*Commission to go and inquire into the problems of Social and Educational backwardness of certain class, sections or groups of people in the State other than Scheduled Castes and Scheduled Tribes-Constitution of the—*

### GOVERNMENT OF GUJARAT

#### EDUCATION AND LABOUR DEPARTMENT

Resolution No. MBC-1572-67508-J,

Sachivalaya, Gandhinagar, dated the 8th August, 1972.

The Scheduled Castes and Scheduled Tribes have been defined in Articles 341 and 342 of the Constitution of India respectively. Article 46 of the Constitution enjoins the State Government to promote with special care the educational and economic interest of the weaker section of the people and particularly of the Scheduled Castes and Scheduled Tribes and to protect them from social injustice and all forms of exploitation. Articles 15(4) and 16(4) enable the State to make special provision for the advancement of socially, educationally backward and other Weaker Sections of Citizens and Scheduled Castes and Scheduled Tribes. There are other Articles of the Constitution also which are intended to make special provisions for promoting welfare of Scheduled Castes and Scheduled Tribes.

2. These special provisions in the Constitution proceed on the recognition of extreme social, educational and economic backwardness of Scheduled Castes and Scheduled Tribes and the need to make special efforts for their advancement and welfare. In pursuance of these provisions, the State Governments have made and are making special schemes for socio-economic uplift, health, housing, agriculture etc. for the welfare of Scheduled Castes and Scheduled Tribes.

3. The Nomadic and Denotified Tribes are also being treated as a distinct section and specific group of Backward Classes and as such the special provision is being made for them in the developmental plan under the fully centrally sponsored programme. In the very nature of things, the plan programme cannot, however, provide for protecting their interests in other fields *i.e.* recruitment in services, priority in allotment of land and such other activities falling outside the scope of developmental programmes. These Tribes are claiming to be socially and educationally backward and asking for benefits similar to those being extended to Scheduled Castes and Scheduled Tribes.

4. Besides the Scheduled Castes and Scheduled Tribes there are other categories of citizens or class or groups amongst them or parts thereof in the State who are also claiming to be educationally and socially backward and can be regarded as weaker sections of the community. These people have approached the State Government to grant them the concessions as are being granted to Scheduled Castes and Scheduled Tribes.

5. The preferential treatment and special concessions claimed for by them and Nomadic Tribes and Denotified Tribes are not possible to be complied with unless it is established that they are socially and educationally backward. Protection and preference in matters like entry into Government services, relaxation in age limit, reservation in posts, admission quota in educational institutions and similar other concessions being granted to Scheduled Castes and Scheduled Tribes, cannot be granted to any person or group of persons solely on the consideration of caste, creed, race, religion or any of them in view of the prohibition of discrimination on grounds of religion, race, etc. made in Article 15(1) of the Constitution. Clause (4) of Article 15, however, constitutes an exception to the above provision and permits the State to make any special provision for the advancement of any socially and educationally backward classes of citizens or Scheduled Castes and Scheduled Tribes, notwithstanding anything contained in other clauses of Article 15 or Article 29 of the Constitution. The provision of Article 15 (4) and directive principles of the State policy in Article 46 and the preamble to the Constitution are to secure to all citizens of the country justice; social economic and political. In the light of the provisions of these Articles, the State can make any special provision for any class of citizen if it is convinced that it is socially, educationally and in other way backward and deserve of special treatment.

6. The State Government feels that the demands made by them deserve consideration but in order however, to protect or grant of preferential treatment or concessions to any tribes, caste, or section, or group of people, it is necessary to ascertain whether they are socially, educationally and in other ways backward. It will have also to be assessed that their backwardness is comparable to the social and educational backwardness of Scheduled Castes and Scheduled Tribes. With a view to making a discrimination in favour of any class of citizen other than Scheduled Castes and Scheduled Tribes, the popular belief or general knowledge

of the backwardness would not be an adequate criteria. A detailed inquiry about social handicaps etc. and educational level of all these communities and/or tribes is, therefore, necessary before, considering grant of any concession to them similar to those being granted to Scheduled Castes and Scheduled Tribes.

