## FOREWORD

THE National Council of Educational Research and Training (NCERT) has been organising educational surveys and publishing survey reports which provide detailed educational statistics and information for planning. Five such surveys have been organised and reports have been brought out during the last three decades. The Sixth All India Educational Survey (AIES) was initiated as a joint project with the National Informatics Centre (NIC) for creating an effective database on school education. Computerisation of this survey data has twin objectives—to build up a database on school education at district/state headquarters to facilitate and update essential information, and make available data on magnetic media for a wider dissemination of reports generated for various administrative units.

Activities of this survey started with a conference of the State Survey Officers in December 1993. Organisation of this survey involved a number of activities like designing of tools, preparation of guidelines for Survey Officers and their training, collection of data, manual scrutiny, data entry, validation, generation of reports and preparation of analytical reports.

Initial phase of the survey involved organising training programmes for officers from states/districts/blocks and teachers from schools to collect the data. The second phase involved manual scrutiny and computer validation of data. This phase involved a mammoth task and brought new experience on the concept of interconsistencies and interrelation of various data items.

The third phase of bringing out reports also involved a mammoth job as a large number of reports have been planned and it involved checking and re-checking for inconsistencies by the NCERT and regeneration of reports by the NIC. This phase brought out the need for strengthening the Statistical Units at the state level to check this type of reports for improving the information base for future planning.

The first publication based on this survey entitled *Provisional Statistics* was brought out in November 1995 which provided advance information on some vital educational parameters like number of rural habitations with school facilities, type of schools, enrolment and the number of teachers. The second phase of priority reports were brought out in September 1996 to meet the requirements of the Ministry of Human Resource Development (Department of Education), Government of India in connection with the discussions on the Ninth Five Year Plan. These reports have provided detailed macro information on educational facilities in rural habitations, type of schools, enrolment and teachers for administrative units like district/state/all India. These reports have also helped many state governments to formulate their Ninth Five Year Plan on education. Finally, the detailed statistical reports on all vital aspects of information collected during this survey are being brought out in seven volumes. These will provide information to planners and administrators, academicians, researchers, and statisticians for their use.

A comprehensive Management Information System (MIS) on the basis of survey data has been developed with the help of the NIC, who extended its resources at the central and state level. This MIS is likely to revolutionise and bring a new approach for information dissemination for the education sector. I am happy that a close cooperation between the NCERT, the NIC and the state governments have brought this stupendous task to a fruitful culmination. I am sure that this cooperation is only a beginning to undertake many more such activities in future and give a new dimension and directions to information dissemination for this vital social sector of education and human resource development.

I would like to take this opportunity to record my deep appreciation of the team work, spirit of cooperation and zeal that the teams in the NCERT, the state governments and the NIC have shown for this mammoth task. I also take this opportunity to thank Shri P.R. Dasgupta, Secretary (Education), Government of India for his direction to give a new

orientation to the work. I wish to express my special thanks to Dr N. Seshagiri, Special Secretary and Director General, NIC, with whose support we could create MIS and introduce a new approach to this survey. The cooperation and help from the state governments and the Union Territories deserve special mention. I am confident that the survey data will create a new orientation to educational planning for introducing new technologies or storage of data on magnetic media for dissemination, retrieval and later use.

A.K. SHARMA

National Council of Educational  
Research and Training

## PREFACE

THE Sixth All India Educational Survey (AIES) was conducted with reference date as 30 September 1993 and as a joint project of the National Council of Educational Research and Training (NCERT) and the National Informatics Centre (NIC) with two objectives: to provide data for educational planning and to create a uniform school database for wide dissemination of information on magnetic media.

