Message from the Chairman

It is a pleasure to see the document – Higher Education All India & States Profile 2017-18 which gives statistical information on higher education in a easily understandable manner. The data is based on AISHE survey conducted by the Ministry of Human Resource Development. The design of the survey helps one to statistically ascertain, identify, quantify and acknowledge the strengths and challenges before both government sector policy makers and private sector stake-holders working in the sphere of higher education.

I congratulate the Secretary, UGC and my colleagues in UGC especially, Information & Statistics and Publication Bureau who worked tirelessly to conceptualize and design this document while ensuring that the presentation of the data is unique and user friendly.

I hope the academic fraternity will find it useful and enjoy reading it.

Prof D P Singh
Chairman, UGC

Foreword

It is a pleasure to present the Higher Education All India & States Profile 2017-18, giving a quick glance of the higher education scenario of the country, both for India as a whole and for all States before you. The report will have immense use for policy makers, academicians, researchers, teachers, students and other stakeholders dealing with higher education sector in the country.

The AISHE Survey along with this Higher Education Profile will prove to be a handy and a valuable document, as it would enable both central and state governments to gauge the social and human resource dividends brought in by their investments in higher education. The report will also facilitate the identification of thrust areas for the future and for formulation of higher education policies and plans.

I take this opportunity to congratulate Dr (Mrs) Pankaj Mittal, Additional Secretary, UGC and her team who have conceived this idea and have ensured the completion of this report in a timely manner.

This is our first attempt and I am sure, the future documents can be more elaborate and comprehensive. Your valuable advice and suggestions for further improvement are welcome.

Prof Rajnish Jain
Secretary, UGC

Preface

The Higher Education All India & States Profile 2017-18 presented before you is based on the data from All India Survey on Higher Education (AISHE) for the year 2017-2018. This provides information on various statistical aspects of higher education for the use of the policy makers, heads of the institutions and academicians of the country. The objective of this report is to place before our readers a comprehensive statistical data pertaining to higher education sector in a concise and precise manner for easy understanding and comprehension. While the first part of the report is dedicated to information at the national level, the subsequent chapters aim at placing state-level data at the fingertips of readers through pictorial and graphic depiction.

In this document, the reader will be able to have at a glance the data pertaining to higher education structure, demographical advantage, literacy rate, gross enrolment ratio, number of higher education institutions under various categories in the country, student enrolment – category-wise, level-wise and gender-wise, foreign students, pass-outs, hostels with intake capacity, number of teachers, teacher pupil ratio, density of universities and colleges, gender parity index, pupil teacher ratio etc. The beauty of the document is that in addition to the national figures pertaining to all the parameters listed above, the state profiles have also been prepared giving the readers the benefit of comparing various states on these parameters very easily.

I would like to thank my colleagues, Dr Diksha Rajput, Sh Subhash Chander and Sh Hitesh Manik who contributed immensely in bringing out this document in a short time.
I hope you will enjoy reading this document and will like to use it as a ready reckoner while making policy decisions.

Dr (Mrs) Pankaj Mittal
Additional Secretary, UGC
