INTRODUCTION

For successful implementation of any educational programme, effective monitoring, coupled with efficient information system, is essential. While monitoring framework under SSA is developed separately, concerted efforts have been made towards strengthening of Educational Management Information System (EMIS) in India.

Collection of data in the field of education often turns into an end in itself. Very often such data is collected simply to be sent to a higher administrative authority which means that the information collected does not get interpreted and / or utilized at the level at which it can be used to make useful interventions for improvement in education.

DISE (District Information System for Education) is a process of collection of school level information as on 30th September every year. Accordingly, software has been developed by NUEPA, New Delhi on behalf of Ministry of Human Resource Development, Govt. of India to generate the computerized reports from school level for compilation at State as well as National level.

There are more than 100 nos. of main heads of school level information in the DISE Data Capture Format (DCF). The process of data collection was started during District Primary Education Programme (DPEP) in 9 (nine) erstwhile DPEP districts of Assam and the same has been extended to all the districts of the State under Sarba Shiksha Abhijan (SSA). The format contains 11 data collection pages out of which 6 pages containing the existing information of the school are updated and in the remaining 5 pages, new data for the year are entered.

Another Data Capture Format is used to collect the Age and Caste wise status of Child Population and Out of School Children (Habitation/Lane/Tea Garden Line Information Schedule).

The head of the institutions fill up the formats, sign them and submit to the Cluster Resource Centres. The filled up formats are verified by the Cluster Resource Centre Co-ordinator at cluster level and submitted to the blocks. The filled up formats are again verified at Block Mission Offices. The Block Mission Co-ordinators are submitted the verified formats to the district offices for data entry. The database compiled at district level is submitted to the State Mission Office for final compilation and tabulation. The same is being used for further analysis both at State and National level for planning, future strategies in terms of educational planning and administration.

A booklet titled "Educational Statistics at a glance" on the basis of data gathered through DISE survey 2007-08 & 2008-09 were published in the month of November, 2008 & 2009 respectively. Copies of the booklet were distributed amongst educational functionaries, NGOs, other departments, research institutions etc. The booklet serves as handy document for ready reference and the positive feedback has encouraged SSA, Assam to publish a similar booklet pooling together the data collected through DISE survey 2009-10.