Activities of the survey started in the Department of Educational Surveys and Data Processing (DES&DP), NCERT with the designing of schedules in collaboration with Human Resource Development Information Division (HRDID) of NIC. Demands for more information from various government departments, users and researchers led to the development of eight schedules, covering more than thousand data items. It was followed by a pilot study in Goa, preparation of guidelines for Survey Officers and organisation of the first conference of State Survey Officers (SSOs). Requirements of statisticians, researchers, administrators and opinion of experts led to design of a tabulation plan of about 1,100 reports. The printing and distribution of about 33 lakh documents for collection of information from states/districts/blocks and deploying of about 10,000 Educational Officers and teachers from schools for survey in a period of three months was a mammoth task. Organising training programmes for these personnel at various administrative units and explaining them different concepts, definitions, manual scrutiny and procedures, handling of filled-in schedules had its own experience. Many state governments, UTs cooperated and gave high priority for this survey work. A few states could collect information by the end of May 1994. Most of the remaining states completed the collection of data by October 1994.

The next phase of manual scrutiny, dispatch of filled-in forms to data entry agencies, data entry and computer validation of data started in full earnest. Hiring of data entry agencies at State Centres, lack of computer awareness and concepts of coding by some Survey Officers delayed the data entry. Further, under-estimation of workload by some data entry agencies, and discontinuation of work half-way by a few agencies, designing of software at the NIC headquarters and distributed processing of data at State Centres, further enhanced the problems. These resulted in generation of long error lists and brought the realisation of magnitude of workload to all concerned. The state NIC units were strengthened with purchase of PENTIUM computer system and Line Matrix Printer by the NIC and additional manpower for checking and correction of validation reports by the NCERT brought relief to the problem. Finally, the validation of data was completed by August 1996.

The stage of generation of reports has also given its own experiences and lessons. The first set of reports for "Provisional Statistics" was generated in May 1995 and reconciliation of this data with other sources of information involved a good deal of correspondence with state governments and finally the report was published in November 1995. Since generation of tabulations comprising 1,100 reports was getting delayed, a few priority tabulations for formulation of the Ninth Five Year Plan were brought out by September 1996. The final phase of generating detailed reports involved processing of data a few times by the NIC, and checking and rechecking of reports by the NCERT.

This mammoth task of organisation of the Sixth AIES and computer processing of data required large resources of manpower for data collection and computer time for validation and creation of large database. It required organisation of about 10,000 personnel for collection of data. The data on educational facilities from 6.3 lakh villages/towns, core information on universe basis from 8.08 lakh schools and more than 2,000 colleges, issue-specific variable information from 2.01 lakh schools and individual-teacher information from 13.6 lakh teachers on sample basis was collected. The next stage of work

The manual scrutiny, data entry, software development, computer validation, generation and checking of reports required a good deal of expertise. For this, ten faculty members and four project associates worked for a period of four years at the NCERT and about fifteen officers in SSO's office for a period of three years.

The software development, validation of data, generation of reports involved about six officers for a period of three-four years at the NIC headquarters and about two-four officers for a period of two-three years at the NIC State Centres. Six software packages have been developed using FOX PLUS, ORACLE, COBOL and many of these packages are large with more than 20,000 lines of source code. It is estimated that computer validation of data and generation of reports involved about 30,000 hours on PENTIUM computer system and printing of about 20 lakh computer sheets. Finally a database of nearly 10 GB size involving more than 100 database structures was created.

We are confident that this database will be useful for many jobs and will help in the wide dissemination of information and bring in a new approach for formulation of plans and schemes on school education.

We thank the Advisory Committee for monitoring the survey activities and giving their expert advice at all stages and SSOs, SIOs and their colleagues for putting in extra hard work and extending their cooperation for completion of the job. We thank our colleagues in the Department of Educational Surveys and Data Processing, NCERT and the NIC headquarters for taking this job in full earnest.

We thank the Steering Committee for providing the administrative support for undertaking this job. We also thank Prof. A.N. Maheshwari, Joint Director, NCERT for providing continuous guidance, support and motivation. We take this opportunity to express our gratitude and thanks to Dr N. Seshagiri, Special Secretary and Director General, NIC and finally to Prof. A.K. Sharma, Director, NCERT for giving all the needed support.

