

GOVERNMENT OF HARYANA

(Based on N.S.S. 58<sup>th</sup> Round State Sample)

Issued By:

ECONOMIC & STATISTICAL ADVISER PLANNING DEPARTMENT, HARYANA **PREFACE** 

The present report on "Disabled Persons in Haryana" is brought out by Tabulation

Section on the basis of sample survey conducted under the  $58^{th}$  Round of NSS

(July,2002- December, 2002).

It contains three Chapters and Appendices. Chapter-1 is introductory while

Chapter-2 deals with the concepts and definitions of important terms used in the survey which is

relevant to this report? Chapter-3 deals with the findings on disability situation in Haryana. This

report contains valuable data on both mentally and physically disabled persons in Haryana with

special reference to their number, educational attainment, usual activity status, cause and degree of

disability, martial status, social group, onset of disability, living arrangement and assistance

received from govt./non-govt. agencies.

Sh. Manoj Kumar Goel, Research Officer under the guidance of Sh. Bir Singh,

Dy. Economic and Statistical Adviser and Sh. O.P.Dhankar, Addl. Economic and Statistical

Adviser has prepared this report. The acknowledgement is made of the sincere efforts done by

officials of NSS and Tabulation sections for timely completion of secrutiny, data entry and data

validation work on this survey. The credit also goes to Junior Field Investigators and Inspectors

(NSS) for collecting information timely from the field against all odds. Smt. Tara Mani, Steno

Typist, has done the computer typing work of this report.

Last but not least, credit also goes to all respondents of households, who provided

the desired information to the field staff patiently during the survey.

R.C. Sharma

Economic and Statistical Adviser

to Government, Haryana.

Chandigarh February, 2006

### **CONTENTS**

INTRODUCTION	1-3
CONCEPTS & DEFINITIONS	4-11
FINDINGS	12-34
APPENDIX	35-123

### **HIGHLIGHTS**

The main highlights of the survey conducted on the basis of 58<sup>th</sup> round of NSS are as follows:-

- \* The survey estimated the total number of disabled persons in Haryana as 266328. Out of this 210066 (78.88%) were in rural sector and 56262 (21.12%) in urban sector.
- \* Sex-wise breakup revealed that out of the total, 178144 (66.89%) were male and 88184 (33.11%) female.
- \* Out of the total 28179 (10.58%) were of Mental category, 18351 (6.89%) Visual, 24253 (9.11%) Communication, 186483 (70.02%) Locomotor and 9062 (3.40%) were in the category of Multiple disability.
- \* Out of the total disabled persons in Haryana, Scheduled Castes 20.63%, Other Backward Classes 27.45% and the Others accounted for 51.92%.
- \* Out of the total disabled persons in Haryana 54.87% were illiterate and 45.13% were literate.
- \* Out of the total disabled persons in Haryana 44.86% were never married.
- \* 68.76% of the disabled persons can take care of themselves without any aid/appliance, 13.77% with aid/appliance and 10.54% cannot take care of themselves on their own.
- \* 26.68% were in labour force and the remaining 73.32% were out of labour force in Haryana
- \* 69.12% were lost their work due to onset of disability.
- \* In 89.00% cases parents of disabled persons were not blood related.
- \* 83.56% have not received any assistance, 14.88% required assistance from government agencies and only 1.56% from non-government agencies.
- \* 42.64% were living with parents, 40.06% with spouse and other members, 7.17% with children and the remaining 10.13% were either living alone or with other relatives and non-relatives.

### **List of Tables**

- 1. Estimated number and Percentage distribution of Disabled Persons in Haryana by type of Disability.
- 2. Percentage distribution of Disabled Persons in Haryana by age-group wise.
- 3. Percentage distribution of Disabled Persons by social group-wise.
- 4. Percentage distribution of Disabled Persons by level of education for the age-group of 5 years & above by type of disability.
- 5. Percentage distribution of Disabled Persons by martial status.
- 6. Percentage distribution of Disabled Persons by extent of physical disability by sex & sector wise.
- 7. Percentage distribution of Disabled Persons of age-group 5 & above according to usual activity status by type of disability & sector-wise.
- 8. Percentage distribution of Disabled Persons working before the onset of Disability of age 5 years & above and change in working status due to onset of disability.
- 9. Distribution of Disabled Persons by onset of disability and type of relationship between parents.
- 10. Percentage distribution of Disabled Persons by nature of assistance/aid received from Govt./non-Govt. Organisation.
- 11. Number and percentage distribution of persons with mental retardation and mental illness by degree of disability for each sex and sector.
- 12. Number and percentage distribution of persons with visual disability by degree of disability for each sex and sector.
- 13. Number and percentage distribution of disabled persons with hearing disability by degree of disability for each sex and sector.
- 14. Number and percentage distribution of disabled persons with speech disability by degree of disability for each sex and sector.
- 15. Number and percentage distribution of disabled persons with locomotor disability by degree of disability for each sex and sector.
- 16. Number & percentage distribution of disabled persons with mental retardation and onset at age 0-18 years by cause of mental retardation for each sex and sector.

- 17. Number & percentage distribution of disabled persons with mental illness and onset at age 0-18 years by cause of mental illness for each sex and sector.
- 18. Number & percentage distribution of disabled persons with blindness by causes of blindness for each sex and sector.
- 19. Number & percentage distribution of disabled persons with low vision by cause of low vision for each sex and sector.
- 20. Number & percentage distribution of disabled persons with hearing disability by cause of hearing disability for each sex and sector.
- 21. Number & percentage distribution of persons disabled with speech disability by cause of speech for each sex and sector.
- 22. Number & percentage distribution of persons disabled with locomotor disability by cause of locomotor disability for each sex and sector.
- 23. Number & percentage distribution of disabled persons by type of living arrangements for each sex and sector.

### List of the Graphs

- 1. Percentage distribution of Disabled Persons in Haryana
- 2. Percentage distribution of Disabled Persons by social group wise (Rural)
- 3. Percentage distribution of Disabled Persons by social group wise (Urban)
- 4. Percentage distribution of Disabled Persons by level of education for the age group of 5 years & above (Rural).
- 5. Percentage distribution of Disabled Persons by level of education for the age group of 5 & above (Urban).
- 6. Percentage distribution of Disabled Persons by martial status (Rural).
- 7. Percentage distribution of Disabled Persons by martial status (Urban).
- 8. Percentage distribution of Disabled Persons by extent of physical disability (Rural).
- 9. Percentage distribution of Disabled Persons by extent of physical disability (Urban).
- 10. Percentage distribution of Disabled Persons by age group 5 & above according to usual activity status (Rural)
- 11. Percentage distribution of Disabled Persons by age group 5 & above according to usual activity status (Urban)
- 12. Percentage distribution of Disabled Persons working before the onset of Disability of age 5 years & above and change in working status (Rural).
- 13. Percentage distribution of Disabled Persons working before the onset of Disability of age 5 years & above and change in working status (Urban).
- 14. Percentage distribution of Disabled Persons by onset of disability and type of relationship between parents (Rural).
- 15. Percentage distribution of Disabled Persons by onset of disability and type of relationship between parents (Urban).
- 16. Percentage distribution of Disabled Persons by nature of assistance/aid received from Govt./non-Govt. Organisation (Rural).
- 17. Percentage distribution of Disabled Persons by nature of assistance/aid received from Govt./non-Govt. Organisation (Urban).
- 18. Percentage distribution of Disabled Persons with mental retardation and mental illness by degree of disability (Rural).

- 19. Percentage distribution of Disabled Persons with mental retardation and mental illness by degree of disability (Urban).
- 20. Percentage distribution of Disabled Persons with visual disability be degree of disability (Rural).
- 21. Percentage distribution of Disabled Persons with visual disability be degree of disability (Urban).
- 22. Percentage distribution of Disabled Persons with hearing disability by degree of disability (Rural).
- 23. Percentage distribution of Disabled Persons with hearing disability by degree of disability (Urban).
- 24. Percentage distribution of Disabled Persons with speech disability by degree of disability (Rural).
- 25. Percentage distribution of Disabled Persons with speech disability by degree of disability (Urban).
- 26. Percentage distribution of Disabled Persons with locomotor disability by degree of disability (Rural).
- 27. Percentage distribution of Disabled Persons with locomotor disability by degree of disability (Rural).
- 28. Percentage distribution of Disabled Persons with mental retardation and onset at age 0-18 years by cause of mental retardation (Rural).
- 29. Percentage distribution of Disabled Persons with mental retardation and onset at age 0-18 years by cause of mental retardation (Urban).
- 30. Percentage distribution of Disabled Persons with mental illness and onset at age 0-18 years by cause of mental illness (Rural).
- 31. Percentage distribution of Disabled Persons with mental illness and onset at age 0-18 years by cause of mental illness (Urban).
- 32. Percentage distribution of Disabled Persons with blindness by cause of blindness (Rural).
- 33. Percentage distribution of Disabled Persons with blindness by cause of blindness (Urban).
- 34. Percentage distribution of Disabled Persons with low vision by cause of low vision (Rural).
- 35. Percentage distribution of Disabled Persons with low vision by cause of low vision (Urban).

- 36. Percentage distribution of Disabled Persons with hearing disability by cause of hearing disability (Rural).
- 37. Percentage distribution of Disabled Persons with hearing disability by cause of hearing disability (Rural).
- 38. Percentage distribution of Disabled Persons with speech disability by cause of speech disability (Rural).
- 39. Percentage distribution of Disabled Persons with speech disability by cause of speech disability (Rural).
- 40. Percentage distribution of Disabled Persons with locomotor disability by cause of locomotor disability (Rural).
- 41. Percentage distribution of Disabled Persons with locomotor disability by cause of locomotor disability (Urban).
- 42. Percentage distribution of Disabled Persons according to living arrangements (Rural).
- 43. Percentage distribution of Disabled Persons according to living arrangements (Urban).

