An Analysis by Teachers on the factors influencing Parents & Children in achieving UEE in Andhra Pradesh
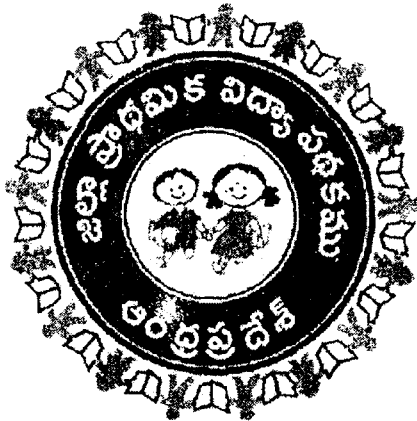

Teachers' Research Forum,
District Primary Education Programme,
Andhra Pradesh,
Hyderabad.

2001

FOREWORD

The Government of Andhra Pradesh has been trying to achieve Universalisation of Elementary Education by 2005 with all its efforts. As a part of it, APDPEP proposed to collect the opinions of parents, who are sending and not sending their children to school, and the children who are out of school, to evolve strategies to achieve UEE as proposed.

In this back ground, a household schedule with four questionnaires consisting of 27 questions was prepared. Necessary training programmes were organised at the state, district and mandal levels for the teachers and other concerned officers for the collection of data through this schedule.

Each of the above trained teachers was allotted with 3 households to contact the concerned and elicit unbiased and undoubted opinions in person. They conducted this survey over 3 lakhs families.

The information so collected was analyzed and interpreted. Necessary steps to be taken up and issues to be thought of by the education officers, field functionaries and teachers have also been incorporated in this report.

The information consolidated and interpreted is the outcome of the opinions collected by one lakh teachers in 3 lakhs families will undoubtedly help the teachers and the officers concerned in achieving Universalisation of Elementary Education. It is hoped that all of them make use of this information and share their responsibility in achieving the goal of UEE.

STATE PROJECT DIRECTOR

Statement showing the Training programmes on UEE

Table-1

1. No. of Districts responded	22
2. No. of Mandals responded	755
3. No. of Teachers responded	1,02,396
4. No. of Parents responded	3,07,188
5. No. of Children (out of school) responded	1,02,396

Table-2

S.No.	Training programmes	State level	District level	Mandal level
1.	No. of Training programmes organised	2	46	1110
2.	No. of spells of the Training programmes	1	2	5
3.	Duration of the Training programmes	3 days	3 days	3 days
4.	Scheduled dates of Training programmes	23.4.01 to 25.4.01	27.4.01 to 3.6.01	12.5.01 to 26.5.01
5.	No. of Resource Persons	8	110	3,366
6.	No. of Teachers participated	110	3,366	1,61,031
7.	No. of Parents contacted	52	9,990	3,07,188
8.	No. of Children contacted (Out of school)	110	3,366	1,61,031

Contents

1.0 Introduction

Article 45 of Our constitution envisages for free and compulsory education to all children until they complete the age of 14 years, within a period of 10 years from the commencement of the constitution. As per this provision we ought to have achieved U.E.E. by 1960. But even after 50 years of the launching of constitution we could not achieve Universalisation of Elementary Education. The National Policy on Education 1986 states that the main task is to strengthen the base of the Pyramid, which might come close to a billion people at the turn of the century. The NPE has given an unqualified priority to Universal Elementary Education .

Andhra Pradesh right from its formation has been making efforts for achieving Universalisation of Elementary Education. It realised that Education has a critical role to play in development. Recognizing this Andhra Pradesh firmly believes that outlays on education are an investment and not an expenditure. The Vision 2020 document emphasises to ensure universal literacy by providing effective, high-quality and withspread elementary education, non formal education and an effective adult literacy programme. Universalization of Elementary Education demands access for schools, 100% enrolment and retention besides providing good quality education. According to VI All India Education Survey as on 30.3.1983, 88.57% of the rural habilitations and 97.62% of the rural population in the State are served by Primary schools/sections within a distance of 1 Km. So also 65.40% of the rural habitations and 79.43% of population in the state are provided with Upper Primary School/sections within a distance of 3Kms . As on 30.9.1999 there are 55,398 primary schools and 9530 Upper Primary schools in the State. As regards enrolment at the Primary stage, eventhough there is an increasing trend in enrolment, from 1959- 60 to 1999-2000 the gross enrolment ratio is 86.28% (87.70% boys and 84.83% girls) at primary stage and 48.83% (53.65% boys and 43.85% girls) at upper primary stage. The Dropout rate at the primary stage and upper primary stage stand at 40.28% (39.42% boys and 41.23% girls) and 58.29% (56.21% boys and 60.68% girls) respectively. With regard to quality, the base line assessment survey conducted reveal the fact that there is need for quality improvement at the primary stage.

In order to achieve Universalisation Elementary Education the State has implemented different types of programmes like Operation Black Board scheme (OBB) , Andhra Pradesh Primary Education Project (APPEP). Non-Formal Education (NFE), Open School System (OSS), Audio-Visual Education (AVE), Initiatives under X Finance Commission Funds, etc. Schemes like Free Distribution of text books, Free Education, Mid-day Meal scheme by distributing 3kgs of rice to the pupils belonging to white card holders, etc. and who put in 80% of attendance are in implementation. Presently, the State is trying to achieve UEE through DPEP programme. Under this scheme, out of the 23 districts in Andhra Pradesh, in 5 districts the scheme is being implemented with the assistance of DFID, in 14 districts with the assistance of

World Bank and in 4 districts with the assistance of Joint GOI UNDP project is in implementation. In these four districts, the GOI is assisting under *Sarvasiksha Abhiyan Scheme*. For early realisation of UEE, the Govt. of Andhra Pradesh also realised the importance of community participation for achieving UEE and enacted AP (School Education) Community participation Act 1998, empowering the school Education Committees comprising of parents, the students and the teachers to plan, manage and monitor the development of their respective schools, moblise resources with the guidance and support of Panchayat, the Mandal Education committees and other Local Communities. Further Janmabhoomi, Chaduvukundam Raa are some of the official programmes organised by the Govt. of A.P in the direction of achieving Universal enrolment.

Inspite of the implementation of several initiatives for the early realisationof UEE the goal has become a challenge to educators and planners. To make this a reality, there is need to make a close examination of the various factors affecting the problem. It is estimated that as many as 44 lakh children are out of school who include the dropouts, unenrolled, leftouts, child labour etc.and so on. As these categories of children are to be pushed into the school system either Formal, Nonformal or Alternative modes of schooling, the two major actors to be tackled to solve this problem are the "Parent" and the "Out of school child". To make the school system suitable and convenient to bring the out of school children to the school fold, there is every need to study their opinions and views in the realisation of UEE. Hence, the need for the present study viz., a study of the parental awareness and child readiness on education to achieve UEE. If a parent belonging to different economic status is sending his child to school, why is he sending? What are his expectations of the school? are to be studied. If the parent is not sending his child to school, why is he not sending? What are the reasons? What did he want the school system like to be to send his child to school is also to be studied. Further, if the child is dropped out and he is out of school, what made him to dropout of the school? What are his expectations of the school? need to be studied. Further the opinions of the unenrolled children are also to be studied to know the reasons for non enrolment. Hence the need for the present study to make it more viable for attracting the out of school children.

1.1 Objectives of the study

The major objective of the present piece of investigation, is to study the parental awareness, in case of those who are sending their children to school belonging to different strata and also those who are not sending their children to school, on education of their children and also to study the readiness on the part of the children who are presently out of school, may be dropped out or unenrolled and leftout, to go to school and prosecute studies. It is also to study how the school

system should be, make the school more viable to serve its purpose. The following are the specific objectives of the study :

* To make a close examination of the opinions of parents who are sending their children to school by analysing their real responses on schooling of their children.

* To bring to light the opinions of parents who are not sending their children to school, on various aspects of schooling of their children.

* To read the opinions of the very poor parents who are sending their children to school on various aspects of the schooling of their children.

* To study the opinions of the unenrolled children belonging to 6-14 age group on schooling

* To study the opinions of drop out children belonging to 6-14 age group on schooling.

* To study the opinions of tribal parents on the schooling of their children.

* To bring to light the variations if any in the opinions expressed by the subjects belonging to different variables viz., parents sending children to school, parents not sending their children to school, poor parents sending their children to school as well as unenrolled and dropout boys and girls.

* To suggest measures for universal enrolment of children in the age group of 6-14 based on the observations.

1.2 Sample of the study

The study was conducted in 22 districts out of 23 in Andhra Pradesh. The details of districts and the number of mandals included in the study along with the number of subjects are as follows.

The number of subjects who are involved in the study are detailed below:

Name of the District	No. of Mandals involved	No. of children involved	No. of families from whom the data was collected
Srikakulam	27	4,213	12,639
Vizianagaram	23	3,836	11,508
Visakhapatnam	26	5,120	15,360
East Godavari	17	2,567	7,701

Name of the District	No. of Mandals involved	No. of children involved	No. of families from whom the data was collected
West Godavari	24	3,549	10,647
Krishna	17	2,529	7,587
Guntur	20	5,659	16,977
Prakasam	53	8,393	24,879
Nellore	46	7,770	23,310
Chittoor	46	9,823	29,469
Cuddapah	39	5,406	16,218
Ananthpur	54	5,656	16,968
Kurnool	51	5,597	16,791
Mahaboobnagar	16	5,706	17,118
Ranga Reddy	19	673	1,919
Medak	16	1,427	4,281
Nizamabad	35	2,809	8,427
Adilabad	53	3,346	10,038
Karimnagar	58	4,547	12,641
Warangal	29	2,005	6,015
Khammam	38	6,088	18,264
Nalgonda	28	5,677	17,031
Total	**755**	**1,02,396**	**3,07,188**

No. of teachers participated in this survey = 1,02,396

The subjects for study belonged to the following variables

- Parents who are sending their children to school   1,02,396

- Parents who are not sending their childrent to school   1,02,396

- Very poor parents who are sending their children to school   1,02,396

- Dropout/unenrolled chirldren   1,02,396

1.3 Method of Study

As the major objective of the present study is to analyze the opinions expressed by the subjects and to draw conclusions based on the observations, the study falls under qualitative survey type of study.

1.4 Tools of data collection:

In order to collect the opinions of the four categories of subjects (viz.,) parents who are sending their children to school, those who are not sending their children to school, very poor parents who are sending their children to school and the dropout/unenrolled children, four tools have been used and 4 questinnaire schedules have been prepared with 27 items as detailed below:

Tool 1: Questionnaire schedule for parents who are sending their children to school - 6 questions

Tool 2: Questionnarire schedule for parents who are not sending their children to school - 5 questions.

Tool 3: Questionnarire schedule for poor parents who are sending their children to school - 6 questions

Tool 4: Questionnarire schedule for unenrolled/dropout children - 10 questions.

These four tools are enclosed to this report (vide Annexures I to IV).

1.5 Collection of data

Teachers acted as investigators for the collection of data. They were provided training in four spells for collecting the data by using these four questionnaire schedules. The details of the training programmes are as follows:

1st spell training	from 12.5.2001	to	14.5.2001
2nd spell training	from 15.5.2001	to	17.5.2001
3rd spell training	from 18.5.2001	to	20.5.2001
4th spell training	from 21.5.2001	to	23.5.2001

Data collection was done during the period from 12.5.2001 to 23.5.2001.

1.6 Analysis of DATA:

The Questionnaire Schedules so filled in by the teachers were analysed at the mandal and District-levels. Later the state team consolidated, analysed and interperted the data from 3.10.2001 to 13.10.2001. Details of the data analysis and interpretation are presented in the following sections.

* * *

2.0 Analysis of the data collected through tool 1

ITEMS 1 to 6 relate to the opinions of the parents who are sending their children to schools.

ITEM NO. 1: Why are you sending your children to school?

Parents preferences for sending their children to school are:

Details of responses	Total No. Responded	Percentage of responses
1. For education	64352	62.85
2. For Better Future	20241	19.77
3. For Job Purpose	15758	15.39
4. For Problem Solving	3833	3.74
5. For Self respect	3428	3.35
6. To lead independent life	6785	6.63
7. Others	2741	2.68
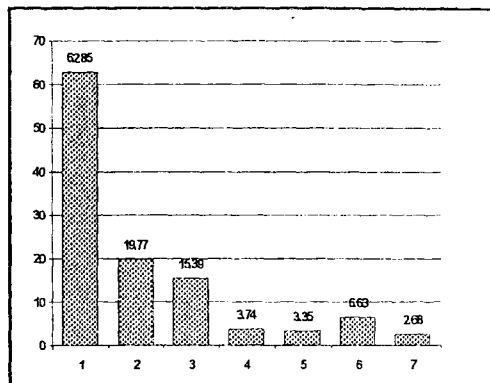

Highest number of subjects responded "for Education".

The above data shows that most of the parents are sending their children to school for the sake of education. Both Karimnagar (90.26%) and Nalgonda (37.31%) which occupy the highest & Lowest percentages expressed the same opinion. The parents of the rest of the districts have also given top priority to education. The percentage of responses on other items like better future, job purpose, problem solving are not significant to take into account for interpretation.
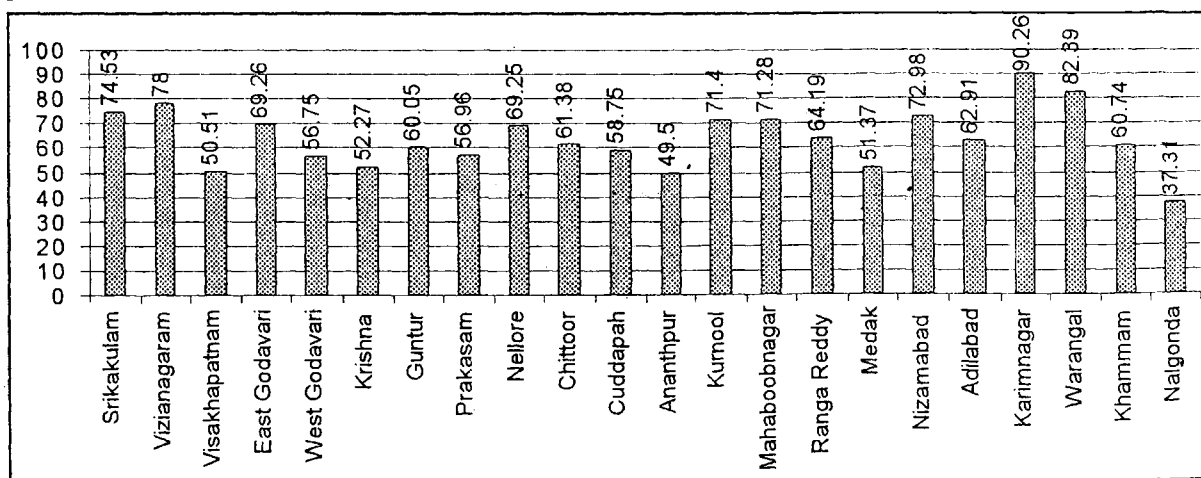

Voice of the parents is for education & sending children to school is their desire

Think over

* "Most of the parents are sending their children to school for education". How do the parents of your school village think in this regard?

* Do you feel that primary education is limited only to 3 R's or much more than this?

6

ITEM No.2 Are your children learning Well?

Parents opinions about their children's learning are:

Response details	No. Responded	Responses %
1. Learning well	80705	78.82
2. Satisfactory	18989	18.54
3. Not learning well	3158	3.08
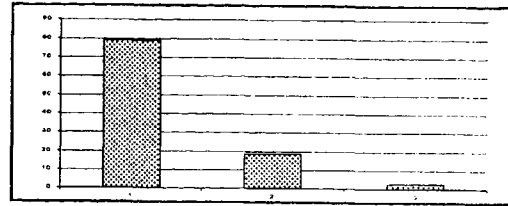

Highly favoured item is "Learning Well".

The above data shows that most of the parents accepted that their children are studying well. Karimnagar(94.55%) and Nalgonda (60.4%) occupied the highest & lowest percentage of responses. However there are some parents who expressed dissatisfaction over their children's learning at school.
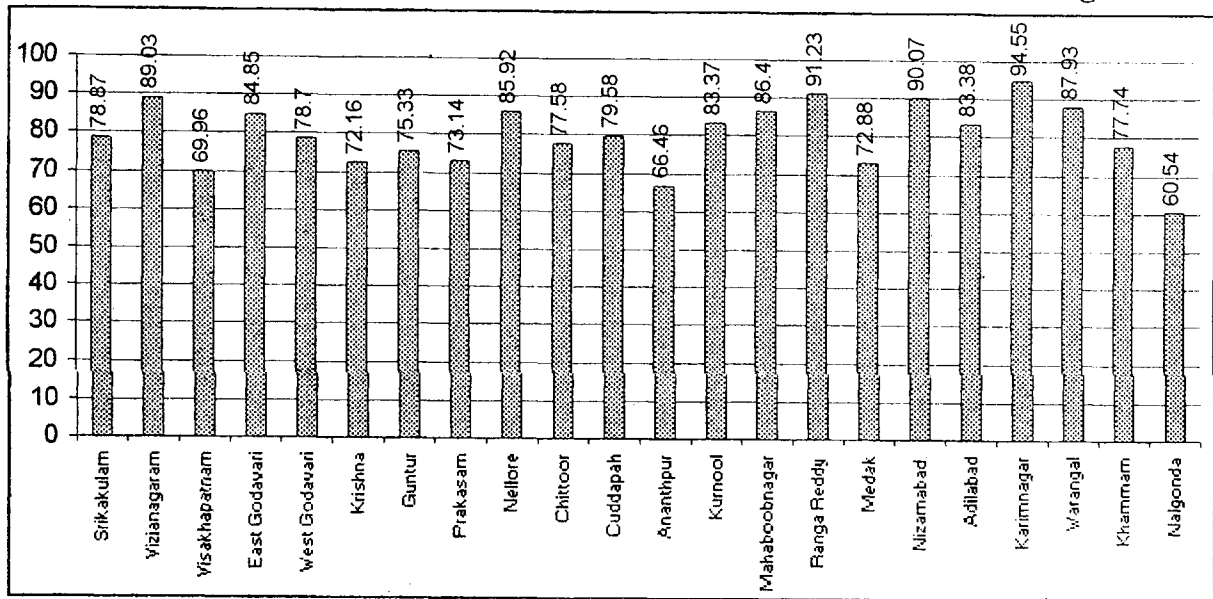

Most of the parents opine that their children are learningwell at school.

Think over

* "Children learn well at school" is the majority opinion. What opinions do the parents of your school/ village have in this regard? Collect their opinions.

* For the development of the school, how can you make use of the services of such parents who feel that their children are learning well in school ?

* How can you make use of the services of such parents for motivating those parents who are not sending their children to school?

* What measures do you take to change the opinions of those parents who feel that their children are not learning well in the school?

ITEM NO. 3 Are there any other activities (Co-curricular) conducted in schools apart from education

Parents opinions on the other activities conducted in the school are:

Response details	No. Responded	Responses%
1. Songs & Games	80748	78.86
2. Moral Stories	16157	15.78
3. Health Habits	7932	7.75
4. Cultural activities	5859	5.72
5. General Knowledge	3476	3.39
6. Others	4562	4.46
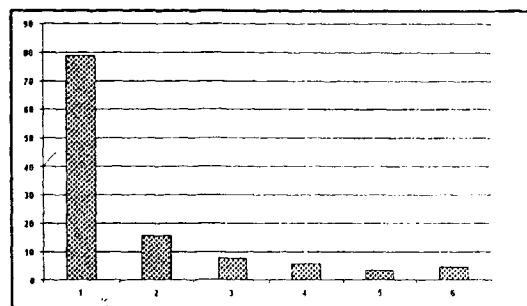

Highly favoured response is "Songs & Games".

