The Stastical Abstract of Vizianagaram District for the year 1988-89 is Fifth in its series of Publications. The coverage in the present issue has been improved sufficiently by presenting various aspects of the District Economy, Mandalwise. This publication is being released Every Year regularly since 1985 - 86.

I am sure the publication will serve as a useful reference book for the General Public, Planners, Administrators, Research workers and also Special Agencies like D. R. D. A., I. T. D. A., Scheduled Caste, Backward Caste and other Corporations that are involved in the formulation and implementation of various developmental activities in the District.

I am thankful to all officers of the District for their cooperation in furnishing the information to the Chief Planning Officer, Vizianagaram. The efforts of Sri D. Dakshina Murty, Chief Planning Officer, (Full Additional Charge), Vizianagaram and his staff, with special reference to Shri A. Venkateswara Rao, Stastical Officer, in bringing out this publication are appreciated.

Any suggestions for the improvment of this publication are most welcome.

SALIENT FEATURES OF THE DISTRICT.

1. Location and Composition :

Vizianagaram District was formed on 1st June, 1979 with Headquarters at Vizianagaram as per G O. Ms. No. 700; Revenue(U) Department, dated 15th May 1979 with portions carved from Srikakulam and Visakhapatnam District.

Vizianagaram District is situated within the Geographical Co-ordination of 17°.50 and 19°.15' of the Northern Latitude and 83°.00' and 83°.45' of the Eastern Longitude

The district is bounded on the East by Srikakulam District on the West and South by Visakhapatnam District, on the South-east by the Bay of Bengal and North West by Orissa State.

2. Physiography :

The Areas transferred from Visakhapatnam District are mostly hilly and picturesque especially in the North. The agency tract mostly consists of the hilly regions covered by the Eastern Ghats which run parallel to the Coast from the North-east to South west. The average height of these hills is over 914 meters, although there are several peaks of even 1,219 meters high. In Parvthipuram Division the hills are lower than elsewhere and consists of steep and rugged lines, devoid of plateau, heading in the two broad, almost parallel.

3. Soils :

The main soils in the District are Red Soils, Sandy Loams & Sandy Clay and they constitute of 96% of the total area. The soils in the District are predominantly loamy with medium fertility. There are mostly Red Loamy soils in so as dry lands are concerned and clay loamy in the case of wet lands. The soils at places as thick as 4 meters. It is likely that the thick soil cover might represent alluvium along the valleys. Different type of rocks are in abundance in the District.

4. Climate :

The climate of Vizianagaram District is Characterised by high humidities nearly all the year round, oppressive summer and good seasonal rainfall. The summer season, is from March to May. This is followed by the Southwest

(ii)

Monsoon season, which continues upto September, October and November constitute the post monsoon or precreating monsoon season. December to February is the season of generally fine weather. The Climate of the hilly parts of the district to the West and North West is different from that of the plains. in that the hilly regions receive heavier rainfall and consequently are cooler than the plains. The Maximum Temperature ocured in the month of May in 36.0°C and the minimum temperature is noticed in the month of January is 18 3°C during the year 1988-89.

5. Rainfall :

The average Annual Rainfall of the District is 1,158.0 MM as against the actual rainfall of 1086.6 MM. The District gets the benefit of both the South-West and North-East monsoons. The rainfall is recorded during the South-West monsoon period (June to September) i e., 886.4 MM Moderate rainfall is received during the Northeast monsoon period (October to December) i. e., 107.1 MM.

6. Flora :

The floristic composition of the forests of the district is of much interest. The Forest types found in the district are (1) Southern tropical moist mixed desiduous forests. (2) Northern tropical dry deiduous forests, (3) Southern tropical dry mixed deciduous forests, (4) Dry deciduous green forests (5) Dry evergreen forests. The Forestry plays an important role in the Economy of the District.

7. Feuna :

Feuna in the district is fairly high in the interior hill regions but it is heavily threatend with extinction. The reasons for the depletion are mainly shrinkage of habit and uncontrolled proaching. The Principal animals and birds found from the seacoast to the high plateau are (1) Yellow bat, (2) Sloth Bear, wild Bufallow, Fox, Jackal, Mongoose and birds of the Blue Rock pigeon, House crow, House sparrow, Common Myna pitta etc , consequent of the enactment of the wild life protection act of 1972, it is hoped that wild life would improve and attain past glory.

12. Dcvelopment Activities :

1. Agriculture :

Vizianagaram District is predominantly an Agricultural as 73.7% of the workers are engaged with Agriculture and about 84% of the population of

the district is living in rural area and depend on Agriculture for their Livehood. Rainfed farming is the district as about 80% of its area is cultivated under purely rainfed condition. Even the rest of the area which is termed as Irrigated areas is mostly dependent on the rainfall received in the district. In view of the unassured irrigation conditions in the district, majority of crops grown are dry crops. Paddy crop is cultivated mainly during Kharif season with 80% of its area under Tankfed conditions which is turn depend on the local rainfall. The major crops that are grown in the district besides Paddy are Mesta, Groundnut, Ragi, Bajra and Pulses. Due to erratic rainfall generally received in the district the average yields obtained in the district are low.

2 Irrigation :

There are no major irrigation projects in the District. There are 11 Medium Irrigation projects with an ayact of 36656 At present three Medium projects and Minor Irrigation projects under progress. Vengalarayasagar project, Makkuva, Janghavathi Project, Komarada and Peda Ankalam project at Seethanagaram are under Execution. Besides this there are 889 P. W. D. Minor Irrigation Sources with an ayacut of 67,578 Hects. and 9,981 Minor Irrigation Tanks (PR) with an ayact of 76,437 Hects. The proportion of net area irrigated by Canals is to net areasown is 7.5%. In respect of irrigation through tanks the percentage is 11.7%. As regards irrigation by wells the district has not made any headway. Only 3.1% of the net area irrigated is under wells.
