Foreword

India is a young nation with around 28 per cent of the population in the 0-14 age-group. To ensure that this young population proves to be our future demographic dividend, it is of utmost importance that they are provided quality education. Educational statistics forms the basis for analysing the outcomes of various policy initiatives of the Government towards providing accessible, affordable and quality education to the citizens. It provides the necessary input for evidence-based policy making.

The publication titled 'Educational Statistics at a Glance' is the collective effort of the institutions under the Ministry of HRD in bringing together education related data covering areas such as educational attainment, financial and human resources invested in education, progress achieved under different schemes implemented by the Ministry and output of educational institutions. It would serve as the one stop solution on information relating to the education sector.

I would like to express my gratitude to the Officers of the Statistics Division of the Ministry in bringing out this publication and hope that this publication will prove useful to the planners, policy makers, researchers, educationists, academicians and students including the general public.

Preface

Importance of having a comprehensive database needs no emphasis. With this in view, the Department of School Education & Literacy has been bringing out Educational Statistics at a Glance.

In this current year's publication, more than 50 data sets have been collated in tabular form covering the broad field from primary to higher education. In addition to updating the data provided in previous publication, this edition contains new information on No. of Schools and Enrolment- management and level-wise, Surplus Teachers at schools with zero enrolment followed by a Demand and Supply Analysis of Teachers, Time gap in receipt of Text books at elementary schools - rural vis-a-vis urban, Financial and Physical progress of different schemes implemented by the Ministry and extracts from Education in India (NSS 71st Round, 2014). I wish to place on record my sincere appreciation for the good work done by the team of officers of the Statistics Division of the Ministry of Human Resource Development in bringing out this report. Suggestions for improvement of the publication in content and quality will be highly appreciated and duly acknowledged.

| Part VII - Appendix | | |
| 1 | Table - I | 107 |
| 2 | Table -II | 108 |

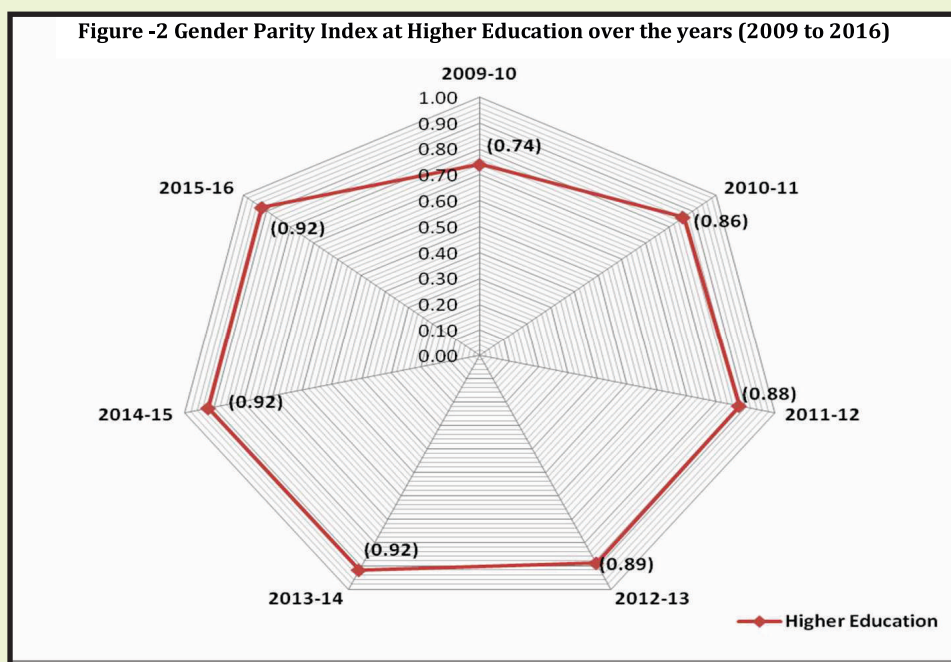

Being a publicly provided private good, Education needs a greater focus on Accessibility, Equity and Quality. Thrust on providing primary education has yielded results across the social categories and gender with the **Gross Enrolment Rate (GER)** exceeding 100. Over the years, remarkable progress is noticed in respect of female participation upto the secondary level and GER for girls has exceeded that of boys [Table 29]. Such progress in girls’ participation in elementary and secondary education is mainly attributed to Government programme like setting up residential schools where female literacy rates are low, providing physical and financial incentives to the girls¹. But girls’ enrolment is lower than that of boys at the higher level of education. Girls’ enrolment rate stands only 23.5% against 25.4% for boys in higher education during 2015-16. At this level, the gap is visible across the social categories too [Table-13, Fig.1].

