F O R E W O R D

The Statistical Hand-Book of West Kameng District: 1990 is brought out by the District Statistical Cell, Bomdila. It aims to present a clear picture of the achievements made in various developmental activities in the District. Undoubtedly it would serve as a very useful guide to the District officials, planners and research scholars.

As the data published in the Statistical Hand-Book are very much needed by the planners and other agencies for various purposes, I request all the heads of departments to extend their co-operation towards publication of such Hand-Book and ensure regular flow of correct information in time.

The effort made by the District Statistical Officer and his team of workers in bringing out this Hand-Book is praiseworthy.

  
(S.M.S. CHAUDHARY)  
DEPUTY COMMISSIONER,  
WEST KAMENG DISTRICT,  
BOMDILA.

## I N T R O D U C T I O N

Statistics are numerical statements of fact capable of analysis and interpretation.

The Statistical Hand-Book of West Kameng : 1990 presents a crystal clear picture of various developmental activities and Socio-economic aspects of the district. The booklet also incorporates some special tables on vital statistics, Govt. employees in West Kameng and sectorwise distribution of Net State Domestic product of Arunachal Pradesh. The compilation of this issue has been done in conformity with the state level publication.

I take this opportunity to extend my thanks and gratitude to all the district heads of departments for their Co-operation in bringing out this publication. The burden of collection of data and its presentation in this shape after compilation was borne by Shri H.P. Das, F.I. I highly appreciate the work done by him.

Constructive suggestions for improvement of the standard and contents of the subsequent issues will be gladly accepted.

(S.B. BISWAS)  
DISTRICT STATISTICAL OFFICER,  
WEST KAMENG DISTRICT,  
BOMDILA.

## A SYNOPSIS OF WEST KAMENG DISTRICT

West Kameng District of Arunachal Pradesh is lying approximately between 91° 30' to 92° 40' East longitudes and 26° 54' to 28° 01' North latitudes. The district is surrounded by Tibet region of China in the North, Bhutan on the West, Tawang and East Kameng Districts of Arunachal Pradesh are in the North West and East respectively. The southern boundary adjoins Sonitpur District of Assam.

### HISTORICAL GENESIS:-

The name of the district is derived from the Kameng river, a tributary of the Brammaputra, that flows through the District. Till 1914, the district was a part of the Darrang District of Assam. By a Government of India Notification of 1914, the area covered by this district became a part of the 'Western Section' of the 'North East Frontier Tract' to which the entry of the British subject was regulated by an 'Inner Line'. In 1919 this tract was renamed as the 'Balipara Frontier Tract' having its headquarter at Charduar of Assam. In 1946, the district area was carved out of the Balipara Frontier Tract with the name of 'Sela Sub-Agency', and its headquarter continued to be at Charduar. In 1954, Sela Sub-Agency was renamed as the Kameng Frontier Division and its headquarter was later transferred to Bomdila. Like other parts of NEFA, it was also under the Ministry of External Affairs and over all in-charge of the district was a Political Officer. On 1st September, 1965 the Ministry of Home Affairs took over the Administrative charge of NEFA from the Ministry of External Affairs and Kameng Frontier Division was renamed as Kameng District and the Political Officer was redesignated as Deputy Commissioner.

On 1st June 1980, Kameng District was bifurcated into East and West Kameng District. East Kameng was formed covering the area of the then Seppa Sub-Division and rest of the area of erst-while Kameng District was placed under West Kameng. Finally on 6th October, 1984, West Kameng District was again bifurcated and curving out the area of Tawang Sub-Division, Tawang District was formed.

### PHYSIOGRAPHY :-

The Topography of the District is mostly mountainous. A greater part of it falls within the higher mountain Zone, consisting a mass of tangled peaks and valleys.

In West Kameng, there are three principal mountain ranges-a part of Sela range, Bomdila range and Foot-hills range. The Sela range consists a series of mountains arranged in the form of big line from Tibet in the north, Bhutan in the West and thus forming a tough terrain to pass

Contd...

through it. The altitude of Sela range varies from 14000' to 15000' and Sela pass is 13714 feet high. The Bomdila range having an average height of 9000 feet is separated from the valley of river Dirang Chu, and in the northern part of the range the district headquarter-Bomdila lies at an altitude varying from 8100' to 9000' above sea level. South of the Sela range lies the Foot-hills range having hills of quite low altitudes and the area is mostly plain. The area of Foot-hills range is full of tropical forests with trees of great economic values and various types of wild game.

