3rd Floor, Jeevan Vihar Building
Sansad Marg, New Delhi
Dated the 26th February, 2018

To

The Chief Secretaries of all States/ UTs

**Subject**: Administrative Guildelines for implementation of National Nutrition Mission- reg.

This is in continuation to the leter of even number dated 18th December, 2017 whereby the Administrative Approval for setting up of National Nutrition Mission was forwarded to the States/ UTs.

2. In this context please find enclosed herewith the Administrative Guildelines for implementation of National Nutrition Mission for information and necessary action.
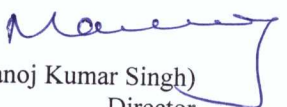

(Manoj Kumar Singh)
Director
Ph: 23386553

Copy to:

1. CEO, NITI Aayog
2. Secretary, Ministry of Health & Family Welfare,
3. Secretary, Drinking Water & Sanitation,
4. Secretary, Department of Food & Public Distribution,
5. Secretary, Rural Development;
6. Secretary, Panchayati Raj,
7. Secretary, Urban Development,
8. Secretary, Department of Expenditure,
9. Secretary, Department of Economic Affairs,
10. Secretary, Ministry of Housing and Urban Affairs,
11. Secretary, Ministry of Tribal Affairs,
12. Secretary, Ministry of New and Renewable Energy,
13. Secretary, Ministry of Minority Affairs,
14. Secretary, Department of Social Justice & Empowerment,
15. Secretary, Department of School Education and Literacy,
16. Secretary, Ministry of Electronics and Information Technology.
17-52 Principal Secretaries/ Secretaries, Department of Social Welfare / Women & Child Development, All States/ UTs of India

Copy for information to:
1) PS to Minister, WCD
2) PS to MoS, WCD
3) PPS to secretary, MWCD
4) PS to JS(RK)
5) PS to Project Director, WB

# Chapter 1:  Introduction

1.1      The strategy for addressing the malaise of under-nutrition is to adopt a life cycle approach.  Since, in India there is an inter-generational cycle of under-nutrition, the life cycle approach not only needs to be adopted but also strengthened with continuum of care and a focus on critical periods of nutritional vulnerability. Also, the strategy has to be critically monitored on real time basis to ensure targeted and timely interventions. The focus therefore, will be to lay emphasis on adolescent girls, pregnant women, lactating mothers and children from 0 to 6 years of age. The first 1000 days of a child are the most critical, which includes the nine months of pregnancy, six months of exclusive breastfeeding and the period from 6 months to 2 years to ensure focused interventions on addressing under-nutrition.  Besides increasing the birth weight, timely intervention will help reduce both Infant Mortality Rate (IMR) and Maternal Mortality Rate (MMR).  Additional one year of sustained intervention (till the age of 3 years) would ensure that the gains of the first 1000 days are consolidated. Attention is also needed on children in the age group of 3-6 years for their overall development through the platform of the Aanganwadi Centers (AWCs).

1.2      The Mission is to ensure convergence of all nutrition related schemes of MWCD on the target population. NNM will ensure convergence of various programmes i.e. Anganwadi Services, Pradhan Mantri Matru Vandana Yojana, Scheme for Adolescent Girls of MWCD; Janani Suraksha Yojana (JSY), National Health Mission (NHM) of MoH&FW; Swachh Bharat Mission of Ministry of Drinking Water & Sanitation (DW&S); Public Distribution System (PDS) of Ministry of Consumer Affairs, Food & Public Distribution (CAF&PD); Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) of Ministry of Rural Development (MoRD); Drinking Water & Toilets with Ministry of Panchayati Raj and Urban Local Bodies through Ministry of Urban Development.  This will be done by setting achievable targets, sector level meetings with concerned Secretaries, joint meeting of Secretaries of line Ministries under the Chairmanship of Cabinet Secretary, joint guidelines for each level, joint monitoring visits and decentralized planning.

1.3      The Mission targets reduction in the level of under-nutrition and other related problems by ensuring convergence of various nutrition related schemes. The Mission will monitor and review implementation of all such schemes.  In this endeavour, the Mission seeks to utilize existing structural arrangements of line Ministries wherever available.  The NNM would primarily be a monitoring and reviewing body for taking stock of monitorable indicators of nutrition centric schemes/programmes requiring convergent actions for better and effective delivery to the targeted beneficiaries.  In doing so, it would not impinge on the operational authority of any of the participating Ministry/Department or Autonomous body.

1.4     **Administrative Approval**:    The Administrative Guidelines for NNM have been formulated in conjunction with the Administrative Approval issued vide Ministry of Women and Child Development Letter No. NNM/7/2017-WBP dated 18th December 2017 attached at **Annexure I**.

********

# Chapter 2:  Goals and Functions of NNM

## 2.1    Mission Goals

2.1.1    The goals of NNM are to achieve improvement in nutritional status of Children from 0-6 years, Adolescent Girls, Pregnant Women and Lactating Mothers in a time bound manner during the next three years beginning 2017-18 with fixed targets as under:

| SI.No | Objective | Target |
|---|---|---|
| 1. | Prevent and reduce Stunting in children (0- 6 years) | By 6% @ 2% p.a. |
| 2. | Prevent and reduce under-nutrition (underweight prevalence) in children (0-6 years) | By 6% @ 2% p.a. |
| 3. | Reduce the prevalence of anemia among young Children(6-59 months) | By 9% @ 3% p.a. |
| 4. | Reduce the prevalence of anemia among Women and Adolescent Girls in the age group of 15-49 years. | By 9% @ 3% p.a. |
| 5. | Reduce Low Birth Weight (LBW). | By 6% @ 2% p.a. |

2.1.2    The Mission aims to reduce mal-nourishment from the Country in a phased manner, through the life cycle concept, by adopting a synergised and result oriented approach. The Mission will ensure mechanisms for timely service delivery and a robust monitoring as well as intervention infrastructure. Target of Mission is to bring down stunting of the children in the age group of 0-6 years from 38.4% to 25% by the year 2022.

## 2.2    Mission Functions

2.2.1    The Mission will address mal-nourishment  through the life cycle concept, by adopting a synergised and result oriented approach. The Mission will ensure mechanisms for timely service delivery and a robust monitoring as well as intervention infrastructure. The Mission's functions are elaborated at **Annexure II**.

********

National Nutrition Mission: Administrative Guidelines

# Chapter 3: Programme

## 3.1    Roll Out

3.1.1    The programme will be rolled out in all districts across the Country in a phased manner in three years. The details are as below.

| Year | States/districts to be covered. |
|---|---|
| 2017-18 | 315common districts identified in the descending order of prevalence of stunting from amongst 201 districts identified by NITI Aayog on the basis of National Family Health Survey-4 data, 162 districts covered under the ICDS Systems Strengthening & Nutrition Improvement Programme (ISSNIP) and 106 districts of Scheme for Adolescent Girls. Details are given at **Annexure-III**. |
| 2018-19 | 235 districts based on the status of under-nutrition in various States/UTs to be identified generally based on prevalence of stunting. |
| 2019-20 | Remaining districts of all 36 States/UTs. |

3.1.2    In case of change of District/Block boundaries, the State/UT shall submit the change along with the details of mother district/block and newly created districts/blocks notifications issued in this regard for necessary approval by MWCD.

## 3.2    Monitoring of Schemes under NNM

3.2.1    NNM will ensure convergence of all nutrition related schemes on the target population. To create synergy, it will also monitor activities of health and other nutrition impacting schemes from the habitation level upwards, being implemented by different Ministries and Departments. NITI Aayog will conduct monitoring and evaluation of NNM periodically through their 'Technical Support Unit' to assess the progress and impact of the programme. Details of the related schemes and package of interventions available for the first 1000 days of child birth and pre and post-delivery support to mothers provided by different Departments/Ministries which shall converge for monitoring purposes under NNM are at **Annexure-IV**. Convergence will not be limited to schemes mentioned at Annexure IV and may be reviewed to include other schemes based on the progress, feedback and experience.

### National Level

## 3.3    Council on India's Nutritional Challenges

3.3.1    A National Council has been established vide Government of India Letter No. NNM/2/2017-WBP dated 3$^{rd}$ January, 2018 (letter attached at **Annexure-V**) with the following mandate: -

(a)    Provide policy directions to address India's nutritional challenges through coordinated inter-sectoral action.

(b)    Coordinate and review convergence between Ministries.

(c)    Review programmes for nutrition on a quarterly basis.

3.3.2    The Council shall submit its report to the Prime Minister every 6 months.

## 3.4    Executive Committee of NNM at National Level

3.4.1    An Executive Committee under the Chairpersonship of Secretary, MWCD has been established vide Government of India Letter No. NNM/50/2017-WBP dated 3$^{rd}$ January, 2018, attached at **Annexure VI**. The Executive Committee will be responsible for the Functions of NNM as given at Annexure II. The Executive Committee will report to the National Council on India's Nutrition Challenges and will be the Apex body for nutrition related activities (for Children below six years age, Adolescent Girls and Pregnant Women and Lactating Mothers)providing direction, policy and guidance for implementation of various programmes/schemes under the NNM. The Executive Committee shall meet every three months.

### State Level

## 3.5    Convergence Action Plan (CAP)

3.5.1    Ministries/Departments at the Centre and States/UTs deal with varied interventions required for reduction of malnutrition in a stand-alone manner. State/UT being the highest implementing agency for all such schemes, it is pertinent to achieve synergy of all interventions to effectively target malnutrition. It is aimed to initiate Convergent Action Plans at State, District & Block levels and through VHSND at Village Level, to achieve synergy and desired results.

3.5.2    **Components for Convergence:** For smooth implementation, the Convergence Action Plan will follow the NNM rollout plan given at paragraph 3.1.1 above. Convergence is

required within various services provided at different growth stages of pregnancy and early child life including the crucial intervention packages available for the first 1000 days of child birth and pre and post-delivery support to mothers provided by different Departments/Ministries (like PMMVY, ANC, PNC, Home Visits of ASHA/AWW, Vaccination etc.). The components for convergence at different growth stages and inclusion in the CAP at State/UT, District and Block Level are given at **Annexure VII**.

3.5.3 **Implementation:** The CAPs at State/UT, District and Block level to be constituted **with immediate effect**. After the CAP has been finalised at the State/UT level, the following actions need to be taken by the States/UTs:-

(a) State/UT to convey timely approvals – administrative and financial to the concerned Departments.

(b) Line departments to draw action plan covering implementation, monitoring and interventions for the Mission.

(c) Concerned department to place the funds for implementation of the project at the disposal of the districts concerned, wherever feasible.

3.5.4 **State Convergence Plan (SCP):** State/UT Convergence Plan will be prepared through a Committee chaired by Senior most Principal Secretary of the line departments, to be nominated by Chief Secretary. The State/UT Convergence Plan will form part of the Annual Programme Implementation Plan of the State/UT under Anganwadi Services of Umbrella ICDS Scheme which shall be put up to State EPC, as prescribed for approval. It should be finalized by end of January for the consequent year and submitted to MWCD for consideration. For 2018-19 action maybe initiated immediately and the plan be submitted at the earliest. The role and structure of SCP is given at **Annexure VIII**.

3.5.5 **District Convergence Plan (DCP):** The District Convergence Plan will be prepared and implemented through a Committee chaired by DM/DC/Collector. It should be finalized by 31st of December for the consequent year. It will have a sub-component in the form of a Block Convergence Plan (BCP), all the BCPs in a district shall converge into DCP. The DCP will be approved by the DC/DM. The role and structure of DCP is given at **Annexure IX**.

3.5.6 **Block Convergence Plan (BCP):**The Block Convergence Plan will be prepared and implemented through a Committee chaired by Sub Divisional Magistrate (SDM). It will incorporate inputs from Health, Sanitation, Drinking Water, Rural Development and Panchayati Raj Institutions (PRI). The BCP will be approved by the SDM. It should be finalized by 15th of December for the consequent year The roles of BCP and PRI alongwith the structure of the SDP Committee are given at **Annexure X**.

3.5.7    **Village:**

3.5.7.1  **Enabling Convergent Actions:** The mandate for achieving maternal and child health and nutrition outcomes through community level interventions is shared more or less equally by the ICDS and Health Departments, and specifically by the AWW and ASHA, and their supervisors - the LS and the ANM (or ASHA Facilitator). The following interfaces between the two programmes need to be optimized for best results:-

(a)    The presence of two frontline workers, AWW and ASHA, in each village is an advantage that should be optimized.

(b)    Similarly, the presence of the ANM periodically in each village can be optimized if there is close coordination between her and the AWW/ASHA, and they all can use their individual skills and positional advantages to mutual benefit.

(c)    Finally, public health facilities that provide services are important service delivery points in the first 1000 days period. Before and after receiving facility based services, beneficiaries in the community are under the charge of frontline workers. The interface between services provided in the facilities and in the community can also be optimized.

(d)    Joint Advisory forwarded vide D.O. Letter NNM/58/2017-WBP dated 18th January 2018 for convergence at field level and involvement of Village Organizations/Self-Help Groups (SHGs) shall be implemented. Joint Advisory attached at **Annexure XI.**

3.5.7.2  **Village Health Sanitation and Nutrition Day (VHSND):** VHSND is an existing platform where the programmes are expected to converge and can be used for achieving effective integration of the field machinery of relevant Departments. The following action points will be adopted.

(a)    VHSND to be mandated in every village on a fixed date every month where participation of Health and Nutrition functionaries (ASHA, AWW and AWH) along with sanitation and PRI workers be ensured.

(b)    A system of outcome linked joint incentives for field functionaries would be evolved primarily focusing on activating VHSND.

(c)    Recorded messages would be developed on critical issues related to nutrition, health and hygiene practices which would be used during the VHSNDs.

(d)    IEC campaigns at District/ Block level be organized to create awareness about the VHSND and encourage community participation.

