STATE EDUCATIONAL PROFILE

As of March 2013, Karnataka had 60036 elementary schools with 313008 teachers and 8.39 million students, and 14195 secondary schools with 114350 teachers and 2.09 million students. http://en.wikipedia.org/wiki/Karnataka cite note-school-99 There are three kinds of schools in the state, viz., government-run, private aided (financial aid is provided by the government) and private unaided (no financial aid is provided). The primary languages of instruction in most schools are Kannada apart from English, Urdu and Other languages. The syllabus taught in the schools is by and large the state syllabus (SSLC) defined by the Department of Public Instruction of the Government of Karnataka, and the CBSE, ICSE in case of certain private unaided and KV schools. In order to provide supplementary nutrition and maximize attendance in schools, the Karnataka Government has launched a mid-day meal scheme in government and aided schools in which free lunch is provided to the students. A pair of uniforms and all text books is given to children; free bicycles are given to 8th standard children. Statewide board examinations are conducted at the end of the period of X standard and students who qualify are allowed to pursue a two-year pre-university course; after which students become eligible to pursue under-graduate degrees. There are two separate Boards of Examination for class X and class XII.

There are 652 degree colleges (March 2011) affiliated with one of the <u>universities</u> in the state, viz. <u>Bangalore University</u>, <u>Gulbarga University</u>, <u>Karnataka University</u>, <u>Kuvempu University</u>, <u>Mangalore University</u> and University of <u>Mysore</u>. In 1998, the engineering colleges in the state were brought under the newly-formed <u>Visvesvaraya Technological University</u> headquartered at <u>Belgaum</u>, whereas the medical colleges are run under the jurisdiction of the <u>Rajiv Gandhi University of Health Sciences</u>. Some of these baccalaureate colleges are accredited with the status of a <u>deemed university</u>. There are 187 engineering, 289 Polytechnic, 39 medical and 44 dental colleges in the state. <u>Udupi</u>, <u>Sringeri</u>, <u>Gokarna</u> and <u>Melkote</u> are well-known places of <u>Sanskrit</u> and <u>Vedic</u> learning. There is a women's university as well as a kannada University in the state, apart from 3 agricultural universities. A veterinary university has been set up during 2009-10.

30 Revenue Districts of the State are recomposed in 34 educational districts. The thirty districts of the state are grouped into four

Educational Divisions with headquarters at Bangalore, Belgaum, Gulbarga and Mysore. Besides two divisions – Belgaum and Gulbarga divisions are having Additional Commissionerates for streamlining of administration.

Division	Districts							
Bangalore	Bangalore, Bangalore (R), Ramanagar, Chitradurga, Kolar, Chikkaballapur, Shimoga, Tumkur and Davanagere. [09]							
Belgaum	Belgaum, Bijapur, Bangalkot, Dharwad, Gadag, Haveri, and Uttara Kannada [07]							
Gulbarga	Bellary, Bidar, Gulbarga, Raichur and Koppal, Yadgir [06]							
Mysore	Chikmagalur, Dakshina Kannada, Udipi, Hassan, Kodagu, Mandya, Mysore and Chamarajanagar [08]							