(Based on the Table - 13)

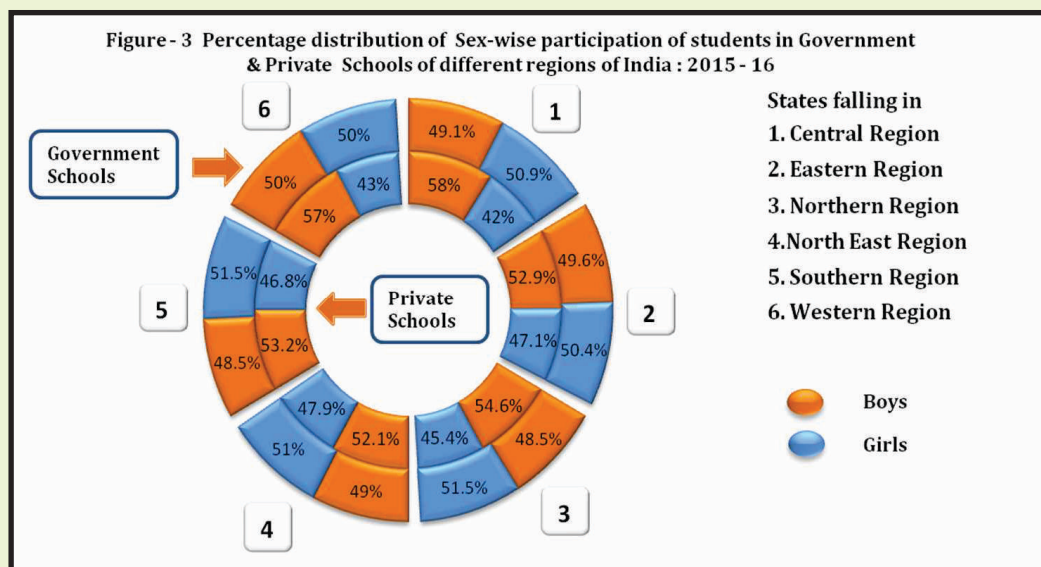

1. Details of scheme introduced by the State/UTs may be seen in the Publication ‘Selected Information on School Education: 2015-16’ brought out by this Office.

The estimated values of **Gender Parity Index (GPI – based on GER)** in Table 31A, indicate the increasing trend of female participation at all levels. At the elementary level, it increased from .98 to 1.05 since 2009-10 to 2015-16. Similar pattern may be seen at Secondary and higher level [Fig.2] as well. Nevertheless GPI (based on GER) seems to be favourable to girls, the equation does not hold true when the Index is calculated on the basis of school management. In most of the Indian States, Girls’ enrolment is higher than that of boys in Government schools but the pattern gets reversed in Private schools [Table 43]; thus **Parents seem to have a preference for Private schools to educate their sons which reflects a broader sort of inequality.**