7. The task of ascertaining the social and educational backwardness of any class of people is highly complexed one as besides the caste, a number of factors, such as income-level, nature of occupation, mode of life, habitation, proportion of literacy of educated persons, etc., have to be taken into account. It might also be necessary to lay down criteria to serve as basis for comparing levels with Scheduled Castes and Scheduled Tribes and other sections in regard to relevant factors. As these tribes/communities comprise of numerous caste, sub-castes, groups among them assessment would have to be made of social and educational backwardness of individual caste or group of castes or parts among them. The classification of backwardness cannot be based solely or dominantly on the caste of the citizens though caste is also one of the factors that might have to be taken into account.

8. The Government has, therefore, decided to set up a high level Commission to go into the entire question and to investigate and ascertain social and educational backwardness of various people, castes, races, tribes or parts or group within castes or races or tribes in the State other than Scheduled Castes and Scheduled Tribes and to recommend which of them can be regarded as socially, educationally and in any other way backward and deserve special treatment and grant of special concessions similar to those being granted to the Scheduled Castes and Scheduled Tribes in pursuance of the provisions of various Articles of the Constitution.

9. The Commission should consist of the following persons:—

(1) Shri A. R. Baxi	Retired High Court Judge and Chairman of Law Commission.	Chairman.
(2) Prof. C. N. Vakil	Former Prof. & Head of Department of Economics, School of Economics and Social Sciences, Bombay University and former Vice-Chancellor of South Gujarat University.	Member.
(3) Kum. Taraben N. Patel	Prof. and Head of Department of Sociology, Gujarat University, Ahmedabad.	Member.
(4) Director of Social Welfare, Gujarat State, Ahmedabad.		Member-Secretary.

10. The terms of reference of the Commission should be as under:—

(i) The Commission shall enquire into social, educational and other relevant conditions of the people, castes, races, tribes or parts of or groups within castes or races or tribes in the State and report what section/sections of them (other than Scheduled Castes and Scheduled Tribes) should be treated as socially, educationally and in any other way backward, and therefore, deserve of special treatment and grants of special concessions similar to those being granted to the Scheduled Castes and Scheduled Tribes in the State in pursuance of provisions of the various Articles of the Constitution of India;

(ii) the Commission should be also recommended what should be quantum and extent of such a concession and assistance to them and the period during which it should remain in force; and

(iii) any other recommendation germane to the main terms of reference as may be deemed necessary by the Commission.

11. The Commission should submit its report to Government within a period of six months from the date of its constitution.

12. The orders about grant of honorarium and other facilities, if any, to the members of the Commission will be issued separately.

13. The cost on this account should be debited to "39-Misc.-Social and Development Orgs. etc." and be met from the provision made thereunder during the current year.

વ્યાખ્યા

૧. આ કાનુનોમાં મીયાણા એ શબ્દનો અર્થ મીયાણાની જાતનો જે કોઈ પુરુષ માળીયા તાલુકાની પ્રજા હોય તે પુરુષ થાય છે એમ સમજવું. આ કાનુનોમાં પરવાનો આ શબ્દનો અર્થ જે પાસની રૂએ ધારણ કરનારને તેમાં લખેલી શરતોને પાત્ર તથા જગ્યાના સંબંધે જે વિશેષ બંધનો તેમાં ઠરાવવામાં આવે તે બંધનોને પાત્ર માળીયા તાલુકાની હદ બહાર મુસાફરી કરવાનો હક મળે છે તે પાસ થાય છે એમ સમજવું.

