

The study was conducted in the state of Andhra Pradesh, Madhya Pradesh, and Uttar Pradesh by covering 400 schools in each state. The study proposed to estimate teaching days lost due to teachers remaining absent from school and to ascertain the reasons for absence. Besides studying teachers' attendance from school records for the academic session 2005-06, teachers' attendance were observed during two unannounced visits to schools at a gap of 3 to 4 weeks during the academic session. Effect of teachers' absence on students' attendance and achievement, grade repetition and dropping out from school were also studied. The study has estimated teaching days lost due to teachers remaining absent from school and ascertained the reasons for their absence. The results summarily indicate:

Teachers' absence percentage - average of two visits

Status	U.P.	M.P.	A.P.
% of teachers not present	11.0	15.4	24.0
On duty outside school	3.0	2.2	6.8
On leave	5.4	10.6	14.9
Absent without intimation	2.6	2.6	2.3

iii) Study of deployment and professional competence of para teachers

This study was conducted by NCAER to assess the performance and professional competence of para teachers and to find out how they are recruited, their service conditions, their training needs and the kind of support they require for functioning effectively. The study was conducted in 12 states. The study has shown that several States are recruiting teachers on contract through local bodies, at levels of remunerations that are generally lower than that of regular teachers. Para-teachers have been found to be generally deployed in rural areas. It has also been found that para teachers' tenure of service varies across states, from 11 months to 3 years. Some states do have promotional and career progression opportunities for para teachers (including regularization), while others do not have this policy in place. In terms of perception of head teachers, para teachers have been found to be effective in their work, though low levels of remuneration are a source of dissatisfaction amongst them. The study has been shared with states, with a request to reexamine the service conditions and training needs of para teachers.

iv) Time on task study for students

The study attempted to find out how students spend their time in school and specifically, how much time is spent on 'active learning' in classrooms. The average time spent by students on curricular, co curricular and other activities inside and outside the classroom were estimated. The study was conducted in 5 States (Assam, Haryana, Karnataka, Maharashtra, Orissa) with the help of SCERTs and DIETs. Activities of students and teachers were observed in classrooms for 5 to 6 days in each of the 100 sampled schools in each state. The classes that were observed included Grade II Language and Maths, Grade IV Language, Maths and EVS, and Grade VI Language, Maths, SST & Science. The study found that in the classrooms observed, 35% of teachers' time was spent on 'Lecturing/verbally explaining' and 'writing on blackboard/explaining'; and 45 - 50% of students' time was spent on 'listening and observing'. Moreover, 8 to 10% more time was spent on listening in Language class than in Maths class; while students' time spent on 'listening/ observing' increased from grade II to VI.

v) Study on effectiveness of Block Resource Centers and Cluster Resource Centers in providing academic support and supervision to elementary schools.

This study attempts to study how effective are the Block Resource Centres / Cluster Resource Centres, in discharging their designated roles and responsibilities for improving the academic performance in primary and upper primary schools and what needs to be done to make them effective in delivering the services expected of them. The study has been conducted in 14 states (Assam, Haryana, Himachal Pradesh, Jammu and Kashmir, Jharkhand, Kerala, Madhya Pradesh, Mizoram, Orissa, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal). In general, the level of job satisfaction among BRC/CRC staff, and the level of satisfaction of teachers with the support and training provided by BRCCs/ BRPs as reported by CRCCs, were found to be satisfactory. However the major problems reported were the infrequent visits by BRC personnel to schools/CRCs (in many states, a sizeable proportion of sample schools reported that BRCCs did not make even a single visit to their schools), and the difficulty in balancing administrative and academic tasks due to BRCs being overburdened with administrative work. Also the training received by BRCCs, BRPs and CRCCs appeared highly inadequate in terms of number and duration.

vi) National sample survey on Out of school children

A major sample survey was conducted in 2008-09 for assessing the number of out of school children in the country in the age group 6 to below 14. While Research, Evaluation & Studies unit of Technical Support Group of Educational Consultants India Ltd for Sarva Shiksha Abhiyan provided technical guidance and helped in selection of samples of villages and urban blocks and in estimation of the percentage and number of out-of-school children, the survey was actually conducted by Social & Rural Research Institute -IMRB International (SRI-IMRB) in all the states and Union territories covering rural and urban areas of 588 districts. Data were collected from a sample of 99,226 households in 3234 villages and 1856 urban blocks covering all the districts. The findings of the survey indicated that the country had about 19.1 crores children in the age group 6-13 (i.e. below 14 years), of whom 4.2% children were out of school, in 2005 this figure was 6.9%. Amongst the out of school children, 3% children had never attended school and 1.2% were dropouts. Among Boys 3.88% children were out of schools and among girls 4.6 % children were out of school.

Sl.	State	Progress in recruitment & remaining vacancies (Dec 2010)						Recruitment procedure		
3.	Arunachal Pradesh	Sanctioned Post			Working			<ul style="list-style-type: none"> State has very simple recruitment mechanism. The department first collects the vacancies caused due to death, retirement and resignation of teachers. Then process the file proposing the conduct of interview for the selection of particular category of teachers. Then the department brings out the Notification for the conduct of interview giving details of eligibility of applicants and number of vacant posts when it gets the approval from the competent authority. The Department conducts open competitive examination as per the issued notification. The examination invariably has the written test and interview (viva voce). After conducting written examination, the names of qualified candidates are listed out for viva-voce. The merit list is prepared after making sum of the obtained marks in both the tests. 	<ul style="list-style-type: none"> There is a high degree of migration from rural areas to urban. Since there is going to be a fixed tenure in a particular school, after that movement is inevitable. Once this comes into force the pressure of mechanism so rampant so far will automatically disappear.

		0	0	0	<p>for selection of schools according to merits of teachers in presence of DPC, Chairman of District Education committee and representative of Director Primary.</p> <ul style="list-style-type: none"> The state government has decided to employ the 50% teachers having background in science subject during the current year. 	<p>also were appointed accordingly at upper primary level. In year 2011-12, new 6500 schools would be upgraded and 13320 teachers also would be appointed. Remaining schools across the state would be upgraded in year 2012-13 after rationalization.</p> <ul style="list-style-type: none"> Since the state is integrating standard 8 in U. Pry. schools, secondary schools also are affected. Student strength of secondary schools gets decreased as a consequence of up gradation of upper primary schools. Accordingly, numbers of teachers required in secondary schools also are reduced. Teachers already in place in secondary schools at present would be surplus. Considering this consequences, the strategy is being worked out to accommodate surplus teachers of secondary schools into upper primary schools. The Sec. school teachers are recruited as subject teachers so 'which subject teacher should be considered as surplus' also is an issue at secondary school level. Because the general norm of surplus is like 'junior most teacher would be considered as surplus'. The junior most may not be accommodated in elementary school due to subject other than Maths, Science, and English. These are the issues involved in rationalization. Secondly, majority of the secondary schools in the state are grant-in-aid schools so they are functioning by private management bodies. Therefore the accommodation exercise would have

Now court cases were disposed of and recruitment of more than 48000 primary Teachers have already been made. The PTR at Primary level is now almost at par with SSA - RTE norms. As the process of Recruitment is being continued till date, therefore, the vacancy as stated above both at State sector and SSA sector has been reduced. 		Sanctioned Post			Working			By State	Under SSA	Total	By State	Under SSA	Total	PS	167143	82339	249482	165222	72752	237974	UPS	66288	100612	166900	64631	62852	127193	Vacancies			By State	Under SSA*	Total	1921	9547	11508	1947	37340	39707	<ul style="list-style-type: none"> Policies - After enactment of the RTE Act 2009, the State has to abide by RTE SSA norms. Accordingly process has been initiated. Primary level - The Recruitment of teachers based on the local needs is done by the concerned DPSCs (Authorized body for Administration of Primary Education at District level). Open Advertisement are issued by them as per guideline of State Education Deptt. and recruitment, deployment, transfer of teachers are made. Upper Primary level - There is SSC Act. As per Act, the recruitment of teachers is done by West Bengal Central School Service Commission through Six Regional School Service Commission every year through open advertisement for all the schools of the State. However, on the basis of special needs, additional recruitment examination is also held. 	<ul style="list-style-type: none"> For Primary Schools DPSCs deploys teachers as per requirement of the Schools. At present SE Deptt. is considering modalities to ensure rationalization in the deployment of the teachers. A State level guideline is going to be issued early. For UP Schools, the post of teachers are sanctioned school wise. So, there is inbuilt transparent rationalization and deployment system. Moreover, after enactment of RTE Act steps have been taken for deployment of teachers as per RTE SSA norms.

(i) Source:- The data of teachers reconciled by MHRD with SPDs of States as on 1 April 2008 and further target and recruitment are added. The reconciled data collected from Dir(KRM) duly approved by JS-II dated 12.06.08. The data has been there after updated after collecting quarterly reports from States

(ii) Only 25 States which have been highlighted have given the teachers recruitment details. Low performance states are Assam, Bihar, Chattisgarh, Jharkhand, MP, Maharashtra, UP and WB. Data is inconsistent in some States.

(iii) Teachers approved by PAB in 2011-12 are 224473. Balance teachers yet to be recruited are 872982

Note:- Regular/Contract Teachers sanctioned in supplementary (RTE) = 328110, Part time instructor sanctioned in supplementary (RTE) = 134216, Regular/Contract Teachers sanctioned in AWP&B 2010-11 = 130205 and Total Sanctioned for 2010-11 = 592531

20-days In-service Training

SSA places great emphasis on building the capacity of teachers for teaching and evaluation. For this purpose regular training programmes have been proposed and conducted under properly planned schemes. The Schemes provide for regular annual in-service training for up to 20 days per teacher. All trainings funded through SSA cover several pedagogical issues, including content and methodology, evaluation and the process of teaching-learning transactions at classroom level. For this purpose the States have started exploring several innovative ways of imparting training to teachers in order to empower them. The training processes include use of distance mode of learning, self-learning modules and educational technology. The teacher training mainly emphasizes child-centered pedagogies and activity based teaching-learning. In this direction the NCERT has prepared guidelines for in-service teacher training under SSA in 2007 called 'The Reflective Teacher'; which has been shared with all States.

Progress in In-service Training up to March 2012

The progress for 20-days in-service training up to 31st March 2012: has been that against a target of 41,58,817 teachers, 34,43,999 teachers got the 20-days training reflecting 83% overall achievement.

- 11 States had the highest achievement of 100% against their proposed targets. These included Arunachal Pradesh, Chandigarh, Gujarat, Himachal Pradesh, Lakshadweep, Madhya Pradesh, Maharashtra, Mizoram, Orissa, Puducherry and Rajasthan.
- 12 States achieved between 75 to 99% of their targets. These included Andaman & N Island (89%), Andhra Pradesh (94%), Assam (82%), Bihar (84%), Chhattisgarh (89%), Dadra & Nagar Haveli (99%), Daman & Diu (92%), Haryana (77%), Kerala (98%), Tamil Nadu (90%), Uttarakhand (87%) and West Bengal (82%).
- 7 States achieved between 60 to 74% of their targets. These included Delhi (72%), Goa (63%), Jammu & Kashmir (62%), Karnataka (70%), Meghalaya (70%), Punjab (68%) and Tripura (70%).
- The remaining 5 States achieved between 40 to 60% of their targets. These included Jharkhand (43%), Manipur (54%), Nagaland (50%), Sikkim (50%) and Uttar Pradesh (48%).

Nearly all States have tried to make training programme interesting for teachers by having the main focus on content specific training and development of pedagogic as well as evaluation skills. Some of the States have tried to make use of already developed training modules for use during in-service training programs. However, the States have been quite aware of the limitations of the instructional modules like too much direction oriented as well as not providing enough information on various pedagogic skills. That is why States like Andaman, Andhra Pradesh, Assam, Delhi, Goa, Himachal Pradesh, Karnataka and Kerala have tried to make training programme more participatory. Karnataka has prepared separate modules for trainees and resource persons so that the training process could be more goal-oriented and specific. The major focus areas, on which these modules have been developed, as reported by States, are as follows:

- Subject-specific content or subject-wise hard spots (20 states)

- Classroom processes and pedagogical improvement, specifically active learning methods (18 states)
- Training geared towards the Learning Enhancement Program (4 states)
- Development and use of TLMs (9 states)
- Continuous and comprehensive assessment (16 states)
- Inclusive education, including education of children with special needs, SC/ST, gender issues, tribal children (9 states)
- Data management (use of DISE, QMT) (1 state)
- ADEPTS performance indicators (3 states)
- Teacher attitudes and motivation (7 states)
- Training of HMs (3 states)
- Computer training (6 states)
- Other topics indicated include revised curriculum/ textbooks, NCF 2005, classroom management, life skills, value education or extracurricular activities, community participation, etc.

States have reported a variety of follow-up mechanisms to monitor the impact of the training programs. States like Andhra Pradesh have been trying with the idea of preparing Pedagogical monitoring persons, who visit schools on interval basis and observe classroom teaching learning process to assess impact of teacher training on improvement of learner's learning. Similarly the

Including:

- School visits and interaction with teachers
- Classroom observations
- Pre-test and post-test during training programme, evaluation sheets to test content knowledge and aptitude
- Orientation of school principals for conducting follow-up
- Peer-sharing during monthly cluster level meeting
- Monitoring through Quality Monitoring Tools and ADEPTS
- Exposure of child's learning through Community Participation.
- Baseline and Terminal Assessment for LEP
- Feedback forms during training
- Observation of training by Monitoring officers: Delhi,
- Videoconferencing
- Conducting Impact Studies

Some of the major issues that States have identified regarding the organisation and effectiveness of teacher training programs are as follows:

- States have reported that cascade model of training has not been successful as there has been transmission loss of training in cascade model. The experience of States has hinted that the training of teachers should be organized at Cluster level so that the teachers may not feel distance as a factor of inconvenience to attend any training program.
- Twenty-days training at-one-stretch has not been appreciated as this has created problems for the school administrators and for teachers as well. Many States have

been experimenting with the idea of breaking the teacher training in smaller number of days with different inputs. But the total number of training days will not exceed 20.

- The training programme has been demotivating in many cases. The reasons for this have been repetitive nature of training, being given during the vacations or holidays (Saturdays or Sundays), being too much directional taking teachers as non-adults, withdrawal of teachers from the school for many days, Head teachers reluctant to send the teacher for training etc. Teachers have come up with the thinking that the training program should be need based and issue based and in content specified groups of Teachers
- Availability and quality of resource persons has been a major problem with the States. Many States have been trying to develop the pool of resource persons from institutes like CBSE, NCERT and other educational institutions etc. TSG has encouraged States to put together a State Resource Group that comprises active, locally available members from universities, SCERTs, DIETs or training colleges etc.
- In most States the State Office has reported that teachers, head teachers, community and students have not felt motivated to send teachers away from school for the 20-day training. States need to consider ways of managing this expectation by ensuring that there are Cluster Development plans to take place so that different schools and their teachers attend specific trainings to teach with ABL method, which can then be shared at the local level; ensuring that teachers are prepared with class plans in each subject in which more than the usual number of children can be engaged in learning at a time, such that the impact of the absence of a teacher is felt a little less, assuring the stakeholders that the inputs received will lead to more learning in the future such that these exercises are not seen as a waste of time.
- States need to shift the design of teacher training: such as cascade, demo, lecture and off-site training to need based and issue based at cluster level and school level with onsite support to the teacher. Training to the teachers should be imparted in specific groups of teachers having same hard points and content problem.
- CRC level meetings should be duly planned and the points of contents for discussion should be circulated by taking a stock of content of hardship to the different group of teachers.
- Most of the states are not in a position to conduct residential trainings of teachers as they have no residential training centres in their district, Block and cluster levels.

Details about 20-Days In-service Training in 2011-12

S. No.	State	Focus Areas in 2011-12	Processes	Follow-up mechanisms	Major issues identified
1	A & N Island	<ul style="list-style-type: none"> • Content enrichment • Methodology • Activity based teaching/ learning • CCE • RTE • Disaster preparedness • Life Skill Development 	<ul style="list-style-type: none"> • All the teachers training programme were organised at Block Level. • Main approach of the training programme was participatory. • Group discussions, presentation of the Modular approach of teaching, presentation by the participating teachers etc. were the methods adopted for in-service teachers trg. under SSA during 2009-10. 	<ul style="list-style-type: none"> • SMC Reviews • Constitution of Monitoring teams for follow-up programmes. • School visits and interaction with teachers: 	<ul style="list-style-type: none"> • No Issue
2	Andhra Pradesh	<ul style="list-style-type: none"> • Department worked out and provide clarity on the expected professionalism & professional perspectives for teachers & other functionaries. • Conducted periodical teacher & other functionaries' appraisal for the benefit of the schools / children. • Demonstration of children performance before SMC and Parents - Capacity building of teachers and SMC members on this agenda. 	<p>Following are the processes/ methodologies:</p> <ul style="list-style-type: none"> • Demonstrations • Module reading and reflection • Brainstorming • Experiential Learning • Group Activities and presentations • Presentations from Experts 	<ul style="list-style-type: none"> • Focus on development of Strong Cadre of Trainers and their Resource Enhancement in collaboration with National Level Institutions and Individuals. • Providing quality training modules focusing on hands on training, scope for discussions, sharing the experiences. • Conduct of Vignan Mela, Maths Mela and exposure to teachers and treating it as training. 	<ul style="list-style-type: none"> • Quality of Resource Persons / Trainers for improved teacher training. • Challenge of appropriate residential accommodation to-undertake trainings. • Difficulty in conducting of training during summer vacation because of hot summer, lack of water facilities, power cuts etc. • Inadequacy of budget provided to the teachers. No provision for Dearness Allowance. • The focus is on face to face training and little focus on field based experiential kind of trainings.

S. No.	State	Focus Areas in 2011-12	Processes	Follow-up mechanisms	Major issues identified
3	Arunachal Pradesh	<ul style="list-style-type: none"> • Ensuring life relevant education of satisfactory quality. • Ensuring imparting education in inclusive setup. • Impart education in equitable manner. • Impart education to all children without any discrimination. • Ensuring imparting education in participatory child centric method. 	<ul style="list-style-type: none"> • Impact of training - out come indicator of training programme would be identified by organizing workshop with all stake holders (SIE, DIETS, and IGNOU & SSA functionaries). • Interaction in between resource persons and teacher participants. • Sharing of views of teachers to overcome hurdles. • Group discussion. • Preparation of effective teaching plan. • Identification of problems, issues and bottlenecks in education. • Inviting suggestions, proposals from teachers to overcome hard areas. 	<ul style="list-style-type: none"> • CRC level meetings. • Pedagogical monitoring persons visit schools on interval basis and observe classroom teaching learning process to assess impact of teacher training on improvement of learner's learning. • The pedagogical observers submit their observations on feedback paper, which are examined at different level for taking up adequate remedial measures. 	<ul style="list-style-type: none"> • Less RPs. • Below desired level impact of teacher training compared to the extent of training programme. • Withdrawal of teachers for training purpose creates problem in day-to-day school functioning. • Head teachers are found reluctant/helpless to release teachers for attending training programme. • Experience of teacher training programme is not reaching to classroom at the desired level. • Some teachers take the matter as relief of bearing burden of school duty. • Organizing training programmes becomes difficult and sometimes impossible as per target due to engagement of school in other academic affairs.
4	Assam	<ul style="list-style-type: none"> • NCF-2005, approaches for teaching Science and Mathematics • Activity based teaching-learning process. 	<ul style="list-style-type: none"> • The methodologies - Activity Base Methodology have been included in the curriculum of Pre-service teacher training as well as in-service training. 	<ul style="list-style-type: none"> • Monitoring tools specially designed on ADEPTs indicators will be followed for feedback analysis at BACG and DACG meeting. 	<ul style="list-style-type: none"> • Reluctance on the part of the teachers to implement training, because of demotivation • Teachers are engaged in

S. No.	State	Focus Areas in 2011-12	Processes	Follow-up mechanisms	Major issues identified
		<ul style="list-style-type: none"> • TLM preparation • CCE • Project and field work 	<ul style="list-style-type: none"> • All the teachers are exposed to the practice of Activity base learning through worksheets. Teachers also be trained on Revised Curriculum. 	<ul style="list-style-type: none"> • Changes in the impact of monitoring will be reflected assessed indicators • Compliance to RTE norms through School Plans through regular supervision through Resource Groups 	<ul style="list-style-type: none"> • supplementary incomes and jobs, even though administrative work within the job has been minimized. • Promotion system is limited and leads to demotivation, for example, even with requisite qualifications, the teacher cannot become an administrator.
5	Bihar	<ul style="list-style-type: none"> • Remedial Teaching • Bodhi Samvad (Bhag-I) • Bodhi Samvad (Bhag-II) • Subject specific trainings and UJALA • Module for science training (Bodhi Bhaskar). • Yoga Training 	<ul style="list-style-type: none"> • One good teacher/trainer from each district was participated in the trail workshop. These teachers along with master trainer formed 13 groups of three each. The training schedule was prepared at the State level and 13 groups sent to 13 districts to train master trainers consisting of 45 teacher trainer in each district. In round two 13 trainer group moved to 13 more districts and by third round of training-all districts have pool of 45 teacher trainers. • 45 trainers in a district formed 15 groups and imparted training to teachers in 15 batches of 40 teachers in one round. Depending upon the target the district the round of training was decided. • Second methodology the State. 	<ul style="list-style-type: none"> • Identification of participants: State has designed a mechanism by which no teacher can get more than 20 days of training. This will help system in two ways, 1. Release the pressure by which one teacher gets training from all components and virtually he stays at the site of training itself, and 2. Satisfy the RTE by which minimum no. of teaching hours by a teacher can be ensured. • Design of Training: State will provide options to districts about different need based training. Details about the training modules have been given in a table above. • Teacher Educators: State has already taken an initiative by 	<ul style="list-style-type: none"> • Assessment of need of the teachers becomes difficult. • Lack of infrastructure to provide large number of training (from all components). • No integration within components, this make difficult to follow cafeteria approach to the training. • Training inputs are not translated into classroom transaction. • Lack of training of BRPs and CRCCs on new methodology, which makes difficult in tracking of training inputs. • Lack of teachers in many schools, this makes it difficult for cafeteria or

S. No.	State	Focus Areas in 2011-12	Processes	Follow-up mechanisms	Major issues identified
			<p>employed was to train all CRCC and BRPs at 9 division levels in the State. This ensured better monitoring and supervision of training. These CRCCs in turn provided 2 day training to all teachers at CRC level. BRPs did the effective monitoring of the training.</p> <ul style="list-style-type: none"> • 'yogacharyaas' involved in module preparation. These master trainers provided training to physical teachers in the district. 	<p>which teacher educators are selected on the basis of merit and no encroachment will be allowed. The selection criteria will help in developing specialized cadres in the training. Performance indicators will be finalized for the educators this year. These teacher educators will be oriented on a regular basis at the State level. To keep this cadre motivated honorarium payment will be revised.</p> <ul style="list-style-type: none"> • Basic facilities for training: Training will be organized only at the place where sufficient training facilities are available for the training. • Tracking: This year tracking will be given more importance. It will be ensured that inputs of training must be translated in the class room and changes in the attitude and in teaching methodology must be observed by fellow teachers and children. • Teacher Manual: State has decided to develop and print teacher manual for all teachers. 	<p>need based training to teachers.</p>

S. No.	State	Focus Areas in 2011-12	Processes	Follow-up mechanisms	Major issues identified
6	Chandigarh	<ul style="list-style-type: none"> • Subject Specific content, motivation, CAL, behavior management, inclusive Education, RTE, CCE, Active learning, pedagogy, preparation of projects & power point presentations, NCF 2005, Preparation of TLM, classroom resources, methods to make teaching leaning process more effective, practical classroom situations; participating learning activities & life skills. • Subject specific content, various methodology, uses of different teaching skills, CAL, making of PowerPoint presentations & projects, CCE, RTE, inclusive education, motivation, practical classroom, NCF 2005, practices, focus on hard spots, teaching through experiments, construction etc. 	<ul style="list-style-type: none"> • Depending on the nature of topics various methods like lectures, discussion, and demonstration by power point presentation, Group activity module reading and reflection. • A research study has been initiated o see the impact of in service training courses on teachers for improving their class room teaching. This study will assess the impact of teacher training program on teacher's class rooth transactions with respect to the teacher training inputs provided over the years. 	<ul style="list-style-type: none"> • Inputs given during the training programme will be monitored by the CRCs, URCs & school head & by tracking the classroom processes & assessment on performance indicators. To know the impact of teacher training study is being carried out. The process & method adopted this year will be followed next year with desirable changes after knowing the impact of research study. 	<ul style="list-style-type: none"> • Heads of schools are reluctant to depute teachers for 10 'days In-service course during working days at the cost of teaching.. • Schools having high PTR are reluctant for sparing the teachers for training. • Inadequate availability of good quality Resource persons. • As the process of appointment of teachers is on the way. So issue on shortage of staff will be sorted out &problem of sending the teachers to attend the training will be solved. • As SRG has already been constituted. So problem of resource persons may be resolved..

30-days Induction Training

The progress in 30-days Induction training conducted up to 31st March 2012 reflects **37% overall achievement** wherein **1,39,768 teachers** were exposed to induction training as against the target of **3, 77,153 teachers**.

- **6 states have achieved 100% of its targets.** This is Andaman & N Island, Assam, Chandigarh, Manipur, Nagaland and Orissa.
- **7 states have achieved between 50% to 99% of their targets** namely Andhra Pradesh(55%), Chhattisgarh (70%), Gujarat (83%), Jammu & Kashmir (50%), Lakshadweep (67%), Mizoram (78%) and Puducherry (84%).
- **7 states have achieved between 2% to 49% of their targets** namely Bihar (33%), Daman & Diu (8%), Haryana (47%), Jharkhand (2%), Karnataka (15%), Maharashtra (48%) and Punjab (12%).
- **8 States achieved 0% progress** namely Arunachal Pradesh, Dadra & Nagar Haveli, Delhi, Madhya Pradesh, Sikkim, Tamil Nadu, Tripura and West Bengal.
- **The remaining 7 States** had indicated no target for 2011-12 namely Goa, Himachal Pradesh, Kerala, Meghalaya, Rajasthan, Uttar Pradesh and Uttarakhand.