Schools

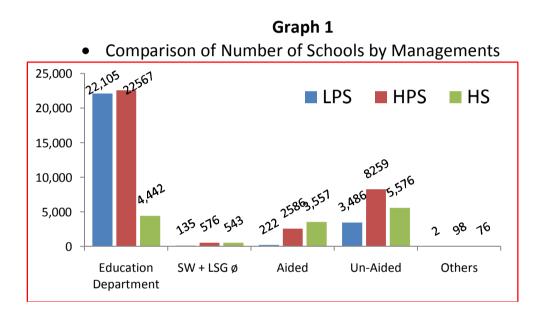

- Elementary Education is provided in the State, viz, LPS with 1 to 5 standards, HPS with 1 to 7 standards and 1 to 8 standards, which also have 1 to 5 LPS attached to them. At the HPS stage, there are schools offering 6 and 7 standards as well as 6 to 8 standards only. In addition, 8th standard facility is provided to children in the high schools of the State for <u>all children</u> who complete the HPS in 1 to 7 and 6 to 7 standards.
- There is a separate State Based for 1 to 10 schools. There are 60036 schools with State Board. 25950 Government sector schools provide elementary schooling at 1 to 5 LPS stage only, and 34086 Government sector schools are at the HPS stage, which include LPS sections.
- When a count is taken of schools managed by the Department of Education (including those which are begun under SSA patronage), the schools of the Department of Social Welfare, schools run by Local Self Government Institutions, schools under government patronage for grant-in-aid (the private aided schools) which are all government and government aided schools. (Leaving out KGBV and CWSN schools), it is observed that there is a decrease/increase of 393 schools in the State. The increase in the private unaided sector is 972 schools. The decrease in State sector schools from 2011-12 to 2012-13 is around 0.69 percent while the increase is 6.27 percent in case of private unaided schools.

Management wise Schools, 2012-13

Source : DISE 2012-13

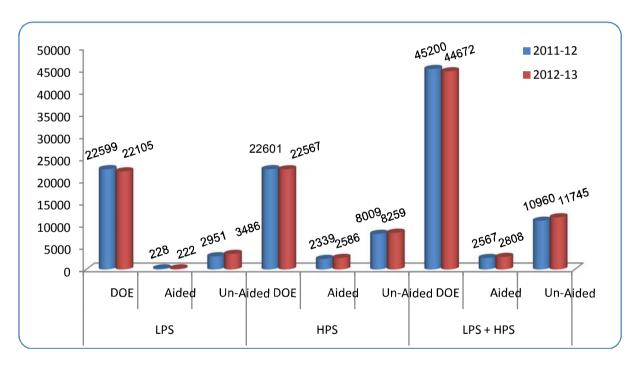

- There are 60036 elementary schools in the State under diverse managements. 44672 schools, 72.32 percent, out of them are either managed or supported by government. 37170 schools, 62.41 percent are exclusively and directly managed by the government. Participation of the private unaided sector is higher at the higher primary stage within the elementary cycle.
- There is a net increase of 499 elementary schools (DoE) in the State during 2012-13 as compared to the figure of 2011-12. While 130 LPS of 2010-11 were upgraded (State-sector), there is a gross increase of 302 UPS from the previous year of which 130 are in upgraded category. The real increase of HPS is 172 schools.

 Location of LPS and HPS in the villages/urban areas is under diverse organizational structures. There are independent LPS schools in small habitations. LPS are also functioning and attached with HPS and high schools. This is true of HPS schools are also. Aided / Un-aided Madarasa are not counted among schools.

		LPS			HPS		LPS + HPS			
									Un-

+ or –	- 494	-06	+535	-34	247	250	-528	241	785	

+ Notes :-

- Significant Increase in Pvt. Un-aided schools at LPS stage.
- Significant Increase in Aided schools at HPS stage.
- 528 'LPS + HPS' decreased under DoE (494 at LPS stage). Incidentally 697 schools are Zero Enrolment schools
- There is an increase of 814 schools in the State. This increase is accounted by growth of private unaided schools (+785) and Aided schools (+332). There is a decrease (-523) of schools of the DoE.

 Decrease of schools in the DoE is mainly at the LPS stage. They were small schools. It is noted that there are 8154 LPS schools in the State with student strength of less than 20 students per school. They deserve to be merged with medium-sized schools in the interests of children. Age-adjusted corporate life, peer-learning and adjustments, balanced social / emotional development will be possible only with sufficiently adequate number of children in each grade [20 to 25 children]