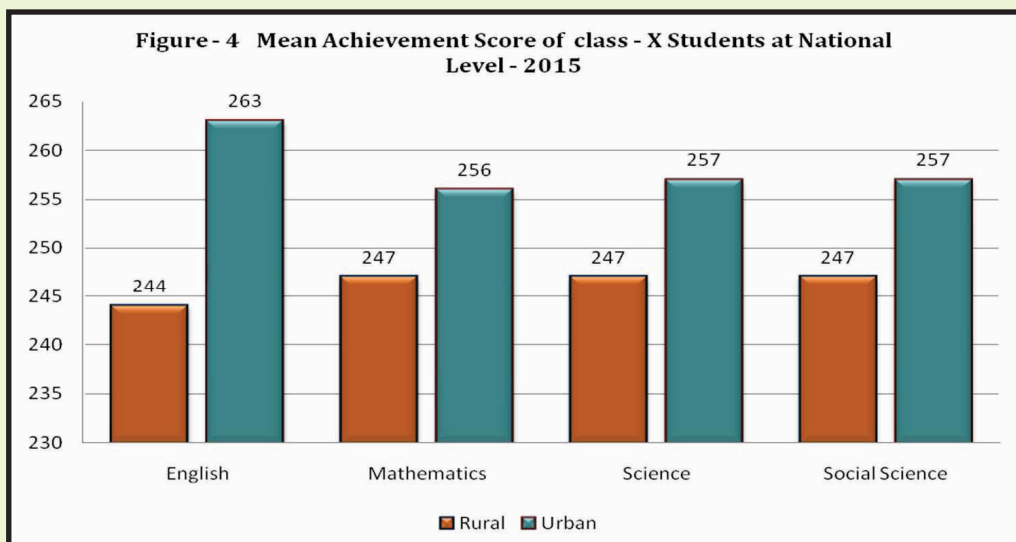

(Based on the Table - 31A)

During 2015-16, the participation ratio of boys to girls in Private schools remained highest in the Central region and lowest in the North East region of India [Fig.3].

(Based on the Table - 43)

Result of National Achievement Survey (NAS-2015) reveals that in subjects like English, Mathematics, Science and Social Science, urban students outperform their rural counter parts (Table 21). One of the reasons could be accessibility of nearest schools to the households specifically at the Secondary level. As per the National Sample Survey Report (71st Round), more than 12% of rural households in India did not have any secondary schools within 5 kilometres whereas in urban areas such cases are less than 1%. [Table 22]. Thus inequity often amplifies the gap in quality and hence productivity. To reduce the gap, Government programme like providing transport facilities at concessional rate for students, distribution of bi-cycles, introducing online courses are being implemented effectively in the State/UTs. Interestingly, **in most of the State/UTs rural students are receiving text books in same time lag as their urban counter parts at the Elementary level** [Table-50].

(Based on Table – 21)

Government Elementary schools have a shortfall of 9.08 lakh **teachers** against a sanctioned strength of 51.8 lakh posts (as on 31.03.2016) [Table 56]. The percentage of total vacancies was highest in the State of Jharkhand. The Right of Children to Free and Compulsory Education Act, 2009 (RTE Act, 2009) mandates that vacancy of teacher in a school should not exceed 10% of its total sanctioned strength. Thus to fulfil the norms of the RTE Act, estimates suggest that during 2015-16, at least 4 lakh teachers were needed at elementary level. **Considering the high number of pass-out in D.Ed./B.Ed programme and the number of surplus teachers in zero enrolment schools[Table A below], it appears that the shortfall could be mitigated by devising quicker ways of recruiting teachers and by transferring surplus teachers.**

Table A: Available manpower for teaching job -pass out in D. EL. Ed. / B. Ed. and no. of surplus teachers during 2015-16

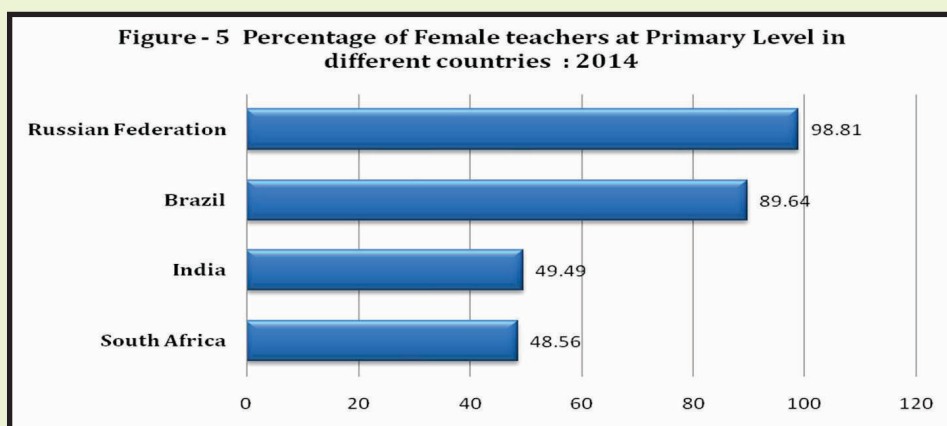

| No. of candidates/ Year: 2015-16 | Male | Female | Total |
|--|--------|--------|----------------------|
| D. Ed. or equivalent pass out* | 37289 | 46502 | 83791 |
| B. Ed pass-out* | 189795 | 338354 | 528149 |
| Teachers in schools with zero enrolment** | - | - | 24921 |
| Total availability of school teachers | - | - | 6,36,861 |
| Demand for teachers at elementary level | | | 4,00,000 (approx) |

