## ACKNOWLEDGEMENTS

This report on the status of higher education for foreign students in India is the first of its kind which explores the aspect of student mobility in and out of India. The report draws on the data collected under the All India Survey on Higher Education (AISHE) 2010-11 and 2011-12. The aim of this report was to gauge the attractiveness of India as a destination for higher education.

According to AISHE, in 2011-12 India was home to 33156 foreign students worldwide that spread over most of the states/UTs of India. Among these, Karnataka was the most popular destination for these students with the highest enrolments in Nursing and Business Management. The report takes an in-depth view of popularity of subjects among foreign students. The report also has a gender component with an aim to discern female enrolment at the higher level of education.

I would like to extend my heartfelt gratitude to the lead writer, Mr. Shailendra Sigdel, Statistical Advisor of UNESCO Institute for Statistics (UIS). I also extend my gratitude to the reviewers of this report- Mr. Pawan Agrawal (Advisor on Higher Education, Planning Commission), Ms. Ruchika Gupta (Director, MHRD), Prof Mr. N.V. Varghese (Director, Center for Policy Research in Higher Education of NUEPA) and Ms. Chiao-Ling Chien, Researcher in higher education, UNESCO Institute for Statistics. I would also like to acknowledge the analyses and compilation done by Ms. Gauri Khanduja, Research Associate, UNESCO New Delhi.

I am thankful to the educational institutions that have responded, without their co-operation this report would not have been possible.

## INTERNATIONAL STUDENT MOBILITY IN INDIA

According to the UNESCO Institute for Statistics (UIS), the number of internationally mobile students globally<sup>1</sup> has increased to 4.0 million in 2012 with a 135 percentage increment from 1.7 million in 1995 (see Box 1 and Table 1). China has been the largest contributor of the world’s mobile students since 1995. India became the second largest contributor since 2005.

### **Box 1: Definitions of international (or internationally mobile) students**

International (or internationally mobile) students are defined as students who have crossed a national border and moved to another country with the objective of studying. Two operational definitions are used in the international dataset developed by the UIS, the Organization of for Economic Co-operation and Development (OECD) and Eurostat:

- Students who are not usual residents of their country of study i.e. those who have recently moved to the destination (host) country from somewhere else
- Students who received their prior qualifying education in another country, indicating that they have crossed a border

When data on these two definition characteristics are not available, data on foreign students (who are non-citizens of the country in which they study) and commonly used as a proxy for international (or internationally mobile) students.

Currently, the international dataset does not include students in exchange programs that usually last less than a school year and who fulfils part of the studies at an educational institution abroad but are credited at their home institutions.

**Source: UNESCO –UIS/OECD/Eurostat (2013)**

<sup>1</sup> The use of the word “internationally mobile students” or “international students” in this section is only for exposition purpose. Hereon, “foreign” students in India and “mobile students” will be used interchangeably.

## INDIAN STUDENTS STUDYING ABROAD

In 2012, over 189 thousand Indian students were enrolled in higher education institutions abroad. This population accounts for 4.7% of the total internationally mobile students worldwide and is the second largest source of foreign students after China (17.3%). Despite its magnitude, this population represents a small proportion (0.7%) of total higher education enrolment in India (29.18 million). At the same time, India's gross outbound enrolment ratio<sup>2</sup> is of 0.11%, which is quite low compared with many other Asian countries, such as China (0.6%), Japan (0.5%), Malaysia (1.9%), the Republic of Korea (3.6%), and Sri Lanka (1.0%).

Indian foreign students are dispersed over 50 countries of the world<sup>3</sup>. Out of the 189, 472 Indian foreign students in 2012, more than 85% students were concentrated in six countries: the United States (51%), United Kingdom (16%), Australia (6%), Canada (4%), United Arab Emirates (4%) and New Zealand (4%). It is noted that between 2008 and 2012, the popularity of Australia as a destination for Indian students has declined. There were 55% fewer students in 2012 as compared to 2008 (Table 2).

**Table 2: Top Ten destinations of Indian students, 2005,2008 and 2012**

<sup>2</sup>**Gross outbound enrolment ratio**, which is the total number of students from a given country studying abroad, expressed as a percentage of the population of tertiary age in that country. **Outbound enrolment ratio** is the total number of students from a given country who are studying abroad, expressed as a percentage of total tertiary enrolment in that country. **Inbound enrolment ratio** is the number of students from abroad studying in a given country as a percentage of total tertiary enrolment in that country.

