## PREFACE

Statistical information is vital for effective planning and policy formulation at different levels, particularly in Arunachal Pradesh which is still an economically backward territory. The Directorate of Economics and Statistics, had been publishing Statistical data since its inception in 1956, but earlier publications were not handy and as a result an attempt has been made to present all important data in pocket size publication.

The present 'Statistical Pocket Book—1985' is second in series. The present issue has been enlarged both in contents and coverage on the basis of suggestions given by Smti. Pratibha Karon, Development Commissioner, Arunachal Pradesh. In fact, she has been a source of constant encouragement to the Directorate of Economics and Statistics in bringing out various publications in good time. 'Statistical Pocket Book—1985' incorporates special tables on Population, State Domestic Products, Vital Statistics, Five Year Plans, Budget and Banking.

I am grateful to various Heads of Department for supplying the data incorporated in the publication. It is, however noticed, that many department could not supply the required data in time, and as such, data of previous year have been repeated.

This publication has been drafted by Shri M. S. Adhikari Statistician assisted by Shri S. Sengupta, Sub-Inspector of Statis-
