# PREFACE

"Education in India" is an annual publication of the Department of Higher Education, Ministry of Human Resource Development. The present publication relates to school education for the year 2000-2001 and contains State-wise statistics on institutions, enrolment, teachers, enrolment ratios and drop-out rates, etc. in respect of school education. This publication is divided into two parts. Part -I contains an abstract of the developments in the field of school education. It also contains time series data on important aspects such as growth in the number of institutions, enrolment, teachers, retention rate, Gross Enrolment Ratios, teacher pupil ratio, dropout rates and female participation. Part II comprises State-wise statistical tables based on the information collected from the States and Union Territories through ES-I (S) forms. Despite repeated reminders no data has been received from Jammu & Kashmir, hence the same has been repeated from previous year. We are hopeful that this publication would provide useful information to educational planners and policy-makers both at national and state level as well as to those engaged in research and development in the field of education.

I would like to thank the officers of the States/UT administrations, the officers and the staff of the Statistics Division for their efforts in bringing out this publication. This publication has been brought out in resographic form for making available the data without much further delay.

It is our constant endeavour to improve the coverage in this publication as well as its presentation based on the feedback from the users of this Publication. Further suggestions, if any, for improving the publication are always welcome and may be sent to Shri Chander Kant, Joint Director (Plg.) in this Department.

## PART - I

# ABSTRACT - STATISTICAL ANALYSIS

### 1. Location and People:

India, comprising 28 States and 7 Union Territories is spread over an area of 32,87,263 Sq. Kms. The country is well marked from the rest of the Asian countries by mountain ranges and the seas. It is bounded by the Great Himalayas in the North, stretches southwards and at the Tropic of Cancer tapers off into the Indian Ocean between the Bay of Bengal on the East and the Arabian Sea on the West. Lying entirely in the Northern Hemisphere, the mainland extends between latitudes: 8°4' & 37°6' North; Longitudes: 68°7' & 97°25' East. It measures about 3214 Kms from North to South between the extreme latitudes and about 2933 Kms from East to West between the extreme longitudes. India has a land frontier of about 15,200 Kms and a coastline (including mainland, Lakshadweep, Andaman & Nicobar Islands) of 7516.6 Kms. Afghanistan and Pakistan are located to its North-West; China, Bhutan and Nepal to its North; Myanmar to the East, Bangladesh to the East of West Bengal and Sri Lanka is separated by a narrow channel of sea formed by the Palk Straits and the Gulf of Mannar. India is the second most populous country in the world after the Peoples' Republic of China.

According to the provisional estimates of the Census 2001, India had 1027.02 million citizens out of which 495.74 million were females. The annual growth rate of population during the decade 1991-2001 at 2.13% is slightly lower than the annual growth rate of 2.16% during the previous decade 1981-1991. This will exert pressure on all our existing facilities - Educational and others and would require their expansion.