The Kameng river flows through the district and leaving the district at Bhalukpong it ultimately joins the river Brahmaputra in plains of Assam. Tenga, Bichom and Dirang Chu are the main tributaries of the river Kameng.

CLIMATE :-

The district is situated within the temperate Zone and is remote from the sea. The sea has thus no influence on its climate and the distance from the Equator is immaterial owing to the influence of the snow-clad mountains. The only factor which determines the climate is the direction and height of mountains and the nature of soil.

Although the district lies close to the tropic, it furnishes every gradation of climate, from the sultry and suffocating tropical heat of Foot-hills area to the arctic cold of snow-clad peaks. Thus the climate is hot and humid upto 4000' in southern area, temperate upto 7000' and cold beyond it. Humidity is generally high throughout the year, the winter months being less humid.

POPULATION:-

The district is having 156 villages with a population of 41,567 (as per 1981 Census). The average density of population per Sq.Km. is 7. The literacy rate is recorded at 25.28 and the sex ratio indicates 833 females per 1000 males. The scheduled castes and Scheduled Tribes population of the district are 247 and 23,101 persons respectively.

LOCAL INHABITANTS :-

There are five major tribes in West Kameng, namely Monpas, Mijis, Akas, Sherdukpens and Khowas.

MONPAS :-

The Monpas belong to the Tibeto Mongoloid stock. They are well built, fair in complexion and medium to tall in structure. They are generally hardy, energetic and unassuming in temperament.

A Monpa family is patriarchal. Monogamy is the general rule though polygamy is also practised. Monpas have castes and clans with no social hierarchy.

Due to slight variations in dialects Monpas can be divided into five linguistic groups, namely, Towang Monpa, Dirang Monpa, Lish Monpa, Boot Monpa and Kalaktang Monpa. Each group has its own dialects.

Monpas are Mahayana Buddhist by religion with close cultural and religious affinities with Bhutanese and Tibetans. All houses have small altars and chapels with statues of Buddha. Offering water in little cups and burning butter lamps are daily ritual. The people believe in transmigration of the soul and reincarnation.

The Monpas perform many pantomime dances out of which the 'Ajilamu' dance is very popular. Losar and Choskar are the major religious festivals of Monpas. Losar is celebrated to commemorate the advent of New Year. There is great merry-making and dancing during Losar festival. In Choskar festival the Lamas read religious scriptures in the Gompa for a number of days. There after the villagers carry the religious books on their back in a procession under the guidance of the senior Lama and the procession goes round the Cultivation fields. The significance of this performance is to ensure better cultivation and protect the grains from the insects and wild animals and also for the prosperity of the villagers in general.

The Monpas are agriculturists. They practise both shifting and permanent types of cultivation. They keep horses, yaks, cows, goats, sheep, pigs and fowls. They do hunting by net, angle and trap. The Monpas are known for wood-curving, painting, religious scrolls called Thankas, carpet-making and weaving.

#### MIJI(Dhammai):-

The Mijis live in the valley of Bichom river and they are a small group of people. According to their own tradition and belief they had originally migrated from the plains and even claim to have connections with the Ahom kings who ruled over Assam. Marriage among the Mijis usually takes place by negotiation. Normal bride price is given by the parents of the bridegroom.

The Mijis belong to the Mongoloid stock. They are divided into two classes, the Nyubbu and the Nyullu, who do not intermarry. Their religion is indigenous but they have come under certain amount of Buddhist influence.

The Miji family is patriarchal. The Mijis put prominent tattoo mark on faces. Basketry is a popular handicraft among the menfolk. The Mijis are agriculturist and practise shifting cultivation. They also do hunting and fishing.

The Mijis observe a number of ceremonies in the village, the most important celebration is known as Fungyik or Chindang. The Mijis believe in many Gods. Janglungui is the most powerful of all of them. A festival is observed in honour of the spirit in the month of October. Each village has a Decri or priest who officiates in the ritual.

There is a village council in each Miji village and the council consists of village headman and other elders of the village.

AKA(Hrusso):-

The Akas are inhabitants of the South Eastern part of West Kameng. Their main concentration is noticed in the Thrizino area.