(e) In order to ensure community participation and desired behavioral changes, Panchayati Raj Institutions and Village Organizations should be involved in

organization of VHSND. The Joint Advisory dated 18th January 2018 clearly specifies the roles of VOs/SHGs in VHSND. The said Joint Advisory is attached at **Annexure XI.**

**\*\*\*\*\*\*\*\***

# Chapter 4: Mission Components

4.1      There are a number of areas needing attention for improving the nutritional status of targeted population i.e. infant and young child care and nutrition, infant and young child health, maternal care, adolescent nutrition, micronutrient deficiencies, care and counseling of mothers, continuum of care, community mobilization, communication and behavior change, etc.  The Mission endeavors to implement these interventions through existing schemes by bringing operational efficiency through better monitoring.  The Mission, in particular, intends to lay focus on some critical areas to bring better results out of the existing schemes, besides undertaking its primary role of monitoring and review of various schemes.   For timely implementation and focused monitoring, a number of Components have been defined as part of the Mission. The Mission Components are elaborated in succeeding paragraphs.

## 4.2      Information Computers Technology Enabled Real Time Monitoring of Schemes (ICT-RTM)

4.2.1      **About the Software Application (ICT-RTM):** The ICDS-CAS has two components, namely the mobile application which is made available to the field functionaries pre-loaded on mobile phones and a six-tier monitoring dashboard for desktops. The procurement and distribution of mobile devices is a part of the project. The application is aimed to augment system strengthening in Anganwadi Service Delivery and looks at improving the nutrition outcomes through effective monitoring and timely intervention. The software allows the capture of data from the field on electronic devices (mobile/tablet). It enables collection of information on Anganwadi Service Delivery and its impact on nutrition outcomes of beneficiaries on a regular basis. This information is available to the States/UTs and MWCD on real time basis on web based dashboards. It is aimed to improve service delivery and also enable the Mission to effectively plan and take fact based decisions.

4.2.2      **Features of the Software Application:**

4.2.2.1 ICT-RTM driven by Common Application Software (ICDS-CAS) functions through a mobile Application at the level of Anganwadi Workers and Sector Supervisor and a comprehensive web based dashboard, at Block, District, State and National level, providing real time information about service delivery. Some of the salient features of ICT-RTM driven Common Application Software are as given at Fig 1 below. The flow diagram of the software from capture of data to aggregation is given at **Annexure XII**.

Fig 1: Salient Features of ICDS-CAS

**4.2.2.2 AWW Mobile Application:** The mobile application at the Anganwadi level enables the following functionality: -

(a) Record regular (daily) opening of the AWC.

(b) Carry out household-wise, name-based, UID linked registration of all the members.

(c) Real time capturing of information on service delivery at AWC thereby providing platform for concurrent monitoring.

(d) Availability of Due List via the Application, which prompts for services which are due.

(e) Enable AWW to send daily photographs of the children receiving supplementary nutrition at the AWCs, ensuring delivery of service.

(f) Focus on Effective and Timely Service Delivery to Beneficiaries.

**4.2.2.3 Lady Supervisor Mobile Application:**

(a) Effective and Real-time monitoring of ICDS-CAS Service Delivery by AWWs to beneficiaries in respective area of responsibility.

(b) Enable them to prioritize AWCs that are not adequately performing and handhold those specific AWWs.

4.2.2.4 The mobile application digitizes and automates 10 out of 11 registers (except stock register) used by Aanganwadi workers and provides these registers in the form of various modules in the application.

4.2.3    **Implementation:**

4.2.3.1    For fielding the software application States/UTs shall procure mobile and growth monitoring devices as part of the allotted funds. The procurement shall be followed by training of identified Master Trainers, who then train the field functionaries and establish Help Desks for handholding.

4.2.3.2    **Procurement of Smart Phones and Tablets:** All AWWs will be equipped with a smart phone for capture of data and Lady Supervisors with a tablet. These devices will be procured at State/UT level and pre-loaded with the application software. SIM Cards and data connectivity plan for the devices will be procured at State/UT level. As data connectivity costs decline with progressive technology, endeavor should be made to provide 4G connectivity, wherever feasible.

4.2.3.3    **Growth Monitoring Devices:** In order to ensure accurate records of weight and height are maintained at AWCs for all beneficiaries which include, pregnant women, lactating mothers, new born babies and children upto 6 years, Growth Monitoring Devices are planned to be procured at AWC level. AWW will record the **weight and height every month** through the software application to track under-nutrition, stunting and wasting. The Growth Monitoring Devices will include the following:-

(a)    Infantometer.
(b)    Stadiometer.
(c)    Digital Weighing Scales (infant).
(d)    Digital Weighing Scales (mother & child).

4.2.3.4    **Procurement Agency:** In order to ensure timely implementation and transparency, the procurement of smart phones, tablets and growth monitoring devices will be carried out through GeM portal, by States/UTs.

4.2.3.5    **Device Specifications:** Indicative specifications for all the devices are at **Annexure XIII.**

4.2.3.6    **Training of Resources:** The ICT-RTM Component involves large scale training program for all stakeholders in a State/UT. The AWWs will go through detailed training sessions which will be delivered by their respective supervisors. These supervisors in turn will be trained as Master Trainers by the Software Development Agency/partner agencies identified by MWCD. Also, separate training sessions will be conducted for officials at State/District/Block level on dashboard reports and their interpretation. Keeping in consideration the scale of the Mission, it is evident that issues would come up from the field during the initial stages of the program. In order to tackle this situation, helpdesk personnel will be on-boarded at State, district and block levels to support the state team in the successful implementation of the program in all the States/UTs.

4.2.3.7 **Establishment of Helpdesks:** The helpdesk personnel through the issue tracker escalate and resolve issues to the next level. A detailed training program will be conducted for the helpdesk officials at all the three levels to equip them with troubleshooting skills required for the success of the program. Below is a snapshot of the training model.

| Trainer | Trainee | Content | Duration |
|---|---|---|---|
| SDA (Software Development Agency) | State Level ICDS Officials, | Mobile apps | 1 day |
| | Helpdesk | Helpdesk app and Dashboard | 4 days |
| | Master Trainers | AWW app | 4 days |
| | State Level ICDS Officials, | Dashboard Reports | 1 day |
| | Supervisors | Supervisor App | 2 + 1 (practice) |
| Master Trainers | AWWs | AWW App | In four stages of 3 days each (2 + 1) |

4.2.4 **ICT-RTM Guidelines**:

4.2.4.1 Broad guidelines which need to be followed at state level for implementation of ICT-RTM are given at **Annexure XIV**.

4.2.4.2 List of ICT-RTM Guidelines is at **Annexure XV**, these are being issued to States/UTs Separately.

4.2.5 **Discontinuation of ICDS Registers at AWCs.** At present AWCs maintain 11 registers in which the service delivery and record of beneficiaries is retained. 10 out of these 11 registers have been digitized as part of the software application being deployed in NNM. Within 3 to 6 months of deployment of smart phones with software application by field functionaries the States/UTs will discontinue manual recording of data in the registers, as the same will be readily available in the mobile application. Only one Register to maintain a monthly summary of AWC activities will be retained in physical form. The format of the register will be shared separately.

4.2.6 **Sharing of Data between ICDS-CAS and RCH Portals:** Both the Ministries, MWCD and MH&FW are working towards a 'shared database' of their MIS Portals, i.e. ICDS-CAS and RCH. This effort will boost in achieving desired convergence.

## 4.3    Training and Capacity Building

### 4.3.1    About Incremental Learning Approach (ILA):

The National Nutrition Mission (NNM) envisages establishing a system where programme functionaries especially at field level, will become more effective by learning to plan and execute each task correctly and consistently through methodical, ongoing capacity building, called 'incremental learning approach (ILA)'. Such a system will use opportunities in the form of existing supervisory interactions at different levels, through which practical, guided learning may be accomplished. Since the range of skills and tasks to be learnt is quite substantial, and since adults naturally learn *by doing* rather than through theory alone, the proposed system envisages breaking down the total learning agenda into small portions of doable actions. The approach is to build incrementally on small amounts of learning at a time, until all skills, understanding and actions have been put into regular practice, and have been internalized by the functionaries and finally a supportive supervisory mechanism is put in place.

### 4.3.2    Implementation:

4.3.2.1  Capacity enhancement of frontline functionaries has been planned through 'incremental learning by doing approach' (ILA). Joint planning, implementation and review of performance with health functionaries and continued knowledge and learning exchange through workshops and exposure visits to best practices are a part of this approach. As part of an existing scheme in few States, ILA training has been found to be an effective method for strengthening and building capacity at the implementation level. The ILA training has been structured across 21 Modules and will be implemented in States/UTs at the following levels:-

(a)    State Resource Groups (SRG)         -        Quarterly

(b)    District Resource Groups (DRG)       -        Quarterly

(c)    Block Resource Groups (BRG)          -        Monthly

(d)    Sector Level (AWWs)                    -        Monthly

4.3.2.2  The module is further planned to be strengthened along the lines of SRG, BRG and DRG, through review meetings. These meetings/interactions will include review of learning parameters achieved, discussion on analysis available via the ICDS-CAS dashboard and improvement action points. These meetings are to be held monthly at sector and block level, and quarterly at district and State/UT level.

### 4.3.3    ILA Guidelines: The detailed guidelines for implementation of ILA are at **Annexure XVI**. *21 ILA Modules are being sent separately.*

4.3.4    **Learning and Management Solution – e-ILA:** Under NNM a comprehensive training and evaluation web-based learning portal for the field functionaries, is being developed. The website will be hosted at www.e-ILA.gov.in. The software will be deployed in a phased manner In the FY 2017-18. The objective of this Learning and Management Solution (LMS) is as under:-

(a)    To provide a learning system by transforming the training material to e-learning modules and mobile nuggets that would help the supervisors and AWWs to get trained and certified in the respective areas to function effectively.

(b)    An android based mobile learning app that can be easily installed on the mobile for learning. The app is pre-loaded with the learning nuggets. It can track the learner progress. It can be synced to the main LMS server.

(c)    Provide comprehensive reporting system for different users across the system.

## 4.4    Community Mobilization and Behaviour Change Communication (BCC)

4.4.1    **About Community Mobilisation and BCC:** The problem of malnutrition is inter-generational and is dependent on multiple factors which, inter-alia, include optimal Infant & Young Child Feeding (IYCF) practices, Immunization, Institutional Delivery, Early Childhood Development, Food Fortification, Deworming, access to safe drinking water & proper sanitation (WASH), Dietary diversification, and other related factors. Therefore, to address the problem of stunting, under-weight and wasting, especially in children, there is a need to take-up sustained efforts requiring multi-pronged approach and bring grass-root synergy and convergence.

4.4.2    **Implementation:**

4.4.2.1    The following activities will be included in this component**.**

(a)    CBE for Critical milestones in the 1000 days period.

(b)    IEC and advocacy to support nutrition behavior change.

(c)    Jan Andolan.

4.4.2.2    **Community Based Events (CBE):** Organizing community based traditional events to promote and support behaviour change to improve maternal and child nutrition is one of the methods to increase awareness and set in change. Broad guidelines covering themes, duration, participation, etc. are included at **Annexure XVII**. Each AWC will organize one CBE event every month and ₹250/- shall be reimbursed for the same. *Detailed* guidelines of CBE under NNM are being issued separately.

4.4.2.3    **Information, Education & Communication (IEC) and Advocacy:** IEC activities play a very important and strategic role in the area of public health. A successful IEC plan

would help in refuting myths and misunderstandings prevalent in the society and will lead to a demand for the various health services being provided, thus bringing about a behavioural change among individuals and the community at large. IEC strategy aims to create awareness and disseminate information regarding the benefits available under the various nutrition and health related government schemes and to guide the citizens on how to access them. The objective is also to encourage build-up of health seeking behaviour among the masses in keeping with the focus on promotive and preventive healthcare. The IEC strategy will cater to different needs of the rural and urban masses through the various tools used for communication. Separate funds shall be allotted for this purpose at Centre and State level. The IEC activities mostly will be done through the following methods.

(a)     Print Media.
(b)     Television.
(c)     All India Radio.
(d)     Social Media Campaigns.

4.4.2.4   **Jan Andolan**: The Mission will focus on converting the agenda of improving nutrition into a Jan Andolan through involvement of Panchayati Raj Institutions/Villages Organizations/SHGs etc. and ensuring wide public participation. Strategies for Jan Andolan Mission are elaborated **at Annexure XVIII**.

## 4.5     Innovation

4.5.1   **About Innovation:** Based on the experience of Anganwadi Services and the identification of existing gaps, particularly on the soft side of programme, the Mission envisages undertaking a few activities to be implemented at project scale intended to improve the service delivery system, capacity building of front line functionaries and community engagement for better nutritional outcomes. The Mission envisages to earmark funds for the development and implementation of innovations and pilots particularly showing the convergent nutrition action to achieve one or more desirable nutritional results. The successful pilots may be taken up later-on for scaling up in similar contextual specificities on a broader platform.

4.5.2   **Implementation:**

4.5.2.1   Any innovative but implementable idea that can be conceptually shown, to be likely to significantly transform or enhance the ability of the Mission to achieve any of its stated outcomes may be developed into a pilot and implemented at an appropriate scale. It should have an unambiguous focus on nutrition outcomes and should generate evidence of desired nutritional effect and feasibility of implementation, so that the innovation-pilot may be considered for either further development or wider

implementation. Anyone or more of the following outcomes may be targeted for the proposed pilot implementation:

(a)    Convergence of Services for achieving goals under NNM.

(b)    IYCF practices particularly pertaining to breast feeding and complementary feeding at the household level.

(c)    Reduction of nutritional anemia levels among adolescents girls, women and children.

(d)    Improved access to good quality nutrients for complementary feeding in poor families.

(e)    Mechanism for timely identification of SAM children and their care.

(f)    Improved management of child feeding during and after illness.

(g)    Improvements in hygiene determinant of nutrition.

(h)    Simultaneous improvement in access to key eligible services from multiple departments, etc.

(i)    Serviceability of Anganwadi Centers.

4.5.2.2   States/UTs will consequently choose pilots and innovations that they would like to implement from the above list, following a systematic process starting with designing the pilot, building in an operations research and evaluation component and seeking technical guidance and clearance from the MWCD before initiating implementation. Broad guidelines are given at **Annexure XIX**. Funds shall be allotted to the States/UTs based on the requirements projected as part of the Innovation Plan.  *Detailed guidelines on the subject are being issued separately.*

## 4.6    Performance Incentives

4.6.1    **About Performance Incentives:** The Mission is based on achieving specific targets in the next 3 to 5 years, including yearly milestones and therefore it is imperative to put in place a mechanism of incentives for achieving assigned targets. To annually incentivize the States/UTs and frontline functionaries who achieve targeted goals the following schemes will be implemented as part of the Mission.