The above data shows that apart from imparting eduction, many activities are being conducted in schools. 79% of the parents expressed the opinion that songs & Games are taught along with education. Along with songs & games other actives like moral stories, health principles, cultural activities are also organised in some schools but they are not statistically significant.

Data (per district, %): Srikakulam 72.68, Vizianagaram 91.97, Visakhapatnam 60.98, East Godavari 85.82, West Godavari 66.24, Krishna 72.6, Guntur 74.01, Prakasam 74.62, Nellore 87.59, Chittoor 83.13, Cuddapah 80.13, Ananthpur 63.74, Kurnool 86.4, Mahaboobnagar 85.72, Ranga Reddy 86.92, Medak 67.76, Nizamabad 90.67, Adilabad 84.73, Karimnagar 94.04, Warangal 95.51, Khammam 81.55, Nalgonda 61.18
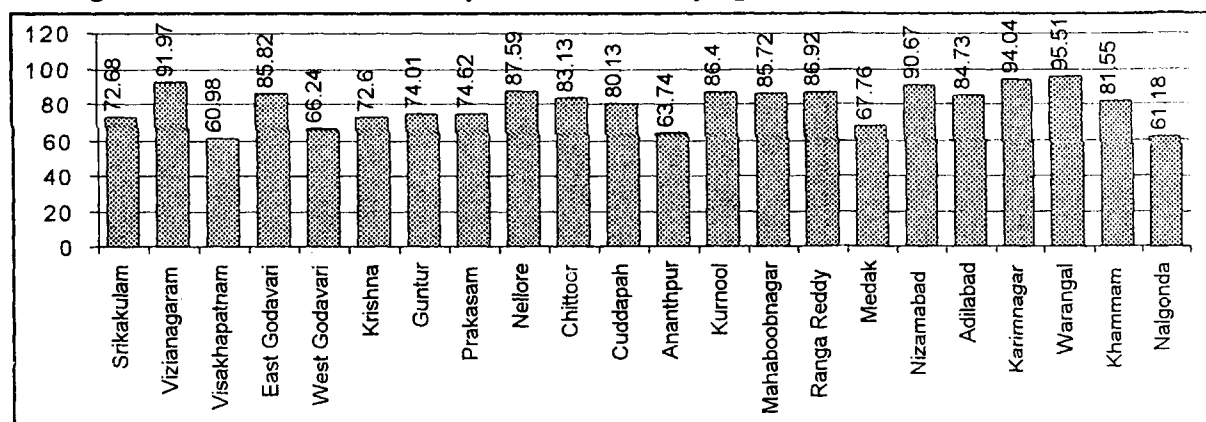

Parents believe "scholastic and non scholastic activities are going on well in the school".

Think over:

*   How far activities like songs & games are conducted in your school?
*   What type of activities do you create through songs & games in your school? Discuss.
*   "Schools are merely encouraging rote memorization". Discuss this argument.
*   "Organisation of games and songs" make learning joyful. How are you making learning joyful?

ITEM NO.4 Do you feel it difficult to send your children to school?

Parent's opinions about their difficulty in sending their children to school are.

Response details	No.Responded	Responses%
1. No. Difficulty	39420	38.5
2. Difficulty	61426	59.99
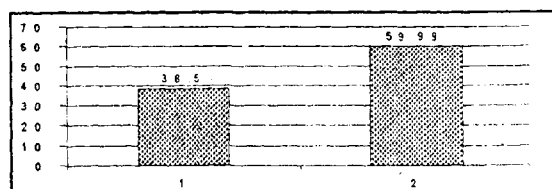

Highly favoured item is "No Difficulty".

The above dta shows that most of the parents (nearly 60%) opined that there is difficulty for them to send their hildren to school. The remaining parents (nearly 40%) expressed no difficulty in sending their childrn to school. Parents to the extent of 75% in Nellore district expressed no difficulty. Only 23% of the prents of Nizamabad district expressed no difficulty.
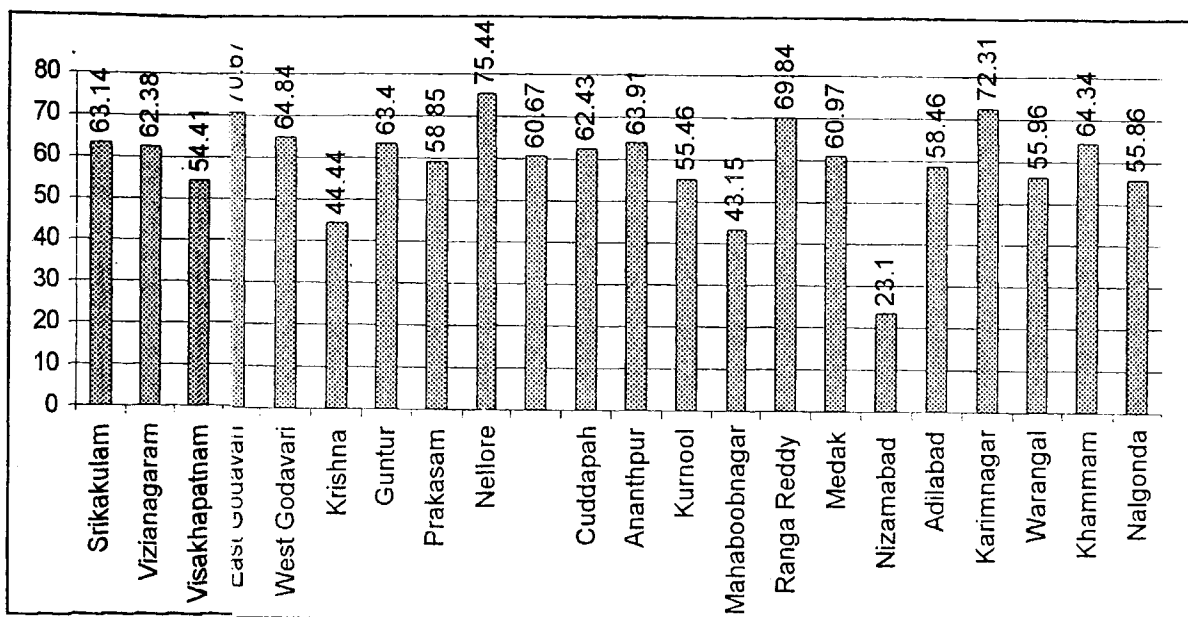

Parents are interested in sending their children to school inspite of many difficulties

Think over

*   Elicit the opiions of parents who are sending their children inspite of difficulty, on the schooling of their chilcen.

*   Think on th·steps to overcome the difficulties faced by the parents in sending their childrent to school and ·uggest them in this regard in informal meetings with them.

ITEM NO. 5 Do ou feel there is decrease in income by sending your children to school?

Parents Opinions about the decrease in income by sending their children to school are

Response details	No. of Responsed	Responses%
1. Decrease in Incom	38884	37.97
2. No. Decrease in Inome	61994	60.54
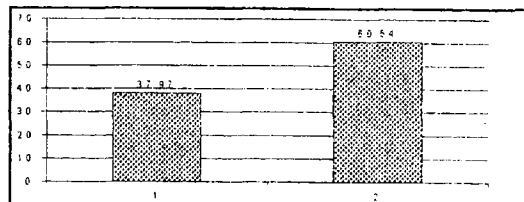

Highly favoured esponse is "No Decrease in income".

The above dea shows that most of the parents stated that there is no decrease in their income as a result of sending their children to school. Nellore district supported this statement to the maximum extent. However the parents of the following three districts stated that there is decrease in their income as a result of sending their children to school.

Krishia 58.48%; Nizamabad 57.51%; Mahaboobnagar 51.38%
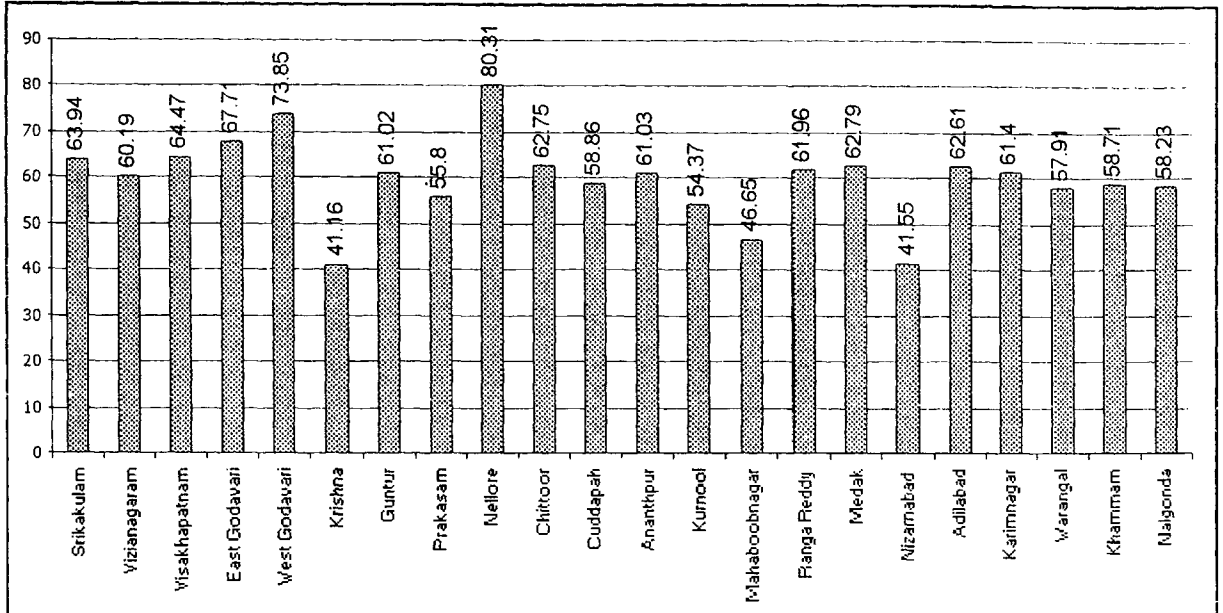

> **There is no decrease in the income of the parents as a result of sending their children to school in majority cases.**

Think over

* Have you identified the parents who are in the illusion of having decrease in their income if their children are sent to school? Discuss with such parents.

* Do you really feel that there will be decrease in the income of the parents who send their children to school?

ITEM NO. 6 What do you think more about your school?

Parent's opinions about the schools that their children attend are:

Response details	No. Responded	Responses%
1. Provide More Physical Facilities	27879	27.23
2. Quality Teaching needed	25660	25.06
3. Punctuality should be developed	6366	6.22
4. Responsibility should be developed	9054	8.84
5. Teaching without punishments	5496	5.37
6. Indvl. Care to be taken	12064	11.78
7. Others	27697	27.05
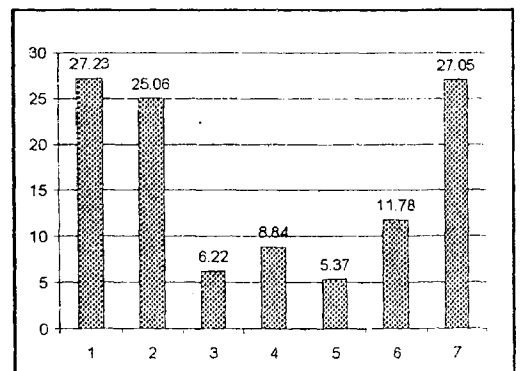

Highly favoured responses are "Need for more physical facilities" and "improvement in the quality of teaching".

The above data shows that parents felt the need for infrastructure facilities in the schools. Maximum response for this is from Warangal district and least is from Mahaboobnagar. 25% of the parents opined the need for improvement in in the quality of instruction.

10
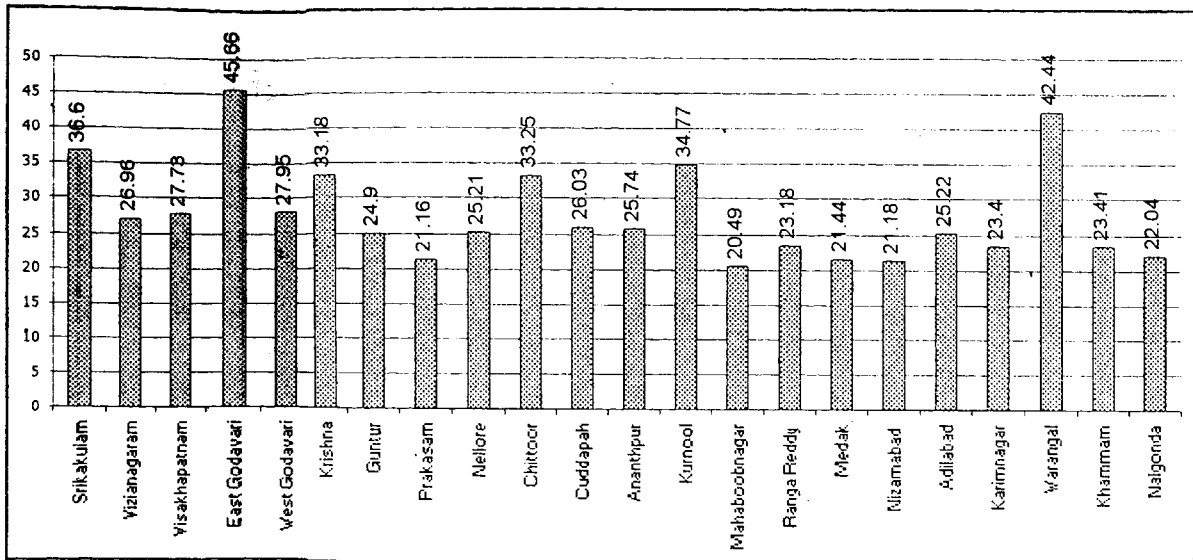

Parents opined both nfastructural facilities & qualitative instruction are necessary to schools

Think over:

* Discuss the role of the society in providing infrastructural facilities in schools.
* Discuss the strateges to improve the quality of instruction.
* Prepare your institutional plan based on the needs and implement the same.
* Observance of punctuality influences school development discuss.
* Is it essential to impose punishments in schools? Are there any alternatives? Discuss.

* * *

3.0 Analysis of the data collected through tool 2

ITEM NO. 7 - 11 are related to parent opinions who are not sending their children to school.

ITEM NO. 7: Why are your children unenrolled/dropped out from the school?

Parents opinions on their children unenrolment/dropout from the school are.

Response details	No.responded	Response%
1. Sibling Care	24447	23.87%
2. Unknowing of the importance of Education	11659	11.39%
3. Economic reasons	39114	38.20%
4. House hold works	17287	16.88%
5. Fear of punishments	3419	3.34%
6. School not accessible	3386	3.31%
7. Early Marriages	983	0.96%
8. Low educational standard	2260	2.21%
9. Physically Handicapped	1273	1.24%
10.Others	12676	12.38%
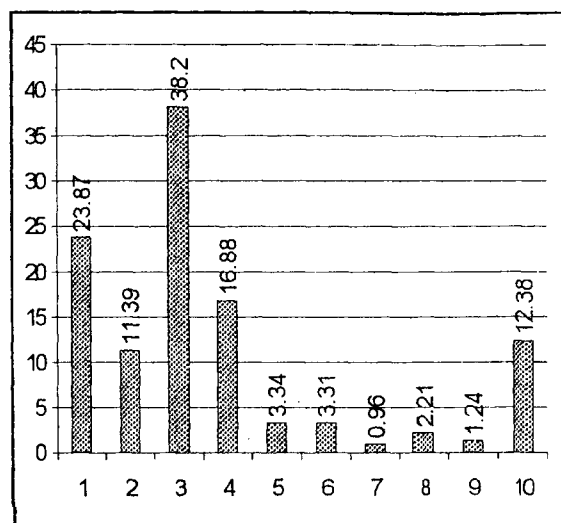

Highly responded item is economic reasons (38%)
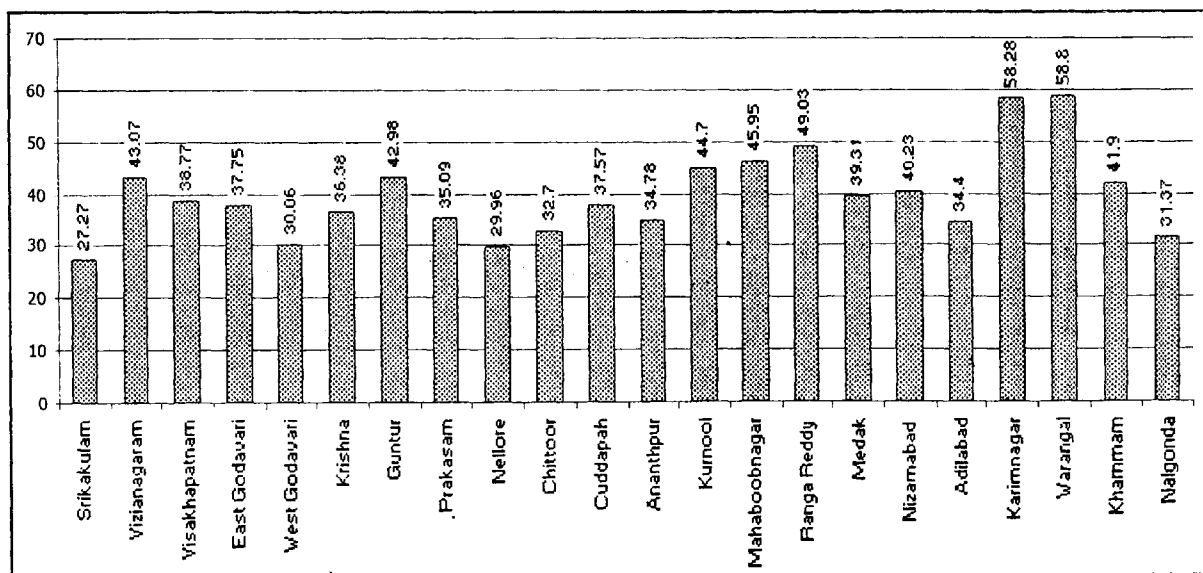

The above data shows that 38.20% of the parents expressed that poor economic condition is the reason for the children to be unenrolled / dropped out. So it can be concluded that economic causes are not the only cause for out of school children. It might be one among several other reasons. Sibling care and house hold work are the other reasons mentioned next to economic causes.

> *Economic causes are not the real barriers for enrolment and retention*

Think over:

* How far is it meaningful to engage school age children for sibling care/household work.
* How can you enrol the unenrolled/dropout children of your school/ village, who did not enrol or dropped out on economic reasons?
* Can we easily enrol the never-enrolled and dropped out children who are out of school on other than economic reasons? Discuss.

ITEM NO. 8: Why are you sending your children to work instead of sending them to school?

The parents' opinions on sending their children to work than to school are.