The training at the induction level has been a gray area in the quality related issues. Many of the States have not paid much attention to impart training to newly recruited teachers. The course curricula of the Induction training included general awareness about the fundamentals of education, children's learning process, school management, Child rights, CCE, RTE implications, other pedagogical issues, and subject matter training. However, all States have been emphasizing the awareness about CCE and RTE 2009. States like Delhi have been orienting the newly recruited teachers about the school process and the school related issues. States like Andhra Pradesh, Haryana, Chandigarh have been emphasizing awareness about RTE-2009 obligations. States like Chhattisgarh have decided to impart induction training through a training manual prepared for training newly recruited teachers covering a wide ranging topics such as – Enrollment and retention, Maintenance of records, Gender sensitivity-etc. The States may have to think to include subject specific knowledge along with student friendly pedagogy to transmit the subject matter. The newly recruited teachers are also to be given the knowledge of no detention and no corporal punishment during their induction training. They should also be given the brief knowledge of NCF-2005. The new teachers should be trained to use TLM and idea of ABL process in class room teaching.

Details about the focus areas planned for induction training in 2011-12 are included below:

Sl. No.	State	Focus areas of Induction Training in 2011-12
1.	A & N Island	<ul style="list-style-type: none"> • During 2010-11, 119 teachers have been recruited and all of them have been provided induction training.
2.	Andhra Pradesh	<ul style="list-style-type: none"> • Foundational Areas – Psychological, Sociological and Philosophical foundations of education, • Subject Specific Pedagogies – Reflecting National Curriculum Framework • About the Child – How children learn and fail • Child Rights and RTE and its implications. • Pupil Assessment Procedures • Conceptual areas in different subject areas.

Sl. No.	State	Focus areas of Induction Training in 2011-12
		<ul style="list-style-type: none"> • Classroom Processes and Management. • Professionalism and Profession Development. • Community Participation and Home School Links (AMCs)
3.	Arunachal Pradesh	<ul style="list-style-type: none"> • The State is regularly offering Induction training under SSA to newly appointed teachers at Elementary level. • Module content is prepared and modified time to time by subjects' experts and experienced teachers.-Entire process of training is maintained by the host institute DIET. Training programme is conducted in residential nature; the Principal of DIET monitors and manages the entire training programme.
4.	Assam	<ul style="list-style-type: none"> • 30 days package covers classroom process, active learning, proper planning, CCE and concept on NCF-05. • As the parameter of education system largely depends upon the quality of teacher, the newly appointed teachers must be acquainted with basic principle of teaching, qualities of teacher, content and methodology, curriculum-syllabus and textbook, children psychology and value education. • As CCE is considered as an integral part of the elementary education the newly appointed teachers will have to be oriented on the CCE scheme in detail. • The co-curricular and socio personal activities will also major topics in the induction training. • At the same time handling of diversity, learning to learn, record keeping, community mobilization and explore of community resource, library management and other issues related to quality education will be given due importance in the training module.
5.	Bihar	<ul style="list-style-type: none"> • State has addressed this issue and has developed a module for induction training, known as Prerna Module. • This training focuses on motivation and basic content of Classes I and II, since majority of new teachers are recruited for lower primary level.
6.	Chandigarh	<ul style="list-style-type: none"> • Orientation about SSA, NCF2005, RTE , CCE, Action Research, life skills, motivation, behavior management, inclusive classroom management, remedial measures, preparation of classroom teaching aids, activity based teaching , how to improve reading & writing skills, DISE, SEMIS, PowerPoint presentations, preparation of projects, health Education, Arts & craft, communication skills & active learning pedagogy. • The induction training will be conducted in the month of June for 200 newly appointed teachers. • Training module already developed during 2010-11 will be relooked to incorporate some new topics through workshop mode.
7.	Chhattisgarh	<ul style="list-style-type: none"> • Induction training of teachers was conducted through a training manual prepared for training newly recruited teachers covering a wide ranging topics important to know for newly appointed teachers such as – Enrollment and retention, Maintenance of records, Science teaching, Gender determination in Hindi, Grammar teaching, Idioms, Concept of addition and subtraction in Maths, Concept of percentage and proportion, Concept of area, Concept of decimal, Meaning and History of map, Longitude and latitude, Effective communication, Introduction group work, RTE, Curriculum, Job chart for elementary teachers, Team work and leadership, Educational planning at school level, Vision introspection, MGML, ADEPTS at schools, Community participation etc. The idea is to sensitize the newly recruited teachers in the whole dynamics of the school functioning and the likely class room practices expected from the teachers.
8.	D. & Nagar Haveli	<ul style="list-style-type: none"> • Induction training not conducted due to not recruitment of teachers.
9.	Daman & Diu	<ul style="list-style-type: none"> • Identification & enrollment of out of school children

Sl. No.	State	Focus areas of Induction Training in 2011-12
		<ul style="list-style-type: none"> • Community participation in school management (VEC/MTA/PTA) • Utilization of various grants under Sarva Shiksha Abhiyan • Gender Education & Social Equality • Multi-grade teaching & Teaching Learning methods of language • Hard spots in Mathematics • Effective uses of TLM in science & environment. • Development of evaluation method & TLM • Teaching-Learning method • Evaluation methods in minimum Learning level
10.	Delhi	<ul style="list-style-type: none"> • Issues pertaining to smooth functioning of the school • Duties and responsibility of the individual and the mechanism of sharing the responsibilities to achieved the desired goals. • Up-gradation of Subject specific knowledge of the newly inducted teachers. • Special emphasize to be given how to cater the CWSN and other students who are weak in studies. • To make them aware of the provision of RTE Section-29 (2) and responsibilities of teachers. • To develop the capacity for involving community in development of school.
11.	Goa	<ul style="list-style-type: none"> • Play way methods. • Effective co-curricular activities. • Continuous comprehensive evaluation. • Activity based learning. • Self learning. • Peer group learning. • Self assessment.
12.	Gujarat	<ul style="list-style-type: none"> • Newly recruited teachers were provided training on various components of SSA. • Various programmes run by SSA, RTE, NCF etc. • Newly recruited BRPs would be given induction training of 10 days by April 2011. They would be involved in 14 days teachers' training during 16 April to 3 May 2011 also. After that, their capacity building training would be organized in phased manner periodically.
13.	Haryana	<ul style="list-style-type: none"> • Induction training to newly appointed teachers in the content and methodology as envisaged in RTE Act, 2009. • Teacher training is being provided by two organizations namely New Horizon India Ltd and Educomp Solution Ltd. Both organizations have lots of expertise in organizing of training of teachers. , Master trainers were trained and deployed by the organization itself after the completion of intense training for 21 days training on specific areas identified by the State Resource Group. After conducting TNA, areas of modules were identified and prepared in the expert guidance of SRG. There are 181 designated centres across the state. 119 centers at block level are meant for training of primary teachers and 62 centers at subdivision level is for training to upper primary teachers. 14 days training is imparted in two phases of seven days each. • An impact is awarded to Kurukshetra University, Kurukshetra. The pre-end-post in service teacher training study is being conducted across the state. • Training will be imparted on general topics i.e. child psychology, effective classroom transaction, use of science and math kits, effective performance in science etc. • Based on the desired changes that the State wishes to bring in teachers in the next few years (as per performance benchmarks identified in light of RTE), what will be the long-term perspective plan for bringing about these changes

Sl. No.	State	Focus areas of Induction Training in 2011-12
		in teachers?
14.	Jammu & Kashmir	<ul style="list-style-type: none"> • Salient features of active pedagogy. • NCF-2005. • Continuous and Comprehensive Assessment. • Basic concepts of curricular subjects of elementary classes. • Development and use of TLM. • Vision of effective schools. • Basic principles of school management.
15.	Jharkhand	<ul style="list-style-type: none"> • Understanding Children. • Motivational inputs through games and activities. • Sensitization on issues like gender, caste etc. • Learning theories, concepts and activities. • Curriculum, Syllabus and Textbook content • Evaluation techniques. • Teaching Plan, Lesson Plan • Classroom Management • Innovative methods of Teaching Mathematics, Science and English
16.	Karnataka	<p>The state planned to conduct induction training for new teachers of 2009-10 and 2010-11 together in 2010-11.</p> <p>Subject may be as follows:</p> <ul style="list-style-type: none"> • PRERANA: 15 days course includes short background of state education, teachers attitude, RTE, Child's right, demonstration lessons on activity based class room process, administration of a small school, record maintenance etc., • Nali Kali training - 7 days • Theatre in education and other activity based methods - 3 days. • Content enrichment - 5 days
17.	Lakshadweep	<ul style="list-style-type: none"> • Areas to be covered- Approach and evaluation - Languages, Approach and Evaluation- Subjects, CCE in English medium classes both in Primary and Upper Primary, CCE in Malayalam medium classes.
18.	Madhya Pradesh	<ul style="list-style-type: none"> • Newly appointed about 25000 Samvida Shikshak class II and class III will be trained for subject wise hard area, pedagogy and general subject in 15 days at DIET level. • Duration of Induction training 2011-12 shall be 21 days. This includes 8 days in subject area and 13 days in general areas at DIET level.
19.	Maharashtra	<ul style="list-style-type: none"> • The content of training: Life skills, Constructivism, Content and Methodology for School Subjects, Use of TLMs, CCE, ADEPTS, TQM, Counseling, Inclusive Education, Health, Population, Environment, RTE, NCF, SCF etc. • Process : Group Discussion, Self-Study, Peer Study, Demonstration, ppt
20.	Manipur	<ul style="list-style-type: none"> • Freshly recruited primary teachers are being imparting induction training for 30 days. Training modules will be developed in convergence with SCERT. • Training modules for the induction are planned in the month of June, 2010.
21.	Meghalaya	<ul style="list-style-type: none"> • SSA Norms, RTE, Child's Right, NCF 05, Teachers' Attitude, Micro Teaching, TLM Development- cum Practice Teaching, School Planning & Management, CCE, Teaching Learning Process, Activity based Learning, Classroom Administration, Evaluation, Record Maintenance, Child Centered Education, Effective Teaching Technique, Teaching of Languages, Teaching of Social Science, Roles of Teachers, Project Work, Co-curricular Activities.
22.	Mizoram	<ul style="list-style-type: none"> • General Areas (SSA Norms, RTE, child's right, NCF 05, teachers' attitude, etc.) • Orientation Course on Teaching English • Orientation Course on Teaching EVS • Orientation Course on Teaching Mathematics • Orientation Course on Teaching Science

Sl. No.	State	Focus areas of Induction Training in 2011-12
		<ul style="list-style-type: none"> • Teaching Learning Process, Activity based learning, Classroom administration, Question Setting, Evaluation, record maintenance • Child centered education, CCE and effective teaching technique • Practical teaching in schools with the help of trainers

West Bengal	<ul style="list-style-type: none"> • Ice Breaking, Self introduction, Expectation of the participants from the profession, Expectation of the Society from the participants • Common Minimum Learning/skill required for a teacher, Socio-economic, political, environmental overview of the world and of the country • Development of professional skills, subject-wise, planning, designing and use of TLM. Use of Library as a learning resource • In depth study of: NCF 2005, RTE Act 2009, Equity Issues • Intensive Training on: How to use Information & Communication Technology (ICT) in classroom transaction and evaluation • Intensive Training and broad based exposure on extracurricular activities and how to involve, as well as evaluate the students through extracurricular activities and Group Work, as a part of CCE. • Work with the students and community under the supervision of RPs, as Community Organizers, Engage the students in group activity and participatory learning, Project Work • Valedictory Meet

Source: Appraisal Reports of AWP&B 2011-12 and QPR up to March 2012, Pedagogy Unit, TSG

Training of Untrained Teachers under SSA in 2011-12

To ensure that all untrained teachers acquire the requisite professional skills, SSA provides 60-days training for teachers who have not received pre-service training. Many States have undertaken such programmes in collaboration with IGNOU's distance training programs, or by increasing the capacity of their own teacher education institutions such as SCERTs and DIETs. With the implementation of RTE-2009 the states are supposed to impart training to the back log of professionally untrained teachers with a minimum of 2 year diploma course like DEd from IGNOU. At the same time no further untrained teachers are to be recruited. As such the States will have to enhance the intake capacity of the existing DIETs to meet their requirements. This whole issue has to be resolved within a cushion period of 5 years from the date of implementation of RTE that is upto 2015. The teachers who had acquired CPE diploma of 6 months duration from IGNOU are not considered as professionally qualified, they also require to undergo a teacher-training for a period of 18 months or more.

The progress for Untrained teacher training up to March 2012 was 74,732 teachers against a target of 2,31,972 teachers, which reflects a 32% overall achievement.

- 2 States have shown 80% to 95% progress against their targets, namely Nagaland (80%) and Uttar Pradesh (95%).
- 4 states have achieved between 10% to 60% of their targets, including Arunachal Pradesh (34%), Madhya Pradesh (58%), Maharashtra (50%) and Meghalaya (13%).
- 9 states, namely Bihar, Chhattisgarh, Jammu & Kashmir, Manipur, Mizoram, Orissa, Sikkim, Tripura and West Bengal have reported 0% achievement against their targets.
- The remaining 20 States had indicated no target for 2011-12, including Andaman & N Island, Andhra Pradesh, Assam, Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Delhi, Goa, Gujarat, Haryana, Himachal Pradesh, Jharkhand, Karnataka, Kerala, Lakshadweep, Puducherry, Punjab, Rajasthan, Tamil Nadu and Uttarakhand.

Issues in Training of Untrained Teachers:

Some of the issues that have been reported by States regarding the training of untrained teachers include:

- Some of the states facing the problem of untrained teachers, like Arunachal Pradesh, Jharkhand, Tripura and West Bengal have a large number of untrained teachers. They are seeking the help of IGNOU to clear the backlog of untrained teachers. However, they are also trying to rope in DIETs to train the teachers. However, major problem being faced by these States is that the teachers who are old or have already put in good number of years of service are not willing to get the training.
- Insufficient number or in-take capacity of Teacher Training Institutions/ SCERTs/ DIETs in the State (eg. Assam and Jharkhand) is an issue with the States. It is proposed that these States may take the help of State University's open education departments to provide training to their untrained teachers. The States like Jharkhand may like to take the help of Teacher training institutes (TTIs) to provide training to untrained teachers. Both face to face mode (at TTIs) & distance mode (at IGNOU) of training will have to be undertaken to clear the backlog of untrained

teachers in the State. Further it may be emphasized that to develop professionalism amongst teachers both the modes (face to face and distance mode) are required. In this way these States can enhance their capacity to train teachers. If the help of the existing institutes is taken in case of Jharkhand, there will be a Capacity to train around 16000 untrained teachers every year from 2010-2011 onwards. Hence the backlog of about 23000 untrained teachers will be cleared in approximately three years time.

- The States are finding a large gap between the output given by training institutes per year and the actual demand of teachers in schools (Chhattisgarh). The state is mooting several options like seeking the help of SCERT, DIETs, BTCs and the private TTIs to meet the challenge. State's teacher recruitment policies which currently allow for hiring of untrained teachers need to be revised (Assam, Arunachal, Bihar, Chhattisgarh, Meghalaya, Orissa, Tripura.)
- The NCTE being a regulatory body does not recognize IGNOU's 6-month CPT as full-fledged certification for teachers, thus there is less incentive for teachers to enroll in this course (J&K, Mizoram). J&K intends to carry out the training through the J&K board in the vacations of summer and winters to clear the backlog.
- While taking up the issue of untrained teachers, one does take into account that the basic qualifications for being a teacher to teach primary classes, a person must be +2 pass or graduate. But in the State like Nagaland and Orissa, there have been teachers with matriculation as basic qualifications, who are teaching at the primary level. These States may consider providing these teachers an opportunity to improve their basic Educational qualifications.
- Teachers who are on the verge of retirement are not willing to undergo training in Manipur and Nagaland. The number of teachers that can be covered under IGNOU's distance course is not sufficient to be able to cover all the untrained teachers. (Manipur, Nagaland)
- There are some logistical or geographical obstacles (for teachers from far-flung areas) to enroll for teacher training course (Mizoram). Such teachers can be provided some training modules supplemented with some face-to-face and distance education courses.
- In case of States like Sikkim, it is not feasible to accommodate long absence of teachers from schools (during the training period) as it will hamper the teaching-learning process in the schools.

Strategies for covering untrained teachers

States have adopted various strategies for addressing the above issues to cover the untrained teachers in the state. For example,

- Enrolling in distance programs offered by IGNOU 2-year Diploma in Primary Education (DPE) courses.
- Madhya Pradesh designed and implemented a Diploma in Education (D.Ed.) Course called Operation Quality through distance mode to complete the backlog of untrained teachers at elementary level.
- Some states like Nagaland have taken a policy decision to recruit only professionally trained teachers. However these states still need to evolve a mechanism to ensure that the existing back log is cleared in a timely manner.
- In Mizoram untrained teachers will be given DPE (D-Ed equivalent) through IGNOU which is of two years duration as required by RTE, in 2010-11. Untrained primary school teachers are undergoing CPE course and DPE for UPS teachers under IGNOU.

- In Orissa, the Directorate, TE & SCERT has been entrusted with the training of untrained teachers through DEP-CT course (which is equivalent to Regular CT course). There are 110 study centers in the State for such programmes. The TE and Mentors for these programmes are also trained to impart such training.
- In UP all graduate untrained teachers will be trained through distance mode from Indira Gandhi Open University Regional Office Lucknow (IGNOU) and Rajarshi Tandon Open University Allahabad (provided NCTE agrees to the proposal) as the current norms of NCTE for teachers training through open or distance learning mode are very restrictive.

An overview of the major issues faced and strategies that States have adopted for training their untrained teachers are reflected in the table below.

Issues and Strategies in Training of Untrained Teachers

S.N.	State	Status	Issues & Strategies
1.	Arunachal Pradesh	<ul style="list-style-type: none"> • As per annual work plan 2011-12, out of 12816 teachers working at elementary level including SSA teachers, 9781 are untrained i.e. 76.32% of which 6495 out of 8107 i.e. 80.11% at primary level and 3286 out of 4709 i.e. 69.78% at upper primary level are untrained. These untrained teachers will be trained in four batches during the next 3 to 4 years of which 1489 have already been registered. 	<ul style="list-style-type: none"> • In order to have requisite professional qualification in the light of RTE and also to enhance the quality of teaching-learning process effectively in the classroom, State has decided to get trained all the in-service untrained Pry and Upper Primary teachers through 2 years Diploma course of IGNOU within the next three years. • Hence, an emphasis is given on compulsory teacher training (Two years Diploma in Primary Education) through distance mode of IGNOU to boost the capacities of untrained teachers by strengthening the training institutions like 11 DIETs and 23 vibrant BRCs as study centres for contact programme in different districts. • Presently all the 11 DIETs have been approved as study centres for this programme and proposed 23 BRCs are likely to be approved. In fact, the State has a large number of backlogs of untrained teachers.
2.	Assam	<ul style="list-style-type: none"> • The state has 52863 untrained teachers. As per NCTE, Act 2010, all teachers must be trained up who were appointed only after 3rd September 2001 and will have to undergo 2 year Diploma in Elementary Education. It is seen that total 8303 (LP 6165 + UP 2138) were appointed or regularised in elementary school after 3rd September, 2001. • SCERT already has undertaken the 2 years Diploma course at DIET covering 7756 nos teachers. Remaining 547 teachers are also to be trained up by SCERT within this year. 	<ul style="list-style-type: none"> • It is proposed that both [i.e. face to face at TTIs training will have to be undertaken to clear the backlog of untrained teachers in the state. Beside these, there are some learning centres approved by IGNOU at BRC level which can be used for training. • Through TTI and distance mode 2 year curriculum is prepared by SCERT and sent for approval to NCTE • Problem is trying to solve with SCERT and IGNOU. At present only 8603 nos of untrained teachers in the state who were appointed after 3rd September, 2001.

S.N.	State	Status	Issues & Strategies
3.	Bihar	<ul style="list-style-type: none"> • The Government of Bihar and IGNOU has signed an MOU to train untrained teachers by offering them DPE programme. The programme is delivered through a network of 37 PSCs (one in each district) and about 400 Cluster Resource Centres (CRCs). • A joint Task Force, is co-chaired by VC IGNOU and the Commissioners-cum-Secretary and with two and three members respectively from Govt. of Bihar and IGNOU. This supervises all activities pertaining to the programme. It was decided to organize meeting of the Task force at least twice a year. • The in charge of PSC has been designated as District Coordinator and monitoring all the activities of DPE programme in their district including that of CRCs. 	<ul style="list-style-type: none"> • The State has very few numbers of training institutions which can provide pre-service training of teachers. Only 20 (DIETs and PTECs) training institutions are providing pre-service training. Further, the capacity of these institutions is only 50 each except one which can enroll 100 students. • Out of the newly recruited teachers about 65% were untrained whereas only 35% were trained. It is not possible to train this number of teachers through distance mode. This was an exceptional and short time measure and was not meant to replace the conventional in house capacity of teacher training. • Session starting from 2007-09 to 2009-10 about 1,29,000 untrained teachers have been enrolled in this two year Diploma in Primary Education (DPE) course. IGNOU is also facing problem in training these huge number of teachers, hence, it could not be advisable to enroll more teachers to this course in coming years. This measure was taken up as a shot intervention to train huge number of teachers in one goes. • 1,40,000 teachers were found to be untrained out of total 2,14,000 teachers recruited, if this ratio prevails in another 3,04,516 which are required in light of Right to Education Bill, the number of untrained teachers would be around 1,99,216. Again, this will be huge number of untrained teachers would not be possible to get trained through existing set-up of training institutions. • State has taken up this issue on a priority basis and is reviving its training institutions. The state has altogether 60 basic training institutions inclusive of DIETs. If these all training institutions become operational which would be very ideal situation, then too only 3,050 teachers would be admitted for training in each session. It is evident, thus, that would be very difficult to achieve this target in a short period of time.
4.	Chhattisgarh	<ul style="list-style-type: none"> • So far state had only one source of training untrained teachers that was through IGNOU's correspondence course DPE. This was a two year diploma course conducted through correspondence. • 7951 teachers were trained through IGNOU in the year 2009-10. 13407 teachers were to be trained in 2010-11, but NCTE withdrew recognition of 	<ul style="list-style-type: none"> • State still has a backlog of around 39000 untrained teachers while around 5000 new teachers will be recruited this year of which around 2000 are likely to be untrained. To train these many untrained teachers new capacity for in-service teachers training are being created in the state. SCERT has applied to NCTE for starting a diploma course through correspondence to be conducted through 16 DIETs and 2 BTCs creating a

S.N.	State	Status	Issues & Strategies
		<p>this course as teachers training course hence none of the teachers could be trained in 2010-11.</p> <ul style="list-style-type: none"> • Now SCERT of the state has applied to the NCTE for the recognition on the 2 year diploma course designed by it and to be taught through correspondence mode. This recognition is expected shortly and will be for 7500 seats. If approved state will be able to train its all, about 39000 untrained teachers in 5 years time. 	<p>capacity for training around 7000 untrained teachers in the state. Similarly Pt. Sundarlal Sharma Patrakarita Vishvavidyalaya has been granted to accommodate 2400 students through correspondence in its B.Ed. course. Thus there will be a Capacity to train around 9400 untrained teachers every year. Hence the backlog of about 39000 untrained teachers will be cleared in four years time. The teachers trained through SCERT for 2 years will be acquiring the D.Ed. degree, which will have the recognition from NCTE.</p>
5.	Jammu & Kashmir	<ul style="list-style-type: none"> • The mechanism devised for training of untrained teachers (induction level/post induction level) in the 2005-06 envisaged a six month course through the mode of distance education from IGNOU. • The teachers who qualified the examination at the end of the term were to be awarded "Certificate in Primary Teaching" (CPT). • However, the programme could not succeed due to several reasons. One of the major reasons was that the study materials prepared by IGNOU properly do not cater to the needs of teachers nor could it be disseminated in far flung areas of the State. Another reason was the lack of interest shown by teachers as the six months course had formal recognition from State Education Department. 	<ul style="list-style-type: none"> • Training of in-service teachers for D.Ed is proposed through distance education from J&K Board. The issue of raising the intake capacity of DIETs is under consideration. • The DIETs shall act as nodal agencies for the programme as they already train the teachers for D.Ed. and have the necessary infrastructure/ faculty for the same. Batches of the 50-100 teachers shall be enrolled per year. • DIETs shall arrange two PCPs of 15 days each per year for batches of 50 teachers. • The study material is easily available as per J&K Board syllabus; IGNOU can also be associated for sourcing the supporting study material. Ensure the enrolment, the Administrative Dep't. Shall be requested to issue order stipulating that eligible in-service teachers shall clear D.Ed. within 2/3 years of selection failing which annual increment shall be withheld. • The examination at the end of the session shall be conducted by the J&K Board as in the case of regular D.Ed. candidates. • SPO shall monitor the programme and arrange workshops for stakeholders to ensure success of the programme. • The modalities of recognition of D.Ed through distance Education shall be taken with J&K, Board of School education.
6.	Madhya Pradesh	<ul style="list-style-type: none"> • As per RTE act a person must possess the minimum qualification letdown by the academic authority authorized by the central govt. to be eligible to work as a teacher. NCTE (authorized by central govt. as academic authority) has let down the minimum qualification for teachers. The state has developed strategy to all untrained teachers within the next 4 year. The strategy has been drawn on the bases of the following. 	<ul style="list-style-type: none"> • There is a requirement of proper planning and Mechanism for training of untrained teachers which include nature of course, partners/ providers, duration, content, methodology, follow-up and process of certification. As per RTE act a person must possess the minimum qualification letdown by the academic authority authorized by the central govt. to be eligible to work as a teacher. NCTE (authorized by central govt. as academic authority) has let down the

S.N.	State	Status	Issues & Strategies
		<p>a. The number of under qualified and untrained teachers</p> <p>b. Institutional capacity in terms of DIETs and teachers training institute, which address in the state for teacher education.</p> <p>c. Proposed measures for increasing the institutional capacity to address the teacher qualification needs of untrained teachers, including alternative strategies through distance learning to clear the backlog.</p>	<p>minimum qualification for teachers. The state need to developed strategy to all untrained teachers within the next 4 year. The strategy has been drawn on the bases of the following.</p> <ul style="list-style-type: none"> • The number of under qualified and untrained teachers • Institutional capacity in terms of DIETs and teachers training institute, which address in the state for teacher education. • Alternative strategies through distance learning to clear the backlog. As well as through regular and distance courses Bhoj & IGNOU. • There is also a requirement of proper data regarding untrained teacher.
7.	Maharashtra	<ul style="list-style-type: none"> • Untrained teachers get 60 days training. (3 rounds of one month each) • They join 21 days general in service teacher training course • Additional 29 days training will be organized at DIET level. 	<ul style="list-style-type: none"> • Long-term perspective for covering all untrained teachers in the State, through appropriate D.Ed. (2-year) equivalent course
8.	Manipur	<ul style="list-style-type: none"> • The Road map to train the untrained teachers has been developed by the SCERT, which is also one of the academic authority. • Eight DIETs will be imparting in-service teacher training for two year course for purely untrained teachers and 18 months course for those teachers who have completed 6-months Certificate Course. 	<ul style="list-style-type: none"> • The SCERT is the authority to train the untrained teachers. • State has no policy of recruiting trained teachers.
9.	Meghalaya	<ul style="list-style-type: none"> • The state has a major problem of training the untrained teachers already recruited in the cadres. This is due to the fact that trained teachers are not available and the intake capacity of the training institutions is not adequate. Thus far the CPE course was being conducted by IGNOU, which has been derecognised by NCTE. 	<ul style="list-style-type: none"> • To overcome this problem of clearing the backlog and improve the intake, the DERT was requested to formulate a Plan of action to take up the task of training of teachers. • After several consultative meetings at various levels the DERT has proposed to conduct D.Ed. programme for the teachers. • Make Professional Training (2 yrs. Teacher Education Programme) mandatory for recruitment • Training of in-service (untrained) teachers in a time bound manner • Operational definition of the Term 'Trained Teachers' to be made clear in universal terms and to be expressed explicitly. • The DERT after reorganization will establish a Distance Education Deptt. The Deptt. Will offer a 2 years Teacher Education Programme with study centres all DIETs & BRCs. Remuneration & others incentives for both academic counselors programme coordinators and Teacher students to be worked out at State level.

