## FOREWORD

The presentation of final and complete data under the 7<sup>th</sup> All India Educational Survey is a matter of great satisfaction for NCERT. The data presented in this and the accompanying volumes were collected in September 2002. Compared to the 6<sup>th</sup> Survey data, which were collected in September 1993, the 7<sup>th</sup> Survey data have many new features. Some of these new features are enrolment figures and the number of teachers in unrecognized schools; enrolment of children with disability in recognized schools; enrolment in pre-vocational and vocational courses; enrolment figures and number of teachers in Maktabas, Madrasas and Sanskrit Pathshalas; and the number of para teachers and their qualifications in recognized schools. We hope that the inclusion of these new categories of data will enable scholars and policy makers to widen the scope of their deliberations on the problems and challenges which face educational planning in India.

Ever since the series of educational surveys started in 1957, the statistics collected under these have been a matter of great interest, and so has been the methodology used for the collection of data. As one might expect, a large number of agencies are involved in this gigantic exercise. The process of collection of information also involves training programmes for survey officers and teachers. The scrutiny and validation of the data comprise a huge responsibility for the Department of Educational Survey and Data Processing at NCERT. Members of the staff of this Department deserve our appreciation for fulfilling their role in a national-level task with commitment, despite many obstacles and difficulties which inevitably beset an exercise of this magnitude. NCERT also records its deep appreciation for the cooperation extended by the National Informatics Centre (NIC) and the Departments of Education in all the States. We take this opportunity to thank our colleagues in the Ministry of Human Resource Development for providing administrative and financial support to the 7<sup>th</sup> Survey. The preliminary data based on the present survey were published under the title, *Provisional Statistics* in June 2005. This publication has received wide-ranging attention which, we are confident, will now be shown for the present volumes.

We earnestly hope that the publication of these nine volumes will be positively received in the community of educational researchers, administrators and planners. We will be grateful for responses and suggestions. These will enable us to improve the 8<sup>th</sup> All-India Educational Survey exercise which is to be initiated shortly. It is an established fact of educational planning that the quality of data influence every aspect of policy and design of institutional reforms. NCERT stands committed to providing a reliable picture of the school education system so that India's attempts to reform the system can succeed.

## **PREFACE**

The 7<sup>th</sup> All India School Education Survey was initiated by the National Council of Educational Research and Training with reference date as on 30<sup>th</sup> September 2002 with the objective of creating a uniform school database for the country and making the data available in print and magnetic media for educational planning and other purposes.

The Department of Educational Surveys and Data Processing (DES&DP), NCERT undertook the task of designing of tools in collaboration with National Informatics Centre (NIC). The feedback received from various government departments, users, researchers and our past experience led to the development of tools having several data items. Subsequently, guidelines for State Survey Officers (SSOs) were prepared and a training programme for them for conducting the survey was organized. The printing and distribution of tools for collecting information from schools/blocks/districts/states and organizing training of a large number of officials and teachers was a mammoth task. The training was organized at different administrative units for explaining concepts, definitions, collection of data, procedures for manual scrutiny and handling of filled-in tools.

Many states/UTs gave high priority to this survey work and initiated steps for collection of data as per time schedule. However, few states undertook the survey activities quite late due to reasons, which were specific to that state. Further, under-estimation of quantum of work by some data entry agencies resulted in the discontinuation of work half-way. These factors contributed towards delay in designing of the software and processing of data at different state National Informatics Centres.

The generation of reports was a learning experience. It involved a good amount of thinking and work within department. The first report for "Provisional Statistics" was generated in December 2004 on the basis of the data collected through a flash sheet attached with some of the tools. The reconciliation of this data with other sources of information involved a good deal of correspondence with state/UT governments. The 'Provisional Statistics' was made available to the nation in June 2005.

Generation of final tables was a more difficult task as the software developed for this purpose could not generate error free, consistent and compatible state and national tables. This led to processing of data a number of times by NIC to incorporate corrections suggested by NCERT faculty after checking and rechecking of tables. Though the completion of the project has taken considerable time, yet the duration has been reduced as compared to previous surveys. Now the final national data is available in nine volumes each one covering comprehensively an important aspect of school education.

I am grateful to all State Survey Officers and State NIC officials for putting in hard work and extending their cooperation for the completion of the project. I compliment Dr. Gautam Bose, DDG, NIC, Mr. A.K. Jain, Technical Director, NIC, Delhi and Mr. Rajesh Bahadur, Technical Director, NIC, Shimla for their initiatives to take the project to its logical end. Mr. Shailesh Srivastava, NIC, Lucknow deserves special thanks for his acumen in handling voluminous data and producing error free reports.

I take the opportunity to thank Prof. R. R. Saxena, former Head, DES&DP for initiating the project. My thanks are also due to Prof. Stavir Singh, Ex-Head, DES&DP who shouldered the responsibility of data collection and processing in a meaningful manner. All faculty members in the department, survey associates engaged in this project and the office staff deserve deep appreciation for putting in hard work and extending their fullest cooperation and support to this project.

I take this opportunity to thank Prof. Krishna Kumar, Director, NCERT for his valuable guidance and interest in this project. My thanks are due to Prof. G. Ravindra, Joint Director and Ms. Anita Kaul, Secretary, NCERT for their support from time to time. I am sure that the outcome of 7<sup>th</sup> AISES will provide the much needed exhaustive data to planners, academicians, administrators and researchers engaged in the pursuits of advancement in education for the benefit of our children.

## INTRODUCTION

The contribution of the surveys at micro as well as at macro-level planning of school education is well recognised. Over a period of time, educational surveys have acquired important status and are a major source of educational statistics for different organisations at national as well as at international levels. The present All India School Education Survey, seventh in the series of All India Education Surveys(AIES), was conducted with reference date as on 30<sup>th</sup> September 2002. The data from States/ Union Territories were collected with the active participation of states. The survey covered 10.31 lakh schools functioning in 5.87 lakh villages and around 5.3 thousand towns/urban areas. It also provided information about 55.3 lakh teachers imparting education to more than 20 crore pupils in the country. The survey is comprehensive in its scope as it covers all aspects of school education in all States/UTs. It provides certain basic inputs such as identification of school-less habitations, their population and distance at which schooling facility is available in addition to number of other important educational statistics required for planning and management of school education. The present survey also covers some new features of the emerging areas of concern whose details are given in subsequent section. The entire national data of the survey has been presented in nine volumes mentioned in earlier part of this volume.