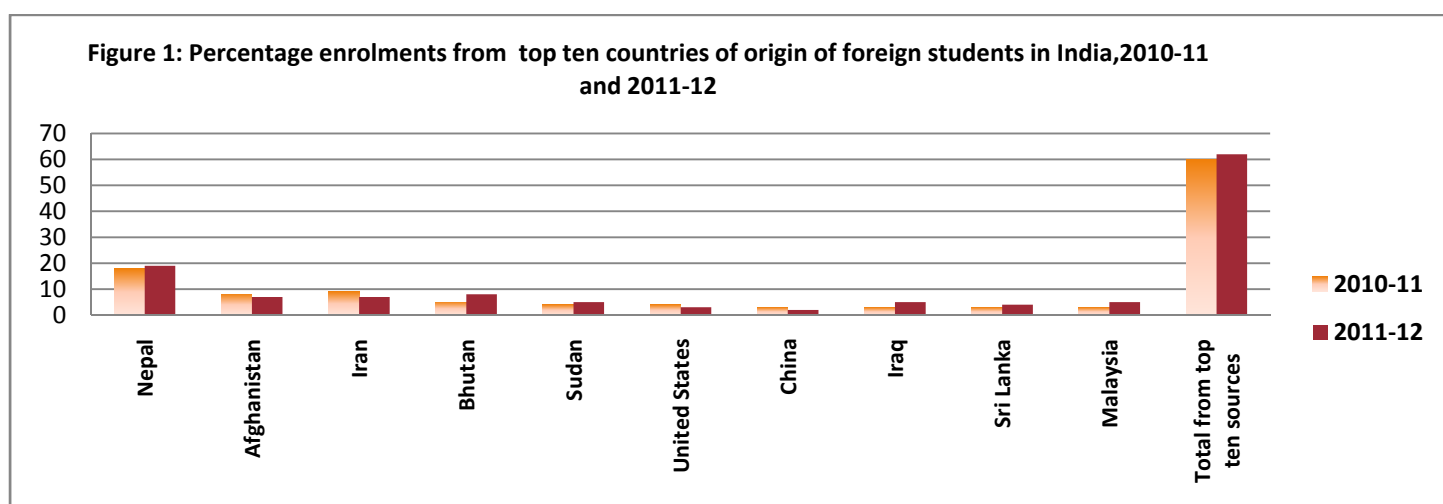

<sup>3</sup>Counted only if number of Indian students in a particular country are more than 10 in 2011

## FOREIGN STUDENTS IN INDIA

India is gradually emerging as a preferred destination for foreign students, particularly from the South Asian region. The growth in the number of foreign students in India has been impressive. The recent data for 2011-12 shows that within a year, India received 5625 more students, an increase of almost 20.43% from the last year<sup>4</sup>. In 2011, these students came from 153 countries. India is slowly expanding not only in terms of the number of students but also the number countries from which these students come.

According to the All India Survey on Higher Education (AISHE) 2011-12, Nepal contributed the highest percentage of foreign students in India. Of the total foreign students, nearly 19% were from Nepal, followed by, in descending order, Bhutan, Iran, Afghanistan, Malaysia, Sudan and Iraq (Figure 1). Even though, the share of foreign students from the top ten countries has increased in a year's time, the rise is not uniform. The top ten countries of foreign students in India constitute 62% of the total foreign students in the country. The rise in the number of students from Nepal and Bhutan has been the highest, while the number from United States, China and Iran has declined compared with 2010-11.

Out of the total foreign students, 76% came to India for under-graduate<sup>5</sup> studies and 18% came for post-graduate studies<sup>6</sup>. The remaining who came for their Ph.D.<sup>7</sup> studies were from Iran (39%), Iraq (5%). Nepal, which was the highest contributor for students at the under-graduate level had only 3% share of its students enrolled at the doctoral level. Interestingly, out of the total 983 foreign students who came to India for higher studies from United States only six were enrolled at the Ph.D. level (Annex 19).

Source: All India Survey on Higher Education

<sup>4</sup>Number of foreign students in 2000 was 6,988. In 2011 and 2012 the numbers of foreign students were 27531 and 33156 respectively.