The Aka society is said to be mainly based on two broad groups ; Kutsun and Kovatsun. An Aka family is patriarchal and polygamy is practised. Marriage takes place either by the common way of negotiations or by elopement. Cross cousin marriage is preferred to others. Mithuns are an essential part of the bride price for marriage. The Aka house is an elongated structure. The Akas have prominent tattoo marks on the faces. The Akas observe a number of ceremonies in the village. The most important community festival is known as Nchido, performed by village priest once in a year.

The Aka women make colourful bags. Basketry is the popular handicraft amongst the menfolk. The most common form of art is wood painting.

The Akas are agriculturist and they practise shifting cultivation. They keep Mithun, cow, horse, goat, pig and poultry. They practise hunting and chasing by means of spears, bows and arrows. The Akas have a number of songs and dances for different socio-religious festivities.

SHERDUKPEN:-

The Sherdukpens belong to Tibeto Mongoloid stock and they are fair in complexion. Their main concentration is spread over four main villages of Rupa, Jigaon, Shergaon and Thongre. However, at present some of them settled in Kamengbari area of West Kameng.

The Sherdukpen society is based on two classes: Thong and Chao. The Thongs are said to be descendants of King Japtang-Bura and Chao are the descendants of his partners and servant class. As such the class Thong is superior to Chao. The two classes are again divided into several clans.

A Sherdukpen family is patriarchal and they practise monogamous type of marriage. The Sherdukpen houses are generally erected on substantial stone foundations. The floor and walls are made of thick wooden planks.

Like Monpas, the Sherdukpens are also Buddhist and deeply religious. They observe a number of ceremonies, the important ones are (a) Choskar (b) Losar (c) Wang and (d) Khiksaba. The Choskar, Losar and Wang are Buddhist ceremonies. Khiksaba is a non Buddhist ceremony and celebrated at the outskirts of the villages.

The Sherdukpens are agriculturist and practise both shifting and permanent cultivation. They keep Livestock like ponies, Cows, goat, Sheep, fowls and bullocks. They hunt with bows and arrows. They practise fishing by means of nets, angles, traps. The Sherdukpen women are skillful weavers. The Sherdukpens perform many dances, the principal dances are the Yak dance, the deer dance and Ajilamu dance which are both exciting and entertaining. An interesting feature of Sherdukpens life is their annual migration during the winter month to Doimara and in the adjoining foot-hills area for purposes of trade and maintaining their age-long relations with the plains.

#### KHAWAS(Bugun):-

The Khawas inhabit in some of the villages of Bomdila and Thrizino circles of the district. They call themselves Bugun. The Tribe is sub-divided into a number of clans. All of them are said to have originated from a single tribal identity called "Ach-impimbu". The tribe endogamy and clan exogamy is the rule of the tribe. Monogamy is the social norm but sometimes bigamy is also practised.

A Khawa family is patriarchal. The Khawas belong to the Mongoloid stock and are of fair complexion. They have flat nose, conspicuous cheek-bones, black hair and brownish eyes. Both males and females keep long hair and tie their hair like the Akas and Mijis. The Khawa houses are like those of the Akas and Mijis, but the roofs of the houses are usually covered with bomboo matting.

Sheep, Goat, fowl and very rarely methun. They hunt and chase by means of spears, traps, bows and arrows.

The most important ceremony amongst the Khawas is 'Kshyat-sowai'. The village priest (Phabi) perform the ritual and the ceremonies. The Khawas have a number of songs and dances which are mainly associated with their socio religious festivities.

There is a village council in each Khawa village which is responsible for the internal administration.

#### ADMINISTRATIVE SET-UP:-

The administrative set up is based on single line Administration which aims at keeping a close co-operation amongst various development departments with the administration and thus work together for speedy development of the people and the area.

The entire district is divided into two Sub-Divisions viz. Bomdila and Nafra Buragaon. Bomdila Sub-Division has got four circles-i.e. Dirang, Kalaktang, Bomdila (Sadar) and Bhalukpong whereas Nafra Buragaon Sub-Division has two circles, namely Nafra and Thrizino.

The Deputy Commissioner, being the overall incharge of the district, maintains law and order with the help of administrative officers and Police force. The villagers have their own customary administrative system in the form of traditional village councils. The councils consist of the Gaon Buras and Members. The Assam Frontier Regulation, 1945, authorises the village councils to settle all civil matters and certain criminal matters falling within their jurisdictions. However for all matters, the Deputy Commissioner and some other Administrative officers have jurisdiction under the supervision of the Assam High Court which holds the appellate and the revisional authority.