**JAWAHARLAL NEHRU'S MESSAGE**  
on the  
**First Day**  
of  
**Independence**

We have hard work ahead. There is no resting for any one of us till we redeem our pledge in full, till we make all the people of India what destiny intended them to be. We are citizens of a great country, on the verge of bold advance, and we have to live up to that high standard.

All of us, to whatever religion we may belong, are equally the children of India with equal rights, privileges and obligations. We cannot encourage communalism or narrow-mindedness, for no nation can be great whose people are narrow in thought or in action.

## INTRODUCTORY NOTE

### Objectives of the Survey

THE Sixth All India Educational Survey (AIES) began in 1993 with 30 September 1993 as the date of reference. The objectives of the survey are given below.

1. To create database of the Sixth AIES for use by different agencies.
2. To develop MIS for use at various levels of administration.
3. To assess the present position of educational facilities at various school stages in respect of coverage of the school-going children; the distance to be covered by a child to reach the school; enrolment in general, and of Scheduled Caste (SC) and Scheduled Tribe (ST) children and girls in particular with special reference to Universalisation of Elementary Education (UEE).
4. To assess the availability of physical facilities, like school building, playground, furniture, etc.
5. To assess the availability of basic amenities, like medical check-up, drinking water, urinals, etc.
6. To identify incentive schemes and the number of beneficiaries.
7. To assess the position of educational inputs, like availability of blackboard and chalk, library, laboratory, textbook bank, etc.
8. To know about the academic and professional qualifications of working teachers with special reference to teaching of science and mathematics and to determine attrition rate in the teaching profession.
9. To assess the availability of other educational facilities like, non-formal education, education for disabled children and pre-primary education.

In order to cover all the aspects included in the above objectives the following eight schedules were used for the collection of data.

<i>Schedules</i>	<i>Canvassing mode</i>
1. Village Information Form (VIF)	All villages
2. Urban Information Form (UIF)	All urban areas
3. School Information Form 1 (SIF-1)	All recognised schools
4. School Information Form 2 (SIF-2)	Selected schools
5. Teacher Information Form (TIF)	All teachers in selected schools
6. College Information Form (CIF)	All degree colleges with Classes XI and XII
7. Educational Finance Form (EFF)	All revenue districts
8. Educational Statistics — A Flash (ESF)	All C.D.blocks/towns

### Organisational Set-up and Execution of the Survey

The survey was conducted jointly by the Ministry of Human Resource Development (MHRD), the National Council of Educational Research and Training (NCERT), the National Informatics Centre (NIC), and the thirty-two state governments/Union Territory administrations. The MHRD provided financial and administrative support for the execution of the project. It also monitored the progress of the Survey through the Steering Committee headed by the Union Education Secretary. Besides this committee, an Advisory Committee headed by the Director, NCERT was constituted to provide academic input at the national level. This

committee was represented by the user organisations, statisticians, educationists and the sample survey experts.

The Steering Committee had four meetings and the Advisory Committee/expert group had eight meetings. At the national level the survey operations were planned and monitored mainly by the NCERT and the NIC headquarters.

At the state level a temporary survey unit at each state/UT was created. The State Survey Unit was headed by the State Survey Officer of the Directorate of Education and assisted by the Assistant State Survey Officers, Statistical Assistants and the other administrative staff. This Unit was assisted by the District Survey Officer, Statistical Assistant and Block Education Officers in each revenue district. The Director of Education in the state/UT acted as ex officio Director of the Survey. Each state and Union Territory constituted a state level Advisory Committee to provide administrative and operational support to the State Survey Unit. This committee was headed by the State Education Secretary. The NCERT and the NIC represented on this committee for providing coordination between the state and the national level.

The present survey is different from the previous five AIESs with regard to survey methodology. For the first time in the present survey, sampling technique has been used for collection of data on issue-specific variables and complete enumeration on the core variables. In earlier surveys the data were collected on complete enumeration basis. Further, in earlier surveys processing of data was undertaken manually. Whereas in this survey, computer facilities of the NIC have been used to accrue the following benefits.