### **Objectives of the 7<sup>th</sup> Survey**

The broad objectives of the survey are as follows:

1. To assess the availability of schooling facility for primary, upper-primary, secondary and higher secondary stages within the habitations (including SC/ST) in different population slabs. In case the facility is not available within the habitation, the distance at which it is available.
2. To assess availability of basic facilities in the recognised schools such as building, classrooms, drinking water, electricity, urinals, lavatories, furniture for students and teachers, incentive schemes and beneficiaries, medical check-up and vaccination/ inoculation of students.
3. To know class-wise enrolment (Total, SC, ST, educationally backward minority community and children with disabilities by sex) in primary, upper primary, secondary and higher secondary stages of recognised schools
4. To know the number of children with disabilities enrolled at primary, upper primary, secondary and higher secondary schools.
5. To find out the subject-wise enrolment, by sex in academic stream and availability of qualified teachers at higher secondary stage.
6. To know about the availability of science laboratory and library, physical education, teachers, librarians, guidance counsellors, non-teaching staff in the recognised secondary and higher secondary schools.
7. To assess the position of teachers (by sex and by social category) with academic and professional qualifications at different school stages in recognised schools.
8. To find out distribution of recognised schools with regard to languages taught and languages used as medium of instruction.

9. To find out the enrolment and teachers in primary and upper primary classes of unrecognised schools.
10. To assess the position of enrolment and instructors in schools/centres under Education Guarantee Scheme and Alternative and Innovative Education (EGS&AIE).
11. To find out number of children and teachers by sex in pre-primary schools.
12. *To know the disability-wise enrolment, teachers, structural facilities, equipments and instructional material in special schools.*
13. To find out the position of enrolment and teachers in oriental schools, viz., *Maktabs, Madrasas and Sanskrit Pathshalas.*
14. To estimate the class-wise enrolment by single age, new entrants, promotees, repeaters, dropouts and gap between enrolment and attendance in the context of Universalisation of Elementary Education (UEE).

## Tools

In order to achieve the above objectives, the following eight tools were used for the collection of data.

Name of the Tool	To be Canvassed in
1. Village Information Form (VIF)	All Villages
2. Urban Information Form (UIF)	All Urban Areas
3. School Information Form-1 (SIF-1) primary schools	All recognised primary and upper
4. School Information Form-2 (SIF-2)	All recognised secondary and higher secondary schools
5. College Information Form (CIF) XI and XII	All degree colleges with classes
6. Special School Information Form (SSIF) children with disabilities	All special schools meant for
7. State Policies and Practices in School Education (SPPSE)	All States and Union Territories
8. Post Enumeration School Information Form (PESIF)	On an average 50 schools per district

Note: A detachable flash sheet was attached to the tools i.e. VIF, SIF-1, SIF-2 and CIF for bringing out the report of 'Provisional Statistics'.

## Some New Features of the 7<sup>th</sup> Survey

Some new data items, in addition to the data items of 6<sup>th</sup> All India Educational Survey, have been included to provide a comprehensive picture of the school education in general and elementary education in particular. These are as under:

1. Enrolment of educationally backward minority community (Muslims) in recognised schools,
2. Enrolment of children with disability in recognised schools,
3. Type of mid-day meal served in recognised primary schools,
4. Para-teachers and their qualifications in recognised schools,
5. Non-teaching staff in secondary and higher secondary schools,
6. Pre-vocational and vocational courses with enrolment in secondary and higher secondary schools respectively,
7. Enrolment and teachers in unrecognised schools,
8. Enrolment and teachers in Alternative Schools and Alternative & Innovative Education Centers,
9. Enrolment and teachers in oriental schools (*Maktabs, Madrasas and Sanskrit Pathshalas*),

10. Enrolment, teachers and structural facilities in Special Schools,
11. State policies and practices in school education

Further, the Post Enumeration Survey has been undertaken with the twin objectives:

1. To make an assessment of quality of 7<sup>th</sup> All India School Education Survey.
2. To estimate the class-wise enrolment by single age, promotees, repeaters, dropouts and gap between enrolment and attendance in the context of UEE.

The first objective is achieved through re-collection of data on some of the items included in the first phase of the survey from a sample of schools. To achieve the second objective data have been collected on certain additional items such as repeaters, new entrants, enrolment and attendance of students on the day of visit to school by enumerator.

Web technology using the NICNET facility was employed for monitoring the progress of different survey activities up to the district-level. For this purpose, the NIC developed a website (<http://ednsur.ncert.nic.in>). The NIC District Informatics Officer regularly updated the website on the basis of progress reports submitted by the District Survey Officer. The NCERT, NIC and each State/UT utilised this facility to monitor the progress of activities, and to take appropriate measures.

### **Operational Aspects of the 7<sup>th</sup> Survey**

*At the national level, the Union Ministry of Human Resource Development (MHRD), National Council of Educational Research and Training (NCERT) and National Informatics Centre (NIC) were responsible for the survey. MHRD provided funds and administrative support for this project. NCERT undertook the responsibility of providing all academic inputs, management and coordination of survey activities, across states & UTs and preparation of the survey reports. NIC was assigned the responsibility of development of software for computerisation of data and generation of tables. Web hoisting of data was also the responsibility of NIC. An Advisory Committee under the Chairmanship of Director, NCERT was constituted to provide academic and administrative support in the execution and monitoring the progress of the survey.*

In each State/UT, a State Survey Unit was created and the State Survey Officer (SSO) was made responsible for the execution of all survey activities. Further, in the States, District Survey Unit was created in each district. In case of UTs, District Survey Units were not created and the work was executed by the UT Survey Unit. The District Survey Officer (DSO) was responsible for all the survey activities in the district. The Block/Town level Education Officer was responsible for data collection with the help of Headmasters/Principals. In case of class I cities, the data collection was organised at the Ward level. A Headmaster/Principal in the Ward was made in-charge for this purpose. The Block/Town level Officer was responsible for providing complete and error free data by undertaking manual scrutiny of filled-in tools with the help of teachers.

Every State Government and Union Territory Administration constituted a State Level Monitoring and Review Committee headed by the Education Secretary for providing administrative and operational support to the State Survey Unit. In order to have close coordination between state and national teams, NCERT and NIC were also represented on these Committees. The State Survey Officer was the Member-Convener for the same.

