

# INFORMATION TECHNOLOGY POLICY GOVT. OF MIZORAM

(Cabinet decision no. 13 dated 28.05.2001)

## 1. PREAMBLE

*Resource based  
economies to  
Knowledge based  
economies*

1.1 Information Technology (IT) is the world's fastest growing economic activity. It is transforming resource-based economies to knowledge-based economies. IT has become the greatest agent of change and promises to play this role even more dramatically in future. IT changes every aspect of human life, apart from impacting changes in the field of communications, trade, manufacturing, services, culture, entertainment, education, research and national security. IT breaks old barriers and is building new interconnections in the emerging concept of a single global village. It has also become one of the critical indicators of the progress of nations, communities and individuals. The advent of IT offers opportunities to overcome historical disabilities. IT is a tool that will enable Mizoram to achieve the goal of becoming a strong, prosperous and self-confident state. IT promises to compress the time it would otherwise take for Mizoram to advance rapidly in its march towards faster development and in occupying a position as a progressive and self-sufficient state.

*All round  
progress and  
development of  
the state*

1.2 Mizoram recognizes IT as the fastest and the most advanced vehicle of change for all-round progress and development of the State. In view of the potential of IT, the State Government advocates widespread proliferation of IT in the State and adopts the following policy supports for promotion of IT in the fields of E-Governance, Empowerment of the people and the society, Education, Industry, Health, Rural Development, Agriculture, Tourism, IT for Masses, and IT Enabled Services.

1.3 The Policy shall come into effect from the date of notification of this policy, till such time, the government may consider the necessity of modification. The government also reserves the right to make any amendments in the policy.

## 2. VISION

*Most IT literate  
state in the  
country*

2.1 To make Mizoram the most IT literate state in the country and a global center of excellence in IT Education, Training, Research, and Development. This vision translates into a mission. The vision objectives are:

**Govt. as  
Facilitator,  
Motivator,  
Promoter**

- Employment Generation
- Creation of Wealth
- IT led economic growth

2.2 To accomplish its vision, the Govt. of Mizoram will play the role of pro-active facilitator, Pro-active motivator, Pro-active promoter, in order to Spread IT to the masses speedily, and to ensure speedy IT led economic development.

### 3. OBJECTIVES

The following are the objectives of Mizoram IT Policy:

**Total IT literacy  
by 2010**

- 3.1 Promotion of IT Industry, IT software, IT Products, and IT Services within the state.
- 3.2 Promoting IT for the masses.
- 3.3 Setting up a goal of achieving total computer literacy in Mizoram by the year-2010.
- 3.4 Improvement of efficiency and productivity in governance.
- 3.5 Improvement of transparency and responsive-attitude in governance.
- 3.6 Generation of IT -skilled manpower and IT capacity-building in the State.
- 3.7 Promotion of IT skills and IT know-how among the youth of Mizoram enabling them to engage in gainful self-employment and in IT related activities.
- 3.8 Propelling growth of IT and IT related activities.
- 3.9 Providing of people-friendly interfacing between Government and citizen.
- 3.10 Providing better information and interactive services to tourists, businessman and entrepreneurs.
- 3.11 Dissemination of knowledge to farmers, agriculturists and rural population of Mizoram.

- 3.12 Improvement of revenue assessment and collection mechanism.
- 3.13 Improvement of general employment opportunity and employment generation.
- 3.14 Widespread use of IT in educational Institutions.
- 3.15 Development of capabilities of Governance as a catalyst for economic development by collaborative action and learning.
- 3.16 Proliferation of Internet, E-Governance, E-Commerce and E-Education.

#### 4. CLASSIFICATION OF IT POLICY

##### 4.1 IT POLICY FOR GOVERNMENT

###### *Constitute IT Task Force*

- 4.1.1. The Government shall constitute a Task Force with members from various organizations and experts that would conceive and oversee the implementation of the programs envisaged under this policy. The Task Force shall formulate an Action Plan so as to achieve the objective.

###### *Creating the Department of Information Technology*

- 4.1.2. The Government of Mizoram shall endeavor to examine the possibility of creating the Department of IT to entrust the works of co-coordinating IT matters and implementing any IT projects. The department of IT shall be nodal agency till such a time Industries Department will be the nodal agency. The nodal department shall be the single window for all the clearances, incentives and certification and premises required for the IT activities. The basic objectives of the nodal department shall be to adopt the role of pro-active facilitator, pro-active motivator, pro-active promoter, to spread IT to the masses speedily and to ensure IT led development. It shall also be responsible for the creation of infrastructures, manpower development and employment generation, etc.

