FOREWORD

The population of Scheduled Tribes in the country, as per 1981 Census was 5.38 crores (projected in the case of Assam). They constitute about 7.5% of the total population. Areas inhabited by tribals constitute a significant part of the backward areas of the country. It is estimated that the predominant tribal areas comprise of about 15% of the total geographical area of the country. The Constitution incorporates specific provisions for the protection and promotion of the interests of the Scheduled Tribes. Article 46 in the Chapter on the Directive Principles of State Policies states :—

The State shall promote with special care the educational and economic interests of the weaker sections of the people, and, in particular of the Scheduled Castes and the Scheduled Tribes, and shall protect them from social injustice and all forms of exploitation.

This Article clearly brings out the responsibility of the State towards the tribal communities. Provisions regarding financial assistance to raise the level of administration of tribal areas and their development (Article 275), reservation of posts in services (Article 335), administration of Scheduled Areas and tribal areas (Article 244 & Vth Schedule) and reservation of seats in the Lok Sabha and State Legislative Assemblies (Article 330 & 332) are some of the other important provisions in the Constitution.

2. Tribal Development is based on a twin approach namely, protection of their interests through legislative and administrative support and promotion of developmental efforts through plan schemes. The Tribal Development approach was critically reviewed on the eve of the Fifth Plan. Consequently in 17 States and 2 Union Territories (out of 25 where Scheduled tribes have been specified, namely, Andhra Pradesh, Assam, Bihar, Gujarat, Himachal Pradesh, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Manipur, Orissa, Rajasthan, Sikkim, Tamil Nadu, Tripura, Uttar Pradesh, West Bengal, Andaman & Nicobar Islands and Goa, Daman and Diu the new strategy of Tribal Sub-Plan was implemented. This excluded the six tribal majority States and UTs, namely, Arunachal Pradesh, Meghalaya, Mizoram Nagaland, Lakshadweep, Dadra & Nagar Haveli where the entire plan primarily meant for the scheduled Tribes. Tribal sub-Plan is a plan within the State Plan aimed at an area development of the Scheduled Tribe concentrated areas with focus on tribal population. This new strategy was adopted from the beginning of the Fifth Five year Plan.

3. The Tribal sub-Plan is at present being implemented in 17 States and 2 Union Territories as stated above. The Tribal sub-Plan has three main components, namely, (a) 181 Integrated Tribal Development Projects (ITDPs) comprising mainly areas of Tehsil/Block level each with 50 percent or more scheduled tribe population; (b) 24 pockets of tribal concentration (MADA) Pockets) each with a total population of 10,000 and a scheduled tribe concentration of 50 percent or more and (c) 72 projects for primitive tribal groups. The size of investment during the Sixth Plan is likely to be of the order of about Rs. 5,500 crores which includes Special Central Assistance of Rs. 485.50 crores.

4. The need for a publication with up-to-date and authentic information on various aspects of tribal development in a compact form has been felt for a long time. The present publication "Tribal Development - A Statistical Profile" seeks to satisfy this need and may serve as a useful reference book of basic statistics on tribal development. The publication may also facilitate comparative assessment of the performance in tribal field.

5. The "STATISTICAL PROFILE" is a product of hard and strenuous efforts put up by the officers and staff of the Ministry of Home Affairs, Tribal Development Division.

We intend to up-date the information from time to time and incorporate more information while revising the publication. Suggestions to improve the quality and coverage of the information in its future release are welcome.

NOTE :

Excludes Assam where Census could not be held owing to disturbed condition prevailing there.

The States/UTs Haryana, J & K, De'hi, Pondicherry, Punjab & Chandigarh have no ST population.

This figure would appear to include high returns relating to certain communities with nomenclatures similar to those included in the list of STs consequent on the removal of area restrictions. (RGI)