Response details	No.Responded	Response%
1 Economic reasons	67142	65.57%
2. Not Interested in School	13721	13.40%
3. Others	18693	18.26%
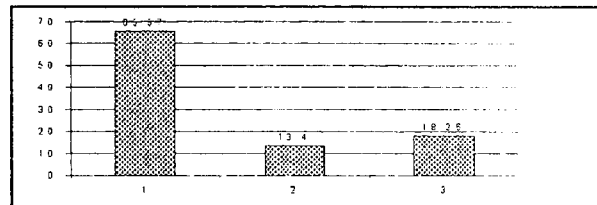

Highest responded response is "Economic reasons" District wise details
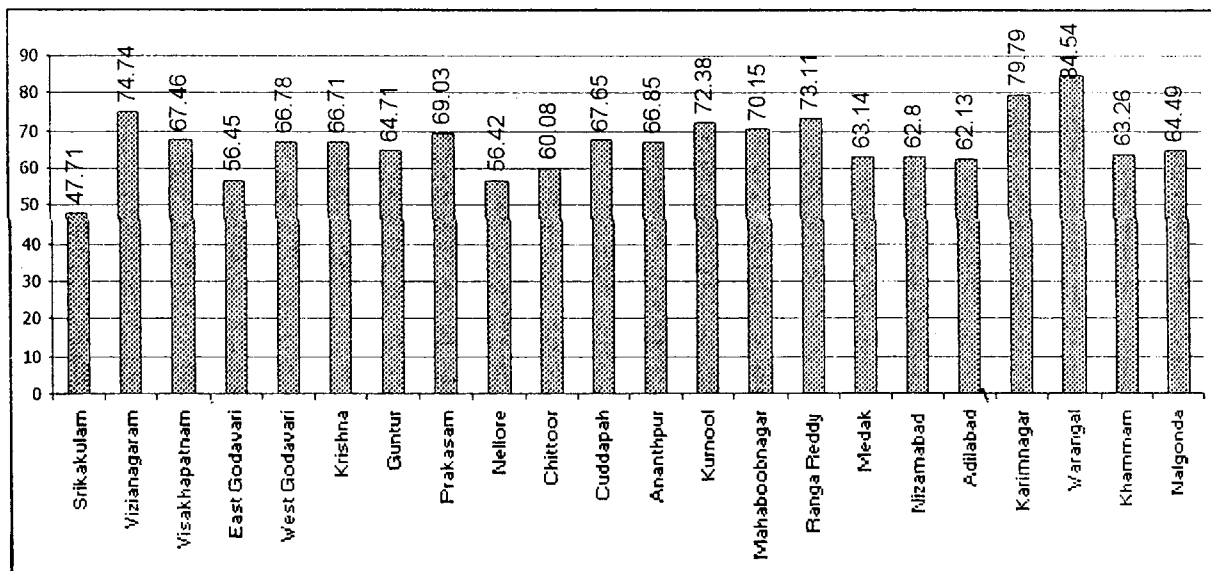

The above data shows that 65.57% of the parents who are not sending their children to school mention that "Financial reasons is the main cause for not sending their children to school. 31.66% of parents mentioned other than the above reason. The former response at the maximum level is from Warangal (84.54%) and the lowest is from Srikakulam district.

Most of the parents who do not send their children mention economic causes.

Think over:

* Are there any literate parents who do not send their children in your locality?
* What strategies do you suggest to enroll the unenrolled?
* Some of the very poor parents are sending their children to school. How are they sending? Discuss.

13

ITEM NO.9 : Do you feel unhappy in sending your child to work instead of sending to school?

The parents opinions about their feelings regarding sending their children to work instead of sending to school are.

Response details	No. responded	Response%
1 Un-happy in sending their children to work	83070	81.13%
2. Happy in sending their children to work	14409	14.07%
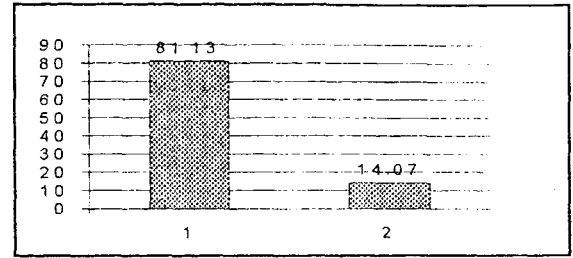

Highly favoured response is "Un-happy" in sending their children to work
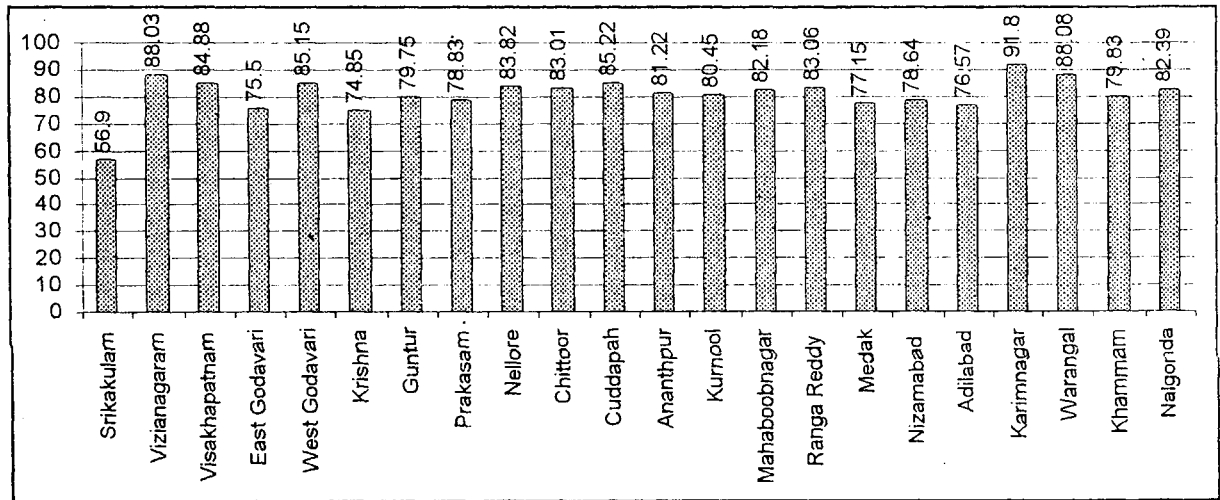

The above graph shows that 81.13% of the parents felt unhappy for sending their children to work. This opinion is expressed at the maximum level from Karimnagar district (91.80%) and at the lowest from Srikakulam district (56.90%). It can be concluded that the parents are worrying a lot for sending their children to work.

> *No parent sends his/her child to work wilfully*

Think over

* How to motivate the parents to send their childrent to school instead of work?
* "Unwillingly many parents are sending their children to work instead of school". Think about the strategies to bring such children to the school fold into the fold of the school proper mobilisation.

ITEM NO.10 What do you think about your village school

Parents' Opinions about their Village School are as detailed below

Response details	No. responded	Response%
1 Feeling Good	76395	74.61%
2. Not Feeling Good	9974	9.74%
3. No Knowledge about School	9434	9.21%
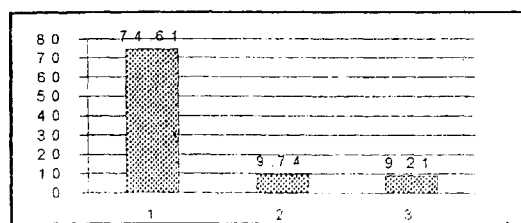

Highly favoured item is "feeling good"

14
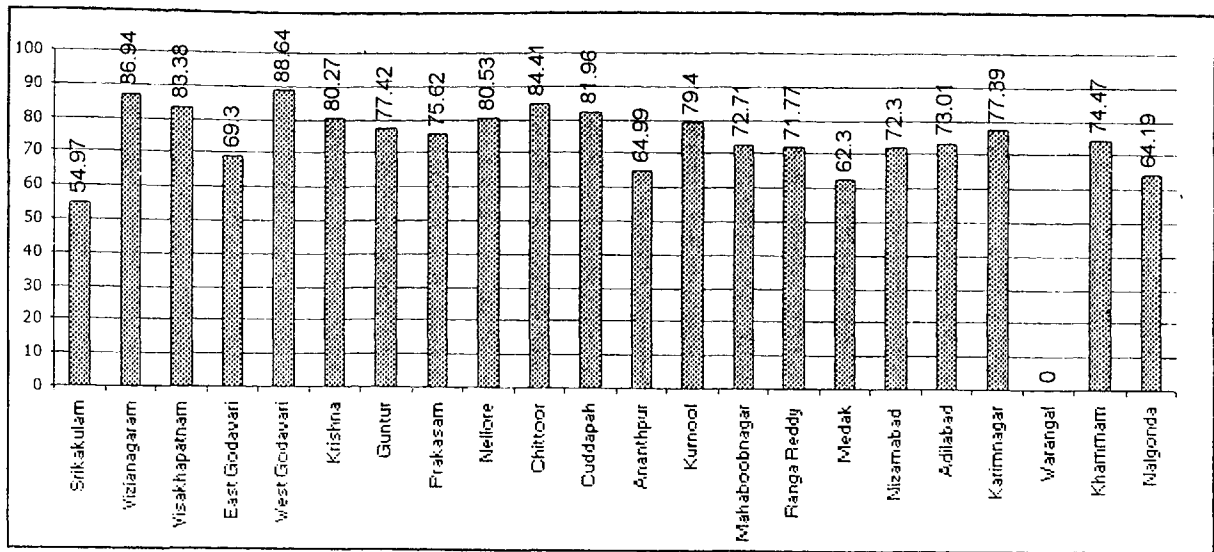

The above data shows that most of the parents (74.61%) in the state gave a positive response about their Village School and very least percentage (9.74% and 9.21%) gave negative response stating that they do not know any thing about the school and whether it is functioning up to the mark or not respectively.

The parents of west Godavari district (88.64%) gave highest good response about the school and teachers.

> *Parents who do not send their children to school also have good opinion towards school*

Think over

* Discuss the strategies to motivate the parents who have good opinion towards the school but not sending their children to school.

* Some of the parents expressed their dissatisfaction towards the functioning of the school. Discuss the reasons for their dissatisfaction.

ITEM NO.11: Do you send your children to school, if they desire?

Parents willingness about sending their children to school if the children desire to go to school are detailed below:

Response details	Number	Response
1. Willing	69566	67.94%
2. Not Willing	26006	25.40%
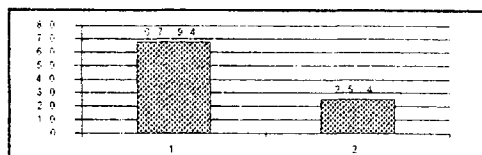

Highly favoured response is "Willing"
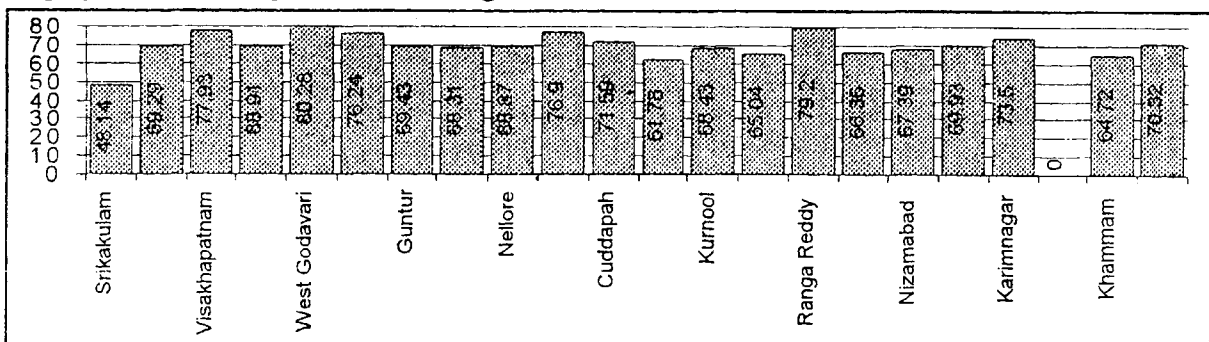

The above data shows that 67.94% of parents in the state agreed to send their children to school. 80.28% of parents from West Godavari at the highest level and 48.14 % of parents at the lowest from Srikakulam district agreed to send their children to school. From this it can be concluded that most of the parents are willing to send this children to school.

> ***Parents are ready to send their children to school, if their children so desire.***

Think over

* List out, the strategies to be adopted to create interest towards the school among children who are unenrolled/dropout.

* What steps do you taken to enroll the unenrolled /dropped out children belonging to the parents who are willing to send their children to school?

* If children stop working, parents will get work resulting in the economic development of the family, thereby children can have schooling. Think.

* * *

4.0 Analysis of the data collcted through Tool 3

Item no. 12 to 17 relate to the parents who are very poor and sending their children to school

Item No: 12 Are your Children studying in the school?

Details of responses	Number responded	% of Responses
1. Studying	91890	89.74
2. Not studying	6166	6.02
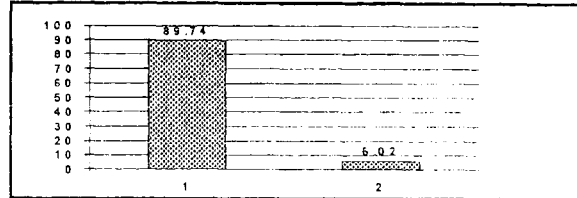

This Question was posed to the Poor Parents who are sending their children to school. Most of the parents (89.74%) responded positively.

District	Value
Srikakulam	51.88
Vizianagaram	58.32
Visakhapatnam	67.34
East Godavari	76.16
West Godavari	76.92
Krishna	67.34
Guntur	66.04
Prakasam	62.18
Nellore	58.19
Chittoor	63.13
Cuddapah	53.61
Ananthpur	49.65
Kurnool	40.63
Mahaboobnagar	30.74
Ranga Reddy	31.2
Medak	35.94
Nizamabad	35.1
Adilabad	38.94
Karimnagar	35.08
Warangal	33.62
Khammam	48
Nalgonda	52.99
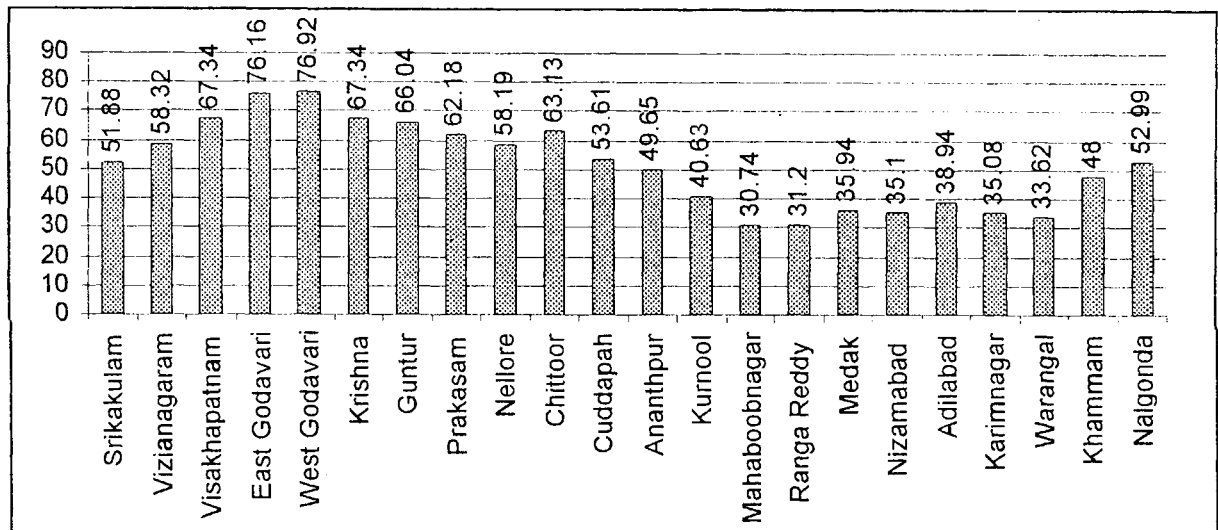

Poverty is not the real hurdle for education

Item No: 13 Are you a literate?

Parents' responses are as follows

Details of responses	No. responded	% of R's
1. Yes (literate)	54865	53.58
2. No (illiterate)	46111	45.03
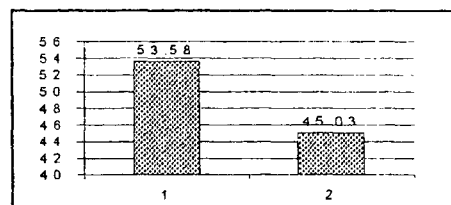

54% are literate and 45% illiterate

Bar chart showing literacy percentages by district:
Srikakulam 51.58, Vizianagaram 58.32, Visakhapatnam 67.34, East Godavari 76.16, West Godavari 76.92, Krishna 67.34, Guntur 66.04, Prakasam 62.18, Nellore 58.19, Chittoor 63.13, Cuddapah 53.61, Ananthpur 49.65, Kurnool 40.63, Mahaboobnagar 30.74, Ranga Reddy 31.2, Medak 35.94, Nizamabad 35.1, Adilabad 38.94, Karimnagar 35.08, Warangal 33.62, Khammam 48, Nalgonda 52.99

Nearly 54% of the parents are literate and 45.03% of parents are illiterate. Both the categories are sending their children to school inspite of acute poverty. West Godavari (76.92%) and Mahaboobnagar (30.74%) Districts occupy the highest and the lowest percentages respectively in this aspect.

> *Literacy of the parent is no bar for childrens' schooling*

Think over

* Illiterate parents are also sending their children to school. Is it true in your school/ village?

* What is the position of your district among other Districts in the State with regard to literate parents?

* While very poor parents are sending their children to school, why not those who are economically better than these? Discuss.

* Can we utlise the services of these poor parents to motivate others who are not sending their children to school?

Item No: 14 Do you feel any inconvenience in sending your children to school though you are poor?

The responses to this item are as follows

Details of responses	Number	% of Responses
1. Yes	62032	60.58
2. NO	38515	37.61
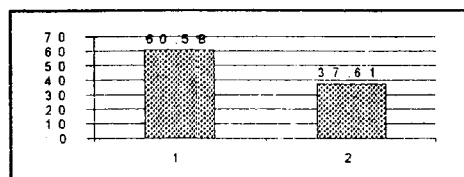

Nearly 61% of the poor parents are feeling inconvenience to send their children to school
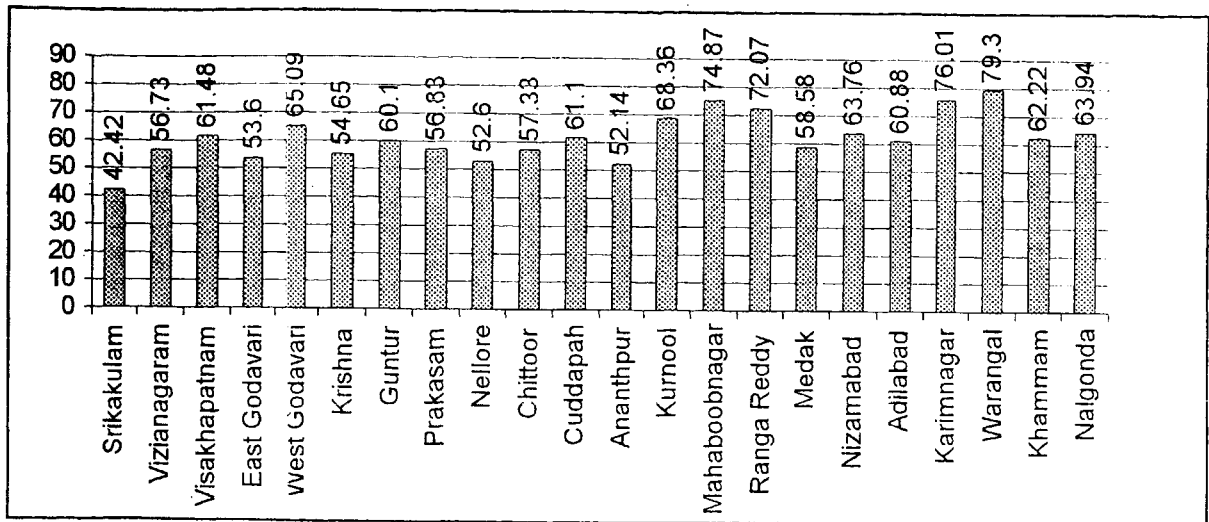

The above data shows that most of the parents (61%) opined that they feel inconvenience in sending their children to school. Even then they are sending their children to school.

Both Warangal district (79.3%) and Srikakulam district (44.42%) which occupy the highest and lowest positions expressed this opinion respectively.

Inspite of inconvenience majority of the poor parents are sending their children to school

Think over

* Does an average parent feel, inconvenience in schooling their children? Discuss the problems faced by the poor parents who are sending their children to school?

* Will stopping the schooling of children, solve the problems of poor parents? If the schooling of children is stopped, do you think it will solve the problems of the parents who are poor?

Item No. 15. What is your opinion at some parents' sending their children to work instead of sending them to school?