###### *Setting up of E-Governance and Citizen Facilitation*

- 4.1.3. The Government shall endeavor setting up of Electronics Governance and Citizen facilitation to provide better services and improved quality of governance and citizen facilitation through development of sound infrastructure providing high level of communication. Electronics governance shall envisage the developing of cabling infrastructure to carry

voice, data and video for Secretariat Complex and several information kiosks in Aizawl city.

***IT literacy as  
Compulsory for  
recruitment.***

- 4.1.4. The Government shall endeavor to introduce IT literacy as compulsory for recruitment to government services. In case a person has to be recruited without IT literacy, he/she should compulsorily acquire it within one year. All the existing staff of the government must be asked to attain IT literacy in the next 5 years.

***Strengthening  
ATI***

- 4.1.5. The Government shall endeavor to strengthen Administrative Training Institute (ATI) for conducting IT Awareness, short-term courses in Computer Application, Office Automation, etc.

***Internet  
Connectivity to  
all the Govt.  
Offices***

- 4.1.6. All District Office Headquarters shall endeavor to give Internet /Intranet connectivity by which they will be able to communicate with their respective Secretariats. Similarly, all Directorates shall be given a similar communication facility with their respective Sub-Divisions and subordinate offices, thereby enhancing faster communication and giving added efficiency to the governing mechanism.

***Budgetary  
Allocation of 2% in  
every Department  
every year***

- 4.1.7. The Government shall endeavor to make a special budget allocation every year to complete its IT program. Each department may consider setting aside a budgetary allocation of 2% for the development of IT in their respective department.

- 4.1.8. The Government shall endeavor to provide facilities to users/citizens for filing of documents electronically to various Departments where government and citizen interface is necessary. The Task Force shall identify Government departments and set priority for introducing such facility in the Departments on phased manner.

***Restructuring &  
Re-organizing  
ZENICS***

- 4.1.9. The Government shall revamp and strengthen Zoram Electronics Development Corporation Ltd. (ZENICS). ZENICS will play the role of facilitator and assist various government departments in selection of appropriate Hardware, Software, and Training programs in accordance with their needs.

- 4.1.10. Every department shall endeavor to put all Government regulations, schemes, forms, tenders etc. on the Internet.

***Implementation  
of Cyber Laws  
and IPR***

- 4.1.11. The Government shall constitute a high level committee that will implement Cyber Laws to combat such activities like serious piracy cases and illegal business practices and also to

take appropriate action Intellectual Property Rights (IPR) of creator, of content and software through vigorous enforcement of relevant copy right laws.

## 4.2 IT POLICY FOR EDUCATION

- Study Team on IT Education** 4.2.1 The Government shall endeavor to set up Study Team on IT Education under the chairmanship of the Director of Education Department for implementation of IT in Education.
- 4.2.2 In order to achieve total computer literacy in Mizoram the Government shall encourage the use of Information Technology in schools, colleges and all educational Institutions for which special program and special resources shall be envisaged by the Education Department in collaboration with the IT nodal agency of the State for creating necessary infrastructure to achieve this goal.
- All School/College Teachers shall be IT literate by 2005** 4.2.3 The Government shall start a special training program for school/teachers to help them make use of IT in teaching. All School/College teachers shall endeavor to become IT literate by the year 2005. For this purpose, the Education Department shall draw up IT Education Program for School and college teachers of different levels.
- IT Subject as Compulsory Subject from primary level to Secondary level** 4.2.4 The Education Department shall strive to develop an appropriate curriculum for all educational institutions of Mizoram so as to make IT a compulsory subject from the level of Primary School to Higher Secondary School.
- 4.2.5 An IT Course Module shall endeavor to be made compulsory component for all Degree Courses within 3 years.
- 4.2.6 The State Government shall endeavor to launch a special scheme for the introduction of computer/IT education in schools and the scheme shall be launched as early as possible.
- Setting up of NEIIT** 4.2.7 The Government shall endeavor the setting up of North Eastern Institute of Information Technology (NEIIT) to be deemed University. Establishment of this type of institutions shall be given high priority by the State.
- Training for unemployed educated youth** 4.2.8 The Government shall endeavor to take effective steps towards the generation of more IT experts in association with global giant companies to meet the demands of IT Industry

both for domestic and export market. The Academic curriculum and Professional curriculum will be designed to meet the world class certified professional in the latest technology. Unemployed Educated Youth shall be trained to become IT professional for sustainable self-employment.