4.6.2    **Implementation:**

4.6.2.1    **Incentive to States:** The Mission intends to annually monetarily incentivize those States/UTs which achieve the goals in improving the nutritional status of the targeted beneficiaries.   The incentives proposed are based on the population of the State (*Census: 2011)*. The performance will be assessed on the basis of data collected in

survey conducted from time to time (*NFHS, DLHS, AHS, NIN, ICDS, etc.*). The States/UTs which are incentivized on the basis of their performance, may, in turn, incentivize the better performing Gram Panchayats who have contributed in improving the indicators out of the incentive amount sanctioned by the Centre. *Detailed instructions shall be issued separately*. The incentive layout based on population of the state are as under:-

| Population of the State/UT | Incentive |
|---|---|
| Upto 1 Crore | ₹ 10 Crore |
| 1-3 Crore | ₹ 15 Crore |
| 3-7 Crore | ₹ 20 Crore |
| More than 7 Crore | ₹ 30 Crore |

4.6.2.2 **Cash Award to Frontline Functionaries for Achieving Desired Targets**: The field functionaries i.e. AWW, ASHA, ANM who have participated as a team in achieving the targeted goals, reducing the level of under-nutrition and contributed significantly in other child health and development activities are proposed to be incentivized. For this, it is proposed to create a corpus after approval of the competent authority and the interest income accrued there from is proposed to be used for giving cash awards @ ₹ 1.50 lakh per team comprising of AWW, ANM and ASHA for the above purpose. The awards will be given annually on the recommendations of the States/UTs and finalized by a team to be constituted. *Guidelines on the subject will be issued separately.*

4.6.2.3 **Incentive to AWW for Implementing ICT-RTM:** To encourage AWWs to adopt ICT-RTM, an incentive fund of ₹ 500/- has been earmarked for each AWW per month. This incentive fund will be linked to achievement of certain milestone/targets like, correct entry of data, carrying out house visits etc., at the AWW level. The specific targets to be achieved will be defined as part of *detailed guidelines, to be issued separately*.

## 4.7 Flexi Activities

4.7.1 **About Flexi Fund:** Though the Mission envisages to holistically cover all aspects of Nutrition across the Country, it is sanguine to the fact that there are regional peculiarities at each State/UT which need to be addressed. To cater for this requirement a separate head of Flexi-Fund has been created as part of the Mission, which will be available to the State/UT for utilization at its discretion.

National Nutrition Mission: Administrative Guidelines

4.7.2    **Implementation:**

4.7.2.1  The flexibility to the States/UTs in the Mission is provisioned through the Flexi-Funds to be utilized to implement the flexi-activities. These allow the States/UTs flexibility to take up additional activities as per their specific needs and requirements. The objectives of Flexi-Funds are as under:-

(a)    To provide flexibility to the State/UT to meet local needs and requirements that contribute to the achievement of the development objective of the project.

(b)    To strengthen ICDS systems and capacities to deliver quality services, improve monitoring and supervision, facilitate community engagement and innovations.

4.7.2.2  States/UTs will prepare the flexi-plan taking view of the available flexi funds and incorporating the activities as per requirement and relevance to improve the Nutrition Service Delivery System in the State and will get them duly approved by the State Steering Committee headed by Secretary in-charge.  MWCD would issue a *separate implementation guideline on this component.*

*\*\*\*\*\*\*\*\**

# Chapter 5: Project Management, Monitoring and Evaluation

## 5.1     Citizen Engagement and Grievance Redressal Mechanism

5.1.1     In order to effectively engage with the beneficiaries to provide grievance redressal, as also to, monitor and follow-up on the nutritional Indicators resulting in targeted action, a Call Centre will be setup as part of the Mission at CPMU. The Call Centre will facilitate inbound calls from beneficiaries on a toll-free number and make outbound calls to the implementing agencies for intervention. It will be setup up on outsourced model. The functional details are given at **Annexure-XX**.

## 5.2     Nutrition Surveillance System, Social Surveys and Audit

5.2.1     As part of nutrition schemes a number of initiatives have been implemented to ensure delivery of nutrition related services to beneficiaries which include would-be mothers, mothers, children till 6 years of age and adolescent girls. Since the details of Anganwadi Service Delivery are being captured on real time basis on ICDS-CAS, the gaps/interventions will be informed at various levels on day to day basis for necessary action. Processes have also been initiated to set in behavioral change and learning enhancement of the beneficiaries. These steps are anticipated to impact the nutrition levels of the beneficiaries and tangible results are expected in coming years, which need to be analysed for planning timely interventions. In order to effectively monitor and analyse the output, as well as, outcome of these initiatives, it is prudent to deploy independent integrated and synergized methods. These would include but not limited to, monitoring through ICDS-CAS dashboard; surveys based on the data collected from the digitized systems; verification of this data with on ground results; deriving analysis and outcome to provide a feedback for improvement and holistic effectiveness of the system. This activity will be executed centrally at the MWCD.

## 5.3     Project and Human Resource Management

5.3.1     To ensure timely and smooth implementation, as well as, effective monitoring of the Mission it is essential to create institutional mechanisms at central, state, district and block level. The Central Project Management Unit, State Project Management Unit and Coordinators will ensure these aspects at all levels.

5.3.2     **National Nutrition Resource Centre – CPMU (Central Project Management Unit):**

5.3.2.1     To provide a comprehensive direction to sectoral programmes especially those directly affecting malnutrition, there is a need for a single unified technical agency / institution,

namely a National Nutrition Resource Centre – Central Project Management Unit (NNRC–CPMU). This will enhance and strengthen the quality of nutrition programme implementation, monitoring and systems in the country. The existing CPMU functional under the restructured ISSNIP will be structurally augmented to take on this role.  The objectives of NNRC are listed below:-

(a)  To act as a nodal technical resource centre for all matters pertaining to nutrition in the country.

(b)  To support National and State Governments/UT Administrations to establish systems and procedures aimed towards direct or indirect nutrition actions across sectors.

(c)  Establish systems for monitoring nutrition actions in the country.

(d)  Lead knowledge management interventions on nutrition in the country.

(e)  Undertake advocacy across various stakeholders to bring nutrition focus on key actions.

5.3.2.2  The NNRC-CPMU will be supervised and guided by Additional Secretary/Joint Secretary as the Mission Director (Ex-Officio, MWCD). Two Executive Directors on deputation will manage the day to day operations of the NNRC-CPMU. NNRC-CPMU will have Project Managers, Technical Consultants and other Consultants etc. Functionality of the CPMU is given at **Annexure XXI**. The organizational setup at elaborated at **Annexure XXII**. The terms of reference for hiring staff at CPMU is at **Annexure XXIII**.

### 5.3.3  **State Nutrition Resource Centre – SPMU (State Project Management Unit):**

5.3.3.1  Akin to the CPMU at Government of India, the SPMU at state level will function as the State Nutrition Resource Centre. In addition, there will be staff placed at district and block level to provide effective point of presence at all levels. This will provide a synergized setup for implementation of measures and schemes being adopted to overcome malnourishment in its area of responsibility. The manpower details and organization at state (SPMU), district and block levels are at **Annexure XXIV**.

5.3.3.2  **Hiring of Manpower**: The manpower for SPMU will be a combination of staff on deputation and contractual hiring. The Terms of Reference and qualifications for the staff to be hired are at **Annexure XXV**. The hiring activity at State, District and Block levels should commence with immediate effect after approval from State competent authorities.

<div align="center">********</div>

# Chapter 6: Financial Implications

## 6.1 Cost of the Mission

6.1.1 The total cost of the above proposals as Government of India share for a period of three years commencing from 2017-18 comes to ₹2849.54 crore. The financial implications along with proposed source of funding are given in the following table:

*(₹ in crore)*

| Year | NNM# | GOI share without EAP* |
|------|------|------------------------|
|      |      |                        |
| 2017-18 | ₹ 3108.43 | ₹979.16 |
| 2018-19 | ₹ 3684.70 | ₹ 1160.68 |
| 2019-20 | ₹ 2253.04 | ₹ 709.70 |
| Total | ₹ 9046.17 | ₹ 2849.54 |
| GOI Share | ₹ 2849.54 | |

*   *Cost sharing ratio between the Centre and the States & UTs with legislature will be 60:40. For North-Eastern States & Himalayan States it will be 90:10. It will be 100% for Union Territories without legislature.*

\#   *(i) 50% Externally Aided Project (EAP) funding through IBRD (International Bank for Re-construction and Development)/ Multi-lateral Development Banks (MDBs).*

*(ii) 50% funding through Gross Budgetary Support as per applicable cost sharing ratio between the Centre and the States & UTs with legislature will be 60:40. For North-Eastern States & Himalayan States it will be 90:10. It will be 100% for Union Territories without legislature.*

6.1.2 The cost sharing ratio for IBRD or other MDB, Government of India, States & Union Territories will be as per the following Table:

| Category | Funds from IBRD/MDB# | Central Government | States/UTs |
|----------|----------------------|--------------------|------------|
| (1) | (2) | (3) | (4) |
| For activities to be carried out at Central level | 50% | 50% | 00 |
| For States/UTs with legislature | 50% | 30% | 20% |

National Nutrition Mission: Administrative Guidelines

| | | | |
|---|---|---|---|
| For NER and Himalayan States | 50% | 45% | 5% |
| For UTs without legislature | 50% | 50% | 00 |

# Subject to the approval of the fund by the competent authority.

6.1.3   The actual funding from IBRD or other MDBs will follow the extant procedure, as prescribed by Department of Economic Affairs.

6.1.4   Restructured ICDS Systems Strengthening & Nutrition Improvement Project (ISSNIP) (Phase-I) is currently under implementation in 8 states. This scheme shall continue as hither to fore in the effected states, till the completion of DLIs in the suggested timeframes. The effected states are advised to close the DLIs at the earliest. The ISSNIP Scheme shall get subsumed as part of NNM thereafter. In this regard refer to MWCD Letter No. 29/82/2017-WBP dated 8th December 2017 attached at **Annexure XXVI.**

## 6.2      Budget head for NNM

States/UTs will ensure that a separate Budget Head is created for NNM for allocation of funds from Government of India after approval of competent authority, at the earliest.

## 6.3      Reporting

6.3.1   Each State/UT, under Eligible Expenditure Program, would make available to MWCD, the Quarterly Financial Management Reports in the prescribed format along with all the supporting documents at the end of every quarter of the financial year. Besides, the States/UTs would also report the component wise monthly expenditure in the prescribed format to the MWCD. These reporting formats will be shared separately. Similarly, physical progress will be reported through separate formats, to be intimated subsequently.

*********

# Chapter 7: Cost Planning Norms

**7.1**    The Cost Planning Norms for various components, schemes and manpower hiring are elaborated in succeeding paragraphs.

## 7.2    Costing Norms for ICT-RTM

**7.2.1**    The cost of smart phones, Tablets, Growth Monitoring Devices and data plans for AWWs & LSs are given at **Annexure XXVII**.

## 7.3    Costing Norms for Incremental Learning Approach

**7.3.1**    ILA training implementation will be on a quarterly basis at the SRG, DRG and BRG. The training shall be Module or Theme based at Sector and AWC levels. The cost planning norms for the training activities are given at **Annexure XXVIII**.

## 7.4    Costing Norms for CBE

**7.4.1**    CBE will be a monthly activity at the AWC Level, based on various themes. The AWC as part of States/UTs will be entitled ₹250/- per CBE event, this will include conduct, refreshment and complementary items to be given to beneficiaries as deemed appropriate and depending on the local custom/traditions.

## 7.5    Costing Norms for CPMU

**7.5.1**    The Mission will have to incur one-time costs involved with setting up office and infrastructure towards the CPMU, as well as plan for the recurring expenditure like rentals, stationery, office requisites etc. The cost planning norms for the same are elaborated at **Annexure XXIX**.

**7.5.2**    The manpower at CPMU will be constituted through deputation, ex-officio and on contractual basis. The remuneration norms for contractual staff is given at **Annexure XXX**.

## 7.6    Costing Norms for SPMU

**7.6.1**    SPMU will be setup at each State/UT. The costing norms for establishing SPMU and required infrastructure,alongwith the recurring expenditure are given at **Annexure XXXI.**

7.6.2    The cost planning norms for hiring of contractual staff at State, District and Block level are given at **Annexure XXXII.**

**\*\*\*\*\*\*\*\***

## Letter for Administrative Approval of NNM

F. No. NNM/7/2017-WBP
Government of India
Ministry of Women & Child Development
********

Shastri Bhawan, New Delhi,
Dated the 18<sup>th</sup> December, 2017

To

The Chief Secretaries of all States/UTs

**Subject:** Administrative Approval for setting up of National Nutrition Mission (NNM) – regarding

Sir/Madam,

I am directed to inform that Government of India has approved setting-up of National Nutrition Mission (NNM) with a three year budget of ₹9046.17 crore commencing from 2017-18. The approval is accorded for the following:

    i.   Constitution of a National Council on India's Nutritional Challenges under the Chairpersonship of Vice-Chairperson, NITI Aayog;

   ii.   Funding total cost of the proposal for setting up of NNM from Government Source (50% i.e. ₹4523.08 crore) and International Bank for Re-constructio and Development (IBRD) or other Multi-lateral Development Banks (MDBs) (50% i.e. ₹4523.08 crore). Government of India (GoI) share will be about ₹2849.54 crore during period of three years;

  iii.   In-principleapproval for taking a loan ₹4523.08 crore from the IBRD or other MDBs;

  iv.   Roll out of NNM in a phased manner as indicated in para-6 below;

   v.   Subsuming ICDS Systems Strengthening & Nutrition Improvement Project(ISSNIP) into NNM;

  vi.   Since functions of the new NNM, are cutting across line Ministries/Departments, the Mission is authorized and empowered to carry out these functions for bringing out effective results through Executive Committee, an Apex body for nutrition related activities at the National level under the Chairpersonship of Secretary, MWCD;

  vii.   Mission aims to bring down stunting of the children in the age group of 0-6 years from 38.4% to 25% at National level [Mission 25] by the year 2022;

 viii.   Carrying out such modifications in operational modalities by the Ministry of Women & Child Development as may be warranted, from time to time, for effective implementation of the above Schemes.