### MODUCTION

### CHAPTER - 1

### INTRODUCTION

The National Sample Survey (NSS) was set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods. The National Sample Survey Organisation, under Ministry of Statistics and Programme Implementation, Government of India, conducts countrywide socio-economic survey with the objective of filling up gaps in data required for planning. The National Sample Survey made its first attempt to collect information on the number of physically handicapped in the 15<sup>th</sup> round during July, 59 to June, 60. The enquiry was exploratory in nature and was confined to rural areas only. However, in the 16<sup>th</sup> round (July'60-June'61), the geographical coverage was extended to urban areas. The subject was again taken up in the 24<sup>th</sup> (July'69-June'70) and in the 28<sup>th</sup> (October'73-June'74) rounds of NSS. The objective of these early enquires was only to provide estimates of the number of persons in the country who suffered from certain specified physical handicaps. However, the types of physical handicap covered in all those rounds were not always same.

The NSSO undertook a comprehensive survey of disabled persons in its 36<sup>th</sup> round during the second half of 1981, the International Year of the Disabled Persons. After a gap of ten years, a second survey on the disabled was carried out in the 47<sup>th</sup> round during July-December 1991 at the request of Ministry of Social Welfare, Govt. of India. In these surveys, the objective was to provide the data base regarding the incidence—and prevalence of disability in the country. The basic framework of these surveys viz., the concepts, definitions and operational procedures was kept the same. While the earlier surveys were restricted to only the physically handicapped persons, in the surveys conducted during NSS 36<sup>th</sup> and 47<sup>th</sup> rounds an extended definition was used to cover all the physically disabled persons. Information was collected from all persons with one or more of the three physically disabilities-visual, communication (i.e. hearing and/or speech) and locomotor. The particulars of disability of the disabled persons, such as, the type of disability, degree of disability, cause, age at onset of disability, type of aid/appliance used, etc. were collected along with some socioeconomic characteristics.

Again after a gap of eleven years, the third survey on the disabled was carried out in the 58<sup>th</sup> round during July-December, 2002 at the request of Ministry of Social Justice and Empowerment (MSJE), Govt. of India. In this round, the coverage was extended to include mental disability also, keeping all other concepts, definitions and procedures for physical disability same as those of the 47<sup>th</sup> round. Along with the particulars of physical and mental disabilities, the socio-economic characteristics of the disabled persons such as their age, literacy, vocational training, employment, cause of disability, age at onset of disability, etc. were collected.

**Period of survey and work programme:** As mentioned earlier, the 58<sup>th</sup> round will be of six months duration starting on 1<sup>st</sup> July 2002 and ending on 31<sup>st</sup> December 2002. The survey period of this round is divided into two sub-rounds of three months duration each as follows:

Sub-Round	Period of Survey
1	July-September,2002
2	October-December,2002

There were 8456 and 9346 First Stage Units (FSUs) selected for Central sample and State sample respectively for conducting field survey work of 58th round of NSS. A total number of 144 samples termed as First Stage Units (FSUs) were allotted to Haryana State by NSSO, Govt. of India to conduct this survey. Out of this, 80 samples were allotted for rural areas and 64 samples were for urban areas. Equal number of sample FSUs were allotted in each of two sub-rounds with a view to ensuring uniform spread of sample FSUs over the entire period.

### **Schedules of enquiry:**

The following table lists the schedules of enquiry for the 58th round:-

S. No.	Schedule no.	Title of the schedule
1.	0.0	List of households
2.	1.0	Household consumer expenditure
3.	0.21	Particulars of Slum
4.	26	Survey of Disables Persons
5.	1.2	Housing Condition
6.	3.1	Village Facilities

Schedule 0.0 meant for listing all the houses, households residing in the sample FSU.

Schedule 1.0 meant for collection of information pertaining to the monetary values of all items consumed by a household on domestic account during the reference period.

Schedule 0.21 meant for collection information on (i) the present condition of the slums and (ii) change in condition of some facilities available in the slum.

Schedule 26 meant for collection the information for different types of disabilities for persons of all age groups.

Schedule 1.2 in the present round covers housing condition only.

Schedule 3.1 to collect information on village facilities.

**Subject Coverage:** The 58<sup>th</sup> round of NSS covered disability (both physical and mental), housing condition, village facilities & slum. In addition, the annual consumer expenditure enquiry out on a sample of four households in each sample FSU.

**Difficulties in collecting information on disability:** Since the data are collected by the non-medical investigators, it is imperative to define disability in a very careful and guarded way to minimize the bias of the investigators and respondents. To minimize these difficulties and to involve feasible and practical concepts and definitions of disability, the experts from the relevant medical disciplines were consulted prior to the 58<sup>th</sup> round. The decision to include mental disability in the survey was taken on the basis of a pre-test of the questions on mental disability, both for the listing and detailed schedules.

The results presented in this report relate to both physical and mental disabilities, namely,(i) mental disability, (ii) visual disability, (iii) hearing disability, (iv) speech disability and (v) locomotor disability. More specifically, the report gives the incidence and prevalence of different forms of disability and the distribution of the disability by cause of disability (as reported by the informant), marital status, education level, living arrangements, activity status, etc.

# CONCEPTS & SETTIONS

### **CHAPTER - 2**

### **CONCEPTS AND DEFINITIONS**

The concepts and definitions of some important terms used in the survey and which are relevant to this report viz., those used to generate the tables disability are explained in the following paragraphs.

- 1. Economic Activity: Any activity resulting in production of goods and services that add value to national product was considered as an economic activity. Such activities included production of all goods and services for market, i.e. production for pay or profit and the production of primary commodities for own consumption and own account production of fixed assets, among the non-market activities. As in earlier rounds, certain activities like prostitution, begging, smuggling etc., which though fetched earning, were, by convention, not considered as economic activities.
- 2. **Activity Status:** It is the activity situation in which a person was found during a reference period with regard to the person's participation in economic and non-economic activities. According to this, a person could be in one or a combination of the following three broad activity statuses during a reference period:
- (i) Working or being engaged in economic activity (work) as defined above.
- (ii) Being not engaged in economic activity (work) but either marking tangible efforts to seek 'work' or being available for 'work' if the 'work' is available and
- (iii) Being not engaged in any economic activity (work) and also not available for 'work' (Broad activity statuses mentioned in (i) & (ii) above are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, broad activity status (i) and (ii) were associated with 'employment' and 'unemployment', respectively.)
- 3. Categories of activity status: Identification of each individual into a unique situation could pose a problem when more than one of the three broad activity statuses listed above were concurrently obtained for a persons. In such an eventuality, the identification uniquely under any one of the three broad activity statuses was done adopting either the major time or priority criterion. The former was used for classification of persons according to the 'usual activity status' approach and the latter for classification of persons according to the 'current activity status' approach. Each of the three broad activity statuses was further sub-divided into several detailed activity categories. If a person categorized as engaged in economic/non-economic activity by adopting one of the two criteria mentioned above was found to be pursuing more than one economic-non economic activity during the reference period, the appropriate detailed activity status code related to the activity in which relatively more time had been spent. The detailed activity categories under each of the three broad activity statuses used in the survey along with the codes assigned to them (in brackets) are stated below:

- (i) Situation of working or being engaged in economic activities (employed):
  - (a) worked in household enterprise (self-employed) as own account worker (11);
  - (b) worked in household enterprise (self-employed) as employer (12);
  - (c) worked as helper in household enterprises (unpaid family worker) (21);
  - (d) worked as regular salaried/wage employee (31);
  - (e) worked as casual wage labour (i) in public works (41), (ii) in other types of work (51);
  - (f) had work in household enterprise but did not work due to : (i) sickness (61), (ii) other reasons (62); and
  - (g) had regular salaried/wage employment but did not work due to : (i) sickness (71), (ii) other reasons (72);
- (ii) Situation of being not engaged in work but seeking or available for work (unemployed):
  - (a) sought work (81) and
- (iii) Situation of being not available for work (not in labour force):
  - (a) attended educational institutions (91);
  - (b) attended domestic duties only (92);
  - (c) attended domestic duties and was also engaged in free collection of goods (vegetable. roots, firewood, cattle-deed etc.) sewing, tailoring, weaving etc. for household use (93);
  - (d) rentiers, pensioners, remittance recipient, etc. (94);
  - (e) not able to work due to disability (95);
  - (f) beggars, prostitutes (96);
  - (g) others (97);
  - (h) did not work due to sickness (for casual workers only) (98) and
  - (i) children of age 0-4 years (99).
- 4. Workers (or employed): Persons who were engaged in any economic activity or who, despite their attachment to economic activity, abstained from work for reason of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constituted workers, Unpaid helpers who assisted in the operation of an economic activity in the household farm or non-farm activities were also considered as workers. All the workers were assigned one of the detailed activity statuses under the broad activity category 'working' or 'being engaged in economic activity' (or employed).
- 5. Seeking or available for work (or unemployed): Persons, who owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for

work under the prevailing conditions of work and remuneration, were considered as those who were 'seeking or available for work' (or unemployed).

- 6. **Labour force:** Persons, who, were either 'working' (or employed) or 'seeking or available for work' (or unemployed) constituted the labour force. Persons who were neither 'working' nor 'seeking or available for work' for various reasons during the reference period were considered as 'out of labour force'. The persons under this latter category were students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young or too old persons, prostitutes, smugglers, etc. and casual labours not working due to sickness.
- 7. **Self-employed:** Persons who operated their own farm or non-farm enterprises or were engaged independently in a profession or trade on own-account or with one or a few partners were deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have autonomy (i.e., how, where and when to produce) and economic independence (i.e., market, scale of operation and money) for carrying out their operation. The fee or remuneration received by them comprised two parts-share of their labour and profit to the enterprise. In other words, their remuneration was determined wholly or mainly by sales or profits of the goods or services which were produced.

