## PREFACE

This study presents an analysis of trends in respect of Indian students and Trainees who have gone abroad for higher studies during 1994-95. Basic data for the study was collected from the Reserve Bank of India. We are grateful to the Reserve Bank of India for providing the useful data for this study.

The purpose for bringing out this publication is to maintain the statistical records of the Indian Students/Trainees Going abroad under various schemes to equip themselves with higher studies and latest knowhow in the various fields like Agriculture, Technology, Science, Medicine, Education, etc. Efforts have been made to compare the out-flow of Indian students in foreign countries with inflow of students from foreign countries in Indian Universities in 1994-95. This publication gives statistics of out flow of Indian students/Trainees about state-wise, duration-wise, sex-wise, subject-wise, country-wise etc. In addition, it also gives information about sources of financial assistance, country-wise, agency-wise etc.

I would like to place on records my deep appreciation of the team spirit and the work done by the Project Staff under Dr. R.S. Thakur, Joint Director (Plg) of Statistics Division, CMIS Unit and S&S Section in bringing out this useful publication.

It is hoped that this study will be of interest and use to educational planners, administrators and research workers in the field of education.

New Delhi, the 2<sup>nd</sup> February, 1998.

(CHAMPAK CHATTERJI)

JOINT SECRETARY

	APPENDIX:	
	Foreign students studying in India - 1994-95	55

# Introduction

1. The total number of Indian students who went abroad for higher studies increased from 4861 in 1990-91 to 6466 (33.02%) in 1991-92 and then maintained the level of 6499 in 1992-93 but steeply decreased to 2284 (64.86%) students in 1993-94 over the previous year and then appreciably improved to 2983 (30.60%) students during the year 1994-95. Year-wise/continent-wise details are given below in Sub-Table 1:

**Sub-Table: 1**  
**ANNUAL OUTFLOW OF STUDENTS TO DIFFERENT CONTINENTS**  
(1990-91 to 1994-95)

<b>Year</b>	<b>America</b>	<b>Europe</b>	<b>Asia</b>	<b>Oceania</b>	<b>Others</b>	<b>TOTAL</b>

<b>1994-95</b>	<b>1777</b>	<b>570</b>	<b>42</b>	<b>552</b>	<b>42</b>	<b>2983</b>
<b>%age</b>	<b>59.6</b>	<b>19.1</b>	<b>1.4</b>	<b>18.5</b>	<b>1.4</b>	<b>100</b>

2. It will be observed from the above that the outflow of students to countries in the American continent has been on the decrease right from 1991 onwards. In the year 1990-91, the annual outflow of students to countries in American continent was 89% which increased to 92% in 1991-92 but then declined to 89% in 1992-93, 78% in 1993-94 and sharply decreased to 60% in 1994-95. Notwithstanding this, the share of Indian students to countries comprising American continent, by and large, remains the largest amongst all continents of the World. On the other hand, the percentage of annual outflow of students to countries in Oceania is on the increase. It was 2.7% in 1990-91 which increased to 2.8% in 1991-92, 5.79% in 1992-93 8.8% in 1993-94; and 18.5% in 1994-95. The percentage of annual outflow of students to Europe was 6.5% in 1990-91 which came down to 3.8% in 1991-92, then increased to 3.69% in 1992-93; 10.2% in 1993-94 and then 19% in 1994-95. The annual outflow of students from India to countries in Asian continent was 1% in 1990-91 which decreased to 0.5% in 1991-92 and remained more or less at the same level at 0.6% in 1992-93 but marginally increased during 1993-94 to 1.1% and then to 1.4% in 1994-95.

3. The above analysis distinctively indicates that the three continents viz America, Europe and Oceania put together accounted for more than 97% of the students leaving thereby, a very small fraction of slightly less than 3% of the students who went to countries falling in other continents; and, secondly, the trend of outflow of students from India to countries comprising American continent has been on the decrease i.e. from 92% in 1991-92, the outflow has come down to just 60% during 1994-95, although the American continent still pre-dominates in absorbing the largest number of Indian students. This is followed by Europe and Oceania whereto the outflow of Indian students is on the increase.

4. The sex-wise number of Indian students who went to different countries during 1991-1995 is as follows:

Sub-Table: 2

**SEX-WISE NUMBER OF STUDENTS GOING ABROAD**

Year		Male	Female	Total
<b>1991-92</b>	Number	<b>5579</b>	887	<b>6466</b>
	%age	86.28	13.72	100
<b>1992-93</b>	Number	<b>5546</b>	953	<b>6499</b>
	%age	85.34	14.66	100
<b>1993-94</b>	Number	<b>1887</b>	397	<b>2284</b>
	%age	82.62	17.38	100
<b>1994-95</b>	Number	<b>2505</b>	478	<b>2983</b>
	%age	83.98	16.02	100

It will be observed from the above that the number of female students comprised 13.72% in 1991-92 which increased to 14.66% in 1992-93 and further to 17.38% in 1993-94 and then decreased slightly to 16.02% during the year 1994-95. On the whole there has been a decrease in the total outflow of Indian Students to the extent of 54%. This decrease in case of Indian female students is to the extent of 46% during the period 1991-95 which is considerably less when compared with the total decrease. The availability of facilities of higher studies of comparable international standards (which hitherto were not available within the country) may be responsible for overall decrease in the number of students going abroad. Some of the countries might have imposed undue restrictions on foreigners.