2. NNM is to ensure convergence with various programmes i.e. Anganwadi Services Scheme, Pradhan Mantri Matru Vandana Yojana (PMMVY) and Scheme for Adolescent Girls of this Ministry; Janani Suraksha Yojana (JSY) and National Health Mission (NHM) of MoH&FW; Swachh Bharat Mission of Ministry of Drinking Water & Sanitation (DW&S); Public Distribution System (PDS) of Ministry of Consumer Affairs, Food & Public Distribution (CAF&PD); Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) of Ministry of Rural Development (MoRD); Drinking Water & Toilets with Ministry of Panchayati Raj and Urban Local Bodies through Ministry of Urban Development. Mapping of various schemes contribution towards addressing malnutrition shall form basis of the Convergence Action Plan. The Convergent Action Plans shall consist of:

    i.   District Convergence Plan (DCP) with a sub-component at the Block level called Block Convergence Plan (BCP). All the BCPs will converge into DCPs.

   ii.   State/UT Convergence Plan.

3. For monitoring, convergence among line Ministries/Departments, a 'Technical Unit' shall be set-up under NITI Aayog.

National Nutrition Mission: Administrative Guidelines

3.1 The Mission intends to annually incentivize those States/UTs which achieve the goal in improving the nutrition status of targeted beneficiaries. The performance will be assessed on the basis of the reduction in the level of under nutrition and related parameters. States/UTs which are incentivized shall in turn incentivize the better performing Districts/Block/Gram Panchayats who have contributed in improving the indicators out of the incentive amount sanctioned by the centre.

3.2 A corpus fund of ₹150.00 crore shall be created at National level and the interest income accrued therefrom shall be used for giving cash awards @ ₹1.50 lakh per team comprising Anganwadi Workers (AWWs), Accredited Social Health Activists (ASHAs), Auxillary Nurse Midwife (ANM) who have participated as a team in achieving the targeted goals and contributed significantly in reducing under-nutrition and anaemia. The awards will be given annually on the recommendations of the States/UTs and finalized by a team to be constituted by MWCD. Detailed guidelines will be issued subsequently.

3.3 To encourage AWWs to adopt ICT-RTM, an incentive fund of ₹500/- shall be provided for each AWW per month. This incentive fund will be linked to achievement of certain milestone/targets like, correct entry of data, carrying out house visits etc., at the AWW level.

4.    **Goals of NNM:**

4.1    The goals of NNM are to achieve improvement in nutritional status of Children from 0-6 years, Pregnant Women and Lactating Mothers in a time bound manner during the next three years beginning 2017-18 with fixed targets as under:

| S.No | Objective | Target |
|------|-----------|--------|
| 1. | Prevent and reduce stunting in children (0- 6 years) | By 6% @ 2% p.a. |
| 2 | Prevent and reduce under-nutrition (underweight prevalence) in children (0-6 years) | By 6% @ 2% p.a. |
| 3 | Reduce the prevalence of anemia among young Children(6-59 months) | By 9% @ 3% p.a. |
| 4 | Reduce the prevalence of anemia among Women and Adolescent Girls in the age group of 15-49 years. | By 9% @ 3% p.a. |
| 5 | Reduce Low Birth Weight (LBW). | By 6% @ 2% p.a. |

4.2    The Mission aims to reduce mal-nourishment from the Country in a phased manner, through the life cycle concept, by adopting a synergised and result oriented approach. The Mission will ensure mechanisms for timely service delivery and a robust monitoring as well as intervention infrastructure. Target of Mission is to bring down stunting of the children in the age group of 0-6 years from 38.4% to 25% by the year 2022.

5.    **Roll out of NNM:**

5.1    All States and Union Territories are to be covered in a phased manner, as per details given below:

| Year | Districts to be covered. |
|------|--------------------------|
| 2017-18 | 315 Districts* as per **Annexure** |

National Nutrition Mission: Administrative Guidelines

| 2018-19 | 235 Districts (Districts list will be sent in due course). |
|---------|-----------------------------------------------------------|
| 2019-20 | Remaining Districts of States/UTs. |

\* The information in respect of 3 Districts not listed in Annexure shall be intimated in due course.

6.1 The total cost of the NNM as GoI share for a period of three years commencing from 2017-18 will be ₹2849.54 crore. The financial implications along with proposed source of funding are given in the following table:

(₹ in crore)

| Year | Amount | GOI share without EAP |
|------|--------|----------------------|
| 2017-18 | 2602.75 | 819.87 |
| 2018-19 | 3526.08 | 1110.71 |
| 2019-20 | 2917.34 | 918.96 |
| Total | 9046.17 | 2849.54 |
| GOI Share | 2849.54 | |

6.2. The National Nutrition Mission would be an Externally Aided Project. This will be funded by Government Budgetary Support (50%) and 50% by IBRD or other MDB. Government budgetary support would be 60:40 between Centre and States/UTs with legislature, 90:10 for NER and Himalayan States and 100% for UTs without legislature. The cost sharing ratio for IBRD or other MDB, Government of India, States & Union Territories will be as per the following Table :

| Category | Funds from IBRD/MDB# | Central Government | States/UTs |
|----------|----------------------|--------------------|-----------|
| (1) | (2) | (3) | (4) |
| For activities to be carried out at Central level | 50% | 50% | 00 |
| For States/UTs with legislature | 50% | 30% | 20% |
| For NER and Himalayan States | 50% | 45% | 5% |
| For UTs without legislature | 50% | 50% | 00 |

# subject to the approval of the fund by the competent authority.

6.3 The expenditure by the States/UTs shall be done as per schematic norms of NNM and all the devices shall be procured through GeM.

6.4 The actual funding from IBRD or other MDBs will follow the extant procedure, as prescribed by Department of Economic Affairs.

7. The Mission envisages mainly the following activities :
   i. To monitor service delivery through ICT based real-time monitoring system, Common Application Software (CAS) and IT-related assistance shall be provided to the field functionaries.
   ii. All AWWs will be equipped with a smart phone for capture of data and Lady Supervisors with a tablet. These devises will be procured at State/UT level and pre-loaded with the application software.SIM Cards and data connectivity plan for the devices will be procured at State/UT level.
   iii. In order to ensure accurate records of weight and height of all beneficiaries which include, pregnant women, lactating mothers, new born babies and children upto 6 years; Growth Monitoring Devices shall be procured for AWCs. The Growth Monitoring Devices will include Infantometer, Stadiometer, Weighing Scales (infant) and Weighing Scales (mother & child). AWW will record the weight every month and height/length every 3 months through the software application to track underweight, stunting and wasting.
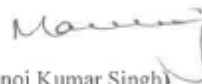

National Nutrition Mission: Administrative Guidelines

iv. To encourage AWWs to adopt ICT-RTM, an incentive fund of ₹500/- will be provided to each AWW per month. This incentive fund will be linked to achievement of certain milestone/targets like, correct entry of data, carrying out house visits etc., at the AWW level.

v. In order to ensure regular monitoring and review of all the sectoral programmes, especially those directly affecting malnutrition and to provide knowledge management on nutrition actions, there will be a single unified technical set-up, namely a National Nutrition Resource Centre – Central Project Monitoring Unit (NNRC–CPMU) at Centre level and similarly State Nutrition Resource Centre (SNRC) - State Project Monitoring Unit (SPMU) shall be set up in all States/UTs.

vi. The Mission will focus on converting the agenda of improving nutrition into a Jan Andolan through wide participation. Community Mobilisation, Awareness Advocacy and IEC through Panchayati Raj Institution, Mother Committees, Self Help Groups, Social Mobilisation campaign, Use of Media (including social media),Village contact drives, voluntary action etc. shall be taken up through: (a) Community Based Events (CBE) for Critical milestones in the 1000 days period; (b) Information Education & Communication (IEC) and advocacy to support nutrition behavior change; (c) Jan Andolan through wide public participation.

vii. Capacity enhancement of frontline functionaries will be done through 'Incremental Learning Approach' (ILA).

viii. Development and implementation of innovations and pilots under the convergent nutrition action is to be undertaken to achieve one or more desirable nutritional results. The successful pilots may be taken up later-on for scaling up in similar contextual specificities on a broader platform.

ix. Community based management of Severely Acute Malnourished (SAM) children without medical complications will be done as per the guidelines (the guidelines will be issued separately).

x. There are also provision for (i) Nutrition Surveillance System and (ii) Flexi Fund.

8. Restructured ICDS Systems Strengthening & Nutrition Improvement Project (ISSNIP) (Phase-I) is currently under implementation in 162 districts of eight States. ISSNIP (Phase-I) would be implemented up to 30th June, 2018 to allow all States to achieve the agreed Disbursement Linked Indicator (DLI) targets. ISSNIP will be subsumed into NNM so that gross budgetary support and external aid can be dovetailed and utilized together in an integrated manner. The ISSNIP States who have completed activities under ISSNIP should immediately start activities covered under NNM. The States whose DLI of ISSNIP is incomplete should complete the remaining DLIs within extended period of ISSNIP i.e. upto 30.06.2018.

9. States/UTs are requested to take necessary action to immediately roll out the National Nutrition Mission. States/UTs are also requested to nominate nodal officers for implementation of the Mission and States/UTs are also requested to check the list of the ICDS projects and Anganwadi Centres to be covered under NNM in the selected districts and intimate the correct position to the Ministry.

Yours sincerely,

(Manoj Kumar Singh)
Director

## Functions of National Nutrition Mission

1. To act as an Apex body for nutrition related activities (for children under-six years of age, Pregnant women, lactating mothers and adolescent girls).
2. Monitor and review implementation of all nutrition related components across the line Ministries under Government of India/States/UTs.
3. Periodical review of nutritional status of States/UTs and provide policy directions.
4. Fix targets of components relating to nutrition in each scheme implemented by various Ministries.
5. Real Time Monitoring for alerts and prompt local interventions regarding Under-nutrition, Stunting, Wasting.
6. BCC/ECCE – Audio-visual aids to be provided for effective interventions through BCC and ECCE for children.
7. Identify relevant gap filling support to nutrition related programmes.
8. Suggest/prescribe various nutrition related components/actions to improve the nutrition status.
9. Bring cohesion among various programmes run by various line Ministries and address convergence issues.
10. Identify the nutrition related components in each scheme in consultation with the line Ministries.
11. Prescribe/call periodical reports/returns on any nutrition related component from the line Ministries and States/UTs (IT dash board).
12. ICDS-CAS/RCH Portal - synergy for data flow & interventions.
13. Assess causes of malnutrition in identified areas and plan for remedial actions.
14. Review the outcomes and suggest mid-course corrections that may be required in the policy design.
15. Track progress in key outcomes with an analysis of lagging States/UTs and supportive action.
16. National Council for India's Nutrition Challenges will meet at least once in six months.
17. To perform any other function required for discharging the above functions assigned to the NNM.

## Letter of Approval for National Council

NNM/2/2017-WBP
Government of India
Ministry of Women & Child Development
******

Shastri Bhawan, New Delhi
Dated the 3rd January, 2018

### OFFICE MEMORANDUM

**Subject : Constitution of National Council on India's Nutrition Challenges.**

In pursuance of Government of India's decision for setting up National Nutrition Mission, a National Council on India's Nutrition Challenges is constituted for (a) policy direction (b) review; and (c) effective coordination and convergence between Ministries which have a sectoral responsibility for the challenge of nutrition.

2. The composition of the National Council on India's Nutrition Challenges is as under:

| | | |
|---|---|---|
| 1 | Vice Chairperson, NITI Aayog | Chairperson |
| 2 | Minister, Women & Child Development | Member |
| 3 | Minister, Health & Family Welfare | Member |
| 4 | Minister, Drinking Water & Sanitation | Member |
| 5 | Minister, Rural Development | Member |
| 6 | Minister, Tribal Affairs | Member |
| 7 | Minister, Panchayati Raj | Member |
| 8 | Minister, Consumer Affairs and Food | Member |
| 9 | Minister of State, Finance | Member |
| 10 | Minister/Minister of State, Human Resource Development | Member |
| 11 | Minister/Minister of State, Urban Development | Member |
| 12 | Minister/Minister of State, Information & Broadcasting | Member |
| 13 | Minister/Minister of State, Environment, Forest & Climate Change | Member |
| 14 | State Chief Minister or their representative (5 on 2 years rotation basis):<br><br>i.    Bihar<br>ii.   Uttar Pradesh<br>iii.  Rajasthan<br>iv.  Tamil Nadu<br>v.   Chhattisgarh | Members |
| 15 | Member, Health & Nutrition, NITI Aayog | Member |
| 16 | CEO, NITI Aayog | Member |
| 17 | Secretary, Health Research & DG, ICMR | Member |
| 18 | Secretary, MWCD | Member-Convener |

2.2    The Chairperson may invite any other Minister/Officer/Expert in the relevant field to any meeting of the Council depending upon the context.

2.3    The following Secretaries of Ministries concerned would be Special Invitees to the meeting:

1.  Secretary, Ministry of Health & Family Welfare
2.  Secretary, Ministry of Drinking Water & Sanitation
3.  Secretary, Department of Rural Development
4.  Secretary, Ministry of Panchayati Raj
5.  Secretary, Ministry of Tribal Affairs
6.  Secretary, Department of Food & Public Distribution
7.  Secretary, Department of Expenditure, Ministry of Finance
8.  Secretary, Department of School Education & Literacy
9.  Secretary, Ministry of Urban Development
10. Secretary, Ministry of Information & Broadcasting
11. Secretary, Ministry of Environment, Forest & Climate Change
12. Chairman, Food Safety and Standards authority of India
13. Director, National Institute of Nutrition

2.4    The Council also co-opts following ten DCs/DMs as Members from 10 districts with highest prevalence of child stunting for assessing ground level situation initially in 2017-18:

| SI.No | State | District |
|-------|-------|----------|
| 1 | Uttar Pradesh | Bahraich |
| 2 | Uttar Pradesh | Shravasti |
| 3 | Uttar Pradesh | Balrampur |
| 4 | Jharkhand | Pashchimi Singhbhum |
| 5 | Uttar Pradesh | Siddharthnagar |
| 6 | Bihar | Sitamarhi |
| 7 | Uttar Pradesh | Gonda |
| 8 | Uttar Pradesh | Sitapur |
| 9 | Karnataka | Koppal |
| 10 | Karnataka | Yadgir |

3.   The Terms of References of the Council are as follows:

a.  Provide policy directions to address India's nutritional challenges through coordinated inter-sectoral action.
b.  Review programmes for nutrition on a quarterly basis.