The responses are as detailed below

Details of responses	No responded	% of Responses
1. Compulsory for income	43098	42.09
2. Felt it is not good to send to work	38471	37.57
3. Do not know the importance of education	19586	19.13
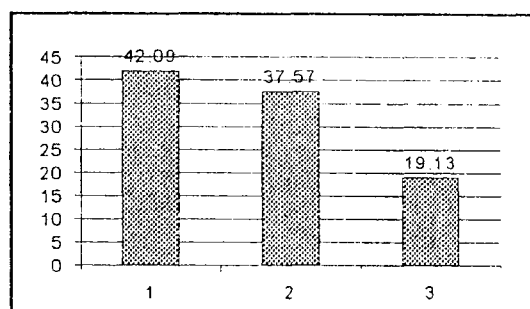

The item "Compulsoy for income"is favoured by 42%.
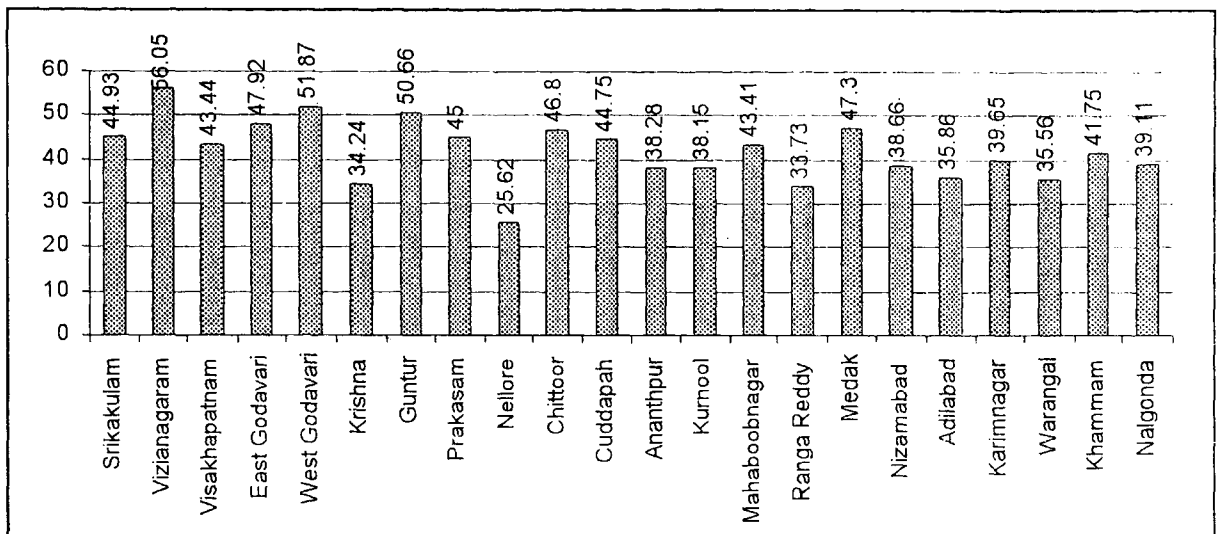

Though 42.09% of the parents stated that the main reason for sending their children to work instead of school is for income, nearly 38%, nearly the same % felt it is not good to send their children to work.

> **Poor parents opined that it is not proper to send their children to work**

Think over

* ⋆ Do the school age children have to work?
* ⋆ Don't they have the right to enjoy childhood?
* ⋆ What will be the plight of parents, if all the children quit work?
* ⋆ Pose this question to the parents who are sending their children to schools.

Item No: 16. What is your opinion on your village school and teachers?

Parents opinions about their village school and teachers are detailed below:

Details of responses	No. responded	% of Responses
1. Fairly good	72386	70.69
2. Good	23644	23.09
3. Not so good	5022	4.90
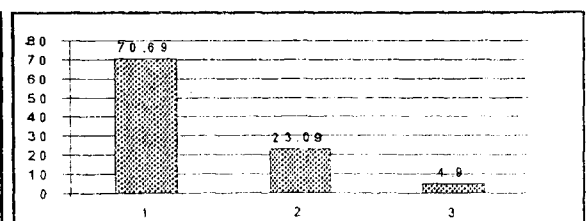

The data reveals that nearly 71% of the poor parents express fairly "good" at their village school and teachers.
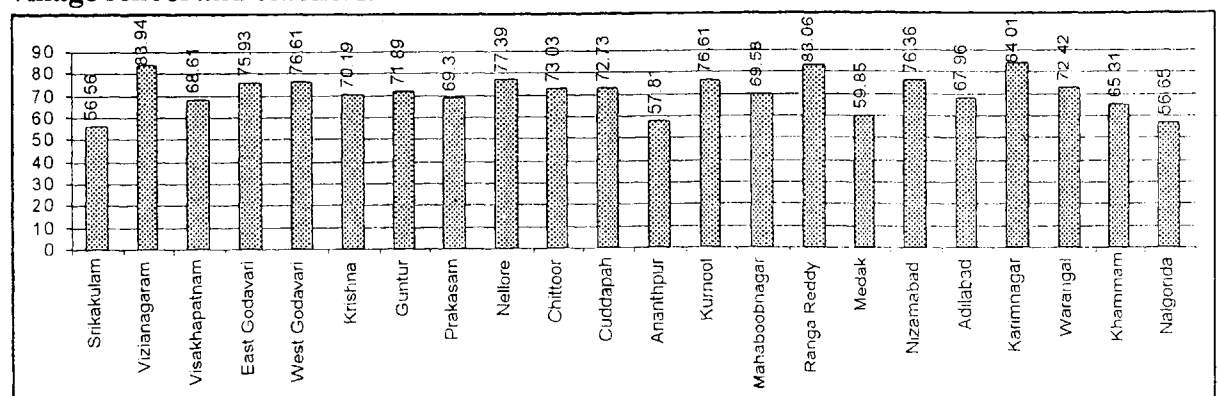

Think over

* Call the parents having negative attitude towards school and discuss with them.

* What programmes do you take up to remove the negative attitude among parents towards school?

Item No: 17. What are the reasons for the children dropout from school?

Parents' opinions about the reasons for the children dropping out of the school are as detailed below:

Details of responses	No. responded	% of Responses
1. Peer group effect	15856	15.48
2. Economic reasons	46116	45.04
3. Parents illiteracy	26841	26.21
4. School is unattractive	14384	14.05
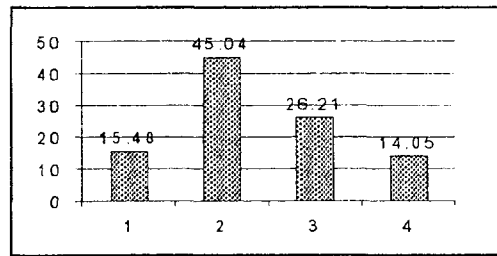

"Economic reasons" favoured more
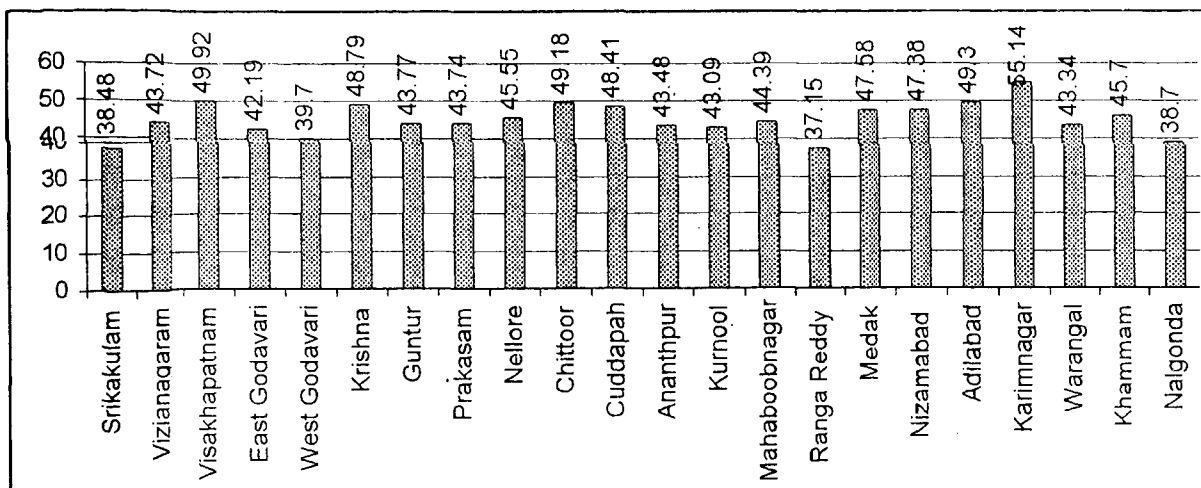

The above data shows that even though 45.11% of the parents stated "the financial reasons" is the main barrier for dropping out of the children, the rest of the items such as peer group effect, parents illiteracy, unattractive school, cover major causes nearing 55.75%. From this it can be concluded that financial reason is not the only reason for dropouts but it may be one of the reasons besides other reasons.

Parents illiteracy, peer group effect and unattractive schools are the other causes for droupouts

Think over

* Is there any impact of peer group for dropouts? Discuss.

* How to make the school interesting?

5.0 Analysis of the data collected through tool 4

Item No. from 18 to 27 relate to the out of school children

Item No: 18. What is your name?

Children's responses on the above item as detailed below

Details of responses	No. responded	% of Responses
1. Boys	58507	57.14
2. Girls	35425	34.60
3. Not mentioned	11,131	8.14
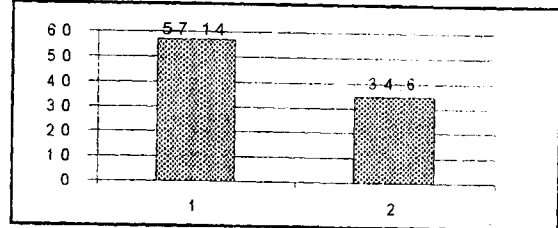

57.14% of boys and 34.60% of girls have responded to this question.
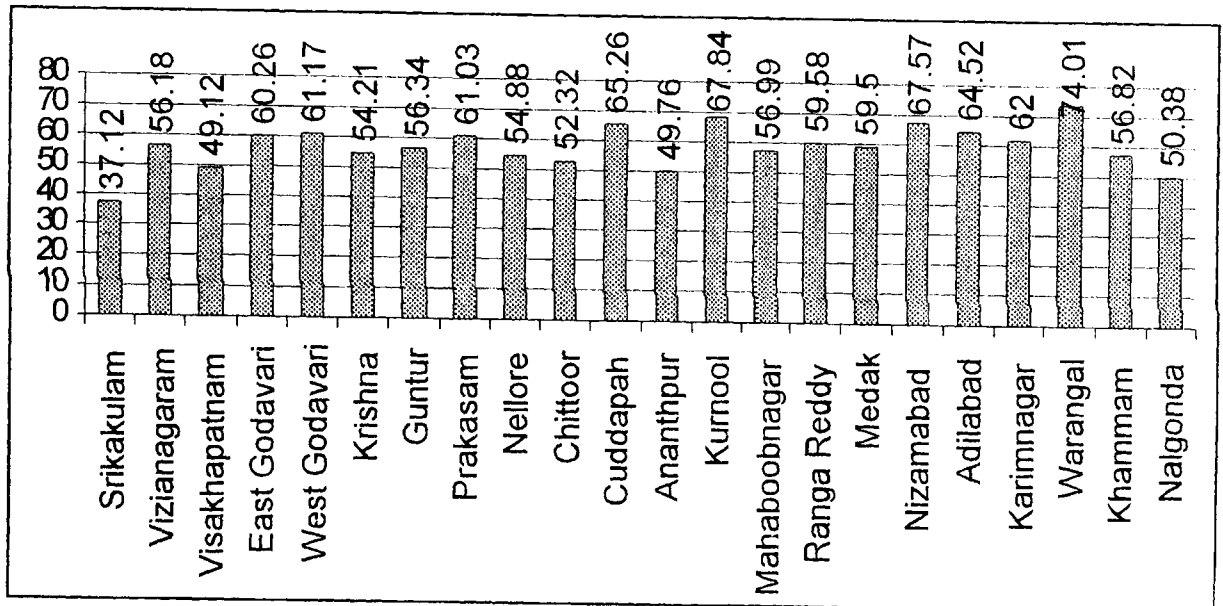

This shows that 57.14% of out of school children involved in the study are boys and 34.60% are girls.

Item No: 19. Have you ever gone to school?

Children's responses on this item are detailed below

Details of responses	Number responded	% of Responses
1. Yes (Drop-outs)	79191	77.34
2. No (Never Enrolled)	18025	17.60
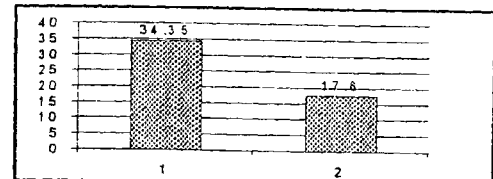

77.34% are dropouts and 17.60% are unenrolled

Bar chart values by district: Srikakulam 47.35, Vizianagaram 85.09, Visakhapatnam 75.82, East Godavari 76.47, West Godavari 88.64, Krishna 78.57, Guntur 80.88, Prakasam 80.89, Nellore 82.19, Chittoor 86.09, Cuddapah 84.59, Ananthpur 77.83, Kurnool 81.03, Mahaboobnagar 65, Ranga Reddy 70.88, Medak 67.9, Nizamabad 70.1, Adilabad 73.55, Karimnagar 83.62, Warangal 79.45, Khammam 74.47, Nalgonda 66.18
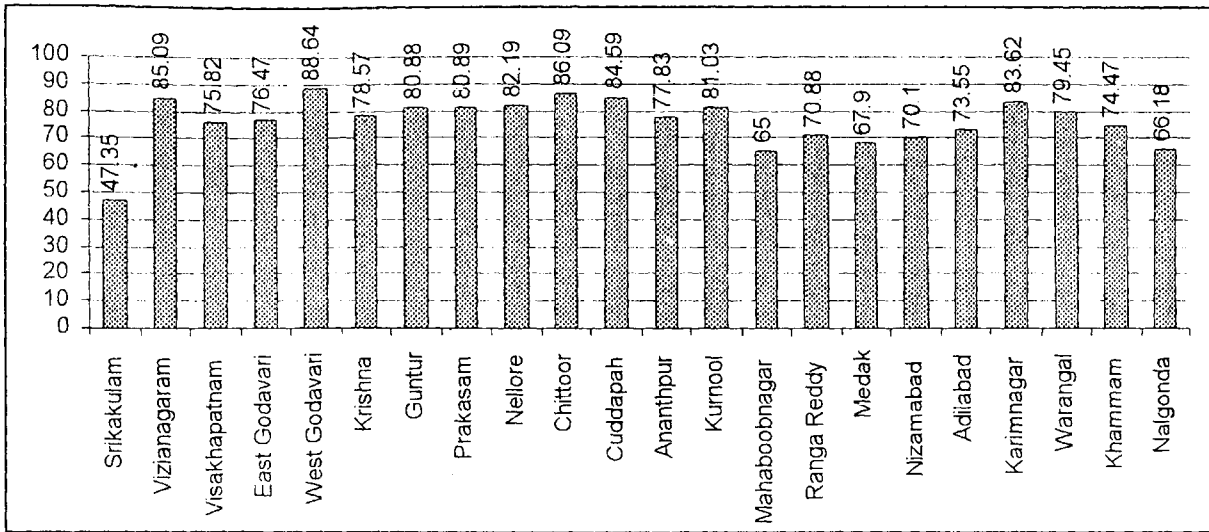

The number of unenrolled children are fewer when it is compared to the number of dropouts.

The Dropout rate in West Godavari district is the highest (88.64%) and it is the lowest in Srikakulam district 47.35

> **The number of dropouts are more than the unenrolled children.**

Think over

* Discuss the measures to be taken to bring back the dropouts to school.
* Discuss the steps to be taken to get the unenrolled children to enroll.
* Why are children dropping out from School? Suggest measures to arrest it and implement them.
* Why some children are not being enrolled?

Item No: 20. Why are you not going to school?

Children's responses about their not going to school are as follows

Details of responses	Number responded	% of Responses
1. Migration	9294	9.08
2. Economic reasons	35175	34.35
3. Fear about school	8645	8.44
4. Illiteracy of parents	12184	11.90
5. Above age/overaged	3026	2.96
6. Sibling care	11068	10.81
7. Others	19228	17.78

Bar chart: 1 → 9.08, 2 → 34.35, 3 → 8.44, 4 → 11.9, 5 → 2.96, 6 → 10.81, 7 → 18.78
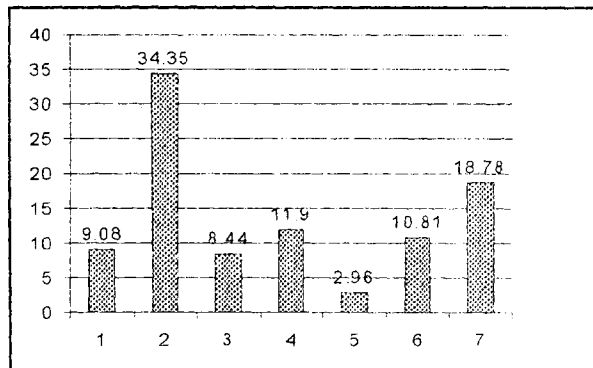

This Question was put to unenrolled children. Though most of the children state "Economic reasons" (34.35%) is the main cause for not going to school, the percentage of rest of the reasons occupy more than 65%. Economic reasons may be one of the reasons for not going to the school. But the other reasons may be sibling care, parents illiteracy, fear of school, migration etc.

23

District	Value
Srikakulam	28.84
Vizianagaram	42.54
Visakhapatnam	35.8

Khammam	35.27
Nalgonda	29.43
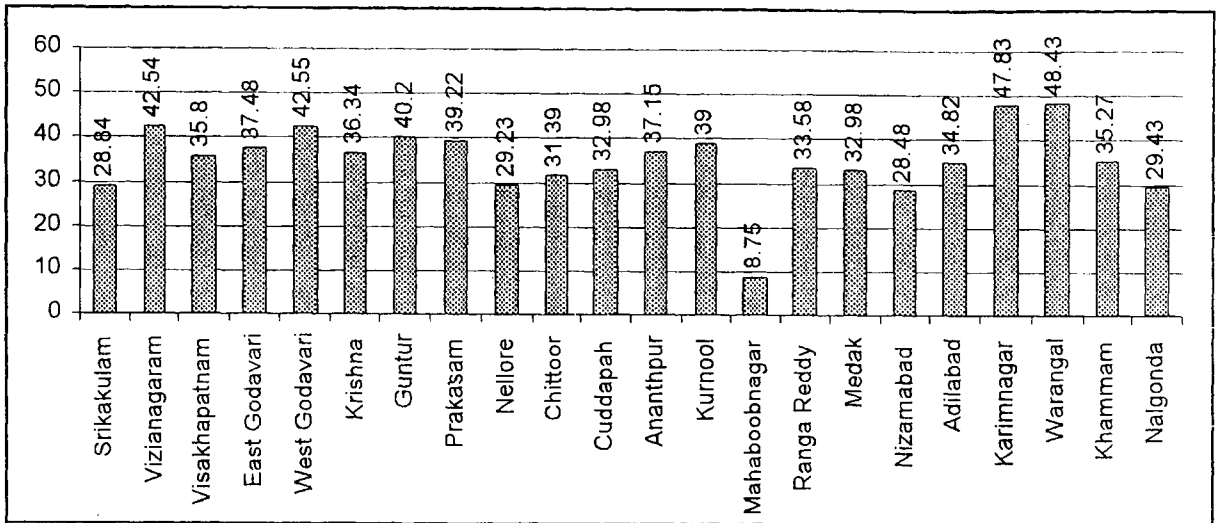

> **Right place to the child is school.**

Think over

* * Identify the reasons for dropouts and design strategies to over come this problem.
* * Regularity of the children to the school is one of the signs of Quality. Comment.