The present survey is different from the previous six surveys with regard to survey methodology also. For the first time, in this survey a post enumeration survey has been undertaken to establish the quality of survey data. Besides this, certain additional information regarding single age-wise enrolment, new entrants, promotees, repeaters and attendance on the day of visit of the enumerator have been collected up to elementary stage.

Like Sixth survey, the computerization work was undertaken by NIC which accrued the following benefits.

1. The database of benchmark data has been created which will help in the storage and retrieval of voluminous data on different variables related to each and every primary unit, namely, the village, the town/city and the school. The agencies at the state and national level would be able to share these large database through the national communication network system.
2. Like the previous AIESs, block-wise up-to-date complete list of schools with postal addresses were prepared in advance for canvassing the school questionnaires and monitoring the progress. This time it has been stored on computer for use. Needless to mention, this database would help in establishing a Management Information System(MIS) at the national, state and district levels. This MIS would help in developing the Directories of schools at the national /state/district/block level for ready use and reference.
3. This approach of MIS would also provide a platform to develop different kinds of up-to-date sampling frames in order to draw rigorous samples for conducting sample surveys. In this way, the data of sample surveys would provide supplementary, demonstrable and a firm basis for drawing valid conclusions which would, in turn, help in taking the right decisions. Gradually, the 7<sup>th</sup> AIES would evolve into a more comprehensive validation exercise of generation of time-series indices on sound and scientific lines.
4. This new feature called for well laid-out design of the survey, training and its execution strategy at every stage of the survey. The details for training of the survey personnel, data collection, manual scrutiny of data, handling of forms, etc. were contained in the manual 'Guidelines for Survey Officers'. For analysis plan and scrutiny of tables, separate manuals were prepared. The training programme for data collection methodology, data preparation, coding, data transcription, etc. were organised at the state level for the staff of the State Survey unit and for the District Survey Officers. The State/District Survey Officers in turn conducted a two day training programme for the block level officers.

In addition to manual scrutiny of data and its validation for data transcription, special efforts were made to identify and correct the inconsistency within and between tables. The data in the tabulations were validated from the results of the Sixth AIES and also from other sources like census. The national level team made frequent visits to the states for supervisions of these operations and for providing guidance to the State Survey Officers and State NIC Officers.

### **Dissemination of Data**

In earlier AIESs, the data were aggregated at the block, district, state and national levels. These aggregated data were available for the use at the respective state headquarters. States and UTs used to prepare analytical reports in the print form containing district level aggregated

data. At the national level, the NCERT used to print the national report giving state-wise information on most of the data items alongwith other classificatory variables, like, rural and urban areas, school management, gender, etc. from the third survey onward, NCERT has started publishing provisional statistics on important aspects much before the release of final data.

In the 7<sup>th</sup> AISES, a detachable sheet (Information For Flash Statistics ) was developed and attached with VIF/UIF, SIF-1, SIF-2 & CIF to release statistics in advance. The data from this sheet were entered, validated and compiled to produce the 'Provisional Statistics'. The state-wise results were published in the 'Provisional Statistics' report in June 2005. The same were also made available on magnetic media in the form of CD.

Also for wider dissemination, the database of survey on different parameters was hosted on a website [www.7thsurvey.ncert.nic.in](http://www.7thsurvey.ncert.nic.in) giving educational statistics at the national, state and district levels

The final tabulation plan for VIF, UIF, SIF-1, SIF-2 and CIF tools provided information at the block, district, state and national levels. The tabulation plan for SSIF tools provides information at state and national levels. The national and state level tables based on data collected in census mode will be available in print form as 'National Tables' and 'State Tables'. Also, the data bases and tables, both at national level and state level, will be available on magnetic media with NCERT and NIC. These databases and tables would also be hoisted on the website [www.7thsurvey.ncert.nic.in](http://www.7thsurvey.ncert.nic.in) for its wider and global dissemination. The website also contains information on certain aspects, generally needed for planning at district level. Hence thirty district level tables for each district in a state are available on website serially numbered and 'D' is prefixed to Sl. Number, which stands for 'District'.

It is pertinent to mention here that for the facilitation of the reader the identification number of each national table contained in this volume has been changed and serialized as Table 1, Table 2 and so on, whereas, on the website the computerized output of the tables have the identification number used in all through the computerization process. The title of the tables are exactly the same at both places. Therefore, for the help of the user of this volume, the correspondence between the table numbers given in this volume with that table numbers given on the website [www.7thsurvey.ncert.nic.in](http://www.7thsurvey.ncert.nic.in) is given in Annexure-8

## **HIGHLIGHTS ON SCHOOLS, PHYSICAL AND ANCILLARY FACILITIES**

Salient findings of Seventh All India School Education Survey with reference date September 30, 2002, regarding schools, physical and ancillary facilities are as under:

### **Recognised Schools**

- The seventh survey has identified 10,30,996 recognized primary, upper primary, secondary and higher secondary schools in the country. These schools are further segregated over rural and urban areas. The rural area has 8,53,184 schools, whereas the urban area has 1,77,812 schools. Of these, the percentage of primary, upper primary, secondary and higher secondary schools is 63.15, 23.79, 8.80 and 4.26 respectively.
- These recognised schools according to type are nearly 31,623, 40,034, and 9,59,339 for boys, girls and co-education schools of which nearly 20,663, 24,061 and 8,08,460 schools respectively are situated in rural area in the country.
- The distribution of recognised schools management-wise, i.e. Government, Local Body, Private Aided and Private Un-aided is nearly 5,20,560, 2,92,783, 81,139 and 1,36,514 schools, respectively. The majority of schools run by the Government (90.93 per cent) and Local Body (89.55 per cent) are situated in rural area, whereas, this proportion for Private Aided (63.98 per cent) and Private Un-aided (48.17 per cent) schools was found on lower side in rural areas in the country.
- The seventh survey reported 6,51,064 recognised primary schools in the country. Out of total 6,51,064 primary schools, 5,72,814 primary schools (87.98 per cent) are in the rural area, whereas 78,250 primary schools (12.02 per cent) are located in urban area. There are 14,874 girls primary schools out of which nearly 91.13 per cent girls' schools are managed by the public authorities in the country. Over the period of time from 1993 to 2002, the number of recognised primary schools showed a growth of 14.13 per cent. The growth in recognised primary schools in rural and urban area is recorded nearly 12.85 per cent and 24.45 per cent, respectively.
- The seventh survey revealed 2,45,322 recognised upper primary schools. Out of this, 1,93,947 schools (79.06 per cent) are situated in rural area and 51,375 schools (20.94 per cent) are situated in urban area. The total number of girls' upper primary schools are recorded numerically 11,282. The contribution of government and local body girls' upper primary schools are nearly 79.66 per cent in the country. The recognised number of upper primary schools recorded a growth of 50.68 per cent with respect to the sixth survey conducted in 1993. The referred growth in recognised upper primary schools is attributed to nearly 50.06 per cent in rural and 53.08 per cent in urban area, respectively.
- In 2002, the recognised secondary schools were nearly 90,741 in the country. Out of this, 63,576 secondary schools (70.06 per cent) are in rural area and 27,165 secondary schools (29.94 per cent) are in urban area, respectively. There are nearly 8,134 girls secondary schools, and its management-wise distribution i.e. government, local body, private-aided and private-unaided schools is 41.62, 9.66, 33.67, and 15.36 per cent, respectively. Longitudinally from 1993 to 2002, the number of recognised secondary schools exhibited a