S.N.	State	Status	Issues & Strategies
10.	Mizoram	<ul style="list-style-type: none"> All untrained teachers are sent for DPE course through IGNOU which is of 2 years course and is equivalent to D.Ed. as required by RTE. 	<ul style="list-style-type: none"> Prior to RTE untrained teachers were sent for CPE course through IGNOU which was then very much valid. With the implementation of RTE those untrained teachers who had undergone CPE are now considered as untrained teachers. It is planned to cover all these untrained teachers through DPE in a phase manner and recruit trained teachers as much as possible in future in order to clear backlog of untrained teachers in the state.
11.	Nagaland	<ul style="list-style-type: none"> SCERT & DIETs undertake 6 months Certificate Course for untrained teachers. Monitoring and supervision are also undertaken by Directorate of School Education and its field establishment. The current status of study centers in the state is 6 DIETs with 50 each capacity intake annually, 1 SCERT with 50 and the IGNOU with 200. The state will work out the backlog of untrained teachers and disseminate the physical numbers as per the feasibility to the study centers. 	<ul style="list-style-type: none"> The state has been conducting the training of untrained teachers through IGNOU for a 6 months CPE course. In 2010-11 SCERT has been made the nodal Agency for training of untrained teachers and therefore 6 months certificate course covering 800 untrained teachers during 2010-11. Even though post RTE rules notification the State proposes to conduct 6 months training for the reasons that teachers cannot be spared for training in the long duration. The state feels that redeployment of teachers is required may be done against training vacancies. A six month certificate course on teachers Education has been proposed to 1500 untrained Teachers during 2011-12 at ten centres.
12.	Orissa	<ul style="list-style-type: none"> In the State Directorate TE & SCERT has been entrusted with the training of untrained teachers. Training is being provided to the untrained teachers through Distance Mode by Director, Teacher Education & State Council of Educational Research & Training (TE & SCERT). Indira Gandhi National Open University (IGNOU) has agreed to provide in-service B.Ed. training through Distance Mode as per the request of State Govt. The untrained Teachers those who had requisite qualification (+2) under Distance mode through TE & SCERT (Academic Authority) duly approved by NCTE. 	<ul style="list-style-type: none"> Contact sessions in distance education of 60 days per year for untrained Teachers to acquire professional qualifications over a two year period. The course conducted by SCERT and approved by NCTE. Mechanism for training of untrained teachers (nature of course, partners/ providers, duration, content, methodology, follow-up) Saturation Plan for upgrading all untrained teachers in the State within the fixed time frame, through appropriate D.Ed. (2-year) equivalent course
13.	Sikkim	<ul style="list-style-type: none"> Untrained teachers are registered for professional courses through Distance Mode from IGNOU and regular B. Ed. Courses from B. Ed. College, Soreng, South Sikkim. Primary Teachers are being registered for 02 years training in DIET (East, West and South) and two 	<ul style="list-style-type: none"> There are 2197 untrained primary and 1024 untrained upper primary teachers in the state which are 47.30% and 47.96% in primary and upper primary respectively. Long-term perspective for covering all untrained teachers in the State, through appropriate D.Ed. (2-year) equivalent course

S.N.	State	Status	Issues & Strategies
		years Diploma through IGNOU, Distance Mode.	<p>There are three courses that the state is has planned to do:</p> <ul style="list-style-type: none"> • B.Ed.: State has enrolled 200 in-service upper primary untrained teachers in IGNOU in 2010. • 2-year Diploma in Elementary Education: Enrolment of 150 untrained primary teachers 3 (three) DIETs • CPE+ Programme for 300 primary teachers who have completed CPE from IGNOU.
14.	Tripura	<ul style="list-style-type: none"> • Backlog of untrained teachers. A long term plan for Teachers' training has been adopted. 	<ul style="list-style-type: none"> • Shortage of DIET's and Teacher Training Institute (Private). • Long-term perspective for covering all untrained teachers in the State, through appropriate D.Ed. (2-year) equivalent course
15.	Uttar Pradesh	<ul style="list-style-type: none"> • In 2010-11 training of 35000 para teachers through distance mode by IGNOU have been approved. • UP Govt. has requested to NCTE to train or graduate para teachers by distance mode through IGNOU or another open university of UP but the proposal could not approve. • In the context of RTE Act 2009 NCTE has approved a fresh proposal of UP Govt. to conduct elementary teacher education programmed (Diploma in Elementary Education) of two years through open & distance learning mode for training mode of existing 1.24 lakh untrained graduate para teachers. 	<ul style="list-style-type: none"> • While the model for practical training is well thought out, the PTR (DIET Faculty and student teachers) is not conducive to create the impact needed. • Keeping in view the large number of untrained teachers (graduate Shiksha Mitra) the 2 year training program will be conducted in 2 Phases First Phase - Year 2011-12- & 2012-13 Second Phase - Year 2013-14 & 2014-15 • 821 BRCs and 59 UERCs in the State of UP are fully functional. So 890 centers may be designated as study centers to conduct training program for untrained teachers through distance mode. • The seat capacity of each study center will be 70. Thus 62000 candidates will be selected for the first phase of training (2011-12 & 2012-13). • The criteria of the selection of untrained teachers for training will be on the basis of first date of appointment as Shiksha Mitras i.e. the Principle of first come first serve will be adopted. If date of appointment is the same, then the higher educational qualification will be preferred. If date of appointment and educational qualifications were the same, then Shiksha Mitra having more age would be given preference. • The training course will be spread over 4 semesters in two calendar years. At the end of each semester, examination will be conducted under the guidance of SCERT. • Monitoring of this programmed will be at three levels, state level, district level and BRC level. The SCERT will develop reporting formats for the monitoring purpose to ensure the implementation of the programmed.

S.N.	State	Status	Issues & Strategies
16.	West Bengal	<ul style="list-style-type: none"> • For the up-liftment of under qualified and untrained teachers as per minimum qualification of NCTE notification, an initiative has already been taken up for organizing examinations of PPPTT and PTT held up in the earlier years. • For reintroducing examinations of PPPTT and PTT held up in the earlier years, a notification has been issued from West Bengal Board of Primary Education which states that all the trainees. (fresher, deputed & newly appointed primary teachers) of 1 year PTT course and PPPTT course during the session 2004 - 05 & 2005 - 06 who had completed the aforesaid courses and whose names were previously registered under WBBPE but could not sit for the theoretical examination due to unavoidable circumstances are eligible for the examinations for either 1 year PTT course and 2 year PPPTT course. There are so many study centers of different medium English, Hindi, Urdu, Bengali etc. distributed in the entire state. 	<ul style="list-style-type: none"> • WBBPE in collaboration with NIOS & IGNOU will arrange the Teachers' training for the untrained Teachers at Primary level preferably through DL Mode. As a kick-start, about 1000 Untrained Teachers at Primary level will be addressed for each district during 2011-12 except DGHC. • WBBPE has now been conducting 1 year Bridge Course as per Approval of NCTE for making erstwhile 1 year PTTI Training to make it equivalent with DEd. WBBPE has now submitted a proposal for conducting 2 years DLEd course in Distance mode to cover some part of huge backlog of Untrained Teachers. • As the issue of addressing the untrained teachers both at Primary and Upper Primary level is the mammoth task, therefore more discussion will be required with reputed National level Institutions particularly NCTE, IGNOU, NIOS as well as State level organizations like NSOU, WBCROS, Universities having Distance Education Unit, Bed Colleges/ DIETs and PTTIS etc.

Status of Renewal of Curriculum & Textbooks in light of NCF 2005 Progress till March 2012

The National Curriculum Framework 2005 calls for a significant shift in the educational processes where the classrooms are expected to be child-friendly and joyful. It urges the system to put itself in the child's shoes and see things from the child's perspective so as to understand the needs and perspective of the child. In this context the functionaries as well as policy makers in education system have to find out 'what needs to be changed in order to make schooling a happy experience for the child?'. It further calls for a shift towards an active learning experience where the child begins by exploring her own surroundings through hands-on activities by linking these with her interests, in order to construct knowledge for herself. That is why renewal of curriculum in light of NCF 2005 calls for bringing changes in the overall learning experience – not only in textbooks, but in four key overall areas namely Curriculum Content: (Connecting knowledge to life outside the school); Teaching Methods (Ensuring that learning shifts from rote methods) Teaching Learning Materials (Enriching the curriculum so that it goes beyond textbooks) and Assessment: (Making examinations more flexible and integrating them with classroom life)

Each State has been urged to renew its own State curriculum in light of NCF 05 by bringing in changes in the above four key areas. The present status of renewal of curriculum and textbooks in different States is as follows:

Factors Contributing to Success in changing the curriculum:

In the States that showed good progress in renewing their curriculum in light of NCF 2005, following are some of the positive factors contributing to success:

- Formation of strong Subject Expert Groups to contribute to envisioning and drafting of new Curriculum framework
- Close involvement of experts from National Level, particularly those who were involved with drafting NCF 2005
- Proper structure with active SCERT and close coordination with other educational bodies
- Decentralized process with a great deal of interaction and dialogue with diverse stakeholders at different levels
- Strong visioning exercises to enable different stakeholders to understand and internalize the essential ideas of NCF 2005

Barricades in changing the curriculum:

Some of the challenges that have been found in the curriculum renewal process include:

- Some states went directly for revision of syllabus or textbook, without first developing a clear curriculum vision document through wide-scale discussion
- Curriculum renewal by itself is not sufficient rather it requires revising the Teacher Education Framework, as well as the systems of assessment and monitoring so that it is in tune with the curriculum vision
- Spirit of NCF 05 not always properly understood at different levels
- if there are not enough practical examples of what the ideas of NCF 05 (eg. constructivism) actually look like in practice there is always difficulty in translating theory into practice,
- Mindset of officers/Coordinators remain focused on administrative rather than academic issues

Success Stories:

The table below shows some examples of the positive steps and good practices that have been taken by various States to facilitate the process of curriculum renewal at the State level. Following that is a table that provides a broader picture of where each state stands in terms of curriculum and textbook renewal in light of NCF 05.

Salient Features/ Good practices in Curriculum Renewal Process

S. N.	Steps taken in Curriculum Renewal process	Examples of Good practices from States
1.	Developing own State Curriculum Framework in light of NCF 05 (instead of going straight for syllabus/ textbook revision)	<ul style="list-style-type: none"> • Karnataka, Kerala, Orissa, Bihar, Chhattisgarh and Sikkim Uttarakhand and Uttar Pradesh etc. developed their own State specific Curriculum document after wide-scale discussions at different levels
2.	Holistic curriculum reform, involving not just textbook revision, but also accompanying changes in assessment methods, teaching methods, other teaching learning materials, etc.	<ul style="list-style-type: none"> • In Kerala, the new curriculum was accompanied by efforts for ensuring activity-based, experiential classrooms, and making assessment continuous and comprehensive through children's profiles
3.	Constitution of Subject-wise Core Groups for designing new curriculum, syllabus and textbooks	<ul style="list-style-type: none"> • Kerala constituted 14 Subject-wise Focus Groups, including national level experts who had been involved in NCF 05. • Karnataka set up a committee consisting of educationists, professionals and classroom teachers from different parts of Karnataka. • In Orissa, Subject Groups were formed to prepare State level curriculum, and then these Subject Groups along with additional members were assigned the task of writing the new textbooks.
4.	Curriculum documents developed at different levels	<ul style="list-style-type: none"> • In Chhattisgarh, SCERT developed State level curriculum document, and at the same time Districts under the guidance of SCERT developed own District level curriculum documents for elementary level
5.	Disseminating ideas of NCF 2005 in simple form (NCF 05 and Position Papers to State language, booklets, videos, Envisioning Workshops)	<ul style="list-style-type: none"> • Chhattisgarh organized number of envisioning workshops on NCF 05 with the support of NCERT Resource Persons. • Uttarakhand circulated booklets summarizing the key ideas of NCF 05 for charging up teachers with these ideas
6.	Comparative study of State curriculum with the salient features of NCF 2005	<ul style="list-style-type: none"> • Karnataka, Madhya Pradesh made a comparative study of the State curriculum/ syllabus with NCF 2005, identifying gaps and incorporating local specific context.
7.	Developing Position Papers on different subjects, and ensuing discussions	<ul style="list-style-type: none"> • In Kerala, 14 focus groups were constituted for developing various position papers. Based on these, draft curriculum document was prepared. Detailed discussion on this document was held at the grass root level and was up scaled following a bottom up procedure. (School, Panchayat, District and State). More than 50,000 people participated in these discussions. The document was fine-tuned incorporating the suggestions that emerged from these discussions.
8.	Decentralized process involving wide-scale consultations with diverse stakeholders	<ul style="list-style-type: none"> • Chhattisgarh, Assam invited stakeholders like teachers, teacher educators, community members, subjects experts, educationists, NGOs to participate in workshops and give their views while framing the state curriculum. • Orissa developed its new curriculum in collaboration with State bodies like OPEPA, & Dte. of T.E. State level and regional consultations were held with all stakeholders related to school education, including teachers, parents, administrators and students. • Madhya Pradesh followed a decentralized process for developing State Curriculum Framework as follows: <ul style="list-style-type: none"> • Development of tools at State level for obtaining feedback and comments from students, community, teachers, etc. • Dialogue with students of 10 selected JSK schools for identification of subject wise hard spots, relevance of topics and contents. • Discussion with parents and community through PTA meeting to get their perception on what should be taught to their

S. N.	Steps taken in Curriculum Renewal process	Examples of Good practices from States
		<p>children.</p> <ul style="list-style-type: none"> • 3 Workshops each of 3 days duration organized at district level DIET involving teachers, cluster & block coordinators and educationist to review and analyse the NCF 2005 and to consolidate the district and sub district suggestions. • Workshops held at state level to compile and consolidate the feedback and finalise the State Curriculum framework • To facilitate the process, seminars were held on various issues having an impact on quality of education, i. e., Pedagogy, Evaluation Technique, Classroom transaction, etc.
9.	Constant interaction with National level experts, especially those involved in NCF 05	<ul style="list-style-type: none"> • Karnataka shared its draft syllabus with NCERT, and incorporated NCERT's feedback to make necessary changes..
10.	Field trials and feedback incorporated	<ul style="list-style-type: none"> • In Chhattisgarh, MP, feedback was taken from students, community, teachers and district persons, through field trial and monitoring.
11.	Incorporation of progressive educational theories and approaches	<ul style="list-style-type: none"> • Kerala Curriculum Framework 2007 was designed on the basis of social constructivism and critical pedagogy. The syllabus grids and unit plans were developed based on social issues with the understanding that knowledge construction and the construction of the society are complementary processes.
12.	Innovative approaches to textbook design	<ul style="list-style-type: none"> • Orissa, Chhattisgarh, Himachal Pradesh, introduced integrated textbooks for Classes I & II to reduce the load of the school bags on children. • Goa: As a first step towards the reforms of curriculum Corrections in Konkani and Marathi version of the original English NCERT textbooks are carried out and almost complete. • Karnataka: They are in conformity with the values enshrined in the constitution along with all round development of the child with key focus on both scholastic and non-scholastic subjects.
13.	Preparing supplementary teaching-learning materials to be integrated into curriculum	<ul style="list-style-type: none"> • In Karnataka, textbooks and workbooks are combined. • Assam has developed subject-wise worksheets for each class from class-I to class-V to promote activity based learning in each class. Subject-wise children assessment workbooks are also provided to children from class-I to class-VIII. • Chhattisgarh has made regular quarterly Children's magazines as part of regular curriculum, to be used as supplementary textual materials/ workbooks in schools across the State, to help the students carry out activities and exercises in the classrooms in different concept areas and acquire understanding through peer collaboration and assistance from teachers.

Status of States regarding Renewal of Curriculum and Textbooks in light of NCF 2005

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
1.	A. & N Island	NCERT syllabus followed	<ul style="list-style-type: none"> • NCERT text books are followed throughout A&N Islands so separate renewal for this UT is not required. • In respect of language books of Tamil, Telugu and Bengali, the state concerned books are used.
2.	Andhra Pradesh	State Curriculum Framework (APSCF 2011) by SCERT	<ul style="list-style-type: none"> • The penultimate draft position papers and curriculum frame work are place in the web site, for comments from teachers, parents and other public in general. • Vide district and state level consultations have been organized in the form of seminars to discuss the State Curriculum Framework, Systemic Reforms, and Revision of syllabus and Textbooks during 2011 - 12. • The Textbooks of Classes III, VI and VII have been revised and proposed to be introduced during 2012-13. • 18 Position papers were developed. • Academic standards for classes from I to VIII were formulated. • New Text Books for classes I & II were developed and supplied to schools.
3.	Arunachal Pradesh	NCERT syllabus followed	<ul style="list-style-type: none"> • The state follow NCERT textbooks, hence there is no any state plan for curriculum/textbook renewal. In the state there is SCERT (erstwhile SIE) as academic authority to look into.
4.	Assam	Revision in process, Adopt NCERT textbooks.	<p>Curriculum: Integrated School Curriculum from class I to XII</p> <ul style="list-style-type: none"> • In Assam, there are 3 Boards/Councils - SCERT upto VIII, State Secondary Education Board up to Matriculation, Higher Secondary Education Council for XI & XII. The State has taken a major policy decision to provide Integrated School Education to all children by developing Integrated Composite curriculum which was approved by Govt. of Assam in September, 2009. • Based on NCF 2005, the draft curriculum of I to XII Standards has already been prepared by SCERT for all subjects in the context of providing Equitable Standard of School Education policy of the State Government. • Govt. of Assam vide notification dt. 27th October, 2009 accorded approval of state curriculum and new textbooks are introduced in 2011 Academic year. • SCERT as Academic Authority declared. <p>TLM and Textbooks</p> <ul style="list-style-type: none"> • I and VIII Std. textbooks are prepared through SCERT and made available to schools from the academic session in 2012. Govt. of Assam has decided to follow NCERT textbook on core subjects viz. Science, Maths, English, Hindi and Language and EVS/Social Science are developed on State Curriculum. • Practicing teachers are involved in the preparation of textbooks
5.	Bihar	BCF-2006 Completed & Published 2007 in light of NCF 05.	<ul style="list-style-type: none"> • Text books of classes I, III & VI revised printed & distributed. • Text books of classes II, IV revised and printed and are being distributed • Renewal of Text Books for classes V & VII done by SCERT and they are under print.

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
6.	Chandigarh	NCERT Curriculum & syllabus followed	<ul style="list-style-type: none"> Chandigarh has no textbook board, as such in CHD. Text books published by NCERT are followed. All schools are affiliated with CBSE, therefore curriculum and text books developed by NCERT & CBSE are followed. As such the curriculum followed is in consonance with NCF-2005. Curriculum & Textbooks renewal is done at the end of NCERT.
7.	Chhattisgarh	Curriculum was renewed in the year 2007.	<ul style="list-style-type: none"> State has renewed its curriculum and text books in 2007-08 and is going to renew it in the context of the RTE in 2012-13. State has renewed the syllabus based on new State curriculum and textbooks have also been developed, printed and are in use since 2008-09. State will review the textbooks after five years or after any new guidelines being issued in this regard.
8.	D & N Haveli	Gujarat curriculum followed	<ul style="list-style-type: none"> The U.T. follows the Curriculum and Textbook prepared by Gujarat Council of Educational Research and Training (GCERT) Gujarat.
9.	Daman & Diu	Gujarat curriculum followed	<ul style="list-style-type: none"> UT of Daman & Diu has adopted Textbook and Curriculum of Gujarat State. As per letter received by Gujarat Text book board the semester system will be introduced from next academic year i.e. 2012-13 for Upper primary section only for Gujarati Medium.
10.	Delhi	NCERT syllabus followed	<ul style="list-style-type: none"> Curriculum and textbooks are developed by NCERT and Published by Delhi Bureau of Text books. State has adopted text books prepared by NCERT and which are in consonance with NCF-2005.
11.	Goa	State has adopted NCF 05 by adding 30% local component	<ul style="list-style-type: none"> The State has adopted NCERT Text Books since 2006. Corrections and improvements were carried out following the scrutiny of opinions/responses/Queries from the teaching community and people in general before 2011 addition was printed and distributed. The Textbooks having more than 200 pages were splitted into two parts with view to reduce the school bag load. However continuity of lessons/pages and content is kept unchanged. As a first step towards the reforms of curriculum Corrections in Konkani and Marathi version of the original English NCERT textbooks are carried out and almost complete.
12.	Gujarat	State Curriculum Framework by GCERT	<ul style="list-style-type: none"> New curriculum has been developed. Curriculum booklet has been put in public domain on GCERT website for suggestions. Syllabus also has been prepared and finalized for standard 1 to 8, both the semester. New textbooks have been developed for standard 1 to 8 first semester and piloted in 566 schools. Textbooks of standard 1 to 8 have been prepared for second semester also and are being piloted in the same 566 schools. Training of teachers regarding approach of new curriculum as well as new methodology was done in the pilot blocks. Feedback of teachers and students were collected by the regular monitoring systems like BRC-CRC Coordinators and DIET lecturers as well as education inspectors. The textbook writers also went in the schools and collected feedbacks from teachers and students. Accordingly corrections were made in the textbooks. First semester textbooks are being revised on the basis of feedback. Standard 6-8 textbooks would be scaled up across the state from June

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
			<p>2012.</p> <ul style="list-style-type: none"> Standard 1 to 5 textbooks would be piloted again on large scale sample. One block from each district is to be included for second pilot of standard 1 to 5 textbooks. Research on new curriculum has been assigned to M S University. The tools were developed and baseline data are collected. The data are analyzed by MS University. The tools include written and oral tests for all the subjects and all the classes, questionnaire for teachers, questionnaire for head teacher, questionnaire for CRC-BRC Coordinators, ADEIs, DIET lecturers and BRPs, Focus Group Discussion for students, Focus Group Discussion for parents. Student achievement data have been collected from pilot as well as control group schools.
13.	Haryana	State has prepared curriculum cum syllabus document for primary classes	<ul style="list-style-type: none"> SCERT Haryana, Gurgaon develops the curriculum for primary classes. Process of revision is going on to make it as per NCF 2005. For Upper primary classes, curriculum is developed by Board of School Education Haryana. The State follows NCERT syllabus and NCERT books as such the revision of curriculum is automatic. Syllabus and books are revised accordingly. Renewal of Textbooks for classes 1-5 was done in the light of NCF-2005 through various workshops and work was completed in the end of year 2010 and the renewed textbooks were implemented in the state of Haryana from academic session 2011-12
14.	Himachal Pradesh	In process for Primary level. NCERT syllabus followed at Upper Primary.	<ul style="list-style-type: none"> Though from class 6th onwards we are following NCERT curriculum but at primary level the curriculum has been developed and designed by the teachers and the material is simple and takes care of play way methods of learning. But since it was developed about seven years back, we have already started the process of its review with active involvement of SCERT and HP Board of School Education. Draft text books for class-1 have been developed based on NCF-2005. The text books for class-II are under process of development.
15.	Jammu & Kashmir	Initiated in 2007-08; still in progress	<ul style="list-style-type: none"> Under the guidance of State core Group constituted by State Government for revision/ reform of curriculum for elementary classes in accordance with the guidelines of NCF-2005, the State Board of School Education is currently actively involved in the revision/ reform process. The New- Curriculum would be introduced from the next academic session, i.e., the academic session of 2012-13. The new textbooks 1st to 8th have been developed. Teacher training modules were developed by the State Institutes of Education, Jammu / Srinagar. Teacher training modules have been developed on the modern lines of pedagogy, use of TLM and the evaluation methods. The teacher training modules have been printed and distributed among the district resource persons and block resource persons.
16.	Jharkhand	NCERT syllabus followed	<ul style="list-style-type: none"> State has initiated developing state curriculum and syllabus and preparatory work has been completed in 2011-12. State will be in position to develop their own curriculum within six month of the current financial year 2012-13. Jharkhand Council of Educational Research and Training (JCERT) has taken the responsibility of the development of textbooks in tune with