4.   The Council will be serviced by the Ministry of Women & Child Development which may obtain necessary assistance as required from any Ministry/Department/Agency of the Government.

5.   The Council shall submit report to the Prime Minister every 6 months.

| 7 | Uttar Pradesh | Gonda |
| 8 | Uttar Pradesh | Sitapur |
| 9 | Karnataka | Koppal |
| 10 | Karnataka | Yadgir |

2.3. The Executive Committee is the Apex body for nutrition related activities (for *children below six years age, Adolescent Girls and Pregnant Women & Lactating Mothers*) providing direction, policy and guidance for implementation of various programmes/schemes under the NNM.

3. The Executive Committee will meet once in every three months and will be responsible for the following functions of NNM:

   i.    To act as an Apex body for nutrition related activities (*for children under-six years of age, P&LM, AGs*).

National Nutrition Mission: Administrative Guidelines

ii. Monitor and review implementation of all nutrition related components across the line Ministries under Government of India/State-UTs.

iii. Periodical review of nutritional status of States/UTs and provide policy directions.

iv. Fix targets of components relating to nutrition in each scheme implemented by various Ministries.

v. Real Time Monitoring for generation of SMS alerts and prompt local interventions to address Under-nutrition, Stunting, Wasting.

vi. BCC/ECCE – Audio-visual aids and print materials to be provided for effective interventions through BCC and ECCE for children.

vii. Identify relevant gap filling support to nutrition related programmes.

viii. Suggest/prescribe various nutrition related components/actions to improve the nutrition status.

ix. Bring cohesion among various programmes run by various line Ministries and address convergence issues.

x. Identify the nutrition related components in each scheme in consultation with the line Ministries.

xi. Prescribe/call periodical reports/returns on any nutrition related component from the line Ministries and States/UTs.

xii. Convergence through integration of ICDS-CAS and RCH portal for data flow and timely interventions.

xiii. Assess causes of malnutrition in identified areas and plan for remedial actions.

xiv. Review the outcomes and suggest mid-course corrections that may be required in the policy design.

xv. Track progress in key outcomes with an analysis of lagging States/UTs and supportive action.

xvi. To perform any other function required for discharging the above functions assigned to the NNM.

4. The National Nutrition Mission will report to the National Council on India's Nutrition Challenges.

\*\*\*\*\*\*\*\*

National Nutrition Mission: Administrative Guidelines

## Components to be included in CAP

Following components need to be included in the CAP:

| SI.No. | Areas of Convergence | Name of the component | Name of concerned Department |
|---|---|---|---|
| 1. | Strengthening of AWC Infrastructure (*including identification of structural gaps*). | Construction of AWC buildings under MGNREGS including identification of gaps. | Rural Development & Panchayati Raj. |
| | | Provision of safe drinking water at AWC including identification of gaps. | Drinking Water & Sanitation and Panchayati Raj. |
| | | Provision of sanitation at AWCs including identification of gaps. | Drinking Water & Sanitation and Panchayati Raj. |
| | | Community mobilization on Swach Bharat Mission & ODF. | Drinking Water & Sanitation |
| 2. | Ensuring quality of SN | Supply of food grains. | Food & Public Distribution. |
| | | Testing of quality of SN | State Food laboratories /FNB laboratories |
| 3. | Effective delivery of Health Services | Fixed VHSND, ANC/PNC, Health check-up of children, immunization, referral services, health education, joint training of AWW & ASHA, etc. | Health & Family Welfare |
| | | Medical check-up, Treatment of SAM and other children referred by AWC. | State Hospitals – PHC/CHC/NRC /District Hospitals. |
| 4. | Strengthening ECCE &IEC | Early Childhood Care &Education (ECCE). | Human Resource Development & MWCD |

| | | Mobilisation and sensitization of villagers, coordination, providing water & sanitation, maintenance of AWCs, preparing CAP. | Panchayati Raj Institutions/Urban Local Bodies. |
|---|---|---|---|
| | | Information & Education Campaign (IEC) | Information & Broadcasting/DIPR |

In addition to the above the under mentioned may be considered.

5. **Village Health, Sanitation & Nutrition Day:** Under the Anganwadi Services of Umbrella ICDS Scheme VHSND is a very important tool for convergence. While framing the CAP, States/UTs should include number of VHSN days to be conducted, monitoring of such days, activities to be undertaken and the feed-back on such activities. This needs to carried out in conjunction with the ILA activities.

6. **Reporting of Authentic SAM Data**: To assess the level of malnutrition in the country, it is necessary that the related data is correctly reported by the field functionaries. The concerned DC/DM may be authorised to initiate vigilance action against the concerned functionary including the supervisory level staff in case of under-reporting. With the third party social audit of growth monitoring, it will be easy to detect such cases.

7. **Health Services Delivery:** CAP may include the mechanism for delivery of health services to the Anganwadi Services beneficiaries at the AWCs. Tracking of pregnant women suffering from various health related problems e.g. blood pressure, diabetes, USG, etc., should be included for proper diet and treatment.

**********

# State/UT Convergence Plan (SCP)

1. The State Convergence Committee shall consist of the following:

| | |
|---|---|
| Senior most Principal Secretary of line Department (*nominated by Chief Secretary*). | **Chairperson** |
| Secretary, Planning | Member |
| Secretary, Finance | Member |
| Secretaries of line Ministries (DW&S, Health, RD,PRI, Education & Food). | Member |
| Secretary, Panchayati Raj | Member |
| State Mission Director, NRHM | Member |
| F&NB representative | Member |
| State representative from NIPCCD | Member |
| Principals, MLTC | Member |
| Director, WCD | Member-Secretary |

2. **Role of State/UT Convergence Committee:**

(a)      Consolidate and examine the requirements given in District Plans received from various Districts.

(b)      Segregate the item-wise requirements and seek the financial commitment before inclusion in the SCP.

(c)      On the basis of examination, determine the final requirement and prepare a State/UT Convergence Plan.

(d)      Indicate the roll-out plan, assign responsibilities of each department to avoid any over-lapping or consequent shifting of responsibility.

(e)      To submit the SCP for inclusion in State/UT APIP for approval by State/UT EPC before submission to the MWCD. The components which are to be funded from the State/UT budget need to be segregated and clearly mentioned in the APIP.

(f)      Ensure timely issue of sanction by each Department.

(g)      Prepare guidelines for release of funds for convergent actions directly to the DC/DM.

**\*\*\*\*\*\*\*\***

## District Convergence Plan (DCP)

1.  The District Convergence Plan Committee shall consist of the following:

| | |
|---|---|
| DM/DC/Collector | **Chairperson** |
| Chief Executive Officer (Zila Parishad/DRDA) | Member |
| District level PRI members | Member |
| SDMs of the Districts | Member |
| CMO/DMO, Health & Family Welfare | Member |
| District Planning Officer | Member |
| District Social Welfare Officer | Member |
| District Officer, Rural Development/MGNREGS | Member |
| District level officers from Departmentsof Health, DW&S, RD,PRI, Education & Food | Member |
| Field representative of FNB | Member |
| CDPOs | Member |
| DPO, ICDS | Member-Secretary |

2.  **Role of DCP Committee:**

(a)  Examine the need assessment made by the BCP for essential interventions at the Village/AWC level and the availability of resources.
(b)  Consolidate requirement of interventions at the District level.
(c)  Considering the need, each line Department to prepare their action plan at the District level for delivering the interventions relating to them.
(d)  Take inputs from PRI members including on the extent of community participation, etc.
(e)  Submit the consolidated District Convergence Plan to the State Government for approval and for earmarking the financial provisions.
(f)  Wherever required, the DCP Committee may make physical inspections to assess the need projected.

**Block Convergence Plan (BCP)**

1.  The Block Convergence Plan Committee shall consist of the following:

| | |
|---|---|
| Sub Divisional Magistrate | **Chairperson** |
| Block Development Officer(BDO)/TDO | Vice-Chairperson |
| Block representatives of Health (BMO/MO in charge of PHC/CHC) | Member |
| Block representatives of Departments of Education, DW&S, RD, Food and Public Distribution | Member |
| Block representatives of Department of Planning Social Welfare Officers at the block level | Member |
| Representative of Block/Nagar/Taluka Panchayat | Member |
| Principal, Anganwadi Training Centre | Member |
| Block level officer of MGNREGS | Member |
| Supervisors (5) on rotation basis | Member |
| CDPO, ICDS | Member-Secretary |

2.  **Role of BCP Committee:**

(a)    Need assessment of essential interventions at the Village/AWC level i.e. water, sanitation, food, health interventions, immunization, ANC/PNC, Vitamin-A, IFA, De-worming tablets, functioning of VHSNC, etc. and the availability of resources.

(b)    The assessment at the Village level will be done by AWW and Supervisor in association with PRI representative under the supervision of concerned CDPO/DPO. CDPO/DPO would submit the inputs to the area SDM.

(c)    Consolidate and assess requirement of interventions at the block level.

(d)    Considering the need, each line Department at the block level to propose their action plan at the Block level for inclusion in the DCP.

(e)    Involve PRI members actively in the assessing the need and seek their suggestions.

(f)    Submit the Block Convergence Plan to the District authorities for inclusion in the DCP and approval of DM.

3.    **Role of Panchayati Raj institutions:**

3.1        It is important for any field based programme to involve the community and the Panchayati Raj institutions.  For preparing the Convergence Action Plans, the role of PRIs is very important.  For this purpose, it is necessary that PRIs are not only active in their areas but are also aware about the Government programmes and their benefits.

3.2        Wherever PRIs are not active, an action plan for their capacity building should be included in CAP.  Their training can be imparted through SIRDs wherein 5 to 8 Master Trainers can be trained who, in turn, can train the PRI members.  Also, NIPCCD can prepare 4-5 training modules for On-line training of PRI members as well as field functionaries. These modules can be developed regional languages to enhance the reach and effectiveness.

National Nutrition Mission: Administrative Guidelines

## Joint Advisory to States/UTs

राकेश श्रीवास्तव
सचिव

Rakesh Srivastava
Secretary

DO No.NNM/58/2017-WBP

भारत सरकार
महिला एवं बाल विकास मंत्रालय
शास्त्री भवन, नई दिल्ली-110001

Government of India
Ministry of Women & Child Development
Shastri Bhawan, New Delhi-110001
Website : http://www.wcd.nic.in
Dated: 18th January, 2018

Dear Chief Secretary,

As you are aware, Anganwadi Services under the Umbrella Integrated Child Development Services Scheme envisages convergence of nutrition and health programmes. Supplementary Nutrition is one of the six services provided under the scheme.

2. The concept behind integrated services under the scheme is based primarily on the consideration that the overall impact will be much higher if the different services are delivered in an integrated manner. For this inter-sectoral convergence of ICDS with various programmes implemented by the line Ministries/Departments e.g. Rural Development and Health & Family Welfare is essential.

3. Ministry of Rural Development is implementing the *Deendayal Antyodaya Yojana- National Rural Livelihoods Mission (DAY-NRLM)* as a poverty alleviation programme across the country. The aim of the programme is to mobilize one woman from each of the rural poor families in to SHG, federate the SHGs into higher level federations, build capacity of these federations to take up diversified livelihoods and promote linkages with Banks for credit linkages. At present, programme is operational in 34 States/UTs in 279049 villages. The Mission has also commented utilizing the platform of SHGs to promote social programmes e.g. Swachh Bharat Mission and for generating awareness about Health and Nutrition as part of the Dashasutri Approach.

4. The above scheme *(DAY-NRLM)* with the Anganwadi Services can definitely play an important role in not only improving the life of the villagers but also for holistic development of the children and reducing the level of malnutrition in the country.

5. In this context, the Government has taken a decision that MWCD and MoRD should take efforts towards effective convergence of DAY-NRLM and ICDS to ensure better monitoring of the nutritional improvement programmes for the PW&LM and Children by active participation of local SHGs of Women. In this regard, a Joint Advisory on Nutrition has been signed by me with Secretaries, Rural Development and Health & Family Welfare, a copy of which is enclosed.

7. To ensure that the above convergent actions take place at the ground level, it is essential that the State Secretaries of Department of Women and Child Development, Department of Rural Development and Department of Health jointly plan and implement the above convergent action. States/UTs are also advised to develop necessary convergence proposals between DAY-NRLM and Anganwadi Services immediately and operationalize it immediately.

8. We would, therefore, request you to issue necessary directions to the concerned Departments to take action for convening joint meetings at the State, District and Block level of the functionaries, to put in place a convergence mechanism to ensure that it happens at the ground level. We solicit your co-operation in operationalizing the aforesaid convergence plan.

With regards,

Yours sincerely,

(Rakesh Srivastava)

Chief Secretary of all States/UTs

Shastri Bhawan, Dr. Rajender Prasad Road, New Delhi-110001

## JOINT ADVISORY ON NUTRITION
### (M/o RD, Mo/WCD, Mo/HFW)

I.  **Purpose:** To bring Convergent efforts in NHM, DAY-NRLM, and ICDS for improving nutritional outcomes in the National Nutrition Mission.

II.  **Objective:**

Despite multiple interventions on several fronts, India has not been able to overcome its nutritional challenges. With every 2nd woman Anaemic, every 3rd child under 5 years Stunted, and every 5th under 5 years child Wasted, malnutrition is a lived reality for many in this India(NFHS 4).

Malnutrition is a multidimensional problem and different Ministries and Departments face the challenge of working closely with State Governments to bring improvements in the sector through various Schemes and Programmes. Thus, improved results will be visible when these different efforts join forces by converging their resources, skills and knowledge. Government of India has recently approved the National Nutrition Mission (NNM) with a clear focus on tackling malnourishment in the country. The key strategic approach of NNM is Inter-Ministerial Convergence and Coordination.