Size of Enrolments:-

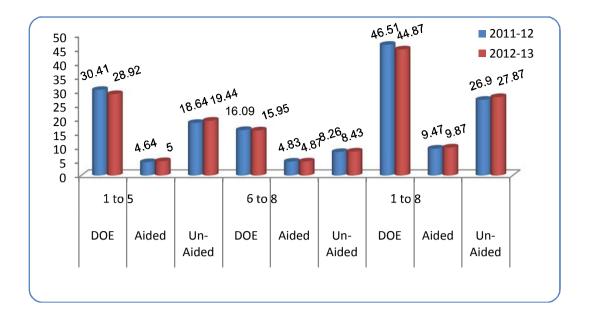

There are 8395589 children in 1 to 8 standards studying in 60036 schools of the State under all managements. 5378481 children are in 1 to 5 standards while 3017108 children are in 6 to 8 standards. There are 4357503 boys as compared to 4038086 girls in these 8.39 million children. Proportion of boys to girls is 51.90 to 48.10 percent. It cannot be 50:50 as there is an imbalance in sex-ratios everywhere. In Karnataka, it is 965; that is 965 women for every 1000 men.

Proportion of children in the schools funded by the Department of Education to total enrolments is 69 percent. Further it is to be noted that outside the Department of Education, in the State sector, there is enrolment in schools of the Department of Social Welfare, the Local Self Government, Institutions and the KGBV schools.

Table of Differences in Enrolments across standards and stages, 2011-12 and2012-13, Standards and Stages

There is a overall decrease of 25628 students in elementary education in the State. There is a marginal and insignificant loss of 36061 students at LPS, 1 to 5 stages, while there is a gain of 10433 students at HPS, 6 to 8 standards. Highest gain is at 1st standard. There is a transition loss of 27478 students from 7th to 8th standards. 2nd, 5th, 6th and 7th standards have shown an appreciation of enrolments during 2012-13, as compared to that in 2011-12. 2nd, 4th, 5Th, 6Th and 7th standards have revealed a loss. Lowest loss is at second standard, the loss being 1508 students.

Distribution of Free Text Books for Private Aided School children:

There are 987,121 children in 1 to 8 standards of private aided schools of the State. All of them are eligible for benefit under this scheme.

Enrolment Ratios – GER Primary Level

Gross Enrolr	nent Ratio -	Primary le	vel (State)
Year	Boys	Girls	Total
2012-13	106.59	107.05	106.81
2011-12	107.14	107.79	107.46
2010-11	107.03	108.07	107.53
2009-10	106.11	107.14	106.53
2008-09	107.80	109.70	106.90
2007-08	111.18	110.69	110.93

The Gross Enrolment Ratio of 106.81 at the Primary level has marginally increased from previous year. The GER at the primary level require further improvement. No major gender gap is noticed in GER at State level.

District wise GER at Primary Level

The GER is not spread evenly in all the districts. There are few districts where the GER at primary level is very low e.g. Bangalore rural (95.43), Shimogga (95.72), Uttara Kannada (93.94), Kodagu (92.99) and Kolar (95.97). State has reported that Bangalore Rural has low GER just because of district is adjacent to the Bangalore urban district. Children are travelling from the Bangalore rural to Bangalore urban for Education. Likewise some district showing lower GER because of children travelling from one district to another district even for primary education.

Source : DISE and OOSC

The gross enrolment ratios in the State for boys, girls and total at primary level and upper primary level are 106.81 and 105.66. These ratios compare well with similar ratios for 2011-12 at the State level. However within the State and across the districts, variations are observed as there has been significant exchange of population because migration for labor [E.g.: of Dakshina Kannada and Kodagu]. The case of Bangalore city is distinct because of its urban structure and floating populations.

Similar reasons hold water in regard to GER at upper primary level. It is noted that overall changes during the two years 2011-12 and 2012-13 are marginal.

It is noted that overall GER ratios have marginally declined both at primary and upper primary levels which is a positive sign.