1. The database of bench-mark data will be created which would help in the storage and retrieval of voluminous data on different variables related to each and every primary unit, namely, the village, the town/city, the school and the teacher. The agencies at the state level would be able to share this large database through the national communication network system.
2. Like the previous AIESs, block-wise up-to-date complete lists of schools with postal addresses were prepared in advance for canvassing the school questionnaires and monitoring the progress. This time it has been stored on computer for future use. Needless to mention, this database would help in establishing a Management Information System (MIS) at the national, state and district levels. This MIS would help in developing the Directories of Schools with minimum information (location, type, management, teacher and enrolment) at the national/state/district/block level for ready use and reference.
3. This approach of MIS would also provide a platform to develop different kinds of up-to-date sampling frames in order to draw rigorous samples for conducting sample surveys. In this way, the data of sample surveys would provide supplementary, demonstrable and a firm basis for drawing valid conclusions which would, in turn, help in taking the right decisions. Gradually, the AIES would evolve into a more comprehensive validation exercise on a periodical basis. On the basis of such established databases, new exercises of generation of time-series indices on sound and scientific lines would also be possible.

This new feature called for well laid-out design of the survey, training and its execution strategy at every stage of the survey. The details for training of the survey personnel, data collection, manual scrutiny of data, handling of forms, etc. are contained in the manual 'Guidelines for Survey Officers'. The analysis plan and scrutiny of tables are contained in the separate manuals. The training programme in the data collection methodology, data preparation, coding, data transcription, etc. were organised at the state level for the staff of the State Survey Unit and for the District Survey Officers. The State Survey Officers in turn conducted a two-day training programme for the block level officers.

Besides these manuals, the instructions are also contained in the software manuals for data transcription, data validation and analysis of data of each of the eight schedules. The State Survey Officers and State Informatics Officers were acquainted, through eight national level seminars/training programmes, with these tasks jointly by the NCERT and the NIC.

In addition to manual scrutiny of data and its validation for data transcription, special efforts were made to identify and correct the inconsistency within and between tables. The data in the tabulations were validated from the results of the Fifth AIES and also from other sources like Census. The national level team made frequent visits to the states for supervision of these operations and for guidance to the State Survey Officers and State Informatics Officers.

## Dissemination of Data

In earlier AIESs, the data were aggregated at the block, district, state and national levels. These aggregated data were available for the use at the respective headquarters. States and UTs used to prepare analytical reports in the print form containing district level aggregated data. At the national level, the NCERT used to print the national survey report giving statewise information on most of the data items along with other classificatory variables, like, rural and urban areas, school management, gender, etc. From the Third Survey onward, the NCERT has started publishing provisional statistics on important aspects much before the main report.

In the Sixth AIES, a separate schedule, Educational Statistics — A Flash, was developed to release statistics in advance. The data for this schedule were manually compiled at the block and town level from the filled-in schedules, viz., Village Information Form, Urban Information Form, School Information Form 1 and College Information Form. The results were analysed on the NIC computers. The statewise results were published during November 1995 in a report titled, *Provisional Statistics*. The data from block level and upward are also available on the magnetic media in the NCERT.

The data of the remaining seven schedules for each state are stored on the magnetic media at the corresponding State NIC Centres. The tabulation plan for VIF, UIF, SIF 1 and CIF schedules provides information at the block, district, state and national levels whereas in the case of SIF 2 and TIF schedules, it provides estimates at the state and national levels. All the databases and tabulations will be available on magnetic media for dissemination at the NCERT, NIC headquarters and its State Centres. The state and the national level tabulations of each schedule will also be available in the print form. Besides these, it is also being planned to store the tabulated information on CD-ROM for print reports and put some important information on INTERNET.

The print form of the national level tabulations of each schedule is proposed to be brought out in a phased manner in seven volumes as per the following scheme.