With this objective, this Joint Advisory identifies and recommends some of the key areas where Convergence can be achieved in the following flagship Schemes:

| Sr. No. | Ministry | Programme |
|---|---|---|
| 1 | Ministry of Rural Development | Deendayal Antyodaya Yojana National Rural Livelihoods Mission (DAY-NRLM) |
| 2 | Ministry of Women and Child Development | Integrated Child Development Services (ICDS) Scheme |
| 3 | Ministry of Health And Family Welfare | National Health Mission |

III.  **Modalities for Convergence:**

**1. Convergence through Village, Health, Sanitation, and Nutrition Day (VHSND):**

Village, Health, Sanitation, and Nutrition Day (VHSND) (Joint structure of MoHFW and MWCD)is organised once every month and provides services like registration of all pregnant women, ANC, weighing and recording all children, vaccination, counselling and discussing various issues related to nutrition, health and sanitation etcand thus it is an important forum for Convergence. The VHSND is attended by field level functionaries of Health and Nutrition Department like ASHA, ANM and AWW.

Convergence should be strengthened at VHSND through participation of VOs, SHGs and Cluster Federations.

**Role of VOs/ SHGs in VHSND:** In order to promote the message of facilities available at VHSND and to mobilise all beneficiaries to participate in the VHSND, it is suggested that

1.

National Nutrition Mission: Administrative Guidelines

members of SHGs, VOs, and Cluster Federations should participate in the VHSND meetings. And vice versa, ASHAs/ AWWs/ ANMs should occasionally participate in the cluster meetings of SHGs.

6-24 months is critical as it is during this time that vulnerable children slide into malnutrition and currently the AWWs and ASHAs have limited contact with the mother and child in this crucial period. Thus woman SHGs have a huge role in leadership, adopting and communicating the message for Behaviour Change.

**Role of Fieldworkers in Promoting VHSND Activities**: Similarly, field workers- ASHA and AWW should intimate the VO groups in advance about the date of the next VHSND by participating in the monthly VO meetings. During their interaction with the VOs in the monthly meetings, the AWW and ASHA can orient and generate awareness amongst the members on Health and Nutrition related issues. They should hold discussions around critical areas like Institutional Deliveries, Survival, Protection and Empowerment of the girl child (*Beti Bachao Beti Padhao*), Early Initiation of Breastfeeding, Exclusive Breastfeeding for first 6 months, Complimentary Feeding after 6 months, Regular Immunisation, Use of ORS and Zinc to treat diarrhoea and importance of safe and sanitised environment, hand washing and consumption of safe drinking water etc.

2. **Convergence for Behavioural Change and Communication:**

Behavioural Change is a key component of success in the battle against malnutrition. Thus, behaviours and practices promoting good health, nutrition and hygiene is the essential in achieving Nutrition Outcomes.

**Role of MoWCD, MoHFW and MoRD:** Many interesting IEC tools have been developed under the ICDS Programme and NHM and there is a need for localised, contextual versions of these Modules to be made available to MoRD and the States and UTs for extensive use at the community level. Also, booklets and pamphlets on Government initiatives and newly launched programmes like PMMVY etc should be prepared in simple language and shared with field functionaries and VOs, SHGs and PRIs for wider dissemination.

Under the DAY-NRLM Programme of MoRD, funds are available for training and Capacity Building of the VOs and the Modules and simple Booklets prepared on Health and Nutrition by MoWCD and MoHFW may be used in some of these training programmes.

All States and UTs should ensure the spread and outreach of BCC messages to all beneficiaries through periodic field visits and spot checks.

Additionally, Experts in the areas of Health and Nutrition may be engaged from time to time to impart training on these issues to the VOs, SHGs, and Cluster Federations.

Thirdly, fieldworkers and the VOs can tap into indigenous systems of knowledge dissemination available at community level like folktales, plays, etc and use them during VHSND and on other important occasions when the community gets together to spread messages around Health and Nutrition.

2

## 3. Convergence for Monitoring and Management of Nutritional Status of Women and Children:

**Role of VOs and SHGs:** The VOs and SHGs can be a useful medium to keep a check on work being done by the AWW and ASHA, and also to look over the timely and smooth conduct of VHSND. Members of these bodies, in close collaboration with PRI representatives, can act as pressure groups to ensure timely service delivery by the Health and ICDS machinery at the village and community level.

Secondly, the VOs and SHGs should coordinate with ASHAs to track the families of children who are discharged from NRC centres under NHM and mobilise women from these families to join SHGs and link them to other livelihood interventions.

Thirdly, untied funds with VHSNCs should be used for referring and treating the women and children who require medical care. Vulnerability Reduction Funds (VRFs) available with VOs under MoRD should also support the transport expenditure of SAM children (identified in the village) from village to NRC/ health facility.

Lastly, VOs should mobilise women and children to participate in growth monitoring sessions at *Anganwadis*.

**Role of ASHAs:** ASHAs will undertake home visits of every child every two months from 4th months post birth till one year to monitor their nutrition status. This is expected to help in prevention, early detection and timely treatment in case the women or child is perceived to be at risk.

**Role of AWW and CDPO:** The field functionaries of MoWCD will be provided with smartphones and tablets to ensure ICT based real time monitoring of Women and Children under the National Nutrition Mission.

## 4. Convergence through Common Use of Infrastructure:

It is suggested that Panchayat Buildings, spaces provided by the Panchayat or Community Centres may be used to conduct Joint Meetings of all field functionaries under different programmes, organize VHSNDs, other events and programmes related to Health and Nutrition.
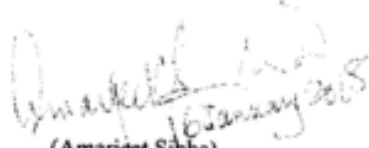

## 5. Promoting Livelihoods for Women's Collectives

Under the broader policy guidelines of respective State Governments, ICDS, NHM, and SBM will explore possibilities for supporting livelihoods for the women's collectives in the following areas:
- Supply of vegetables, eggs, milk, hot cooked meals and Take-Home Rations under the ICDS
- Supply of Sanitary Napkins to Schools for adolescent girls.

All three Programmes of ICDS, NHM and DAY-NRLM will monitor the work being done at the village level through their respective monitoring framework and monthly progress

3

National Nutrition Mission: Administrative Guidelines

reports. Reports will be jointly discussed at the District and State Level on a quarterly basis and necessary action initiated to address bottlenecks in convergent action, if any.

**Overall Workflow of ICDS-CAS**

1.      Workflow of software application from the frontline functionaries to the implementing and monitoring authorties.
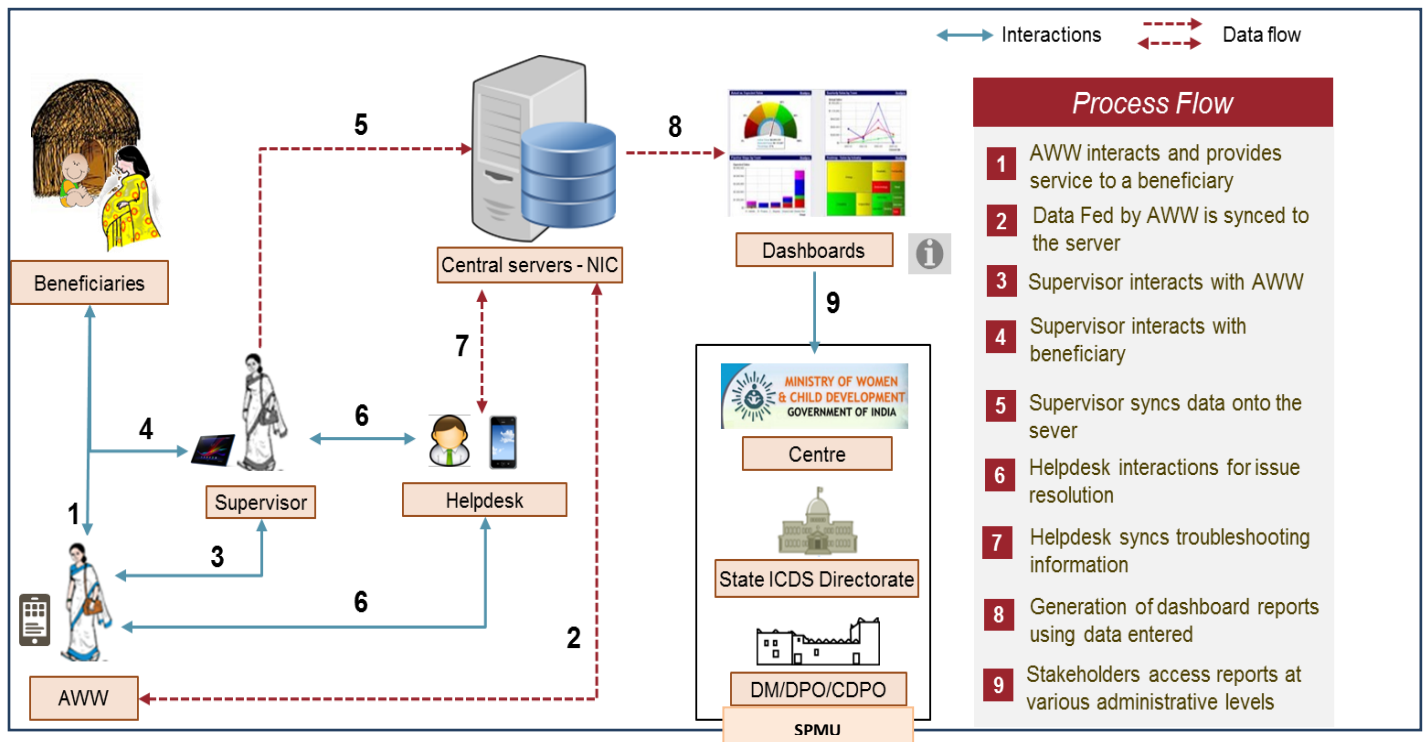

**Specifications for Smartphones, Tablets and Growth Monitoring Devices**

F. No. NNM/59/2017-CPMU
Government of India
Ministry of Women & Child Development
*****

Shastri Bhawan, New Delhi - 110001
Dated the 17 January, 2018

To
The Principal Secretaries/ Secretaries, Department of Social Welfare / Women
& Child Development, All States/ UTs

Subject: Specifications of Smart phone, Tablet and Power bank under
National Nutrition Mission (NNM) – regarding

Sir/Madam,
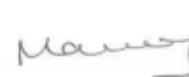

Please refer to this Ministry's letter No. NNM/7/2017-WBP dated 18th
December, 2017 vide which administrative approval for setting-up of National
Nutrition Mission (NNM) was conveyed to all the States and UTs.

2. One of the key activities under NNM is Information and Communication
Technology enabled Real Time Monitoring (ICT-RTM) of Anganwadi Services.
To monitor service delivery through ICT, Common Application Software (CAS)
and IT-related assistance is to be provided to the field functionaries. All
AWWs are to be equipped with a smart phone for capture of data and Lady
Supervisors with a tablet. These devices will be procured at State/UT level and
are to be pre-loaded with the application software (ICDS-CAS). The software
and guidelines will be provided separately.

3. In this regard, I am directed to forward herewith the specifications of Smart
phone, Tablet and Power bank. These devices have to be procured through
Government e-Marketplace (GeM).

4. States/UTs are requested to take necessary action for procurement of
Smart phones, Tablets and Power banks through GeM.

Yours faithfully,

Encl: as above

(Manoj Kumar Singh)
Director

National Nutrition Mission: Administrative Guidelines

F. No. NNM-29/86/2017-WBP
Government of India
Ministry of Women & Child Development
*********

Shastri Bhawan, New Delhi,
Dated the 9th January, 2018

To

The Principal Secretaries/ Secretaries, Department of Social Welfare / Women & Child Development, All States/ UTs of India

**Subject**: Specifications of Growth Monitoring Devices {Stadiometer, Infantometer, Weighing Scale (Infant) and Weighing Scale (Mother and Child)} under National Nutrition Mission (NNM) – regarding
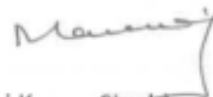

Sir/Madam,

Please refer to this Ministry's letter of even No. dated 18th December, 2017 vide which administrative approval for setting-up of National Nutrition Mission (NNM) was conveyed to all the States and UTs.

2. One of the key activities under NNM is Information and Communication Technology enabled Real Time Monitoring (ICT-RTM) of Anganwadi Services. To monitor service delivery through ICT, Common Application Software (CAS) and IT-related assistance is to be provided to the field functionaries. All AWWs are to be equipped with a smart phone for capture of data and Lady Supervisors with a tablet. These devices will be procured at State/UT level and pre-loaded with the application software. The specifications of Smart Phones and Tablets will be sent separately.

2. In order to ensure accurate records of weight and height of all beneficiaries which include, pregnant women, lactating mothers, new born babies and children upto 6 years; Growth Monitoring Devices shall be procured for all Aanganwadi Centres (AWCs) under NNM. The Growth Monitoring Devices will include Infantometer, Stadiometer, Weighing Scales (infant) and Weighing Scales (mother & child). AWW will record the weight every month and height/length every 3 months through the software application to track underweight, stunting and wasting.

4. The availability of Growth Monitoring Devices {Infantometer, Stadiometer, Weighing Scale (Mother and Child) and Weighing Scale (Infant)} with the AWCs implementing ICT-RTM is very essential in order to monitor the growth of the beneficiaries and to update the information into the ICDS-CAS application.

National Nutrition Mission: Administrative Guidelines

5.   In this regard, I am directed to forward herewith the specifications of Infantometer, Stadiometer, Weighing Scale (Mother and Child) and Weighing Scale (Infant). These devices have to be procured through Government e-Market Place (GeM).

6.   States/UTs are requested to take necessary action for procurement of Growth Monitoring Devices {Infantometer, Stadiometer, Weighing Scale (Mother and Child) and Weighing Scale (Infant)} through GeM.

