Message

Availability of reliable statistical data is an important indicator to gauge the outcomes and accomplishment of objectives under various schemes. The statistical inputs play a critical role in policy formulation, effective planning and implementation of various schemes/programmes.

I am pleased to know that the Directorate of Economics & Statistics is bringing out the 43rd Edition of its Annual Publication "Digest of Statistics" for the Financial Year 2017-18.

The Digest presents a panoramic view of economic and development profile of Jammu & Kashmir.

It is hoped that this compilation will serve as a valuable database for the policy planners, researchers, decision makers and Government officials engaged in the socio-economic development of J&K.

I compliment the officers of J&K Economics & Statistics Department for their effort in bringing out this important document.

I-AREA AND POPULATION

The first attempt to take a census in Jammu & Kashmir was made in 1873. The results, however, were not much satisfactory. In 1891 and 1901 regular census operation was conducted. Moreover, the census operations, in complete conformity with principles and instructions emanating from the Government of India were held in 1911 to 1941. In 1951, the conditions in the state were not conducive to conduct the census. In 1961, 1971 and 1981 the censuses were taken as a part of the census of India. No census was conducted during 1991 due to administrative difficulties. However, 2001 and 2011 census as were undertaken in J & K State as a part of All India Programme.

This chapter contains a set of thirty four tables presenting figures on following items based on the decadal census of population.

- (i) Area and population of J and K State/ India
- (ii) Classification of population according to sex and area.
- (iii) Sex ratio and density of population.
- (iv) Number of villages and towns.
- (v) Population according to numerically important religious communities.
- (vi) Economic classification of population.
- (vii) Literacy rate by sex and area.
- (viii) District wise Disabled population.

The data are presented by districts of the state and at many places the figures give the tehsil wise break up also. Census-2011 has put the population of J and K at 12541302 persons which has grown at a rate of 23.64 percent between 2001 and 2011. The density on this side of actual line of control works out to be 124 persons per square km. The overall sex ratio is 889 females per thousand of males and the sex ratio of child population in the age group 0-6 years is 862 as per latest census 2011. Economic classification of population indicates that 34.47 percent population constitutes its working force. The census 2011 has recorded 67.16 percent of literacy rate for the state and the female literacy rate as 56.43 percent.

This section also presents state wise information on area, population, density, sex ratio etc.

@ The population figures exclude population of the area under unlawful occupation of Pakistan and China where Census could not be taken.
 Area figures include the area under unlawful occupation of Pakistan and China. The area includes 78,114 Sq.km under illegal occupation of Pakistan, 5180 Sq.km illegally handed over by Pakistan to China and 37,555 Sq.km under illegal occupation of China.
 \$ Rural and urban area of Arunachal Pradesh excluded due to non availability.
 ### Revised area figures in two districts of Maharashtra are resultant due to jurisdictional change after census 2001 as given below-

District	total	Rural	Urban
Jalna	7687.39	7581.23	106.16
Aurangabad	10137.61	9828.26	309.35

The town Gohpur falls under Gohpur and Helem sub-districts (District Sonitpur in Assam). Density of urban of Helem sub district could not be shown separately.
 ^ Area (23477.34 sq.km) not under any sub-district in Kachchh district (Rann of Kachchh) in state Gujarat.
 * The boundary of "Merangmen circle" (district Mokochung in Nagaland) could not be drawn due to technical difficulty. So, the area could not be derived.
 ** The boundaries of Aquqnaqua Circle and Niuland Circle (district Dimapur in Nagaland) could not be drawn due to technical difficulty. So, the area of Niuland Circle is included in Aquqnaqua Circle.
 ## one urban unit namely Srikalipuram (CT) of Thiruvallur district (Tamil Nadu) with area 3.5 sq.km was included which was noticed after publication of PCA, therefore there is difference of 3.5 sq.km in this district and state level.
 ^^ Population per sq. km is negligible in Sub- districts Mipi and Etalin (District Dibang Valley in Arunachal Pradesh)

Note:
 1 The total area of India represents 'Geographical Area' supplied by Survey of India.
 The State/District area figures are provided by Survey of India (except newly created and affected districts of J.& K.) and the Sub-District area figures are derived through digitalization method in ORGI.
 2 Density has been worked out on comparable data.
 3 Density for rural portion of Jammu & Kashmir has been worked out after excluding the entire area of the illegal occupied portion of Pakistan and China as its rural-urban breakup is not available.
 4 The same has also been done while working out the density of India.
 (ii) Rural and Urban population of Arunachal Pradesh has also been excluded as Rural and urban area figures are not available.
 5 Area figures in 6 districts (Koriya, Sarguja, Raigarh, Bilaspur, Durg and Bastar) of Chattisgarh revised by state authorities after publication of PCA 2011 India.