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
			<p>NCF 2005 and issues related to the pedagogical scenario of the State.</p> <ul style="list-style-type: none"> • It has already developed textbooks for Class 1 and in the process of developing the textbooks for Lower Primary Section. • There is a plan to develop the textbooks for lower primary classes similarly by the next two years.
17.	Karnataka	Completed in 2008-09. New State Curriculum approved & published	<ul style="list-style-type: none"> • The curriculum and the evaluation procedure developed by the state government are in consonance with the large frame work of NCF 2005. They are in conformity with the values enshrined in the constitution along with all round development of the child with key focus on both scholastic and non-scholastic subjects. • The state curriculum was revised under the Chairmanship of D.Jagannatharao, Retired Director, DSERT. The committee represented by Senior Lecturers from DIET/CTE and subject experts of different fields. Around 30 workshops have been conducted at different level based on outcomes-finalized the draft curriculum. The DSERT sent a draft curriculum / syllabus to the state government after incorporating suggestions from the NCERT. The government, after the receipt of the document (28.01.2008) gone through consultation process and approved the draft on 19.05.2008. • The curriculum gives scope for the syllabus makers and text book writer to make class room process, learning experience, and even the assignment system to become child centric. Syllabus has been prepared under the chairmanship of Dr.D.S.Shivananda, Retired Professor of Bangalore University. Prof.G.S.Mudambuduthaya, Retired Joint Director of the Department of Pre-University Education is heading the team to revise Curriculum and develop textbooks accordingly. • A consultative meeting was held on 21.05.2010 under the chairmanship of Honorable Minister for Primary and Secondary Education with academicians, experts, writers, parents and other prominent persons. • Revised Syllabus was published in DSERT website on 31.05.2010 in the website to invite observation, objections and suggestions from public. The process of incorporating the suggestions is underway to improve the quality of syllabus. • Curriculum revision is completed. Textbooks are being written for the revised curriculum. • After the approval of the State Government, text books development will be started and brought to practice as follows: <ul style="list-style-type: none"> • Revision of text books of standard 1 to 5 and 8 during 2012-2013 • Revision of text books of standard 6, 9 during 2013 - 2014 • Revision of text books of standard 7, 10 during 2014 - 2015
18.	Kerala	Completed in 2007. KCF published in 2007	<p>The Kerala Curriculum Framework, 2007 (KCF) draws upon NCF, conceptually and pedagogically. The salient features of KCF - 2007 are the following:</p> <ul style="list-style-type: none"> • Constructivism and critical pedagogy, • Continuous and cumulative evaluation. • Issue-based approach for the preparation of syllabi and textbooks. <p>The issues identified for the preparation of textbooks are as follows:-</p>

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
			<ul style="list-style-type: none"> • Absence of a vision of universal humanism. • Lack of human resource development. • Lack of understanding of the specificities of cultural identity and its need to develop freely. • Inability to see agriculture as part of culture. • Lack of scientific approach to health and public health. • Lack of due consideration towards marginalized groups. • Lack of scientific management of land and water. • Lack of eco - friendly industrialization and urbanization <p>The KCF - 2007 details the manner in which languages, basic science, social science and mathematics are to be taught.</p> <p>The curriculum reform in the State has been entrusted with SCERT. The following activities have been carried out by SCERT in convergence with SSA and other structures such as SIEMAT SIET, Dept. of General Education and IT@ School.</p> <ul style="list-style-type: none"> • Developed KCF 2007 based on NCF 2005 through a series of workshops in the participatory mode • Conducted discussions on NCF 2005 and KCF 2007 in State, District, Block and Panchayat level seminars involving all stakeholders • Developed syllabi, textbooks and handbooks for teachers for classes I to VIII in tune with the norms of social constructivism, critical pedagogy and issue based approach collaboration with SCERT. • Conducted try-outs of the revised TLM. • Refined the textbooks based on the try-out experience • New textbooks for classes IX and XI are being developed • Conducted teacher training with special focus on the classroom processes and assessment in tune with the underpinnings of social constructivism, critical pedagogy and issue-based approach
19.	Lakshadweep	NCERT syllabus followed	<ul style="list-style-type: none"> • In Lakshadweep we follow the text books on NCERT and SCERT Kerala. However action has been initiated for developing a separate curriculum for Primary classes in the first phase. Text books in Mahal Language for Std I-IV only are prepared by us.
20.	Madhya Pradesh	Follows NCF 05 curriculum. Textbooks revised in light of NCF	<ul style="list-style-type: none"> • The State has developed matrix on the basis of RTE, CCE & NCF. • The state will be prepare class I, III, & VI Textbook according to matrix in year 2012-13 in all subject.
21.	Maharashtra	Process initiated in 2009-10	<ul style="list-style-type: none"> • The present curriculum of Primary Education was revised in 2004. It got approved by Government in 2006 & was applied in the system from 2006. Meanwhile the National Curriculum Framework 2005 was prepared at national level. Keeping in view NCF 2005 State Curriculum Framework (SCF 2010) has been developed which got a Govt. sanction in October, 2011. Right to Education Act 2009 came in force from 2010. To cope with all these changes, curriculum development process is initiated by MSCERT in the sense of NCF 2005, RTE-2009 & SCF-2010 from last June. <p>The work done regarding the implementation of NCF-2005 is as follows:</p> <ul style="list-style-type: none"> • To revise the curriculum, subjectwise curriculum groups have been formed. Experts primary-secondary teachers, professors of colleges &

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal						
			<p>universities, NGO representatives, SSC Board Study group members, lecturers of DIET, field officers, special officers of Balbharti, MSCERT officials etc. are included in each group.</p> <ul style="list-style-type: none"> • Literature which is being used as reference material for curriculum development is as follows: <ul style="list-style-type: none"> ○ NCF 2005 ○ RTE 2009 ○ SCF 2010 ○ Position paper developed by NCERT ○ Curricula of other states and boards ○ Textbooks of other states. • Team from MSCERT, Pune visited NCERT, New Delhi for acquiring information about curriculum development. To sensitize members of curriculum groups of each subject, MSCERT had arranged lectures of experts from NCERT, New Delhi. 8 experts were invited at MSCERT, Pune who gave a proper outlook regarding the NCF 2005, national concerns and the procedure adopted by the NCERT to renew the curriculum. From June onwards till today, 11 rounds of workshops have been arranged. The work done by these subject groups is as follows: <ul style="list-style-type: none"> ○ Vision points of revised curriculum ○ Goals of Education ○ Aims of Education ○ Aims of Primary Education ○ Peculiarities and strong points of subjectwise curriculum ○ Subjectwise objectives ○ Curriculum Framework Format ○ The work of syllabi writing, finalization of evaluation in view of CCE and Teacher Training is under process & it will be completed in due course of time. • Taken into account the spirit of NCF 2005, MSCERT as an academic authority has decided the different subject scheme to minimize the number of subject to be taught at primary level. Subject scheme has been submitted to the State Govt. for approval. Proposed schedule for implementation of curriculum and textbook is as under: Curriculum will be revised - <table style="margin-left: 40px; border: none;"> <tr> <td style="padding-right: 20px;">June 2013</td> <td>Std.I & II</td> </tr> <tr> <td>June 2014</td> <td>Std.III, IV & VII</td> </tr> <tr> <td>June 2015</td> <td>Std.V, VI & VIII</td> </tr> </table> 	June 2013	Std.I & II	June 2014	Std.III, IV & VII	June 2015	Std.V, VI & VIII
June 2013	Std.I & II								
June 2014	Std.III, IV & VII								
June 2015	Std.V, VI & VIII								
22.	Manipur	Curriculum revised and implemented.	<ul style="list-style-type: none"> • Renewal of Curriculum and Syllabus based on NCF-2005 has been completed. 						
23.	Meghalaya	Completed in 2007 for Class 1-VII.	<ul style="list-style-type: none"> • The State has revised the Curriculum which is in line with the NCF 2005. • The Textbooks for classes' I-VIII have been prescribed and developed by Meghalaya Board of School Education (MBOSE). • From the year 2012, the State has reduced the number of Textbooks. • The State has also prepared an Action Plan on Textbooks. 						
24.	Mizoram	Curriculum revised and	<ul style="list-style-type: none"> • NCERT entrusted SCERT for Curriculum review and renewal in line with NCF 05. Reports are then given to NCERT and MBSE. 						

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
		implemented.	<ul style="list-style-type: none"> Accordingly MBSE revised the syllabus and textbooks by conducting workshop involving subject experts, SCERT, DIETs and concerned teachers. There is a textbook committee which approves the new curriculum and textbooks.
25.	Nagaland	Completed in 2007-2008	<ul style="list-style-type: none"> Curriculum renewal with regard to NCF 2005 & textbooks for Pny. & Upper Pny. Renewed and completed. All textbooks are reviewed every year. The State Curriculum is presently being upgraded in the light of the CCE and RTE. Orientation programmes are presently being conducted for all schools in the use of the CCE.
26.	Orissa	Completed in 2008-09 for Class I to X	<ul style="list-style-type: none"> The State has revised curriculum from Class - I to X in the light of NCF - 2005. All textbooks have been revised and implemented. CCE is prepared by Directorate of TE&SCERT, Odisha (Academic Authority)
27.	Puducherry	Follows curriculum of Tamil Nadu, Kerala, & Andhra Pradesh	<ul style="list-style-type: none"> Revised s per Tamil Nadu/Kerala/AP board DTERT Chennai for Puducherry & Karaikal Mahe from Kerala State Board Yanam from SCERT Andhra Pradesh, therefore the UT does not undertake any textbook development. Development of modules for teacher training in different areas:
28.	Punjab	Not initiated. SCERT has examined the NCF and recommendations have been forwarded by SCERT to PSEB	<ul style="list-style-type: none"> NCF 2005 as developed by NCERT was studied by SCERT. The recommendations for the state specific modifications in the curriculum and text books had been forwarded by the SCERT to the Punjab School Education Board (PSEB). The revision of the text books has been / is being done by PSEB in a phased manner. Textbooks of Hindi for 4& 5 classes, Social Science for 6, 7 and 8 class, English for 1 to 10 class and Maths and Science for classes 11 and 12 have already been revised by the board. The revision of rest of the books is under process. 37 titles of books will be revised by PSEB during 2011-12.
29.	Rajasthan	Process initiated in 2009-10	<ul style="list-style-type: none"> Four Subjects Text books of class 6 & 7 has prepared this year as per NCERT. NCERT Text books (except English text book) have been adopted by state for class VIII in 2011-2012 & will be adopted for class VI & VII in session 2012-2013. For revision of curriculum on the basis of NCF 2005, a state level committee has been formed.
30.	Sikkim	NCF 05 adapted to State-specific context in 2008-09. Modified version of NCF 05 published	<ul style="list-style-type: none"> As per NCF 2005, a State-specific Draft Curriculum Framework was developed at the State level in the line of key elements of NCF 2005 to be incorporated into the State curriculum. The perceptions and views of different stakeholders of various levels were used as a tool to refine and reshape the curriculum documents as per the needs of the state. Lastly a draft note was published in 2007, and has been finalized and printed thereafter. Text books for primary classes have been renewed and shared with MHRD. Text books for primary level has been revised as RTE & CCE, i.e. two term books have been developed including English, Maths, EVS & Sikkim related G.K.

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
31.	Tamil Nadu	Completed in 2009-10	<ul style="list-style-type: none"> Curriculum and textbooks renewal has been done in 2009-10. Textbooks based on Equitable Standard Education incorporating the salient features of NCF 2005 have been developed and supplied to schools.
32.	Tripura	Completed in 2010 for Primary and 2011 for Upper Primary	<ul style="list-style-type: none"> In our state preparation / modification of curriculum and syllabus of elementary education is done by the SCERT. SCERT is also assigned with the work of printing and distribution of textbooks under SSA. Syllabi and text books for classes' I-V have been modified in 2010 while the work of modification for classes VI to VIII has been completed in July, 2011. The Subject Expert Committee constituted for this purpose modified syllabus and text books in collaboration with subject experts both for primary and upper primary stages. At the elementary level saving English, all other NCERT text books have been introduced in the state in all Bengali medium schools in Bengali language, while in English medium schools all NCERT text books have been introduced intact. However, some topics relevant to local context have been incorporated in the text books of primary level. In order to implement this programme in the state, SSA Rajya Mission has designed CCE formats to evaluate the Scholastic and Co-scholastic areas. Those formats have been submitted to the SCERT, the State Academic Authority, for scrutiny and necessary steps for implementation of the same in the state. Now, SCERT has given a final shape of designed format of CCE. In this regard, a 20 member committee has been formed for final scrutiny of the same and for this purpose a 2 - day workshop will be held after getting confirmation from Dr. Avtar Singh, Professor and Head, NCERT who has already been requested by the Director, SCERT. We are hopeful that these formats will be implemented in all schools of elementary level in the state at the earliest.
33.	Uttar Pradesh	New Curriculum developed in 2008-09 as per NCF 05	<ul style="list-style-type: none"> Curriculum revision was undertaken by SCERT in light of NCF 2005 and subsequently textbooks have been revised during 2008-09.
34.	Uttarakhand	Completed as per NCF 05	<ul style="list-style-type: none"> State has completed the process for development of syllabus, curriculum and text books in the context of NCF- 2005. SCERT Uttarakhand has developed new curriculum framework for elementary level. SCERT and SPO Uttarakhand has organized workshop of expert resource persons comprised NRG's, SRG's, SCERT, DIET, School Teachers, NGO and Civil Society representative from different Educational fields. Document is focused on harmonization of curriculum and text books, comprehensive learning with desired learning out comes at various levels. This document mostly emphasizes for conceptual learning with constructive approach.
35.	West-Bengal	Not initiated. Curriculum last renewed in 2003-04. No plan indicated	<ul style="list-style-type: none"> As a course of action, the Government of West Bengal had been appointed a Committee of Experts after issuing a notice (No. 849-S.E.(S)/10M-64/11 Dt: 20.07.2011). The committee began work by forming sub - groups which consisted of teachers. The committee has also been in constant correspondence with primary and secondary level teachers and has taken their opinion into account. The groups analyzed the curriculum, syllabus textbooks

S. No	State	Status of Curriculum renewal in light of NCF 05	Details about Curriculum & Textbook Renewal
-			<p>operating in West Bengal presently and compared them with the NCERT curriculum and textbooks. They groups also went through all documents and surveys published in the last fifty years at the national and state level on education.</p> <ul style="list-style-type: none"> The State Government accepted the recommendations of the Committee, that the curricula, syllabi and texts for Classes - I, III, V, VII at elementary level are to be revised and re-written as per recommendations of the Committee immediately so that the revised curricula, syllabi and texts can become effective from the academic session 2013.

Textbook Distribution 31.03.2012

Concerns:

A good textbook has to be seen or analyzed with respect to pedagogical issues as well as content and presentation of subject matter. The pedagogical implications of the textbook mean how are textbooks used by teachers and received by students? The methodology employed by the teachers and the mode of learning by the students have to be taken into consideration. Usually the methodology used by the teachers is based on memorization of the content; therefore the textbooks have to be such that this part is taken care of. Some exercises where the students are made to think have to be part of the textbooks. Wherever there are readymade answers available within the text of the book or there are single answers to the questions posed in the text, memorization follows. A good textbook therefore provide some thinking exercises for the students where there could be more than one right answer for a question.

The second concern in the textbook usually is the content coverage. In other words, it includes questions on coverage, sequencing and the curriculum, space allocation, the incorporation of multiple-perspectives, cultural and regional identity. In this context a textbook has to be evaluated with respect to the way the content is presented and use of pictures and charts that depict the concept being explained to the students. Any good text book will have the text which does not encourage memorization rather it is based on skill development. The textbook establishes linkage with prior skills and knowledge. There has to be linkage between the textbooks of different classes from 1st to 5th or 5th to 8th. Such type of linkage helps the child to relive with the information. Similarly there has to be linkage with skill developed at different stages of development of the child. Another important aspect is the language. The language has to be the Childs' language rather than pure language. The grammar and accent has to be age specific. This in no way means that the child be allowed to study wrong language but this connotes that the language should develop slowly with the development of the child. The nuances of the language can be understood during the process of learning and development. Basic concept is that the child should not be driven away from the mother tongue in the early age otherwise the child may develop hatred for learning.

Another aspect in textbook is related to identifying intrinsic qualities in the textbooks that includes questions on assessing textbook pitch, on whether a text relies on reductionism, and on the possibilities for identifying author bias in texts.

Then a textbook has to be evaluated with respect to extrinsic factors like questions to ascertain whether the book is aimed at a specific group of students, and the extent to which the textbook will need to be complimented with alternative resources. A good text book is related to cultural set up from which the student comes. It has to make the child sensitive and aware about the constitutional obligation linked with equity aspect of class/ caste or gender.

Above all the textbook must have factual accuracy with up-to-date portrayal. There have to be good number of pictures depicting the concept in simpler manner. The space allocation to different concepts has to be such that the difficult concepts are arranged in a manner that the child understands those in the hierarchy of difficulty. A good pictorial view can help in the whole process.

Good Practices:

How-so-ever good the text book may be, its timely distribution is of great importance. Timely received textbook not only helps the child to learn fast but also keeps up the

enthusiasm of the child to learn. However, timely distribution of textbooks has been a major issue with the States. In order to meet the requirement of timely distribution of textbooks almost all the states regulate it through District level/cluster level nodal schools under the supervision of the CRCs/ BRCs/ District level officers. Some States have come out with Innovative practices to achieve the goal, for example:

- Madhya Pradesh has focused on accountability at each level to have a check on any probable misuse. District Collector and SPD, themselves regulate the distribution mechanism of textbooks. The experiment has been quite successful.
- Kerala and West Bengal organize various programs accompanying the text-book distribution, such as Melas and cultural programs involving parents, community members, VECs and SDMCs, as well as encouraging community mobilization.

Position of States in Textbook Distribution:

Out of all the states/UTs, 31 States/UTs received SSA grants for the distribution of free Text-books in 2011-12, and the remaining 4 State viz. Andhra Pradesh, Lakshadweep, Puducherry and Tamilnadu have been meeting out the expenses of textbook distribution out of their own State budget.

Out of a target of 9,94,12,218 the achievement up to the 4th Quarter of 2011-12 has been 9,63,56,144 which reflects 97% of overall achievement.

- 26 states have achieved 100% against the targets of timely distribution of textbooks. These include: namely Arunachal Pradesh, Assam, Chandigarh, Chhattisgarh, Dadra & Nagar Haveli, Delhi, Goa, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Orissa, Punjab, Rajasthan, Sikkim, Tripura, Uttarakhand and West Bengal.
- 5 States have achieved between 67% to 99% against the targets, namely Andaman & N Island (81%), Bihar (93%), Daman & Diu (93%), Jharkhand (67%) and Uttar Pradesh (99%).
- 4 States had not indicated any target for distribution of textbooks. These include Andhra Pradesh, Lakshadweep, Puducherry and Tamilnadu.

Distribution and Utilization of Grants in 2011-12 (up to March end 2012).

There is a provision in SSA that centre will provide financial support to the States by providing grants for enabling them to bring about quality improvement in schools. Under this initiative, the grants provided are (i) **School grant** (ii) **TLE grant** (iii) **Teacher grant**. An overview of the progress made till March 2012 is given below.

1. **School grant:** School grant will be provided to all government and government aided schools on annual basis for the replacement of non-functional school equipment and for incurring other recurring costs, such as consumables, play material, games, sports equipment etc. The amount for upper primary school will include items for science laboratories and computer education requirements. This facility will also continue to be available to Madarasas affiliated to the State Boarss of Secondary Education/ State Madarsa Boards. SSA will provide school grant as Rs. 5000/- per year per primary school and Rs. 7000/- per year per upper primary school.
2. **TLE grant:** Section 19 of the RTE stipulates that TLE shall be provided to each class as required. TLE will be as per local specific context and requirement/need to be determined by the teachers and/or School Management Committees. Teachers and parents should be in the selection and procurement of TLE. VEC/SMC, school level Village appropriate body to decide on the best mode of procurement. As per the decision every new primary school will be provided grant at the rate of 20,000/- and new upper primary school will be given a grant of Rs. 50,000/- in all States. The TLE funds cannot be pooled at cluster/block/district or State level for centralised purchase.
3. **Teacher Grant:** Teacher grant will be provided to all teachers on annual basis to facilitate child cantered joyful classroom processes by using self developed, low cost, locally available teaching learning material. This facility will also continue to be available to Madrasas affiliated to the State Boarss of Secondary Education/ State Madarsa Boards. Teacher grant is annual feature @Rs.500/- per teacher per year.

Timely Distribution:

A. School Grant:

The achievement in distribution of school grants till March end 2012 has been 12,76,181 in all 35 States/UTs, which is 97% out of the total target of 13,20,014.

23 States have achieved 100% of their targets, namely Andaman & N Island, Arunachal Pradesh, Assam, Chandigarh, Chhattisgarh, Daman & Diu, Delhi, Goa, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Lakshadweep, Maharashtra, Manipur, Meghalaya, Mizoram, Orissa, Puducherry, Sikkim, Tripura and West Bengal.

11 states have achieved between 80% to 99% of their targets, including Andhra Pradesh (98%), Bihar (82%), Dadra & Nagar Haveli (83%), Gujarat (93%), Jharkhand (97%), Madhya Pradesh (98%), Punjab (96%), Rajasthan (94%), Tamil Nadu (99%), Uttar Pradesh (97%) and Uttarakhand (97%).

Nagaland has shown 0% progress.

Steps taken for achieving the targets:

In order to help the States to get timely requisite grants following steps have been taken:

a. Orienting the Officials: 16 States (A & N Islands, Andhra Pradesh, Bihar, Chandigarh, Chhattisgarh, Gujarat, Sikkim, J&K, Kerala, Maharashtra, Mizoram, Punjab, Orissa, Uttar Pradesh, Uttarakhand & West Bengal.) have indicated that they have been orienting their CRPs, BRPs, and State officials regularly to make an assessment towards the effective utilization of the grants.

b. Issuing Guidelines for the effective use of school grants: 13 States have indicated that they have issued specific guidelines to schools for effectively utilising the grants. These states are - Andhra Pradesh, Assam, Chandigarh, Chhattisgarh, Delhi, Jharkhand, Karnataka, Orissa, Rajasthan, Sikkim, Tripura, Uttarakhand and West Bengal.

Success Stories:

For the Effective utilization of school grants different states have adopted different strategies for timely utilising the grant. These are:

- **Monitoring of the grant:** 17 states, namely, A & N. Islands, Andhra Pradesh, Arunachal Pradesh, Assam, Chandigarh, Gujarat, Himachal Pradesh, Jharkhand, Kerala, Karnataka, Meghalaya, Mizoram, Manipur, Nagaland, Rajasthan, Tripura and Uttarakhand have mentioned that VECs & SMCs have been involved in the monitoring of the grant utilization. By and large only a few States have indicated about the overall picture, that could give a reflection on the effectiveness of utilization of the school grant.
- **Gujarat has drawn specific school improvement plan (SIP) and calendar of activities for the schools so that the grants are utilised effectively.**

B. TLE grant:

Out of a target of 16,973 approved for 22 States/UTs, the achievement in distribution of TLE grants up to 4th Quarter is 8,076 which is 48% of the total target. 13 States have not been approved TLE targets for the year 2011-12.

7 States have achieved 100% of their targets, namely Andhra Pradesh, Chhattisgarh, Dadra & Nagar Haveli, Daman & Diu, Jammu & Kashmir, Sikkim and Tamil Nadu.

5 States have achieved between 40 to 98% of their targets, including Andaman & N Island (88%), Chandigarh (42%), Gujarat (85%), Madhya Pradesh (98%) and Uttarakhand (40%).

4 States/UTs have shown below 50% progress, including Bihar (15%), Himachal Pradesh (3%), Jharkhand (20%) and Orissa (9%).

6 States have shown 0% progress, including Arunachal Pradesh, Haryana, Kerala, Manipur, Mizoram and Punjab.

The remaining 13 states did not have any targets for TLE grant distribution, including Assam, Delhi, Goa, Karnataka, Lakshadweep, Maharashtra, Meghalaya, Nagaland, Puducherry, Rajasthan, Tripura, Uttar Pradesh and West Bengal.

Steps Taken for achieving the targets

- **Issuing proper guidelines for effective use of TLE grant:** 13 States (A& N Islands, Chandigarh, Haryana, J&K, Jharkhand, Karnataka, Punjab, Sikkim, Uttarakhand, Orissa, Delhi, Rajasthan and Himachal Pradesh) have indicated that Proper guidelines have been issued to the schools towards the effective use of TLE grant.
- **Orientation of BRCs, CRCs & SDMC members:** 12 States namely, Andhra Pradesh, Assam, Bihar, Goa, Gujarat, Sikkim, J&K, Kerala, Mizoram, Nagaland, Karnataka and Himachal Pradesh have indicated that the SDMC members have been trained towards the procurement process. 8 States, namely, Assam, Haryana, J&K, Karnataka, Mizoram, Kerala, Rajasthan and Tripura have indicated TLE utilisation has been made part of the course design in teachers training.

Utilization of TLE grants: Most of the states have mentioned that the type of materials procured through school/SDMC level committee recommendations included the items like, work-books, work sheets, Hindi reading cards, English reading cards, Sc. Kit, Maths kit, Maps, Charts on different subjects, Globes, Atlas, dictionary, Story books, SLM, Library books, Equipment and furniture etc.