Categories of self-employed persons: Self-employed persons were categorized as follows:

- (i) Own-account workers: those self-employed persons who operated their enterprise on their own account or with one or a few partners and who, during the reference period, by and large, run their enterprise without hiring any labour. They could, however, have had unpaid helpers to assist them in the activity of the enterprise.
- (ii) Employers: those self-employed persons who worked on their own account or with one or a few partners and, who by and large, run their enterprise by hiring labour, and
- (iii) Helpers in household enterprise: those self-employed persons (mostly family members) who were engaged in their household enterprises, working full or part time and did not receive any regular salary or wages in return for the work performed. They did not run the household enterprise on their own but assisted the related person living in the same household in running the household enterprise.
- 8. **Regular salaried/wage employee:** These were persons who worked in other's farm or non-farm enterprises (both household and non-household) and, in return, received salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category included not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

- 9. Casual wage labour: A person who was casually engaged in others' farm or non-farm enterprises (both household and non-household) and, in return received wages according to the terms of the daily or periodic work contract, was a casual wage labour.
- 10. **Usual activity status:** The usual activity status relates to the activity status of a person during the reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively longer time (i.e. major time criterion) during the 365 days preceding the date of survey is considered as the principal usual activity status of the person. To decide the principal usual activity of a person, he/she was first categorized as belonging to the labour force or not during the reference period on the basis of major time criterion. Persons thus adjudged as not belonging to the labour force were assigned the broad activity status 'neither working nor available for work'. For persons belonging to the labour force, the broad activity status of either 'working' or 'not working but seeking and/or available for work' was ascertained based on the same criterion viz. Relatively longer time spent in accordance with either of the two broad statuses within the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined the detailed activity status of a person

pursuing more than one such activity was determined once again on the basis of the relatively longer time spent on such activities. In terms of activity codes (stated earlier in no. 3), codes 11-51 were applicable for persons classified as workers, while code 81 was assigned to people either seeking or available for work (unemployed persons) and codes 91-99 for those who were out of labour force.

- 11. **Subsidiary economic activity status:** A person whose principal usual status was determined on the basis of the major time criterion could have pursued some economic activity for a relatively shorter time (minor time) during the reference period of 365 days preceding the date of survey status of that person. Thus, activity status codes 11-51 only were applicable for persons reporting some subsidiary economic activity. It may be noted that engagement in work in subsidiary capacity could arise of the following two situations, viz.
- (i) a person could be engaged for a relatively longer period during the last 365 days in one economic/non-economic activity and for a relatively shorter period in another economic activity, and
- (ii) a person could be pursuing one economic activity/non-economic activity almost throughout the year in the principal usual activity status and simultaneously pursue another economic activity for a relatively shorter period in a subsidiary capacity.
- 12. Number of subsidiary economic activities pursued during last 365 days: For persons reporting some subsidiary activity, the number of subsidiary activities pursued by him/her during last 365 days was ascertained and recorded. However, details of a maximum of two such subsidiary economic

activities were recorded. The activities having different work status was considered as different activities. Activities within the same work status but with different industry and/or occupation were considered as different activities. If the person was engaged in two or more subsidiary economic activities, the details of the subsidiary economic activity pursued for the maximum time period among all the subsidiary economic activities, or in other words, the major subsidiary economic activity was deemed as 'subsidiary status number I' and the next major one as 'subsidiary status number II' were recorded.

- 13. **Current weekly activity status:** The current weekly activity status of a person will be the activity status obtaining for a person during a reference period of seven days preceding the date of survey. Irrespective of the usual activity pursued by a person, his/her current weekly activity will be determined strictly on the basis of the activities pursued by the person during the reference period of seven days preceding the date of survey adopting the priority criterion.
- 14. **House:** Every structure, tent, shelter, etc., is a house irrespective of use. It may be used for residential or non-residential purpose or both or even may be vacant.
- 15. **Household:** A group of persons normally living together and taking food from common kitchen constitute a household. The word 'normally' means that temporary visitors are excluded but temporary stay-aways are included. Thus a son or daughter residing in hostel for studies is excluded from household of his/her parents, but a resident employee or resident servant or paying guest (but just not a tenant in the house) is included in the employers/host's household. 'Living together' is usually given more importance than 'sharing food from a common kitchen' in drawing the boundaries of a household. In case the two criteria are in conflict; however in special case of person taking food with his family but sleeping elsewhere (say, in shop or a different house) due to space shortage, the household formed by such person's family members is taken to include the person also. Each inmate of mess, hotel, boarding house, etc. is considered as single member household but a family living in a hotel is considered to be one household only; the same applies to residential staff of such establishments.
- 16. **Household Size:** The number of normally resident members of a household is its size. It will include temporary stayaways but exclude temporary visitors and guests.

**Household Consumer Expenditure**: The expenditure incurred by a household on domestic consumption during the reference period is the household's consumer expenditure. The household consumer expenditure is the total of the monetary value of consumption of various groups of items namely:

- i) food, pan (betal leaves), tobacco, intoxicants and fuels and light.
- ii) clothing and footwear; and

### iii) miscellaneous goods and services and durable articles.

For group (i) and (ii), the total value of consumption is derived by aggregating the monetary value of goods actually consumed during the reference period. An item of clothing and footwear would be considered to have been consumed if it is brought into maiden or first use during reference period. The consumption may be out of:

For evaluating the consumption of the items of group (iii) i.e. items categorized as

- a) Purchase made during the reference period or earlier.
- b) home grown stock.
- c) receipt in exchange of goods and services
- d) any other receipt like gift, charity, borrowings; and
- e) free collection.

miscellaneous goods and services and durable articles, a different approach is followed, in this case, the value of actual purchase i.e. the expenditure made during the reference period for the purchase of goods and services is considered as consumption. It is pertinent to mention here that the consumer expenditure of a household on food items relates to the actual consumption by the normal resident members of the household and also by the guests, whether during ceremonies or otherwise. To avoid double counting, transfer payments like charity, loan, advance, etc., made by the household are not considered consumption for items of groups (i) and (ii), since transfer receipts of these items have been taken into account. However, the item 'cooked meals' is an exception to the rule. Meals prepared in the household kitchen and provided to the employees and/or others would automatically get included in domestic consumption of employer (payer) household. There is a practical difficulty in estimating the quantities and values of individual items used for preparing the meals served to employees or to others. Thus, to avoid double counting, cooked meals received as perquisites from employer household or as gift or charity are not recorded in the recipient household. As a general principle, cooked meals purchased from the market for consumption of the normal resident members and of guests and employees will also be recorded in the purchaser household.

This procedure of recording cooked meals served to others in the expenditure of the serving households only leads to bias-free estimates of average per capita consumption as well as total consumer expenditure. However, as the proportions of donors and recipients of free cooked meals are likely to vary in opposite directions over the expenditure classes, the nutritional intake derived from the consumer expenditure survey data may present a somewhat distorted picture. These derived nutrition intakes may get inflated for the rich (net donors) and somewhat understated for the poor (net

recipients). This point has to be kept in mind while using the NSS consumer expenditure data for any nutritional studies relating to the nutritional status of households.

**18 Disability**: A person with restrictions or lack of abilities to perform an activity in the manner or within the range considered normal for a human being is treated as having disability. It excludes illness/injury of recent origin (morbidity) resulting into temporary loss of ability to see, hear, speak or move.

19 Mental disability: Persons who have difficulty in understanding routine instructions, who do not carry out their activities like others of similar age or exhibit behaviors like talking to self, laughing/crying, staring, violence, fear and suspicion without reason would be considered as mentally disabled for the purpose of the survey. The "activities like others of similar age" will include activities of communication (speech), self-care (cleaning of teeth, wearing clothes, taking bath, taking food, personal hygiene, etc.), home living (doing some household chores) and social skills.

The mentally disabled were categorized into two groups viz. Mentally retarded and mentally ill. In the survey three probing questions were asked and based on the information so obtained, the persons were categorized into mentally retarded and mentally il. The probing questions were:

- is there anyone in the family who has difficulty in understanding instruction, who does not carry out his/her activities like others of his/her age or exhibits behaviors like talking to self, laughing/crying without reason, staring, violence:
- if the response was affirmative to the question above, it was asked whether the behaviour was observed since birth/childhood but before 18 years of age:
- the third question was "was he/she late in talking, sitting, standing or walking?"

  If the response to these three questions were all in affirmative, then the person was categorized as mentally retarded. On the other hand, if the response to the first question was in affirmative but responses for the other two questions were not both in affirmative, then the person was categorised as mentally ill.
- **20 Visual disability:** By visual disability, it is meant, loss or lack of ability to execute tasks requiring adequate visual acuity. For the survey, visually disabled will include (a) those who do not have any light perception-both eyes taken together and (b) those who have light perception but cannot correctly count fingers of hand (with spectacles/contact lenses if he/she uses spectacles/ contact lenses) from a distance of 3 meters (or 10 feet) in good day light with both eyes open. Night blindness is not to be considered as visual disability.

- 21 Hearing disability: This refers to persons' inability to hear properly. Hearing disability is to be judged taking into consideration the disability of the better ear. In other words, if one ear of a person is normal and the other ear has total hearing loss, then the person is to be judged as normal in hearing for the purpose of the survey. Hearing disability will be judged without taking into consideration the use of hearing aids (i.e., the position for the person when hearing aid is not used). Persons with hearing disability may have different degrees of disability, such as profound, severe or moderate. A person will be treated as having "profound' hearing disability if he/she cannot hear at all or can only hear loud sounds, such as, thunder or understands only gestures. A person will be treated as having 'severe' hearing as, disability if he/she can hear only shouted words or can hear only if the speaker is setting in the front. A person will be treated as having 'moderate' hearing disability if his/her disability is neither profound nor severe. Such a person will usually ask to repeat the words spoken by the speaker or will like to see the face of the speaker while he/she speaks or will feel difficulty in conducting conversations.
- 22 Speech disability: This refers to persons' inability to speak properly. Speech of a person is judged to be disordered if the person's speech is not understood by the listener. Persons with speech disability will include those who cannot speak, speak only with limited words or those with loss of voice. It also includes those whose speech is not understood due to defects in speech, such as stammering nasal voice and discordant voice, hoarse voice and articulation defects, etc.
- 23 Locomotor disability: A person with- (a) loss or lack of normal ability to execute distinctive activities associated with the movement of himself/herself and objects from place to place and (b) physical deformities, other than those involving the hand or leg or both, regardless of whether the same caused loss or lack of normal movement of body-will be considered as disabled with locomotor disability. Thus, persons having locomotor disability will include those with (a) loss or absence or inactivity of whole or part of hand or leg or both due to amputation, paralysis, deformity or dysfunction of joints which affects his/her "normal ability to move self or objects" and (b) those with physical deformities in the body (other than limbs), such as, hunch back, deformed spine, etc. Dwarfs and persons with stiff neck of permanent nature who generally do not have difficulty in the normal movement of body and limbs will also be treated as disabled.