growth of 38.40 per cent in the country. The growth in recognised secondary schools, registered in rural and urban areas, is 32.80 and 53.52 per cent, respectively.

- The number of recognised higher secondary schools is 43,869 in the country as per the findings of seventh survey. In rural area, 22,847 recognised higher secondary schools (52.08 per cent) are located, whereas remaining 21,022 recognised higher secondary schools (47.92 per cent) are situated in urban area in the country. The girls' higher secondary schools are reported around 5,744 of which 2,413, 224, 2,143 and 964 are managed by the government, local body, private-aided and private un-aided management respectively. The number of recognised higher secondary schools has shown a growth of 85.40 per cent from 1993 to 2002. Area-wise, the growth of recognised higher secondary schools is 96.96 and 74.28 per cent in rural and urban areas, respectively.

### Ashram Schools

- To uplift the socio-economic status of tribal children, the Central/State Governments had initiated several welfare programmes including the school education in remote tribal area in the country. The specially designed residential schools for tribal children are managed by the government, local body, private-aided and private un-aided organisations. The total number of ashram schools for primary, upper primary, secondary and higher secondary schools are nearly 4,939, 2,711, 1,855 and 667, respectively. These schools are scattered over the rural and urban areas. The rural proportion of these ashram schools, viz., primary, upper primary, secondary and higher secondary schools were nearly 86.15, 85.50, 83.02, and 64.47 per cent, respectively.

### School Buildings and Playground Facilities

- According to 7<sup>th</sup> AISES, school buildings in which the majority of classes are held have been classified as: *pucca*, partly *pucca*, *kuchcha*, tent, and open space. Out of 1030996 recognised schools in the country, 93.78 per cent schools are housed in *pucca*/partly *pucca* buildings and 3.76 per cent are running in *kuchcha* buildings. The remaining 2.46 per cent schools are without buildings including tent and open space. Accordingly to 6<sup>th</sup> AISES, 93.12, 4.19, and 2.69 per cent schools in rural area were accommodated in *pucca*/partly *pucca*, *kuchcha* and without buildings including tent and open space in the country in year 2002.
- Out of total 651064 primary schools, 1,25,564 primary schools (19.28 per cent) are running in non-*pucca* buildings (partly *pucca*, *kuchcha*, tent and open space) in the country in year 2002. The remaining 5,25,500 primary schools (80.72 per cent) are functioning in *pucca* buildings. The situation of primary schools without building in rural area has declined from 22,365 in sixth survey to 19,673 in seventh survey, consequently, depicting a negative growth of -12.04 per cent.
- Seven States/UTs reported zero primary schools without building, namely, Chhattisgarh, Mizoram, Tripura, Chandigarh, Daman and Diu, Lakshadweep and Podicherry. However, the number of primary schools without building in rural area is existing in thousands in the states like Andhra Pradesh followed by Bihar, Madhya Pradesh and Uttar Pradesh on the referred point of time.
- Among 2,45,322 upper primary schools, the situation was comparatively better than primary schools as 43,326 upper primary schools (17.66 per cent) were running in non-*pucca*

buildings, and remaining 82.34 per cent were housed in *pucca* buildings. The upper primary schools without building in rural area had increased from 2,804 in 1,993 to 4,656 in 2002 thus registering a growth of 66.05 per cent.

- Eleven States/UTs reported zero upper primary schools without building, namely, Chhattisgarh, Goa, Mizoram, Nagaland, Sikkim, Tripura, A & N Islands, Chandigarh, D & N Haveli, Daman & Diu and Lakshadweep.
- A large number of upper primary schools without building in rural area was reported for Madhya Pradesh followed by Uttar Pradesh, Himachal Pradesh, Bihar including some other States in the country.
- The seventh survey reveals that 14,143 secondary schools (15.59 per cent) are housed in non-*pucca* buildings, and remaining 84.41 per cent secondary schools are functioning from *pucca* buildings. The secondary schools without building in rural area has increased from 287 in 1993 to 496 in 2002 thereby indicating an increase of 72.82 per cent.
- Sixteen States/UTs, viz., Arunachal Pradesh, Chattisgarh, Goa, Kerala, Meghalaya, Mizoram, Nagaland, Rajasthan, Sikkim, Tripura, A & N Islands, Chandigarh, D & N Haveli, Daman & Diu, Lakshadweep and Pondicherry have reported zero secondary schools without buildings.
- The status of school buildings for higher secondary schools is fairly better in comparison to the other categories of schools in the country. Nearly, 3,472 (7.91%) higher secondary schools were having non-*pucca* buildings. The higher secondary schools without building in rural area has increased akin to other categories of schools from 38 in 1993 to 65 in 2002 thereby reflecting an increase of 71.05 per cent.
- The significant outcome of the seventh survey was the higher secondary schools managed by the Local Bodies in rural area – It provides information with zero higher secondary schools, which ensures the success of community participation through *Panchayati Raj* Institutions.
- The number of higher secondary schools running without building is reported maximum in Andhra Pradesh (32) followed by Maharashtra (17), Haryana (11) and Delhi (7).
- In the seventh survey, the information about access to playground facility to the recognised schools were collected on four well-defined criteria. These criteria were (a) number of schools having playground facility, (b) number of schools having playground facility exclusively for the school, (c) number of schools having playground facility in usable condition, and (d) number of schools having playground facility within the school premises.
- The seventh survey reveals that 5,00,356 recognised schools have playground facility for their children which is 48.53 per cent of total number of recognised schools in the country. This was further distributed over government, local body, private aided and private unaided schools by 41.53, 43.28, 72.33 and 72.32 per cent, respectively.
- At elementary level of schooling i.e. primary and upper primary schools, the playground facility within the school premises are available in 34.81 and 49.26 per cent schools in rural area whereas the same is available in 39.36 and 52.62 per cent schools in urban area in the country.

