PREFACE

"Selectd Educational Statistics' is an annual publication of the Education Department in the Ministry of Human Resource Development. This publication furnishes quick estimates pertaining to statistics of number of educational institutions, enrolment, teachers and selected census data on population and literacy. Where we could not receive complete and validated data from the States, we have repeated the data for the preceding years on the premise that users prefer a timely publication, however tentative, to a perfect but antiquated publication. Data have been repeated in respect of UP and West Bengal because we did not receive complete and correct data from these States.

2. The population projections of school going children in the age group 6-11 years and 11-14 years for all communities are based on the projections worked out by Expert Committee of Planning Commission on the basis of 1991 census. This publication contains district-wise literacy percentage in respect of Total population and population belonging to SC/ST on the basis of 1991 census.

3. Users of this publication would note that the present edition seeks to be more comprehensive. Thus, the time series data on population, literacy, enrolment, teachers, educational institutions has been more systematically presented. There is greater focus on Gender, SC and ST. An attempt has been made to present comparative Educational Statistics of India in relation to a few selected countries. Graphical presentations have also been introduced. These improvements are a small step towards the goal of a more comprehensive, reliable and informative publication. The present edition of the publication includes three new tables giving projected population up to 2016, projected child population in the age group 6-11 and 11-14 up to 2011 along-with a new section on District-wise statistics giving district-wise institutions, enrolment, teachers and literacy.

4. I would like to compliment Dr. R.S. Thakur and all the officers in Statistics Unit, Department of Education for this publication.

3. Literacy:

The decadal censuses, inter alia, collect information on literacy. For the purposes of census, a person is considered literate if he or she can read and write with understanding in any language. However, a person who can merely read but cannot write is not literate.

3.1 LITERACY PERCENTAGES 1901 TO 1991:

Literacy rates for the years 1901 to 1991 have been shown in Sub-Table IX given below. The rates upto 1941 are for undivided India. In the literacy rates given below, entire population including population in the age-group 0 to 4 has been taken into account except in 1981 and 1991 where the population in the age group 0 to 6 has been excluded for the purpose of calculation of literacy percentages.

At the upper primary stage of education, the increase during this period is more than 13 times while that of girls the increase is more than 32 times which is quite appreciable. At the Secondary and Sr. Secondary stage the total increase is 18 times and that of girls the increase is 49 times.

7.2 PERCENTAGE OF GIRLS ENROLMENT TO TOTAL ENROLMENT:

The participation of girls at all stages of education has been increasing steadily over the time as may be seen from Sub-Table-XXVII. However, the percentages are still much below fifty per cent at all stages of education.

GROWTH OF SCHOOL ENROLMENT IN INDIA 1950-1996

8. Gross Enrolment Ratios:

8.1 Gross Enrolment Ratio (GER) is defined as the percentage of the enrolment in classes I-V and VI-VIII and/or I-VIII to the estimated child population in the age groups 6-11 years and 11-14 and/or 6-14 years respectively. Enrolment in these stages include under-age and over-age children. Hence the total percentage may be more than 100% in some cases. The gross enrolment ratios for the age-group 6-11 years, 11-14 years and 6-14 years are presented below in Sub-Table-XXVIII.

9. Rates of Drop-outs

Rate of drop-out has been defined as percentage of the number of children to total enrolment dropping out of the school educational system in a particular year. There are a number of methods for estimating these rates. The results arrived at by conventional method have been indicated below in Sub-Table-XXIX.

Sub-Table-XXIX

DROP-OUT RATES AT PRIMARY & MIDDLE STAGES

* Provisional

It will be observed from the above that the rate of drop-outs has been decreasing year after year. It was 65% in 1960-61 which has now come down to 36% in 1994-95 in Primary Classes. Similarly, the rate of drop-outs was 78% in 1960-61 which has come down to 53% in 1994-95 in upper primary classes. This has considerably improved the rates of retention which was 22% in 1960-61 has now gone up to 47% in 1994-95.

10. Teachers

A Teacher is one who teaches/instructs a group of pupils (students) pursuing a course in an educational institution.

10.1 In absolute terms, a substantial increase in the number of teachers has been registered from 1950-51 in all types of schools. Total teachers increased from 7.51 lakhs in 1950-51 to 45.28 lakhs in 1996-97 by more than six times while the female teachers increased from 1.15 lakhs in 1950-51 to 15.52 lakhs in 1996-97 by more than 13 times. Details have been given in Sub-Table-XXX.

DROPOUT RATES AT PRIMARY STAGE 1960-1994

(ΔXXX)

DROPOUT RATES AT UPPER PRIMARY STAGE 1960-1994

(TABLE)

GROWTH OF SCHOOL TEACHERS 1950-1996

The percentage of female teachers to total is 33% in primary schools, 36% in Upper Primary Schools and 35% in High and Sr. Secondary Schools.

On the basis of the school enrolment and the number of teachers, the TPR after independence is as follows:

SUB-TABLE-XXXI

| Year | Primary | Upper Primary | High / Hr. Secondary |
|---------|---------|---------------|----------------------|
| 1950-51 | 1:24 | 1:20 | 1:21 |
| 1960-61 | 1:36 | 1:31 | 1:25 |
| 1970-71 | 1:39 | 1:32 | 1:25 |
| 1980-81 | 1:38 | 1:33 | 1:27 |
| 1990-91 | 1:43 | 1:37 | 1:31 |
| 1995-96 | 1:47 | 1:38 | 1:33 |
| 1996-97 | 1:43 | 1:38 | 1:33 |

At the time of independence there was a wide spread dearth of Educational Institutions in the country and whatever institutions were available, their utilisation was also not optimum. During the year 1950-51 the Teacher Pupil Ratio in primary schools was 1:24, in middle schools it was 1:20, in High and Higher Secondary schools the TPR was 1:21. In 1996-97 this ratio has now increased to 1:45 in primary schools; 1:38 in upper primary schools and 1:33 in High and Higher Secondary Schools. Though the number of educational institutions has considerably increased after independence yet the higher TPR indicates that the utilisation of these educational facilities has also increased and on the basis of enrolment, there seems to be rush in the educational institutions demanding for opening of more and more educational institutions for handling the rush in these institutions and improving the quality of education.