<sup>5</sup>Under graduate level broadly refers to ISCED 6 first as per ISCED 2011 classification

<sup>6</sup>Post graduate level broadly refers to ISCED 7 second degree as per ISCED 2011 classification

<sup>7</sup>Ph.D. refers to ISCED Level 8 and students enrolled in Doctor of Philosophy

## STUDENTS FROM SAARC REGION IN INDIA

India is gradually emerging as a hub for tertiary education in the South Asian Association for Regional Cooperation<sup>8</sup>(SAARC) region. This chapter is focused on the regional mobility of foreign student in the SAARC region. Table 3 presents mobile students from the SAARC region. It also included the student enrolled in United States, United Kingdom and Australia from SAARC region. The table shows that only in case of Bhutan 71% of their internationally mobile students came to India, however only 2% of the students from Bangladesh came to India. Even though India gets 19% of internationally mobile students from Nepal, almost 60% of the Nepalese students go to the aforementioned countries other than India

**Table 3: Mobile students from the SAARC Region to India, USA, UK and Australia in 2011-12**

Country of origin	Destination countries							
	% in India	% in United States	% in United Kingdom	% in Australia	% in Canada	Total % in USA,UK, Australia & Canada	% in other countries	Total students studying abroad in absolute terms
Afghanistan	16.3	03.6	02.1	01.1	0.7	07.5	76.2	9754
Bangladesh	02.4	14.6	17.4	15.2	6.0	53.2	44.4	21927

\*: Insignificant

-: Zero

India is becoming the educational hub in the SAARC region as India has a relatively large higher education system and capacity to absorb students from neighboring countries.

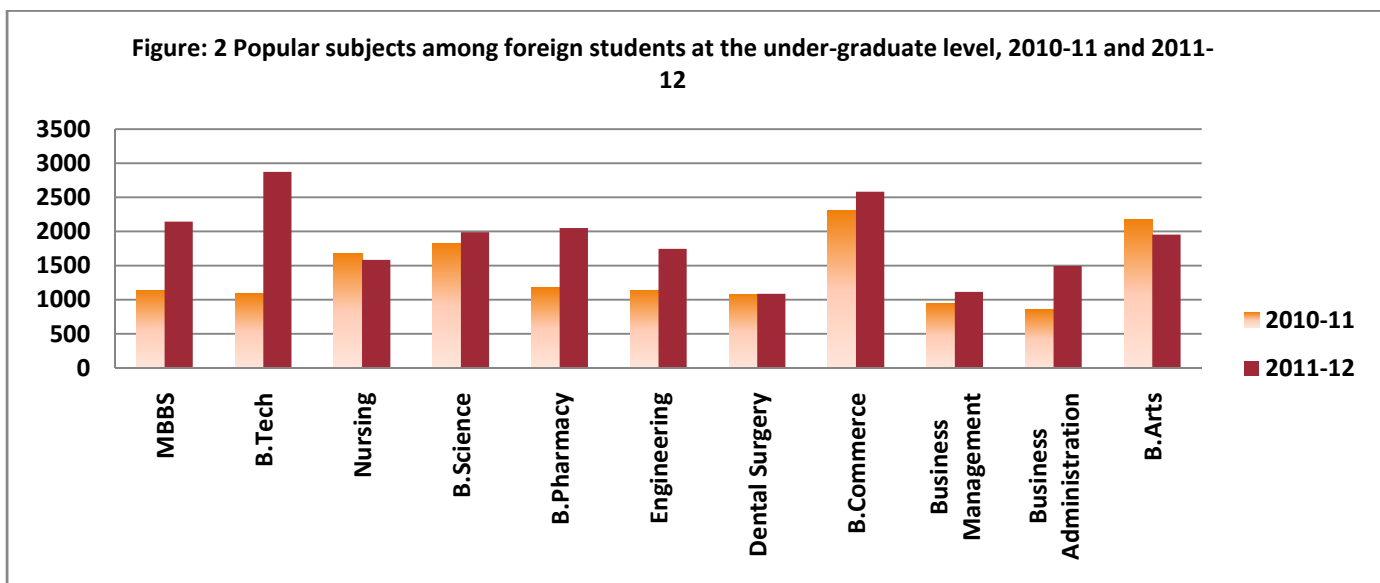

<sup>8</sup>The members of South Asian Association for Regional Cooperation are: Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka

## SECTION 1: FOREIGN STUDENTS AT THE UNDER-GRADUATE LEVEL

This section analyses the major subjects for which students came to India for their under-graduate studies. The majority of foreign students come to India for their under-graduate studies. In 2011-12, India received 25283 (77%) foreign students for this level. Out of this majority, the highest number of students at this level came from Nepal.

Figure 2 shows that in 2011-12, India hosted the highest number of students for Bachelor of Technology (B.Tech), followed by Bachelor of Commerce (B.Com), Bachelor of Medicine & Bachelor of Surgery (MBBS), Bachelor of Pharmacy, Bachelor of Science and Bachelor of Arts. However in 2010-11, most of the students came to India for Bachelor of Commerce.