III-CLIMATE

- 3.1 Statistics relating to temperature and rainfall are collected by Meteorological Department.
- 3.2 The "actual monthly" rainfall of the division for the year is the mean of the monthly rainfall of the available stations. The sum of actual monthly rainfall for the 12 months is the "actual annual" rainfall of the division for that Year.
- 3.3 The monthly "normal rainfall" of the division is the mean of "monthly rainfall" normal of the corresponding stations and "annual normal" rainfall is the sum of the rainfall for all the 12 months.
- 3.4 Rainfall received during previous 24 hours is recorded at 8.30 hrs (IST) at the rain gauge each day. A day recording rainfall of at least one tenth (1/10) of an inch is taken as a rainy day.
- 3.5 The maximum and minimum temperature is recorded at the observatories at 8.30 and 17.30 hrs. (IST).
- 3.6 This chapter contains a set of three tables presenting information division/station-wise on number of rainy days/rainfall and month-wise temperature recorded.
- 3.7 Table no. 3.00 presents data on annual rainfall separately for Kashmir division and Jammu province over the years.
- 3.8 Table no. 3.01 provides time series data on mean maximum and mean minimum separately for Kashmir and Jammu divisions.
- 3.9 Table no. 3.02 gives month wise relative humidity in percent for station Srinagar followed by station Jammu.

IV-AGRICULTURE

- 4.1 Agriculture occupies an important place in the economy of the state. The share of Agriculture and allied sectors in the Gross State domestic Product (at 1999-2000 prices) for the year 2010-11 as per Advanced estimates stands at 20.59%. On the other hand nearly 70% of the population in the state derives its lively-hood directly or indirectly from the agriculture sector.
- 4.2 This chapter contains tables regarding pattern of land utilization, pattern of operational holdings, area under different food and non-food crops, production and yield rate of crops etc. This chapter also contains tables on agricultures index numbers, distribution of fertilizers etc. Data on number of tractors and other agricultural implements are also available. The primary sources of agriculture statistics are the Agriculture Statistics Returns and the crop forecast prepared by the Revenue Department. The concepts and definitions used are the same as prescribed by the Union Ministry of Agriculture. Some specific terms/items appearing in this section are briefly defined below.

Definitions:-

- 4.2.1 **Area according to village papers.** Area according to village papers comprises the reported area or the cadastral surveyed area i.e. the area for which data on land use classification are available. The estimates of reported area are prepared by the village patwari. It does not correspond to the total geographical area of the state as the Revenue department does not maintain the records which are not fit for habitation. The area maintained by the Forest Department also does not form part of the reported area.
- 4.2.2 **Forests.** They cover the barren-line forests viz.. the forests falling outside the forest area demarcated by the Forest Department for maintenance.
- 4.2.3 **Land put to non-agricultural uses,** it consists of entire land occupied by buildings, river, canals and other lands put to use other than agriculture.
- 4.2.4 **Barren and un-cultural land.** It includes all barren and un-culturable land like mountains, deserts etc. Land which cannot be brought under cultivation except at an exorbitant cost is also included under this category.

- 4.2.5 **Permanent pastures and other grazing lands.** All grazing lands whether they are permanent pastures and meadows or not, are categorized as permanent pastures and other grazing lands. It also includes the common grazing land in the village.
- 4.2.6 **Land under miscellaneous tree crops, groves etc.** This constitutes the cultivable land which is not included in net area sown but is put to some agricultural uses. For example, the land under thatching grasses, bamboo bushes and other groves for fuel etc. are not included under orchards fall under the category.
- 4.2.7 **Cultural Water Land.** This includes lands available for cultivation irrespective of the fact whether they have been taken up for cultivation or not or taken up for cultivation at once but not cultivated during the current year and the last five years or more in succession for one reason or the other. Such lands may either be fallow or covered with shrubs or jungles which are not put to any use. These may be assessed or unassessed and may be in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of five years.
- 4.2.8 **Fallow lands other than current fallows.** This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.
- 4.2.9 **Current fallows** Cultivable area kept fallow during current agricultural year. Any seeding Area in the current agricultural year not cropped in the same year is also treated as current fallow.
- 4.2.10 **Net area sown.** Area with crops and orchards, counting the area sown more than once in the same year, only once. The above definition is elaborated as follows:
 The net area sown is defined as the difference between the total geographical area of all plots of land of the holding and the sum of the areas of land under (1) forest (2) barren & uncultivable wastes (3) put to non-agricultural uses, (4) culturable wastes (5) Permanent pastures and other grazing lands, (6) miscellaneous tree crops excluding orchards and (7) all types of fallow lands.
- 4.2.11 **Total cropped area.** Total cropped area represents the total area covered with crops i.e. the sum total of area covered by all the individual crops. The area sown with crops more than once during the same year are counted as separate areas for each crop.
- 4.2.12 **Area sown more than once,** it includes the area on which crops are cultivated more than once during the agriculture year and is obtained by deducting the net area sown from the total cropped area.

Land use Statistics.