Innovative Activities: 9 States have indicated about using innovative activities involving SDMCs and VECs to arouse interest and effective usage, through melas or fairs or exhibitions. These States include Karnataka, Andhra Pradesh, H.P, Kerala, Punjab, Rajasthan, Sikkim, Uttarakhand and West-Bengal.

C. Teacher Grant:

Timely Distribution:

The achievement in distribution till March end 2012 has been 41,95,231 in all 35 States/UTs, which is 95% out of the total target of 44,19,728.

20 states have achieved 100% of their targets, namely Arunachal Pradesh, Assam, Chhattisgarh, Goa, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Lakshadweep, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Mizoram, Orissa, Pudicherry, Sikkim, Tripura and West Bengal.

14 states have achieved between 76% to 99% of their targets, A&N (88%), Andhra Pradesh (93%), Bihar (76%), Chandigarh (97%), Dadra & Nagar Haveli (99%), Daman & Diu (92%), Delhi (89%), Gujarat (90%), Jharkhand (97%), Punjab (98%), Rajasthan (87%), Tamil Nadu (96%), Uttar Pradesh (95%) and Uttarakhand (85%).

1 state has shown 0% achievement, namely Nagaland.

Steps Taken for achieving the targets

- **Guidelines for TLM development and utilization have been issued to schools** in the form of TLM book, Teachers Guide or in the form of circulars, so as to enable the teachers to use the TLM grant effectively. This has been reported by 16 States: Andaman & N Islands, Assam, Chandigarh, Delhi, Chhattisgarh, Gujarat, Jharkhand, Karnataka, Kerala, Orissa, Rajasthan, Sikkim, Tripura, U.P., Uttarakhand and West Bengal.
- **Training on TLM development and its effective utilization is being imparted to** the teachers, Head masters, CRC and BRC co-ordinators during training programmes being organised at BRC and DIET levels. This has been reported by 27 states: Andaman & N. Islands, Andhra Pradesh, Assam, Arunachal Pradesh, Bihar,

Chandigarh, Chhattisgarh, Delhi, Daman & Diu, Goa, Gujarat, Haryana, J&K, Jharkhand, Karnataka, Kerala, Maharashtra, Meghalaya, Mizoram, Orissa, Punjab, Rajasthan, Tamil Nadu, Tripura, U.P., Uttarakhand and West Bengal.

- **Low cost TLM development is being carried out at CRC/ BRC levels.** This was indicated by 14 states: Andaman & N. Islands, Assam, Andhra Pradesh, Chhattisgarh, Delhi, Gujarat, Karnataka, Maharashtra, Orissa, Rajasthan, Tripura, Uttar Pradesh, Uttarakhand and West Bengal.

Use of TLMs in classrooms: The type of TLM being used by almost all the States included materials like story books, pictures, flash cards, alphabet/ word cards, SLM, ABL cards, work-books, work sheets, Hindi reading cards, English reading cards, graded reading material, Multi media CDs, DVDs, TV, CAL, Science/Maths kits, etc. For example, Uttar Pradesh, Uttarakhand, Andhra Pradesh got the walls of the class rooms painted with TLM pictures.

Innovative Practices: States have reported various innovative activities to promote the effective use of TLMs, such as organising TLM melas/ exhibitions (Andhra Pradesh, Delhi, Gujarat, Kerala, Punjab, Tamil Nadu, Uttarakhand and West Bengal), providing TLM, CD to help teachers develop relevant TLM in their subjects etc. State level workshops have been conducted by Chhattisgarh. Haryana has organised a workshop through EDUSAT about the use of TLM. Andhra Pradesh organised State Level workshops to develop Mobile Science Van Material. Orissa, Karnataka, West Bengal and Uttarakhand have reported innovative practices being adopted to popularise the focus on TLM, by organising fairs (TLM melas) at CRC/BRC levels, involving the community.

**Initiatives for Effective Utilization of TLM/ School/ TLE Grants
(QPR IV-March 2012)**

Sl. No.	State/ UTs	Initiative
1	A & N Islands	<ul style="list-style-type: none"> • Visited schools timely for giving guidelines to the teachers in utilization of TLM and TLE grants for developing innovative projects, models etc. • Training programmes have been organised for the teacher to prepare appropriate TLM based on CCE pattern of learning for various tools used in formative assessment at all the cluster level.
2	Andhra Pradesh	<ul style="list-style-type: none"> • Detail guidelines were developed and provided to schools for an effective utilisation of grants released. • Monitoring teams consisting of members from DIET, BRC, CRC will monitor the utilization of grants.
3	Arunachal Pradesh	<ul style="list-style-type: none"> • During school visit teachers are being imparted training for preparation and effective utilization of TLM.
4	Assam	<ul style="list-style-type: none"> • TLM booklets UP and LP has already been provided to all schools and necessary guidelines to the school managing committee were provided.
5	Bihar	<ul style="list-style-type: none"> • Due to regular monitoring from state and the district use of TLM has increased in schools. • It is a continuing exercise
6	Chandigarh	<ul style="list-style-type: none"> • During classroom observation CRC personnel motivate teachers to use TLMs & to involve learners for making some useful TLMs as per the need of the topic. Teacher & heads of the schools are also oriented on optimum use of different grants under SSA.
7	Chhattisgarh	<ul style="list-style-type: none"> • Use of TLMs will become mandatory for applying activity based teaching learning practices in classrooms. Hence in every supervision use of TLM / School / TLE grants will be checked by visiting authority. • A comprehensive plan for teachers training is also been drawn to address the requirements of reforms in CLASS ROOM PRACTICES as envisaged in 3 years quality plan. State is facing some problem in developing TLMs for active learning pedagogical needs. Activity based teaching methodology adopted previously have also not yielded good results. A fresh approach is required and state will be looking forward to such methodology being adopted in other state for which we will visit other state soon. Other parameters of good classroom practices will be looked after through teachers training on RTE and will be monitored regularly.
8	D & N Haveli	<ul style="list-style-type: none"> • Guideline has been issued and AEOs/BRCCs/CRCs has monitored the effective utilization of grants.
9	Daman & Diu	<ul style="list-style-type: none"> • Regular visit by CRCC/BRCC.RPs for improvement in classroom activities and instruction are also given for effective utilization of TLM.
10	Delhi	<ul style="list-style-type: none"> • A Performa was developed to collect data regarding utilization of TLM. • All teachers are using TLM as per their subject requirement.
11	Goa	<ul style="list-style-type: none"> • The area is included in the training programmes for the year 2011-12 particularly with aim to orient teachers in content specific TLM development and use them in the classroom transaction. The intervention will be supported with demonstrations by the teacher.
12	Gujarat	<p>TLM:-</p> <ul style="list-style-type: none"> • TLM Grant has been released to all districts during first half of the academic year. • TLM register is maintained by each school • CRC & BRC Co. take notice of the effective use of TLM during classroom transaction <p>School:-</p> <ul style="list-style-type: none"> • Each school prepare its Educational Activities Annual calendar • Each school also develop SIP (School Improvement Plan) • Arrangement of 'Prathna Samelan' with innovative activities in Schools for total

Sl. No.	State/ UTs	Initiative
		<p>development of schools children.</p> <ul style="list-style-type: none"> Group of 10 to 20 students for remedial class in each schools under the guidance of special teachers was developed.
13	Haryana	<ul style="list-style-type: none"> Conducting Action Research programme at school and cluster level Conducting Action Research training of ABRCs Will organize review training of ABRCs on action research
14	Himachal Pradesh	<ul style="list-style-type: none"> Training for importance, development and use of TLM Monitoring use of TLM in actual class Organization of TLM exhibition
15	Jammu & Kashmir	<ul style="list-style-type: none"> During the visits of RPs to schools for providing onsite academic support, the resource persons verify whether the TLM is being effectively utilized. It is a continuous process. The reports are generated and remedial action is taken as per the reports. For school and TLE grants, the monitoring agencies have been entrusted the responsibility of ensuring their effective use. The reports submitted by the monitoring agencies in this regard are perused and appropriate action, if required, taken immediately. Guidelines have been developed for effective utilization of TLM / School / TLE grants.
16	Jharkhand	<ul style="list-style-type: none"> The mention of these TLMs is in the teachers' handbook designed for Learning Enhancement Programme. TLMs were developed at all levels (SLO, DLO, BRC, CRC and School) by teachers in workshops for using it in class with proper / deeper understanding about its use to support LEP.
17	Karnataka	<p>School Grant :</p> <ul style="list-style-type: none"> The school grant already released to SDMC and HM's joint account through EGs system. The grants are used to maintain school records, to purchase stationeries etc; SDMC will give the utilization certificate to the next level officers. <p>TLE Grant :</p> <ul style="list-style-type: none"> The newly opened and upgraded schools will be provided with TLE grant. Grants are released to SDMC to purchase TLE based on procurement norms. Library books, science equipments, maps, charts, almera, furniture etc., is purchased. The fund details will be displayed on the display board of the school for social audit <p>TLM Grant :</p> <ul style="list-style-type: none"> TLM grant is provided to all teachers through cheques till elementary level. Trainings are given to all teachers to prepare TLM as required. CRP's during their visit to schools verifies the functionality of TLM's prepared by teachers. The teachers will record the utilisation of funds by mentioning the year of preparation and year the of material purchased.
18	Kerala	<ul style="list-style-type: none"> To transact easy classroom transaction and capturing by the students, the grant is utilised for material preparation, training on the materials prepared etc. This will give an eye view and building up knowledge of children in the classrooms. It is assessed that children acquire knowledge. Modules for Teacher Training are developed in the state level in convergence with the SCERT for Training Core SRG. Modules for SRG, DRG and BRC level trainings are developed by SSA addressing BRC/District specific Teacher Needs. State level guidelines are given including guidelines for creating child friendly classrooms, BaLA, Comprehensive School development planet. Separate sessions were included in the teachers trg programmes regarding TLM Instruction was given to conduct discussion and workshops at CRC level on grant utilisation and preparation of materials.
19	Lakshadweep	<ul style="list-style-type: none"> Entrusted the SRG of every school. All grants have been timely sanctioned to all eligible Schools with clear direction on utilization to ensure maximum benefit. BRC/CRC Coordinators are directed to supervise the utilization of grants. The VECs and SMCs also supervise the utilization of the above grants.

Sl. No.	State/ UTs	Initiative
20	Madhya Pradesh	<ul style="list-style-type: none"> • During in service training is allotted for TLM issues.
21	Maharashtra	<p>Development & use of self learning activities material and TLM as a part of 20 days in-service training programme training giving using following booklet;</p> <ul style="list-style-type: none"> • Self learning activities and material THB class I - Language & Mathematics • Similar material for Class II • Class III - Language, Mathematics & General Science • Class IV - Language, Mathematics & General Science
22	Manipur	<ul style="list-style-type: none"> • Funds have been released directly to the VEC/SMDC Account through e-transfer.
23	Meghalaya	<ul style="list-style-type: none"> • Use of TLM etc is included in the training package for teachers.
24	Mizoram	<ul style="list-style-type: none"> • Topics on Effective Utilizations of TLM, etc are included in Teacher Training Programme and Monitoring Format on uses of such Grants are prepared and frequent reports are given by CRC's.
25	Nagaland	<ul style="list-style-type: none"> • Training on preparation & usage of TLM is yet to be conducted at the BRCs.
26	Orissa	<ul style="list-style-type: none"> • The guidelines for utilization of teachers' grant, TLE grant and school grant have been extended to all the districts for distribution among the teachers. The teachers have been exposed to development and use of multiple TLMs effectively in the classroom.
27	Puducherry	<ul style="list-style-type: none"> • Fund for School /TLE/TLM grants e- transferred to VEC/SMC account in the I-II week of JUNE • Regular monitoring , Exhibitions of TL at school/ cluster/block level conducted for effective utilization • Mechanism for Timely distribution- Review meetings at SPO, BRC levels; by monitoring at District level and Block level.
28	Punjab	<ul style="list-style-type: none"> • Imparting training to school teachers and heads on need assessment of TLM & TLE, methods of procurement and adequate and efficient use of teaching learning material. • Regular monitoring & supervision of classroom process and teaching methodology of school teachers. • On-site training of school teachers by cluster and block resource persons. • The issues are addressed and reviewed during Monthly Meetings & Teacher training Programmes. Adequate usage of TLM in the class room process is emphasized. • The entire concept of innovative and activity based teacher learning material is shared with teachers. Illustrative list of Items and activities for TLM & TLE is also provided to teachers for the purpose of facilitation of utilization of grants. • TLM is prepared by teachers and students in unison. They are at complete liberty to take appropriate decisions in respect of type of TLM and its preparations or procurement etc.
29	Rajasthan	<ul style="list-style-type: none"> • Proper guidelines have been issued in the form of circular. • Effective and regular monitoring system have been developed with the help of monitoring institutions. • Efforts are being made to make Teachers training more effective with the induction of selected resource persons. • State is concentrating on preparing a group of key resource person at state level and Master trainers at District level. For preparing KRPs state has taken support of IGNUS ERG Group and has done 5 work shop with them. Now state has been prepared 30 MTs for Districts that they are around 1000 MTs in the State. These KRPs and MTs are giving training to Nodal HM and HMs of Elementary Education which was the focus area of training for the year.
30	Sikkim	<ul style="list-style-type: none"> • Head Teachers and Teachers are being guided and instructed to utilize the TLM/School /TLE grants effectively. The TLM, TLE and School grants are given to schools with the instructions to use the same in effective manner to enhance pupils' learning.

Sl. No.	State/ UTs	Initiative																												
31	Tamil Nadu	<ul style="list-style-type: none"> Teachers are effectively using the required TLM appropriate to the competency in ladder system. Guidelines are issued to all VEC for purchase of TLE using grants to the new schools and upgraded schools. Materials actually needed for classroom practice alone are insisted to be purchased following the procurement procedures. 																												
32	Tripura	<ul style="list-style-type: none"> Instant delivery of fund. For effective utilization, issuing of reminding letter. Regular monitoring and supervision from school, cluster, block, district, state level. Meetings and workshops are being conducted to motivate the teachers. Detailed instructions have been issued for utilization of all funds under Teacher Grant. Teaching Learning Materials are being prepared by using locally available inputs and used in the classes. Low cost teaching learning materials are prepared by the teachers with locally available simple articles. Traditional teaching learning materials are also used by the teachers, no fund under this grant is utilized without approval of Mother Teacher Association.

Changes in Classroom Practices under SSA in 2011-12 (up to March 2012)

The table below indicates the changes in classroom practices under SSA that have been reported by states. Five broad categories are used by which to indicate changes in classroom practice, including the amount of teacher instructional time in a day, student learning opportunity time in a day, degree of active student participation in classroom processes, the use of materials other than textbooks in classrooms, and the number of days in a year assigned for non-teaching activities compared to the total number of instructional days in the year.

SSA advocates a shift from a typically teacher-centred classroom where much teaching but little learning takes place, to an active classroom that promotes maximum opportunity time for active student participation and learning, and thereby ensures that each child truly learns. In this process of change, three major components that are being counted are:

- a. **Teacher instructional time:** The time spent by the teacher in communicating to children, eg. by talking, reading from the textbook, writing on the blackboard, giving instructions, demonstrating, etc. About 25 states still have more than 50% teacher instruction time, including Arunachal, J. & K., Manipur, Meghalaya, Mizoram, M.P. & Nagaland, Sikkim, where the Teacher instructional time is around and even more than 70%. It is also reported that 9 States including Assam, D&N Haveli, Karnataka, Maharashtra, Tamil Nadu and Tripura have been able to reduce the teacher Instruction time below 40%.
- b. **Student learning opportunity time:** The total time available for children to themselves actively engages in their learning process, for eg. When students actually think, ask questions, discuss, experiment, engage in activities, explore, think critically, innovate, etc. & States including D&N Haveli, Goa, HP, Karnataka, Meghalaya, Punjab, Sikkim and Tamil Nadu have reported that the student's learning opportunity has gone up to 80%.
- c. **Active student participation:** Out of the total opportunity time available for student learning, this refers to the actual time that students actively pursue their learning (assuming that students may not be fully engaged in learning during all the opportunity time available to them). The QPR reveals that still most of the states still lack the student participation in the class room transaction, yet some of the states like A&N Island, Assam, Chandigarh, Gujarat Meghalaya and Tamil Nadu have shown silver lining in their ability to invoke student's participation to the tune of more than 65%.

State-wise details about the current status regarding these parameters are reflected in the table below.

The average number of instructional days in the year reported by states is 222 days for Primary & 224 days for Upper Primary, with the lowest number of instructional days reported by Nagaland (189 days for Primary & 196 days for Upper Primary), Meghalaya (195 days for Primary & 196 days for Upper Primary), Puducherry (197 days for Primary & 199 days for Upper Primary), Kerala (198 days for Primary & Upper Primary). The highest number of instructional days reported by Jharkhand (240 days for Primary & 241 days for Upper Primary), Tripura (240 days for both Primary &

Upper Primary), Dadra & Nagar Haveli (238 days for both Primary & Upper Primary) and Bihar (235 days for Primary & 236 days for Upper Primary). *(DISE 2010-11 Provisional)*.

The average number of days assigned to non-teaching activities is 17 days, with the lowest number of days reported by Andhra Pradesh, Bihar, Dadra & Nagar Haveli, Delhi, Lakshadweep, Mizoram, Nagaland, Puducherry, Punjab (nearly 0 days) and the highest number of days reported by Assam (37), Jammu & Kashmir (30), Jharkhand (20-30), Maharashtra (30), Uttar Pradesh (30-50) and Uttarakhand (20-30 days) in a year.

Several states have either not indicated or have reported data in varying formats, which renders comparison difficult. For example, some states interpreted the categories of 'Teacher Instructional Time' and 'Student Opportunity Time' as the same thing, and thus have indicated the same number of hours for both categories. This makes it difficult to know the degree to which there has been a shift in these states from teacher-centred classrooms to more active student learning. Moreover, many states have indicated that these reports are based on general observations and have not been verified through systematic tracking. Thus the analysis can be made more reliable in future if states achieve greater clarity and coherence in mechanisms for tracking changes in classroom practices in a systematic way, through special classroom observation formats utilised to track these changes on a quarterly basis.

Changes in Classroom Processes under SSA

S. No.	STATES/ UT	(a)Teacher Instructional Time	(b)Student learning opportunity time	(c)Active student participation	(d)Use of other material in class room	(e)No. of instructional days	(f)Days for non teaching activities
1	A & N Islands	45 hrs. in a week is spent in teacher instruction.	36 hrs. in a week is available for student learning.	90% of time in a day is utilized in students' active participation.	Workbooks/ worksheets/ play cards/ low cost no cost TLM/ Science, Maths kits/ Computer aided learning (CAL)/ supplementary reading materials etc	200 days for Primary and 220 for upper primary	2 days for activity based projects, experiments (in a week) for inculcating Environmental issues under EE and field trips (once in a year)
2	Andhra Pradesh	40% time of teachers' instructional time (as per the monitoring reports and review meetings)	60% time of student's learning opportunity time wherein students participating group work and attend assignments etc.	About 70% of time wherein children think and attempt the work given in groups/ individually	Children Literature - Story cards, Story books, Story primers and relevant books from the Library. Status of Pedagogy Cells and Resource Groups under SSA in 20011-12

(QPR IV up to March 2012)

Introduction

In order to continually work for the cause of quality and teacher training pedagogy experts are most desired at CRC, BRC, district and State levels. The pedagogy expert can guide the teachers and help them in getting over the difficulties regarding teaching - learning system. Also the problems of policy planning in the State rest with pedagogy person. Keeping the need in view the States have been urged to strengthen their pedagogy units at different level by appointing appropriate persons with logistic support. The major function of the pedagogy cells is capacity building of teachers, development of material in the shape of learning enhancement programme, tracking the quality interventions, school visits, setting classroom libraries etc. In ensuing paragraphs the status of pedagogy cell has been given.

Status of Pedagogy Cells

Almost all states except Daman & Diu have 34 States have constituted pedagogy cells at the State level. Out of these 14 States have put in position the pedagogy cell within the last two years, while the remaining have been put in place for more than 2 years ago. At the state level, the average size of the Pedagogy Cells is 4-5 members. The size of these state level cells ranges from 1 member (Dadra & Nagar Haveli, Haryana, Goa, Jammu & Kashmir, Lakshadweep, Manipur, Meghalaya, Nagaland) to 20 members (Madhya Pradesh).

At district level, 28 States have constituted pedagogy cells, with the exception of Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Maharashtra, Manipur, Sikkim and Uttarakhand. Of these 3 states have constituted their district level cells only in the last two years, while the remaining have been in place for longer than 2 years. At the district level, the average size of the Pedagogy Cells is 4 members. The number of people in these district level cells ranges from 1 member (Assam, Goa, Jharkhand, Mizoram, Orissa and Uttar Pradesh) to 27 members (Delhi).

Activities of Carried out by Pedagogy Cell

Regarding the major activities carried out by these Pedagogy Cells, states have indicated different activities related to quality improvement, including:

- **Capacity building activities:** More than 50 per cent States have been carrying out capacity building of the teachers. The capacity building programmes include training of teachers and cluster meetings. There are 23 such states namely, Andaman & N. Islands, Andhra Pradesh, Arunachal Pradesh, Assam, Bihar, Chandigarh, Delhi, Goa, Gujarat, Haryana, Himachal Pradesh, J&K, Jharkhand, Lakshadweep, Maharashtra, Manipur, Meghalaya, Mizoram, Madhya Pradesh, Orissa, Tamil Nadu, Tripura and West Bengal.
- Capacity building of resource groups, resource persons and program officers is being carried out by Arunachal Pradesh, Assam, Goa, Gujarat, Jammu and Kashmir, Manipur, Punjab, Sikkim, Tamil Nadu and Uttar Pradesh.

- **Development of materials**—The Pedagogy cell in the States have been engaged in development of learning material or teacher training material such as training modules, self-learning materials, children's literature, curriculum/ textbooks, workbooks, or multimedia content. There are 20 such States namely, Andaman & N. Islands, Andhra Pradesh, Assam, Bihar, Chandigarh, Delhi, Gujarat, Goa, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Madhya Pradesh, Orissa, Rajasthan, Tamil Nadu, Tripura, Uttar Pradesh and West Bengal.
- **Tracking of quality interventions**, including quality monitoring, data collection, ADEPTS performance tracking, or research activities (16states): Andhra Pradesh, Assam, Bihar, Chandigarh, Delhi, Goa, Gujarat, Jammu & Kashmir, Manipur, Meghalaya, Madhya Pradesh, Mizoram, Orissa, Puducherry, Rajasthan, Tripura, Uttarakhand.
- **Other activities**: Apart from the above said activities the State also assign activities such as school visits (Andaman & Nicobar Island, Arunachal Pradesh, Lakshadweep, Meghalaya) evaluation of learners' achievement/ baseline assessment (Assam, J&K, Lakshadweep, Manipur, Orissa, Puducherry), remedial teaching programs (Jammu & Kashmir, Lakshadweep, Maharashtra), interventions for tribal students (Andhra Pradesh, Madhya Pradesh), setting up of classroom libraries at primary and upper primary level (Chandigarh, Uttarakhand), teachers' journals or children's magazines (Himachal Pradesh), and Educational campaigns or melas (Andhra Pradesh, Haryana). Haryana has conducted gender sensitization program for Teachers and APC Concerned. Uttarakhand has printed Baal Akhbar and distribute in all Primary and Upper Primary school. Andhra Pradesh has implemented School Health Program also. Kerala has conducted Parental orientation program in all school.

Resource Groups

Some of the states (for example Andaman and Nicobar Island, Andhra Pradesh) have indicated the development of modules for improvement of teaching by **subject-specific resource groups** at different levels, at both State and District level, with needed members per subject at each level, including for Telugu, English, Hindi, Maths, Science & Social Studies.

Status

- **33 states have constituted Resource Groups at the State level** (with the exception of Dadra & Nagar Haveli and Daman & Diu)
- **30 states have constituted Resource Groups at the District level** (with the exception of Chandigarh, Daman & Diu, Goa, Lakshadweep and Nagaland).
- **27 states have constituted Resource Groups at the Block level** (with the exception of Chandigarh, Dadra & Nagar Haveli, Delhi, Goa, Manipur, Mizoram, Nagaland and Punjab).
- **27 states have constituted Resource Groups at the Cluster level** (with the exception of Daman & Diu, Goa, Lakshadweep, Manipur, Mizoram, Nagaland, Orissa, Punjab and Uttarakhand).

Activities:

In general, Resource Groups in different states are involved in the following types of activities:

- **Activities related to enhancement of learning**, such as needs assessment, initiation of learning enhancement programmes, assisting in implementation of innovative and experimental projects related to Pedagogy, analysis of school information & preparing and implementing plans. For example, in Uttarakhand there is a stated emphasis on classroom process, and Resource groups at all levels are engaged in observation of classroom process & giving suggestions for improvement
- **Activities to improve capacity building**, such as analysis of Teachers Training & support systems, capacity building of resource persons and teachers, consultation on monitoring and follow-up to teachers training, monthly sharing meetings, giving training to community leaders. Gujarat has conducted 10 days Cluster level training module for teachers and gave it to KRP and RP. Jammu & Kashmir has capacity building program Block and Cluster levels.
- **Development of materials** such as training modules, teaching aids, graded reading material, Learning Cards material development for CCE, model question papers, publication of Newsletters, Monographs, etc.
- **Support to schools**, including activities such as visit to schools & onsite support to teachers, DRG, BRG and CRG. Monitoring of school activities, guidance to teachers, formation of reading cell in schools, school gradation and development plans, etc.
- **Careful tracking of quality interventions**, including quality monitoring, monitoring innovations in the field, research studies, development of an action plan for roll out of ADEPTS, etc. For example, in Karnataka the Resource Groups undertakes a rigorous process of research activities, including scrutinizing, screening and recommending research study proposals, review of research reports sponsored by SSA, organizing workshops / meetings related to Research and Development activities, guiding the DIETs and sub district level resource centers in implementation of approved activities under REMS component, and documentation & dissemination of research abstracts. Tamilnadu has conducted the Studies of EDUSAT program and role of VEC.