Source: All India Survey on Higher Education

Table 4 shows the total number of countries from which students in a particular subject were enrolled and the country from which the majority came. For instance, India received highest number (92%) of the students in Nursing from Nepal and the remaining were from 23 other countries (Annex 25). However, Afghanistan was the highest contributor for enrolments in commerce (13%) and the remaining students came from 74 other countries (Annex 30). This trend suggests that, India hosted the majority of its foreign students for nursing from Nepal, however in case of commerce the enrolments were more scattered. It is worth highlighting that of the total enrolment in MBBS the majority came from Malaysia (52%), the United States (24%), and Canada (6%) (Annex 23). The patterns shown in Table 4 and Table 5 are not very different from that observed in the data for 2010-11.

**Table 4: Enrolment by country of origin in popular subjects at the under-graduate level, 2011-12**

Subjects	Total number of foreign Students (2011-12)	Highest three contributing countries by their share in the total enrolment			Number of countries from which students are enrolled in this stream
		1 <sup>st</sup> Country	2 <sup>nd</sup> Country	3 <sup>rd</sup> Country	
Bachelor of Medicine and Bachelor of Surgery (MBBS)	2123	Malaysia (52%)	United States (24%)	Canada (6%)	39
Bachelor of Technology	2874	Nepal (40%)	Bhutan (12%)	Afghanistan (11%)	83
Bachelor of Science in Nursing	1583	Nepal (92%)	Bhutan (2%)	United States (2%)	24
Bachelor of Science	1989	Bhutan (17%)	Sri Lanka (9%)	Nepal (8%)	82
Bachelor of Pharmacy	2051	Sudan (28%)	Iraq (26%)	Iran (15%)	41
Bachelor of Engineering	1746	Nepal (35%)	Mauritius (9%)	Sudan (5%)	65
Bachelor of Dental Surgery	1085	Malaysia (52%)	Iran (24%)	United States (5%)	39

Bachelor of Business Management	1114	Nepal (20%)	Tanzania (11%)	Bhutan (9%)	58
Bachelor of Business Administration	1494	Bhutan (22%)	Afghanistan (19%)	Nepal (9%)	59
Bachelor of Arts	1959	Afghanistan (23%)	Algeria (13%)	Bhutan (10%)	71

Source: All India Survey on Higher Education, 2011-12

Table 5 shows the states of India that had the highest enrolment in a particular field and also the countries that contribute the most to this enrolment. For instance, 93% of the total enrolments in Nursing were in Karnataka and out of total enrolment Nepalese students made 94% (Annex 25). Karnataka is by far the most preferred destination for foreign students at the under-graduate level in India.

**Table 5: State-wise foreign enrolment in popular subjects at the under-graduate level, 2011-12**

<b>Major Subjects</b>	<b>Total number of foreign Students</b>	<b>The state that has the highest enrolment</b>	<b>% of highest Enrolment of states/UTs mentioned in Column C</b>	<b>Highest contributing country (in%) in highest enrolled State/UT</b>
Bachelor of Medicine and Bachelor of Surgery (MBBS)	2123	Karnataka	59%	Malaysia (79%)
Bachelor of Technology	2874	Andhra Pradesh	32%	Nepal (46%)
Bachelor of Science in Nursing	1583	Karnataka	93%	Nepal (94%)
Bachelor of Science	1989	Karnataka	27%	Nepal (18%)
Bachelor of Pharmacy	2051	Karnataka	67%	Iraq (31%)

Bachelor of Arts	1959	Maharashtra	26%	Afghanistan (53%)

Source: All India Survey on Higher Education, 2011-12

The figures (Figure 1 and Figure 2) observed the top ten countries from which students came to India (Figure 1) and the most popular subjects at the under graduate level among foreign students in India (Figure 2). The next table (Table 6) examines the percentage of students from the top ten countries coming to India for the most popular subjects. The purpose of doing this exercise is to determine whether these subjects are popular because they receive students from these top ten countries or from other than these top ten countries.

The table shows that in MBBS, Nursing, Pharmacy and Dental Surgery more than 80 percent of students come from the top ten countries (Annex 23, 25, 27 and 29). At the same time Bachelor of Commerce and Bachelor of Business Management received less than 50 percent of students from these countries (Annex 30 and 32).