Item No: 21. In which class have you dropped out?

Children's responses about the class in which they have dropped out are as detailed below.

Details of responses	Number responded	% of Responses
1. I Class	8635	8.43
2. II Class	15449	15.09
3. III Class	16204	15.82
4. IV Class	13852	13.53
5. V Class	14057	13.73
6. VI Class	9989	9.76
7. VII Class	6618	6.46
8. VIII Class	2229	2.18
9. IX Class	818	0.80
10. X Class	388	10.14

District	Value
Srikakulam	8.43
	18.01
Visakhapatnam	18.59
	15.43
West Godavari	12.14
	15.82
Guntur	18.94
	16.26

Kurnool	24.19
	13.41
Ranga Reddy	14.26
	16.4
Nizamabad	15.38
	16.65
Karimnagar	14.27
	17.76
Khammam	15.42
	14.97

24
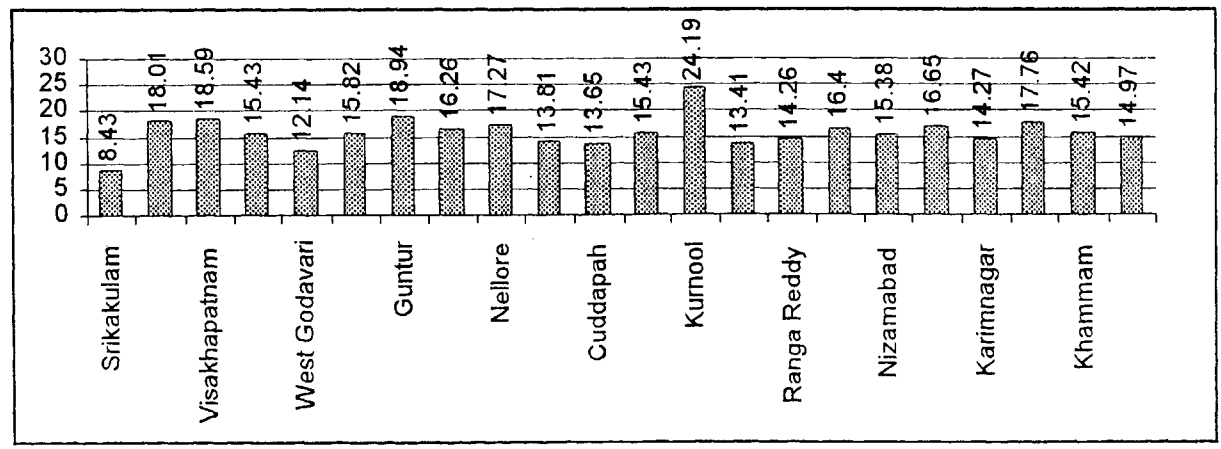

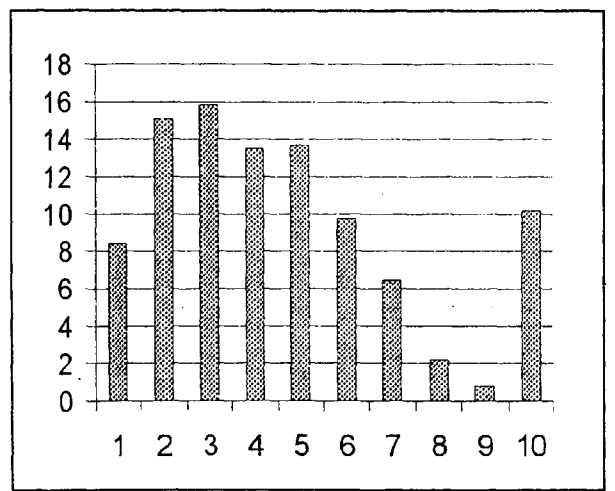

The above data shows that 66.5% of the enrolled children have dropped out before completing primary education, 16.33% in 6th and 7th classes and 2.98% have dropped out in 8th and 9th classes respectively. It is clear that the dropout rate at the primary level (Classes 1 to 5) is higher than those in Upper Primary and high school classes. Special attention is to be paid in this context. Further, more dropout rate is found at Class III level when compared to other classes.

> **More dropouts are at class III level.**

Think over

* Identify the number of children dropped out in your school and discuss strategies for retention.
* How to make school and instruction attractive to children?

Item No. 22. What are you doing now?

Children's responses about their present occupation are as detailed below:

Details of responses	Number responded	% of Responses
1. House hold works	27223	26.59
2. Agricultural works	30713	29.99
3. Industrial works	5490	5.36
4. Professional works	12117	11.83
5. No works (idle)	6134	5.99
6. Sibling care	8695	8.49
7. Building construction work	3882	3.79
8. Others (Hotels, shops)	689'	6.73
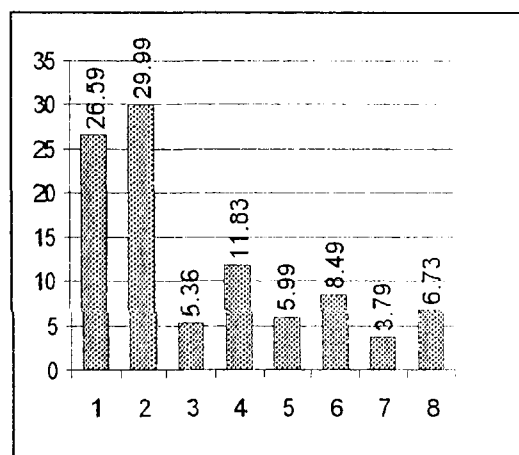

District wise details are as under
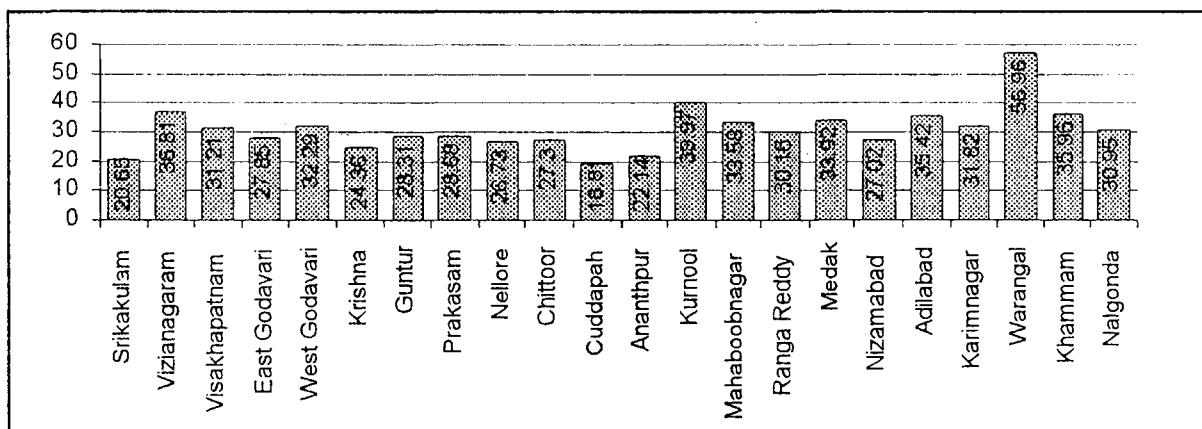

This question was also posed to out of school children

Agricultural and House hold works occupy the top 2 ranks in the list.

40.93% of the children are involved in other items of work like sibling care, construction work, Industrial works etc.,

Special efforts are to be made to enroll the child labourers.

> **About 50% of the out of school children are engaged in Agriculture & household work**

Think over

    * Have you ever identified the reasons for dropouts in your School? What have you to do to mainstream them?

Item No: 23. Do you like your present work?

Children's responses whether they like the present work they are doing are as detailed below:

Details of responses	Number responded	% of Responses
1. Yes	49561	48.40
2. No	47117	46.01
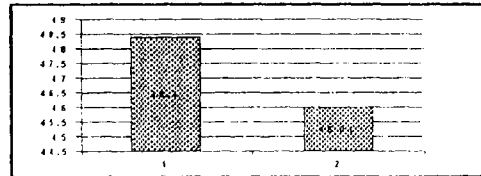

District wise details are shown below
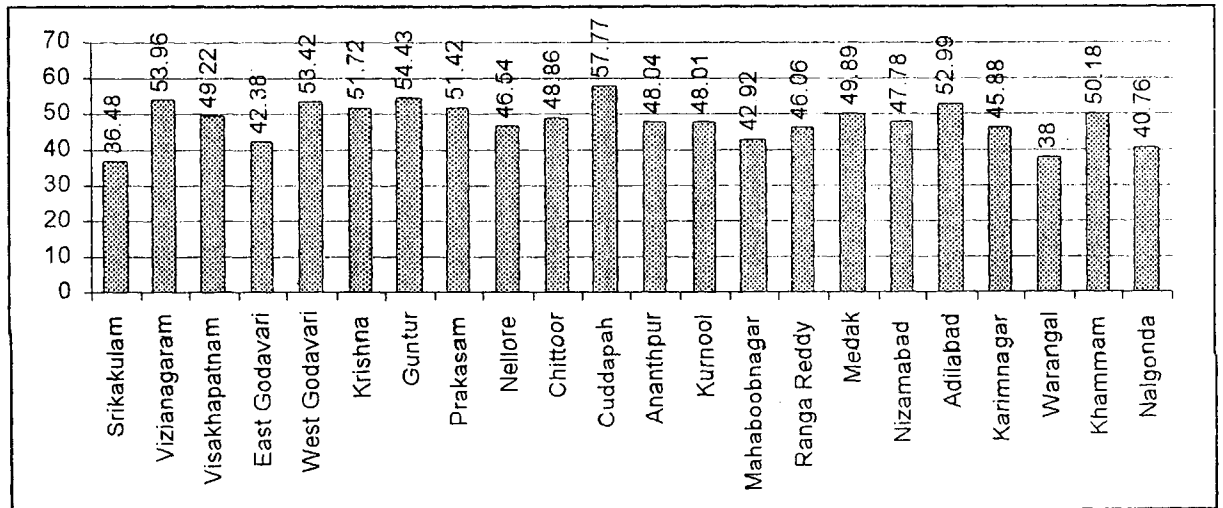

The above data shows that more percentage of children have expressed dislike on their present work. Highest percentage of children in Cuddapah have opined the same. But the least percentage of opinion is from Srikakulam district i.e., 36.48%.

> *Out of school children express dislike on their present work*

Think over

    * Sending school age children to work is a social crime. Discuss.

    * What is the teachers' duty to make all the school age children to be in the school?

Item No: 24. Do you like to go school?

Children's response as to whether they like to go to school are detailed below:

Details of responses	Number responded	% of Responses
1. Yes	72009	70.32
2. No	25709	25.11
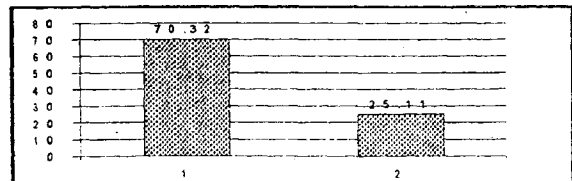

District wise details are as follows:
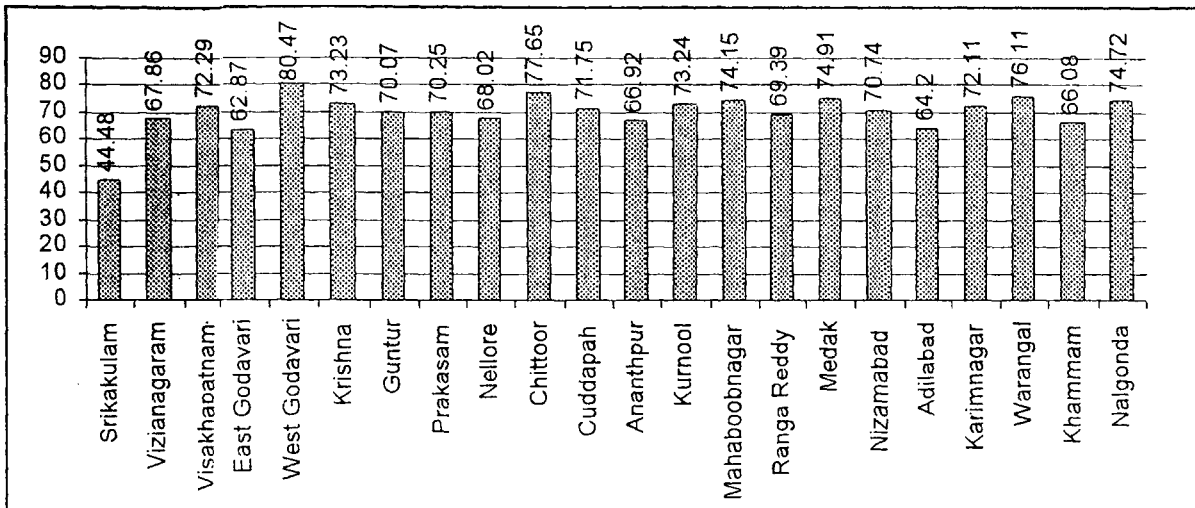

The above data shows that the majority percentage i.e., 70.32% of children are willing to go to school. The Highest percentage is in West Godavari district (80.47%) and the lowest is in Srikakulam district (44.48%)

> *Majority of the school age children like schooling than work*

Think over

* It is necessary to conduct parent meetings to achieve 100% enrollment. Discuss
* Sensitisation of parents helps enrolment. Think over.

Item No: 25. Do you go to school, if your parents agree to send? ✓

Details of responses	Number responded	% of Responses
1. Yes	71801	70.12
2. No	25483	24.89
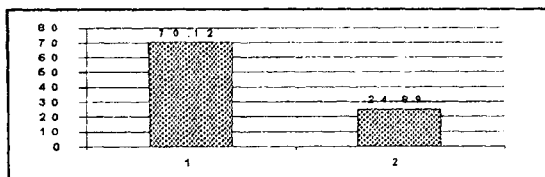

Districtwise details are as follows:
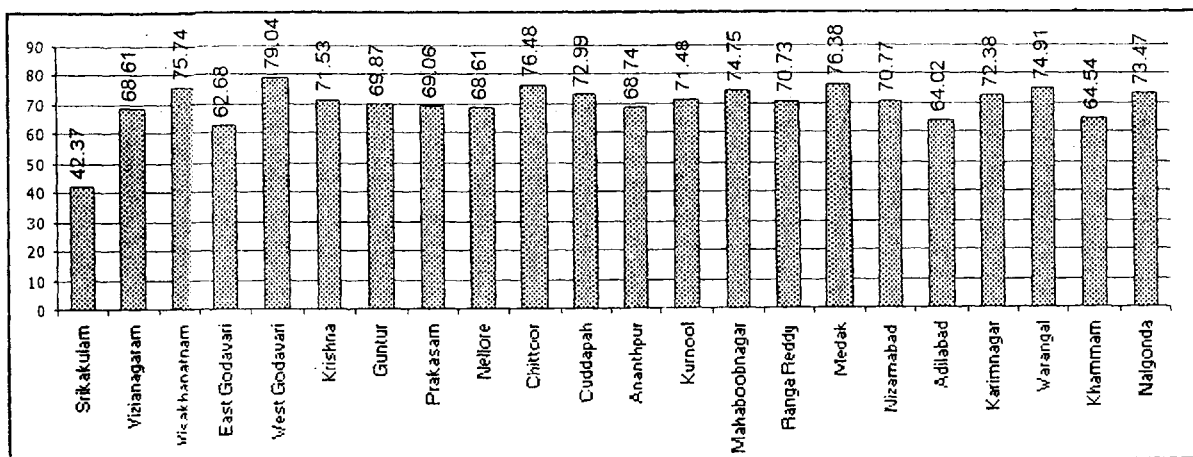

The above data shows that most of the children expressed their readiness to go to school, if their parents agree to send them. In this context West Godavari responded highest percentage i.e., 79.04% and lowest percentage 42.37% in Srikakulam district.

> *Most of the out of school children are willing to go to school.*

27

Think over

* The school age children in your locality wish to attend school. How do you motivate them?
* What is our duty to bring the First Generation unenrolled children to school?

Item No: 26. How do you expect the school to be?

Details of responses	Number responded	% of Responses
1. School with songs and games	55381	54.09
2. Good Teaching	21343	20.84
3. Physical facilities	14159	13.83
4. No Punishments	8905	8.70
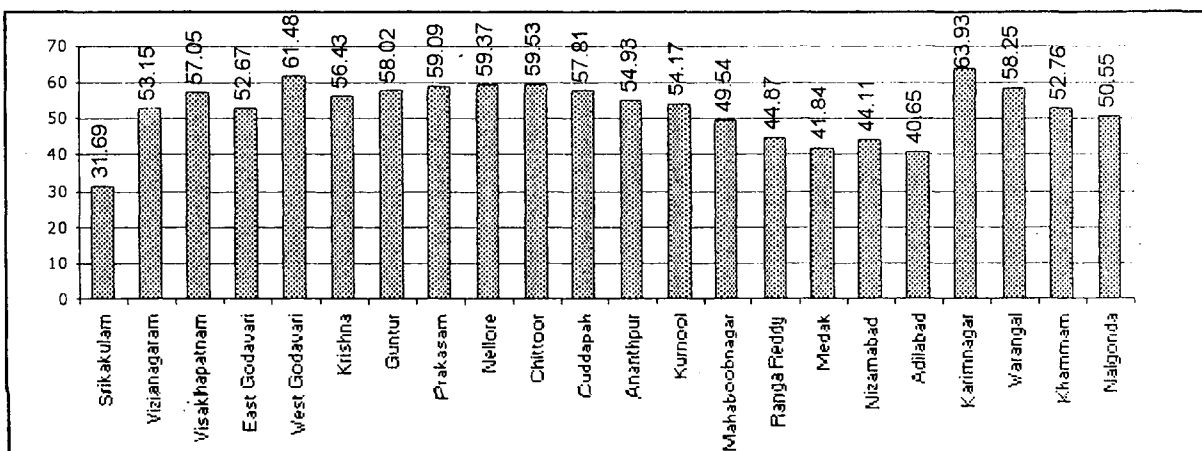

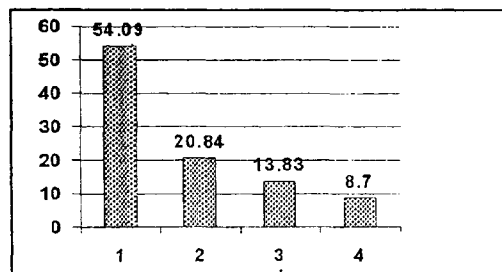

The above data shows that most of the children expressed the school to be a place of songs and Games. Highest percentage i.e., 63.93% of Karimnagar district children have opined that there must be Games and Songs in the school. The least percentage i.e., 31.69% of children of Srikakulam district have expressed the same opinion. From this it can be concluded that a majority of out of school children expect the school to be a place of Games and Songs, good teaching without punishment.

School should be a place of activities with songs, games and good teaching environment.

Think over

.* "School is a place of pleasure". Is your school like this?
* Is the child centred education an important factor in your teaching learning strategy? Discuss.

Item No: 27 Which things do you not like in the school?