Vol.No.	Schedule	Aspect
I	VIF and UIF	Educational facilities in rural and urban areas
II	SIF 1	Schools and physical facilities
III	SIF 1	Teachers in schools
IV	SIF 1	Enrolment in schools
V	SIF 1 and CIF	Educational inputs and facilities in schools
VI	SIF 2	Agewise enrolment, repeaters, incentive schemes, etc. in schools
VII	TIF	Teachers' qualifications and their service conditions

In this volume, statewise data based on the VIF and UIF schedules are presented in 66 tables. Important variables used in these tables are given below.

Aspect	Table No.	Variables Covered
A. Demographic Data	V 1 to V 9	These tables cover a number of districts, blocks, urban areas, villages and habitations in them. Also, the estimated child population in rural and urban areas is given in these tables.
B. Educational Facilities for Formal Education		
I. Primary Stage	V 10 to V 18	These tables contain information regarding facilities in the habitations at primary stage for all communities, SC and ST, according to population slabs and distance.

<i>Aspect</i>	<i>Table No.</i>	<i>Variables Covered</i>
II. Upper Primary Stage	V 19 to V 27	These tables give information regarding facilities in the habitations at upper primary stage for all communities, SC and ST, according to population slabs and distance.
III. Secondary Stage	V 28 to V 33	These tables give information regarding facilities in the habitations at secondary stage for all communities, SC and ST, according to population slabs and distance.
IV. Higher Secondary Stage	V 34 to V 39	These tables give information regarding facilities in the habitations at higher secondary stage for all communities, SC and ST, according to population slabs and distance.
V. Unrecognised Schools in Rural Area	V 40 to V 41	Villages having unrecognised schools
VI. Villagewise Educational Facilities	V 44 and V 45	These tables give information regarding villages according to proportion of SC and ST population and having facility at different stages of formal education.
C. Educational Facilities for Non-Formal Education (NFE)	V 42	This table gives information regarding habitations not served within 1 km but served by NFE Centres at primary stage.
	V 43	This table gives information regarding villages not served by formal schooling system at different stages of education but served by NFE Centres at primary and upper primary stages.
	V 46 to V 58	These tables give information regarding number of villages having the facility of non-formal education at different levels, types of centres, enrolment and instructors.

<i>Aspect</i>	<i>Table No.</i>	<i>Variables Covered</i>
D. Educational Facilities for Disabled Children	V 59 to V 62	These tables give facilities for disabled children, number of institutions according to type of disability, number of villages/towns having the facility and children enrolled in them.
E. Educational Facilities for Pre-Primary Education	V 63 to V 66	These tables give information regarding number of villages having pre-primary education facility, number of institutions, types of facilities, teachers and enrolment in them.

### **Concepts and Definitions**

SOME of the important concepts and definitions of terms used in the VIF and UIF schedules for data collection are given below.

#### **1. Urban area**

All areas which were identified as 'urban' at the time of the 1991 Census or subsequently notified to be so, are to be treated as urban.

#### **2. Rural area**

Areas which are not urban shall be treated as rural.

#### **3. Community Development (C.D.) Block**

The C.D. Block in this survey connotes 'the Block under the community project administration'. In the states where the scheme of community development blocks is not in vogue, tehsil/taluk/mandals or their equivalent given in the 1991 Census will be the unit for collection of data.

#### **4. Village**

A village means the Census revenue village as used in the 1991 Census. It represents a parcel of land whose boundaries are defined and settled for revenue purposes. A village with no population will be termed as 'bechirag' or 'deserted' or 'uninhabited'.

#### **5. Habitation**

A habitation is a distinct cluster of houses existing in a compact and contiguous manner with a local name and its population should not be less than 25 in plain areas and not less than 10 in hilly or sparsely populated areas. In case a village has only one habitation, the population condition will not apply. A village may have one or more than one habitation except when it is a bechirag/deserted/uninhabited village. One of the habitations may bear the name of the village, generally known as the main habitation.

#### **6. Distance**

The distance between two habitations or between a school and a habitation is the convenient walking distance between the central points of the two habitations or the school and the central point of a habitation.

If the aerial distance or the distance as the crow flies is one km between the central point of a habitation and the school but the actual convenient walking distance by road or path is 1.5 km then the walking distance between the two will be 1.5 km.