Net Enrolment Ratio - Primary level

NER Enrolment Ratio - Primary level						
	(State	2)				
Year	Boys	Girls	Total			
2012-13	97.69	97.68	97.69			
2011-12	2011-12 98.93 99.51 99					
2010-11	98.39	99.36	98.86			
2009-10	95.40	94.79	95.21			
2008-09	08-09 98.20 98.38 97.60					
2007-08	96.04	96.16	96.10			

District wise NER at Primary Level:

The further distribution of NER by district suggests that there is a need to make concerted efforts in few districts where the NER is very low. The NER is lowest particularly in Bangalore Rural (87.73), Kodagu (84.87), Uttara Kannada (86.57), Shimoga(87.44) and Chikkaballapura (87.45). Travelling from district to district for primary education is influencing on the NER for ex. Bangalore Rural District.

2007-08	94.76	93.89	95.91					

Net Enrolment Ratio - Upper Primary level

The NER data at upper primary level is 96.95 is showing needs effort at upper primary level. The lower NER (96.95) indicates that there is large number of children who are not into the formal system of education.

District Wise NER at Upper Primary Level:

The districts with lower NER at upper primary level are Bidar(78.61), Mandya (85.69), Hassan(87.75), Yadgiri (87.80), and kodagu(87.85)

These ratios compare well with similar ratios for 2011-12 at the State level. However within the State and across the districts, variations are observed as there has been significant exchange of population because migration for labor [E.g.: of Dakshina Kannada and Kodagu]. The case of Bangalore city is distinct because of its urban structure and floating populations.

In some districts such as Bangalore city, Mysore and Raichur, the NER has crossed the figure of 100 percent as children enumerated elsewhere have migrated to the city and enrolled in the city schools.

Percentage enrolment and population by social category

Retention Rates:-

Retention Rates at the primary level (1 to 5) are quite high and may reach the three digit figure by next year. However retention rates at the elementary level leave a gap of 19.45 percent for the magic figure of 100 percent, during 2012-13. There is no difference between retention rates of boys and girls. However, across the districts, the rates vary.

	Total	81.10	79.71	80.43	81.45	79.40	80.45

Retention rates at total elementary level are 81.10, 79.71 and 80.43 percent for boys, girls and all children, during 2012-13. They have been appreciating over the years.

GROSS COMPLETION RATES

'No detention' policy is practiced in the State. However, if attendance of children falls short of 75 percent of number of days a school has worked as well as 60 percent margin alternatively on health grounds, a child is detained in the same standard and advised to repeat the grade. This is how in a few districts gross completion ratios fall short of 100. In a few districts such as Hassan, rates of completion cross the 100 mark, perhaps because of lateral entry of children from other regions.

Completion Rates depend upon promotion -/ repetition and drop-out rates. Promotion rates are > 95.00 percent at Primary & Upper Primary levels respectively. Repetition rates are quite low, except in Koppal district.

The dropout rate reported here is of only one year i.e. between 2011-12 and 2012-13 at primary level. This means, about 2.56% children are dropping out from the primary grades every year. The districts with high dropout rate at Lower primary level are Yadgir(8.52), Dharwad(8.07), Bidar(7. 63), Gulberga(5.93) and Koppal (5.82).

	Total	4.08	4.64	4.35	5.16	5.66	5.40

The Table shows district wise Dropout rate at Upper Primary Level. It is note that the marginally increases in the dropout rate at the upper primary level in the year 2012-13. However, the average dropout rate of 5.40% is also more than expected. The districts with high dropout rate at upper primary level are Yadgiri (18.45), Bidar (13.11), Gulberga(12.43), Koppal (12.22) and Bijapur (9.88).

TRANSITION RATES

Transition:-

- Enrolments in all management schools in 5th standard during 2011-12 was 1050329 with boys and girls break-up being 543906 and 506423 [U-DISE]. Enrolments in 6th standard in all management schools during 2012-13 is 10062137, of which, figures for boys and girls are 5221556 and 4840581 respectively. The transition rates from 5th of 2011-12 to 6th of 2012-13 for B/G/T are 94.96, 94.25 and 94.62 percent respectively.
- Transition rates in schools of the Department of Education are lower than that of all managements; it is noted that all management's data include Ashram schools (LPS) of Social Welfare Department as well as local bodies' schools apart from private unaided and aided schools.