### Ancillary Facilities

- The seventh survey provides information regarding availability of ancillary facilities in the schools, viz., schools having drinking water facilities within school premises, toilet facilities (urinal and lavatory), electric connection, arrangement of annual medical check-up (vaccination/ inoculation) of students, availability of blackboards, furniture for teachers and students and schools having almirahs/ trunks/ boxes for storing the records.
- Around 8,27,684 recognised schools have reported regarding the availability of drinking water facilities within school premises. It reflects that nearly 20 per cent schools are still not having provision for drinking water facilities. In rural area, 6,67,578 (78.25%) schools have the drinking water facilities, and nearly 21.75 per cent schools are without drinking water facilities within school premises.
- The drinking water facilities for primary schools within school premises in rural area for government, local body, private-aided and private-unaided are around 75.19, 74.70, 72.47 and 92.72 per cent, respectively, whereas, the same in rural area for upper primary schools are 79.95, 74.61, 84.34 and 94.64 per cent, respectively. In case of secondary education, the drinking water facilities for secondary schools within school premises in rural area for government, local body, private-aided and private-unaided is reported around 85.21, 79.16, 94.14 and 91.92 per cent, respectively. For higher secondary schools, for rural area it is around 93.43, 95.03, 98.31 and 96.57 per cent, respectively.
- The toilet facility in a school is an important and necessary facility for a good school. Hence, the information in this regard was collected in the seventh survey akin to the earlier surveys separately on urinal and lavatory. It also provided information on the schools having separate urinal and lavatory facility for girls. The urinal and lavatory facilities in primary schools are available in 2,20,583 and 1,91,831 schools, which means nearly 66.12 and 70.54 per cent primary schools do not have provision for the urinal and lavatory facilities in the country. Similarly, nearly 2,12,970 and 1,84,423 primary schools with girls' enrolment have urinal and lavatory facilities, thereby; it has replicated the story of non-availability of urinal and lavatory facilities in schools with girls' enrolment in nearly 66.78 and 71.23 per cent schools, respectively. The situation is almost same for upper primary, secondary and higher secondary schools with little variation.
- The recognised primary, upper primary secondary and higher secondary schools having electric connection are found 15.99, 44.21, 69.19 and 89.66 per cent, respectively. This per cent distribution in rural area schools is found to be 10.93, 32.27, 59.31 and 82.87 per cent, respectively.
- The present survey reveals that annual medical check-up of students is arranged in 3,42,124, 1,57,809, 55,217 and 28,352 for primary, upper primary, secondary and higher secondary schools in the country. In terms of percentage, the annual medical check-up is not available in 47.45, 35.67, 59.62 and 35.37 per cent of primary, upper primary, secondary and higher secondary schools. Similar trend was also observed in schools in arranging the annual vaccination/ inoculations in the recognised schools in the country.

The teaching-aid facilities for a classroom in the school consist of blackboards, furniture for teachers and students. The blackboards are the only easily visual teaching-aid in the country. The seventh survey data reveals that even a large number of schools do not have adequate

number of blackboards. Of the 43,85,877 sections in schools, only 35,25,937 have reported usable blackboards (80.39 per cent). The corresponding figures for rural and urban areas are 76.78 per cent and 96.31 per cent, respectively. Area-wise information regarding usable blackboards in rural area indicate that schools are inadequately equipped in respect to the blackboards as compared to the schools in urban area. Management-wise data reveal that the schools managed by private organisations are equipped better as compared to the government and local body schools in regard to usable blackboards. Almost similar trends are observed in regard to sections having furniture for teachers in the sections thereby in classrooms. The condition of sections having adequate mats/furniture for students in the classrooms is found quite unsatisfactory.

## Instructions

### Introduction

The present educational survey, seventh in the series, is being conducted throughout the country. In this survey, data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilisation. The quality of results of this survey depends on the **accuracy and completeness** of the information to be furnished by you. **After completion of the data collection activity, trained enumerators will collect data on sample basis for determining the accuracy of data.** Therefore, please answer each item carefully and accurately.

### School Information Form-1 (SIF-1)

This form seeks information about class-wise enrolment, teachers and other facilities as on **30<sup>th</sup> September 2002** from recognised primary and upper primary schools. This form will be filled by the **Headmaster** of the school.

**A detachable sheet** is attached with this form for supplying the information on certain items for **Flash Statistics**, which is to be released quickly. **Please give information in this sheet after completing the Form.** Also ensure that location codes on the detachable sheet are correctly copied from this form.

### How to Answer

- Please use the **international numerals** while supplying the information in numbers.
- The information collected from you will be computerised. Take extra care to read the instructions of supplying the information which is printed in italics along with the items.
- Most of the items have been provided with two or more alternative responses. Each alternative has been provided with a code. The number within brackets is the code for that response. In addition, a blank box is provided in the right margin for writing the response code. **Writing of response code in the box is essential.** In such items, only one alternative is applicable to your school situation. **Please put a tick mark in brackets of the applicable response and write its code in the box provided in the right margin.**

**Example:** Management of school

Government	(1)
Local body	✓(2)
Private aided	(3)
Private unaided	(4)

2
---

In this example, applicable response is "Local body". A tick within the brackets has been put against "Local body" and the code 2 is written in the box.

**Thank you for your cooperation**

## **Definition and Explanation**

### **1. School Category**

School category will be determined as per state pattern on the basis of the highest class in a school.

For example, in a state where classes I – V, VI-VIII, IX-X and XI- XII form primary, upper primary, secondary and higher secondary stages respectively, the category of the school will be decided as follows:

A school having classes up to V will be termed as **Primary school**.

A school having highest class either VI, VII or VIII will be termed as **Upper Primary school**.

A school having highest class either IX or X will be termed as **Secondary school**.

A school having highest class either XI or XII will be termed as **Higher Secondary school**.

### **2. Management of school**

**Government :** A Government School is that which is run by the State Government or Central Government or Public Sector Undertaking or an Autonomous Organisation completely financed by the Government.