- 4.2.13 Land use Statistics Table NO. 4.00 and 4.01 provide information on Land use Statistics. While table no. 4.00 presents time series data on land use statistics, table no. 4.01 highlights district wise details for 2017-18 it needs mention that from the year 2007-08 land utilization statistics given details of marshy & water logged land, land under still water and land under social forestry. Land use statistics is available for 2417 thousand hectares. over the year land use statistics has not undergone any significant change and indicate tight utilization. The total reporting area as per revenue papers is 2417 thousand hectares for the year 2017-18 which is divided into the following live broad categories as per the concepts and definitions prescribed by the Union Ministry of Agriculture.
- 4.2.14 **Area not available for cultivation:** As per the figure for 2017-18 area not available for cultivation accounts for 561 thousand hectares constituting 23.21% of the reporting area figures. The category consists of 251 thousand hectares (10.43%) falling under land put to non agricultural uses and 303 Thousand hectares (12.54%) under Barren & uncultivable land, 6 thousand hectares (0.25%) is land under still water, marshy and waterlogged category which is negligible proportion.
- 4.2.15 **Other uncultivable land:** Other uncultivable land excluding fallow lands constitutes 12.99% of reporting area with 314 thousand hectares. Out of which land under miscellaneous tree crops constitutes 59 thousand hectares (2.44%) permanent pastures other grazing lands with 108 thousand hectares (4.47%) and 139 thousand hectares (5.75%) is the cultivable waste land and 8 thousand hectares (0.33%) is social forest.
- 4.2.16 **Fallow land** 131 thousand hectares (5.42%) are fallow lands comprising of 26 thousand hectares (1.1%) fallow land other than current fallows.
- 4.2.17 **Forest Land** : Forest land constitutes 27.27% with 659 thousand hectares.
- 4.2.18 Net Area Sown : 752.37 thousand hectares is the net area sown. This indicates that proportion of area under agriculture in the state was 31.13% for the year 2017-18. Area sown more than once constitutes 54.88% of the net area sown for the year 2017-18
- 4.2.19 Agricultural census 2010-2011 has recorded 1449 thousand agricultural holding with an area of 895 thousand hectares, thus making the average holding size of 0.62 hectares

4.2.20 The per hectare crop yield for the year 2017-18 regarding principal agricultural crops was estimated to be 24.27 quintals for rice 18.05 quintals for maize and 21.39 quintals for wheat. Average yield of principal crops (Rice, Maize and wheat) is given in table 4.07.

170 Digest of Statistics 2017-18

V-HORTICULTURE

Jammu & Kashmir is basically an agrarian economy. The favorable agro climatic conditions, fertile soil, sub tropical climate are ideally suited for cultivation of fruit and vegetables in the State and offer immense scope for development of horticulture. In view of the potential available, fruit growing has become a major industry and contributes largely to the export trade of the state. It absorbs a large chunk of people in the various processes through which it passes. Horticulture has a substantial share in the State Domestic Product. Looking to the importance of horticulture crops, the state government is placing considerable emphasis on the development of horticulture crops i.e. fruit, vegetables, spices, plantation crops, floriculture etc.

The major fruit grown in the State are apple, mango, walnut, almond, pear, cherry, apricot, peach, plum etc. Kashmiri apple is famous both in taste and appearance. It has gained fame in the export market and fetches a very good return. The major vegetables grown in the state are onion, potato, tomato, turnip, mutton, radish, carrot, green vegetables etc. and spices like chilies, garlic, turmeric etc.

A set of 10 tables in this chapter provide latest statistical information on the area under major horticulture crops and their production. Availability and distribution of fruit plants, import of fruit and vegetables along with export of fresh and dry fruit is also given. District wise information on kind wise area under major horticulture crops and production of fruit for the year 2017-18 is presented as per existing districts in tables no.5.00 and 5.01 respectively.

As per Horticulture Department an area of 3.33 lakh hectares was reported under major horticulture crops for the year 2017-18 with 72.14 percent area under fresh fruits. Production of fruit during 2017-18 was 22.56 lakh metric tonnes comprising of 20.74 lakh Metric Tonnes of fresh fruit and 2.81 lakh metric tonnes of dry fruit. Export of fruit outside State for the year 2017-18 as per Directorate of Horticulture (P&M) was 19.78 lakh metric tonnes and import of fruit & vegetable during the same year was recorded to be 6.02 lakh metric tonnes.

VI-IRRIGATION

Irrigation is a crucial input for the development of agriculture in the state and the importance of irrigation statistics in the modernization and revolutionisation of agriculture cannot be under estimated.

Statistics on source-wise area irrigated and crops receiving irrigation are indicated in this chapter. The major area falls under command of canal irrigation which accounts for about 89% of the total area irrigated during 2017-18. Gross area irrigated during 2017-18. in the state was 5.01 lakh hectares while as net irrigated area during the same year was 3.32 lakh hectare.

Table No. 6.00 presents time series data on net area irrigated by source since 1950-51 and table No.6.01 provides information for the year 2014-15 source with District wise distribution on net are irrigated

Gross area irrigated with crop wise distribution since 1950-51 is given in table No. 6.02 and table No.6.03 presents crop wise and district wise gross area irrigated for 2014-15.

On the analogy of "net area sown" the net are irrigated refers to the irrigated area under various crops and orchards counting it, however, only once even if more than one crop is grown on it during the same agriculture year. Thus year irrigated irrigated more than once in a harvests season is counted only once. The gross area irrigated is the sum total of irrigated under different individual crops in the same year. Thus one hectare of irrigated area under the paddy and wheat during the same year is counted has one hectare of net area irrigated and two hectare of gross area irrigated.

