TSCHE STATISTICAL BOOKLET 2018

**Telangana
State Council of Higher Education
Masab Tank, Hyderabad.**

FOREWORD

The State of Telangana emerged as 29th State in the Indian union as per the Andhra Pradesh Re-organisation Act, 2014 (No.6 of 2014) of Parliament which received the assent of the President of India on the first march 2014 and came into existence w.e.f. 02.06.2014.

The Telangana State Council of Higher Education (TSCHE), ever since its inception, is striving hard, to bring quality in higher education and to sustain the same in spite of several transitions triggered due to state bifurcation and globalization processes. The consistent endeavour of the council is to improve and expand higher education in all areas equitably, recognize and eliminate areas of disparities in access, and emphasize the relevance of higher education for national development.

The TSCHE Statistical Booklet would provide a database to analyze and understand the present status and to identify the grey areas in Higher Education field in Telangana State. The data of the booklet related to technical and professional education that would be contextualized for the removal of social and gender disparities and to serve the society to fulfil the three basic tenets of higher education the access, equity and excellence. The data enables to visualize the significant landmarks of development in higher education and the goals yet to be chased and the strategies that may be need to be evolved for their pursuit.

At present, the focus areas of TSCHE are:

- Thrust on Industry - academia collaboration.
- Improved funding to the Universities (2018-19).
- Filling up of Teaching vacancies.
- Accreditation and Sensitization NAAC workshops for improving quality in Higher Education.
- Introduction of student centric academic processes including Mentoring and guidance.
- Common Entrance Tests (CETs) have been conducted for the year 2018-19 successfully, admissions have been completed within the stipulated time and from this academic year all CETs examinations are to be held online.
- Constituted working committees on :
 1. Providing internships to students and industry interface activities
 2. Curriculum and other reforms
 3. Establishment of incubators in Universities
- Preparation of perspective Plan for Technical Education has been completed and T-2024 First Decade Document - Strategic plan is under progress.
- State level awards are being introduced to encourage the best innovators to the teachers in Higher Education.
- For upgradation of knowledge of teachers in Higher Education one week refresher courses are introduced.

I congratulate the Vice-Chairmen, Secretary, Officers and Staff members of the TSCHE, specially the Statistical Cell for their arduous task of accessing the data, collecting and compiling and computing the information on various aspects of Higher Education in the State to bring out TSCHE Statistical Booklet this year.

On this occasion, I convey my best wishes to all.

Date: .01.2019

1. UNIVERSITY SYSTEM OF EDUCATION :

The core point of Higher Education (HE) is a University system, wherein the Under Graduate (UG) and Post Graduate (PG) courses are offered for the award of Degrees. Knowledge on several subjects like arts, humanities, social sciences, law, sciences, technology, engineering etc are imparted through coursework. However, in recent years a few branches of knowledge have been the main focus for some of the universities; thereby specialized and technological universities have emerged. Affiliating character of several universities is responsible for offering UG courses through colleges located in its jurisdictional area. Designing courses and their combinations, syllabus formulation, conducting examination, awarding degrees and diplomas are the main tasks of a university system.

In addition, university oversees the performance of Higher Education and suggests the improvements to sustain quality according to the timely requirements. In India universities are categorized in to four types such as central, state, deemed and private. The **Central Universities (49)** are located in different states are established by the government of India, while the **State Universities (393)** are established by the State governments in their respective states. The **Deemed Universities (124)** and **Private Universities (325)** are established in private sector, the former under the overall supervision of the University Grants Commission (UGC) while the later under the location State purview.

The State of Telangana has been satisfactorily fulfilling the education in terms of access, equity and excellence, the three tenets of Higher Education. The central universities and institutions of the State are catering to the needs of the cosmopolitan populations and multiple branches of learning. The geographical distribution of HE institutions is based on the district as a unit in order to cater to the needs of urban, rural and tribal populations. In addition to the conventional courses and institutions, the health, language, culture, agriculture and gender issues are prioritized to establish universities and institutions.

However, distribution of universities and the details of which are presented in section-1 of the Universities.

2. GROSS ENROLMENT RATIO (GER) :

Since the country's human resource is distributed in varied developmental pockets like urban, semi-urban, rural and tribal areas with diversified geophysical regions the accessibility has been the priority of Higher Education (HE). To extend upward linkages to the successful students of 10+2, Higher Education has been taking much care of tertiary education.