**STATES OF ORIGIN:**

5. The largest number of students who went to foreign countries for higher studies belonged to the Union Territory of Delhi during the year 1994 closely followed by Andhra Pradesh, West Bengal, Tamil Nadu, Karnataka,

Maharashtra and Bihar. However, during the past years, the trend was altogether different. During the year 1991-92 the largest number of students who went to foreign countries for higher studies belonged to Andhra Pradesh closely followed by Madhya Pradesh, Tamil Nadu, Delhi, Karnataka etc. During the year 1992-93 the largest number of students who went to foreign countries pertained to Andhra Pradesh closely followed by Tamil Nadu, Maharashtra, Karnataka, Delhi, West Bengal, Gujarat etc. In 1993-94 the largest number of students pertained again to Andhra Pradesh, closely followed by Tamil Nadu, Delhi, Maharashtra, Karnataka, Gujarat etc. During the years 1991-92 through 1993-94, Andhra Pradesh topped amongst the Indian States/UTs in sending students for studies abroad followed by Tamil Nadu, Karnataka, Delhi etc. but during 1994-95, Delhi and Andhra Pradesh both topped the list followed by West Bengal, Tamil Nadu, Karnataka etc. No students ever went abroad for higher studies from Tripura, Dadra & Nagar Haveli, Daman & Diu, Lakshadweep etc. The contribution of States like Arunachal Pradesh, Himachal Pradesh, Jammu & Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Rajasthan, Sikkim, A&N Islands, Pondicherry during these four years had been negligible. Andhra Pradesh topped in subjects like Engineering, Architecture, Medicine & Pharmacy, Agriculture & Forestry; Delhi topped in Technology and Industry, Commerce and Business Administration/Management and other subjects; West Bengal topped in Fine Arts, Library Science etc. Sub-Table -3 below gives the details of the States' share individually.

Sub-Table: 3

**PERCENTAGE OF STATES IN RESPECT OF STUDENTS GOING ABROAD**

States	Years			
	1991	1992	1993	1994

#### FIELDS OF STUDY

6. The distribution of students by fields of studies indicate that largest number of students went abroad opted for Engineering, Architecture, Science. Technology and Industry, Medicine etc. during all these years. No specific trend has been observed in any of the fields of study. Rather mixed results have been observed. For instance, in 1991-92, only 37% of total students opted for Engineering & Architecture. This percentage increased to 38% in 1992-93 but declined to 31% in 1993-94 and further came down to 27% in 1994-95. In Medicine, 5% only opted in 1991-92 which increased to 7% in 1992-93 but came down to 4% in 1993-94 and again increased to 11% in 1994-95. In Science, 21% opted in 1991-92, which increased to 22% in 1992-93, 25% in 1993-94 but then decreased to 11% in 1994-95. In subjects like Education, Nursing, Library Science, a very small number of students went abroad. However, the largest number of students went abroad in the fields of Engineering & Architecture during all these years. The details have been summarised in Sub-Table 4.

**Sub-Table: 4****DISTRIBUTION OF STUDENTS BY FIELDS OF STUDIES**

		Female	14	33	-	24
13	Library Science	<b>Total</b>	1	0	-	3
		Female	-	0	-	2
14	Others	<b>Total</b>	903	877	371	543
		Female	130	130	61	129
	<b>TOTAL</b>	<b>Total</b>	6466	6499	2284	2983
	'	Female	887	953	397	478

7. Continent-wise/Subject-wise analysis indicate that during 1991-92, 5070 (78.40%) of students went for higher studies in Engineering and Architecture, Science, Medicine and Commerce & Business Management. Of these, 4767 (94.02%) went to American continent alone. Remaining less than 6% were got distributed in other continents. This proportion during 1992-93, 1993-94 and 1994-95 was 5151 (79.26%) of which 4667 (90.60%) in American continent alone; 1710 (74.87%) of which 1384 (80.94% in

American continent; and 2105 (70.57%) of which 1277 (60.66%) in American continent alone respectively. The share of Indian students has although considerably been reduced from 91% in 1991-92 to 61% in 1994-95 to the American continent, yet the number of Indian students for higher studies to American continent still remains the largest one amongst the different continents of the world. The Oceania continent who contributed to only 2.29% during 1991-92 took 20% of the Indian Students during 1994-95 which is ten times more of its share in 1991-92. Similarly the share of Europe during 1991-92 was only 2.86% in these fields of study which also increased to 16.77% during 1994-95. The details are in Sub-Table-5.