#### **7. School Stages**

The education pattern differs from state to state. Various combinations of classes of the school system constitute primary, upper primary, secondary and higher secondary stages. Some of the states and Union Territories have provision for junior colleges, independent PUC and intermediate colleges beyond the secondary stage. In this survey these classes/colleges will be considered along with the higher secondary stage.

**8. Section**

All students of a class are divided into groups for the convenience of teaching. Each group is called a section. A class may have one or more than one section. If there are more than one section in a class, they are labelled as A, B, C, etc. For example, if Class VI has 100 students and these students are divided into three groups, the first group (40 students) is labelled as section group VI-A, the second group (35 students) section VI-B and the third group (of the remaining 25 students) as section VI-C.

### **STATISTICAL TABLES**

V 1	Statewise population as per 1991 census	3
V 2	Statewise number of villages, habitations, urban areas and estimated population as on 30 September 1993.	6
V 3	Statewise estimated child population as on 30 September 1993 in rural areas	8
V 4	Statewise estimated child population as on 30 September 1993 in urban areas	9
V 5	Statewise estimated child population as on 30 September 1993 in both rural and urban areas	10
V 6	Statewise number of habitations in various population slabs and their population for all habitations	11
V 7	Statewise number of habitations in various population slabs and their population for habitations predominantly populated by SC	14
V 8	Statewise number of habitations in various population slabs and their population for habitations predominantly populated by ST	17
V 9	Statewise number of villages in various population slabs and their population	20
V 10	Rural habitations with and without primary schools/sections for all habitations	23
V 11	Rural habitations with and without primary schools/sections for habitations predominantly populated by SC	24
V 12	Rural habitations with and without primary schools/sections for habitations predominantly populated by ST	25
V 13	Statewise rural habitations with and without primary schools/sections for all habitations	26
V 14	Statewise rural habitations with and without primary schools/sections for habitations predominantly populated by SC	30
V 15	Statewise rural habitations with and without primary schools/sections for habitations predominantly populated by ST	34
V 16	Statewise rural habitations having population of 300 or more served by primary schools/sections for all habitations	38
V 17	Statewise rural habitations having population of 300 or more served by primary schools/sections for habitations predominantly populated by SC	39
V 18	Statewise rural habitations having population of 300 or more served by primary schools/sections for habitations predominantly populated by ST	40

V 19	Rural habitations with and without upper primary schools/sections for all habitations	41
V 20	Rural habitations with and without upper primary schools/sections for habitations predominantly populated by SC	42
V 21	Rural habitations with and without upper primary schools/sections for habitations predominantly populated by ST	43
V 22	Statewise rural habitations with and without upper primary schools/sections for all habitations	44
V 23	Statewise rural habitations with and without upper primary schools/sections for habitations predominantly populated by SC	48
V 24	Statewise rural habitations with and without upper primary schools/sections for habitations predominantly populated by ST	52
V 25	Statewise rural habitations having population of 500 or more served by upper primary schools/sections for all habitations	56
V 26	Statewise rural habitations having population of 500 or more served by upper primary schools/sections for habitations predominantly populated by SC	57
V 27	Statewise rural habitations having population of 500 or more served by upper primary schools/sections for habitations predominantly populated by ST	58
V 28	Rural habitations with and without secondary schools/sections for all habitations	59
V 29	Rural habitations with and without secondary schools/sections for habitations predominantly populated by SC	60
V 30	Rural habitations with and without secondary schools/sections for habitations predominantly populated by ST	61
V 31	Statewise rural habitations with and without secondary schools/sections for all habitations	62
V 32	Statewise rural habitations with and without secondary schools/sections for habitations predominantly populated by SC	66
V 33	Statewise rural habitations with and without secondary schools/sections for habitations predominantly populated by ST	70
V 34	Rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for all habitations	74
V 35	Rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for habitations predominantly populated by SC	75
V 36	Rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for habitations predominantly populated by ST	76
V 37	Statewise rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for all habitations	77
V 38	Statewise rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for habitations predominantly populated by SC	81
V 39	Statewise rural habitations with and without higher secondary schools/intermediate/junior colleges/PUC for habitations predominantly populated by ST	85
V 40	Villages having unrecognised schools in different population slabs	89
V 41	Statewise number of villages having unrecognised schools	90
V 42	Statewise number of habitations not served by primary schools/sections within 1 km and having non-formal education centres	91
V 43	Statewise number of villages not having schooling facility at different stages	92