**Table 6: Contribution of top ten and SAARC countries in popular subjects, 2011-12**

## SECTION 1.1: FEMALE ENROLMENT AMONG FOREIGN STUDENTS AT THE UNDER-GRADUATE LEVEL

Apart from determining how far India is a favorable destination for foreign students, it is important to see the gender composition of foreign enrolment. It is critical to look at this aspect keeping in mind the recent focus around access with gender and socio-economic equity.

This section analyses the proportion of women in the most popular fields at the under-graduate level. Figure 3 shows women were enrolled in high numbers in Nursing, Dental Surgery and MBBS (Annex 18). In particular, of the total students enrolled in Nursing, 97% were women. Of the total 97% women enrolled in Nursing, 93% are from Nepal (Annex 25).

Source: All India Survey on Higher Education, 2011-12

Table 7 shows the state that gets the highest female enrolment in the popular subjects. Nursing has the highest female enrolment among foreign students and 93.6% of this enrolment is in the state of Karnataka. At the same time, Engineering has the lowest female enrolment among foreign students and 47% of this enrolment is in Karnataka. The table also presents the state with the second highest enrolment of female foreign students in popular subjects. Karnataka has enrolled highest number of MBBS student and out of total 1,184 students are female. Karnataka hosts 58.4% female out of total female enrolment and Punjab hosts 12.9% female out of total enrolment in MBBS (Annex 23).

**Table 7: Female enrolment in popular subjects and highest enrolling state by subject, 2011-12**

<b>Major Subjects</b>	<b>Total number of female Students</b>	<b>Highest enrolling state and % of female enrolment</b>	<b>State with second highest enrolment</b>
Bachelor of Medicine and Bachelor of Surgery (MBBS)	1184	Karnataka (58.4%)	Punjab (12.9%)
Bachelor of Technology	445	Andhra Pradesh (35.7%)	Uttar Pradesh (14.3%)
Bachelor of Science in Nursing	1537	Karnataka (93.6%)	Uttrakhand (1.5%)
Bachelor of Science	714	Tamil Nadu (34.3%)	Karnataka (31.7%)
Bachelor of Pharmacy	533	Karnataka (71.1%)	Maharashtra (9.5%)
Bachelor of Engineering	255	Karnataka (47%)	Tamil Nadu (17.2%)
Bachelor of Dental Surgery	712	Karnataka (65.5%)	Tamil Nadu (26.1)
Bachelor of Commerce	828	Tamil Nadu (29.2%)	Karnataka (22.9%)
Bachelor of Computer Applications	327	Karnataka (56.8)	Tamil Nadu (19.5%)
Bachelor of Business Management	437	Karnataka (91%)	Tamil Nadu (7.7%)
Bachelor of Business Administration	503	Tamil Nadu (31.4%)	Maharashtra (26.2%)
Bachelor of Arts	851	Karnataka (21%)	Maharashtra (18.3%)

Source: All India Survey on Higher Education, 2011-12

Table 8 tries to compare the enrolment of women at the tertiary level in their home country with the proportion enrolled in India from that country. For all the SAARC countries apart from Pakistan and Afghanistan the percentage of women enrolled in India is considerably lower than the percentage enrolled within the respective countries.

**Table 8: Percentage of female foreign enrolment and the proportion at home country, 2011-12**

SAARC Countries	Female enrolment as a % of the total foreign students by country of origin	% of female enrolled at higher education in the home country
Afghanistan	11.9	24.3
Bangladesh	35.8	40.5
Bhutan	43.1	39.8
Maldives	59.4	52.5*
Nepal	41.9	41.6
Pakistan	29.4	46.7
Sri Lanka	56.4	63.7