Yours sincerely,

(Manoj Kumar Singh)
Director
Ph: 23386553
mksingh.ofb@nic.in

National Nutrition Mission: Administrative Guidelines

Technical Particulars of Infantometer, Stadiometer, Weighing Scale (Infant), Weighing Scale (Mother and Child) to be used under National Nutrition Mission

1. **Infantometer**

*Specification:*

1. Portable board for measuring length of baby.
2. Designed to measure length of baby in recumbent position.
3. The board shall be firm, flat horizontal surface.
4. Fold-up mechanism and low weight, compact and easy to transport.
5. No part should be loose or shaking during transportation.
6. Simple and fast set up, no tools (screwdriver, etc.) required.
7. Stable connections, assuring precise and accurate measurement.
8. No need for calibration, all parts to be in fixed position.
9. Long lasting, easy to read in low light conditions.
10. Double sided graduation for easy measurements.
11. Orientation of numerals on the measurement scale: parallel to the board.
12. Facilitating quick and easy reading of results.
13. Unit of measure: centimeters.
14. Smallest graduation: 0.1 cm.
15. Precision :(+) or (-) 0.1 cm.
16. Width on the board 30 cm approx.
17. Fixed head board and smoothy moving foot board.
18. Angled edges (curved) to prevent baby from rolling sidelong.
19. No sharp edges or corners.
20. Design for heavy duty use in demanding circumstances.
21. Durable,resistanttoeffectsofexcessivehumidityandhightemperature,waterresistant and shock resistant.
22. Board should be made of 6mm (Six millimeter)ABS Plastic.
23. Measurement range: Should be able to measure up to 100 cm at least;
24. Accuracy; (+) or (-) 0.1 cm.

**General Condition:** All the items/models shall be duly approved by weights and measurement authority. The units offered for the supplies shall be duly calibrated as per the procedure of department of legal metrology.

National Nutrition Mission: Administrative Guidelines

**General Condition:** All the items/models shall be duly approved by weights and measurement authority. The units offered for the supplies shall be duly calibrated as per the procedure of department of legal metrology.

## 2. Stadiometer

*Specification:*

1. Designed to measure height of adult and children aged 24 months and above in vertical positions.
2. Firm flat vertical surface.
3. Fold up mechanism and low weight making it compact and easy to transport.
4. No part should be loose or shaking during transportation.
5. Simple and fast set up, no tool (screw driver etc.)should be required.
6. Stable connection, assuring precise and accurate measurement.
7. No need for calibration as all parts have prefixed position.
8. Double sided graduation for easy measurements.
9. Orientation of numerals on the measurement scale: parallel to the board.
10. Unit of measure: centimeters.
11. Smallest graduation: 0.1 cm.
12. Measurement range: Should be able to measure upto 200cm at least;
13. Accuracy (+) or (-) 0.1 cm.
14. Width/depth of the board: approx. 5.5 cm.
15. Large footplate, providing extra stable base and smoothly gliding measuringslide/wedge.
16. Adjustable feet for stability on uneven or soft ground.
17. Sprit level indicator to check flat surface.
18. Friction feature between board and measuring slide/wedge for preventing the latter from drooping when release.
19. No sharp edge or corner.
20. Designed for heavy duty use in demanding circumstances.
21. Durable, resistant to effect of excessive humidity and high temperature, water resistant and shock resistant.
22. Board should be made of Mild Steel (Rust proof)/Aluminum.
23. Precision: (+) or (-) 0.1 cm;

*Supplied with:*

1. Carry bag or carry case(i) made of long lasting fabric, (ii) zipper closer (iii) removable, adjustable shoulder/back strap(s) and (iv) small side pocket for storage of operating instructions, loose parts and/or stationery material.
2. Instructions for use, training, maintenance and trouble shooting in English, Hindi and any other regional language as per requirement, appropriately illustrated with pictograms.

*Packaging:*

Packed in a carton box which should be of sturdy quality and provides adequate protection of the goods while transportation.

**General Condition:** All the items/models shall be duly approved by weights and measurement authority. The units offered for the supplies shall be duly calibrated as per the procedure of department of legal metrology.

National Nutrition Mission: Administrative Guidelines

3. **Weighing Scale (Infant)**

*Specification:*

1. Spring type mechanical scale for infants;
2. Measuring range: 0-25kg;
3. Minimum graduation: 100g
4. Reading time in seconds: less than 15 seconds;
5. Readout in kg;
6. Display: Dial diameter between 15 to 20 cm. Easy readable in low light;
7. Easy reset-to-zero function;
8. Damping/stabilizing mechanism for faster reading of results;
9. Fit with 2 hooks, non-removable. Upper for fixation and lower for attachingweighing trouser     or sling;
10. Mechanics and other vital parts are made of rust proof materials;
11. Hooks: stainless steel;
12. Dial: plastic (ABS) with Perspex cover;
13. Body: Plastic (ABS)
14. Calibration screw: stainless steel;
15. Body and mechanics should be water proof, shock resistant;
16. Smooth surface;

17. Supplied with water proof & upholstered bag for carrying;
18. User instruction in pictogram style;
19. Each scale should be packed in a carry bag, packed in a carton box;
20. Estimated weight: 1.00 kg (approx.);
21. To be supplied with (a) Sling and (b) Weighing Trousers

a. **SLING (Baby Weighing)**

1. Quality cotton fabric, strong and non-elastic;
2. Square shape, 0.80x 0.80 m, prior to washing;
3. Edges are double seam finished;
4. Easy to iron;
5. Corners can be knotted together to hold baby securely when suspended from thescale;
6. Supply with text and pictorial instructions for usage and maintenance;
7. Bag for carrying and/or storage;
8. Approx. weight: 0.110kg;

**(b) Weighing Trousers (Baby Weighing)**

1. Trousers: Strong and easy maintenance fabric;
2. With strap for suspension from spring scale;
3. Trousers are able to hold infants up to 25 kg;
4. Carry bag: with shoulder strap, overlapping flap and closure, fits 5 weighingtrousers.
5. User instructions on how to position the infant and instruction for washing;bothin pictogram     style are fixed on trousers and bag.
6. Washable by hand and/or machine;
7. Approx. weight: 0.100 kg;

**General Condition:** All the items/models shall be duly approved by weights and measurement authority. The units offered for the supplies shall be duly calibrated as per the procedure of department of legal metrology.

National Nutrition Mission: Administrative Guidelines

## 4. Weighing Scale (Mother and Child)

### Specification:

Electronic weighing scale of class -III accuracy with LCD/LED or VFD display duly certified and stamped by weight and measures department and confirming to IS:9281(Part-1 & 2)/1979, IS: 9281 (Part 3)/1981, IS 9281 (Part-4)/1983 (reaffirmed2006) and Details of specification as given below:-

1. Digital weighing scale displaying the measured weight in a digital format;

2. Lithium battery to be used for measuring and displaying the weight;

3. Measuring range: 0 to 120 Kilograms (Kegs);

4. Minimum Graduation/Resolution: 100 grams (g);

5. Accuracy: 100 g;

6. Reading time: 5 seconds;

7. All vital parts made of rust proof materials;

8. Packed in long lasting fabric bag put in a carton.

9. It should have tare feature;

10. It should have Anti-skid feature.

**General Condition:** All the items/models shall be duly approved by weights and measurement authority. The units offered for the supplies shall be duly calibrated as per the procedure of department of legal metrology.

# Role and Key Responsibilities of the States/UTs for ICT-RTM

1.      The State/UT will be responsible for planning, procurement, deployment, training, and providing handholding support. The key responsibilities of the State/UT in regards to ICT-RTM as part of ICDS-CAS is detailed below.

2.      **Project Planning:**

(a)      Nominate a Nodal Officer.

(b)      Prepare a State ICT-RTM plan entailing details of:

    (i)      Districts, Blocks and AWCs identified for implementation of ICT-RTM.

    (ii)     Scheduleofthe activities required for roll-out of ICT-RTM in the identified Districts.

    (iii)    Risks and steps for mitigation.

(c)      Closely monitor the progress of the activities

3.      **Procurement of Devices and SIM Cards:**

(a)      Estimate the number of devices to be procured for AWWs, Supervisors and Block level personnel.

(b)      Procure the devices through GeM portal.

(c)      Identify mobile connection plan with the telecoms, which have effective coverage in the nominated districts. States/UTs may consider data plans with 4G connectivity wherever feasible.

(d)      Procure SIM cards and ensure regular recharge of mobile connections.

(e)      Institutionalize the mechanism for identifying, collecting and replacing damaged or lost devices.

4.      **Deployment of CAS solution for ICT – RTM**

(a)      Formulate the 11 digit AWC code based on sector, project, district and state.

(b)      Verify proper installation and configuration of CAS on the devices

(c)      Engage State Information Officers (SIO) and District Information Officers (DIO) for providing support towards deployment of CAS

(d)      Supervise allocation and deployment of devices to users (with SIM cards and active mobile connections)

(e)     Enable creation of User account for the AWW and Supervisors within the application through the helpdesk staff

(f)     Facilitate creation of User accounts for State/UT officials to access web-based reports and dashboards

(g)     Institutionalize processes relating to User Management, troubleshooting, etc.

5.     **Training to ICDS Officials**: (DPOs, CDPOs etc.), ICDS functionaries (AWWs, Supervisors) and members of associated State/UT departments (IT mission, State Skill Development Mission, National Health Mission, Panchayat Raj, Rural Department, Finance Department)

(a)     Identify master trainers.

(b)     Prepare a systematic training plan and schedule trainings for AWWs, Supervisors, CDPOs, DPOs, DIOs and SIOs, SPOs.

(c)     Organize logistics for training including venue, resources and content.

(d)     Print and disseminate standard training materials issued by MWCD.

(e)     Conduct refresher trainings for all field level resources.

6.     **Provision of handholding support/personnel:**

(a)     Engage/hire personnel for helpdesk and maintenance support.

(b)     Train the personnel on CAS solution.

(c)     Deploy personnel at Block, District and State level for troubleshooting, hand holding support, monitoring and training reinforcement.

(d)     Collaborate with members of associated State/UT departments such as IT mission, State Skill Development Mission, National Health Mission, Panchayat Raj, Rural Department, Finance Department etc. for assistance in implementation.

## Broad Guidelines for Implementing Incremental Learning Approach at State/UT Level

1.        The National Nutrition Mission (NNM) envisages establishing a system where programme functionaries will become more effective by learning to plan and execute each task correctly and consistently through methodical, ongoing capacity building, called 'Incremental Learning Approach (ILA)'. Such a system will use opportunities in the form of existing supervisory interactions at different levels, through which practical and guided learning may be accomplished. The proposed system envisages breaking down the total learning agenda into small portions of doable actions as  the range of skills and tasks to be learnt is quite substantial, and since adults naturally learn by doing rather than through theory alone.

2.        **Technical and Training Responsibilities:** District Resource Group (DRG) and Block Resource Group (BRG) members and other external and internal facilitators will ensure that detailed plans are made for each monthly cycle, related teaching-learning materials are created or made available in sufficient numbers, and the technical integrity of training and operational planning during the month is not compromised. Some of the members may have administrative responsibilities as well.

3.        **Administrative and Managerial Responsibilities:** Supervisors and programme leaders at each level ensure implementation as planned, ensure that data becomes available for review, use data and evidence for review and monitor progress of outputs and outcomes as planned. They may also be resource persons and members of DRG and BRG, but their main responsibility is in ensuring that planned actions are executed. If they are not also members of DRG or BRG, they will require separate technical inputs to play their roles as leaders and managers effectively.

4.        **Steps for Implementing the Incremental Learning Approach (ILA):**Incremental Learning sessions or trainings will be planned and organized monthly at the district, block and sector level. Participants will include members of the district and block resource groups and all AWWs as per the recommended organization. The participation of members from the Health Department is desirable and an effort should be made to involve them. In preparation of IL sessions, the state should carry out the following:

   (a)    Constitute the State Resource Group (SRGs) from amongst the staff and consultants of the State ICDS Directorate and training institutions.

   (b)    Constitute District Resource Groups (DRGs) and Block Resource Groups (BRGs) for all districts and blocks covered under NNM.

(c)      Issue instructions/directives (preferably jointly with the Health Department) to all districts/blocks about ILA.

(d)      Inform the districts and blocks about financial norms, allocations, utilization certificates and reporting mechanisms.

(e)      Put in place financial approval systems that ensure timely availability of funds at all levels to prevent any delays in the organization of these sessions due to paucity of funds.

(f)      Develop district and block level micro plans for conducting IL sessions that is schedules for meetings at the district, block and sector levels.

(g)      Communicate these plans to DRG and BRG members and AWWs to ensure that they are pre-informed of the schedule and are well prepared to attend the sessions. A fixed day per month approach may be adopted for this.

(h)      Ensure timely printing and supply of materials including modules, AWW take-aways and flip book for each IL session, up to all blocks.

(i)      Knowledge tests drawing upon the e-ILA modules will be administered at the end of each IL session to assess the learning of participants at the end of the session.

(j)      The IL sessions will be rolled out in a cascade manner.

5.      The List of ILA Modules is as under:-

| SiNo. | Name of the Module |
|---|---|
| 1 | Why this Monthly Meeting ? |
| 2 | Making or updating Home Visit Planner & Initiating Home Visits |
| 3 | Planning and Organizing Community Based Events at AWC |
| 4 | Observing Breastfeeding in Newborn Babies - Why and How |
| 5 | Identification and Care of a Weak Newborn baby |
| 6 | Complementary Feeding: Diet Diversity |
| 7 | Preventing Anemia in Women |
| 8 | Assessment of Growth in Children |
| 9 | Ensuring that Complementary Feeding improves over time |

| | |
|---|---|
| 10 | Ensuring Exclusive Breastfeeding |
| 11 | Care of the Weak Newborn Baby - How many weak babies are we missing? |
| 12 | How to ensure timely initiation of Complementary Feeding |
| 13 | Identifying and preventing Severe Acute Malnutrition |
| 14 | Feeding During Illness |
| 15 | Supporting mothers with issues in Breastfeeding |
| 16 | How to take care of weak newborn with the help of Kangaroo Mother Care |
| 17 | Identification & Referral of Sick Newborn |
| 18 | Preventing illnesses to avert Malnutrition and Death |
| 19 | Prevention of Anemia in girls and adolescents |
| 20 | Birth Preparedness- For Institutional and Home Delivery |
| 21 | Preparation During Pregnancy: For NewBorn Care & Family Planning |

## Guidelines for Conduct of CBE

1.  **Events to be organized on following themes:** The CBE activity will be conducted on the above given themes based on State/UT based needs. The CBE can be followed up with discussion on WASH, hand washing etc.
    (a)     Inviting women during the first, second and third trimester of pregnancy.
    (b)     Annaprasan Diwas.
    (c)     Suposhan Diwas (focus on orienting husband).
    (d)     Messages related to Public Health for improvement of Nutrition and to reduce illness.

