*Under the NAEP Literacy Statistics series, the Directorate of Adult Education has already brought out two separate publications:*

- 1. Literacy Statistics at a Glance - India and States*
- 2. Literacy Statistics at a Glance - Districtwise*

*This is the third brochure in the series of Statistics for NAEP. This brochure contains information relating to literacy among Scheduled Castes and Scheduled Tribes - which represent the hard-core poor segment of the population in India. Scheduled Castes and Scheduled Tribes constitute 26.4% of the total illiterate population of all age groups in the country. Age-group-wise data of population and literacy for Scheduled Castes and Scheduled Tribes from 1971 census being not available, data indicated in this compilation relate to all age-groups (inclusive of 0-4 age-group).*

*As a component of minimum need programme, planning of adult education programme for Scheduled Castes and Scheduled Tribes has assumed greater significance and the data reported in this brochure, it is hoped, will be found useful in planning programmes for Scheduled Castes and Scheduled Tribes.*

## INTRODUCTION

This is the third volume in the NAEP Literacy Statistics Series. It gives district-wise literacy position in respect of the Scheduled Castes and Scheduled Tribes.

A brief analysis of the data contained in this volume is given in the following paragraphs:

### Literacy Position - Scheduled Castes

1. Eastern States of Assam, Manipur, Meghalaya and Union Territories of Arunachal Pradesh and Mizoram were among the better placed areas in respect of literacy among Scheduled Castes. There were no Scheduled Castes in Nagaland. Uttar Pradesh, Rajasthan, Madhya Pradesh, Bihar and Andhra Pradesh were among the States with low literacy among Scheduled Castes.
2. The district-wise analysis indicates that there was no Scheduled Caste population in six districts. 100 districts forming about 31 per cent of the remaining 354 districts, were having literacy rate of below 10 per cent. Out of these 100 districts, 19 were having literacy rate even below 5 per cent. There were 113 districts forming about 38 per cent where the literacy percentage ranged from 10 to 20 per cent. Of these, 70 districts were having literacy rate of 10 to 15 per cent. Only 111 districts forming about 31 per cent of the total were having literacy rate of 20 per cent and above.
3. Literacy position in respect of females among Scheduled Castes is indicated in Table II. In 10 districts there were no Schedule Caste women. Out of the remaining 350 districts, in 174 districts forming about 50 per cent of the total districts, the literacy rate among women was below 5 per cent. Another 79 districts were having a literacy rate of 5 to 10 per cent. Thus, about 72 per cent of the districts fall in the range of literacy rate of below 10 per cent. Only 29 districts were having literacy rate of 20 per cent and above.
4. In Uttar Pradesh in particular, 53 out of 54 districts were in the literacy range of below 10 per cent in respect of Scheduled Castes females. Similarly 25 out of 26 districts of Rajasthan, 39 out of 43 districts of Madhya Pradesh, all the 17 districts of Bihar, 7 districts of Haryana, 13 districts of Orissa and 7 out of 8 districts of Jammu and Kashmir fell in this category.

Literacy position - Scheduled Tribes

5. There was no Scheduled Tribe population in the States of Haryana, Jammu and Kashmir, Punjab, Sikkim and the Union Territories of Chandigarh, Delhi and Pondicherry. In Himachal Pradesh 2 districts, in Madhya Pradesh 2 districts, in Maharashtra 5 districts and in Uttar Pradesh 2 districts were also not having any Scheduled Tribe population. In addition to the 50 districts falling in the above mentioned States which were not having any Scheduled Tribe population, there were other 55 districts where the Scheduled Tribe population was less than one thousand. Of these districts, 35 were in U.P. alone.

6. Of the 310 districts having Scheduled Tribe population, 137 districts forming about 44 per cent of the total, fell in the range of literacy rate of less than 10 per cent in respect of Scheduled Tribes. 55 districts were having a literacy rate of less than 5 per cent. Only 30 per cent (107 districts) were having literacy rate of 15 per cent and above. The remaining 66 districts were in the range of literacy rate of 10 to 15 per cent. Madhya Pradesh, Rajasthan and Arunachal Pradesh having 22 districts, 9 districts and 3 districts respectively in the literacy range of below 5 per cent represent the lowest level in this respect.

7. The analysis also revealed that some of the districts in the educationally advanced states like Kerala, Gujarat, Maharashtra and West Bengal were still very backward in respect of literacy among Scheduled Tribes. In the districts of South Arcot (Tamil Nadu), Junagarh, Kutch, & Surendranagar (Gujarat), Ratnagiri (Maharashtra) Burdwan and Birbhum (West Bengal), less than 5 per cent of the Scheduled Tribes were literate. In seven districts of Maharashtra, two districts of Gujarat and 4 districts of Tamil Nadu, the corresponding literacy rate was between 5-10 per cent. As against the average scheduled tribe literacy rate of 25.7 per cent in Kerala State corresponding literacy rate in the districts of Palghat and Mallapuram was only 7.1 and 13.7 per cent respectively.

8. There was no Scheduled Tribe female population in 51 districts. Out of the remaining 309 districts, 60 per cent (185 districts) fell in the literacy range of 0 to 5 per cent. More than three fourth of the districts fell in the range of literacy rate of less than 10 per cent.

General Observations:

9. Analysis of the literacy rates among Scheduled Castes shows that more than two third of the districts in the country were having literacy rate of below 20 per cent. In respect of Scheduled Caste females over 90 per cent of the districts were having literacy rate below 20 per cent. In more than half of the districts, literacy rate was even below 5 per cent in respect of Scheduled Caste females.

10. The position in respect of literacy among Scheduled Tribes was even worse. More than three fourth of the districts were having literacy rate of below 20 per cent. In respect of Scheduled Tribe females this ratio was more than 90 per cent. About one fifth of the districts were having a literacy rate of below 5 per cent in respect of Schedule Tribe males while more than half of the districts were having less than 5 per cent literacy rate in respect of Schedule Tribe females. **Glaring** disparity in respect of literacy among Scheduled Tribes is also observed among educationally advanced States like Kerala, Gujarat, Maharashtra and West Bengal.