## 

### **CHAPTER-III**

### **FINDINGS**

This chapter is devoted for the analysis of main findings of the survey of Disabled persons in Haryana in terms of their number, cause of disability, educational qualifications, living arrangement, degree of disability etc.

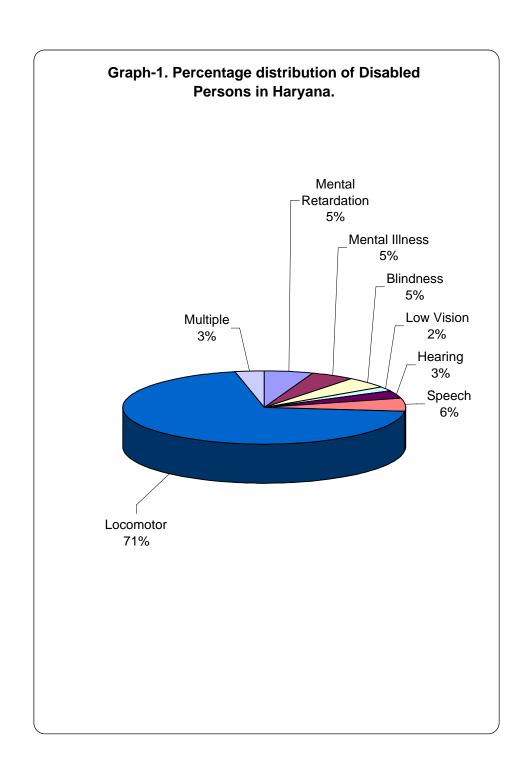

### **Estimated Number of Disabled Persons:-**

The survey reveals that there is 266328 estimated Disabled Persons in Haryana, which constitute 1.2% of the total population. Out of this, 210066 persons were in rural and 56262 persons in urban sector. Percentage of estimated number of Disabled Persons is presented in table 3.1 and graph-1.

Table 3.1 Estimated number and Percentage distribution of Disabled Persons in Haryana by type of Disability.

	% age of total	52.92	25.96	78.88	13.97	7.15	21.12	66.89	33.11	100.00	

The above table reveals that 28179 (10.58%) were of Mental category, 18351 (6.89%) visual, 24253 (9.11%) communication, 186483 (70.02%) locomotor and 9062 (3.40%) were in the category of multiple disability. Out of the total disabled persons, 78.88% were found in rural and 21.12% in urban sector. In the case of disability 5.56% were found as mental retarded and 5.02% as mental illness. In the case of mental visual disability, 5.02% were found blind and 1.87% were found

low vision cases. About 3.30% persons were found as enable to hear properly and 5.81% persons were found as enable to speak properly. The table also reveals that 70.02% and 3.40% of the persons with locomotor and multiple disability respectively. Sex wise breakup revealed that out of the total disabled persons, 66.89% males and 33.11% females were found as disabled.

Table 3.2 Percentage distribution of disabled person in Haryana by age-group wise.

Age group	Rural				Urban		Haryana			
	M	F	Т	M	F	T	M	F	T	
0-4	2.05	2.18	2.09	1.46	3.26	2.07	1.93	2.42	2.09	
5-9	5.82	7.97	6.53	7.12	7.99	7.42	6.09	7.98	6.72	
10-14	8.96	11.55	9.81	10.79	9.48	10.35	9.34	11.10	9.92	
15-19	11.87	8.65	10.81	8.18	7.27	7.87	11.10	8.35	10.19

25-29	4.89	7.42	5.72	5.79	6.04	5.88	5.08	7.12	5.75	
30-34	6.06	11.85	7.97	3.90	8.68	5.52	5.61	11.17	7.45	
35-39	7.18	3.34	5.92	9.71	5.42	8.26	7.71	3.79	6.41	
40-44	6.07	5.35	5.83	6.75	7.09	6.87	6.21	5.72	6.05	
45-49	6.70	6.42	6.61	9.57	4.24	7.76	7.30	5.95	6.85	
50-54	7.30	3.63	6.09	4.37	4.92	4.56	6.69	3.91	5.77	
55-59	2.35	3.59	2.75	2.36	3.92	2.89	2.35	3.66	2.78	
> 59	21.64	15.57	19.64	18.07	17.60	17.91	20.89	16.01	19.28	

The above table reveals that the maximum (19.64% & 17.91%) percentage of the total disabled in rural sector & urban sector were in the age group of > 59 years respectively. The maximum (19.28%) percentage of total disabled in Haryana were also in the age group of > 59 years. The age-group in 0-4 years accounted for only 2.09% disabled persons in rural & 2.07% in urban sector respectively. It can be further observed that more than half of the disabled persons in Haryana were found up to age of 34 years.

### Social group-wise distribution:-

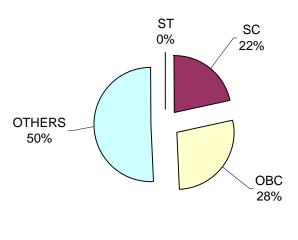

Percentage distribution of group-wise disabled persons is presented in table 3.3 &graphs 2 & 3.

Table 3.3 Percentage Distribution of disabled persons by social group-wise

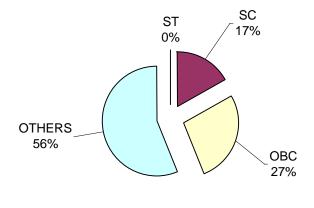

Sex &	Household Social Group									
Sector	ST	SC	OBC	Others	Total					
Rural	•			•	•					
Male	-	20.57	29.43	50.00	100.00					
Female	-	23.73	23.80	52.47	100.00					
Person	-	21.61	27.58	50.81	100.00					
Urban	•			•						
Male	-	17.47	26.32	56.21	100.00					
Female	-	16.03	28.19	55.78	100.00					
Person	-	16.99	26.95	56.06	100.00					
Haryana	1			1	1					
Male	-	19.92	28.79	51.29	100.00					
Female	-	22.07	24.74	53.19	100.00					
Person	-	20.63	27.45	51.92	100.00					

The above table reveals that 20.63% of total disabled person of Haryana belonged to 'Scheduled Caste' category, 27.45% to 'Other Backward Class' and 51.92% belonged to 'Others'. It means that about half of the disabled persons of Haryana belonged to SC & OBC categories. The disabled person of Scheduled Tribe category in Haryana is nil, because there is no area notified for ST.

Graph-2. Percentage distribution of Disabled Persons by social group wise (Rural)

Graph-3. Percentage distribution of Disabled Persons by social group wise (Urban).

### **Education Level:-**

The table 3.4 and graphs 4 & 5 gives the percentage distribution of Disabled persons by level of education for the age group of 5 years & above.

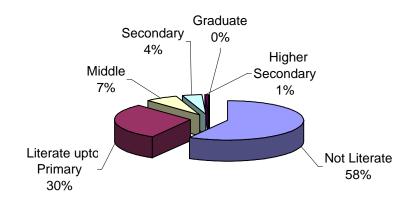

Table 3.4 Percentage distribution of Disabled Persons by level of education for the age group of

5 years & above by type of disability.

Hearing	35.34	39.39	10.98	8.80	5.49	-	100.00
Speech	37.41	37.57	21.31	3.71	-	-	100.00
Locomotor	33.91	26.92	18.60	12.33	8.24	-	100.00
Multiple	58.48	38.26	3.26	-	-	-	100.00
Total	41.93	27.58	14.68	9.54	6.27	-	100.00
Haryana	54.87	29.17	8.71	5.25	2.00	-	100.00

The above table reveals that 54.87% of disabled persons in Haryana are not literate. No disabled person has qualification of graduate & above. The percentage of literacy is much higher in urban sector (58.07) in comparison to rural sector (41.67%), because there are more educational facilities available in urban sector in comparison to rural sector i.e. schools for blind, mentally retarted

Graph-4. Percentage distribution of Disabled Persons by level of education for the age group of 5 years & above (Rural).

Graph-5. Percentage distribution of Disabled Persons by level of education for the age group of 5 & above (Urban).

and deaf & dumb are available in urban sector. In rural sector the maximum percentage of illiterate persons are in blind category (86.00%) and minimum in locomotor (52.73%). In urban sector, the maximum percentages of illiterate persons are in mentally retarded category (93.62%) and minimum in low vision (19.40%).

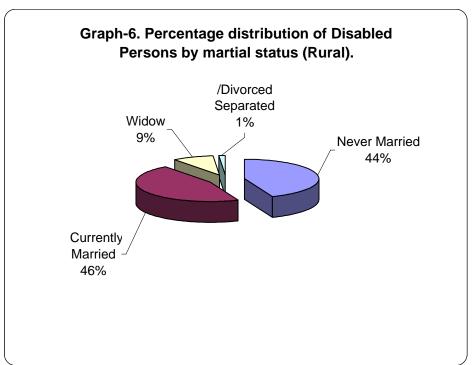

### **Martial Status:-**

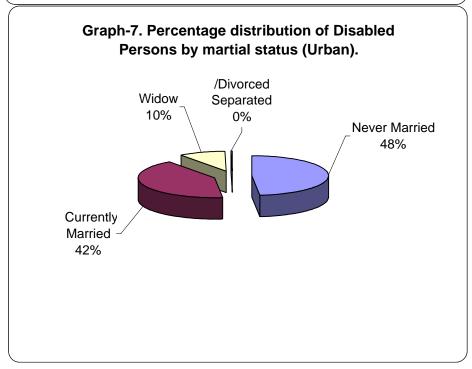

Table 3.5 and graphs 6 & 7 give the percentage distribution of disabled persons in Haryana according to martial status.

Table 3.5 Percentage Distribution of Disabled Persons by martial status.

Age-group &		Martial Status

Haryana	44.86	45.00	9.00	1.14	100.00							

The above table reveals that 44.86% were never married, 45.00 currently married, 9.00% widowed and 1.14% were divorced/separated in Haryana. In rural sector, this percentage was 43.90%, 45.93%, 8.80% and 1.37% respectively and in urban sector, the percentage of never married,

currently married, widowed & divorced/separated was 48.46%, 41.51%, 9.75% and 0.28% respectively. The table also reveals that there is no married person in age of less than 14 years in both sectors.