## FINANCIAL ASSISTANCE

8. The sources of financing as summarised in Sub-Table -6 indicates that majority of students went abroad on expenses met out of the sources which remains un-identified in all these years closely followed by sources which were fully self financing. These two sources taken together provided funds to more than 90% of the students. Other sources were not significant sources of financing for the Indian students who went abroad for pursuing higher studies. The pattern of financial assistance during the past few years is given in the Sub-Table 6 below:

**Sub-Table: 6**

S.No	SOURCES OF FUNDING		91-92	92-93	93-94	94-95

9. Sub-Table 7 given below indicates data about the Indian students who went abroad during the years 1991-92 through 1994-95 according to continents and sources of financing yearwise. On the basis of the results obtained, it has been observed that in all the years majority of the students went to foreign countries for further studies either under a fully self financing scheme or under a project which has not been specified in detail. If we take the two items i.e. fully self financed and others not specified together then it has been noted that in all these years the largest number of students is in projects which are not specified followed by a fully self-financed scheme. Under these two broad heads, the number of students who were benefited

were 97.52% in 1991-92, 95.56% in 1992-93 and then 93.56% in 1993-94, 90.24% in 1994-95. Thus it will be observed that the majority of the students met their expenses out of their own pockets but this percentage went on dwindling from 98% in 1991 to 96% in 1992, further to 94% in 1993 and 90% in 1994. If we add the partly self-financed projects then the percentages of students during these four years were still higher. These were 98% during 1991, 97% during 1992, 94% during 1993 and 92% during 1994. Here also a decreasing trend has been noticed. The percentage of beneficiaries under State government funds was negligible; it was only 0.08% in 1991, while nil during 1992-93 and 1993-94 but such projects financed by the Central Government and foreign Governments were 0.87% during 1991, 2.26% during 1992 and 1.53% during 1993 and only 0.17% during 1994. There were no cases which were met by foreign companies during all these years. However, during the year 1994, there were 10 cases which were financed by Indian Universities to American and European countries while during the previous three years, no such cases were reported.

10. Country-wise analysis in Table VI further indicates that out of 2983 students who went abroad for pursuing higher studies as many as 1729 (58%) went to USA followed by Australia where 548 (18%) and UK, 262 (9%). These countries taken together accommodated 2539 (85%) of the students. The three continents viz America, Europe and Oceania accounted for 97% of the total Indian students who went abroad for higher studies. This trend has been observed during all the years from 1991-92 through 1994-95. In 1991, it was 99%; in 1992, 98.76%; in 1993, 97.18% of the Indian students were in these three continents for higher studies. Details are given in Sub-Table 5 read with Table No. VI.

11. Table VII & VIII indicates that 1236 (41.44%) of the students went foreign countries for studies covering a duration of more than one year but upto two years while 479 (16.06%) of the students went abroad for studies extending upto a period of one year only; 605 (20.28%) went abroad for studies extending to a period upto three years. Remaining 663 (22.23%) had gone for studies extending to varied periods more than three years.

12. As against 2983 Indian students who went abroad for higher studies, 11,615 students from foreign countries were studying in Indian Universities during 1994-95. Of 2983 students who were abroad, 97.18% went to countries in America, Europe and Oceania continents. Less than 3% only went to other continent. None went to African continents. Out of 11,615 students studying in Indian Universities, 93.28% students are from countries falling in Asian and African continents. Remaining less than 7% come from other continents. This is indicative of the fact that while majority of our students prefer going to American and European continents which have advanced technologies, the majority of foreign students who came to India are from countries falling in Asian and African continents who are less developed technologically.

**Sub-Table: 8**

**Comparison of Indian Students in foreign countries with foreign students in India**

1994-95		
Continent	Foreign students studying in Indian Universities	Indian students Studying in Foreign countries
America	420	1777
Europe	293	570
Asia	5799	442
Oceania	47	552
Africa	5035	-
Others	21	42
<b>Total:</b>	<b>11615</b>	<b>2983</b>

13. During the year 1994-95 in all 594 Indians went abroad for training in various fields. Of these 12 were females. A large number of trainees i.e. 285 (48%) went to European countries followed by countries of American continent (23%). During the last four years beginning from 1991-92 to 1994-95 it has been noticed that the largest number of trainees went to countries in the European continent followed by countries in American continent. During the year 1991-92, 1502(45%) went to Europe, during 1992-93, 542 (55%) , during 1993-94, 484 (42%) and during 1994-95, 285 (48%) of the Indians went to European countries for various trainings. This was followed by the second largest number in countries of American continent. However, the number of Indians who went to Asian countries for various trainings got reduced from year after year. During 1991-92, 723 (22%) Indians went to Asian countries which during 1992-93 was reduced to 166 (17%) and then maintained at 168 (15%) and further reduced to 77 (13%) during 1994-95 The details of number of trainees who went to foreign countries are given in Sub Table-9.