The main concern of Higher Education today is Gross Enrolment Ratio (GER). The State-wise GERs show a wide range from 5.2% in Daman & Diu to 56.4% in Chandigarh in all categories. Thereby massification of HE is contemplated with GER targets to strike balance among States. Consequently tertiary education institutions are established. The average enrolments data against the population and institutions across the States show phenomenal variation.

The State of Telangana stands in GER at 6th place in SC/ ST Categories and 9th Place in All Categories in the Country. The Higher Education Department and TSCHE are exercising to propose targets to achieve excellence. The RUSA in this regard is considered as one of the paths to bring in equity in Higher Education.

The State of Telangana adopted Common Entrance Test (CET) to bring in quality in Higher Education. These CETs are conducted both at the entry of UG and PG courses to ensure quality on one hand and extending choice of choosing the institution on the other.

3. COLLEGES / INSTITUTIONS : AND

4. DISTRIBUTION OF COLLEGES AND INTAKE :

The UG courses offering colleges in Telangana State are categorized in to three groups. The first one is the Government Degree Colleges (GDCs), which are under the control of Commissioner of Collegiate Education (CCE) for funding and supervision to sustain quality, the second one is in the fold of private sector but partly funded by the Government which are called Private Aided Colleges (PACs), while the last category is totally under the private management. The course curriculum and conduct of examinations and award of the Degrees are under the overall supervision and guidance of respective affiliating Universities. A few of these colleges are also offering PG courses. The colleges in private sector are more than the GDCs and Aided Colleges put together.

Consequent to the globalization and expansion of education there has been paradigm shift in education structure. Technology boom in terms of computers and scientific analytical gadgets had led to specialized and applied courses in basic science subjects and in enhancing skills in engineering branches of knowledge. The commerce and management courses on one hand and pharmaceutical sciences on the other have shown rapid change in content and pedagogy. The teacher education system together with legal education has accelerated to meet the contemporary HE requirements of equity and access.

The masters' courses in computers (MCA), management (MBA), Engineering (M.Tech), Pharmaceutical sciences (M.Pharm), and Law (LL.M) have boosted up in recent years. The sports education is also gaining a momentum in HE. The data pertaining to these parameters are presented in different tabular forms. The data are further indicating a negative trend in some courses either in terms of number of colleges/institutions or intake.

The District wise distribution of no. of colleges, types of colleges and their intake in varied courses over of period time provides the vivid picture of higher education in Telangana State.

5. COURSES OFFERED IN TELANGANA STATE

The duration of UG courses offered in Telangana State varies from 2-years (B.Ed.), 3-years (BA; B.Sc.; B.Com.), 4-years (B.E.; B.Tech.; Agr.B.Sc.; B.Pharm.), 5-years (LLB; B.V.Sc.), 5.5-years (MBBS) to 6-years (Pharma-D). Branch-wise courses are offered in PG, and their duration vary from 2-years (MA; M.Sc.; M.Com.; ME; M.Tech., MBA; LLM), 3-years (MCA) to 3.5 years (MS; MD). Establishment of colleges, sanction of courses, their combinations, subject branches is one of the tasks of TSCHE, and is being done through inspections and educational requirements. The statistical data related to various courses and branches of knowledge across the State shows that Telangana is in a growing position. The gender-wise and social community-wise data are also indicates the similar status.

The education administration and academic designations show variations between university and college systems of education. The Telangana State personnel catering to the needs of education against all India data shows somewhat discouraging as there has been no periodic recruitment to meet retires positions and increased courses need. It is well established that the periodic recruitment maintains quality in teaching-learning process, thereby the gap in the recruitment contributed to the deterioration in quality education.

6. ALL INDIA SURVEY ON HIGHER EDUCATION (AISHE)

The Ministry of Human Resource Development (MHRD) has initiated an All India Survey on Higher Education (AISHE) in 2011 to prepare a sound data base on a large and diverse system of Higher Education covering Higher Educational Institutions in the country. The rich data -base built from the data collected online under AISHE is used in making informed policy decisions and research for development of education sector at District/State & All India level.