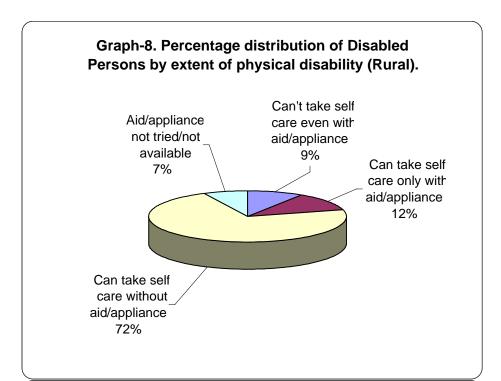

### Degree of Disability: -

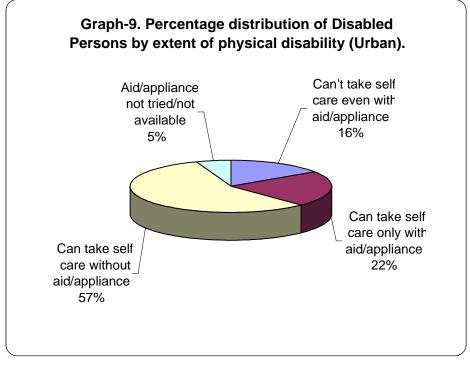

Table 3.6 and graphs 8 & 9 gives the extent of physical disability by sex & sector-wise.

Table 3.6 Percentage Distribution of disabled persons by extent of physical disability by sex & sector wise.

Sex &	Extent of Physical Disability								
Sectors	Can't take self care even with aid/appliance	Can take self care only with aid/appliance	Can take self care without aid/appliance	Aid/appliance not tried/not available	Total				
Rural									
Male	10.16	12.70	70.05	7.09	100.00				
Female	7.41	9.30	75.54	7.75	100.00				
Person	9.25	11.57	71.87	7.31	100.00				
Urban									
Male	14.68	23.79	58.32	3.21	100.00				
Female	17.26	19.26	53.54	9.94	100.00				
Person	15.55	22.26	56.71	5.48	100.00				
Haryana									
Male	11.08	14.97	67.65	6.30	100.00				
Female	9.46	11.37	70.96	8.21	100.00				
Person	10.54	13.77	68.76	6.93	100.00				

The above table reveals that 68.76% of disabled persons had told that they can take care of themselves without any aid/appliance, 13.77% with the help of aid/appliance, 6.93%, not tried any aid/appliance and 10.54% had expressed their inability to take care even with aid/appliance. The percentage of disabled persons not tried any aid/appliance in rural sector (7.31%) is more in comparison to urban sector (5.48%). This shows that rural population are less aware about aid/appliance in comparison to urban sector.

### **Activity Status:-**

The table 3.7 and graphs 10 & 11 gives the percentage distribution of disabled persons of age-group 5 & above according to usual activity status during last 365 days preceding the date of survey.

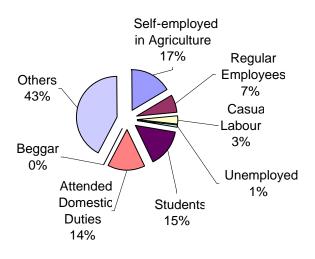

Table 3.7 Percentage distribution of disabled persons of age-group 5 & above according to usual

The above table reveals that 27.90% persons were found in labour force and 72.10% persons were out of labour force in rural sector. 22.14% persons were found in labour force and 77.86% persons were out of labour force in urban sector. The maximum persons were found out of

Graph-10. Percentage distribution of Disabled Persons of age group 5 & above according to usual activity status (Rural).

Graph-11. Percentage distribution of Disabled Persons of age-group 5 & above according to usual activity status (Urban).

labour force in mental category in Haryana. The maximum employed persons were found as self employed in agriculture in Haryana.

# **Change in Working Status:-**

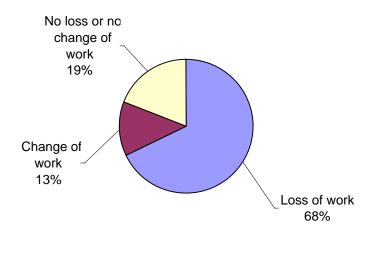

The table 3.8 and graphs 12 & 13 gives the percentage distribution of disabled persons who were working before the onset of disability of age 5 years and above by loss or change of work.

Table 3.8. Percentage distribution of disabled persons working before the onset of Disability of age 5 years & above and change in working status due to onset of disability.

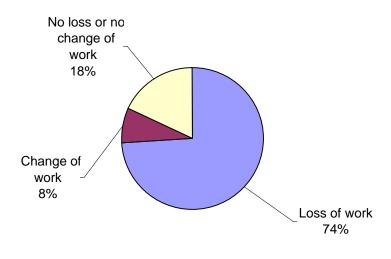

Sex &	Cha	nge in working statu	s due to onset of disa	bility
Sector	Loss of work	Change of work	No loss or no change of work	Total
Rural				
Male	63.04	13.74	23.22	100.00
Female	84.63	10.15	5.22	100.00
Total	67.83	12.95	19.22	100.00
Urban	•			
Male	69.76	11.30	18.94	100.00
Female	84.36	0	15.64	100.00
Total	73.78	8.19	18.03	100.00
Haryana				
Male	64.41	13.25	22.34	100.00
Female	84.56	7.56	7.88	100.00
Total	69.12	11.92	18.96	100.00

The above table reveals that 69.12% persons has reported to have lost their employment, 11.92% experienced change in nature of employment and remaining 18.96% managed to retain their status in Haryana. The percentage of loss of work was found much higher in female (84.56%) in comparison to males (64.41%).

Graph-12. Percentage distribution of Disabled Persons working before the onset of Disability of age 5 years & above and change in working status (Rural).

Graph-13. Percentage distribution of Disabled Persons working before the onset of Disability of age 5 years & above and change in working status (Urban).

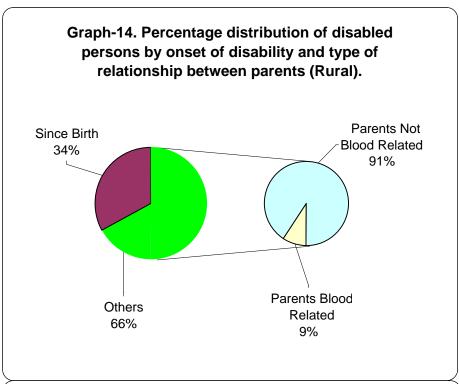

## **Onset of Disability:-**

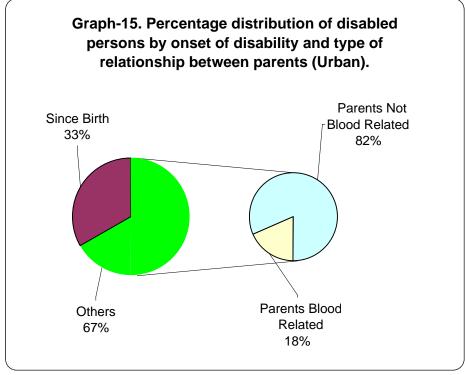

The table 3.9 and graphs 14 & 15 gives the distribution of disabled persons by onset of disability and type of blood relationship between parents.

Table 3.9. Distribution of Disabled Persons by Onset of disability and type of relationship between parents.

Age-group &	Onset of Disability	Type	of Relationship between	n Parents
sector		Blood Related	Not Blood Related	Total
Rural				
0-14	Since birth	3558	20621	24179
	Others	2059	12484	14543

				(66.33)
	Total	29293	237035	266328
		(11.00)	(89.00)	(100.00)

The above table reveals that out of the total disabled persons in Haryana nearly  $1/3^{\rm rd}$  were having the disability since birth and remaining had acquired disability due to some other reasons. The table also reveals that 89.00% case parents of disabled persons were not blood related.

#### **Assistance Received:-**

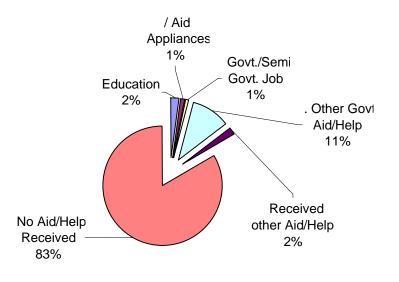

The table 3.10 and graphs 16 & 17 gives percentage distribution of Disabled persons by nature of assistance/aid received from various organisations.

Table 3.10. Percentage distribution of Disabled persons by nature of assistance/aid received from Govt./non-govt. organisation.

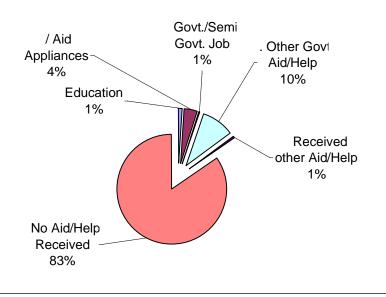

Sectors			Receive	d Govt.		other	aid/help	Received			
	Education	Vocational training	Aid/ appliances	Corrective surgery	Govt./semi Govt. Job	Other Govt. Aid/help	Sub-total	Received Aid/help	Total Received	No aid/ help Received	Total
Rural

Total	1.00	0	3.87	0	0.51	9.54	14.92	0.59	15.51	84.49	100.00
Haryana										ı	
Male	1.42	0	1.59	0	0.99	9.95	13.95	1.45	15.40	84.60	100.00
Female	3.13	0	2.16	0	0.17	11.31	16.77	1.78	18.55	81.45	100.00
Total	1.98	0	1.78	0	0.72	10.40	14.88	1.56	16.44	83.56	100.00

The above table reveals that 83.31% disabled persons have not received any assistance from Govt./non-Govt. organisations in rural sector, while this percentage was 84.49% in urban sector. Out of any assistance received, 14.86% disabled persons received aid/help from govt. in rural sector and this percentage was 14.29% in urban sector. The lower percentage of assistance received may due to ignorance about assistance schemes.

Graph-16. Percentage distribution of Disabled Persons by nature of assistance/ aid received from Govt./non-Govt. organisation (Rural).