Pedagogy cell are the mentors of quality in the States. Almost all States have established Pedagogy cells. Along with it the States have also sought the help of Resource groups to add quality in education

Status of Pedagogy cell at different levels

S. No.	STATES/ UT	Level	Person in - charge of quality improvement	Continuing since which year?	Additional responsibility(if any)	Total members in Pedagogy cell	5 major quality related activities undertaken during 2011-12

Status of Shifts towards Continuous & Comprehensive Evaluation (As on 31st March 2012)

1. Background

Evaluation of students' achievements has been one of the major concerns of the functionaries as well as beneficiaries of teaching-learning system. Over the time researches have brought to the fore that good evaluation helps students to grow with their inherent talent. NCF 2005 advocates a shift to a mode of assessment that is **continuous and comprehensive**. Continuous assessment means that the teacher does not wait till the end of the term to conduct formal tests, but is able to identify and address learning difficulties during the process of teaching-learning itself, by ensuring that planning is flexible and responsive to the learners and their ongoing needs. Comprehensive assessment measures not only the child's ability to remember subject-related facts, but also assesses different aspects of the child's overall holistic development. A balance is sought between **Summative assessment** (undertaken at the end of the term in order to generate a grade that reflects the student's performance) and **Formative assessment** (undertaken during the process of learning so that the assessment activity itself contributes to the student's growth and learning - eg. undertaking project work). RTE-2009 mandated for the comprehensive and continuous evaluation so as to keep the child free of stress and trauma. Being committed to constitutional obligation various States have undertaken a shift to more continuous and comprehensive modes of assessment under SSA.

Implementation

Efforts towards this direction have been initiated by 23 such States. The States are -- A & Nicobar Islands, Andhra Pradesh, Arunachal Pradesh, Assam, Chandigarh, Chhattisgarh, Dadra & Nagar Haveli, Delhi, Goa, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Lakshadweep, Madhya Pradesh, Mizoram, Orissa, Puducherry, Punjab, Sikkim, Tamilnadu and Uttarakhand. These States have undertaken different types of activities. Assam, Andhra Pradesh, Jharkhand, Kerala, Tamil Nadu rolled out of the NCERT Sourcebook on Learning Assessment, including Workshops for adapting the NCERT Sourcebook in their State-specific context. The States of Goa, Gujarat, Himachal Pradesh, Punjab, Jharkhand, Kerala, Madhya Pradesh, Manipur, Tamil Nadu and Uttar Pradesh translated and disseminated the NCERT Sourcebooks in the regional languages. Some of the States like Tripura and West Bengal constituted an expert committee to thrash out the issues linked with CCE. The Expert Committee of Government of West Bengal remarked that the present system of evaluation does not use CCE methods properly and has not completely let go of the traditional methods of examination. CCE has to be done on a regular basis and will not have any stipulated dates. The documents for different evaluations have to be kept safely.

In order to have transparency, documentation has been stressed so that progress/improvement in scholastic and co-scholastic areas could be properly recorded. The States of Assam, Himachal Pradesh, Kerala developed tools for recording learner's progress in scholastic and co-scholastic areas. The tools included student profiles, teachers' checklist, student progress charts, etc. Andhra Pradesh, Chhattisgarh and Tamil-Nadu introduced competency ladders for conducting competency-based

assessment using a variety of assessment strategies such as project work, essays, home assignments, experiments, or practical work for non scholastic subjects. The SCERT in Andhra Pradesh developed procedures to implement CCE. The learning indicators were defined with benchmark on performance for each level against the subjects of curricular and co-curricular areas. The assessment methods and techniques have been developed with appropriate recording and reporting procedures. In the State of Gujarat a record of Child's Skills, interest and hobbies is prepared by the teachers on the basis of observation, group work, creative activities, games etc. Further autonomy has been given to schools in Gujarat to have their own CCE model if they so desired. In that case, the school is required to have an approval from respective DIET. In a little different pattern Himachal Pradesh has tried to address the needs of the student, teacher & parents. Under CCE, tests and exams are conducted more frequently along with other class room activities like quiz, field-visit, project, discussions and demonstration. Karnataka has very successfully followed CCE at lower primary level under the known Nali-Kali programme, but the same could not have been carried out at the upper primary level. For that the State conducts two tests centrally at the school level from the class 4th to 8th. In Kerala the assessment tools are integrated with the text books to provide an opportunity to teacher as well as the students to assess themselves. Space is even provided for periodical assessment of certain components.

Efforts made by Apex bodies

States were oriented to gear their quality-related planning around students' learning issues. Each State was encouraged to gear their assessment strategies towards critically analyzing students' learning achievement at different levels, in order to identify specific learning difficulties of students in each subject and class level, and to analyse the factors contributing to these learning difficulties (eg. teacher-related, TLM-related, pedagogy-related, assessment-related factors, etc). Based on this analysis of issues related to learning, classrooms, teachers, pedagogy, assessment and quality management, all inputs and processes were then designed to address the emerging issues in each area and strengthen each intervening factor, in order to lead to enhancement of students' learning in a comprehensive manner.

To strengthen State's approaches to learning assessment, NCERT has developed 5 different **Source books on Learning Assessment** for different subject areas after piloting it in 10 States. These documents are expected to shift assessment methods at primary level towards the quality and extent of a child's learning, construction of knowledge and his/her interest and attitude towards learning as manifest in different activities. To familiarize states with the guiding principles of the source books, NCERT has conducted three National level workshops at Tirupathy, Guwahati and Lucknow. All States have designed broad plans of action to strengthen their approaches to learning assessment in the light of source books.

Various states are in the process of rolling out these NCERT Sourcebooks for promoting changes in the assessment systems in the State, including Assam, Andhra Pradesh, Jharkhand, Kerala, Tamil Nadu. Various States have also begun translating the Sourcebooks into their regional languages, including Goa, Gujarat, Himachal Pradesh, Punjab, Jharkhand, Kerala, Madhya Pradesh, Manipur, Tamil Nadu and Uttar Pradesh.

Patterns of Implementation

The nature and process of CCE has been differently perceived in the States. There has been a combination of formative and summative assessment. Different weight age has

been ascribed to formative and summative assessment by different States. Andhra Pradesh has implemented CCE where children are evaluated for their day-to-day learning by having unit tests. Apart from this, one terminal test is conducted at the end of Quarter, Half-year and year. The terminal tests are summative in nature. Children's progress is reviewed at school level on fortnightly basis by the School Head Teacher and by the Mandal (Block) Educational Officer with all School Head Teachers at block level on monthly basis. In Kerala CCE is followed from Class I to VII. Daily assessment, unit assessment and half yearly assessment are introduced. The numbers of examinations have been reduced from three to two. Whereas in Karnataka Nali-Kali has been implemented in classes 1 to 3 where the CCE is in built. For classes iv to viii the State has implemented CCE and it consists of students' exposure to two unit tests, a mid-term examination and a final examination in a semester cycle. Marks scored by students are converted to grades and only grades are marked in progress report cards. In Tamil Nadu students' attainment levels at upper primary level is assessed through marks / grades obtained in Monthly, Quarterly, Half Yearly and Annual Examination.

Further States have given different weight- age to formative and summative assessment. In case of Himachal Pradesh Learning assessment for Class -I and II is 100% formative assessment through CCE, but for Class-III to V it is 60% formative assessment (CCE) and 40% summative assessment (based on Term end exam). Similarly in case of Chandigarh a weight age of 30% each is provided to two Summative tests. On the similar pattern in Punjab unit tests are centrally conducted after every two months as summative tests. In case of Goa the evaluation system has a provision of Summative examination in the end of both the terms. In Rajasthan and Uttarakhand the ratio of formative and summative evaluation has been in the ratio of 3:1. The nature of summative tests has been mainly the term end examinations conducted by the schools or some external agency whereas the formative is usually in the shape of projects, assignments, oral and other activities. The process so followed in different States indicates the combination of conventional stereotype assessment mingled with time bound tests and observation as well as activities followed in the process of CCE. The CCE of many of the State like Karnataka, Punjab and Himachal needs to be revisited so that there are no time bound tests conducted by the schools or some external agency. The responsibility of evaluation should be left to the class teacher so that autonomy of the teacher could be maintained with respect to teaching and evaluation. Efforts have also to be made so that the CCE is well linked with the curriculum, syllabus and the textbooks.

Summary

The States have been committed to the constitutional obligation and feel themselves bound to RTE-2009. Approximately 28 States have initiated efforts towards changing the approach to assessment in their State; 3 States have planned to undertake initiatives and 4 States have not thus far taken any concrete initiatives for reforming their approach to assessment, For implementation States have been preparing modules or depending upon the central apex bodies like NCERT or CBSE for the purpose, Training of teachers is added agenda to achieve the target of implementing CCE.

Conceptual Clarity

As per constitutional commitment to put in to operation RTE-2009, the States shifted towards implementing Continuous Comprehensive Evaluation at elementary level so as to keep the child away from stress and trauma. However, the conceptual framework and approach had been quite different in different States. In the absence of conceptual frame

work the terms Continuous and comprehensive have been differently interpreted by the States. Gujarat took a view of the term 'Comprehensive' as conducting written, oral and activity based evaluation of scholastic and co-scholastic activities. Himachal Pradesh used the term 'Continuous' as frequently conducting tests and exams along with activities like quiz, field visits, projects, discussion and demonstration resulting in comprehensive reflection of overall child's learning. Though there are different interpretations of CCE but many of these are in close parlance with each other. However, the States like Manipur and Meghalaya are still not well conversant with the terms 'comprehensive' or 'Continuous' that is why they have still been unable to shift to CCE. The confusion and apprehensions have made the States of Bihar, Rajasthan, Uttar Pradesh, Gujarat, Jharkhand to try the CCE on pilot basis. There are five other States that have not been able to implement CCE. These States are Daman & Diu, Maharashtra, Nagaland, Tripura and West Bengal. The reason underlying the non-implementation of CCE has been the confusion with respect to basis of evaluation. The predicament with them is that to conduct CCE as a regular part of evaluation requires transparency which is not possible without proper documents. At the back of it there is a psyche of stereotype dependence on marks or percentage of marks. This psychic bent of mind has parental support also. That is how the State of Punjab has implemented CCE by centrally conducting external tests after every two months. The confusion about concept and the process of implementation led State of Orissa to make some changes in the current pattern of examination to suit the CCE. However, the devotion to numerical system on one hand and constitutional commitment on the other has led the States to look towards the agencies like NCERT or CBSE for guidance in the process of implementation of CCE. Some good practices are reflected below from the States of Andhra Pradesh, Gujarat, Kerala and Tamil Nadu:

Assessment in Andhra Pradesh

The Pupil Assessment System at elementary level has been changed keeping in view of source book on assessment by NCERT 2008. The source books have been translated into Telugu duly incorporating state specific requirements and 6-day training on assessment is proposed to conduct during October 2009.

The CCE is being followed in schools as follows:

- 4-Unit tests which are formative and reflective on children day-to-day learning
- 3-terminal tests i.e., Quarterly, Half-yearly, annually which are summative in nature.
- Further under LEP Quarterly progress tests will be conducted on the identified competencies in various curricular areas to measure progress over baseline duly following the assessment procedures given in NCERT Source Book on Children Assessment. The children progress will be reviewed at school level on fortnightly basis by the School Head Teacher and by the Mandal Educational Officer with all School Head Teachers at mandal level on monthly basis.

Assessment in Gujarat

- A special training for learning assessment was organized for CRCCo & BRCCo.
- A special module for learning system and assessment has been developed.
- NCERT Sourcebooks on Assessment have been translated.
- To introduce and emphasis the importance of CCE, Module for CCE.(May-2010) has been developed

Assessment in Himachal Pradesh

- **Pupil Progress Report Card** - These cards record the pupil progress both

scholastic and Co-scholastic, made during one academic session.

- **Teacher-check list register-** This helps to focus on basic learning achievement of the child on day to day basis and provides feed-back to the teacher for remediation.
- **Teacher training module** - This contains all the aspect that should be kept in mind while evaluating scholastic and co-scholastic domain of a child.
- CCE is being implemented in the Pradesh at elementary level
- SMCs and administrators are being oriented.
- Teachers have been imparted trainings to use this strategy effectively and with a clear cut vision.

Assessment in Kerala

- CCE is followed in the State from Class I to VII. The State has revised the manual of continuous assessment in tune with NCF 2005, KCF 2007 and NCERT Source Book on Continuous Assessment in 2008.
- Variety of tools are used - tools for self assessment, peer assessment, and portfolio assessment.
- Quality indicators have been identified for each subject for assessment.
- To Promote qualitative recording and feedback, Daily assessment, unit assessment and half yearly assessment are introduced
- Reduced the number of examination from three to two.
- All teachers have been trained to follow new guideline

Assessment in Karnataka

- Nali-Kali is implemented in classes 1 to 3. CCE is in built into Nali-kali
- Two unit tests, a mid-term examination and a final examination are followed for classes 4 to 8, in a semester cycle.
- Marks scored by students are converted to grades and only grades are marked in progress report cards.
- Students are also involved in projects work under Part-B of curriculum. Languages would be covered in the first semester and core subjects in the second semester.
- Student evaluation sheet and student cumulative progress report card has been introduced in the V std as a precursor to make the assessment.

Assessment in Tamil Nadu

- In upper primary classes, students' attainment levels are assessed through marks / grades obtained in Monthly, Quarterly, Half Yearly and Annual Examination.
- The achievements of children in different subjects are recorded in the form of grades in every quarter (QMT).
- Children in each grade are analyzed and school based remedial action is initiated.
- There is no common examination for primary classes.
- Evaluation is inbuilt in ABL Methodology.
- On completion of every competency, through Logos in the ladder system, there is an evaluation card for assessing the achievement level of each child. Provision is available for assessing the children continuously in every stage.
- Each child's learning achievement on completion of each competency is recorded in an achievement chart by the teachers in all subjects is displayed in

the classroom.

Steps have been taken in 2009-10

- Tamil Nadu is one of the States selected for the trial of draft source books. During the year 2009-10, the assessment process using the source book developed by NCERT is put into practice in two selected districts.
- Three workshops were conducted for resource persons to translate the source book into regional language.
- The source book on all the subjects is translated into regional language.
- Training to district officials is conducted.
- The continuous and comprehensive learning assessment based on source book was initiated in two districts.

Continuous Guidelines

In order to streamline the process of CCE and continuously guide the teachers, manual or the modules have been prepared by the States. Andaman and Nicobar has prepared a manual for primary level and a handbook for upper primary level on syllabus division, examination structure including both scholastic and co-scholastic areas along with report card. Various modules have been prepared on subjects like English, Hindi, Science, Maths and Social Science for classes VI to VIII by the faculty members of SIE. The State of Gujarat has developed formats to be given to teachers regarding CCE implementation. Himachal Pradesh has developed various tools along with teachers' check list register to help teachers focus on basic learning achievements of the children on day-to-day basis and provide feedback to teachers for remediation. Utter Pradesh developed a draft handbook focusing continuous & comprehensive evaluation of learning of the students so as to provide regular input for improvement. It has assessment profile for each child also. The State of Kerala has generated Student Assessment Manuals (SAM). Its assessment tools are integrated with the text books so as to provide an opportunity to teacher as well as the students to assess themselves. These resource books are good for continuous consultation and guidance for assessing the children. These are a welcome step as these are also open to parents and the community members to have idea of assessment of children. However, these Handbooks have to be supplemented with formal training of teachers to properly implement the CCE.

Training of Teachers

Training of teachers to orient teachers in the art of CCE has been most desired for its success. Different States have adopted different process of training of teachers. The States of Andhra Pradesh, Himachal Pradesh, Goa, Gujarat, J & K, Kerala, Tamil Nadu have provided Exposure visits to other states to teachers for understanding CCE. The step is appreciable on the count that the teachers are to comprehend the CCE with respect to spirit of CCE on one hand and the ground realities on the other. On the other hand teachers are able to compare the situation on their own State vis-a-vis other success story of other States. Formal training workshops on CCE have been arranged by States to make teachers well versed with the process of CCE. The State of Bihar organized workshops of various durations on CCE for BRP's, CRCC's Head Masters, Teachers' Union, VSS, SCERT, in coordination with Education Department of Government of Bihar, MHRD Expert and NCERT. The objective was to involve wider resource to train large number of teachers in the State and also develop attitude to implement CCE. In case of Goa, training programme is organized for the heads and

senior teachers and they in turn would train their teacher colleagues. The hunch has been that the heads or senior teachers can help in better understanding and successful implementation of the scheme. Similarly Madhya Pradesh and Maharashtra have trained DIET faculty members, BRCs, BACs, CRCs & teachers in CCE as well as in maintaining Portfolios of all the children. However, a comprehensive training programme in this aspect has been lacking on the part of the States. The success of the CCE depends on the involvement of teachers, parents and the community. The functionaries and the beneficiaries are equal partners in this aspect as CCE is more of question of psyche than only of the process of implementation.

It can be concluded that the CCE as conceived and implemented by the States is as per the spirit. The States are conceptually confused and irregular in implementation. If the CCE is to be implemented successfully all beneficiaries and the functionaries have to be well versed with the process of working of CCE. Every child has to have good understanding of it also so that he/she knows how to plan the future. Above all the teachers have to be masters of this programme. A good teacher can help in finding out underlying talent in a child and the ignorant teacher can spoil the future of the child. Therefore it is required that the teachers, parents and the community are well trained to understand the CCE. Also there is need that the all aspects of CCE are well spelled out to avoid any heartburning in the minds of children. For this purpose the States will have to streamline every aspect of CCE and train the teachers well.

Details are as follows:

Sl. No.	States- Nature of Assessment & Shifts towards Continuous and Comprehensive Assessment (Progress up to March 2011)
1	<p>Andaman & N Island As reported by state on 31st march 2012- CCE has been implemented throughout A&N Islands from Primary to Secondary level especially from classes I to VIII. A manual for primary level and a handbook for upper primary level have been prepared by the faculties of SIE in consultation with faculties of DIET.</p>
2	<p>Andhra Pradesh The SCERT has taken up a programme to develop procedures to implement Continuous and Comprehensive Evaluation (CCE). The CCE will be implemented during the next academic year i.e., 2012 - 13 at Elementary Level.</p>
3	<p>Arunachal Pradesh Notification has been issued for implementation of CCE as compulsory in all schools as per guidelines from NCERT. State Specific guidebook on CCE has been developed by SCERT (SIE) under LEP- SSA.</p>
4	<p>Assam Assam follows continuous evaluation on scholastic development of learners having 4 unit evaluations. It has been decided that CCE will be followed from 2012 academic session and SCERT -Assam is entrusted to develop necessary guidelines/manual.</p>
5	<p>Bihar The State has prepared Draft module on CCE. The CCE has been tried on the pilot basis in 50 schools. After learning lessons from the pilot study the State will take up finally.</p>
6	<p>Chandigarh Chandigarh is following CCE approach for pupil assessment. It is being followed in all classes (I - X). School heads/Principals have been oriented by holding meetings by sending circular through department in this regard.</p>
7	<p>Chhattisgarh State has formulated the comprehensive and continuous evaluation system and has tested it in 50 schools initially. In 2011-12 the CCE will implemented in all schools across the state.</p>
8	<p>Dadra & Nagar Haveli UT of Dadra and Nagar Haveli has Implemented Continues and Comprehensive Evaluation (CCE) in all class (I-VIII) upto elementary level. The State has adopted and Implemented Continues and Comprehensive Evaluation (CCE) for class III-VIII developed by Gujarat Council of Educational Research and Training (GCERT) Gujarat.</p>
9	<p>Daman & Diu After finalizing the methods and tools by UT and Gujarat, CCE will be implemented in the Govt. & Govt. Aided schools of standard I to VIII of Daman & Diu from the coming next academic</p>
10	<p>Delhi In order to ensure the universal achievement and quality education at elementary level the Directorate of Education has initiated certain measures such as assessing students regularly under Continuous and Comprehensive Evaluation Programme (CCEP). Schools conduct their own assessment which is not restrict to paper pencils tests. Assessment as well as oral tests are included along with projects/activities/quizzes/assignment/class work/home work.</p>
11	<p>Goa The Continuous and Comprehensive Evaluation is aimed at Diagnosis, remediation, and Overall development of the child. The Scheme which is adopted by the state is in tune with CBSE and NCERT pattern. One day training programme has been imparted to all Heads and Senior Teachers of the institutions so as to implement it in all elementary schools successfully. A number of</p>

Sl. No.	States- Nature of Assessment & Shifts towards Continuous and Comprehensive Assessment (Progress up to March 2011)
	seminars and workshops to disseminate information and orient & train teachers in the effective use of CCE-related tools were held throughout the academic year.
12	<p>Gujarat</p> <p>In Gujarat, the CCE has been implemented during year 2011-12 in two modes. One model is designed for pilot schools for new textbooks and another is for all remaining schools across the state. Since the new textbooks of upper primary classes are being scaled up from year 2012-13, the piloted CCE model would also be scaled up across the state. Schools are allowed to have their own CCE model also. In that case, if any of the school wants to implement a different mode of CCE; the school is required to have an approval from respective DIET.</p>
13	<p>Haryana</p> <p>Continuous and Comprehensive Evaluation Scheme and Remedial Education have been introduced. CCE is a school-based evaluation of students that covers scholastic and non-scholastic aspects of a student's development and introduces more uniform and comprehensive assessment.</p>
14	<p>Himachal Pradesh</p> <p>The CCE pattern of evaluation has been adopted in the State as per RTE 2009 and accordingly the curriculum is being suitably adapted. Learning assessment system - Class -I and II 100% formative assessment through CCE. Class-III to V 60% formative assessment (CCE) and 40% summative assessment (Term end exam). This system of assessment is well designed and address to the needs of the student, teacher & parents. Under CCE, tests and exams are conducted more frequently along with other class room activities like quiz, field-visit, project, discussions and demonstration resulting in comprehensive reflection of overall children's learning. For smooth and effective implementation of CCE, teacher's check list register, teacher diary and pupil progress cards are well maintained in all the schools.</p>
15	<p>Jammu & Kashmir</p> <p>State is going to follow continuous and comprehensive evaluation (CCE). A concerted effort is being made to ensure that CCE is made an integral part of the Teaching Learning process.</p>
16	<p>Jharkhand</p> <p>The state has introduced (in 2010-11) the NCERT source book in 40 schools on pilot basis with positive feedback. State reported that state is working in 60 schools on pilot basis. To empower the teachers on understanding of CCE and why, where, when training programme has been conducted for working on worksheet and activity evaluation.</p>
17	<p>Karnataka</p> <p>Nali-Kali is implemented in classes 1 to 3. CCE is built into Nali-kali. Two unit tests, a mid-term examination and a final examination are followed for classes 4 to 8, in a semester cycle. Marks scored by students are converted to grades and only grades are marked in progress report cards. Orientation to teachers on CCE is given under the package entitled as 'Nirantara'.</p>
18	<p>Kerala</p> <p>CCE is implemented and followed in all classes from std I to XII in the State. The process provides an opportunity to teacher as well as the students to assess themselves. The SAM follows the grading technique for school subjects.</p>
19	<p>Lakshadweep</p> <p>Continuous and Comprehensive evaluation system has been being followed for the last 10 years. In English medium classes by following the system developed by the NCERT. Observation, written work, assignments, group work, discussions, project work, collection and seminar. In addition to</p>

Sl. No.	States- Nature of Assessment & Shifts towards Continuous and Comprehensive Assessment (Progress up to March 2011)
	this all the activates done in the class recorded in the Teachers Records and consolidated for recording in the Students Evaluation Profile in each Term in SA.
20	<p>Madhya Pradesh CCE has been implemented - Portfolio and anecdotal records of students has been maintained in schools. Project work has been also introduced in from class- 6 to 8. Preliminary Training has been imparted to concerned persons on CCE. To bring the state into main stream of country 5th and 8th board examinations have been done away. Padho Badho Madhya Pradesh (Pratibha Parv) has been launched where external evaluations has been done throughout the state in all the schools from class 1 to 8 Through the findings of the Pratibha Parv Text books will be renewed, and CCE pattern will be changed so that it could be much more learner friendly.</p>
21	<p>Maharashtra The continuous comprehensive evaluation is being implemented in the State since 20th August 2010 in all medium and management schools. All the teachers related to primary and upper primary has been given three days training in the first term of academic year.2010-2011. The "Shikshak Margdarshika" has been developed by Maharashtra State Council of Educational Research & Training, Pune for helping teachers to skillfully and effectively implement CCE..</p>
22	<p>Manipur CCE has not been implemented in the State.</p>
23	<p>Meghalaya The Continuous and Comprehensive Evaluation is newly introduced educational system which will be implemented in the State from coming year by the Meghalaya Board of School Education (MBOSE). The State is on the process of organizing Workshops for teachers for development of Teacher Guide Book on CCE, TLM and Modules on CCE which has included in LEP activities.</p>
24	<p>Mizoram The state has designed a system where in each of the 2 semesters, there will be 7 tests for each subject. CCE, where the focus is on the teacher evaluating the students in a continuous manner for the purposes of informing her own teaching. A variety of evaluation methods such as group work, project work, discussion & debates in classrooms, self assessment by students and peer assessment are being used for the purposes of evaluation.</p>
25	<p>Nagaland A handbook has been developed with the aim of providing a simple explanation of CCE and a clear guideline for its implementation. It is expected that this will go a long way towards the realization of true quality in the way we conduct examination.</p>
26	<p>Orissa CCE is being followed in all the schools of elementary level in the State. Four unit testes, half-yearly exam and common annual exam are conducted in each school in an academic session. It was decided at the State level to adopt source book and verifiable learning indicator developed by NCERT. The Directorate of TE&SCERT, Odisha, BBSR has been entrusted to develop framework, teacher's manual as well as teacher training manual on CCE.</p>
27	<p>Puducherry In the Primary stage CCE has been implemented as the UT follows Activity based methodology. Yanam follows Sneha bala (ABL methodology) for its Primary stage .At upper Primary level CCE is to be introduced in its real spirit from the academic year 2012-13. Meanwhile UT has evolved a CCE model for Upper Primary in collaboration with IGNOU, RIE Mysore, Tamilnadu DERT faculty, Faculty of SSA cum State training centre.</p>
28	<p>Punjab Continuous and comprehensive assessment is in vogue in the State From July 2011 for classes 1st to 8th. A resource book for teachers has been circulated. It explains the concept and process of</p>