In this section statistics on minor irrigation censuses conducted in the state from time to time is also presented forming table No.6.04. This table presents data relating to 3 minor irrigation censuses for the reference period 1986-87, 1993-94 and 2000-01.

VII-FOREST

Forests are one of the most important components of the terrestrial environmental system and a complete resource base. They form an ecological system consisting of tree dominated vegetative cover. Forests have a multi dimensional role to play. They provide not only timber, fuel wood, pulpwood, fodder and fiber grass and non wood forest produce and support industrial and commercial activities but also maintain the ecological balance and life support systems essential for food production health and all round development of mankind. Forests have a direct bearing on environment as trees and vegetation are the basic requirements for a clean environment, healthy living and sustainable agricultural production. As per the National Forest Policy 1988 one-third of total geographical area (20 percent for plains and 66percent for hilly areas) should be under tree cover.

This chapter contains tables on area under forests by districts and by category viz, coniferous, non-coniferous uncommercial reserves. Data are also given on major and minor forest produce, out turn of timber, export of timber outside the state and revenue realized. The definitions adopted in the tables are indicated below:-

Coniferous Forests :

Coniferous forest is one in which 80% or more area falls under coniferous species of trees.

Non Coniferous Forests :

Non-Coniferous Forests is one in which 80% or more area is covered by non-Coniferous species of trees.

Reserved Forests :

Reserve Forest is one, which is permanently dedicated either to production of timber or to other specified purpose and in which right of grazing and cultivation is seldom allowed.

The data presented in this chapter relate to the forests maintained by the forest department only.

The effective geographical area of Jammu and Kashmir State is 101387 Sq. kms out of which 20230 Sq kms is the forest area constituting 19.95% of geographical area against the

prescribed norm of 66 percent provided under National Forest Policy-1998. Forest area is largely distributed in Kashmir valley and Jammu region, where the forest cover constitutes 50.97% and 45.89% respectively of the geographical area. In Ladakh region whole forest cover accounts for less than 1%, i.e. it is only 0.06%.

210 Digest of Statistics 2017-18

IX- LIVESTOCK, SHEEP AND ANIMAL HUSBANDRY

The rearing of livestock is a very critical and core activity in the economic profile of the state. Although it is adopted as a subsidiary occupation by majority of the rural population, yet it constitutes a vital activity from the stand point of the economic welfare of the farmers. Moreover, the nomadic, gujjar and bakeral population depend exclusively on sheep rearing for its livelihood. Live stock activity has a contribution of about 11% in the Gross Domestic Product of the state. It offers promising employment opportunities and handsome economic returns especially in rural mountainous areas of the state. Most of the livestock population, particularly sheep have been transformed into high quality by using latest insemination techniques and through improved quality livestock imported from other countries. Still a good portion of livestock is local and of inferior quality which needs improvement in both quality and quantity. Various steps are being taken to improve the quality and quantity of livestock.

- 9.1 The source of livestock data is the livestock census which indicates figures by district and also by tehsil. It may however, be pointed out that bulk of our livestock population is migratory and is recorded on de-facto basis. The district and tehsil wise breakup, therefore, is not of much relevance and has only academic interest.
- 9.2 This chapter presents data on the number of livestock, poultry, functioning of livestock/sheep breeding centers/farms, health coverage, provided to the livestock etc. in 11 no. tables.
- 9.3 Live stock census 2007 has recorded live stock population of the state to be 1.79 crores which consist of 19.23% cattled and more than 23.05% sheep. Table No. 9.00 of this chapter presents specie-wise live stock population thrown out by quinquennial live stock censuses in J&K State. However, district wise breakup of live stock as per latest live stock census 2007 also appears in this table.
- 9.4 Table No. 9.07 presents information on the number of poultry birds collected through quinquennial live stock censuses from 1972 to 2003.
- 9.5 Table No. 9.10 provides estimated livestock population by category and poultry birds as per integrated Sample Survey of major livestock products for the years 2005-06 to 2011-12 with district wise breakup for 2011-12 figures.

XI-COOPERATION

Development is essentially a process of change from autonomous status to organized optional change. The people trapped in illiteracy, poverty and suffering from extremes of material and social deprivation tend to lose impulses of awareness and motivation and this deprivation makes them weak, isolated, vulnerable and powerless. The co-operatives play an important role in influencing the people towards social and economic changes and offer unlimited possibility of participation in economic insurgence.

In terms of its size, operations and diversification, the achievements in cooperative sector since, 1950-51 have been quite significant. Co-operative movement in the state is responsible for inducing people to adopt new techniques in agriculture and allied fields. The efforts of the co-operators have persuaded the farmers to use chemical fertilizers to increase their production levels thereby improve their living standards who were initially reluctant to change from traditional farming practices to improved ones. Co-operative banks and the Co-operative credit societies have served the farmers and enabled them to use better agriculture inputs for an optimal production by providing them short, medium and long term credit facilities. Co-operatives have also played an important role in the procurement of surplus produce with the farmers and thereby save them from falling prey to the market forces.

