## FOREWORD

For making realistic and cohesive career choices a direct positive correspondence between the aspirations and abilities is imperative. Besides this the knowledge about the avenues available also play a vital role.

For assisting our potential work force in making right and appropriate career choices/decisions, Education Department of U.T. CHD has set up Guidance & Counselling Department to provide information about different careers, educational & training facilities available in India. Besides providing information service, it also provides testing service for recognising one's aptitudes, abilities and interests. In our endeavour to disseminate upto date information, we collect and compile information from all medias and sources.

It is my great pleasure to present the first edition of this handbook on "Educational & Training Facilities for Management Courses in India". The booklet has been written to provide the information about Educational and training facilities for Management Courses.

The information given includes the name of the Institutions, eligibility conditions, entry qualifications, age, details of the test, admission norms, seats and reservation of seats.

I hope the publication will be well received by its consumers. The information given is exhaustive hence there is a likelihood of its revision at one place or other, therefore it should be checked from the original sources. The information is on broader lines and should not weigh to its exactness. We will welcome suggestions for improving the contents from all corners.

Kuldeep Kaur

Director

State Institute of Education-cum-D.P.I. (s)  
Chandigarh Administration, Chandigarh.