- 4.2.9 In order to acquire specialists in the areas of Computer and Communication Technology, the State Government shall endeavor to consider sponsoring of employees to various government departments, undertaking, autonomous organization, non-government organization inside and outside the State.
- Special seats & sponsorship for B.Tech/MCA/M.Tech in IT***
- 4.2.10 The State Government shall endeavor to train manpower to meet the demands of the domestic and export industry. The state government shall endeavor to arrange special seats for enrollment in B.Tech/MCA/M.Sc./M.Tech in Information Technology at various Institutions of India and offer a sponsorship.
- Special Budgetary for manpower development***
- 4.2.11 The Government shall endeavor to make a special budgetary allocation for the purpose of Manpower development and training every year.
- 4.2.12 The State Government shall endeavor to launch special computer educational schemes to enable students, teachers and school to gain IT knowledge by providing financial packages and by taking initiatives like lowering the cost of personal computers, easy bank loan and computer donations to business houses.
- Internet connectivity to all schools/ colleges***
- 4.2.13 The Government shall endeavor to provide Internet connectivity to every school, college and educational institution. Human Resource Development shall draw up a separate Action Plan for this purpose.
- Computer facilities to every schools/ colleges***
- 4.2.14 In order to provide Computer facilities to every school/college, private and NGO shall be given a special permission to install computers in the space provided by the schools for commercial purposes after school hours and the cost of maintenance of these machines can be charged as a fee from students.
- 4.2.15 The Government shall encourage professional certification programs in collaboration with Microsoft, Oracle, CISCO, and Sun Microsystems and it shall also promote non-formal education like DOEACC and IGNOU.

- IT Courses at ITI and Polytechnics***
- 4.2.16 The Government shall endeavor to upgrade Industrial Training Institute (ITI) and Polytechnics for providing courses on IT. The institute shall also provide training skills for data entry, marketing, transcription, call centers, content creation and data processing.
- 4.3 IT POLICY FOR INDUSTRY**
- Setting up of SLITCC to solve the problems faced by the IT Industries***
- 4.3.1 The Government shall provide impetus to software sector and hardware sector of Information Technology Industries.
- 4.3.2 The Government shall set up State Level Information Technology Co-ordination Committee (SLITCC) under the chairmanship of Chief Secretary, Government of Mizoram. The committee shall consist of concerned Department Officers, members from industrial units of Mizoram and from the Government of India, agencies and senior technical officials to guide the government in the management and implementation of its IT Policy in Industrial sector. The Co-ordination committee shall meet quarterly to review the progress and to solve the problem faced by the IT Industry. The Committee shall also monitor the progress of IT education for industrial use.
- Setting up of issuing eligibility certificate to avail incentives***
- 4.3.3 The Government shall also set up Departmental Information Technology Committee (DITC) as a single window agency under the Chairmanship of Secretary concerned for issuing eligibility certificate to avail incentives. The incentives shall not be given unless this committee has approved the units.
- No license required to set up IT industries***
- 4.3.4 At par with the central government, all the IT industry with the exception of aerospace and defense electronics shall be de-licensed. Hence, the IT industries including IT training institution shall not be required to register in the department of industries unless they want to avail incentives. IT industry including IT training institution needs to register firms or society or co-operative or company to apply eligibility certificate to avail incentives.
- Setting up of IT Park / STP***
- 4.3.5 The Government shall endeavor to set up Software Technology Park (STP) infrastructure exclusively for software Development and IT enabling services, which will be set up inside the IT Park. The IT Park should be architecturally designed and equipped with the latest state-of-the-art infrastructure facilities to meet the growing needs of the high

tech companies in Electronics, Information Technology, Telecommunications, Finance and related Industries. The IT Park shall offer a one-stop shop solution to the companies for their business activities and social needs. In this park, provisions will be made for single window clearance for Hardware units, software development units and software services units to be set up, as per the existing schemes of the Government of India.

- 4.3.6 The Government shall encourage the private sector to establish Software Technology Park (STP) in the state of Mizoram.
- IT industries in residential areas* 4.3.7 The Government shall permit establishment of the IT industries in residential areas.
- International Quality Certification ISO 900, SEI-CMM, QAI* 4.3.8 In order to ensure that the IT Industries including IT training institution in the state are in a position to meet international quality certification like ISO 9000, Software Engineering Institute Capability Maturity Model (SEI-CMM), and Quality Assurance Institute (QAI) certification which are insisted upon by International Companies, efforts should be made to establish such an organization or its branch in Mizoram, which shall be authorized to issue such certification as may be necessary.
- Financial Assistance to IT industries* 4.3.9 The Government shall endeavor to arrange financial assistance to IT industries including an IT training institution to be established and set up in State. The government will initiate dialogue with Banks and Financial Institutions to evolve a suitable procedure for obtaining finance for the IT units on a priority basis.
- 4.4 IT POLICY FOR HEALTH**
- Study Team on IT Health* 4.4.1 The Government shall endeavor to set up Study Team under the chairmanship of the Director of Health Department for implementation of IT in health.
- 4.4.2 The Government shall take steps towards the development of a state level health network comprising of connectivity of all people engaged in public health, Tele-monitoring of diseases, and Health Information Kiosk.
- Telemedicine programme for remote diagnosis* 4.4.3 The Government shall endeavor to set-up Tele-medicine programme including Tele-consultation, Tele-diagnosis and

Tele-education to provide better quality healthcare to the people, especially those residing in the rural areas.