Similarly the consumer co-operatives have played a useful role in holding the price line and in providing the basic necessities to the people at a reasonable rate. Year-wise data on number of societies with membership, loans advanced, amounts overdue together with paid up share capital etc. of central co-operative bank and credit Societies are covered in this chapter

The tables in this chapter present information on the number of co-operative societies and their salient features. Information on central co-operative banks and godowns and their storage capacity is also provided in this section. Efforts have been made to present the data with district wise breakup.

XII-CONSUMER AFFAIRS AND PUBLIC DISTRIBUTION

- 12.1 Food rationing is very old in Jammu & Kashmir. While Srinagar and Jammu cities have food rationing right from the days of Maharaja Hari Singh, the other areas too were looked after in the pre-independence days at the time of food scarcity brought about by the crop failure or damages resulting from various natural calamities. Food grains purchased from Punjab on emergency basis were distributed among people in these areas either free or on subsidized rates. Food rationing through public distribution System (PDS) is a countrywide programme and has assumed larger dimensions because of its multiple objectives. The integrated natural food policy provides for building up of buffer stocks by procuring available supplies in surplus areas and utilization of the same to accentuate the economic development as also countering the factors such as local or seasonal variations in demand and supply and the anti social activities of hoarders and profiteers. It aims not only at tackling the problem of food shortage or high prices but also at ensuring equitable distribution of the available supplies on the reasonable prices so that the lower income groups and the people in backward areas are able to purchase at least the minimum quantities required by them. Food rationing in Jammu and Kashmir has helped all along to ensure availability of uninterrupted supply of food grains to the general public.
- 12.2 This chapter gives data on year-wise import of food grains from outside the state. Year wise rationed population in various towns, cities and mufasils and off-take of good grains from government depots are also given.
- 12.3 While table no. 12.00 presents information on rationed population with its breakup into cities, towns and mufasill/kandi area, table no. 12.01 and 12.02 provide information regarding off take food grains from government depots and import of food grains by CA&PDD respectively.
- 12.4 Rationed population of the state as per Consumer Affairs and Public Distribution Deptt. (CA &PDD) for 2017-18 was recorded to be 119.75 lakhs. Off take and import of food grains posted by the CA & PD department was 10.99 lakh and 9.56 lakh tonnes respectively.

XIII-ELECTRICITY

- 13.1 Power holds a key to any developmental effort. It is an essential component for sustained economic growth and commensurate growth in power supply is required to ensure that economy keeps growing at 8-9 percent. The gradual increase in the demand of power means the economy is growth and is leading to modernization, Industrialization and improvement in basic amenities culminating into quality of life. Jammu and Kashmir has immense potential for development of hydraulic power. The estimated hydro power potential of the state is 20,000 Mws of which 16480 Mws have been identified. Out of the identified potential only 1478.70 Mws or 9% have been exploited till the end of 10th five year plan 2006-07 consisting of 308.70 Mws in the state sector from 19 power projects and 1170 Mws from two power projects under central sector i.e. 690 Mws (Salal Hydro Power Project) and 480 Mws (760.46) 2011-12 (Uri-I, Hydro Electric Project).
- 13.2 The installed capacity of power stands just at 1400.44 Mws in the state ending 03/2018. From the last over four decades, considerable progress has been made in this behalf, of course, within the limitations imposed by resources constraint. From a negligible base of 3 to 4 megawatts in 1950-51, the installed capacity of power has risen to 1400.44 Mws. Most important hydro power projects at lower Jhelum with 105 Mws, Upper Sindh Hydro Kangan with 105 Mws, Upper Sindh Sumbal with 22.60 Mws and Chenanie Hydro with 23.30 Mws. In the thermal segment, gasturbine pampore has 175 Mws and 13.48 Mws are diesel.
- 13.3 Figures presented in this section related to Installed capacity of power, power generation, power purchased, power sold etc. Table presents power house wise installed capacity and power generation. During the year 2017-18 power generation was 52785.78 lakhs kwhs and power purchased was 162243.04 lakh kws, thus making a total power availability of 167954.15 lakh kwhs in the state.
- 13.4 In table 13.04, data are presented for total number of villages electrified along with the percentage of villages electrified of existing 22 districts for the year 2017-18. This table reveals that above 98.66% villages stand electrified as on 31-03-2018. District wise number of tube wells/pump sets energized appear in table 13.05.