Graph-17. Percentage distribution of Disabled Persons by nature of assisatnce/ aid received from Govt./non-Govt. organisation (Urban).

## **Degree of Disabilities:**

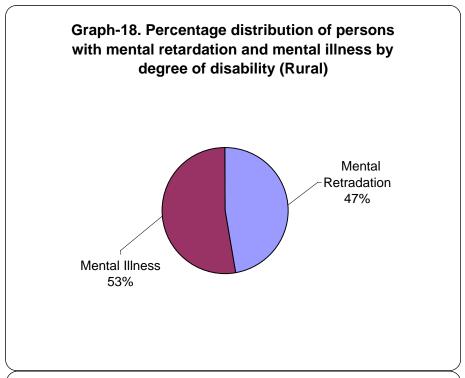

# a) Mental disability

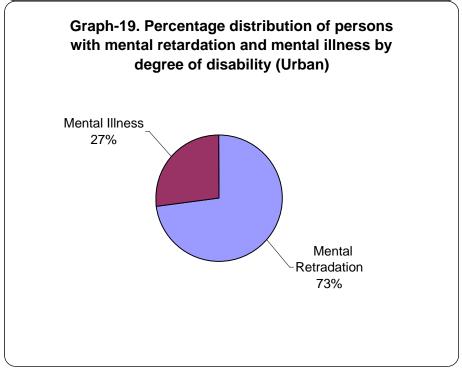

The prevalence rate, number of mentally retarded/ill persons has been obtained separately. The following table and graphs 18 & 19 provides the prevalence rate for rural & urban sectors of Haryana.

Table 3.11 Number & percentage distribution of persons with mental retardation and mental illness by degree of disability for each sex and sector.

Mentally		Rural			Urban		Haryana			
Disabled	M	F	P	M	F	P	M	F	P	
Mental	7464	3365	10829	2784	1195	3979	10248	4560	14808	
Retardation	(45.50)	(53.29)	(47.66)	(74.32)	(69.72)	(72.88)	(50.86)	(56.80)	(52.55)	
Mental	8941	2949	11890	962	519	1481	9903	3468	13371	
Illness	(54.50)	(46.71)	(52.34)	(25.68)	(30.28)	(27.12)	(49.14)	(43.20)	(47.45)	
Total	16405	6314	22719	3746	1714	5460	20151	8028	28179	
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	
			(80.49)			(19.51)			(100.00)	

The above table shows that 52% persons were mentally retarded and about 48% mentally ill. The prevalence rate was found much higher in rural sector (80.49%) as compared to urban sector (19.51%).

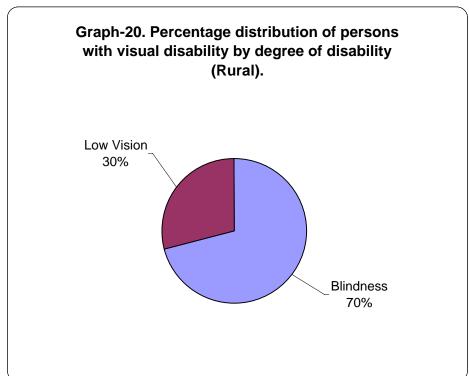

# b) Visual disability

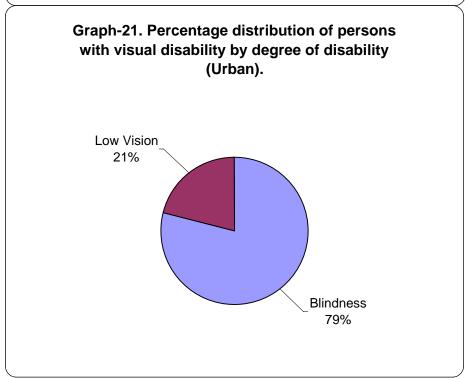

The following table and graphs 20 & 21 presents the degree of visual disability.

Table 3.12. Number and Percentage distribution of persons with visual disability by degree of disability for each sex and sector.

Type of disability		Rural			Urban		Haryana		
	M	F	P	M	F	P	M	F	P
1.No light perception	3744	2105	5849	1035	1376	2411	4779	3481	8260
	(40.24)	(57.28)	(45.06)	(41.30)	(48.01)	(44.88)	(40.47)	(53.22)	(45.01)
2.has light perception but cannot count fingers upto a distance of 1 meter:									
a) Normally uses specs	991	226	1217	433	722	1155	1424	948	2372
	(10.65)	(6.15)	(9.38)	(17.28)	(25.19)	(21.50)	(12.06)	(14.49)	(12.93)
b) Normally doesn't	1868	186	2054	282	390	672	2150	576	2726

Blindness	6603 (70.97)	2517 (68.49)	9120 (70.27)	1750 (69.83)	2488 (86.81)	4238 (78.89)	8353 (70.73)	5005 (76.52)	13358 (72.79)
3. has light perception but cannot count fingers upto a distance of 3 meters:									
a) Normally uses	1722	657	2379	371	0	371	2093	657	2750
specs	(18.51)	(17.88)	(18.33)	(14.81)		(6.91)	(17.72)	(10.04)	(14.99)
b) Normally doesn't	979	501	1480	385	378	763	1364	879	2243
use specs.	(10.52)	(13.63)	(11.40)	(15.36)	(13.19)	(14.20)	(11.55)	(13.44)	(12.22)
Low vision	2701	1158	3859	756	378	1134	3457	1536	4993
	(29.03)	(31.51)	(29.73)	(30.17)	(13.19)	(21.11)	(29.27)	(23.48)	(27.21)
Total	9304	3675	12979	2506	2866	5372	11810	6541	18351
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)

The above table shows that about 73% persons are in blind category and about 27% are in low vision category. Out of total visual disabled persons, about 45% reported to have no light perception, while in case of persons with low vision, the percentage of persons who use spectacles were more (about 15%) in comparison those who don't use spectacles (about 12%).

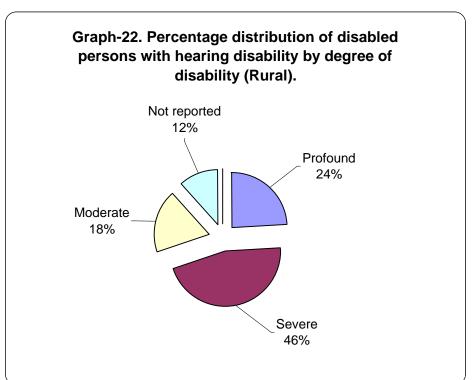

## c) Hearing disability

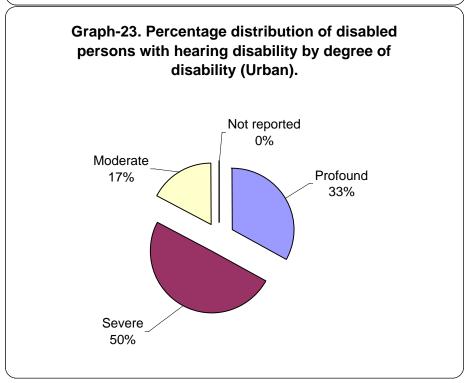

The following table and graphs 22 & 23 presents the number & percentage distribution of disabled persons with hearing disability by degree of disability.

Table 3.13 Number & percentage distribution of disabled persons with hearing disability by degree of disability for each sex and sector.

Type of		Rural			Urban		Haryana			
disability	M	F	P	M	F	P	M	F	P	
Profound	1479 (30.92)	191 (9.01)	1670 (24.19)	309 (31.37)	309 (34.68)	618 (32.94)	1788 (30.99)	500 (16.60)	2288 (26.06)	
Severe	2117 (44.25)	1036 (48.84)	3153 (45.66)	472 (47.92)	461 (51.74)	933 (49.73)	2589 (44.88)	1497 (49.70)	4086 (46.53)	
Moderate	795 (16.62)	482 (22.73)	1277 (18.49)	204 (20.71)	121 (13.58)	325 (17.33)	999 (17.32)	603 (20.02)	1602 (18.24)	
Not Reported	393 (8.21)	412 (19.42)	805 (11.66)	0	0	0	393 (6.81)	412 (13.68)	805 (9.17)	
Total	4784 (100.00)	2121 (100.00)	6905 (100.00)	985 (100.00)	891 (100.00)	1876 (100.00)	5769 (100.00)	3012 (100.00)	8781 (100.00)	
			(78.64)			(21.36)			(100.00)	

The above table shows that the prevalence rate was much higher in rural (about 79%) as compared to that in urban (about 21%) for males as well as females. About 26% had profound, 47% had severe and 18% had moderate hearing disability.

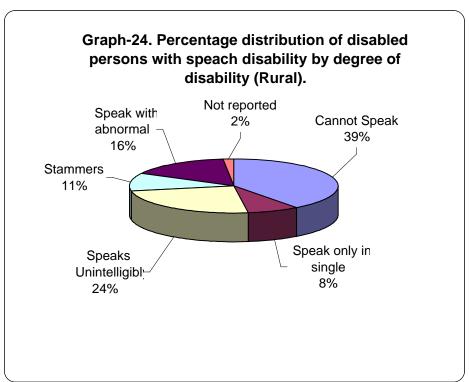

## d) Speech

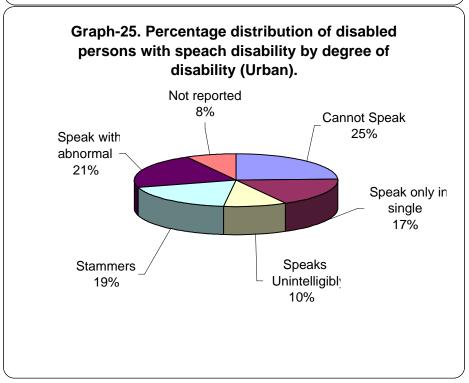

The following table and graphs 24 & 25 presents the number & percentage distribution of disabled persons with speech disability by degree of disability.

Table 3.19 Number & percentage distribution of disabled persons with speech disability by degree of disability for each sex and sector.