***Computerization  
of Hospital by  
2005***

- 4.4.4 Efforts shall be made to ensure that all hospitals within Mizoram are interconnected through Internet/Intranet.
- 4.4.5 The Government shall endeavor to computerize all hospitals within the year 2005.
- 4.4.6 The Government shall endeavor to introduce Electronic Health Network with systematic exchange of data between practitioners, hospitals, pharmacies and health authorities.
- 4.4.7 Computerized system of keeping medical records shall be introduced in the Civil Hospital.

**4.5 IT POLICY FOR RURAL DEVELOPMENT**

***Setting up of CICs  
in 22 blocks and 5  
additional districts***

- 4.5.1 The Government shall set up Community Information Center (CIC) at the selected 22 blocks and 5 additional districts. The CIC shall have VSAT connectivity along with state-of-the-art Computer Systems. With the help of this center, the local people will be able to surf the Internet and access information from the outside world.
- 4.5.2 The Government shall endeavor to take all the necessary steps to introduce IT applications for Agricultural and allied activities for integrated rural development of Mizoram.
- 4.5.3 The Government shall endeavor to launch pilot projects for use of IT in RD which will be based on a multi-pronged approach, involving fiscal and other incentives. Areas like development marketing and popularization of IT for rural applications shall be promoted.

***Rural Information  
Center in every RD  
Block***

- 4.5.4 The Government shall endeavor to set up Rural Information Center (RIC) in every R/D Block and District capital. Information will be made available to the public through this center for adding transparency to governance and State sponsored rural development programs. This program shall be implemented in collaboration with the Government of India.
- 4.5.5 The government shall endeavor to develop rural and social applications of IT by enhancement of technologies and training of artisans. Energy uses including biogas, non-conventional energy, Agriculture products and produce

improvement technologies, low cost technology dissemination and diffusion relevant for area-specific application, animal productivity, improvement technologies, dairy, horticulture, poultry industry entrepreneurship development program.

***MCCC for self-employment generation***

- 4.5.6 The Government shall endeavor to set up Multimedia Content Creation Center (MCCC) that would be a “Service-Oriented” institute for self-employment generation of rural youths.

**4.6 IT POLICY FOR AGRICULTURE**

***Setting up of Study Team on IT Agriculture***

- 4.6.1 The Government shall endeavor to set-up Study Team under the chairmanship of Director of Agriculture Department for implementation of IT in Agriculture.

***Agriculture Communication Center in every District and RD Block***

- 4.6.2 The Government shall endeavor to establish Agricultural Communication Center in every District Headquarter and RD Block Headquarters, which will be envisaged as service provider to the rural community. The communication center shall provide the following services:

- I. Geographical Information System (GIS) for agriculture related land use management.
- II. Database on Agro-climatic variables like rainfall, water availability and soil nutrient status.
- III. Database Management Systems and Management Information System for land use management, agriculture operation, public health status.
- IV. Providing Multimedia facilities for educational and training activities in the area of agriculture extension and other awareness generation programs.

***Agriculture Marketing Outlet in every RD Block***

- 4.6.3 The Government shall endeavor to set up Agriculture Marketing Outlet in every RD Block, which will be interconnected by Internet/Intranet through which the farmers will learn in the market prices of agricultural products within the state or other states.
- 4.6.4 Web site shall be made available for selling agriculture products to other parts of the world.

4.6.5 Agriculture Department shall endeavor to develop data bank and information system for providing input to prospective agriculturists.

#### **4.7 IT POLICY FOR MASSES**

***Setting up of Information Kiosks at public places***

4.7.1 The Government shall endeavor to set up Information Kiosks at public places like Bus Stations, the Airport and in every District and Block Headquarter to enable the common man to interact with the government.

***Anyone anywhere to set up IT based services***

4.7.2 The Government shall allow anyone anywhere to set up IT based services. The licensing and regulations shall be completely done away with in this field.

***IT Yatras across the state***

4.7.3 The Government shall endeavor to launch mass campaign for IT awareness and also launch IT Yatras (journeys) across the state in collaboration with NGOs, educational institutions and corporate sector.

***Internet through Cable TV***

4.7.4 The Government shall endeavor to promote wide spread use of IT and Internet connectivity through Cable Modem to Cable T.V. Operators.

***Internet connectivity to every department & Public Sector.***

4.7.5 The Government shall endeavor to provide Internet connectivity to every Department and Public Sector.

4.7.6 Every department shall endeavor to implement at least one citizen-oriented service to be made IT enabled by the year 2005. All such IT enabled services must be made web-centric so that public can access them through Internet.