2.  **Periodicity:** Any one event may be organized in a month on a fixed day of the week at Anganwadi Center or any other place in community such as Mahila Mandal Bhawan, Panchayat Ghar/Bhawan, Choupal etc.

3.  **Duration:** 1.30 hours flexible timing, convenient to the community to participate.

4.  **Participants:**

    (a)     **Primary beneficiaries:** Pregnant women, lactating mothers, mothers of children under two years of age. Influencers of pregnant women and lactating mothers, such as husbands and mothers-in- laws.

    (b)     **Service providers:** Aanganwadi Workers, Lady Supervisors, ANM, ASHA, Child Development Project Officers of ICDS, District Program Officers of ICDS, Officials of ICDS Directorate, PRI Members, Women SHG Members, Teachers and District Administration.

5.  **Method of Communicating Messages:**

    (a)     Try and ensure that women and children to the relevant age group participate in the event.
    (b)     Presence of elders from the same families, or other influential opinion leaders could make the communication more effective.
    (c)     Use correct key messages as prescribed in ICDS/NRHM relevant to the participants.
    (d)     Convey messages in conversational and simple language using local terms and dialect.     Use available IEC materials provided in ICDS/NRHM, if need be. Make the messaging interactive, rather than didactic, wherever possible.

6. **Monitoring and Supervision:** AWW will keep a record of event held, with dates, the name of beneficiary (s) for whom the event was organised, number of participants and theme covered in events;

(a)    Supervisor will oversee these records and ensure that AWW has provided necessary inputs as follow up to the eligible beneficiaries, during their home visits;

(b)    Consolidated number of events celebrated sector-wise per month will be kept as record at the CDPO Office for quarterly reporting to the districts/ SPMU in a prescribed format.

(c)    By using ICT RTM technique it is suggested that AWW can click the picture of the event covering all the beneficiaries and IEC material by mobile and send online.

**\*\*\*\*\*\*\*\***

## Strategies for Jan Andolan Campaigns

Following are some of the suggested strategies for creating effective Jan Andolan Campaigns. This is only a suggested list and States/UTs may consider other innovative methods for initiating effective local campaigns.

a.     A curriculum on nutritional aspects for education of general masses.

b.     An On-line Course on Nutrition for Children which can be provided free of cost to the general public as well in schools and colleges to educate them on nutritional aspects.

c.     Children to be encouraged to participate in various cultural activities to be taken up at the AWCs e.g. wearing dresses depicting vegetables, different colors, fruits, etc.

d.     Nutrition message from folk songs and songs on WASH could be development to address the public.

e.     Telephone service providers can be approached for sending messages on nutrition and also creating ring-tones.

f.     At the AWCs, photographs of healthy mother and child could be displayed to create a sense of encouragement to the beneficiaries.

g.     Yoga can be promoted at the AWCs for the beneficiaries.

h.     In the cultural and other programmes in which Adolescent Girls take part nutrition subject can be linked in various ways i.e. songs, messages, charts dramas, etc.

i.     Strategies like organizing competitions at community level, rewarding PRIs with good achievement etc. may be adopted.

j.     Capture the opportunity of festivals.

k.     Organize event when child is 6 months old, on initiation of supplementary feeding.

l.     Activities like formation of Human Chain, Cycle Race, inviting Officials/Politicians/PRI leaders etc. can be organized.

m.     Program on All India Radio/Local Radio/TV be telecasted

n.     Comparing Child's photo with photo of healthy baby of same age can be done to sensitize mothers and family members.

o.      Freshly inducted IAS/State Service Officials needs to be sensitized on the issue of nutrition.

p.      PRIs/VOs/SHGs can be involved to convert this fight against malnutrition into a Jan Andolan. In this regard, the Joint Advisory dated 18th January 2018 detailing the strategy and roles of VOs/SHGs can be referred at **Annexure XI.**

<div align="center">

</div>

## Broad Guidelines for Innovation

The States/UTs will develop the proposals for the innovation pilots and pose them to MWCD for approval. States/UTs will be assisted in developing, designing and implementation of the pilots by agencies which are in technical collaboration with MWCD. The States/UTs would be required to make detailed presentations of their proposals to MWCD in Consultation with NNM team.

2. **Criteria for Considering the Pilot Proposals for Approval:** The project proposal shall be evaluated on the basis of the following parameters;

(a) It must clearly mention its objective aiming at one or more clearly indicated nutritional outcomes to be achieved or significantly bettered. It should also indicate the target group and the benefits the implementation of innovative pilot is likely to accrue to them. It should:

(b) Indicate conceptual clarity and relevance.

(c) Lineate implementation strategy and timeline.

(d) Lay out a clear monitoring and course correction mechanism.

(e) Indicate implementation structure and funds flow.

(f) Depict scalability and contextual specificity.

(g) Indicate a feasible and realistic mechanism of convergence and the institutional arrangements for the same.

3. **Monitoring and Evaluation:** The convergent nutrition action innovation pilots will have a clear action plan and timelines. They will also incorporate a robust monitoring and evaluation structure which will include measures to be used to assess the impact and implementation rigor, and a detailed mechanism for monitoring based on a select set of monitoring indicators.

********

## Functionality of Call Centre

1.      **In-Bound Call Centre Operations:** The call centre will act as a grievance redressal forum and will enable the beneficiaries i.e. pregnant women, lactating mothers and households. The key functionality/ services to be provided are as given below:

(a)      Receive complaints and feedback regarding deficiencies in health service provided to beneficiaries.

(b)      Registering and tracking of grievances regarding the deficiencies in service delivery and entitlements.

(c)      Citizen's feedback regarding improvement of service delivery with respect to quality of care, safety, courtesy and other aspects, may be received and sent to the concerned departments for appropriate action.

2.      The Officials at Ministry of Women and Child Development / State Project Management Units may resolve the grievances immediately or as early as possible. In view of this the grievance redressal process is broadly divided into the following two categories:

(a)      **Real Time Redressal:**  A system where grievances may be resolved by call centre agent as soon as they are received. This would involve guiding the beneficiary to the nearest AWC by sending her an SMS or sending them details of nearest AWW so they may contact her.

(b)      **Time Bound Resolution:** It may not be possible to resolve many of the reported grievances immediately. For that, grievances may be registered and the concerned authority (MWCD, SPMU/DPO, LS, and AWW) may be notified to resolve them. Defined time limits may be prescribed at different levels and respective nodal person may be made responsible for the resolution of the grievances.

3.      **Outbound Call Centre Operations:** The outbound call centre operations shall include the following activities:

(a)      Opening and registering of tickets based on SMS alerts generated by the ICDS CAS system i.e. SMS to beneficiary in case the child is under nourished and falls under the red zone in the dashboard.

(b)      Call Centre Agent shall make calls to SPMU/CDPO etc. as per the Follow-up protocols.

(c)      SMS/ email alerts shall be generated/ triggered on ticket generation and window shall be provided to users at MWCD and State to monitor the real time status of each ticket and take follow-up action.
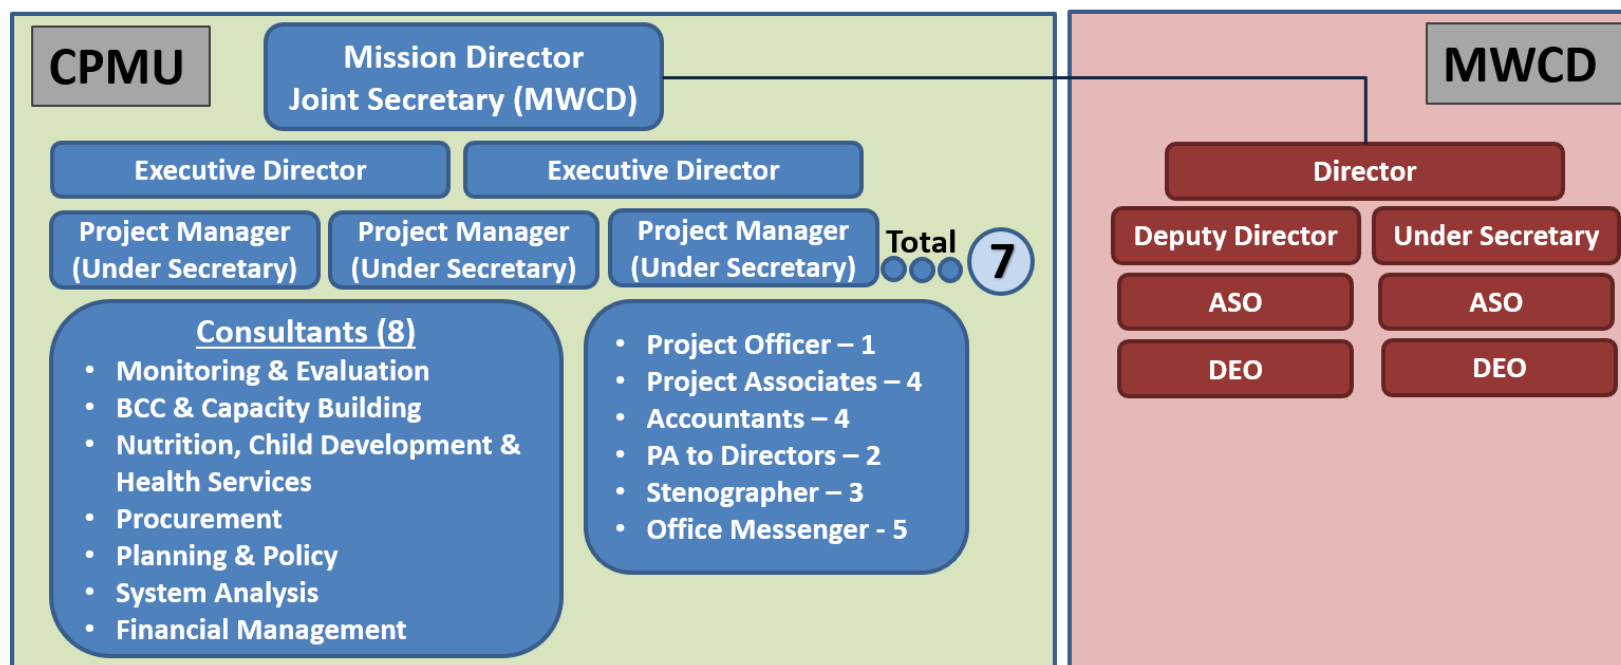

## Key Functions of National Nutrition Resource Centre-
## Central Project Management Unit (NNRC - CPMU)

(a)      Provide technical advice and support to key sectors on nutrition by participating in the planning process of sectoral programmes.

(b)      Review existing policies and programme and provide support to MWCD and other Ministries to update the same.

(c)      Prepare implementation guidelines and Standard Operating Procedures for implementation of nutrition related programmes at the National and State levels.

(d)      Prepare modules and job aids on specific technical areas of nutrition.

(e)      Perform the role of a technical secretariat for the National Nutrition Mission and related bodies.

(f)      Participate and support preparation of APIPs of relevant Government interventions to bring nutrition focus.

(g)      Undertake review and suggest possible modifications to sectoral programmes for monitoring direct and indirect nutrition outcomes.

(h)      Engage with various stakeholders individually as well as through platforms on nutrition and promote partnerships towards nutrition action.

## Letter to Subsume ISSNIP as Part of NNM

F.No. 29/82/2017 -WBP
Government of India
Ministry of Women & Child Development
*******

*3ʳᵈ Floor, Jeevan Vihar Building*
*Sansad Marg, New Delhi*
*Dated the 8ᵗʰ December, 2017*

To

The Principal Secretary / Secretary,
Department of Social Welfare / Women & Child Development,
Government of Andhra Pradesh/ Bihar/ Chhattisgarh/ Jharkhand / Madhya Pradesh / Maharashtra/ Rajasthan/
Uttar Pradesh/ Odisha/ Uttarakhand/ NCT of Delhi

**Subject:** Renaming of ICDS Systems Strengthening & Nutrition Improvement Project (ISSNIP) as National Nutrtion Mission (NNM).
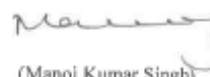

Sir/Madam,

Government of India has approved setting up of National Nutrition Mission on 30.11.2017. National Nutrition Mission aims to achieve improvement in nutritional status of children, pregnant women and lactating mothers and reduce anemia among children and women. It strives to reduce the level of stunting, under-nutrition, anemia and low birth weight babies. It will create synergy, ensure better monitoring, issue alerts for timely action, and encourage States/ UTs to perform , guide and supervise the line Ministries and the States/ UTs to achieve the targeted goals. The fixed targets are to be achieved in time bound manner for which action requires in mission mode across all the States. All the States and disctricts will be covered in a phased manner under National nutrition Mission (NNM).

2.    Restructured ICDS Systems Strengthening & Nutrition Improvement Project (ISSNIP) is currently under implementation. ISSNIP (Phase-I) would be implemented up to 30ᵗʰ June, 2018 to allow all States to achieve the agreed DLI targets .

3.    All the eight States currently under ISSNIP Phase-I namely Andhra Pradesh, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Maharashtra, Uttar Pradesh and Rajasthan and three States viz. Odisha , Uttarakhand and NCT of Delhi conducting innovative pilot under ISSNIP are informed that **ICDS Systems Strengthening & Nutrition Improvement Project (ISSNIP) has been renamed as National Nutrition Mission (NNM).** Hence, the project will be called as National Nutrition Mission and the name ISSNIP to be used only for limited purposes such as administrative matters, financial releases, booking of expenditure and its utilisation, DLI disbursements and audit purpose etc. till the closure of Phase -I of the project.

Yours sincerely,

(Manoj Kumar Singh)
Director to the Government of India
