The present edition of 'Island-wise Statistical Outline' is the 4th in series. The publication contains data on socio-economic conditions of all the 36 inhabited Islands of this territory. The Island-wise data will enable the users to peep into the Island-wise status in relation to the socio-economic development. It is hoped that the information made available in this publication at the level of each inhabited Islands will go a long way to help planners/Heads of Departments of the Administration to make realistic plans for the speedy developments of the Islands on the one hand and on the other hand to remove the inequality and imbalance of socio-economic life of the Islanders.

I acknowledge with gratitude the co-operation extended by the various Departments/Offices of the Govt. and also non-Governmental organisations to compile this valuable publication. In office it is the result of hard work put in by Smt/ Sobhana P. and her team consisted of Shri S.N. Sreepakash, Statistical Assistant, Shri M.P. Muthappa, Computer and Shri G. Sambath, Computer.

Suggestions to improve the quality, coverage and range of the data to the future editions are most welcome.
