STATE INCOME

The Gross State Value Added (GSVA) is defined as a measure in monetary terms of the volume of all goods and services produced within the geographical boundaries of the State, accounted without duplication during a given period of time. The Consumption of Fixed Capital (CFC) is deducted from GSVA to obtain Net State Value Added (NSVA). The entire economic activities have been classified into different sectors namely; agriculture, forestry & fishing, mining & quarrying, manufacturing, construction, electricity, gas, water supply & other utility services, trade, repairs, hotels & restaurants, transport, storage & communication, financial services, real estate, ownership of dwellings & professional services, public administration and other services for estimating the GSVA and NSVA of the State. The estimates of GSVA and NSVA are adjusted to product add taxes less subsidies to obtain Gross State Domestic Product (GSDP) and Net State Domestic Product (NSDP).

Per capita Income —The GSDP or NSDP of a year divided by the population of that year gives per capita income. These estimates are subject to revision necessitated by the availability of data at the moment and change in methodology. The figures of per capita income have been arrived at on the basis of population data supplied by Registrar General of India.

SECTION XIII

GROSS FIXED CAPITAL FORMATION IN HARYANA

Gross fixed capital formation in Haryana consists of additions to the assets of producers of tangible reproducible goods which have an expected life time use of one year or more. The main objective of these estimates is to assess the pace of development brought out as a result of investment both in public and private sectors. These estimates also provide insight as to the quantum of expenditure that has been made for the creation of capital assets during the year. For estimating the gross fixed capital formation, the entire economic activities have been classified into thirteen sectors, viz. Agriculture, Forestry, Fishing, Mining and Quarrying, Registered Manufacturing and Un-registered Manufacturing, Construction, Electricity, Gas and Water Supply, Transport, Storage and Communication, Trade, Hotels and Restaurants, Banking and Insurance, Real Estate and Ownership of Dwellings (Residential part only), Public Administration and other Services.

Table 13.1 and 13.2 - show the Gross Fixed Capital Formation in Haryana by industry of use at current and constant (2004-2005) prices, respectively.

Table 13.3 and 13.4 - show the Gross Fixed Capital Formation in Haryana by type of institutions at current and constant (2004-2005) prices, respectively.

Table 13.5 and 13.6 - show the Gross Fixed Capital Formation in Haryana by type of assets at current and constant (2004-2005) prices, respectively.

SECTION—XIV AGRICULTURE

Agriculture statistics regarding classification of area and production of Principal Crops and yield per hectare of major crops for the State as a whole and district-wise data have been presented in this section. It also contains data on land revenue assessment, area under high yielding varieties, area under fruits and vegetables, consumption of fertilizers, Agricultural Machinery and Implements including tractors and consolidation operations, etc. The information has been collected from Deputy Commissioners, Director of Land Records and Director of Agriculture and Farmers Welfare, Haryana and the data relates to agricultural year (1st July to 30th June.)

Area according to village papers—It is based on the returns of area prepared by village staff for revenue purposes in the districts.

Area under Forests—This includes actually forested area on the lands classed or administered as forest under any legal enactment dealing with forests whether state owned or private. Besides, the forest area along roads, railways and canals has also been included. The area under forests given in this section will not tally with that of the Forest Department shown in section XVIII, owing to the fact that certain lands though not wooded are taken as forest by the Forest Department whereas these are not treated as such by the revenue authorities.

Land not available for cultivation—This includes absolutely barren and unculturable land like mountains, deserts, etc. which cannot be brought under plough except at exorbitant cost, land covered by buildings, roads and railways and water or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding fallow lands—This denotes land available for cultivation, either not taken up for cultivation or abandoned later on for one reason or the other and includes culturable waste, permanent pastures and other grazing lands and lands under miscellaneous trees, crops and groves.

Fallow land—It denotes cultivable land which after abandonment remains uncultivated over a long period called 'old fallows' and those kept uncultivated during the current year are called 'current fallows'.

Net area sown—It is the net area sown under crops, the areas sown more than once during the year being counted only once.

Total Cropped area—It includes total area covered with crops during the year. In case, different crops are raised on the same land during the year, the same area is counted more than once.

FORESTS

The area under Forests shown in this section will not tally with the figures shown under the section 'Agriculture' supplied by the Department of Land Records due to different definitions followed by the Department of Forest and Department of Land Records. The Department of Forest reckons entire area including non-wooded area under its control as the forest area, whereas the Department of Land Records compiles the area on the basis of actual area under forests.

Table 18.1—gives area under forests in the State—According to type of ownership.

Table 18.2—indicates percentage of area under forests and forest area per lakh of population in State.

Table 18.3—gives major forest produce out –turn from State owned forests.

Table 18.4—presents value of minor forest produce in respect of State forests only.

Table 18.5—shows forest area protected from fire and cattle grazing in State.

Table 18.6—relates to revenue and expenditure of Department of Forest, Haryana.

SECTION—XXI

TRANSPORT STATISTICS

This section contains information relating to road transport, development of roads and railways. The information has been collected from the O/o Transport Commissioner, DIG Police (CID) Haryana and Public Works Department (Building and Roads) Haryana and Ministry of Surface Transport (Transport Research Division), Government of India and Northern Railway, New Delhi.

The railway system in India is divided into various zones which are further sub-divided into divisions. The divisions are not co-terminus with the State territories. On the re-organisation of the Punjab State, about 1,220 kilometres of rail length came to the share of Haryana State as against the total rail length of 3,312 kilometres in the erstwhile Punjab State. The railway administration prepares the railway statistics division-wise and not station-wise or section-wise. They have, therefore, shown their inability to supply the section-wise data on goods booked and number of passengers originating and earnings accruing therefrom section-wise. In this section, the data have, therefore, been presented for Delhi, Ambala and Ferozepur Divisions as a whole. This data will not thus provide a clear idea about the working of railways in Haryana.

Table 21.1—shows number of non-transport vehicles registered in State.

Table 21.2—shows number of transport vehicles registered in State.

Table 21.3—shows district-wise road accidents in the State.

Table 21.4—shows the district-wise number of professional and non-professional driving licences.

Table 21.5—presents the depot-wise data relating to commercial wing of Haryana Roadways.

Table 21.6—reflects comparative position on number of various types of vehicles on road in the different States/UTs in India.

Table 21.7—shows the number of Motor vehicles per 100 sq. km. of area and per lakh of population in different States/UTs of India.

Table 21.8—gives metalled and unmetalled road length maintained by Public Works department.

Table 21.9 and 21.10—furnish district-wise information by types of road length maintained by Public Works department and Local Bodies.

Table 21.10—shows road length by types maintained by Public Works Department (B&R) of metalled roads in the State.

Table 21.11—gives number and percentage of villages connected with metalled roads.

Table 21.12 and 21.13—provides State-wise information in respect of total length of different highways and surfaced roads in India.

Table 21.14—shows road length per 100 sq. km. of area and per lakh of population in India.

Table 21.15—includes route kilometres of the railways. (In calculating route kilometres, double or triple lines are counted only once.)

Table 21.16—gives number of wagons loaded with important commodities on broad gauge.