Type of		Rural			Urban			Haryana	
disability	M	F	P	M	F	P	M	F	P
1. Cannot	3102	1677	4779	638	206	844	3740	1883	5623
speak	(34.15)	(56.71)	(39.70)	(27.29)	(18.81)	(24.58)	(32.75)	(46.47)	(36.34)
2. Speak only	745	241	986	599	0	599	1344	241	1585
in single	(8.20)	(8.15)	(8.19)	(25.62)		(17.45)	(11.77)	(5.95)	(10.25)
3. Speaks	2489	393	2882	237	101	338	2726	494	3220
unintelligibly	(27.41)	(13.29)	(23.94)	(10.14)	(9.22)	(9.85)	(23.87)	(12.19)	(20.81)
4. Stammers	1119	184	1303	354	289	643	1473	473	1946
	(12.32)	(6.22)	(10.82)	(15.14)	(26.39)	(18.73)	(12.90)	(11.67)	(12.58)
5. Speaks with	1441	462	1903	510	224	734	1951	686	2637
abnormal	(15.87)	(15.63)	(15.81)	(21.81)	(20.46)	(21.38)	(17.08)	(16.93)	(17.04)
6. Any other	0	0	0	0	0	0	0	0	0
speech									
7. Not reported	186	0	186	0	275	275	186	275	461
	(2.05)		(1.54)		(25.12)	(8.01)	(1.63)	(6.79)	(2.98)
Total	9082	2957	12039	2338	1095	3433	11420	4052	15472
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)
			(77.81)			(22.19)			(100.00)

It can be seen from the above table that while 36% could not speak at all, 10% could speak only in single word. The speech of about 50% was not understood properly. The prevalence rate of speech was found much higher in rural sector (77.81%) as compared to urban sector (22.19%).

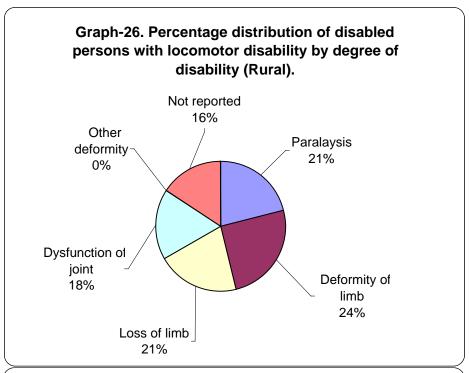

#### e) Locomotor

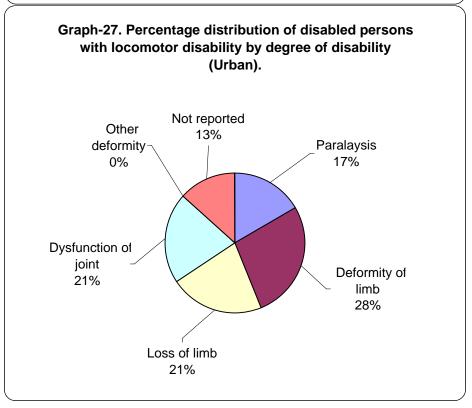

The following table and graphs 26 & 27 presents the number & percentage distribution of disabled persons with locomotor disability by degree of disability.

Table 3.15 Number & percentage distribution of disabled persons with locomotor disability by degree of disability for each sex and sector.

Type of		Rural			Urban		Haryana			
Disability	M	F	P	M	F	P	M	F	P

	(14.76)	(17.60)	(15.74)	(12.81)	(14.58)	(13.36)	(14.37)	(17.06)	(15.28)	
Total	98285	51907	150192	24998	11293	36291	123283	63200	186483	
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	
			(80.54)			(19.46)			(100.00)	

The above table shows that all persons having locomotor disability, the proportion of them with deformity of limb is the maximum (25.51%) among the different types of locomotor disability both in rural (25.04%) and urban sector (27.46%). About 20% of the locomotor disabled were affected by paralysis.

#### Causes of Disability:-

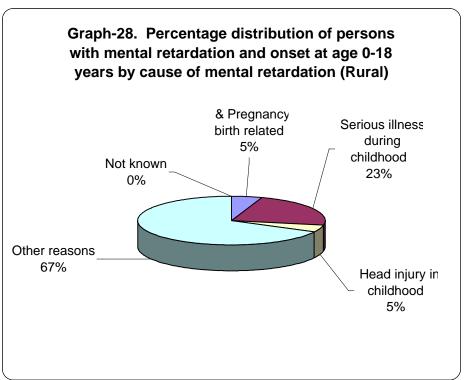

#### a) Mental Retardation

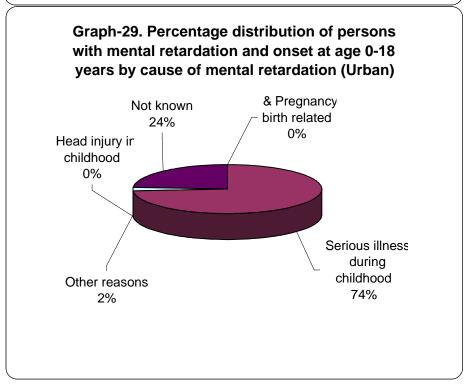

The following table and graphs 28 & 29 presents causes of mental retardation.

Table-3.16 Number & percentage distribution of disabled persons with mental retardation and onset at age 0-18 years by cause of mental retardation for each sex and sector.

Causes of mental		Rural			Urban			Haryana	
retardation	M	F	P	M	F	P	M	F	P
1.Pregnancy &	203	0	203	0	0	0	203	0	203
birth related	(7.09)		(5.34)				(6.25)		(4.71)
2. Serious illness	863	0	863	255	121	376	1118	121	1239
during childhood	(30.16)		(22.72)	(65.72)	(100.00)	(73.87)	(34.40)	(11.44)	(28.76)
3. Head injury in	0	175	175	0	0	0	0	175	175
childhood		(18.68)	(4.61)					(16.54)	(4.06)
4. Heredity	0	0	0	0	0	0	0	0	0
5. Other reasons	1796	762	2558	12	0	12	1808	762	2570
	(62.75)	(81.32)	(67.33)	(3.09)		(2.36)	(55.63)	(72.02)	(59.66)
6. Not known	0	0	0	121	0	121	121	0	121
				(31.19)		(23.77)	(3.72)		(2.81)
Total	2862	937	3799	388	121	509	3250	1058	4308
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)

For mentally retarded persons, the distribution has been obtained by probable cause of mental retardation and is given in the above table for rural and urban sectors of Haryana. The main cause of mental retardation was 'other reasons' (59.66%) followed by 'serious illness during childhood' (28.76%). Cause of mental retardation due to 'pregnancy & birth related' was about 5%. About 4% of the mentally retarded reported that the incidence was head injury in childhood. About 3% of the mentally retarded, the respondent was not aware of the probable cause of retardation.

## b) Mental Illness

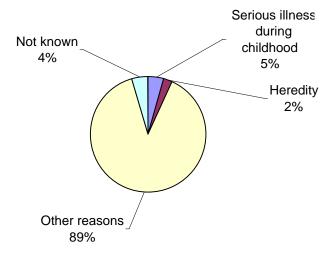

The following table and graphs 30 & 31 presents causes of mental illness.

Table-3.17 Number & Percentage distribution of disabled persons with mental illness and onset at age of 0-18 years by cause of mental illness for each sex and sector.

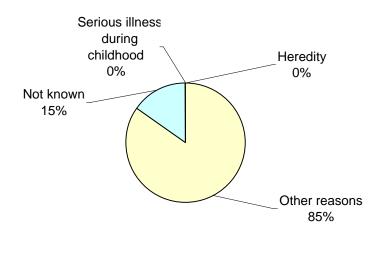

Causes of mental		Rural			Urban		Haryana

The above table shows that the main cause of mental illness was 'other reasons' (88.12%). Cause of mental illness due to 'serious illness during childhood' was about 4%. About 2% of the mentally illness reported that the incidence was heredity. About 5% of the mentally illness, the respondent was not aware of the probable cause of illness.

Graph-30. Percentage of distribution of persons with mental illness and onset at age 0-18 years by cause of mental illness (Rural).

Graph-31. Percentage distribution of persons with mental illness and onset at age 0-18 years by cause of mental illness (Urban).

#### c) Visual

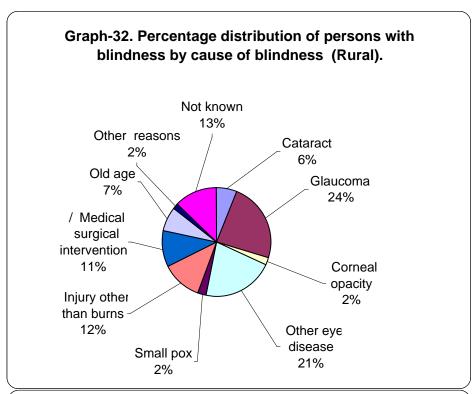

# i) Blindness

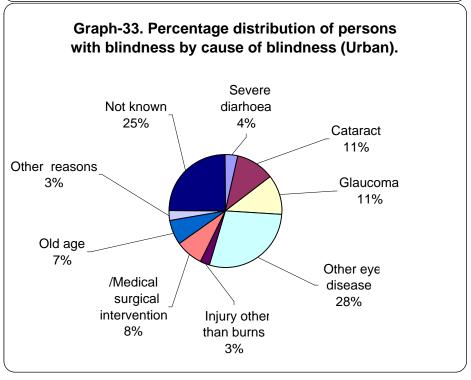

The following table and graphs 32 & 33 presents cause of blindness.

Table 3.18 Number & percentage distribution of disabled persons with blindness by causes of blindness for each sex and sector.

Causes of blindness		Rural			Urban		Haryana			
	M	F	P	M	F	P	M	F	P	
1. Sore eyes first month	0	0	0	0	0	0	0	0	0	
2. Sore eyes after first month	0	0	0	0	0	0	0	0	0

Total	4485 (100.00)	1763 (100.00)	6248 (100.00)	1365 (100.00)	2199 (100.00)	3564 (100.00)	5850 (100.00)	3962 (100.00)	9812 (100.00)	

The information on probable cause of visual disability as known to the informant was collected in respect of only those who acquired the visual disability in the course of life. In Haryana, the cause was not known to about 19% of the blind. About 8% reported 'old age' as the cause of their blindness. Apart from the 'old age', 'other eye diseases' (27.58%) happened to be one of main cause of blindness. 'Medical/surgical intervention' caused blindness in about 12% cases.

