## PREFACE

"Education of Scheduled Castes and Scheduled Tribes" is an annual publication brought out by the Department of Education, Ministry of Human Resource Development. It contains numerical data of 1988-89, on scheduled castes and scheduled tribes at school level.

The educational development of these communities, as shown in this publication, indicates increase in the enrolment of the children belonging to these communities in various type of educational institutions at school level, right from the pre-primary to senior secondary. In addition, detailed data relating to teachers belonging to scheduled castes and scheduled tribes have also been incorporated. The demographic data included in this publication are based on the census data relating to 1991 census.

While every care has been taken to make this publication as accurate as possible, suggestions for improvement and corrections if any, will be welcomed. It is hoped that this publication will be useful for educational planners and policy makers as well as to those engaged in research & development and are interested in studying the educational aspects of these communities.

I would like to place on record my thanks for the cooperation extended by the States/UT Administrations in supplying the relevant data for this publication. It would, however, be necessary to accelerate the pace of data collection and compilation so that latest data are available to facilitate educational planning. I would, therefore, appeal to all States/UT Administrations to bestow their cooperation in the efforts to reduce the time lag, by giving data collection and compilation a very high priority.

I would also like to place on record my appreciation for the efforts made by the Project staff of the SC/ST Cell and NIC in bringing out this Publication.

## INTRODUCTION

Article 46 of the Constitution states that "The State shall promote with special care the educational and economic interests of the weaker sections of the people, and, in particular of the Scheduled Castes and Schedule Tribes, and shall protect them from social injustice and all forms of social exploitation." Articles 330, 332, 335, 338 to 342 and the entire Fifth and Sixth Schedules of the Constitution deal with special provisions for implementation of the objectives set forth in Article 46. These provisions need to be fully utilized for the benefit of these weakest sections in our society.

After independence, the Government of India have taken a number of steps to strengthen the educational base of Scheduled Castes and Scheduled Tribes. Provision of educational institutions on priority basis in the areas predominantly inhabited by these communities provision of incentives like scholarships, freeships, mid-day meals, uniforms, books and stationery, reservation of seats in educational institutions, relaxation of standards for admission to institutions of higher learning, provision of coaching classes for competitive examinations, remedial coaching, and provision of hostels are some of the steps which have contributed a great deal in raising the educational levels of Scheduled Castes and Scheduled Tribes.

But these communities still have to go a long way to come-up to the level of other communities in the field of educational development.

Apart from other disparities, there are some special problems involved in the educational development of these communities which are mostly socio-economic. Although the educational facilities have been extended to almost all the habitations of these communities, they are still not able to utilise these facilities fully mainly on account of their socio-economic backwardness. With the introduction of Special Component Plan for Scheduled Castes and Tribal Sub-Plan for Scheduled Tribes, it is hoped that their socio-economic status will improve further and this will have a positive impact on the educational development of these communities. However, it is observed that in education sector, the present quantum of incentives provided to the Scheduled Castes and Scheduled Tribes for improving their participation and retention has been inadequate in achieving the objectives.

Various programmes have been included in the Eighth Five Year Plan for improving the situation; and, it is hoped that, as a result of these programmes the participation and retention of the children belonging to these communities will improve significantly.

#### ENROLMENT BY STAGES OF EDUCATION

So far, the progress in enrolment of Scheduled Caste students by type of institutions has been discussed. However, the correct idea about the progress of enrolment of Scheduled Caste students can be had only from the stage-wise position of enrolment as discussed in the following paragraphs:-

Table - 17 indicates the enrolment of all communities as well as of Scheduled Caste students by stages of education for the year 1988-89. Enrolment of Scheduled Castes as percentage to the corresponding enrolment of all communities for different stages of education is a good indicator of position of enrolment of Scheduled Castes in comparison to other communities. The Scheduled Castes form about 16% of the total population and the difference between this percentage and the percentage of Scheduled Castes enrolment to all communities enrolment stresses the imperative need to find ways to bring the Scheduled Castes at par with other communities in educational opportunities.

Table (17)

**PERCENTAGE ENROLMENT OF SC BY STAGES OF EDUCATION**

**C. TRAINED AND UNTRAINED SC AND ST TEACHERS**

Another aspect for which information about Scheduled Caste and Scheduled Tribe teachers has been collected relates to the number of trained teachers belonging to these communities working in schools. Since all school teachers are required to be trained, the number of trained teachers among Scheduled Castes and Scheduled Tribes has been compared with the number of trained teachers of all communities.

Table 24 below gives percentage of Scheduled Caste and Scheduled Tribe trained teachers working in various types of schools in comparison to the corresponding percentage of total trained teachers belonging to all communities.

**TABLE 24**  
**PERCENTAGE OF TRAINED TEACHERS BY TYPE OF SCHOOLS**

TYPE OF SCHOOL	ALL COMMUNITIES	SCHEDULED CASTES	SCHEDULED TRIBES
	1988-89	1988-89	1988-89
1.Pre-Primary Schools	59.0	39.5	10.8

<b>TOTAL</b>	<b>86.9</b>	<b>86.3</b>	<b>65.8</b>

From the above Table, it will be seen that the training competence of Scheduled Caste teachers is almost at par with their other counterparts in general but it is quite low in case of Scheduled Tribe teachers. The percentage of Scheduled Caste trained teachers in schools for general education was 86.3% in 1988-89.