Children's responses about the things they do not like in the school are detailed below:

Details of responses	Number	% of Responses
1. Serious study	17316	16.91
2. Non local teacher	4417	4.31
3. Punishments	21236	20.74
4. Heavy home work	8255	8.06
5. Insufficient teachers	8138	7.95
6. More school time	6504	6.35
7. Scribbling	3897	3.81
8. Recitation	5812	5.68
9. Insufficient Phy. facilities	8278	8.08
10.Others	33148	32.37
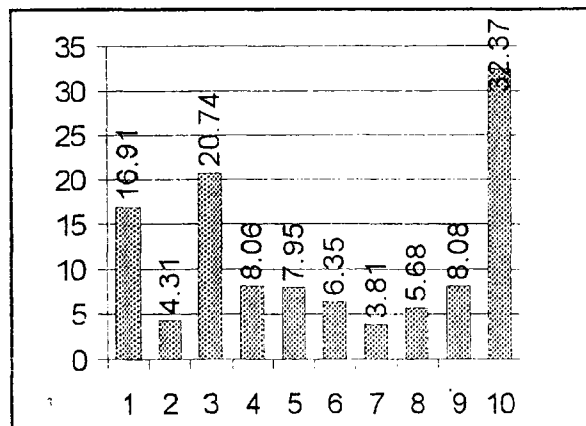

District wise graph is as shown below:
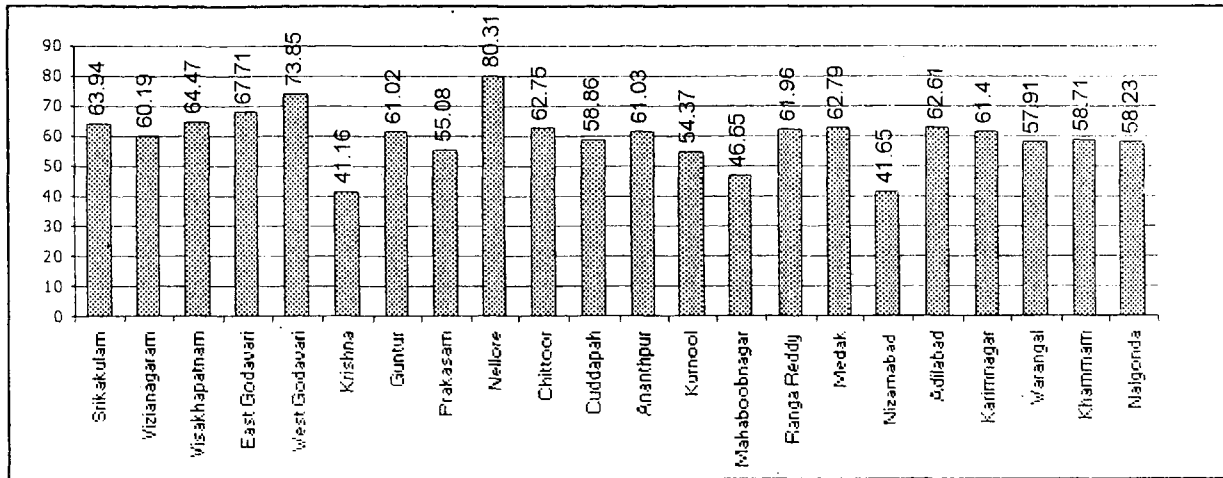

Highly responded item is "punishments" and next to this stand "serious study", "insufficient physical facilities" and "heavy homework". Keeping in view the above responses the teacher should avoid punishments and make the classroom activities more interesting.

> *Teachers should avoid punishments to provide attractive atmosphere in the school*

Think over

* Are the punishments necessary? Discuss.
* The school should have an attractive atmosphere. Discuss strategies.
* When parents are willing to send their their children to school and the children are willing to attend the school, where does the problem lie? This creates a doubt with regard to the functioning of the teacher and the school. Under these circumstances how should the teacher act and make the school function?

* * *

6.0 Analysis of the responses of tribal area parents with regard to schooling of their children

Items from 1 to 6 relate to the parents who are sending their children to schools

The following is the questionwise analysis of the responses.

1. Why are you sending your children to school?

Response	Number responsed	%	Highest% districts	Lowest% districts
1. For education	4812	61.84	E. Godavari 90.65	Vizag 43.29
2. For bettor Future	1684	21.61	Vizag 37.59	Srikakulam 8.89
3. For Job Purpose	1103	11.18	Vizag 16.68	Vizayanagar 1.63
4. For Problems solving	366	4.70	Khammam 6.50	E.Godavari 0.62
5. For Self repspect	315	4.05	Khammam 6.05	Vijayanagaram 0.23
6. To lead independent life	531	6.82	Khamma 10.69	Vijayanagar 0.93
7. Others	271	3.48	East Godavari 16.51	Vizag 0.22
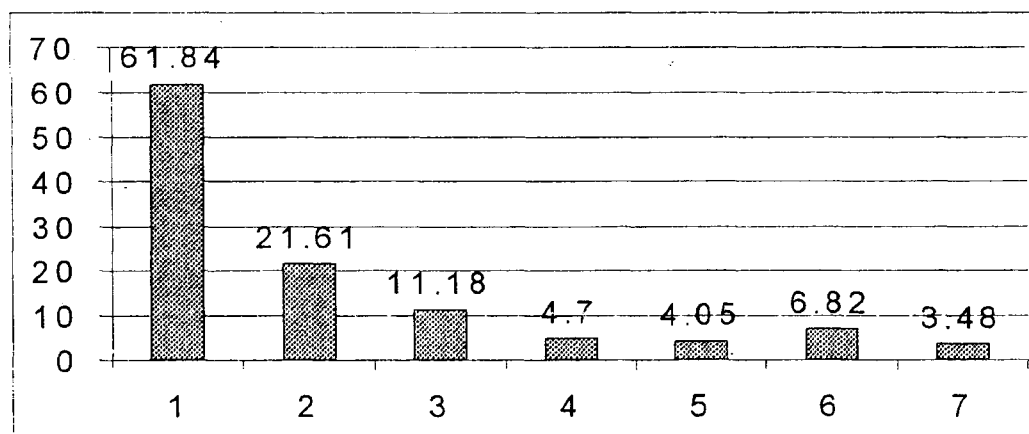

The above table shows that 61.84% of parents of tribal areas are sending their children to school for education purpose. The second response for "Better future" is 21.61% only. This shows that tribal parents are also interested in schooling their children for education and to have better future.

Tribal parents are sending their children to school for education to have a better future.

2. Are your children learning well?

Response	Number responded	%	Highest	%Dt.	Lowest	% Dt.
1. Learning Well	6015	77.30	Eas. Godavari	95.95	Visakhapatnam	64.67
2. Satisfactory	1480	19.02	Vizag	31.73	East Godavari	9.35
3. Not Learning well	251	3.23	Khammam	4.40	Vizianagar	0.47
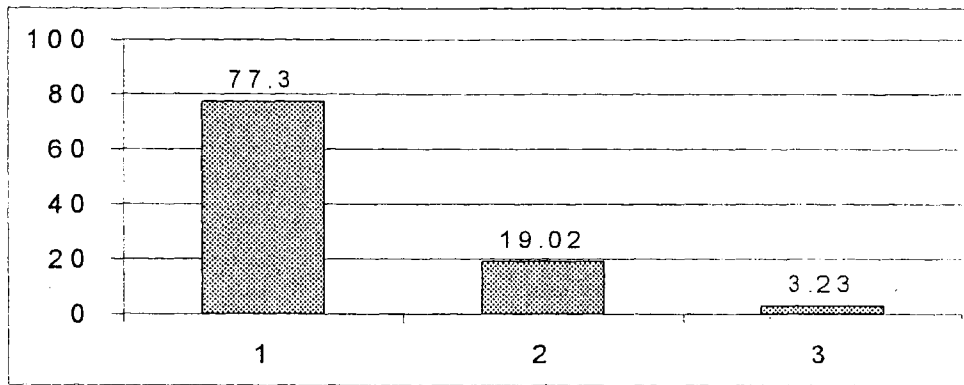

The above data shows that most of the parents (77.30%) are accepting that their children are studying well. Both East Godavari (95.95%) and Vizag (64.67%) which occupy the highest & Lowest expressed the same idea.

So it can be concluded that tribal children are also learning well.

> **Tribal parents opine that their children are learning well.**

3. Are there any other activities (co-curricular) conducted in schools apart from education?

Response	No. responded	%	Highest%	Dt.	Lowest%	Dt.
1. Songs & games	5940	76.34	Warangal	96.76	Vizag	48.02
2. Moral Stories	1124	14.45	Vizag	23.34	Mahaboobnagar	0.31
3. Health habits	592	7.61	Vizag	18.76	Mahaboobnagar	0.31
4. Cultural activities	440	5.65	Warangal	10.29	Vijayanagaram	0.70
5. General knowledge	236	3.03	Khammam	4.63	Warangal	1.18
6. Others	347	4.46	East Godavari	12.46	West Godavari	0.69
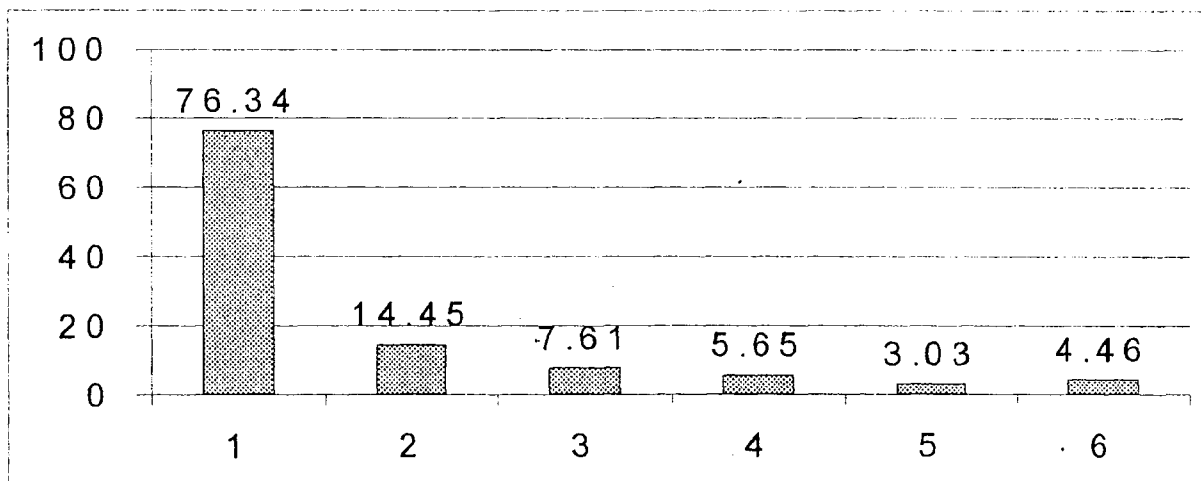

The above data shows that other activities along with education are also conducted in schools. 48 to 97% parents expressed the opinion that Songs & Games are given top most priority along with education.

> **Tribal area schools are also giving priority to songs & games in the teaching learning process.**

4. Are you feeling it difficult to send your children to school?

Response	No. Responded	%	Highest	%Dt.	Lowest	%Dt.
1. No Difficult	3031	38.95	Srikakulam	65.46	East Godavari	9.97
2. Difficult	4628	59.48	E. Godavari	90.34	Srikakulam	65.46
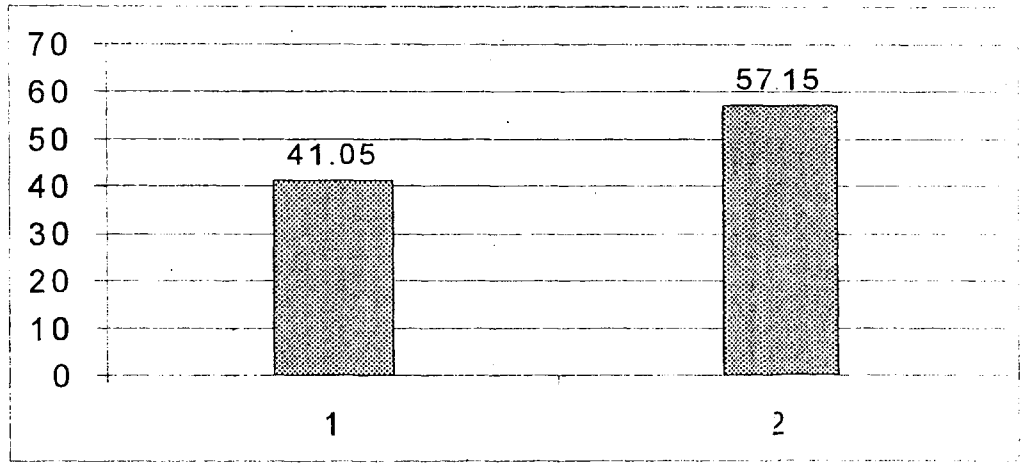

Most of the Parents (40%) from Tribal area opined that there is no difficulty in sending their children to school. The remaining parents (nearly 59%) who expressed difficulty for sending their children are also sending their children to schools.

Inspite of several difficulties Tribal parents are also sending their children to school.

5. Do you feel there is decrease in income by sending your children to school?

Response	No. responded	%	Highest	%Dt	Lowest	%Dt.
1. Decrease	3194	41.05	Srikakulam	52.7	East Godavari	10.9
2. No. Decrease	4447	57.15	E. Godavari	89.10	Srikakulam	46.91
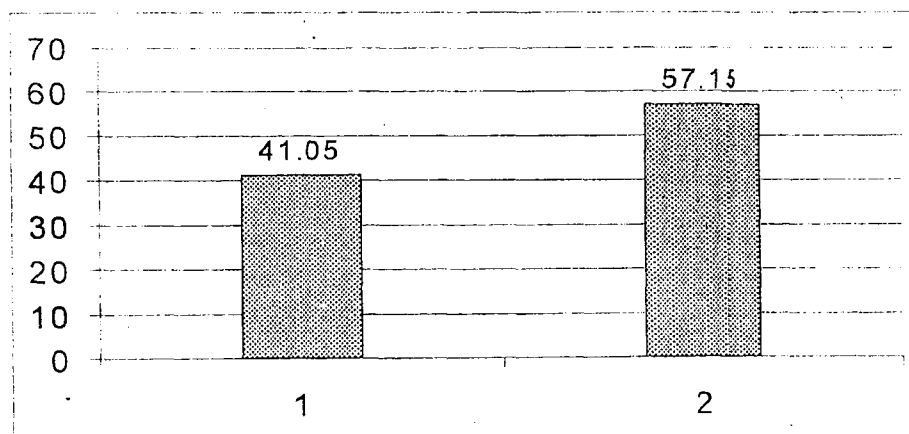

The above data shows that most of the parents stated that there is no decrease in income as a result of sending their children to school. Only in Srikakulam district, Tribal parents (52.71%) express that there is decrease in income as a result of sending children to school

Nearly 40% of the Tribal parents sample expressed that there is decrease in income as a result of sending their children to school.

6. What do you tink more about your School?

Response	No. responded	%	Highest	%Dt.	Lowest	%Dt.
1. More Phy.sical falities	2127	27.34	Warangal	51.76	M. Nagar	5.63
2. Good teaching Neded	1863	23.94	West Godavari	38.22	Vijayanagar	11.40
3. Punctuality impleiented	637	8.19	Khammam	11.45	East Gadavari	0.62
4. Responsibilities	693	8.91	Khamam	12.96	East Godavari	1.25
5. Avoid Punishmen	456	5.86	Khammam	8.2	Vijayanagar	0.23
6. Industrial care	7.26	9.33	Vizag	15.38	Vijayanagar	2.79
7. Others	2232	28.69	East.Godavary	81.31	Srikakulam	0.52
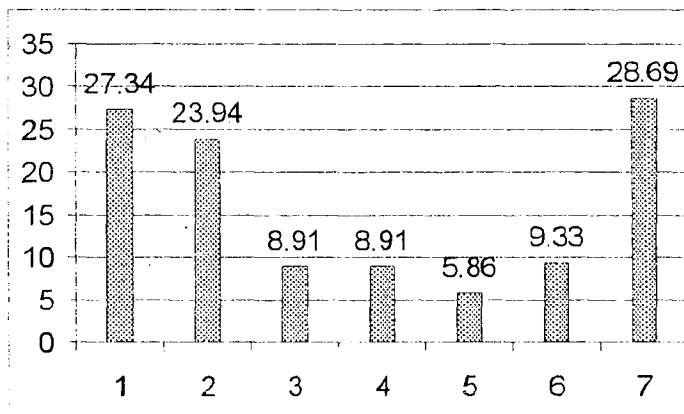

The above dai shows that major percentage of parents felt the need of improving infrastructureal facilities to the schol. Maximum response in this regard is from Warangal district and the least is from Mahaboobnagar.

Tribal parents ofne improvement in physical facilities & good teaching in tribal schools

---

Item no 7 to 1 relate the opinions of tribal parents who are not sending.

7. Why your childen are un-enrolled in/dropped out from the school?

Response	No. responded	%	Highest	%Dt.	Lowest	%Dt.
1. Sibling care	1685	21.66	West Godavari	33.02	Visakhapatnam	17.12
2. Ignorance of education	1064	13.67	West Godavari	21.51	Warangal	3.82
3. Economic reasos	2728	35.06	Warangal	51.47	West Godavari	18.08
4. Household wors	1267	16.28	Adilabad	25.03	Mahaboobnagar	8.13
5. Fear of punishmnts	264	3.39	Mahaboobnagar	5.94	West Godavari	0.92
6. School not accesible	208	2.67	Visakhapatnam	5.23	Vijayanagaram	0.23
7. Childhood marrige	42	0.54	Khammam	0.96	Adilabad	0.25
8. Low education :andards	137	1.76	Khammam	2.62	Adilabad	0.31
9. Physically handiapped	60	0.77	Srikakulam	1.68	Warangal	0.29
10. Others	1204	15.40	Srikakulam	24.80	Visakhapatnam	3.10
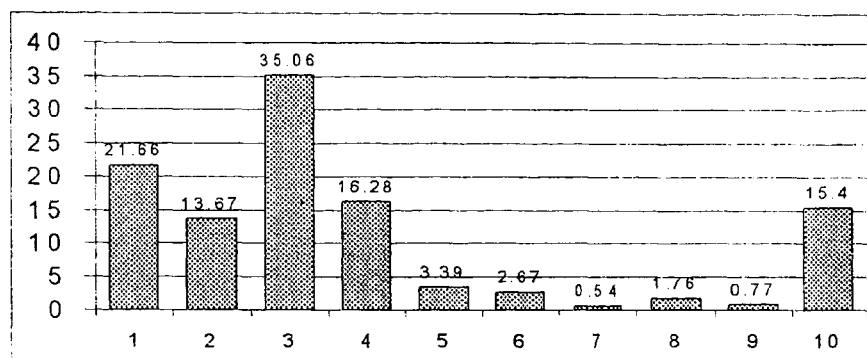

Reasons for un enrolled and dropouts in Tribal area 35.06% of the parents who did not send their children to school expressed the economic reasons. The majority of the parents are in favour of non-economic reasons. Warangal district with 51.47% is the highest and West Godavari with 18.08% is the lowest.

In Tribal areas, economic reasons is one among the other reasons. Other than economic reasons are predominent in Tribal area.

38.2% of parents are in favour of economic reasons in the state, it is 35.06% in Tribal areas.

8. Why are you sending your children to work instead of school?

Response	No. responded	%	Highest	% Dt.	Lowest	% Dt.
1. Economic Reasons	4780	61.43	Warangal	80.59	Srikakulam	39.56
2. Un interested school	1171	15.05	Srikakulam	21.78	Vijayanagaram	6.28
3. Other Reasons	1409	18.11	East Godavari	38.01	West Godavari	6.41

7.1 CORRELATION)F THE STUDY ON THE OPINIONS OF THE SAME SUBJECTS

i) Item 4 vs 6

High correlation is olained in the response to question 6 in case of parents who are feeling difficulty in sending heir children to schools and those not sending.