XIV-INDUSTRIES AND MINERALS

- 14.1 The Jammu and Kashmir state is on the path of Industrialization despite topographical limitations. The Industries sector has been declared as the main vehicle for accelerating economic activity besides providing employment opportunities to the unemployed educated youth in the state. To restore industrial activities and to attract investment the Govt. has come up with a new Eco-friendly Industrial Policy 2004 and will last till 2015. The Industrial Policy 2004 is designated to promote rapid industrialization and has evoked a great deal of interest in the private investment. The policy has a slew of incentives in the form of subsidies for all sorts of industries, especially for small scale industries to make them capable to compete in the present competitive market. The policy also lays emphasis on promoting industries based on local raw material and skills. The incentives provided in the policy are ahead of other states of the country. The State has distinction of having two set of incentives one from the centre and the other from the state. The efforts are to woo industrialization across the country. A number of centrally sponsored schemes have been announced by the Govt. of India to promote Industrialization in the state. Setting up of industrial growth centers at Samba in Jammu and Lassipora in Pulwama is a case in point.
- 14.2 The conducive atmosphere created by the Government attract a lot of unemployed youth to set up their units. With collaborative efforts of the central govt. regarding extending the rail link up to Srinagar - Baramulla it is expected that this sector will flourish and some of the problems of permanent nature faced at present like lack of raw material and marketing facilities shall be removed to a large extent. The state Govt. is also encouraging progressive industries by way of providing sheds in the Industrial complexes/areas and organizing industrial exhibitions and arranging training to share the technical know how.
- 14.3 This chapter contains a set of 30 tables in current the edition of digest of statistics presenting data on almost all industrial activities undertaken in the state. Number of SSI units registered with the Industries Department and Employment generated by these units are given in table 14.00. As on March 2018 the number of registered SSI units has reached to 59899 providing employment to 2.95 lakhs persons.
- 14.4 This chapter also presents data on Khadi & village Industries, Sericulture activities, Major and Minor Minerals, Geology and Mining.
- 14.5 Statistical tables presenting salient features of handicraft and handloom sectors are also included in this section. The production of handicraft goods during the year 2017-

18 was recorded at Rs. 1930.75 crore and the exports of handicraft goods were worth Rs. 1090.12 crore. Carpet has a largest share in both production and export figures.

14.6 The tables in this chapter interprets, give data on registered factories, State and central public sector under- takings, Data on shops and commercial establishments covered under shops and establishment Act, are also available. Loans advanced by the State Financial Corporation over the years also form one table in this chapter.

14.7 Data recorded by handicraft census 1978-79 and 1988-89 also appears in this chapter.

XV- EMPLOYMENT

- 15.0 Employment exchanges were established at Srinagar and Jammu for registration of unemployed persons in 1958-59. Since then the number of exchanges has gone up to 22. Tables in this chapter give data on number of employment exchanges, registration and placements made and qualification wise number of persons on live register of the employment exchanges. The information is based on the data collected by the employment exchanges as part of their programme for collection of employment market information on quarterly basis. However, the statistics of employment exchanges has two main defects. Firstly, all the unemployed do not get themselves registered with the employment exchanges. Secondly, some of the registered may not be actually unemployed but only in search of better jobs. The data is thus de-facto in nature and have to be used keeping in view these exceptions.
- 15.1 Table No. 15.00 in this chapter presents general statistics of employment exchanges by region 34 placements have been made through these employment exchanges during the year 2017-18. As on 31.12.2017, the employment exchanges have posted a number of 0.88 lakh unemployed youth on the live register.
- 15.2 This chapter also presents data on self employment and statistics on Prime Minister's Rozgar Yojana (PMRY) programme now called as Prime Ministers Employment Generation Programme (PMEGP) with some salient features.
- 15.3 Scheme has been kept on hold during 2015-16.
- 15.4 During the year 2017-18, 822 cases were disbursed involving Rs. 1563.93 lakhs against 1530 sanctioned cases involving an amount Rs. 3139.42 lakhs under PMEGP.

XVII- ROADS AND BUILDINGS

- 17.00 Lack of railways and very limited scope for water transport leave the state with roads as the only means of transport. The development of road network in the state is, therefore, receiving attention of the government on priority basis in our development plans. Roads in J&K State are considered as arteries of the economy, looking to the strategic role being played by roads in connecting transverse mountains and difficult areas more economically and efficiently, network of roads is on increase.
- 17.01 Road length maintained by various departments is presented in this section both by category and by district. Road length may decades. As on 31.03.2018 there were 28649.60 kms of PWD roads in the state of which 20377.64 kms i.e. 71.12% were surfaced.
- 17.02 Forest Department accounts for 11460.77 kms followed by 6907.46 kms of BRO and 188.25 kms of Irrigation and Flood Control excluding Kashmir Division as on 31.03.2018.
- 17.03 Rates of building material in the public sector, wage rates of building construction workers of public sector are also provided in table numbers 17.03 and 17.04. Moreover, table number 17.05 presents time series data on construction activity and table number 17.06 gives latest available information regarding the number of villages connected through road network.

XVIII- ROADS TRANSPORT

- 18.0 As we have said in the earlier chapter, that roads are the main mode of transport available to us. Therefore, side by side with the road length, the number of vehicles has also shown great increase. Road transport is primarily the responsibility of state government. The state government regulates road transport under the provisions of motor vehicles Act.
- 18.1 This chapter presents information on public and private transport fleet in the state. The number of registered vehicles has reached to 16.57 lakh as on 31-03-2018 recording an annual addition of 1.69 lakhs vehicles over the last year figure, measuring annual growth of 11.37%.
- 18.2 Silent features of J&K State Road Transport Corporation over the years are presented in two different tables i.e. table no. 18.01 & 18.02 Information on road accidents, persons killed injured together with number of challans made with the fine realized is also presented in table no. 18.03 & 18.04 of this chapter.