૨. આ કાનુનોમાં તારણખત એ સંજ્ઞાનો અર્થ ફેજદારી કામ ચલાવવાની રીત બાબતની કાયદાની કલમો-૧૦૯ તથા ૧૧૦માં ઠરાવેલા નમુના મુજબનું સારી રીતે ચાલવા બાબતનું ખત એવો થાય છે. આ ખત ઉપરથી જે મીયાણાને આ કાનુનો મુજબ પરવાનો આપ્યો હોય તે મીયાણાએ તે પરવાનાની મુદત સુધી અથવા તે મુદત આ કાનુનોની રુએ નેટલી વધારી આપવામાં આવી હોય તેટલી મુદત સુધી સારી રીતે ચાલવાનું કબુલ કરેલ છે એમ સમજવું.

કોઈ મીયાણાએ માળીયાની ચીફ એક્ઝીક્યુટીવ ઓફિસર પાસેથી પરવાનો મેળવ્યા સિવાય માળીયા તાલુકાની હદ છોડીને જવું નહીં.

૩. આ કાનુનોની રુએ આપેલા દરેક પરવાનામાં લેકળ લખેલી બાબતો નિર્દિષ્ટ કરેલી હોવી જોઈએ.

(અ) જે મીયાણાને તે આપ્યો હોય તેનું આખું નામ તથા વર્ણન.

(બ) જે તારીખે તે આપ્યો હોય અને જે તારીખે તે પૂરો થતો હોય તે તારીખો.

(ક) તે શરતોએ તે આપ્યો હોય તે શરતો.

૪. જે શખ્સો પરવાનામાં લખેલ શરતો પાળવાની પ્રથમ લેખિત કબુલાત આપે અને માળીયાના ચીફ એક્ઝીક્યુટીવ ઓફિસરની ખાત્રી થાય તેવું તારણખત લખી આપે તેવા શખ્સોને જ માત્ર પરવાનો આપવાનો અધિકાર છે.

૫. કાઠિયાવાડની હદ બહાર મુસાફરી કરવા માટે અથવા છ મહીના કરતાં વધારે મુદત માટે આપેલો પરવાનો તેની ઉપર પોલીટીકલ એન્જન્ટની મુખલસી હોવા સિવાય કાયદેસર ગણાશે નહીં. પરંતુ એવું ઠરાવું છું કે જે પરવાનો કચ્છ અથવા વાગડ જવા સારું વધારેમાં વધારે દશ દિવસ માટે આપ્યો હશે તેવા પરવાના ઉપર એવી મુખલસીની જરૂર નથી.

૬. જે કોઈ મીયાણા માળીયા તાલુકાની હદ બહાર પરવાનગી વગર મળી આવશે તેને કોઈપણ પોલીસ અમલદાર તથા તે જે જગ્યાએ મળી આવશે તે જગ્યાનો બીજો કોઈ જોખમદાર અમલદાર અથવા શખ્સ પકડી શકશે અને તેને એકદમ માળીયે મોકલી દેશે. તેમજ એકાદી પરવાનાની શરતોનું કોઈપણ ઉલ્લંઘન કરવામાં આવશે તો તે પરવાનો ધારણ કરનારને તે જ પ્રમાણે એકદમ પકડી માળીયે મોકલી દેવામાં આવશે.

૭. જે કોઈ મીયાણા—

(અ) આ કાનુનો પ્રમાણે અગાઉથી પરવાનો લીધા વગર માળીયા તાલુકાની હદ બહાર જશે અથવા—

(બ) આ કાનુનો પ્રમાણે પરવાનો લીધા પછી તેની કોઈપણ શરતોનું કોઈપણ ઉલ્લંઘન કરશે તો તેને ઘણામાં ઘણી છ મહીના સુધીની સખત મજૂરીની કેદની શિક્ષા અથવા ફટકા મારવાની શિક્ષા (કાઠિયાવાડમાં ફટકા મારવાના સંબંધમાં તે કાળે જે કાયદો અમલમાં હોય તે કાયદામાં ઠરાવેલ રીત પ્રમાણે ફટકા મારવા).