In this context, the MHRD has devised the Data Capture Formats (DCF) and uploaded the same on AISHE portal i.e., (www.aishe.gov.in) for this purpose. The details of the DCF forms are mentioned below:

DCF – I: University & University level Institutions

DCF – II: All Affiliated Colleges

DCF – III: Standalone Institutions (Non-Affiliated Colleges)

The uploading of data base every year in AISHE portal is mandatory for accreditation, to enroll in national scholarship portal and sanction of RUSA funds for the institutions/ universities.

(NOTE: AISHE data base presented pertains to responding institutions as per MHRD report 2017-18)

7. Quality Assurance & Accreditation:

The exponential growth of education has led to some quality deterioration. In order to strike a balance between massification of education and quality the Assessment and Accreditation councils came into existence and they have been issuing quality certification. Linking certification to the public funding has resulted in maintaining some quality in institutions. The National Assessment and Accreditation Council (NAAC) accredited Colleges across the States show varied picture from as low as Zero (0) colleges in Meghalaya and A&N Islands to 587 colleges in Maharashtra, while the Telangana stands with 104 colleges in the Country. The colleges data is showing considerable variation among States. The reasons could be assigned to both the takers and the assessing authority. However, on the introspecting performance of quality is picking up in Higher Education Institutions, is a good trend.

TSCHE is encouraging the affiliating state universities to create adequate awareness among the colleges by organising NAAC awareness workshop wherever needed by utilizing National Quality Renaissance Initiative (NQRI) funding programme of NAAC, Bangalore.

As per NAAC portal the Telangana State has 7 Universities and 104 Colleges under NAAC accreditation as on 27.11.2017.

University, College, Institution and Branch/Department-wise assessment and accreditation has become the order of the day, and the HE institutions performance is considered to identify Potential for Excellence and for funding. Among 15 such Universities of Potential of Excellence the Telangana State bagged (2), one each in Central and State Universities categories.

8. EXAMINATION AND RESULTS

Different patterns of examination systems like semester, annual are in practice. The conduct of examinations is the domain of universities with an exception to autonomous colleges. The evaluation of student performance is through manual, online and assignments. In a few courses it is through a viva-voce examination. The performance is award either by numerical marks or grade system on different scales.

The data on different courses conducted by different universities of the State provides a vivid picture with regard to courses offered in government, aided and private colleges. The data can be contextualized to assess the course, district and university-wise performance to identify the grey areas to intervene in improvement initiatives.

9. FEE STRUCTURE & GRANTS

Colleges affiliated to university system of education come under three different categories. Among them the private sector is having major share in its size and the colleges are located in varied

development areas. The fee regulations have become herculean task. To overcome these disparities Telangana Admissions Fee Regulation Committee (TAFRC) have been constituted to stipulate the fee structure considering the feasibility of a college in terms of infrastructure, faculty and other related parameters. Admission into professional courses is through a process of Common Entrance Test (CET) and three categories of entries. In addition, a few courses both in UG and PG programmes are offered on Self-Supporting mode, wherein student is expected to pay full fee. The details of which are presented in this TSCHE Statistical Booklet.

ACKNOWLEDGMENT

The TSCHE Statistical Booklet gives a comprehensive picture of the Higher Education scenario in the State of Telangana. It traces the growth of universities and colleges and projects the data from the comparative angle. A careful and informed analysis of this data will surely give the public clues regarding, how the objectives have been met and where the short comings lay, so that remedial measures can be arrived at.

The Statistical Cell of TSCHE, express its deep gratitude to the Chairman, Vice-Chairman-I & Vice-Chairman-II for their encouragement in bringing out this Statistical booklet. Our special thanks to the Secretary, TSCHE for his unstinted support at every stage in bringing out this publication.

The Statistical cell, TSCHE sincerely acknowledges the contributions and the support provided by the Officers, Staff and the Departments of School Education, Intermediate Education, Collegiate Education, Technical Education and the Universities in the State of Telangana in bringing out the TSCHE Statistical Booklet in a formal format.

I specially thank the Officers and the Staff of TSCHE for sharing their database. We deeply owe our thanks to the Officers and the Staff of all the cadres in the TSCHE for their contribution to this endeavour.

The Statistical Cell solicit the suggestions, comments, corrections, modifications if any from all concerned for the improvement and preparation of more comprehensive booklet year by year. The important updated data of it will also be displayed on the TSCHE web portal (tsche.ac.in) periodically.