Sl. No.	States- Nature of Assessment & Shifts towards Continuous and Comprehensive Assessment (Progress up to March 2011)
	evaluation of students. Every child in the class is evaluated by the teacher with the help of evaluation tools by the teacher. The cognitive skills are awarded marks and later on converted into five point scale grades. The co-cognitive and skills are evaluated on three point scale only. The evaluation is recorded by the teacher and maintained as a portfolio by the teacher
29	<p>Rajasthan CCE is being implemented only in 60 schools till now which would be extended to around 3 thousand schools in 2012-13. It is good to observe that state has plan to increase coverage of CCE, it include a lot of potentiality. But same time it is also requires planning CCE with cost effective manners.</p>
30	<p>Sikkim CCE is being followed in 100% of the govt. schools of the state with 4 Formative and 2 Summative Assessments in an academic year. State organized sensitization programme for educational administrators, teachers, parents and other stakeholders before actually implementing CCE in the state. In second phase, training on CCE has been conducted at BRC for heads of schools and teachers. A book titled "Guidelines for Continuous and Comprehensive Evaluation" is published and distributed in different schools.</p>
31	<p>Tamil Nadu Continuous and comprehensive assessment is in vogue in the State. In ABL system, evaluation is inbuilt. Every child on completion of a milestone, the last card will be an evaluation tool. The child will evaluate himself/herself, with the help of the teacher. The evaluation will also be recorded by the teacher and maintained as a portfolio by the teacher. Children's work is also displayed in the classroom.</p>
32	<p>Tripura The state has evolved a system of continuous and comprehensive evaluation, where they have not done away with the elements of the traditional evaluation system like marking students, identifying weak students and offering them remedial teaching. In addition, they have introduced certain components of CCE like assessing students on project work and assessment of children through observation by teachers.</p>
33	<p>Uttar Pradesh The State has revisited Curriculum & Textbooks but the curriculum transaction, examination, assessment policy, its procedures & tools have not changed much. Although, the State has introduced continuous assessment in the form of unit tests (formative assessment) both at primary and upper primary level but present system is still structured, content based, rigid & inflexible to cover all types of learners, competencies & scales. A draft handbook has been developed focusing continuous & comprehensive evaluation of learning of the students and provide regular input for improvement. Five districts have been selected for field testing (Ghaziabad, Varanasi, Rae Bareilly, Lalitpur and Balrampur). In 25 schools (5 schools from each district, 3 Primary and 2 Upper Primary) the field testing is being conducted. After the feedbacks and learning from the field testing, the operational plan will be modified and implemented across the State in 2012-13.</p>
34	<p>Uttarakhand In Uttarakhand, Continuous and Comprehensive Assessment has been in practice from 2006-07. It is being implemented on the 4 point scale at PS and 6 point scale a UPS level. Child friendly assessment (CFA) with a new approach of assessment has also been incorporated in evaluation system. State has initiated CCE approach in the light of RTE piloting with real practitioner (Teachers) in 50 schools across the state. Under continuous and comprehensive evaluation pen-paper test and Project work (UPS) is undergoing in the state.</p>

Sl. No.	States- Nature of Assessment & Shifts towards Continuous and Comprehensive Assessment (Progress up to March 2011)
35	<p>West Bengal 2010-11</p> <p>West Bengal State Advisory Council has also recommended starting CCE from the middle of this academic year ie. 2012 as base work. The Committee is of the opinion that the present system of evaluation does not use CCE methods properly and has not completely let go of the traditional methods of examination. CCE has to be done on a regular basis and will not have any stipulated dates. The documents of the work on the basis of which these evaluations are done have to be kept safely.</p>

Source: Quarterly Progress Report up to March 2012, Pedagogy Unit TSG

Computer Aided Learning (CAL) under SSA in 2011-12

Achievements under Computer Aided Learning up to March 2012:

Since inception, 75937 schools have been covered under Computer Aided Learning. The intervention has benefited 105.67 lakh students and 279558 teachers have been benefited by building their capacity on use of digital teaching learning material. Apart from this enormous teaching learning materials in state specific languages have been developed especially in Mathematics, Science & Languages at upper primary level.

Fresh Allocation under CAL is Rs. 318.8 Crores, Spill Over is 17.6 Crores and the total amount sanctioned for this component is Rs. 336.4 Crores.

Workshop held on CAL:

Department of SE&L, MHRD had organized a two days brainstorming workshop on 15-16 September 2011 for devising strategic action plans for implementation of CAL. The workshop was attended by educationists most of whom were involved in the development of national focus group paper on educational technology. The objective of the workshop was to develop strategies for implementation of CAL aligned to promoting pedagogy & quality goals.

Besides other suggestions regarding the implementation of this activity, the key recommendations of the Resource Persons was that, the best strategy to implement & derive positive outcomes from IT integrated educational delivery mechanisms like CAL is to empower teachers for development of digital teaching learning material & their use. They stressed that it was important to understand the basis behind use of IT integrated mechanism rather than its mere availability. Its qualities such as extendibility, reach ability, flexibility, interactivity can overcome the situational gaps in teaching learning process.

Development of Infrastructure:

Keeping in view the importance of CAL, each State has been given a sum of Rs. 50 lakh per district to equip the schools with computer facilities and provide training to teachers and students in the use of informational technology. All the States have been utilizing the amount for development of infrastructure in the schools and also signing AMC contract with different computer supplying organizations. An overall picture shows that in all 59473 schools out of 493795 existing schools have been provided with the infrastructure facilities of CAL, which is approximately 11 per cent of the existing schools in India. When viewed from the angle of States, it can be found that most of the States have provided the facility in less than 10 per cent of the total number of schools. In some union territories the percentage of schools is more than 50. In case of Lakshadweep 21 schools have been provided this facility out of 24 existing schools. Similarly in case of Chandigarh, 77 schools have this facility out of the existing 159 schools have been provided this facility. States like Tripura, and Meghalaya have covered less than 5 per cent of their existing schools. Many of the States are still in the process of equipping the schools with computer facility.

Capacity Building:

The States have been building the capacity of the teachers to understand the computer assisted learning and developing CAL material. For this purpose the States have been organizing orientation workshops for teachers. The duration of the workshops ranges from 2 days to 10 days. For this purpose they have been seeking the help of NGOs or some professional agencies. These agencies include Ajim Premji Foundations (Andhra Pradesh), NIIT (Assam, Rajasthan), Sankhya Learning (Delhi), SEZA (Goa), HCL (Gujarat, Karnataka), Everonn Education (Himachal Pradesh), Educomp Solutions (Jharkhand), Vedanta Foundations (Maharashtra), LINUX (Madhya Pradesh), ACES InfoTech (Nagaland), British Council (Orissa), BSNL (Puducherry), American India Foundation Trust (Punjab), Microsoft India (Uttar Pradesh). Some of the States like Rajasthan have been using EDUSAT related activities for training of teachers in CAL. The States have also been depending on these agencies for providing orientation to the students in use of computers and having access to information technology.

Development of Teaching Learning Material:

Not much progress has been shown by the States in this direction. The States have not indicated that their teachers have been engaged in the activities of development of teaching-learning material. Some States have indicated that they purchased CD from the NCERT for usage in the schools. States like Delhi have developed CDs for class VII in science, Mathematics with the help of resource persons. Since most of the States are still at the preliminary stage of IT usage, not much has been achieved in case of development of teaching-learning material. Initiative on the part of teachers is also lacking in developing such material for their students.

Details for CAL component for all State/ UTs under SSA

Block Resource Centres: Performance and Activities in 2011-12 (up to March end 2012)

The following details provide information about the performance of BRCs, including the nature of activities and training that BRCs have been involved in various states.

In all 6,676 BRCs are functional against total 6,702 BRCs sanctioned in 2011-12, reflecting an overall achievement of nearly 99.61%. 29 States/UTs have indicated that all the sanctioned BRCs in their states are operational, 5 States have indicated 88% to 99% achievement of their targets including Bihar (99%), Chhattisgarh (97%), Goa (92%), Gujarat (95%) and Nagaland (88%) and remaining 1 state (Chandigarh) has indicated that there are only a few sanctioned BRCs left that are yet to be operationalized.

All States (except 4 viz. Chandigarh, Dadra & Nagar Haveli, Manipur and Sikkim) have indicated that modules/guidelines have been developed or adapted for orientation of BRC personnel on topics such as roles and responsibilities, financial management, ADEPTS and TLM preparation etc.

Almost all states have provided training to BRPs, with the exception of Arunachal Pradesh, Dadra & Nagar Haveli, Damian & Diu and Meghalaya. Most states provided training Programmes of 5-10 days, with the exception of Goa (13 days), Kerala (15 days) and Himachal Pradesh (12 days). 25 States/UTs indicated that the training has been provided to BRC personnel in 2011-12. The number of days for which BRC personnel have been trained in 2011-12, ranged from 2 days to 15 days.

A few states mentioned specific topics on which training for BRPs was provided, some of which included management of teachers' training, learning enhancement and academic supervision, new pedagogy, reading programme, TLM preparation, multi-grade multi-level pedagogy, enrolment drive & re-enrolment campaign, financial management & accounts, DISE, and management development and RTE awareness.

Regarding the nature of academic support extended by BRCs, the main activities indicated by states included training and orientation of in-service teachers, training and on-the-spot support to CRC Coordinators, supervision and monitoring of academic activities, classroom observations, on-site support to teachers including demonstration lessons on hard-spots, etc. Other activities indicated included reviewing the performance of Head Masters, holding Block level monthly meetings to discuss academic problems and develop remedies, helping in development of block level plans, assisting in school gradation, school development plan, developing the best classroom, development of need based teaching learning materials, and preparing Teachers Guides or Source Books for teachers. All States have indicated that the BRCs have prepared calendar of activities.

Cluster Resource Centres (CRCs): Performance and Activities in 2011-12 (up to March 2012) -

The following table provides information about the operationalization and performance of CRCs, including the nature of activities that CRCs are involved in within various states.

74524 CRCs are functional against total 76501 CRCs sanctioned in 2011-12, reflecting an overall achievement of approximately 97%. 29 States have indicated that all the sanctioned CRCs in their state are 100% operational. Of the remaining, 5 States the sanctioned CRCs are operational between 78% to 99% as Bihar (78%), Chhattisgarh (80%), Daman & Diu (86%), Goa (87%) and Jharkhand (97%). There is one state Nagaland who has been given a target of 134 CRCs but achievement is 0%.

Out 35 States that have sanctioned CRCs, 9 States (Andaman & N Island, Bihar, Dadra & Nagar Haveli, Delhi, Goa, J& K, Tamil Nadu, U. P. and West Bengal) have 100% trained staff. States like Chhattisgarh, Lakshadweep, Puducherry has staff trained as 70%, 50% and 27% respectively. Remaining States has not given any mention.

Out of 34 that have sanctioned CRCs, 29 States have indicated that modules or guide lines have been developed or adapted for orientation of CRCs personal. Remaining 5 States (A.P., D&N Haveli, Nagaland, Sikkim and Maharashtra have not prepared any module for CRCs personal training.

The number of days for which CRC personnel have been trained in 2011-12 ranges from 2 days to 15 days. Out of 35 states 8 States have given 10 days training. 12 States has given 2 days, 3 days, 5 days, 6 days and 8 days training for CRC personnel. Kerala and Goa has given 15 and 13 days training respectively. There are 13 States who have not given any training. A few States mentioned specific topics on which training for CRC personnel is provided, some of which include on monitoring & supervision, management development, cluster training, TLM preparation, celebration of EDUCATION - DAY enrollment drive and campaign. DELHI has used for SHIKSHA KA HAQ ABHIYAN. Puducherry has used for ABL modification and Rajasthan for community mobilization.

Regarding the nature of academic support extended by CRCs, the main activities indicated by states include teacher training (including recurring monthly training, hands-on training, and identification of training needs); school visits (including classroom observation, interaction with students, performance analysis of learners, demonstrating model lessons); on-site support to teachers (on various topics such as effective use of TLM, life-skill development of students, project-work, demonstration lessons of hard-spots, use of teacher guides, use of workbooks, helping in improving school grading, etc.); monthly cluster-level meetings for teachers as well and for Headmasters to discuss and solve academic problems; data collection and analysis such as on out-of school children, and other activities such as assisting schools with melas and campaigns, organizing VEC meetings, etc.

Performance Tracking of Teachers and Trainers through ADEPTS

ADEPTS (Advancement of Educational Performance through Teacher Support) is an initiative under SSA that seeks to ensure improved teacher performance, and improved capacity in CRCs, BRCs and DIETs to enable improved teacher performance. It sets out to delineate benchmark of performance of teachers and teacher support system. In 2006-07, a series of performance indicators for teachers, trainers and support institutions were identified at the national level in collaboration with state teams and national institutions, through a consultative process facilitated by MHRD and UNICEF. Following this, States have been encouraged to adapt these to design context-specific performance indicators for tracking and enhancing the performance of teachers, trainers and support institutions within their State. The progress in this is indicated below.

ADEPTS have been differently understood by different States. Some States have put it in the category of Annual Confidential Report (Arunachal Pradesh, Chandigarh, Chhattisgarh), Accountability indicator based on the results of the students (Himachal Pradesh), Monitoring of teaching-learning process (Jharkhand), Self-appraisal process (Punjab and Karnataka), some have been understanding it as process of activities being organized by the teachers in their classes (Delhi), other States like Gujarat are understanding it as assessment of performance of teachers in the form of teacher effectiveness.

The States have designed the indicators of ADEPTS differently. Madhya Pradesh has selected the dimensions of ADEPTS with respect to Physical, cognitive, social and organizational functioning of teachers, Assam has put the indicators with respect to classroom practices, school surroundings, pupil achievement on monthly and periodical evaluation etc., Bihar has included the indicators linked with exposure to new teaching methodology, new TLM and new assessment tools, The State of Chhattisgarh has been concerned with indicators like activity-based learning processes, elimination of corporal punishment and use of continuous and comprehensive evaluation, For Jharkhand the indicators are based on 'what the teacher actually does in the classroom as a part of professional requirement, the State of Tripura has included indicators as punctuality, planning of lessons and organizing activity-based learning, West Bengal included indicators like allowing children to ask questions in the class and reviewing children's work regularly. However, the indicators drawn by Tamil Nadu are quite extensive and based on the concept of ADEPTS. These range from providing variety of learning situations, usage of technology, demonstration of problem solving skills etc. Though the indicators of ADEPTS are state specific, the indicators have to be broad and inclusive of teachers' performance in the classroom, schools and the community.

The States have been organizing workshops, discussion groups or even general circulars for identifying the indicators. Most of the States are still grappling with the teacher performance indicators only. They have not been identifying indicators for the performance of BRC, CRC and other staff linked with teaching-learning process as well as the school.

Performance Indicators for trainers

Of the 35 States, 29 States have identified different performance indicators for trainers. Out of these:

- **15 states have implemented the indicators and have begun tracking performance of teachers against these indicators (namely Andhra Pradesh, Assam, Bihar, Chhattisgarh, Daman & Diu, Gujarat, Himachal Pradesh, Karnataka, J&K, Orissa, Punjab, Tamil Nadu, Uttar Pradesh, Uttarakhand, and West Bengal)**
- **2 states have oriented their trainers/ teachers and/or developed materials for these indicators, but have yet to begin tracking the performance of trainers against these indicators (including Jharkhand & Meghalaya)**
- **12 states have identified performance indicators but have not yet implemented these for tracking performance of trainers (namely A&N Island, Arunachal Pradesh, Chandigarh, Delhi, Goa, Haryana, Kerala, Madhya Pradesh, Manipur, Puducherry, Rajasthan and Tripura)**
- **The remaining 6 states which have not yet identified performance indicators for trainers include Dadra & Nagar Haveli, Lakshadweep, Maharashtra, Mizoram, Nagaland and Sikkim).**

In the process of ADEPTS the States have been performing differently but it has been of the concerns of all the States to identify the performance indicators so as to help the teachers and the trainers to attain quality in the teaching-learning process.

The mechanisms by which various states have implemented ADEPTS for tracking performance levels are reflected in the table below. The performance indicators that have been identified by each State in 2011-12 are captured in the following table.

**State-wise Processes for Implementing ADEPTS Indicators
2011-12**

S.NO	State	Process for implementing ADPETS
1	Andaman & N Island	<ul style="list-style-type: none"> • ADEPTS are not implemented. In phased manner it is being implemented, as necessary orientation and training is to be imparted to head of the institution, Education Officers.
2	Andhra Pradesh	<ul style="list-style-type: none"> • Following are the methods for measuring the teacher performance: <ul style="list-style-type: none"> • Teacher Performance Indicators • Monitoring visits and reports by DIETs, BRCs and CRCs • Conducting external studies on Teacher Performance • A study was conducted on the teaching learning process and teacher performance its shows lot of improvement is required. The details are provided under 8.2 chapter. The performance indicators have been developed for children, teachers, Head Teachers, BRCs, CRCs, DIET and DPOs. The list of indicators has been communicated along with training to personnel at different levels. The focus is on not only improvement of teacher's performance but all the functionaries at system level. The performance indicators have been operationalized recently with training and no reports on the improvement of performance were obtained.
3	Arunahal Pradish	<ul style="list-style-type: none"> • The state has no any mechanism for measuring teacher effectiveness as such. However, there is the system of filling up of the Annual-Confidential Report by the authority. From 2011-12, the state will implement ADEPTS on trail basis taking 10 indicators. The involvement of CRCCs, BRCCs, DIETs and SIE in the implementation of ADEPTS is to be important as these are the series of support system which need to understand teacher performance standards to provide necessary supports to teachers. A very simplified version of ADEPTS will be implemented in a few schools as a pilot project as a try out programme. This will be done during the second half of academic session 2011. For recording the performance of teachers, two formats will be developed - Format A and Format B. Format A will record the performance of teachers on ten indicators out of twelve planned indicators, most of which will be selected from Standard Indicators covering all the four dimensions, as mentioned earlier. • Due to criticality of the task the state could not yet institutionalize the system of measuring teacher performance as envisaged in ADEPTS. However, at present, teacher's attendance and their performance is monitored through regular supervision of school functioning by the members of resources groups, BRPs, CRPs and respective co-coordinators working at the State, District and Block levels. Teachers' attendance is also monitored by SMC.
4	Assam	<ul style="list-style-type: none"> • Mass teachers training programme on ADEPTS (Advancement of Educational Performance Through Teacher Support) was launched during the month of Oct'07 for achieving quality learning and it has been continued still this date and hoped to be continued in near future also. By developing a number of standard selective indicators for the persons and organizations involved in Elementary Education it is tried to add a new era towards the quality education of the state. It is observed that the reflection of 20 (Twenty) indicators are not satisfactory in most of the schools which becomes a matter to be thought regarding learning enhancement of the children. Hence,, it is decided that the reflection of the selected indicators to maximum limit, andl to ensure the learning enhancement of the children in cent percent, a selected number of evaluation points are fixed against each indicators by which reflection (of indicators may be confirmed. It is expected that evaluation points will help the DQMs and other DACG/BACG members in performance tracking of teachers. Even the Head teacher/teacher himself/herself could track

S.NO	State	Process for implementing ADPETS
		<p>the progress of indicators through the observation of classroom practices, school surroundings, verification of the school records on attendance, pupil achievements on monthly and periodical evaluation, proceedings of the meetings and school visit records.</p> <ul style="list-style-type: none"> • Studies on 'Participation of Mothers' Group in school development activities', "Assessment of learning achievement level of EGS learners with respect to that of learners in nearby formal school: a comparative study", "Impact of ADEPTS indicators on educational performance of teachers" and "Intervention of theme based teaching learning process in Ka-sreni supported schools" which were carried over from 2009-10 have been completed.
5	Bihar	<ul style="list-style-type: none"> • Teacher training is always been an important tool to improve class room transaction process. Teacher performance and effective teaching could achieve only through capacity building of teachers through training. Exposure to new teaching methodology, new TLMs and effective assessment tools are necessary for teachers at different intervals. After the revision of curriculum and syllabus followed by new text books need was felt to give teachers proper orientation regarding shift in teaching methodology and require change in teachers' attitude towards children.
6	Chandigarh	<ul style="list-style-type: none"> • Performance indicators for teachers and school heads have been developed. Performance of teachers and head is also captured through the Annual Confidential Report. • Performance indicators have not been rolled out. The indicators were developed in February 2010, a committee consisting of 13 members from SSA functionaries, DO level, teacher educators, heads of schools, teachers, faculty of SIE and college of education reviewed them in February 2010 and they will be rolled out shortly. Shortage of manpower at the level of pedagogy coordinators along with delay in the executive committee meeting & changes in administration functionaries were the reasons responsible for the delay of rolling out of ADEPTS indicators.
7	Chhattisgarh	<ul style="list-style-type: none"> • In order to ensure teachers accountability, ADEPTS parameters, comprising of 327 points on which teacher's performance have been adopted in the state since 2009-10. A PERFORMANCE APPRAISAL FORMATE is used in place of C.R. for all the teachers, on the basis of which promotions are accorded has also been implemented since 2009-10. These measures will form the basis for determining and Feedback (from ADEPTS) about current performance levels of teachers in 2010-11. • Desired teacher performance benchmarks for 2011-12 are as under: <ul style="list-style-type: none"> • Bringing attitudinal and behavioural changes in teachers; • Activity-based learning processes; • Making the child free of fear, trauma, and anxiety; • Helping the child to express views freely; • Elimination of corporal punishment; • Use of continuous and comprehensive assessment;
8	Dadra & Nagar Haveli	<ul style="list-style-type: none"> • The VEC Monitors the Teachers Performance. The UT will try to initiate the teacher's performance indicators as per ADEPTS. • The Union Territory plans to roll out the ADEPTS indicators as per the formats developed by the GCERT, Gujarat.
9	Daman & Diu	<ul style="list-style-type: none"> • Daman District has developed performance indicators for primary teachers in four category i.e. (I) Cognitive indicators -39, (II) Social indicators-16, (III) Institutional Indicators -6 and (IV) Physical Indicators -19. • We have imparted training on Implementation of ADEPTS Programme to all primary and Upper Primary teachers of GPS/GMS/GHS of Daman District with the

S.NO	State	Process for implementing ADPETS
		<p>help of SSA Gujarat. We have Developed some formats for children's progress in Health, Cleanliness, Regularity performance in Math's and Language, Appreciation, Birthday card, Absentees Card, Children's overall bio-data (Profile)- Birthday, G.R.No, Address, Parents name, Cast, Parents Annual income, Social back ground, Disability etc.</p> <ul style="list-style-type: none"> • All the teachers have knowledge of all children's competency level and children's over all progress in learning level. Teachers also enable to appraise self performance towards their roles and responsibility for improving Quality Education in elementary Education of UT of Daman & Diu. • CRCC/BRCC/RPs has continuously monitored the progress of ADEPTS programme of their respective cluster's schools given. They check the formats and teachers note on indicators for better progress of performance in classroom process, CRCC/BRCC/RPs has given on site support and suggestion to teachers while visiting school.
10	Delhi	<ul style="list-style-type: none"> • It has been observed, during discussions and organization of teachers training and subsequently meetings of DURCCs/CRCCs with teachers, that teachers are keen to adopt innovative practices in the classrooms, Example- In one of the school after discussion it was found that teaching of Social Science was being done by organizing Youth Parliament in the school.
11	Goa	<ul style="list-style-type: none"> • The process of developing the performance Indicators is in progress and the same will be completed in its final stage by the end of May 2011. The SSA will identify experts/experienced teachers for development of materials and tools to institutionalize this programme. • Suitable changes in the forms of classroom teaching plans, classroom observation will also be made in order to ensure that appropriate classroom processes with focus on development of concepts, skills and values for all round child development of the child. ADEPTS parameters will also be used for developing these forms. Preparation/development of TLM and its effective use in the classroom processes will also be in the focus of classroom observation.
12	Gujarat	<ul style="list-style-type: none"> • ADEPTS has been implemented in around 22000 schools in the state through which 1,48,000 teachers are being covered. The main object of ADEPTS is to improve teachers' performance level. ADEPTS was piloted in 2007 in 456 schools then the programme was scaled up in 7000 schools after two years of pilot. Since last two years i.e. from 2010-11 total 22000 schools have been covered under ADEPTS implementation. • Teachers have been trained on each and every performance standard. An activity module also has been prepared and given to all the teachers so that teacher can easily achieve particular performance standard. • Assessment of performance is done by teachers themselves at initial level. Then CRC Coordinators appraise the same. At the time of appraisal, CRC Coordinator gives guidance to teachers. • The data management in ADEPTS is very systematic. The teacher wise data are collected from schools and collated up to state level. In past years, the state was planning the training and refreshers for the performance standards in which majority of teachers have performed low. • Now from year 2011-12, the district themselves would plan the block level training of ADEPTS according to block wise analysis.
13	Harana	<ul style="list-style-type: none"> • ADEPTS is not implemented in state yet. This will be developed under the guidance of the State Resource Group. It is to mention here that the state has also developed the policy on teacher's evaluation. Teacher evaluation is proposed to be a tool to help the teachers to grow. Evaluation shall be placed within a growth

S.NO	State	Process for implementing ADPETS
		orientated and fair framework and the evaluation experience shall be non-threatening and beneficial for all parties, especially students. The objective to be achieved is to ensure that teacher improves his teaching and the teacher emerges as a school team player which carries forward the vision of quality education for all.
14	Himachal Pradesh	<ul style="list-style-type: none"> • Teacher encourages children towards overall maintenance of school and tidiness of the classroom. • Enables cleanliness of school, surrounding environment, including plantation. • Displays children's work in the class. • ADEPTS is being implemented and measured on quarterly basis and School are also graded on these indicators. This programme is showing good result and teachers are appraising their progress themselves. • The State Govt. has made the teacher accountability policy based on the results. Entry of teacher's performance is made in the ACR and there is a provision for reward and punishment. Teacher's increments can be withheld for poor performance and rewards are granted for better performance.
15	Jammu & Kashmir	<ul style="list-style-type: none"> • In the year 2009-10 performance indicators for teachers were developed under LEAP during workshop in August 2009 in which experts from SIEs, DIETS, DRPS and field teachers participated. Experts from TSG also participated. • The state has decided to focus on developing a curriculum document, relook at its in-service teacher training and develop an understanding on CCE this year. For the current year, the state has decided not to roll out ADEPTS indicators.
16	Jharkhand	<ul style="list-style-type: none"> • State need to develop educational plan particularly quality aspect with reference to child entitlements under RTE. • ADEPTS was incorporated in the in-service Teacher Training programmes during 2009-10 but it couldn't be monitored properly due to involvement of monitoring team in other administrative work as well as parliament and assembly elections. • Improved teacher performance (Under ADEPTS, performance has been understood as what a person <i>actually does</i> as part of his professional requirements, in keeping with his context and abilities) • Improved capacity in CRCs, BRCs and DIETs to enable improved teacher performance.
17	Karnataka	<ul style="list-style-type: none"> • ADEPTS indicators will be familiarized to different stakeholders. • Based on the performance indicators self appraising formats will be designed and circulated and asked to make self appraisal and come out with specific strategies to overcome the problem if there are any. • These plans would be the litmus test items for the immediate supervisor. eg. The CRP plan will be supervised and monitored by the BRC and the BRCs by the DIET principal. • Suitable format will be designed to capture the performance status of all level Resource persons and office/institutions. Based on the facts the state will also give feed back to the districts on a quarterly basis. Besides the progress available in QMT will also be taken into consideration to provide feedback.
18	Kerala	<ul style="list-style-type: none"> • Kerala has developed State -specific performance indicators for language and subjects considering the micro-process of learning in tune with the constructivist paradigm. In addition to these the performance standards as per ADEPTS also will be made use of in the coming academic year.
19	Lakshadweep	<ul style="list-style-type: none"> • Performance tracking system will be implemented from 2011-12. Performance standard for teachers have been prepared in tune with ADEPTS by the DIET Lakshadweep. The Headmasters BRC/CRC RPs will be given training programme on evaluating the performance standard of teachers during April/May 2011.