V 44	Villages in various population slabs according to proportions of scheduled castes and availability of educational facilities	93
V 45	Villages in various population slabs according to proportions of scheduled tribes and availability of educational facilities	94
V 46	Villages in various population slabs according to facility for non-formal education	95
V 47	Statewise number of villages according to facility for non-formal education	96
V 48	Non-formal education centres according to area, management, level and type	97
V 49	Statewise non-formal education centres according to area, management and type — primary only	98
V 50	Statewise non-formal education centres according to area, management and type — upper primary only	102
V 51	Statewise non-formal education centres according to area, management and type —both primary and upper primary	106
V 52	Non-formal education centres according to instructors in rural areas	110
V 53	Non-formal education centres according to instructors in urban areas	111
V 54	Non-formal education centres according to instructors in both rural and urban areas	112
V 55	Statewise number of instructors in non-formal education centres	113
V 56	Statewise number of children in non-formal education centres managed by government	114
V 57	Statewise number of children in non-formal education centres managed by voluntary agencies	118
V 58	Statewise number of children in non-formal education centres managed by both government and voluntary agencies	122
V 59	Schools with facilities for different types of disability	126
V 60	Statewise number of schools for disabled children according to type of school	127
V 61	Enrolment in schools for disabled according to type of disability	131
V 62	Statewise number of schools for disabled according to type of disability	132
V 63	Statewise number of villages according to facility for pre-primary education	136
V 64	Statewise pre-primary education institutions, teachers and enrolment in Balwadi and Anganwadis	137
V 65	Statewise pre-primary education institutions, teachers and enrolment in independent pre-primary schools	141
V 66	Statewise pre-primary education institutions, teachers and enrolment in pre-primary classes attached to a school	145

PLEASE READ THE INSTRUCTIONS GIVEN OVERLEAF BEFORE FILLING  
THIS FORM

## INSTRUCTIONS

**Introduction**

The present educational survey, sixth in the series, is being conducted throughout the country. In this survey data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilization.

**Village Information Form (VIF)**

This Form seeks information relating to population, schooling and other educational facilities in the revenue village as on 30-09-1993.

**Your Help Needed**

The quality of the results of this survey depends on the accuracy and completeness of the information to be furnished by you. Therefore please answer each item carefully and accurately.

**How to Answer**

[a] This Form is to be filled in by the headmaster of the recognised school of the village with the help of Village Officer/Patwari.

[b] Please use the international numerals while supplying the information in numbers.

[c] The information collected from you will be computerised by the National Informatics Centre. Take extra care to read the procedure of supplying the information which are printed in italics.

[d] In certain items the information is to be provided after converting it into numeric codes given in box.

[e] Certain terms are defined and explained overleaf. Please read them before answering.

Thank you for your cooperation.

## DEFINITION AND EXPLANATION FOR ITEM 3

- 1) Habitation : A habitation is
  - (a) a distinct cluster of houses existing in a compact and contiguous manner;
  - (b) with a local name; and
  - (c) its population should not be less than 25 in plain areas and not less than 10 in hilly/desert/sparsely populated areas
- 2) Any habitation with population less than 10 in hilly /desert /sparsely populated areas or with population less than 25 in plain areas may not be given a separate status of a 'habitation' and its population be included in the nearest habitation of the same village. But this condition will not apply to a village with one habitation only.
- 3) The distance between a habitation and a school is the convenient walking distance between the central point of the habitation and the school.
- 4) A village may have one or more than one habitation, except when it is a deserted/*bechirag* village.