અથવા આ બંધી અથવા આમાંની કોઈપણ બે શિક્ષા કરવામાં આવશે અને તેના ઉપર બીજી વખત ગુનહાની સાબિતીનો ઠરાવ થયે તેને એક વર્ષ સુધીની સખત મજૂરીની કેદની શિક્ષા અથવા દંડ અથવા ફટકા મારવાની શિક્ષા અથવા આ બંધી અથવા આમાંની કોઈપણ બે શિક્ષા કરવામાં આવશે.

૮. સને ૧૯૦૪ ના કાનુન મુજબ જે સઘળી સનંદો તથા પરવાના આ કાનુનો પ્રસિદ્ધ કરવામાં આવે તે તારીખે ધારણ કરેલ હોય તે સઘળા આ કાનુનોની ઠરાવોને પાત્ર આજની તારીખથી વધારેમાં વધારે છ માસની મુદત સુધી કાયદેસર ગણાશે.

૯. ઈનચાર્જ પોલીટીકલ એજન્ટ વખતે વખત કાઠિયાવાડ એજન્સી જેએટમાં જાહેરનામું પ્રસિદ્ધ કરીને કોઈપણ મીયાણાને તેના નામથી આ કાનુનોનાં અમલમાંથી બાતલ કરી શકશે તથા તેજું કોઈપણ જાહેરનામું રદ કરી તે મીયાણાને આ કાનુનો પાછા લાગુ પાડી શકશે.

## (૧) ફરજિયાત કેળવણી બાબત

નંબર ૨૭૧/

હા. ઠરાવ નંબર ૯૪.

ખંભાત શહેર સિવાયના બીજા ગામોમાં જે નિશાળો છે તેમાં તે ગામમાં ભણી શકે તેટલી ઉંમરનાં છોકરાનાં પ્રમાણમાં હાજરી ધણી કમતી રહે છે. તેનું કારણ તપાસતાં એમ માલુમ પડે છે કે વિના પ્રયોજને કંઈપણ હરકત સિવાય છોકરાઓ નિશાળે જતાં નથી. તેથી તે લોકોને નિશાળે મોકલવાનું ફરજિયાત કરવામાં આવે તો તેમાં કંઈ હરકત છે કે કેમ તે બાબત ગામોએ તપાસ કરવામાં આવી. તે ઉપરથી જણાય છે કે એમ કરવામાં કોઈ હરકત નથી પણ ઓર લોકો ખુશી છે તેથી તે બાબત નીચેનાં નિયમો કરવામાં આવે છે.

૧. ગામના પટેલ, તલાટીઓ જે ગામોમાં નિશાળ છે તે ગામનાં પંદર વરસની અંદર અને સાત વર્ષની ઉંમરનાં છોકરાઓનું એક પત્રક ગામનાં પંચની મદદથી તૈયાર કરવું.

૨. એ પત્રકમાં બતાવેલ દરેક છોકરાઓએ નિશાળમાં દાખલ થવું જોઈએ અને મહીનામાં ઓછામાં ઓછા રજાનાં દહાડા સિવાય પંદર દિવસ હાજર રહેવું જોઈએ એ કરતાં વધારે દિવસ ગેર હાજર રહેવાની જરૂર લાગે તો મહેતાજીની રજા લઈ ગેર હાજર રહેવામાં હરકત નથી. એ પ્રમાણે જે કોઈ છોકરો નિશાળમાં દાખલ થશે નહીં અથવા ખરા કારણ સિવાય રજાનાં દહાડા સિવાય પંદર દહાડા હાજરી પુરશે નહીં તો તેમા બાપ અગર વાલીને ગામ પંચો દર મહીને બે આના સુધીનો દંડ કરી શકશે.

૩. દંડ ગામના પટેલ, તલાટી ગામના મહેસૂલ મુજબ વસુલ લઈ શકશે.

૪. દરેક તલાટીએ હવે રકમ વસુલ કરીને ગામના પંચને સોંપવી અને પંચે તે રકમ પોતાની ગામની નિશાળના છોકરાને ઈનામ અથવા મીઠાઈ આપવામાં ખર્ચવી.