The district has been covered by 3 blocks namely, Dirang, Kalaktang and Nafra-Buragaon.

The Panchayat Raj has been introduced in the district with the North East Frontier Agency Panchayat Raj Regulation, 1967. Under this regulation (1) the Gram Sabhas exist at the village level (2) the Anchal Samiti cover the level of blocks and Zilla Parishad operates at the district level. The regulation provides for effective participation of the people in the administration through the institutions set up under the Panchayat Raj Scheme.

HIGHLIGHTS ON IMPORTANT ASPECTS OF WEST KAMENG DISTRICT

1.	Administrative Sub-Division	:	2
2.	Administrative Circle	:	6
3.	Number of Blocks	:	3
4.	Number of Town	:	1 (Bomdila)
5.	Number of village	:	156
6.	Total population	:	41567
	(a) Male	:	22670
	(b) Female	:	18897
7.	Total Urban population	:	3860
	(a) Male	:	2238
	(b) Female	:	1622
8.	Percentage of Literacy	:	25.28
	(a) Literacy rate of male	:	32.19
	(b) Literacy rate of female	:	16.99
9.	Density of population	:	7 persons per Sq.Km.
10.	Sex Ratio	:	833 female per 1000 male.
11.	Decennial growth rate of population (1971-81)	:	29.44
12.	Scheduled Tribe population	:	23101
13.	Scheduled Caste population	:	247
14.	Name of Indegenous Scheduled Tribes	:	(a) Monpa (b) Miji (c) Aka (d) Sherdukpen (e) Khawa (Bugun) (f) Sulung.
15.	Important Rivers	:	(a) Kameng (Bhorali) (b) Tenga (c) Bichom (d) Gacham (e) Rowta (f) Dirang (g) Norgum (h) Bhaikund
16.	Hydel projects with capacity	:	(a) Dirang (1500Kw) (b) Rahung (750Kw) (c) Kalaktang (10Kw)
17.	No. of assembly constituencies	:	4
18.	(a) Nearest Railhead	:	Bhalukpong (100 Km from Bomdila)
	(b) Nearest Airport	:	Salonibari (Tezpur- 160 Km. from Bomdila)
19.	Altitude of circle & District Headquarters (In Meters)	:	(a) Bomdila varying from 2430 to 2700 (b) Dirang - - 1497 (c) Kalaktang - 1113 (d) Nafra - 1790 (e) Thrizino - 1224 (f) Bhalukpong - 213

20. Important Tourist spots : (a) Rupa Valley (b) Bondila  
(c) Dirang (d) Sola Pass
21. Total annual Rainfall during the year 1989 : (a) Bondila - 1268.90 mm  
(b) Thriving - 6451.00 mm  
(c) Dirang - 7920.00 mm  
(d) Kalong - 1468.78 mm
22. Temperature Recorded at Bondila during the year 1989 (In °C) : Maximum - 21.0 (on 22.7.89)  
Minimum - (-) 5.5 (on 20.2.89)
23. Known occurrence of Minerals : a) Coal  
b) Copper Ore  
c) Dolomite  
d) Glass sand  
e) Marble
24. Important Forest Species : Blue pine, Chir pine, Spruce, Fir, Hallowk spruce, Juniper, Elagori, Amari, Panna, Halid, Oak, Gomari, Walnut, Ficus, Mahahi.
25. Important Fauna  
(a) Mammalia : Leopard, Jungle cat, Jackal, Leopard Cat, Indian Elephant, Par-king Deer, Indian Wild Bear, Musk Deer, Monkey, Red Panda.  
(b) Birds : Babblers, Warblers, Chats, Jungle fowl, Peacock, Crested Kaliege, Hornbill, green and imperial Pigeon.  
(c) Fishes  
(i) Fishes available in Natural water : a) Oreochromis (b) Schizothorax  
c) Mahal (d) thewngyo (e) Patp  
(ii) Fishes cultured : a) Common Carp (b) Mirror Carp  
c) Brown (d) Mirgal.
26. Land use pattern : Forest, J. land, TRC, WRC and Horticulture.
27. Main Agricultural Produces  
(a) Rabi : Wheat, Buckwheat, Barley  
(b) Kharif : Paddy, Maize, Millet, Rajma, Potato, Soybean.
28. Main Horticultural Produces : Apple, Pear, Plum and Orange.
29. Main Live stock : Yak, Sheep, Pig, Dairy, Cattle, Mithun, etc.