4. Are you feeling dficulty to send your children to school?

Yes   61,335 (59.99%)

No   39,406 (38.5%)

6. W hat more do youhink about your school?

	Details	Feeling Difficulty%	R1	No. - Difficulty %	R2
i	Need more Physal facilities	26.72	2	28.30	1
ii	Quality teachings needed	25.59	3	24.43	3
iii.	Teachers Punctulity should be developed	5.92	6	6.89	6
iv	Responsibility sould be developed	8.62	5	9.40	5
v.	There should nc be punishments	5.22	7	5.75	7
vi.	Individual care nould be taken	11.87	4	11.79	4
vii	Others	28.41	1	24.90	2
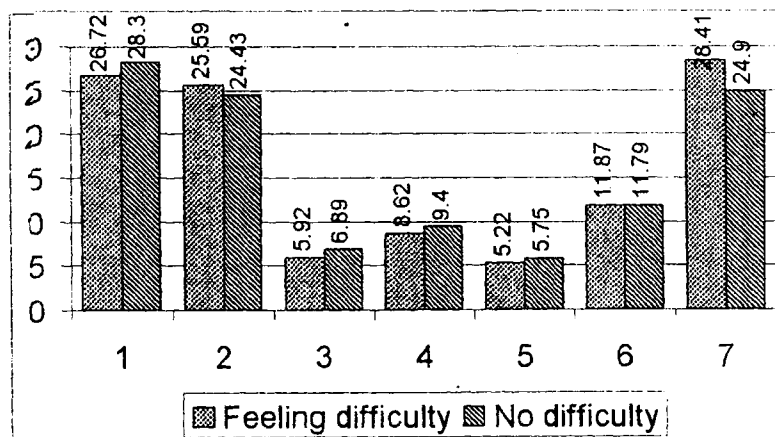

There is hih correlation P=0.96 (0.96) between the parents feeling difficulty & not feeling difficulty in seding their children to school.. Both of them expressed similar opinions about their school with reard to the components such as more physical facilities, good quality of teaching and individual care andoncern.

ii) Item 13 vs. 15

High co-relation is observed in the opinions expressed by literates and illiterates on item 13 vs. 15

13. Are you a literate?   **Yes** 54844 (54.2%)   **No** 46079 (45.8%)

15. What is your opinion on "Some parents sending children to work instead of school?

Details	Difficult	R1	No. Difficult %	R2
i. Compulsory for income	44.28	1	40.54	1
ii. Feel it is not good to send to work	36.66	2	39.54	2
iii. Ignorance on the importance of education	19.63	3	19.07	3

Coefficient of Correlation $p = 1.00$
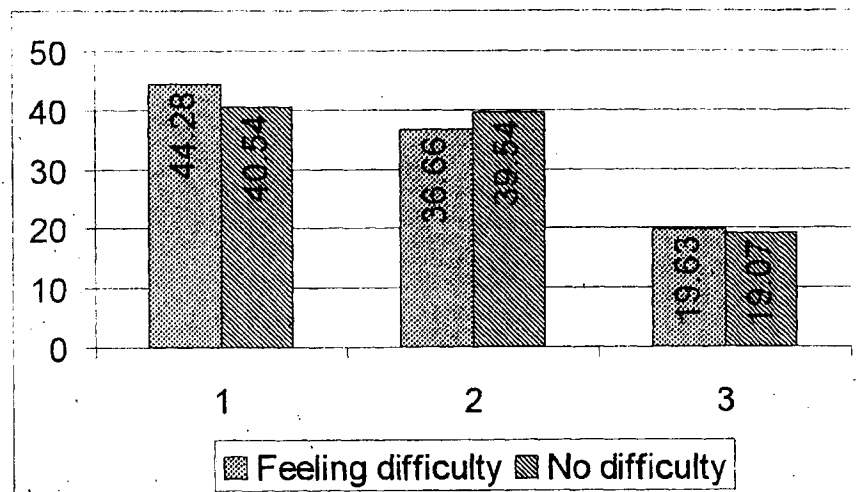

There is perfect correlation (1.00) between literate and illiterate parents on the opinion on "**sending children to work instead of school**". More number of illiterate parents (39.54%) expressed that it is not good to send children to work than literate parents (36.66%).

Prefect Correlation is also observed in the opinions expressed by literate and illiterate parents on the village schools and teachers.

13. Are you a literate?   **Yes**   54844 (54.2%)   **No**   46079 (45.8%)

16. What is your opinion on your Village school and teachers?

Opinions	Literate	R1	Illiterate	R2
i Fairly good	72.16	1	70.79	1
ii Satisfactory	23.75	2	22.82	2
iii. Not so Good	4.52	3	5.43	3
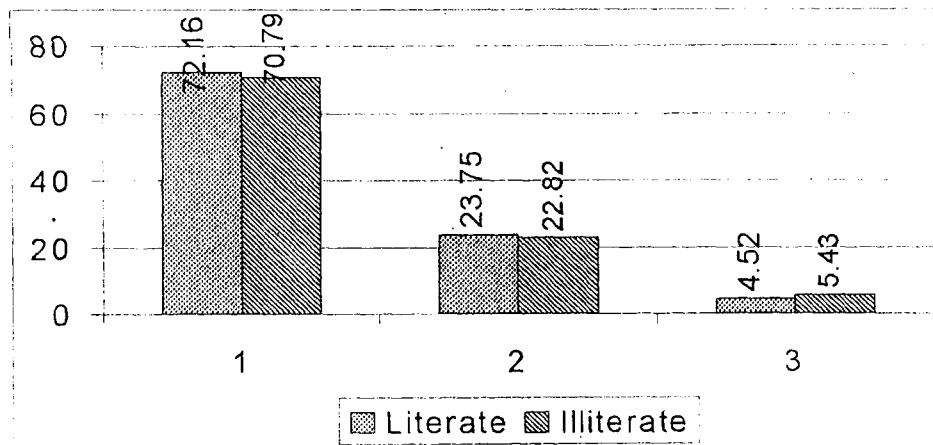

Coefficient of Correlation p=1.00 It shows that there is a perfect correlation (1.00) between literate parents & Illiterate parents in their opinions expressed on their Village school and teachers. Both the categories expressed satisfaction with regard to schools and teachers.

High correlation is observed in the opinions of literate and illiterate parents about the reasons for child dropout.

13. Are you a literate: **Yes** | 54844 (54.2%) | **No** | 46079 (45.8) |

17. What are the reasons for the children's dropout?

	Reasons	Literate	R1	Illiterate	R2
i	Peer Group effect	16.98	3	13.94	4
ii	Economic reasons	46.65	1	44.29	1
iii	Parents illiteracy	26.25	2	26.88	2
iv	In attractive school	13.21	4	15.44	3

Coefficient of correlation p = 0.80
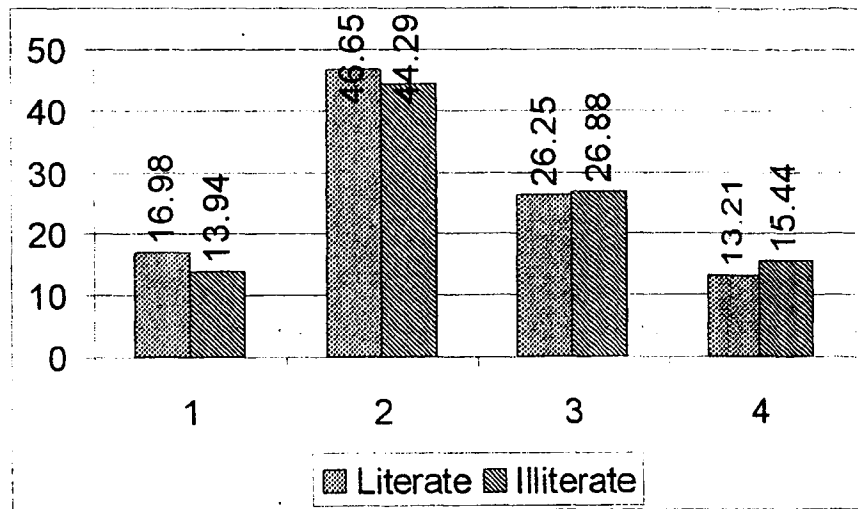

There is high correlation (0.80) in the opinions of literate parents & illiterate parents on the reasons for the children's dropout. More illiterate parents opined the reason as " unattractive school" for the children's dropout.

18. What is your name?   (Identify the gender Boy/Girl)

Boys | 58507 (62%) |

Girls | 35425 (38%) |

20. Why are you not going to school?

	Reasons	Boys %	R1	Girls %	R2
i	Migrations	9.33	5	9.28	5
ii	Economic reasons	37.83	1	31.68	1
iii.	Fear about scool	9.46	4	7.68	6
iv	Illiteracy of prent	12.33	3	12.69	4
v	Over aged	2.85	7	3.49	7
vi	Sibling care	8.13	6	16.49	3
vii	Others	20.53	2	18.67	2

Coefficient of Correlation p =0.75
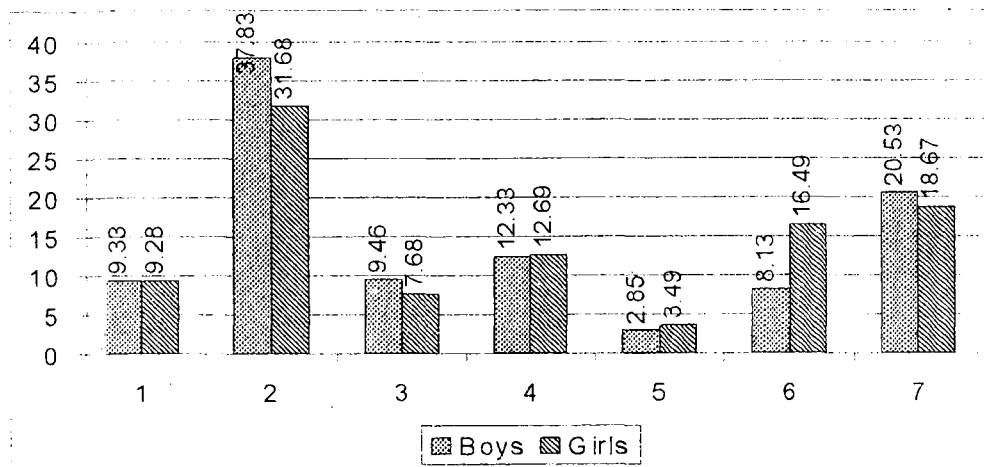

There is high correlation (0.75) in the opinions expressed by the out of school boys and girls about the reasons for not going to school. Fear of school (in case of boys) and illiteracy of parents and sibling care (in case of girls) stand causes for not going to school.

vi) Item 18 vs. 21

18. What is your name? (Identify the gender as Boys & Girls).

Boys   58507 (62%)

Girls   35425 (38%)

21. In which class have you dropped out?

Class		Boys	R1	Girls	R2
i.	I	8.20	6	9.23	7
ii.	II	15.34	2	15.73	1
iii.	III	17.25	1	15.04	2
iv	IV	14.79	3	13.15	4
v	V	14.74	4	13.78	3
vi	VI	10.12	5	10.66	5
vii	VII	6.66	8	7.04	8
viii	VIII	2.30	9	2.30	9
ix	IX	0.85	10	0.82	10
	Never enrolled	7.78	7	9.49	6

Coefficient of Correlation p=0.96
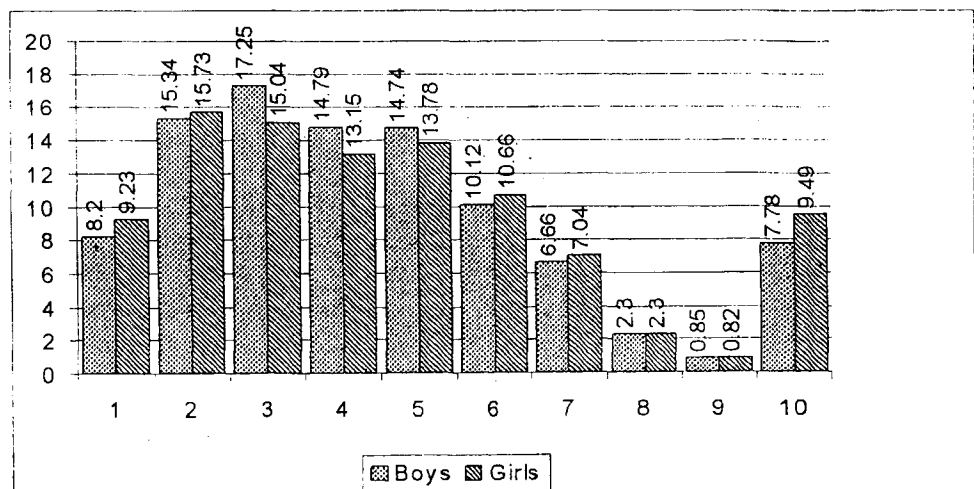

There is high Correlation (0.96) between boys and girls who are out of school with regard to the class in which they dropped out. Both the categories of children have dropped out in classes II and III.

18. What is you name ? (identify the gender as Boys/Girls)

Boys	58,507 (62%)
Girls	35, 425 (38%)

22. What are yo doing now?

	Nature of Work	Boys	R1	Girls	R2
i	House - hld work	22.00	2	36.84	1
ii	Agricultual work	33.30	1	27.18	2
iii.	Industrial vork	6.30	7	4.44	6
iv	Engaged 1 parents profession	13.23	3	10.75	4
v	Idle (No. vork)	6.58	5	5.65	5
vi	Sibling cae	6.50	6	12.77	3
vii	Construcon Work	4.72	8	2.86	7
viii	Hotel/sho work	9.89	4	2.71	8

Coefficient of Correlation p=0.64
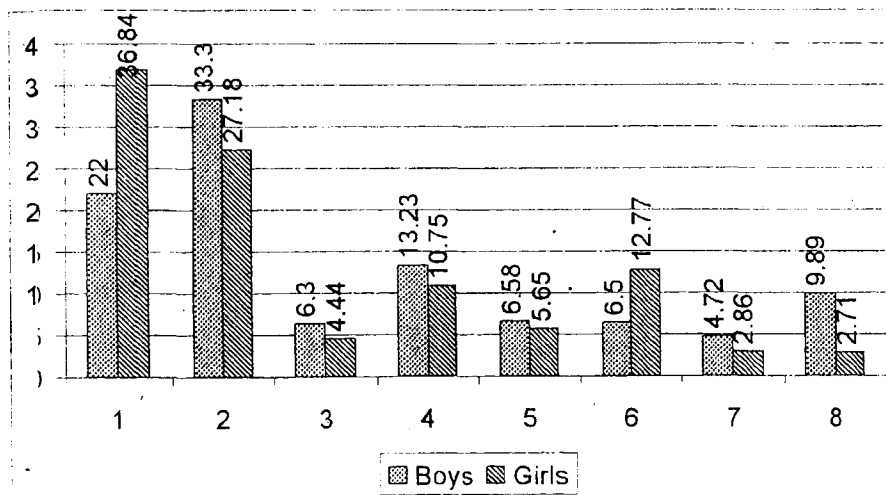

There is Igh positive correlation (0.64) between out of school boys and girls, with regard to their present work. Boys participation is higher in agricultural, industrial work, parents profession, construction wck and hotel/shop work. Girl, participation is high in household work & sibling care.

viii) Item 18 vs 26

18. What is your name ? (Identified the gender as (Boys/Grls)

Boys	58,507 (62%)
Girls	35,425 (38%)

26 How do you expect the school to be?

	Response Details	Boys	R1	Girls	R2
i	With Songs & Games	56.36	1	55.56	1
ii	With Good teaching	20.81	2	22.88	2
iii.	With more physical facilities	14.28	3	14.92	3
iv	Without punishments	9.22	4	9.31	4

Co-efficient of Correlation P=1.00
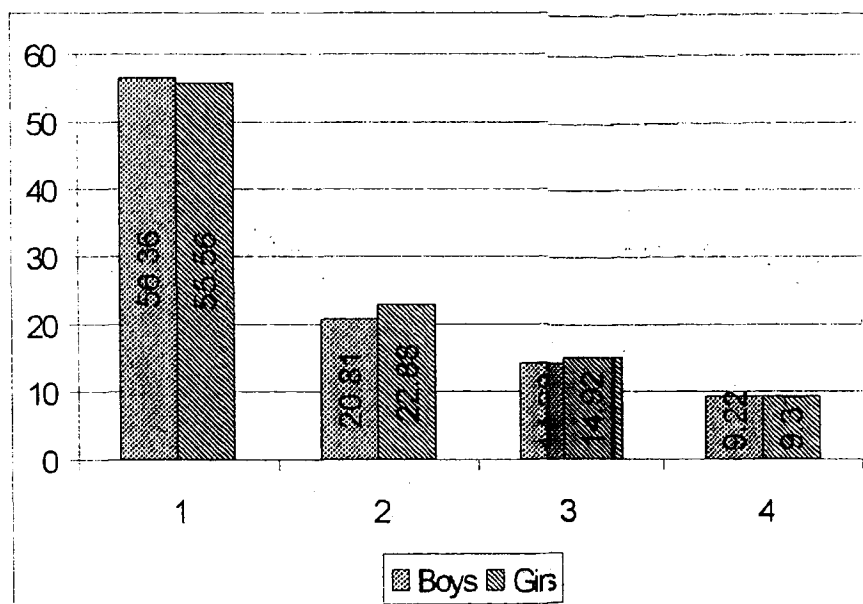

There is a perfect correlation (1.00) between out of school boys and girls about their expectations on school. Boys prefer games and songs, while Girls prefer good teaching without punishment and physical facilities.

18. What is your name ? (Idenfied the gender as (Boys/Girls)

Boys | 58,507 (62%) |

Girls | 35,425 (38%) |

27. Which thing you don't lik in the school?

Reasons		Boys	R1	Girls	R2
i	Serious study	7.57	3	17.67	3
ii	Non-local teacher	4.19	9	4.82	9
iii.	Punishments	22.16	2	20.12	2
iv	Heavy home work	8.21	5	8.93	4
v	Lack of teachers	7.75	6	8.83	5
vi	More school time	6.40	7	6.50	7
vii	Over practicing	3.76	10	4.34	10
viii	Recitations	5.78	8	6.21	8
ix	Lack of physical facilitie	8.56	4	8.45	6
x	Others	32.07	1	31.54	1

Coefficient of Correlation P=0.97
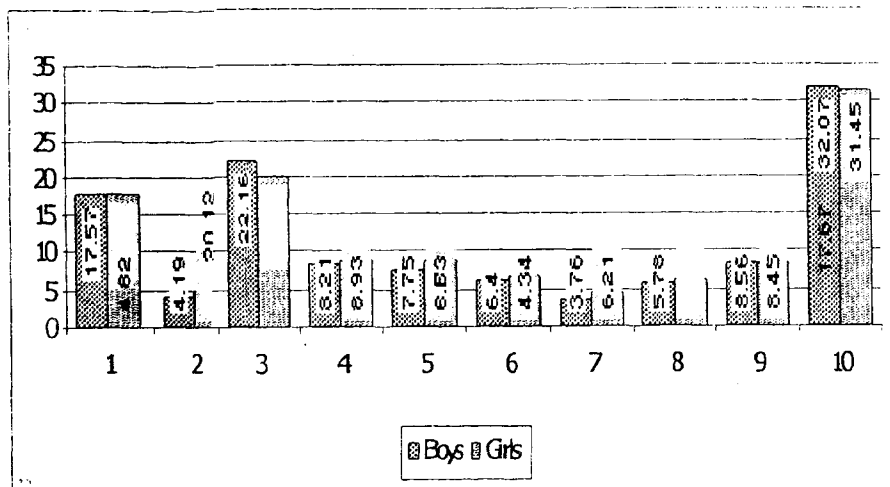

There is a high correltion between out of school boys and girls about the things they dislike in the school. Boys & irls dislike punishments, and serious study by sticking to school.