૫. કોઈ છોકરો નિશાળની ફી ભરવાને અશક્ત માલુમ પડે તો મહેતાજીએ એ બાબત યોગ્ય મંજૂરી લઈ તેને માફીમાં દાખલ કરવા તજવીજ કરવી.

૬. ઉપર પ્રમાણે જે દંડ વસુલ આવે તેનું પત્રક પટેલ, તલાટી પાસેથી મંગાવી દર મહીને વહીવટદાર સાહેબે આમરી તરફ મોકલવું.

૭. પહેલી ક્લમ પ્રમાણે ગામનાં છોકરાઓનું પત્રક કરેલું હોય તેની નકલ પટેલ, તલાટીએ નિશાળના મહેતાજી તરફ મોકલવાની એ પત્રક પેકી કોઈ છોકરો નિશાળમાં દાખલ થયા નહીં હોય તેના દાખલો દર મહીને પહેલી તારીખે પટેલ, તલાટી તરફ મહેતાજીએ મોકલવું અને તે ઉપરથી પટેલ તલાટીએ દંડ વસુલ કરવા તજવીજ કરવી.

૮. ભાણવા લાયક ઉંમરના છોકરા બીજા શાળામાં ભાણવા જાય તો છોકરાના મા બાપ અગર વાલીએ જ્યાં ભણતો હોય ત્યાંથી લીવિંગ સર્ટીફિકેટ માંગવું અને બીજા ભાણવા માટે મૂકવામાં આવ્યો છે એવો દાખલો રજૂ કરવો. આવો દાખલો રજૂ કરે મૂળ શાળામાંથી નામ કમી કરવું, જે તેમ નહીં થાય તો નામ ચાલુ રહેશે તે હંડને પાત્ર થશે.

ચાલુ વર્ષમાં જાણેજ, રંગપુર, નાના કલોદરા, કલમસર અને મીતલી ગામોએ ફરજિયાત કરી દર વરસે પાંચ પાંચ વધુ શાળાઓમાં ફરજિયાત ધોરણ દાખલ કરવાં. આ ધારાનો સબબ તા. ૧લી માર્ચ સને ૧૯૧૭થી કરવાનો છે. સદરહુ ઠરાવની ખરી નકલ જાણ થવા સાડું તથા તે પ્રમાણે અમલ કરવા સાડું આ વહીવટદાર સા. તથા આ શાળાધિકારી સા. તરફથી મોકલી.

પ્રગણના ગામોમાં ફરજિયાત નિશાળો કરવાનો ઠરાવ નં. ૯૪ તા. ૩૧-૧-૧૭નો કરવામાં આવ્યો છે તે ઠરાવની કલમ ૧માં સાત વરસની ઉંમરનાં અને પંદર વરસના અંદરના છોકરાઓનું લીસ્ટ તૈયાર કરી તેમની ઉંમરના છોકરાઓનું લીસ્ટ ફરજિયાતમાં દાખલ કરવા કરેલું છે. તેમાં સુધારો કરી આ ઠરાવથી છ વરસ પુરા નીચેના અને તેર વરસ પુરા નહીં થયેલા એવા ઉંમરવાળા છોકરાઓને ફરજિયાતમાં દાખલ કરવા એવું ઠરાવવામાં આવે છે.

## APPENDIX XIX.

**Sampling Plan for the Socio-economic Household Sample Survey.**

Considering the objectives of the Commission, it was felt necessary to devise a sampling plan that would ensure an adequate representation of (i) the scheduled castes, (ii) the scheduled tribes, (iii) the other backward classes that are known on the basis of the available secondary data, (iv) different religious groups, and (v) a cross-sectional population of the remaining categories of people in the State. Although it could be generally assumed that a random sample of a cross sectional population would provide representation of the people in the different categories mentioned above, any researcher with practical experience in conducting large-scale surveys is aware of the possibility of ending with an inadequate or non-representative sample of different categories of population, which is likely to render any exercise of estimation defective in certain aspects. Under the circumstances, it was deemed necessary to devise a two-phase sampling-cum-survey plan, namely, the first-phase sampling plan designed to obtain an adequate representative sample of different categories of people based on the known heterogeneity in the characteristics of the population, and the second-phase sampling plan designed to obtain additional samples of categories of people that might not, by chance, be covered adequately in the first-phase sampling-cum-survey operation. Considering the limitations of resources (funds, personnel, time ) likely to be available to the Commission for the purposes of conducting a socio-economic sample survey, it was decided to obtain interview data from about 8,000 households in the first-phase sampling-cum-survey operation, and devise a second-phase sampling cum-survey operation to obtain interview data from about 2,000 households so as to cover those categories of people that might not have been adequately covered in the first-phase sampling cum-survey operation.