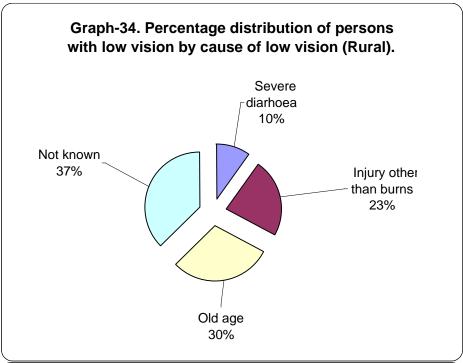

#### ii) Low Vision

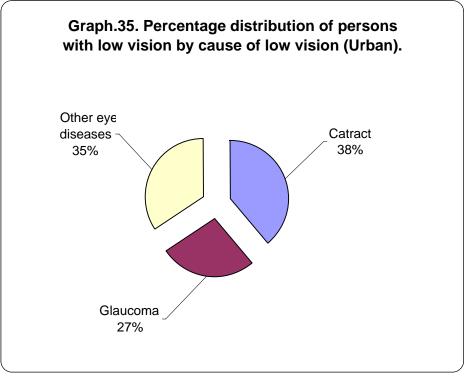

The following table and graphs 34 & 35 presents the causes of low vision.

Table 3.19 Number & percentage distribution of disabled persons with low vision by causes of low vision for each sex and sector.

Causes of		Rural			Urban			Haryana	
blindness	M	F	P	M	F	P	M	F	P
1. Sore eyes first month	0	0	0	0	0	0	0	0	0
2. Sore eyes after first month	0	0	0	0	0	0	0	0	0
3.Severe diarrhea	191 (10.59)	0	191 (8.52)	0	0	0	191 (9.19)	0	191 (6.61)
4. Cataract	0	0	0	134 (48.73)	17 (4.58)	151 (38.92)	134 (6.45)	17 (2.10)	151 (5.23)
5. Glaucoma	0	0	0	0	103 (27.76)	103 (26.55)	0	103 (12.73)	103 (3.57)
6.Conceal opacity	0	0	0	0	0	0	0	0	0
7. Other eye diseases	0	0	0	134 (48.73)	0	134 (34.53)	134 (6.45)	0	134 (4.64)
8. Small pox	329 (18.25)	0	329 (14.68)	0	0	0	329 (15.83)	0	329 (11.40)
9. Burns	0	0	0	0	0	0	0	0	0
10. Injury other than burns	438 (24.29)	0	438 (19.55)	0	0	0	438 (21.08)	0	438 (15.17)
11.Medical/surgical intervention	0	0	0	0	0	0	0	0	0
12. Old age	564 (31.28)	0	564 (25.17)	0	0	0	564 (27.14)	0	564 (19.54)
13.Other reasons	0	0	0	0	0	0	0	0	0
14. Not known	281 (15.59)	438 (100.00)	719 (32.08)	7 (2.54)	251 (67.66)	0	288 (13.86)	689 (85.17)	977 (33.84)
Total	1803 (100.00)	438 (100.00)	2241 (100.00)	275 (100.00)	371 (100.00)	388 (100.00)	2078 (100.00)	809 (100.00)	2887 (100.00)

The above table shows that about 34% of them did not know the probable cause of their low vision and about 20% reported to have the problem due to 'old age'. The other major causes for low vision were found to be 'injury other than burns' (15.17%). About 11% reported to have the problem due to 'small pox'.

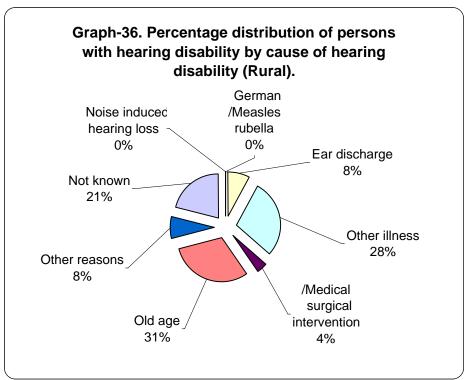

# d) Hearing

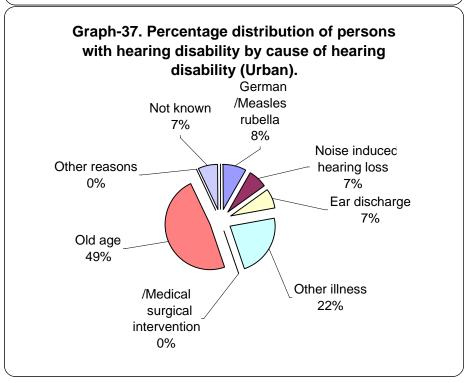

The following table and graphs 36 & 37 presents' causes of hearing disability.

Table 3.20 Number & percentage distribution of disabled persons with hearing disability by causes of hearing disability for each sex and sector.

Causes Rural				Urban		Haryana			
of hearing	M	F	P	M	F	P	M	F	P
disability

6. Injury other	0	0	0	0	0	0	0	0	0
than burns									
7.Medical/Surg-	186	0	186	0	0	0	186	0	186
ical intervention	(4.77)		(3.71)				(4.05)		(2.87)
8. Old age	1348	191	1539	575	134	709	1923	325	2248
	(34.54)	(17.06)	(30.65)	(84.81)	(17.00)	(48.37)	(41.98)	(17.04)	(34.65)
9. Other reasons	166	240	406	0	0	0	166	240	406
	(4.25)	(21.45)	(8.08)				(3.63)	(12.59)	(6.25)
10. Not known	1059	0	1059	103	0	103	1162	0	1162
	(27.13)		(21.08)	(15.19)		(7.02)	(25.37)		(17.91)
Total	3903	1119	5022	678	788	1466	4581	1907	6488
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)

The above table shows that about 35% cases, the probable cause of hearing disability was 'old age' followed by other illness (27%). About 18% persons were not aware of the probable cause of hearing disability. It may be noted that nearly 2% of the disabled (hearing) persons reported 'German measles/rubella as the cause of hearing disability.

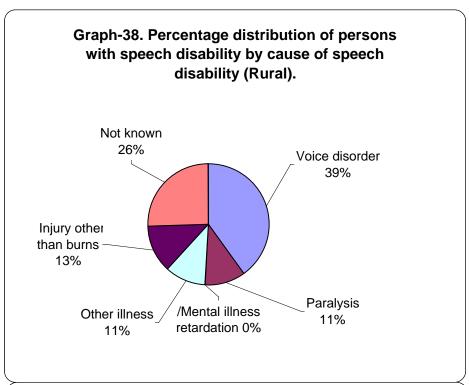

## e) Speech

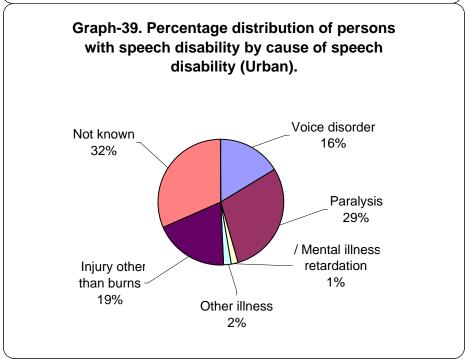

The following table and graphs 38 & 39 show the causes of speech disability.

Table 3.21 Number and percentage distribution of disabled persons with speech disability by causes of speech disability for each sex and sector.

Causes of	Rural				Urban		Haryana		
speech	M	F	P	M	F	P	M	F	P

	(8.86)	(8.38)	(8.70)	(2.75)	(15.28)	(6.28)	(7.50)	(9.70)	(8.19)
Total	72999	34685	107684	20870	8212	29082	93869	42897	136766
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)

The information relating to probable cause of locomotor disability as known to the informant was collected for those who were affected by locomotor disability. 'Injury other than burns' was found to be the major reason for locomotor disability. About 39% of the persons with locomotor disabilities reported, 'injury other than burns' as the cause in Haryana. The next in importance was the cause 'polio' accounting for 24%. About 13% of the disabled persons reported 'other illness' as the cause of locomotor disability.

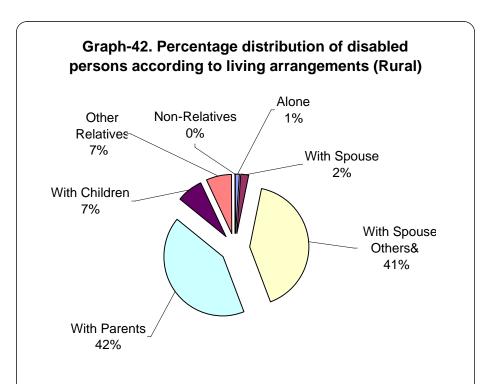

# **Living Arrangement:-**

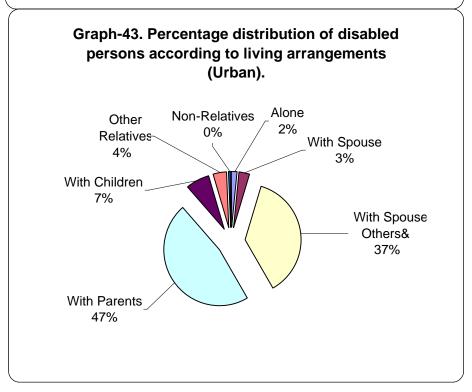

The following table 3.23 and graphs 42 &43 presents the living arrangements of disabled persons.

Table 3.23 Percentage distribution of disabled persons by type of living arrangements for each sex and sector.

Sex &		Type of Living Arrangements									
Sector	Alone	With	With	With	With	Other	Non	Total			
		Spouse	Spouse	Parents	Children	Relatives	Relatives				
			& Others								
Rural											
Male	1.40	1.84	37.87	42.89	7.30	8.70	0	100.00			
Female	0.62	2.70	47.12	38.71	7.12	3.73	0	100.00			
Person	1.14	2.13	40.91	41.52	7.24	7.06	0	100.00			
Urban		ı	l	l	ı	l	l				
Male	2.06	3.64	37.37	47.95	3.34	5.01	0.63	100.00