**Local Body :** A Local Body School is that which is run by Panchayati Raj and local body institution such as Zilla Parishad, Municipal Corporation, Municipal Committee, Notified Area Committee and Cantonment Board.

**Private Aided:** A Private Aided School is that which is run by an individual or a private organisation and receives grant from government or local body.

**Private Unaided:** A Private Unaided School is that which is managed by an individual or a private organisation and does not receive any grant either from government or local body.

### **3. Type of School**

**Boys' School :** Boys' school is that in which boys are admitted to all classes and admission of girls is restricted to some specific classes.

**Girls' School:** Girls' school is that in which girls are admitted to all classes and admission of boys is restricted to some specific classes.

**Co-educational School:** Co-educational school is that in which both boys and girls are admitted to all classes in the school.

### **4. Ashram Schools:**

Ashram Schools are residential schools located in sparsely populated areas to provide functional and liberal education to tribal boys and girls on the educational pattern of Gurukuls with free boarding and lodging facilities.

### 5. **Mother Tongue**

*Mother Tongue is the language spoken by the mother to the child in childhood. If the mother died in the infancy, the language mainly spoken in the child's home will be the mother tongue.*

### 6. **Medium of instruction** *is the language through which subjects other than languages are taught.*

### 7. **Para-teachers**

*Para-teachers are those full-time teachers who are working on fixed amount and appointed under the scheme of para-teachers*

### 8. **School Building**

**Pucca Building :** *A school building is to be treated as pucca if it has its walls and roof made of the following materials.*

**Wall Material -** *Burnt bricks, stones (duly packed with lime or cement), cement concrete or timber, plywood, artificial wood of synthetic material and PVC.*

**Roof Material -** *Tiles, G.I./metal/asbestos sheets, concrete, bricks, stones, timber, plywood, artificial wood of synthetic material and PVC.*

**Partly Pucca Building :** *A school building is to be treated as partly pucca if it has its walls made of the above mentioned material but roof is made of the materials other than those mentioned above such as bamboos, grass, thatch, etc..*

**Kuchcha Building :** *School building, the walls and/or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboos, mud, grass, reeds, thatch, loosely packed stones is to be treated as kuchcha building.*

### 9. **School Stage**

*Combination of classes for different school stages differs from state to state. Various combinations of classes of the school system constitute primary, upper primary, secondary and higher secondary stages.*

*Generally in most of the states classes I-IV/I-V constitute **primary** stage;*

*classes V-VII/VI-VII/VI-VIII constitute **upper primary** stage;*

*classes VIII-X/IX-X constitute **secondary** stage;*

*and classes XI-XII as **higher secondary** stage.*

*Some of the States and Union Territories have provision for junior colleges, independent Pre-University Classes (PUC), intermediate colleges and degree colleges having the higher secondary classes. In this survey, these classes/colleges will be considered along with the higher secondary stage.*

## 10. Section

All students of a class are divided into groups for the convenience of teaching. Each group is called a Section. A class may have one or more than one Section. If there are more than one Section in a class they are labelled as Section A, Section B, Section C and so on.

## 11. Disability

Disability may be defined as “any restriction or lack of abilities to perform an activity in the manner or within the range considered normal for a human being”. Persons having any of the disabilities, namely, visual, communication (hearing and / or speech) and locomotor, will be considered physically disabled..

**Visual Impairment:** A person having no light perception, or having light perception but not able to count the fingers of a hand correctly (using the glasses if ordinarily used) from a distance of 3 metres in good day light with both eyes open.

**Hearing Impairment:** A person, who can not hear at all, or could hear only loud sounds, or can hear only shouted words, or can hear only when the speaker is sitting in the front, or usually asking to repeat the words spoken or would like to see the face of the speaker.

**Orthopaedic ( Locomotor) Disability:** Loss or lack of normal ability of an individual to move himself / herself and / or objects from one place to another.

**Intellectual Impairment (Mental Retardation):** A condition of arrested or incomplete development of mind of a person which is specially characterised by sub-normality of intelligence.

**Multiple Impairment:** Children with more than one disability will be classified under Multiple Impairment category.

PLEASE READ THE INSTRUCTIONS GIVEN OVERLEAF BEFORE FILLING THE FORM

**SIF-2****Instructions****Introduction**

The present educational survey, seventh in the series, is being conducted throughout the country. In this survey, data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilisation. The quality of results of this survey depends on the **accuracy and completeness** of the information to be furnished by you. **After completion of the data collection activity, trained enumerators will collect data on sample basis for determining the accuracy of data.** Therefore, please answer each item carefully and accurately.

**School Information Form-2 (SIF-2)**

This form seeks information about class-wise enrolment, teachers and other facilities as on **30<sup>th</sup> September 2002** from recognised Secondary and Higher Secondary schools, Intermediate/Junior colleges/Pre-University Classes not attached to degree colleges. This form will be filled by the **Headmaster/Principal** of the school/college.

**A detachable sheet** is attached with this form for supplying the information on certain items for **Flash Statistics**, which is to be released quickly. **Please give information in this sheet after completing the Form.** Also ensure that location codes on the detachable sheet are correctly copied from this form.

**How to Answer**

- (a) Please use the **international numerals** while supplying the information in numbers.
- (b) The information collected from you will be computerized. Take extra care to read the instructions of supplying the information which is printed in italics along with the items.
- (c) Most of the items have been provided with two or more alternative responses. Each alternative has been provided with a code. The number within brackets is the code for that response. In addition, a blank box is provided in the right margin for writing the response code. **Writing of response code in the box is essential.** In such items, only one alternative is applicable to your school situation. **Please put a tick mark in brackets of the applicable response and write its code in the box provided in the right margin.**

**Example:** Management of school

Government	(1)
Local body	(2) ✓
Private aided	(3)
Private unaided	(4)

2
---

In this example, applicable response is "Local body". A tick within the brackets has been put against "Local body" and the code 2 is written in the box.

**Thank you for your cooperation**

## **Definition and Explanation**

### **1. School Category**

School category will be determined as per state pattern on the basis of the highest class in a school.

For example, in a state where classes I – V, VI-VIII, IX-X and XI- XII form primary, upper primary, secondary and higher secondary stages respectively, the category of the school will be decided as follows:

A school having classes up to V will be termed as **Primary school**.

A school having highest class either VI, VII or VIII will be termed as **Upper Primary school**.

A school having highest class either IX or X will be termed as **Secondary school**.