*Source: Dept. Of Higher Education, MHRD

**Source: Unit level U-DISE² data: 2015-16(corresponding figure includes teachers in zero enrolment Primary/Upper Primary/Elementary schools)

It is a known fact that **dropout of students** have a huge financial ramification which affects labour market, economic performance and social progress of a country. Comparing the student’s average annual dropout rate at different stages during the year 2014-15, it is observed that the rate attains its lowest value at the Upper Primary level which is only 4% but shoots above 17% at Secondary level [Table 16]. As per NSSO Report (71st round), it is not only financial constraints and engagement of children in domestic/economic activities but lack of interest in education contributes to high dropout [Table I in Appendix]. Thus ensuring adequate availability of educational facilities is necessary but not sufficient for survival of students and reduction of dropout. An analysis of unit level U-DISE data reveals **that most of the schools are not providing educational and vocational counselling to their students** [Table II in Appendix]. **This could be one of the reasons for high drop out at Secondary level.**

Moreover, studies have pointed out that non-availability of female teachers is one of the major reasons for drop out of children³. Though more women (63%) are qualifying every year to enter the teaching profession [Table A above], number of female teachers per hundred male teachers is a little above 100 in Primary schools but only 72 in Secondary schools during 2015-16 [Table 33]. Among the BRICS countries, the percentage of female teachers at Primary level is more than 85% in Russian Federation and Brazil (Fig.5). Thus it appears that **appointing more women in teaching profession may make Indian education system globally competitive⁴**.

(Based on Table – 61)

How Government mobilize and distribute investment in education has a crucial bearing on the efficiency of its school system. Though the country's expenditure on education as percent of GDP has gone up from 3.87% (RE) in 2013-14 to 4.04% (BE) in 2014-15 [Table 24 B nd C], the spending pattern of few States are not at the same pace under different schemes in subsequent years [Table-55]. Lower spending could have an impact on the allocation of funds to the States in the next budget. However, **Education may not become expensive under Goods & Service Tax (GST) regime as schooling upto Higher Secondary and most of the services provided to educational institutions are exempt from taxation.**

3. Study conducted by Indian Institute of Education in rural Maharashtra (2006).

4. Years of schooling is one of the components of Human Development Index (HDI).

Gross Enrolment Rate (GER): Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school-year. School-age Population: Population of the age group which officially corresponds to the relevant level of education.

Table 13: Gross Enrolment Rate (GER): 2015-16

Data Source: Same as Table 6

The **Gender Parity Index** based on **Gross Enrolment Rate (GPI- based on GER)**, is the ratio of Gross Enrolment Rate of female students enrolled at Primary, Secondary and Tertiary levels of education to the corresponding ratio of male students at that level. Thus GPI-based on GER is free from the effects of the population structure of the appropriate age group which provides picture of gender equality in education.

Table-15: Gender Parity Index based on GER (GPI): 2015-16

| Level | All | SC | ST |
|---------------------------|------|------|------|
| Primary (I-V) | 1.03 | 1.03 | 0.98 |

PART – VI

WORLD SCENARIO

Table- 59: International Comparison on GER & Public Expenditure on Education as % of GDP-2015

| Countries | Gross Enrolment Rate - 2015 | | | | Public Expenditure on Education as percent of GDP |
|--------------|-----------------------------|---------------------------|--------------------------|--------------------|---|
| | Primary (I-V) | Lower Secondary (VI-VIII) | Upper Secondary (IX-XII) | Tertiary | |
| India | 99.2 | 92.8 | 68.1 | 24.5 | 4.13 ⁻² |
| Bangladesh | 120.4 | 83.4 | 48.4 | 13.4 ⁻¹ | 1.95 ⁻² |
| Nepal | 135.4 | 90.4 | 49.7 | 14.9 | 3.71 |
| Pakistan | 92.7 | 56.6 | 35.4 | 9.9 | 2.64 |
| Sri Lanka | 101.7 | 98.5 | 99.1 ⁻² | 19.8 | 2.17 |
| China | 104.1 | 99.1 | 89.7 | 43.4 | NA |
| Germany | 105.0 | 101.5 | 104.8 | 68.3 | 4.95 ⁻¹ |
| Russia | 100.5 | 101.0 | 113.6 | 80.4 | 3.86 ⁻³ |
| South Africa | 99.7 ⁻¹ | 97.1 ⁻³ | 88.5 ⁻³ | 19.4 ⁻² | 6.02 ⁻¹ |
| UK | 108.7 | 112.7 ⁻¹ | 138.2 ⁻¹ | 56.5 ⁻¹ | 5.68 |
| USA | 100.2 | 102.1 | 93.3 ⁻¹ | 85.8 | 5.38 ⁻¹ |