2. Unfortunately, the first-phase sampling cum-survey operation consumed a longer duration of time on account of factors beyond the control of the Commission staff. The pressing need of the Commission to obtain and utilize the sample survey data while finalizing its recommendations regarding castes/classes/groups/sections/communities of people who could be considered educationally, socially and in any other way backward did not leave either adequate time or resources to plan and execute the second-phase sampling-cum-survey operation without unduly delaying the preparation and submission of its report to the Government. Under the circumstances, the Commission decided to utilise the data available from the first-phase sampling-cum-survey operation and drop its earlier plan to obtain estimates of population in different categories. The remaining part of this note therefore, describes only the first phase sampling plan.

3. The first-phase sampling plan was devised for selecting a multi-stage stratified random sample of households in rural and urban areas separately. The cities and towns in the State were divided into five strata on the basis of their 1971 Census population. While all cities with a population of 1,00,000 and more were included in the sample, the cities/towns in the remaining four strata of urban areas were first arranged in an alphabetical order in each stratum and then the desired number of cities/towns from each stratum proportionate to the total population of all cities/towns in the stratum were selected by using a random procedure. A statement showing the total number of towns/cities in each stratum, their population size, and the number of towns/cities selected and surveyed from each stratum is given as Annexure XIX (a). From each city/town selected in the sample, one block for each 25,000 of 1971 Census population was selected from cities in stratum I (a), while 6, 5, 5, and 4 blocks were selected from each city/town in strata I (b), II (a), II (b), and II (c), respectively. The required number of blocks from selected cities/towns were selected by the method of systematic random sampling. A statement showing the population size, total number of blocks, the number of blocks selected, surveyed, and replaced from each selected city/town is given as Annexure XIX (b). (Replacement of some selected blocks in Ahmedabad, Porbandar, and Bhanvad became necessary, as the selected blocks could not be traced. When a selected block could not be traced, it was replaced by the next contiguous block in the list.) For ensuring an adequate representation of the scheduled caste households, which are largely concentrated in urban areas, an additional sample of blocks having concentration of the scheduled caste population was also selected from each selected city/town. For Ahmedabad, Rajkot, Surat and Vadodara cities of stratum I (a), lists of blocks having scheduled caste population (as per 1971 Census) were prepared. The blocks were arranged according to size of the scheduled caste population, and the required number of blocks were selected by the method of systematic random sampling. From the remaining 35 selected cities/towns, one block was selected from each selected city/town, by the method of random sampling from the list of blocks having the scheduled caste population. However, in some selected blocks of the scheduled caste population, no scheduled caste household was found, although some scheduled caste population was reported in the 1971 Census. In order to replace such blocks, a list of blocks having more than 100 scheduled caste population in the respective city/town was prepared, and blocks were selected by the method of simple random sampling. A statement showing the scheduled caste population, total number of blocks having scheduled caste population, the number of scheduled caste blocks selected, surveyed and replaced in each selected city/town is given as Annexure XIX (c).