## VILLAGE INFORMATION FORM (VIF)

1. Give actual population, if available, otherwise give estimated population of the village as on 30 September 1993.

Population : \_\_\_\_\_

2. Number of recognised school(s) in the city/town as on 30 September 1993.

Types of Recognised Schools	Number of Schools
(a) Primary Schools	_____
(b) Upper Primary (Middle) Schools	_____
(c) Secondary Schools	_____
(d) Higher Secondary Schools (Senior Secondary Schools/PUC/Inter/Junior Colleges)	_____
(e) Degree colleges having Classes XI and XII/PUC attached	_____

3. Population and schooling facilities in each habitation of the village.

- (a) Number of habitations \_\_\_\_\_
- (b) Give details of habitations in the following table:
- Start with main habitation.
  - Distance of schooling facility from habitation is to be given up to one decimal place of km.
  - In column 4  
If SC population is 50% or more, write 1  
If ST population is 50% or more, write 2  
Otherwise, write 3.

(contd.)

7 (a) Whether the facility for pre-primary education exists in the village?  
(write 1 for 'Yes', 2 for 'No' in the box)

(b) If 'yes', please give the following information as on 30-09-1993.

Sl. No.	Type of facility	Number of Institutions	Number of teachers		Number of children	
			Male	Female	Boys	Girls
1	2	3	4	5	6	7
1.	Balwadi/Anganwadi					
2.	Independent Pre-primary School					
3.	Pre-primary stage/classes attached to a school (including LKG, UKG and Nursery)

## INSTRUCTIONS

**Introduction**

The present educational survey, sixth in the series, is being conducted throughout the country. In this survey data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilization.

**Urban Information Form (UIF)**

This Form seeks information relating to population, schooling and other educational facilities in the city/town as on 30 September 1993.

**Your Help Needed**

The quality of the results of this survey depends on the accuracy and completeness of the information to be furnished by you. Therefore, please answer each question carefully and accurately

**How to Answer**

[a] Please use the international numerals while supplying the information in numbers.

[b] The information collected from you will be computerised by the National Informatics Centre. You need to take extra care to read the procedures of supplying the information which are printed in italics.

[c] In certain questions the information is to be converted into codes. The code allotted to each response is given in the box.

Thank you for your cooperation.

## URBAN INFORMATION FORM (UIF)

1. Give actual population, if available, otherwise give estimated population of the city/town as on 30 September 1993.

Population : \_\_\_\_\_

2. Number of recognised school(s) in the city/town as on 30 September 1993.

Types of Recognised Schools		Number of Schools
(a)	Primary Schools	_____
(b)	Upper Primary (Middle) Schools	_____
(c)	Secondary Schools	_____
(d)	Higher Secondary Schools (Senior Secondary Schools/PUC/Inter/Junior Colleges)	_____
(e)	Degree colleges having Classes XI and XII/PUC attached	_____

3. Non-formal Education Centres in the city/town as on 30-09-1993.

— Include only those Centres which cater to the children of school going age (6-14 years).

— Write 0 if there is no Centre and proceed to Question 4.

(a) Number of Centres : \_\_\_\_\_

- (b) In case the city/town has Non-Formal Education (NFE) Centre(s), please provide the following information.

— Provide information for each NFE Centre separately.

— Under Column 3 write 1 for Primary; 2 for Upper Primary; 3 for both Primary and Upper Primary.

— Under Column 4 write 1 for government; and 2 for voluntary agencies.

— Under Column 5 write 1 for boys; 2 for girls; 3 for both boys and girls.

Sl. No.	Name of the Centre	School Stage	Management of Centre	Type of Centre	No. of Children in age-group				No. of Instructors	
					6 to below 11		11 to below 14			
					Boys	Girls	Boys	Girls		
1	2	3	4	5	6	7	8	9	10	

4. School(s) for the disabled (handicapped) children in the city/town as on 30-09-1993.

— Write 0 if there is no school and proceed to Question 5.

(a) Number of schools : \_\_\_\_\_