XIX-WATER TRANSPORT

Water transport, the cheapest means of mobility has not fallen in the share of J&K state. The state, possesses bleak chances of developing water transport. This transport system is confined to boats only. Information on number of boats with their uses is collected from Municipal Corporation Srinagar, Three kinds boats float on river Jehlum/Lakes of the valley. Firstly, there are houseboats, which provide residential accommodation to tourists. Secondly, there are shikaras used for carrying passengers/tourists over the lakes and rivers. Thirdly, there are doongas used for transport of goods from place to place.

The single table in this chapter presents data on number of boats and persons engaged there in together with revenue realized over the years. As per the latest data for the year 2014-15 there were 3592 boats (excluding residential boats) in the state (kashmir valley) engaging 9293 persons. On an average 3 persons are engaged per boat.

XX-POST AND TELECOMMUNICATION

- 20.0 Telecommunication is a significant part of the infrastructure of the economy. Telecom policy 1999 has given a boost to the telecom sector. The policy was a watershed event for telecommunication in India. Supportive govt policies together with private sector participation have also resulted in unprecedented expansion of this sector.
- 20.1 This chapter gives data on post and telecommunication facility available in the state. There are two types of post offices in our state viz, post offices located at central places I areas, equipped with telegraph facilities and those in other places which do not have the facility.
- 20.2 Data on year wise, telephone connections is given in table no. 20.00 whose number as on 31-03-2017 was recorded to be 1.60 lakhs. Besides no. of cellular phones as on 31-03-2017 are 14.51 lakhs.
- 20.3 Year wise number of head post offices, sub post offices, branch post offices and telegraph offices appear in table 20.01 of this chapter. The number of post offices (all categories put together) as on 31-03-2018 is 1699. Thus on an average one post office has to serve an area of 60 sq kms on this side of line of control.

XXI- TOURISM

- 21.1 Tourism plays a key role in the economic development of the State. The number of tourists visiting Kashmir valley has shown a persistent increase up to nineteen eighties. The flow of tourists decreased because of turmoil particularly in 1990's. The Jammu and Kashmir State has a tremendous potential for developing tourism. The slopes available at sonamarg, pahalgam and gulmarg provide scope for development of winter tourism. Bestowed with rich scenic beauty, the snow capped forests in winter draw a great chunk of Tourists from all over the world to gulmarg the high attitude tourist resort in Kashmir valley. The ride of cable care corporation (Gondola) has always been a special attraction for tourists. During winter gulmarg becomes cynosure of all eyes as snow capped mountains surrounding this high altitude health resort add to its picturesque. The State Govt. too is devoting full attention for developing sufficient infrastructure to boost the tourist trade in the state. Tourism has a multiplier effect on income, employment generation and gives tremendous fillip to the economy. Looking towards the importance of tourism the Govt. is bringing tourism on rails by making all the tourist resorts more attractive to the tourists. The revival of tourist trade can be assessed by the increasing number of tourists both Indian and non-Indian to the State.
- 21.2 The state has three distinct niches, while leisure tourism is available in Kashmir valley, pilgrim in Jammu and ladakh has the potential to offer adventure tourism.
- 21.3 The tables in this chapter present data on the number of tourists visiting various tourist resorts. Table No.21.00 provides data on the number of both domestic and foreign tourists coming to Kashmir valley whose number has been posted by tourism department in the neighborhood of 1226 thousand during 2017.
- 21.4 Table No. 21.01 of this chapter presents data on the number of foreign tourists coming to Kashmir valley by their nationality. During the year 2017, 29.54 thousand foreign tourists were recorded to have visited Kashmir valley.
- 21.5 The number of devotees coming to Shri Mata Vaishno Devi and Shri AmarNath Holy Cave are shown in table No. 21.02. While the number of devotees at Shri Mata Vaishno Devi Asthapan was 81.78 lakhs, pilgrims to Shri Amarnath cave were recorded at 2.60 lakhs during the year 2017
- 21.6 In this section, two new tables have been added which give latest information on the number of tourist huts/Bungalows and Tourist Hotels and Restaurants.

XXII- TRADE AND COMMERCE

- 22.0 This chapter presents data on trade and commerce especially about goods exported from and imported into the state, number of excise shops, octroi posts, vehicles coming to and going from the state/valley etc. However, the data with regard to exports and imports are not in terms of value but indicate quantity only and not the real magnitude of the trade in case of many items for which kind/quality is primarily important. The information with regard to the weight of goods imported/ exported is collected by the Excise Department at various toll posts. Attempts are, however, under- way to collect the data on the goods imported and exported in value also.
- 22.1 Value of taxable goods imported into and exported from Jammu and Kashmir State is also presented in this section which forms table No. 22.05 Value of taxable goods imported and exported during 2017-18 recorded at Rs. 10263.33 crore and Rs. 6932.69 crore respectively.
- 22.2 The trade figures are compiled by the Excise commissioner J&K. Table No. 22.00 represents time series data on the goods imported into the State. The data for the year 2017-18, revealed 65390.56 thousand quintal goods, 11387.51 lakhs liters of fuel, 569142 Qtl. vehicles excluding chasis and 524789 Qtl. animals, were imported.
- 22.3 Table No. 22.01 gives data on the quantity of goods exported from J&K state. As per the data for 2017-18, 25051.86 thousand quintal goods were exported. The most important export items of the state are fruit, wood & timber, bones and wool & woolen items.