A school having highest class either XI or XII will be termed as **Higher Secondary school**.

### **2. Management of school**

**Government :** A Government School is that which is run by the State Government or Central Government or Public Sector Undertaking or an Autonomous Organisation completely financed by the Government.

**Local Body :** A Local Body School is that which is run by Panchayati Raj and local body institution such as Zilla Parishad, Municipal Corporation, Municipal Committee, Notified Area Committee and Cantonment Board.

**Private Aided:** A Private Aided School is that which is run by an individual or a private organisation and receives grant from government or local body.

**Private Unaided:** A Private Unaided School is that which is managed by an individual or a private organisation and does not receive any grant either from government or local body.

### **3. Type of School**

**Boys' School :** Boys' school is that in which boys are admitted to all classes and admission of girls is restricted to some specific classes.

**Girls' School:** Girls' school is that in which girls are admitted to all classes and admission of boys is restricted to some specific classes.

**Co-educational School:** Co-educational school is that in which both boys and girls are admitted to all classes in the school.

### **4. Ashram Schools:**

Ashram Schools are residential schools located in sparsely populated areas to provide functional and liberal education to tribal boys and girls on the educational pattern of Gurukuls with free boarding and lodging facilities.

### 5. **Mother Tongue**

*Mother Tongue is the language spoken by the mother to the child in childhood. If the mother died in the infancy, the language mainly spoken in the child's home will be the mother tongue.*

6. **Medium of instruction** *is the language through which subjects other than languages are taught.*

### 7. **Para-teachers**

*Para-teachers are those full-time teachers who are working on fixed amount and appointed under the scheme of para-teachers*

### 8. **School Building**

**Pucca Building :** *A school building is to be treated as pucca if it has its walls and roof made of the following materials.*

**Wall Material -** *Burnt bricks, stones (duly packed with lime or cement), cement concrete or timber, plywood, artificial wood of synthetic material and PVC.*

**Roof Material -** *Tiles, G.I./metal/asbestos sheets, concrete, bricks, stones, timber, plywood, artificial wood of synthetic material and PVC.*

**Partly Pucca Building :** *A school building is to be treated as partly pucca if it has its walls made of the above mentioned material but roof is made of the materials other than those mentioned above such as bamboos, grass, thatch, etc..*

**Kuchcha Building :** *School building, the walls and/or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboos, mud, grass, reeds, thatch, loosely packed stones is to be treated as kuchcha building.*

### 9. **School Stage**

*Combination of classes for different school stages differs from state to state. Various combinations of classes of the school system constitute primary, upper primary, secondary and higher secondary stages.*

*Generally in most of the states classes I-IV/I-V constitute **primary** stage;*

*classes V-VII/VI-VII/VI-VIII constitute **upper primary** stage;*

*classes VIII-X/IX-X constitute **secondary** stage;*

*and classes XI-XII as **higher secondary** stage.*

*Some of the States and Union Territories have provision for junior colleges, independent Pre-University Classes (PUC), intermediate colleges and degree colleges having the higher secondary classes. In this survey, these classes/colleges will be considered along with the higher secondary stage.*

## 10. Section

All students of a class are divided into groups for the convenience of teaching. Each group is called a Section. A class may have one or more than one Section. If there are more than one Section in a class they are labelled as Section A, Section B, Section C and so on.

## 11. Disability

Disability may be defined as “any restriction or lack of abilities to perform an activity in the manner or within the range considered normal for a human being”. Persons having any of the disabilities, namely, visual, communication (hearing and / or speech) and locomotor, will be considered physically disabled..

**Visual Impairment:** A person having no light perception, or having light perception but not able to count the fingers of a hand correctly (using the glasses if ordinarily used) from a distance of 3 metres in good day light with both eyes open.

**Hearing Impairment:** A person, who can not hear at all, or could hear only loud sounds, or can hear only shouted words, or can hear only when the speaker is sitting in the front, or usually asking to repeat the words spoken or would like to see the face of the speaker.

**Orthopaedic ( Locomotor) Disability:** Loss or lack of normal ability of an individual to move himself / herself and / or objects from one place to another.

**Intellectual Impairment (Mental Retardation):** A condition of arrested or incomplete development of mind of a person which is specially characterised by sub-normality of intelligence.

**Multiple Impairment:** Children with more than one disability will be classified under Multiple Impairment category.

## **CONCEPTS AND DEFINITIONS**

Some important terms used in the 7<sup>th</sup> AISES are given below.

### **1. Urban Area**

All areas which were identified as 'urban' at the time of the Census 2001 or subsequently notified to be so are to be treated as urban.

### **2. Rural Area**

Areas that are not urban shall be treated as rural.

### **3. Community Development Block (C.D. Block)**

C.D. Block connotes 'the Block under the community project administration'. In this survey the C.D. Block (not educational) is the lowest administrative and planning unit for organisation of fieldwork and tabulation of data. In states where the scheme of Community Development Blocks is not in vogue, the administrative sub-division of a district, like Tahsil/Taluka/Mandal or their equivalent will be the unit for the purpose of this survey.

### **4. Village**

Village refers to **revenue village**, which has definite surveyed boundaries. The revenue village may comprise several hamlets but the entire village will be treated as one unit for presentation of data. In the unsurveyed areas like settlements within the forest areas, each habitation area with locally recognised boundaries within each forest range officer's area will be treated as a separate village. A village with no population is to be termed as *Bechirag* or 'deserted' or 'uninhabited'.

### **5. Rural Habitation**

- (a) A habitation is a distinct cluster of houses existing in a compact and contiguous manner; with a local name; and its population should not be less than 25 in plain areas and not less than 10 in hilly/desert/sparsely populated areas. In case there exists more than one such cluster of houses in a village, they will not be treated as separate habitations unless the convenient walking distance between them is more than 200 meters.
- (b) Any habitation with population less than 25 in plain areas or with population less than 10 in hilly/desert/sparsely populated areas may not be given a separate status of a 'habitation' and its population be included in the nearest habitation of the same village. **But this condition will not apply to a village with one habitation only.**
- (c) A village may have one or more than one habitation, except when it is a deserted/Bechirag village

### **6. Distance of a School from Rural Habitation**

The **distance** between a habitation and a school is the convenient walking distance between the central point of the habitation and the school.