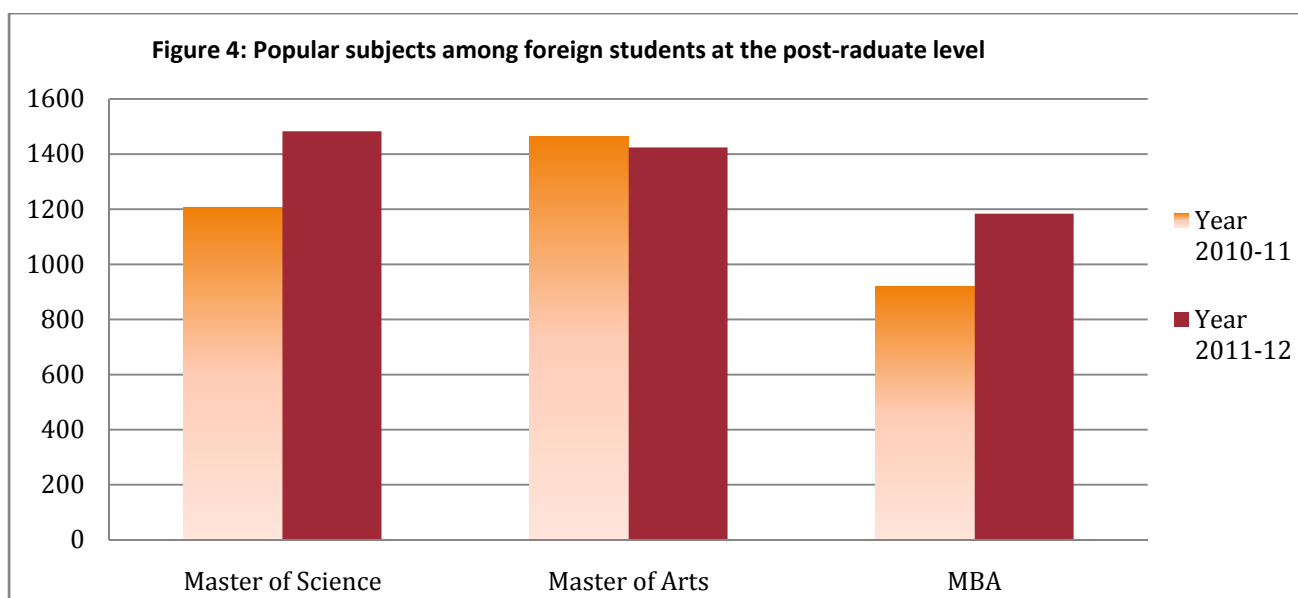

\*: Data for 2008. Source UIS database accessed in October 2014 and AISHE 2011-12

Interestingly, though with a thin margin, for students from Bhutan, Maldives and Nepal the percentage of women enrolled in higher education institutions in India is higher than that in their home countries. The proportion of female enrolment at home country seems positively associated with the enrolment of female foreign student in India.

## SECTION 2: FOREIGN STUDENTS AT THE POST-GRADUATE LEVEL

This section profiles the inflow of foreign students at the post-graduate level. In 2011-12, India received 5847(23.13%) students for post-graduate studies as opposed to 25283 (77.27%) students at the under-graduate level in India<sup>9</sup>.

In 2011-12, India received foreign students for post-graduate level programmes in 49 different fields, among which only three fields- Master of Science, Master of Arts and Master of Business Administration has received more than a thousand students (Figure 4). By comparison, Master of Commerce and Master of Technology, the most popular programmes for foreign undergraduate students, received only 277 and 232 foreign students in Master's programmes in 2011-12.

Source: All India Survey on Higher Education

As per AISHE 2011-12, among foreign students enrolled in Master of Science programmes, 24% of them (the highest) come from Iraq (Annex 22). Table 9 shows that the majority of students at the post-graduate level were from Iran and Iraq. The table also shows that in Master of Arts, India received students from 95 countries of the world (Annex 20).

<sup>9</sup>Out of total foreign students 3% are at the Ph. D. level and other 3% are at the different levels

**Table 9: Top 3 Countries making contribution in enrolment in popular subjects at the post-graduate level, 2011-12**

Subjects	Total number of foreign Students (2011-12)	Highest three contributing countries by their shares			Number of countries from which students are enrolled in this stream
		1 <sup>st</sup> Country	2 <sup>nd</sup> Country	3 <sup>rd</sup> Country	
Master of Science	1483	Iraq (24%)	Iran (13%)	Nepal (10%)	61
Master of Arts	1424	Iraq (17%)	Iran (14%)	Afghanistan (7%)	95
Master of Business Administration	1184	Nepal (25%)	United Arab Emirates (9%)	Afghanistan (5%)	77

Source: All India Survey on Higher Education, 2011-12

As opposed to Karnataka being a favorite destination at the under graduate level, Maharashtra happens to be equally popular at the post-graduate level (Table 10).Karnataka gets 26% of the total enrolment in Master of Science and 27% of the foreign students enrolled in this subject are from Iran (Annex 18 and 22).