19. Have you ever gone to school?

           Dropout   79,181 (80.8%)

           Never enrolled   18,000 (19.2%)

22. What are you doing presently?

	Nature of Work	Dropout	R1	Never enrolled	R2
i	House hold work	27.64	2	27.26	2
ii	Agricultural work	31.25	1	30.50	1
iii.	Industrial work	5.78	7	4.82	7
iv	Engaged in Parents profession	12.66	3	11.27	3
v	No work (idle)	6.32	6	6.05	6
vi	Sibling care	8.66	4	9.86	4
vii	Construction work	3.97	8	3.96	8
viii	Work in Hotel / shop	7.26	5	6.21	5

Coefficient of Correlation p = 1.00
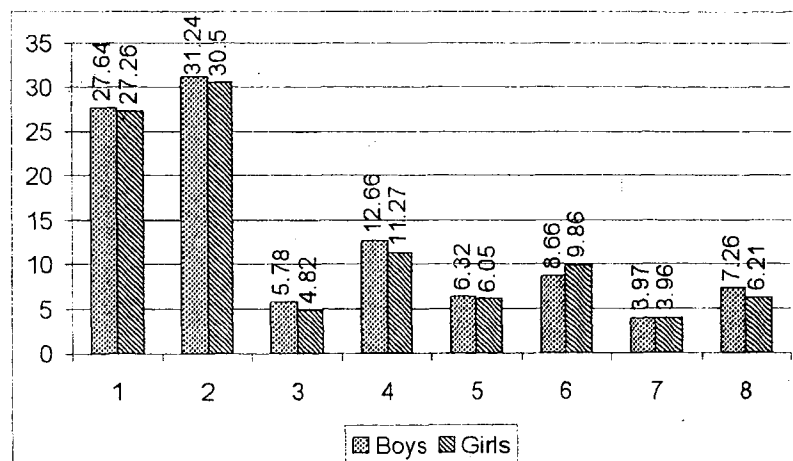

There is a perfect correlation (1.00) between out of school dropout children & never enrolled children with regard to their nature of work. Dropouts are in higher proportion in all works except sibling care.

xi) Item 19 vs 26

19. Have you ever;one to school?

Droupout	79,181 (80.8%)
Never enrolled	18,000 (19.2%)

26. How do you exect the school to be?

	Response	Dropout	R1	Never-enrolled	R2
i	With songs &games	58.02	1	49.39	1
ii	With best teaning	23.37	2	21.35	2
iii.	With more phsical facilities	14.60	3	13.33	3
iv	Without puni;nments	9.18	4	8.67	4

Coefficient of Correlation p = 1.00
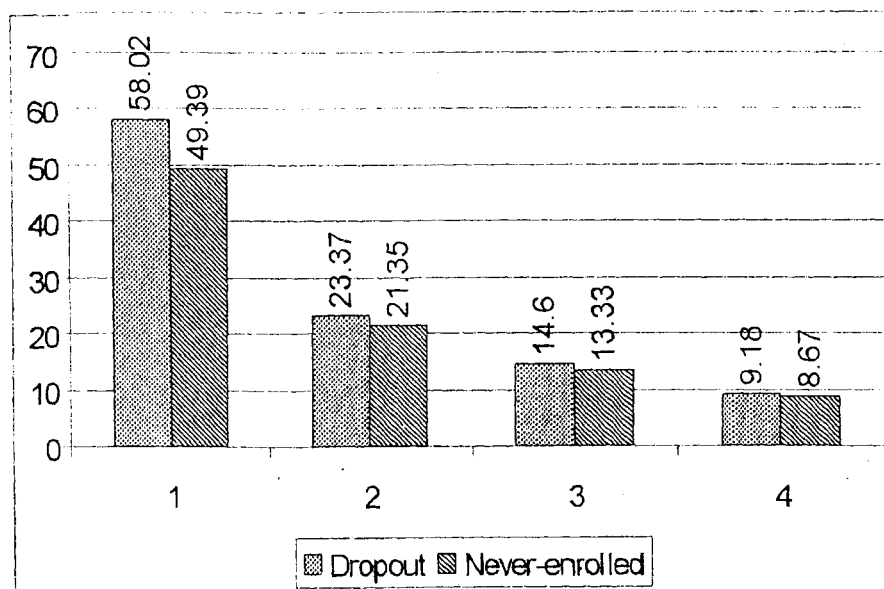

There is a perfec correlation (1.00) between dropouts & never enrolled children about the expectations on school i all aspects.

19. Have your ever gone to school?

Yes Dropout

79,181 (80.8%)

No. never enrolled

18,000 (19.2%)

27. Which thinks you dislike in school?

	Response	Drop out	R1	Never Enrolled	R2
i	Serious study	17.62	3	17.41	3
ii	Non local teacher	4.29	9	5.24	4
iii.	Punishments	22.00	2	19.93	2
iv	Heavy home work	8.40	5	8.49	5
v	Lack of teachers	8.22	6	8.53	4
vi	More school time	6.71	7	6.32	7
vii	Over Practicing	3.92	10	4.21	10
viii	Recitation	6.12	8	5.04	9
ix	Lack of physical facilities	8.78	4	7.03	6
x	Others	31.51	1	30.92	1

Coefficient of Correlation P = 1.00
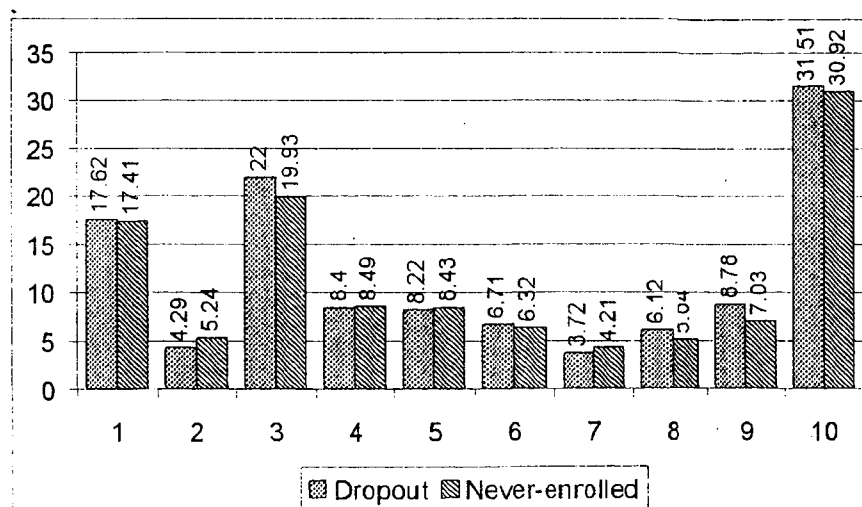

There is a high correlation (0.94) between dropout and never enrolled about their dislikes in school. Both felt that they dislike punishments, serious study, lack of physical facilities and over-practicing or work in schools.

8.0 Observations of the study

The following are the specific observations of the study:

❑ Voice of the parents is education and they are sending their children to school for education

❑ Most of the parents who are sending their children to school opine that their children learn well a school.

❑ Scholastic and non-scholastic activities like songs and games, moral stories are going on well in the school.

❑ Parents are interested in sending their children to school inspite of many difficulties.

❑ There is no decrease in the income of parents as a result of sending their children to school in majority cases.

❑ Parents opined both infrastructural facilities and qualitative instruction are necessary to schools.

❑ Economic causes are not the real barriers for enrolment and retention.

❑ Most of the parents who do not send their children to school mention economic causes as a routine response.

❑ No parent sends his/her child to work willfully..

❑ Parents who do not send their children to school also have good opinion towards school.

❑ Parents are ready to send their children to school, if their children so desire.

❑ Poverty is not the real hurdle for education.

❑ Literacy of the parent is no bar for children's schooling.

❑ Inspite of the inconvenience, majority of the poor parents are sending their children to school.

❑ Poor parents opined that it is not proper to send children to work.

❑ Poor parents expressed good opinion about their village school and teachers as well.

❑ Parents illiteracy, peer group effect and unattractive schools are the other causes for dropouts.

❑ The number of dropouts is more than the number of unenrolled children.

- ❑ Right place to the child is the school.

- ❑ More dropouts are at Class - III level.

- ❑ About 50% of out of school children are in agriculture and household work.

- ❑ Out of school children express their dislike on their present work.

- ❑ Majority of the school-age children like schooling than work.

- ❑ Most of the out of school children are willing to go to school.

- ❑ Out of school children opined that school should be a place of activities with songs, games and good teaching environment.

- ❑ Teachers should avoid punishments and they have to provide attractive atmosphere in the school.

- ❑ Tribal parents are also sending their children to school for education to have better future.

- ❑ Nearly 40% of the tribal parents' sample expressed decrease in income as a result of sending their children to school.

- ❑ Tribal parents expressed for improvement in physical facilities and good teaching in tribal schools'.

- ❑ Besides economic causes, un interesting school also stands a cause for not sending children to school.

- ❑ Tribal parents are also not happy to send their children to work.

- ❑ 11% of tribal parents expressed that school is not good.

- ❑ Tribal parents are also ready to send their children to school, if the children desire so.

- ❑ Nearly 40% of the poor illiterate tribal parents are sending their children to school.

- ❑ Illiteracy of parents, unattractive school environment and peer group effect also stand causes for school dropouts in agency areas.

- ❑ School dropouts in tribal areas are more at Class-II level.

- ❑ The cross-sectional analysis on the opinions expressed by the subjects belonging to different variables reveal the fact that there are no difference in their opinions on all the items of the schedules.

9.0 FindingsConclusions and Action Leads

The analysis of daitarought to light many issues related to UEE, which are as follows:

9.1 Based on the opiniias expressed by the parents who are sending their children to schoolthe following conclusions are drawn.

* 62.85% of the parets expressed that they are sending their children to school for acquing knowledge.

* 15.39% of parents xpressed that Education is not for employment. This reveals the ict that Education is meant for acquisition of knowledge only.

* Majority of the parnts (78.82%) stated that children are studying well in the school and tey are secure.

* Of the various clasroom activities viz. Organization of games and songs, moral storie, Health Education and cultural activities, 78.86% of parents favoure organization of games and songs activities more in number to makthe class room more interesting.

* Even though ther is difficulty in sending their children to school, parents prefer scholing and they are willing to send the children to school. It is a strikng factor.

* Parents expressedome difficulty in sending their children to school but felt that there ; no decrease in their income, in this context.

* On the whole the arents are willing to send their children to school.

* Parents expressecgood opinion about the functioning of school.

Action Leads:

For strengtheninghe school functioning, the Teachers have take up the following steps.

* Conduct PTA Metings duly inviting the parents who do not have good opinion abot school. Through constant persuasion these parents should be made t realise the importance of education and they may

be motivated to send their children to scIools by correcting their opinions.

* The services of Local Interested educated youth and others interested in school development should be utilised fo the school improvement besides the services of S.E.C.

* Songs and dance and also joyful atmosphere facilitates good teaching learning environment. Teaching should be a pleasurable activity for the child.

* The teacher should take care of each child in the class room.

9.2 **According to the opinions expressed by the parents who are not sending their children to school the following are the finding and conclusions.**

* Non economic reasons are predominantly standing hurdle for not sending their children to school, like:

  ❑ Sibling care (23.87%)

  ❑ House hold work (16.88%)

  ❑ Fear of Punishments (3.34%)

  ❑ It is found that the parents of the dropped out children due to non-economic causes, are sending their children to work for income as they discontinued the school.

  ❑ 81.31% of the parents who are sending their children to work expressed unhappiness in doing so.

  ❑ 74.61% of the parents favoured schooling of their children.

* 68% of parents are ready to send their chidren to school.

* 11.39% of parents are not sending their children to school, due to lack of awareness on the importance of education.

Action Leads:

* The services of the parents who are sending their children to school inspite of poor economic conditions, may be taken to interact with the parents who are not sending their children to school, to motivate them.

62

* ECE centres and A.W centres, support may be taken to solve the problem of sibling care to the extent possible.

* Teaching learning activities should be made pleasurable for the child duly avoiding punishments of any kind.

* Suitable strategies should be evolved on the irregular students by the teacher concerned, to ensure their participation.

* The teacher should act as a catalyst to admit the unenrolled and dropped out children by contacting the parents who are willing to send their children to school.

9.3 Based on the opinions expressed by the poor parents who are sending their children to school, the following conclusions are drawn:

* 60.58% of the poor parents inspite of their economic backwardness are sending their children to school.

* 56.70% of the parents expressed the view that children are withdrawn from the school on other than economic problems and engaging them in work.

* 11.39% of the parents are not sending their children to school due to ignorance of the value of education.

* 93.78% of the parents have good opinion about their village school and Teachers.

* 55.74% of children are dropping out due to other than economic reasons: (viz.)

  26.21% due to parental illiteracy,
  15.48% due to effect of peer group,
  14.05% due to unattractive schools

Action Leads:

* Conducting SEC meetings regularly, and interacting with the parents and the children to motiviate them, will go a long way in achieving UEE.

* Organising Gramasabhas, Melas and community festivals will facilitate in bringing all children to school.

* The teachr should play a multi-dimentional role in bringing unenrolled and droped children to school. The findings focus more on the role of teaches and the parents have a very good opinion on them.

9.4 Based on the opinions expressed by the out of school children, the following are the findings and conclusions:

* Of the total out of school children sample involved in the study. 77.34% belong to dropout category.

* 67.97% of children dropped out due to other than economic reasons.

* 66.6% of the children are dropping out without completing primary education upto class V

* More children are dropping out in class III.

* Of the total out of school children around 29.9% are engaged in agricultural work and 26.59% in Household work.

* 70.32% of out of school children are willing to join the school.

* Of the total out of school children 54.09% of children desired teaching
 · through games and songs, 20.84% desired good instruction.

* 20.74% of the children are against punishments in the school.

As children are willing to join the school and parents are willing to send them to school, teachers need to take suitable action with the cooperation of SEC and NGO's and other interested groups to enrol them and achieve cent percent enrolment. A perfect postive correlation is observed in the opinions expressed by the subjects involved in the sample belonging to plain areas and tribal areas, and also among other categories as sex, literacy etc. These findings and conclusions hold good in case of tribal areas also.

9.5 Issues brought to light for discussion to seek solutions.

The study results have raised the curtain with regard to certain hitherto hidden issues for discussion and debate of teachers, parents and other educational workers to find solutions which can be mentioned as follows :

- Most of the parents expressed the view that children learn well at school. In this connection one has to think as to how to enlist the services of such parents for school improvement.

- Organisation of games and songs make learning joyful. How to plan them?

- Parents stated that there is no decrease in their income as a result of sending their children to school. Then what is standing in the way of their children schooling?

- Punctuality related to teacher and the school is an issue raised by the parents. How to ensure this?

- Parents and children are against punishments in schools. How to avoid them?

- Economic causes are not the real barriers for enrolment and retention of children. Then what is standing in the way of children enrolment?

- Some of the very poor parents are sending their children to schools, why not other parents of better economic status.

- Unwillingly many parents are sending their children to work instead of school. How to tackle this issue?

- Parents are ready to send their children to school, if their children so desire. How to encash this?

- Poverty is found to be no bar for children's schooling. How to utilise this?

- Literacy is no bar for children's' schooling. How to motivate parents to send their children to school?

- If children stop working, parents will get work and better wages, resulting in their economic development and children can have schooling. Can we fully convince the parents for their children's schooling?

- Parents have good opinion about the school and the teachers How to encash this for achieving cent percent enrollment?

- How to make the school interesting to attract children?

- The number of dropouts are more than unenrolled. How to tackle this issue?

- More dropouts are at Class III in plain areas and Class II in Tribal areas. How to arrest this? Is there any alternative for primary education?

- Majority of the schoolage children arewilling to go to school. How to bring them to school?

- When parents are willing to send their children to school and the children are willing to attend the school, where does the problem lie? This creates a doubt with regard to the functioning of the teacher and the school. What role the teacher, the school and the community play in this context.?

- Considerable number of children are dropping out on the cause of house hold work. How to arrest this? What is the alternative?

9.6 Follow-up action

1 Similar reports should be prepared at district and mandal levels.
2 To organise state-level, district-level, mandal-level and village-level parental awareness programmes on children enrolment.
3 Use Mass Media to avoid unenrolment and dropout.
4 Enforce child labour laws.
5 Counselling programme should be organised at field level to Mothers' Groups and Self Help Groups to avoid household work to their children.
6 Training programme may be organised for teachers to adopt play techniques at school level to arrest dropouts and improve quality.
7 The physical facilities should be improved in all the schools with the cooperation of School Education Committees.
8 Special counselling should be organised to teachers to avoid punishments in school.
9 To base future planning on the findings of the study.
10 To discuss the entire survey report at IC level to develop awareness among Teachers, parents and field functionaries.

Questionnaire - I

(1-6) are related to the opiions of the parenets who are sending their children to schools

1. Why are you sending yor children to school?
    1. For education
    2. For best future
    3. For job porpose
    4. For problem-solvig
    5. For self-respect
    6. To lead independet life
    7. Others

2. Are your children learnig well?
    1. Learning well
    2. Satisfactory
    3. Not learning well

3. Are there any other actiities (co-curricular) conducted in schools apart from education?
    1. Songs and Games
    2. Moral Stories
    3. Health Habits
    4. Cultural Activitie:
    5. General Knowlede
    6. Others

4. Do you feel it difficult ɔ send your children to school?
    1. Difficulty
    2. No Difficulty

5. Do you feel any decreae in income by sending your children to school?
    1. Decrease in Incoie
    2. No Decrease in lcome

6. What do you think moɔ about your school?
    1. More Physical failities
    2. Quality Teachingɔf needed
    3. Punctuality shoul be developed
    4. Responsibility sbuld be developed
    5. Teaching withoupunishments
    6. Individual care tɩbe taken
    7. Others

Questionnaire - 2

7 -11 : Are related to parents opinion who are not sending their children to school?

7. Why your children are unenrolled/dropped out from the school?
    1. Sibiling care
    2. Unknowing of the importance of education
    3. Economic Reasons
    4. Household works
    5. Fear of Punishments
    6. School not acessible
    7. Early Marriages
    8. Low educational standard
    9. Physically Handicapped
    10. Others

8. Why are you sending your children to work instead of sending them to school?
    1. Economic Reasons
    2. Not interested in school
    3. Others

9.Do you feel unhappy in sending your child to work instead of sending to school?
    1. Unhappy in sending their children to work
    2. Happy in sending their children to work

10. What do you think about your village school?
    1. Feeling good
    2. Not feeling good
    3. No knowledge about school

11. Do you send your children to school desire?
    1. Willing
    2. Not willing

Questionnaire - 3

12 -17 related to the parents who are very poor and sending their children to school:-

12. Are your children studying in school?
    1. Studying
    2. Not studying

13. Are you a literate?
    1. Yes - literate
    2. No - illiterate

14. Do you feel any inconvenience in sending your children to school through your poor?
    1. Yes - inconvenience
    2. No - convenience

15. What is your opinion on some parents sending to work instead of sending them to school?
    1. Compulsory for income
    2. Felt it is not good to send to work
    3. Do not know the importance of education

16. What is your opinion on your village school and teachers?
    1. Fairly good
    2. Good
    3. Not so good

17. What are the reasons for the children's drop out of school?
    1. Peer group effect
    2. Economic reasons

Questionnaire - 4

18 -27 Children out of school and Dropouts

18. What is your name?

    Boy   Girl

19. Have you ever gone to school?

    1. Yes (Drop-outs)

    2. No (Never Enrolled)

20. Why are you not going to school?

    1. Migration

    2. Economic reasons

    3. Fear about school

    4. Illiteracy of parents

    5. Above age/over aged

    6. Sibling care

    7. Other

21. In which class have you dropped out?

0	1	2	3	4	5	6	7	8	9	10

22. What are you doing now?

    1. Household works

    2. Agricultural works

    3. Industrial works

    4. Professional

    5. No work (idle)

    6. Sibling care

    7. Building construction work

    8. Others (Hotels, shops)

23. Do you like your present work?

    1. Yes

    2. No

24. Do you like to go to school?

    1. Yes

    2. No

25. Do you go to school, if your parents agree to send?

    1. Yes

    2. No

26. Which things you do not like in the school?

    1. Serious study

    2. Non local teacher

    3. Punishments

    4. Heavy home work

    5. Insufficient teachers

    6. More school time

    7. Scribbling

    8. Recitation

    9. Insufficient physical facilities

    10. Other