### **7. Recognised School**

A recognised school is that in which the course(s) of study followed is/are prescribed or recognised by the Government (Central/State) or a University or a Board constituted by law or by any other agency authorised in this behalf by the Central or State Government and which satisfies one or more

of the authorities e.g. Directorate of Education, Municipal Corporation/Committees, Board, etc., with regard to its standard of efficiency. It runs regular classes and sends candidates for public examination, if any.

### 8. Unrecognised School

An unrecognised school is that which is not recognised but running regular classes on the pattern of recognised school. This does not include coaching centres.

### 9. Alternative Schools (AS)

Schools set up in unserved habitations (with no schooling facilities within one km) under the Education Guarantee Scheme (EGS) component of the EGS&AIE Scheme to provide education to out of school children are termed as **Alternative Schools**. EGS schools in the States of Madhya Pradesh, Orissa, Uttar Pradesh; Maavadi in Andhra Pradesh; Multi-grade learning centres in Kerala; Shishu Shiksha Karamsuchi Kendras in West Bengal; Contract schools in Maharashtra; Rajiv Gandhi Swarna Jayanti Pathshalas in Rajasthan are some of the examples of Alternative Schools.

### 10. Alternative & Innovative Education (AIE) Centres

The centres set up for very specific, difficult groups of 'out of school' children for mainstreaming or otherwise, under the AIE component of the EGS&AIE scheme, are termed as Alternative & Innovative Education Centres. Some of the examples of AIE Centres are seasonal hostels for migrating children, condensed/ bridge courses/ back to school camps for mainstreaming out of school children and to achieve competencies appropriate for their age in a short period, residential camps/drop-in centres for street and slum children.

### 11. Education Volunteers

The persons appointed for teaching in Alternative Schools/ AIE Centres on a fixed remuneration are called Education Volunteers (EVs).

### 12. School Category

School category will be determined as per state pattern on the basis of the highest class in a school.

For example, in a state where classes I – V, VI-VIII, IX-X and XI- XII form primary, upper primary, secondary and higher secondary stages respectively, the category of the school will be decided as follows:

A school having classes up to V will be termed as **Primary school**.

A school having highest class either VI, VII or VIII will be termed as **Upper Primary school**.

A school having highest class either IX or X will be termed as **Secondary school**.

A school having highest class either XI or XII will be termed as **Higher Secondary school**.

### 13. Management of School

The authority, which runs a school, determines its type of management. For the purpose of the survey the following managements have been considered.

**Government:** A Government School is that which is run by the State Government or Central Government or Public Sector Undertaking or an Autonomous Organisation completely financed by the Government.

**Local Body:** A Local Body School is that which is run by Panchayati Raj and local body institution such as Zilla Parishad, Municipal Corporation, Municipal Committee, Notified Area Committee and Cantonment Boards.

**Private Aided:** A Private Aided School is that which is run by an individual or a private organisation and receives grant from government or local body.

**Private Unaided:** A Private Unaided School is that which is managed by an individual or a private organisation and **does** not receive any grant either from government or local body.

#### 14. Type of School

**Boys' School:** Boys' school is that in which boys are admitted to all classes and admission of girls is restricted to some specific classes.

**Girls' School:** Girls' school is that in which girls are admitted to all classes and admission of boys is restricted to some specific classes.

**Co-educational School:** Co-educational school is that in which both boys and girls are admitted to all classes in the school..

#### 15. Mother Tongue

Mother Tongue is the language spoken by the mother to the child in childhood. If the mother died in the infancy, the language mainly spoken in the child's home will be the mother tongue.

#### 16. Medium of Instruction

Medium of instruction **is** the language through which subjects other than languages are taught.

#### 17. Para-teachers

Para-teachers are those full-time teachers who are working on fixed amount and appointed under the scheme of para-teachers.

#### 18. School Building

**Pucca Building:** A school building is to be treated as pucca if it has its walls and roof made of the following materials.

**Wall Material:** Burnt bricks, stones (duly packed with lime or cement), cement concrete or timber, etc.

**Roof Material:** Tiles, G.I./metal/asbestos sheets, concrete, bricks, stones, timber, etc.

**Partly Pucca Building:** A school building is to be treated as partly pucca if it has its walls made of the above mentioned material but roof is made of the materials other than those mentioned above such as bamboos, grass, thatch, etc.

**Kuchcha Building:** School building, the walls and/or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboos, mud, grass, reeds, thatch, loosely backed stones is to be treated as kuchcha building.

#### 19. School Stage

Combination of classes for different school stages differs from state to state. Various combinations of classes of the school system constitute primary, upper primary, secondary and higher secondary stages.

Generally in most of the states classes I-IV/I-V constitute **primary** stage;

classes V-VII/VI-VII/VI-VIII constitute **upper primary** stage;

classes VIII-X/IX-X constitute **secondary** stage;

and classes XI-XII as **higher secondary** stage.

Some of the States and Union Territories have provision for junior colleges, independent Pre-University Classes (PUC), intermediate colleges and degree colleges having the higher secondary classes. In this survey, these classes/colleges will be considered along with the higher secondary stage

### 20. Section

All students of a class are divided into groups for the convenience of teaching. Each group is called a Section. A class may have one or more than one Section. If there are more than one Section in a class they are labelled as Section A, Section B, Section C and so on.

### 21. Repeaters

Repeaters are those pupils who were studying in the same class during the previous year.

### 22. New Entrants

New entrants are those pupils who were not studying/enrolled in any recognised school of the state in the previous year. Students seeking admission with a transfer certificate from recognised school of the state will not be considered as new entrants.

### 23. Disability

Disability may be defined as “any restriction or lack of abilities to perform an activity in the manner or within the range considered normal for a human being”. Persons having any of the disabilities, namely, visual, communication (hearing and/or speech) and locomotor, will be considered physically disabled.

**Visual Impairment:** A person having no light perception, or having light perception but not able to count the fingers of a hand correctly (using the glasses if ordinarily used) from a distance of 3 meters in good day light with both eyes open.

**Hearing Impairment:** A person, who can not hear at all, or could hear only loud sounds, or can hear only shouted words, or can hear only when the speaker is sitting in the front, or usually asking to repeat the words spoken or would like to see the face of the speaker.

**Orthopaedic (Locomotor) Disability:** Loss or lack of normal ability of an individual to move himself / herself and / or objects from one place to another.

**Intellectual Impairment (Mental Retardation):** A condition of arrested or incomplete development of mind of a person which is specially characterised by sub-normality of intelligence.

**Multiple Impairment:** Children with more than one disability will be classified under Multiple Impairment category.