**Table 10: State-wise hightes contribution in enrolment in popular subjects at the post-graduate level, 2011-12**

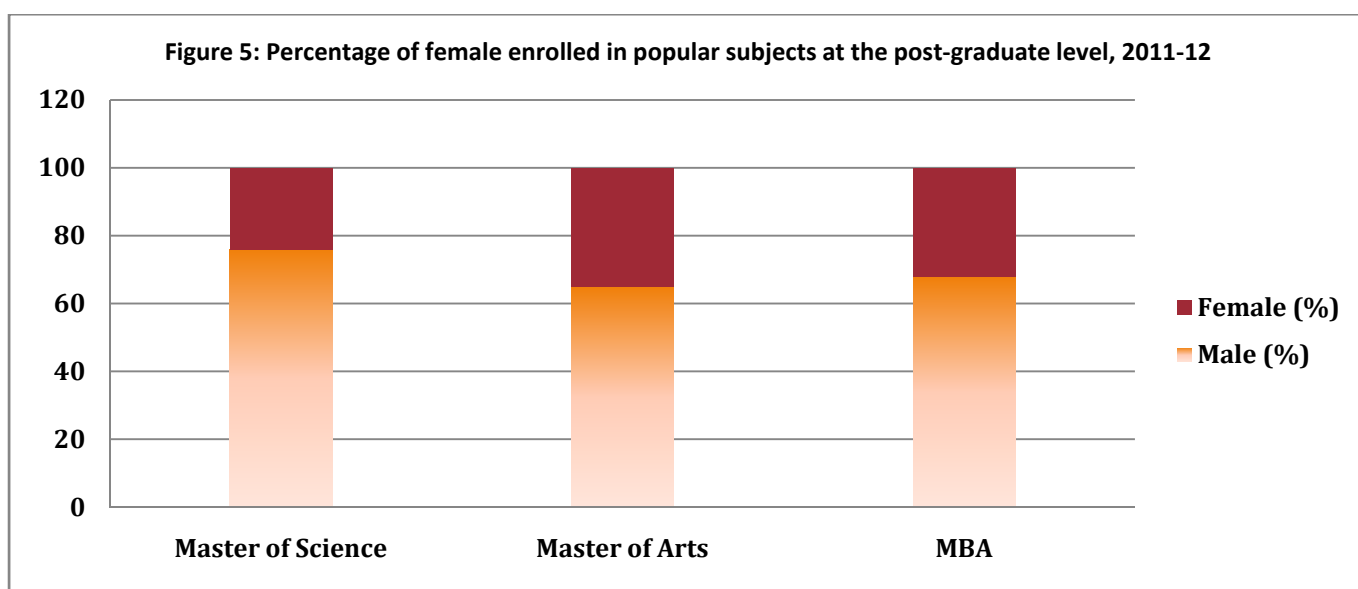

Major Subjects	Total number of foreign Students	The state/UT that has the highest enrolment	% of highest Enrolment of states/UTs mentioned in Column C	Highest contributing country (in%) in highest enrolled State/UT
A	B	C	D	E
Master of Science	1483	Karnataka	26%	Iran (27%)
Master of Arts	1424	Maharashtra	27%	Iraq (46%)
Master of Business Administration	1184	Maharashtra	31%	Nepal (26%)

Source: All India Survey on Higher Education, 2011-12

## SECTION 2.1: FEMALE ENROLMENT AMONG FOREIGN STUDENTS AT THE POST-GRADUATE LEVEL

Despite the improved access to higher education, proportionately less women move up the education ladder. A recent report on higher education in Asia points out that at the Bachelor's level the enrolment of women accounts for 47% and it declines to 37% at the doctoral level<sup>10</sup>.

In view of this pyramidal trend in female enrolment in higher education, this section examines the proportion of female in the most popular fields at the post-graduate level. Figure 5 shows that more men than women were enrolled in popular subjects at the post graduate level. Of the total foreign students enrolled from Afghanistan and Nepal, 12% and 42% were women respectively. Table 7 showed that there could be some relation between female enrolments from a given country in India with that in the home country.

Source: All India Survey on Higher Education, 2011-12

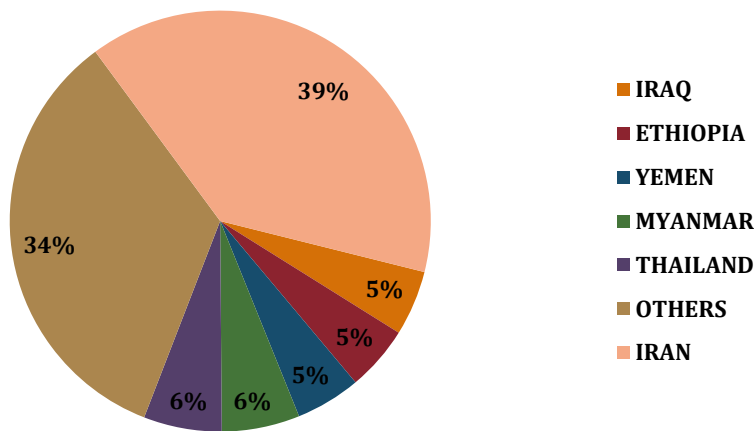

<sup>10</sup> Higher Education in Asia: Expanding Out, Expanding Up ( UNESCO, 2014)

