FOREWORD

The report prepared by the Statistics Section of the University Grants Commission provides a useful and convenient summary of important statistical information about the Indian universities. The first report in this series was published in 1962. I have no doubt that the publication will be of value to all interested in the development of higher education in the country. I take this opportunity to thank the universities and colleges which have provided the relevant information to the University Grants Commission.

NEW DELHI

D. S. KOTHARI

Introduction

Based on the returns received from the various universities and colleges in the country a statistical report has been prepared for the year 1964-65 giving briefly the latest facts and figures pertaining to university education. Information presented in the report in respect of the two universities viz., Indira Kala Sangit Visvavidyalaya and Varanaseya Sanskrit Visvavidyalaya relates only to the University campus: Khairagarh in the case of the former and Varanasi in the case of the latter. No information was received from K. S. Darbhanga Sanskrit Visvavidyalaya for 1964-65. In the case of colleges which did not send statistics for 1964-65, data of the previous year i.e. 1963-64 has been used.

Part II of the report gives the number of doctorates awarded by Indian universities during 1960-61, 1961-62, 1962-63 & 1963-64. Figures have been presented university-wise & faculty-wise. For arts and science faculties, a subject-wise break-up has also been given.

All other statistical tables in the report relating to 'Staff' and 'Residential Accommodation' do not include "U.P. Board" Statistics.
- (e) Names of certain universities have been abbreviated at many places, as for example, U.P. Agri. Univ. which is actually Uttar Pradesh Agricultural University; K.S. Darbhanga Sanskrit Vishwavidyalaya which is actually Kameshwar Singh Darbhanga Sanskrit Vishwavidyalaya etc.

Part II

Doctorates awarded by the universities during the academic session, 1960-61, 1961-62, 1962-63 and 1963-64 have been presented in this section. The 1963-64 statistics furnished by certain universities are likely to be underestimates on account of the fact that at the time of collection of this data the results of some doctoral theses submitted for the award of Ph.D. degree during 1963-64 had not yet been announced. Attempts have, however, been made to obtain complete information, but for purposes of trend studies it is suggested that figures upto 1962-63 only may be taken into consideration.