Table- 60: International Comparison on PTR & Mobility -2015

| Countries | Pupil Teacher Ratio | | | Students mobility in Tertiary Education | | |
|--------------|---------------------|---------------------------|--------------------------|---|-----------------------|-------------------------|
| | Primary (I-V) | Lower Secondary (VI-VIII) | Upper Secondary (IX-XII) | Tertiary | Inbound Mobility Rate | Outbound Mobility Ratio |
| Bangladesh | 36.1 | 36.9 ⁻² | 33.2 ⁻² | 22.9 ⁻¹ | 0.1 ⁻⁶ | 1.4 ⁻¹ |
| Brazil | 20.9 ⁻¹ | 17.8 ⁻¹ | 15.4 ⁻¹ | 18.9 ⁻¹ | 0.2 | 0.5 ⁻¹ |
| China | 16.3 | 12.5 | 15.6 | 19.5 ⁻⁴ | 0.3 | 1.8 |
| Germany | 12.2 | 11.0 | 14.7 | 7.5 | 7.7 | 3.9 |
| India | 23 | 17 | NA | 24 | 0.13 | 0.7 |
| Nepal | 23.1 | 35.1 | 22.8 | 60.0 ⁻² | 0.03 ⁻⁴ | 8.8 |
| Pakistan | 46.3 | 17.3 | 28.8 | 17.6 | NA | 2.5 |
| Russia | 19.8 ⁻¹ | NA | NA | 11.0 ⁻² | 3.4 | 0.9 ⁻¹ |
| South Africa | 33.6 ⁻¹ | NA | NA | NA | 4.2 ⁻¹ | 0.7 ⁻¹ |
| Sri Lanka | 23.2 | 17.3 | 18.2 ⁻³ | 45.2 ⁻⁴ | 0.3 | 5.8 |
| UK | 17.4 ⁻¹ | 15.3 ⁻¹ | 16.2 ⁻¹ | 15.5 ⁻¹ | 18.2 ⁻¹ | 1.3 ⁻¹ |
| USA | 15 ⁻¹ | 14.8 ⁻¹ | 14.8 ⁻¹ | 12.5 ⁻¹ | 4.6 | 0.3 |

PART – VII

APPENDIX

Appendix

Table I:

| Sl. No. | Major reasons for drop-out | Percentage | |
|---------|---------------------------------|------------|--------|
| | | Male | Female |
| 1 | Child not interested in studies | 23.80% | 15.60% |
| 2 | Financial Constraints | 23.70% | 15.20% |
| 3 | Engage in Domestic Activities | 4.80% | 29.70% |
| 4 | Engage in Economic Activities | 31.00% | 4.90% |
| 5 | School is far off | 0.5%, | 3.40% |
| 6 | Unable to cop-up with studies | 5.4%, | 4.60% |
| 7 | Completed desired level/ Class | 5.70% | 6.50% |
| 8 | Marriage | | 13.90% |
| 9 | Other reasons* | 5.1%, | 6.20% |

Source: National Sample Survey Office

*: Timings of educational Institution not suitable, language/medium of Instruction used unfamiliar, Inadequate number of teachers, quality of teachers not satisfactory, unfriendly atmosphere at school, preparation for competitive examination and others. For Girls student's drop-out additional reasons are non-availability of female teachers, non-availability of girl's toilet.

Table II:

| Sl. No. | State/UT | Total Secondary Schools | Schools offering pre vocational courses at secondary Level | Schools provide educational and vocational counseling to students | Providing Both vocational courses and counseling to students |