S.NO	State	Process for implementing ADEPTS
20	Madhya Pradesh	<ul style="list-style-type: none"> There are four Dimensions are selected in ADEPTS, Physical, cognitive, social and organizational. State have selected performance indicator in different Dimensions.
21	Maharashtra	<ul style="list-style-type: none"> ADEPTS tool is developed for improving the quality of the schools and self evaluation. This tool helps the school teachers at different levels of performance to improve their quality through continuous comprehensive self-evaluation. The purpose of this tool is to enhance learning and teaching in the school to progress in the desired direction. The tool helps to achieve the progress in the described areas of development. No administrative action will be initiated against any school or teacher even if they fail to show the desired performance. The handbook will be distributed to all the primary schools and teachers in Maharashtra in the month of January 2011 during the in-service training programme of ADEPTS.
22	Manipur	<ul style="list-style-type: none"> ADEPTS implementation is under process.
23	Meghalaya	<ul style="list-style-type: none"> During the In-service teachers training programme and also during the capacity building training programme for BRPs and CRCs, the ADEPTS performance standards have been used as well as some activity have been conducted and the feedback form has been circulated after every training programme. The views and comments received from this training programme is that the ADEPTS standard is very useful and interesting to them as well as the activity conducted.
24	Mizoram	<ul style="list-style-type: none"> To improve teacher accountability, ADEPTS indicators are utilized in the most effective manner. Decentralization of power has also been ensured upon VEC/SDM by making more importance to performance report of teachers maintained by VEC/SMD.
25	Nagaland	<ul style="list-style-type: none"> Nagaland state could not exercise the ADEPTS yet.
26	Trissa	<ul style="list-style-type: none"> ADEPTS is in operation in the State and the accountability through performance indications is being tracked. "SAMIKSHYA" - a monitoring format has been developed & operationalized. This is a scope to monitor the activities and the teacher attendance.
27	Puducherry	<ul style="list-style-type: none"> A two day workshop on ADEPTS was organized by SSA, Puducherry for the stakeholders at all levels from the Inspecting officials, DIET Principal, Head Teachers, BRC/CRC coordinators and Teachers. The performance indicators so evolved was consolidated in to definite set of indicators for Teacher performance for next three years, which the teachers themselves will choose and measure their performance against the set target. This paves way for enhanced teacher productivity and professional development of the teachers. Intensive interaction at CRC meeting and orientation and internalization of ADEPTS at BRC level training.
28	Punjab	<ul style="list-style-type: none"> A practical self appraisal booklet of formats on the basis of different dimensions of ADEPTS has been developed where the teachers do their own monitoring and this booklet is checked by BMT/CMT/EMT/MMT on quarterly basis. Further the performance of the teachers depends on the performance of the students which is quite obvious when the different studies appreciated the achievement level of children. It is also tracked while monitoring her methodology of class room transactions, following which the pupils are able to use that in their real life situations as the teaching is now activity based. It is demonstrative & interactive too. Teachers have started to observe the importance of time on task and

S.NO	State	Process for implementing ADPETS
		<p>timeliness as per the requirement of RTE.</p> <ul style="list-style-type: none"> It is obvious that the various dimensions prescribed under ADEPTS and based on the various teaching. Learning situations which are helpful in the growth of the pupils. These situations are of three-types i.e. cognitive, affective and psychomotor. Keeping all these three situations in mind while following the various Dimensions of ADEPTS, the teachers have given positive feedback.
29	Rajasthan	<ul style="list-style-type: none"> State has initiated the process of implementation of ADEPTS. A decision has been taken to implement ADEPTS initially in the 65 schools of two districts (Tribal districts of the states) namely Dungarpur and Banswara. Under the leadership of DIETs a team of teachers, head teachers and DIET faculty has visited to Gujarat to understand the processes of implementation of ADEPTS. Performance indicators for teachers have been developed. A base line study has been conducted analysis of the same is under process. A MoU has been signed amongst SIERT, DIETs of these two districts, UNICEF and SSA to facilitate the implementation of ADEPTS. A detail plan of action, has been developed for the implementation of ADEPTS. A series of workshops is planned to be organized to develop material and manuals for ADEPTS programme. A group of Nodal head teachers is planning to visit Gujarat to understand their role to extend academic support to the teachers of ADEPTS schools. A monitoring indicators and tool will be developed for the monitoring of ADEPTS programme. This tool will be used by different agency. A workshop will be organized to develop indicator and monitoring tool. One measure planned to enhance teacher accountability is active engagement of SMCs in school functioning and implementation of ADEPTS in more districts.
30	Sikkim	<ul style="list-style-type: none"> ADEPTS indicators are not available and have not been shared with the staff or used till date.
31	Tamil Nadu	<ul style="list-style-type: none"> ADEPTS is an initiative of MHRD supported by UNESCO and UNICEF. It sets out to delineate benchmarks of performance of teachers and teacher support system like CRC, BRC, DIET & DTERT. This is a programme that has set a new milestone in the monitoring of quality in schools and tracking the effective performances of teachers. ADEPTS - Performance indicators are developed and put into practice in all schools in the State. Providing variety of learning situations to the learners using TV, DVD and DVD's provided every day. Encourage learners to compare, debate, share and learn from each other. Developing designing and selecting learning situations suited to the context and needs of children. Understand children within social, cultural and political contexts. Own responsibility towards enhancing the achievement level of children. Connecting the classroom learning to the life outside the school. Promotes development and use of contextual materials beyond prescribed ones. Enables regular capacity building through discussions, debates, sharing, reading, reflections etc., Demonstrates problem solving skill/mind set. Feels comfortable in handling the special children.
32	Tripura	<ul style="list-style-type: none"> With a view to measuring teacher performance monitoring and supervision the functioning of the SCERT, DIETs, BRCs and CRCs in respect of teacher Training

S.NO	State	Process for implementing ADPETS
		<p>and its outcome have been accelerated. State Pedagogical Field Team and State Core Team have been formed. The following indicators(ADEPTs) for implementation in the 1st phase have been identified as follows;</p> <ul style="list-style-type: none"> • Teachers Punctuality and attending prayer meeting. • Plan of lesson /Lesson outline/Teachers' preparation. • Use of TLM (Low cost material/improvised materials.) • Activity Based Learning /participatory learning. • Adherence to abolition of punishment-physical/mental. • Application of CCE (scholastic and co-scholastic area topic and subject wise daily basis by indirect grading system).
33	Uttar Pradesh	<ul style="list-style-type: none"> • Performance of Teachers will be assessed once in a year through internal agency & once in two years through external agency. Internal agency will consist of three members-Assistant Basic Shiksha Adhikari (Rural) / Nagar Shiksha Adhikari (Urban), Assistant Block Resource Coordinator & one faculty of District Institute of Education & Training. • Students' achievement of essential level of learning. • Teachers' punctuality in attending school and regularity in day to day activities. • Use of textbooks, teacher guides and TLM in classroom teaching. • Opportunity to student for individual and group work and regular correction of the written work. • Sharing students' performances with parents.
34	Uttarakhand	<ul style="list-style-type: none"> • Performance indicators 'Adepts' is shared with all the elementary teachers during teacher training. A separate training module developed by SRG was shared by RPs with teachers. BRC/CRC resource persons facilitated in tracking performance indicators for teachers.
35	West Bengal	<ul style="list-style-type: none"> • Performance Indicators for the teachers and their level of performance and few other indicators for T^{OT} have been identified for the entire State. • Workshops were organized previously. • Module is revised again. For this year (2011-12) it is incorporated in In-Service Teachers' Training schedule both for Primary & Upper Primary level. • State Resource Persons will be reoriented on revised module in the tune of RTE Act and NCF 05. • Teacher maximizes teaching learning time. • Allow children to ask questions. • Teacher profiles - children according to background and learning levels. • Encourages children to ask doubts / answer each other. • Reviews children's work regularly • Gets children to work in groups, i.e., think together rather than just sit together. • Motivates children by correlating topics with daily lives.

Progress in Learning Enhancement Program (LEP) in 2011-12

LEP at Primary Level

In 2011-12, 32 states have been supported for undertaking Learning Enhancement Programs (LEP) at the primary level. Details about the nature of activities being carried out under LEP are as follows:

1. Reading Improvement Programs:

- **34 States have been supported for activities for strengthening early reading in 2011-12, including A & N Islands, Andhra Pradesh, Arunachal Pradesh, Assam, Bihar, Chandigarh, Chhattisgarh, Dadra & Nagar Haveli, Daman & Diu, Delhi, Goa, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Lakshadweep, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Mizoram, Orissa, Puducherry, Punjab, Rajasthan, Sikkim, Tamil Nadu, Tripura, Uttar Pradesh, Uttarakhand, and West Bengal**
- **The nature of activities under these programs range from providing supplementary graded reading materials or story-books, developing reading cards or self-learning cards, setting up reading corners or libraries, and in some cases focusing specifically on strengthening learning of English.**
- **NCERT has launched an Early Reading Program as an exemplar for States to build their own programmes for strengthening children's early reading skills. The objectives of this programme are a) to provide a platform to assist States in running these programmes and provide technical assistance in the form of graded readers b) to provide a platform to NGOs willing to assist States in reading enhancement programmes c) to undertake periodic assessment of ongoing State initiatives, to check whether the desired results are being attained and d) to institutionalize a changed pedagogy for strengthening early reading. As part of the program, NCERT has developed a children's graded series of 40 early readers, a teachers' training manual, a dossier of international research on reading pedagogy, a suggestive list of 95 titles of children's literature, and guidelines for setting up reading cells in States. NCERT has been supporting activities for early reading under this initiative in 19 states.**

2. Basic Numeracy improvement:

- **24 States have been supported for activities for strengthening early numeracy skills in 2011-12, including Arunachal Pradesh, Assam, Bihar, Chhattisgarh, Dadra & Nagar Haveli, Goa, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Lakshadweep, Maharashtra, Manipur, Meghalaya, Nagaland, Orissa, Punjab, Rajasthan, Sikkim, Tamil Nadu, Tripura, Uttar Pradesh, and Uttarakhand**
- **The nature of activities under these programs include providing mathematics kits or learning aids, maths learning cards, specific training on mathematics pedagogy, etc.**
- **NCERT has initiated a Programme for strengthening Mathematics learning at Early primary grades. This involves development of pedagogic strategies for early Maths education, development of a maths learning kit for Class I and II, selection/development of appropriate pedagogic materials to support concrete,**

experienced based classroom transactions and development of a teacher training manual for capacity building. The exemplar pedagogic materials, training manual and results of analysis of curriculum and textbooks in Mathematics for the early primary grades is being shared with all States to enable them to plan programmes for strengthening Maths learning in their States.

3). Active Learning

- **17 States have been supported for implementing programs to promote Active Learning processes at the primary level, including Andaman & Nicobar Island, Andhra Pradesh, Bihar, Chandigarh, Chhattisgarh, Delhi, Haryana, Jammu & Kashmir, Jharkhand, Karnataka, Madhya Pradesh, Maharashtra, Orissa, Rajasthan, Tripura, Uttarakhand, and Tamil Nadu**

4). Providing additional workbooks:

- **8 states have been supported for providing additional workbooks as part of their LEP activities in 2011-12, including Andhra Pradesh, Arunachal Pradesh, Chandigarh, Puducherry, Rajasthan, Tamil Nadu, Uttar Pradesh, and West Bengal**

LEP at Upper Primary Level

In 2011-12, 28 states have been supported for undertaking Learning Enhancement Programs (LEP) at the upper primary level. Details about the nature of activities being carried out under LEP are as follows:

1.. Maths and Science Improvement Programs:

- **24 States have been supported for activities for strengthening maths and science learning at upper primary level in 2011-12, including Andhra Pradesh, Assam, Bihar, Chhattisgarh, Daman & Diu, Delhi, Gujarat, Haryana, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Lakshadweep, Madhya Pradesh, Maharashtra, Manipur, Orissa, Puducherry, Punjab, Rajasthan, Sikkim, Uttar Pradesh, Uttarakhand, West Bengal**

2.. Programs for Strengthening of Language Learning:

- **7 States have been supported for activities for strengthening language learning at upper primary level in 2011-12, including Delhi, Jharkhand, Kerala, Madhya Pradesh, Chhattisgarh, Maharashtra, and Tamil Nadu**
- **The nature of activities under these programs include Setting up Science and Maths labs, Providing Science and Maths Kits, Providing Workbooks or additional resource materials, or activities for promoting an environment for science and maths learning, such as setting up Science & Maths clubs, Science and Maths Resource Groups, activity-based science and maths teaching, etc.**

3. Programs for Strengthening of Social Science Learning:

- **5 States have been supported for activities for strengthening social science learning at upper primary level in 2011-12, including Delhi, Jharkhand, Kerala, Madhya Pradesh, and Maharashtra.**

4. Active Learning

- **4 States have been supported for implementing programs to promote Active Learning processes at upper primary level, including Chhattisgarh, Jammu & Kashmir, Karnataka, and Madhya Pradesh.**

Some of the states that have shown good progress in the LEP activities sanctioned for 2011-12 are mainly Andhra Pradesh, Chhattisgarh, Chandigarh, Goa, J&K, Jharkhand, Karnataka, Kerala, Maharashtra, Orissa, Punjab, Uttar Pradesh & Uttarakhand. Further details about the nature of activities sanctioned for each State in 2011-12 and their progress up to March 2012 is reflected in the table below.

Attendance Tracking of Teachers under SSA: Progress in 2011-12 - (Up to 31st March 2012)

S. No.	States/UTs	Initiatives for tracking teachers attendance	Whether any study under taken/ planned.	Major findings of the study	Any follow up action taken
1	A & N Islands	<ul style="list-style-type: none"> • 3-tier inspection by the officials of the department and the involvement of the SMC. • Community members are empowered to monitor day to day activities of independent primary schools. • VEC/WEC members attend the school prayer in rotation and indirectly observed the teacher attendance and their punctuality in school. • SMC, visits by the BRCs and CRCs coordinators. 	Yes	<ul style="list-style-type: none"> • A study in this regard was conducted during 2009-10. It is found that teacher's attendance is good. However, there are few teachers who take leave very frequently and found out of the school for want of some work (personal as well as official). The outcome of the study is that whatever margin of teacher's absenteeism prevailing in these islands will be eradicated if the concerned head of the institution is vigilant. • On the basis of outcomes of the study, necessary instruction had already been issued to schools/BRCCs / Zonal officers. 	
2	Andhra Pradesh	<ul style="list-style-type: none"> • Monitoring of teachers attending by Mandal Resource Persons, BRC Coordinators, CRC coordinators and conduct reviews on SMC Meetings, attendance of teachers is one of the issues in the Agenda. • Periodical visits of State Level, District Level Monitoring Teams, where teacher attendance to the school and attenders the prayer is an observation point. • Academic monitoring of schools will be focused on attendance. • An Evaluation Study was conducted by State Project Office during March & 	Yes	<ul style="list-style-type: none"> • Teacher Absenteeism in A.P. was 24% which is just 1% less than the National Level Average. • There was a significant relation between the Socio Economic Background of the teachers and its impact on level of absence. • Absenteeism among male teachers was 22% and where as among female teachers was 20%. • Teacher absence if figured higher among the OC with 22.84% when compared to teachers from other communities. 	On an average each teacher shares in the loss of working days is 1 ½ (One and Half month - 46.91%) in a year

S. No.	States/UTs	Initiatives for tracking teachers attendance	Whether any study under taken/ planned.	Major findings of the study	Any follow up action taken
		<p>April 2009 in sample schools of primary and upper primary across state covering all mandals of all districts in the state with a view to understand existing situation of school functional aspects & implementation of various initiatives in the field duly involving DIET staff and BRC & CRC personnel.</p>		<ul style="list-style-type: none"> • The data revealed that absenteeism was more among the regular teachers than the VVs. • More than 20% of the teachers from rural background were absent compare to the teachers located in urban areas who accounted for 17% of absence. 	
3	Arunachal Pradesh	<ul style="list-style-type: none"> • In order to improve teachers attendance and their performance school functioning is regularly monitored & supervised by the members of resource groups, BRPs, CRPs and respective coordinators working at state, District and Block Levels. Teachers' attendance is also monitored by VEC/SMC. • State is contemplating to have SMCs in place to have greater Stake in the activities of the schools in view of the implications of the RTE. There will be an attempt to involve more active parents and the women members in to the SMCs, who are likely to take more interest in the schools that will ultimately result in to the improved attendance of the teachers as well as the students. 	Yes	<ul style="list-style-type: none"> • Teachers' absence at Pry. Level is 8% and at U/Pry. Level it is 12%. 	----
4	Assam	<ul style="list-style-type: none"> • Monthly reporting on School indicators in the line of quality monitoring formats 	Yes	<ul style="list-style-type: none"> • The percentages of working days lost for the male and female teachers in the 	----

S. No.	States/UTs	Initiatives for tracking teachers attendance	Whether any study under taken/ planned.	Major findings of the study	Any follow up action taken
		<p>developed by NCERT has been introduced and monitored at district and SMO respectively.</p> <ul style="list-style-type: none"> • Proper awareness of the whole community on RTE act. • Involvement of NGOs and other partner organizations of the GOA to overcome these issues. • Community will be empowered on school level monitoring as per RTE • Research study is to be undertaken on teacher and student attendance in 2011-12. • By the HOS and the CRC/ BRCs check the attendance of the student attendance as well as the teachers. 		<p>primary level are 7.57% and 9.13% respectively.</p> <ul style="list-style-type: none"> • The percentages of working days lost for the male and female teachers in the upper primary level are 9.08% and 10.27% respectively. • The teachers from the OBC category have the highest percentage of teaching days lost both in the primary and upper primary level the percentages being 9.08% and 10.97% respectively. • The percentage of attendance of teachers in rural and urban area is 81.31% and 85.59% respectively. • The teachers with post graduate degree have the highest absence rate. • The average number of working days spent on teaching/taking classes is 204 days. 	
5	Bihar	<ul style="list-style-type: none"> • Samjhe-Sikhe Started all over the State from 5 September 2011 • VSS has been entrusted to monitor the attendance of teachers. To create such environment that the teachers get proper respect for this programmes proper training is given. To keep vigil that the teachers are not engaged in non-teaching works. To report to the competent authority about the continued and habitual absenteeism of 	Yes	<ul style="list-style-type: none"> • Survey on these indicators show that 25 % of teachers in Bihar are not attending the schools. This will adversely affect the quality education by wasting human and material resources. 	

S. No.	States/UTs	Initiatives for tracking teachers attendance	Whether any study under taken/ planned.	Major findings of the study	Any follow up action taken
		<p>teachers, and subjugation, humiliation and discrimination towards children by teachers, after due investigation.</p> <ul style="list-style-type: none"> • The attendance of teachers may be ensured by motivating them through effective training programmes. • In addition, Education Officers & PRIs will be trained to monitor the attendance of teachers in the schools. • Thirdly, the education officer training module will also be designed in such a way as to augment the officer to monitor the teacher attendance. 			
6	Chandigarh	<ul style="list-style-type: none"> • A study was under taken by Sarva Shiksha Abhiyan Society / Mission, U.T. Chandigarh as constituted by Ed.CIL on teacher absenteeism during 2008-09. • Study on student/ teacher attendance will be undertaken during the year 2011-12. Frequently checking the attendance register by DEO, heads, SMCs 	Yes	<ul style="list-style-type: none"> • Attendance of students as well as teachers is found to be highly satisfactory therefore, additional corrective measure is not proposed. • The percentage of teacher's absenteeism is nearly 5-7% including health related issues and family problems in UT Chandigarh • Teacher's attached in non teaching task is 2% at Primary Levels and 15% at Upper Primary Level. 	<ul style="list-style-type: none"> • Against the vacant posts Guest.Faculties have been appointed by Education Department. • The process of filling up of vacant posts of Sarva Shiksha Abhiyan Society / Mission, U.T. Chandigarh and Education Department is in progress.
7	Chhattisgarh	<ul style="list-style-type: none"> • No specific measure was taken apart from regular monitoring • An order has been issued by the secretary, department of school education, govt. of Chhattisgarh to all district collectors not to deploy teachers 	study will be conducted in across the state to study the attendance rate of	N/A	N/A

S. No.	States/UTs	Initiatives for tracking teachers attendance	Whether any study under taken/ planned.	Major findings of the study	Any follow up action taken
		<p>in activities other than teaching except for the works of Census, Election commission, and Disaster relief works.</p> <ul style="list-style-type: none"> • A study will be conducted in across the state to study the attendance rate of teachers and students. • Study is proposed to be done by the College of Teachers Education Raipur. • PTA/SDMC members attend some of the school prayer in rotation and indirectly observed the teacher attendance and their punctuality in school 	teachers and students		
8	D & N Haveli	<ul style="list-style-type: none"> • No initiatives has been undertaken for tracking Teachers attendance • The E.O, A.E.O, BRCC / CRCC during their visits monitor the teacher / students attendance where as the Community Members monitor through NCERT formats. 	Study will be conducted regarding teachers and students attendance.		
9	Daman & Diu	<ul style="list-style-type: none"> • Yes, it is completed and will be reported to TSG. • PTA/VEC members are visiting residence of students who does not come in school regularly. They discuss with their parents and convince them for send their children regularly in school. 	Yes	<p>Primary: 96.92%</p> <p>Upper Primary: 95.31%</p>	
10	Delhi	<ul style="list-style-type: none"> • Using online Module and reporting daily attendance through MIS. 	Yes	<p>Primary: 89.1%</p> <p>Upper Primary :90.3%</p>

Attendance Tracking of Students under SSA: Progress in 2011-12 (Up to 31st March 2012)

States have been quite concerned about attendance of the students in the schools. Only the UT of Chandigarh has observed that no corrective measures were desired as there has been satisfactory attendance of students in the schools (there has been reported average 95% attendance of students in the schools). The States have been applying various methods to monitor attendance of students in the schools. Some of the States have been observing that if the teachers' attendance could be monitored properly the students' attendance will be automatically monitored.

Monitoring attendance by meeting with parents: States like A&N, Gujarat, Maharashtra and Mizoram are monitoring attendance of the students by having personal interview with the parents. States of Tripura and Puducherry have been calling a meeting with parents whenever a student is found not attending a school for more than 10 to 30 days. States like Arunachal Pradesh, Daman and Diu, Haryana, Himachal Pradesh, J&K, M.P, Orissa and West Bengal are monitoring students' attendance through VECs or SMCs. Assam and Mizoram are taking the help of Mothers' group to monitor the attendance of children in the schools.

- Dadra and Nagar Haveli give scholarship to students who have more than 90% attendance in the schools.
- House-hold visits are organized in Daman and Diu and Goa if the child is found to be not attending the schools, In J&K teacher is deployed to find out the reason and then monitor if the child is not attending the schools
- Meeting is arranged between community and parents in Puducherry and Tripura if the child is found to be not attending the school.
- Jharkhand has stressed on organising rallies and prabhat pheris for emphasizing the attendance of the students in the schools.
- Delhi is monitoring the attendance of the students electronically on-line.

Improvement in Attendance: All the States mentioned above have reported that there has been nearly 5% improvement in attendance when the attendance has been monitored.

Conducting research Studies: most of the States have been conducting research studies through outside agencies or on their own to find out various reasons of non-attendance of students. These mainly include Chandigarh, Chhattisgarh, D&N, Tamil Nadu, Haryana and Kerala.

It is suggested that the improvement in attendance can be achieved by having close coordination between school, community and parents. Efforts need to be made that parents attend the meeting in the schools.