XXIII- VITAL STATISTICS

- 24.1 Civil Registration i.e. the registration of births and deaths is compulsory under the law for every individual of the state. The Statistics generating from this registration is known as vital statistics and reflects the demographic behaviour of the state. The scheme is implemented in the state as a part of all India operation by the multi-disciplinary network of functionaries associated with it. It is under taken in India under the provisions of the Registration of Births and Deaths Act 1969. Vital Statistics are invaluable for planning, Monitoring and Evaluating various programmes such as those dealing with primary health care, social security, family planning, material and child health, nutrition, education, public health and so forth.
- 24.2 The primary reporter of birth and death events in rural areas is the village chowkidar while as in cities and towns, municipal workers attend to this job. Registration of births and deaths however is far from complete and efforts are being made to get larger number of vital events occurring in the state registered. Consolidation of the statistics on civil registration is done by the office of Directorate of Economic and Statistics.
- 24.3 This chapter presents data as revealed by civil registration i.e., births and deaths recorded at grass root level. The data thrown out by sample registration system are also given in this section. While the statistics generated under civil registration is showing district wise breakup. Birth and death rates thrown out by sample registration sytem are presented by states and by area. Efforts were made to present the health indicators of the state in contrast with national level figures; how- ever, some indicators are presented showing the position only at national level.
- 24.4 Birth and death rates as thrown out by the Sample Registration Scheme are also given as the rates based on normal registration system are not much reliable.
- 24.5 This chapter presents data on year wise registered birth and death events taking place in the State. Data on year wise birth and death rates in the State viz-a-viz in the country are also provided.
- 24.6 Data on birth rate, death rate and infant mortality rate by residence of all States/UTS of the country as revealed by Sample Registration System forms one table in this chapter.
- 24.6. Health indicators like birth rate, death rate as revealed by Sample Registration System for the state for the year 2017 were 15.4, 4.8

XXVI- PUBLIC HEALTH ENGINEERING

- 26.1 Supply of potable drinking water is one of the basic programmes of our developmental plans. Achievements of the Public Health Engineering Department indicate almost cent percent coverage of inhabited villages as per 2001 census. However, some villages/habitations once covered become problematic areas due to quantitative or qualitative deficiencies. Less service level, source depletion, outlived design period of water supply schemes and extension of newly developed areas are also experienced in some cases and efforts are underway to cover all the habitations.
- 26.2 This section presents data on coverage of villages and rural population benefited and year wise growth of tube wells and dug wells.
- 26.3 Table No 26.00 presents district wise coverage of villages and population benefited by providing potable water and table No. 26.01 gives details about number of tube wells and dug wells sunk by districts. Water tap Installations by purpose are given in table 26.02.

XXIX- SOCIAL WELFARE

Welfare measures for under-privileged vulnerable, down trodden and weaker sections of the society are essential for ensuring growth with distributive justice in the State. The Social Welfare Department has the responsibility to promote with special care the educational and economic interests of the weaker sections and in particular of the Scheduled Castes and Schedules Tribes as well to protect them from social injustice and all other forms of exploitation. In conformation with these provisions, the State Government is taking sustained efforts to bring about socio-economic amelioration of the weaker section in general and that of the backward class in particular. This section gives information about the operational mechanism available at various levels in the State along with steps taken for the development of weaker sections including children and women. Incentives by way of scholarship to the pre and post-matric students of backward classes under the purview of Social Welfare Department are also contained in this section.

Table No. 29.00 presents data on the number of integrated child development scheme (ICDS) Projects and Anganwari Centers available in the state and their district composition for the year 2017-18 as on 31-03-2018, 141 ICDS Projects and 29599 Anganwari centers were functioning in the state.

Figures, on number of students covered under Pre-matric and Post-matric scholarship with category wise breakup and amount paid are provided in table No. 29.01.

District wise number of Training Centers and Persons Trained appear in table No. 29.02 and other training related Statistics covered under Social Welfare is presented in table No. 29.03 and 29.04.

XXXII- STATE ECONOMY

The tables in this chapter give the estimates of Net State Domestic Product and Per Capital Income both at current prices and constant prices, the estimates give them series information covering the period 1980-81 to 2017- 18 (A).

Table No. 32.00 presents synopsis of Net State Domestic Product and Per Capital Income on both the series i.e. on current and constant prices with different base.

Preparation of State Income Estimate is primarily the responsibility of the Directorate of Economic and Statistic, J&K apart from its other important activities.

A Table on 32.02 and 32.3 gives GSDP estimates by sector as well as by industry of origin at current Prices and constant Prices.