### SECTION 3: FOREIGN STUDENTS AT DOCTORAL LEVEL

Many cross-country studies demonstrate a virtuous circle in which Research & Development (R&D) spending, innovation, productivity and national growth and development mutually reinforce each other<sup>11</sup>. The quantity and quality of research undertaken in a country could be a factor that contributes to higher enrolments at the Doctoral level. This section profiles the enrolment status of foreign students in India at the Doctoral level.

In 2011-12, India received 920 students for Ph.D. (Annex 19). In comparison to under-graduate and post-graduate foreign students, India still has few foreign students at the doctoral level and receives majority of students from Iran, Thailand, Myanmar, Yemen, Ethiopia and Iraq.

**Figure 6: Distribution of foreign enrolment at the doctoral level by country of origin, 2011-12**

Out of the 920 foreign students enrolled in Ph.D. programmes in 2011-12, 293 (32%) were women. The majority of foreign Ph.D. students were enrolled in Karnataka (25%), followed by Delhi (23%) (Annex 18 and 19). As mentioned earlier, Iran contributes the highest to the enrolment and out of the total, 361 students were from Iran of which 45% were women (Annex 18 and 19).

<sup>11</sup> Higher Education in Asia: Expanding Out, Expanding Up (UNESCO, 2014)

## CONCLUSION

---

The globalization of higher education has been a phenomenon since the colonial period<sup>12</sup>. Since education is regarded as a right at the elementary level, the later stages of learning need to prepare themselves for the increasing demand in the future. There are multiple reasons why focusing on enrolment of foreign students in India is important. First, foreign students not only bring financial contribution to the country but also bring their socio-cultural values. They help creating harmony between countries. The mobility of students is expected to grow in the coming years especially for South-Asian region.

The increasing number of foreign students in India indicates the quality of education that some universities are offering is better than the neighboring countries. “There are many reasons why students pursue their higher education abroad. For some, it is a chance to broaden cultural and intellectual horizons. Others go abroad to avoid frustrations of under-resourced universities. Many have no choice but to go abroad in order to pursue a particular field of education or type of academic programme” (UNESCO 2013: P 80)

In an era where academic mobility is gaining popularity among students from all regions, it is crucial for institutions to recognize and prepare themselves to attract talented and self-funded students. The level of attractiveness to mobile students depends largely on the quality of education that universities provide. It also depends on other external and internal factors, such as availability of decent facilities, possible job opportunities, language, security, socio-economic commonalities etc. Foreign students have bright employment prospects in China after graduation and many international graduates chose to work in China in recent years because of more job opportunities in China’s labor market (UNESCO 2013: P 20)

In view of the criticality of higher education, this paper presents a statistical profile of foreign students who come to India for their tertiary education. India emerged as a popular destination for students from South Asia. In particular, majority of the students were enrolled at the under-graduate level in disciplines from medicine, technology and arts. Female enrolment at the under-graduate level was predominately in healthcare related disciplines.

As we progress to higher levels of tertiary education, the enrolments drastically drop. At the post-graduate level Master of Science, Master of Arts and Master of Business Administration were the only subjects to get substantial foreign enrolments. The paper presents disaggregated information about the state with the highest enrolment and the country from which highest number of students were enrolled in a subject. Karnataka emerged as a popular destination for students at the under-graduate level and Maharashtra at the post-graduate level.

---

<sup>12</sup>Globalization of higher education and cross-border student mobility (UNESCO & IIEP, 2008)

It becomes utmost important to layout the limitations of the study, both in terms of data availability and scope. The study is based on All India Survey on Higher Education, 2010-11 and 2011-12. In the process of analysis it was realized that, in the coming years, it would be useful to include more information. For instance, number of foreign graduates, new entrants each year, sources of funding. The aspect of student satisfaction could also be included in the purview of All India Survey on Higher Education or conducting a separate survey. This could focus on the environment within and outside the university that makes enrolment of foreign students conducive.

India must now focus on tapping its potential for internationalization and bringing more students to the country. It could be useful to consider formulating a concrete policy that is dedicated to foreign students and focuses on making India a preferred destination among foreign students.