4. Once the required number of general blocks and the scheduled caste blocks in the selected cities, towns were selected, complete lists of households in the selected blocks were prepared. In the general as well as the scheduled caste blocks, the households were divided into five categories of (i) scheduled caste (ii) scheduled tribe, (iii) other backward class, (iv) non-backward class, and (v) other religions. (For the definition of these five categories, see Annexure XIX (d).) From each general block, 3 households from other

backward classes, 2 households from non-backward classes, and 2 households from other religions were selected by the method of systematic random sampling. If a selected household was not found/available for collecting interview data, the next contiguous household in the respective category of the houselist was selected and surveyed. From each scheduled caste block, 5 scheduled caste households were selected by the method of systematic random sampling. If a selected scheduled caste household was not found/available for collecting interview data, the next contiguous household in the same category of the houselist was selected and surveyed.

5. Thus, an elaborate sampling plan was devised and executed so as to ensure an adequate representation of households belonging to (i) scheduled castes, (ii) other backward classes, (iii) non-backward classes, and (iv) other religions in the selected general/scheduled caste blocks from the selected cities/towns in the State.

6. For the purposes of selecting households from rural areas, the rural areas of Gujarat were first divided into five regions, namely, (i) Eastern areas, (ii) Northern plains, (iii) Southern plains, (iv) Dry areas, and (v) Saurashtra. These regions constitute a total of 27 strata (11 districts constituting separate strata, and 8 districts divided into two strata each). A Statement showing the strata, the districts, and the talukas in these five regions is given as Annexure XIX (e). It was decided to select 50 villages (about one per cent, from region (i), and a total of 672 villages (about five per cent) from the remaining four regions. The villages in a taluka, and the talukas in the stratum were then arranged alphabetically. The allocation of villages to be sampled from each stratum was in proportion to the total number of villages in the stratum and the number of villages to be sampled from the respective regions. The required number of villages from each stratum in each region were selected by the method of simple random sampling. However, in regions (ii) to (v), the number of villages selected in each stratum was a multiple of 6, and the villages were divided into three equal sub-samples. Care was taken to exclude uninhabited villages from the list. Similarly, some of the villages that were found to be non-existent were also excluded. A statement showing the strata, districts, total number of villages, number of non-existent villages, and the number of villages selected and surveyed from each region is given as Annexure XIX (f).

7. Once the required number of villages from each stratum in the five regions were selected, complete lists of households in the selected villages were prepared. The households in each list were divided into five categories, namely, (i) scheduled castes, (ii) scheduled tribes, (iii) other backward classes, (iv) non-backward classes, and (v) other religions. Next from villages in region (i), 6 households from the scheduled caste category, 1 household from the other backward class category, and 1 household from non backward class category were selected by the systematic sampling method. From villages in sub-samples 1 and 2 of regions (ii) to (v), 4 households from other backward class category, 2 households from non-backward class category, and 2 households from other religions category were selected by the simple random sampling method. From villages in sub-sample 3 of regions (ii), (iv) and (v), 2 households from the scheduled caste category, 4 households from the other backward class category, one household from non-backward class category, and 1 household from the other religions category were selected by the systematic sampling method. From villages in sub-sample 3 of region (iii), 2 households from the scheduled tribe category, 4 households from the other backward class category, 1 household from the non-backward class category, and 1 household from the other religions category were selected by the systematic sampling method. In all these cases, if a selected household was not found/available, the next contiguous households in the list was selected and surveyed.

8. It should be mentioned, in this connection, that the division of rural areas into five regions, and the division of talukas into different strata in the respective region, and the division of three sub-samples in regions (ii) to (v) were made on the basis of a detailed study of the available Census and other secondary data regarding the overall composition of different categories of households in the respective villages/talukas/strata/regions. Although the number of households to be selected from the selected villages in different strata/regions was partly arbitrary, the decision regarding this matter was reached after a detailed deliberation of the available, recorded and personal information *vis-a-vis* the needs of the Commission. It would, however, be presumptuous to rationalize such a complex sampling plan, and hence it was thought necessary to provide for a second-phase sampling-cum-survey plan to supplement the information obtained in the actual execution of the first-phase sampling plan. As mentioned earlier, for reasons beyond the control of the Commission and the need for expediting the completion of the Commission's Report, the second-phase sampling cum-survey plan had to be abandoned.
