## PREFACE

The Statistical Pocket Book is the first comprehensive and exhaustive publication being brought out by the Statistical wing of the Administration of Dadra and Nagar Haveli. In the present publication an attempt has been made to provide information on Socio-Economic Development and other basic Statistics for the last five years 1981 to 1985. It is hoped the publication will serve the needs of all who are interested in the developmental activities in the Territory. While continued efforts will be made to incorporate more information, suggestions for improvement are also welcome from the users of this publication.

The Administration acknowledges with thanks the cooperation given by various departments of the Administration and organisations of the Territory for supplying data for this publication. Efforts made by Shri Faquir chand, Statistical Officer, in brining out the publication in particular and the work done by the Statistical wing of the Administraion in general is commendable.