	Total	97.09	96.66	96.88	94.96	94.25	94.62	

Transition Rate (V to VI)							
Year	Year Boys Girls Total						
2012-13	94.96	94.25	94.62				
2011-12	97.09	96.66	96.88				
2010-11	96.20	96.09	96.15				
2009-10	85.53	84.41	84.98				
2008-09	85.67	84.83	84.60				

• The transition rate is one of the important indicators in elementary education. The indicator shows the percentage of children moving to the upper primary level (from grade V to VI). It is observed that a large number of students dropout from the system during this transition.

ENROLMENT INDICATORS across SOCIAL CATEGORIES

GER for SC / ST children has crossed 100 percent at primary level while it is below expectations at the upper primary level. The rates are 101.69, 104.5, 89.13 and 100.55 respectively. The same trend is observable even among Muslims.

NER for SC / ST are lower than that for general population. It is noted that the shortfalls in GER and NER are partially accounted for schooling exposures under the OOSC programmes.

Note: - In an examination, analysis and understanding of completion rates it needs to be noted that the systematic programme of collection of data through DISE began in 2005-06 while completion rates data go back to 2002-03.

TRANSITION RATES for Social Categories

Transition Rates for SC, ST and Muslims from primary to upper primary levels, 5th to 6th standard are 93.53, 88.14 and 92.05 percent respectively. It needs to be noted that sub-optimal transition and completion rates are partially accounted by the drop-out (retention) rates.

Classes	Total	SC	ST	Muslim
5th to 6th	94.62	93.53	88.14	92.05
7th to 8th	94.43	92.87	96.90	87.18

TEACHERS in the STATE

There are 204295 posts of sanctioned teachers in the schools of the DoE of the State. Teachers are not recruited separately for lower and upper primary stages of elementary education. Based on seniority and experience they are posted at the two stages. Teachers of the State have a minimum of +2 educations. Only trained teachers, 2 years of diploma / certificate, are recruited. The matrix of recruitment gives balanced weight age to Science,

Mathematics, Language and Humanities subjects studied by the teachers at the +2 stage, at the time of recruitment. This would facilitate subject competence for transactions with children at the upper primary stage. Districts are the levels of recruitment even though digital counseling is organized at the State level. There are no inter-district transfers as per the Civil Service Rules for teachers. Any rational deployment is possible only within the district. PTR for Sanctioned Teachers: of the 204295 sanctioned posts of teachers, 52786 and 151509 are located at lower and upper primary stages respectively. For the given load of 2892255 children in purely LPS and 1595094 children at the UPS which includes, by and large, a LPS feeder unit, and for the summated 4487349 students, the pupil-teacher ratios work out to be 13.75, 23.40, and 20.91. (In 2011-12-14.53, 23.87 and 21.49)

Notes:-

- State total includes teachers of SW / LB / Other schools.
- Posts in Aided schools are not filled up in time after retirements of existing teachers. They manage with contract teachers. This explains high PTR.
- Teachers of Govt. / Aided are qualified / trained as per NCTE norms. This is not the case with unaided schools. Hence Female teachers are in high proportion. Enforcement of RTE 2009 / NCTE norms in unaided schools may lead to conflict of interests.
- Total Sanctioned Teachers in DoE in Elementary stage is 204295. As such, 222872 posts are vacant. PTR ratio for WT in DoE is well within RTE norms. Individual schools may have problems.

Single Teacher Schools :-

There are 1465 schools which have reported as having only one teacher, 2.02 percent. 797 LPS out of these 1465 schools bear an enrolment which is less than 10 children in 05 standards. The sanctioned posts of (single) teachers have been relocated in other needy schools. Rest of the 777 schools carry enrolments of less than 20 children, on an average 15 children.

Initially, at the time of opening of schools in school less habitations, there was adequate strength and two teachers to begin with, in these schools. Over a period of time, due to reasons of deceleration of population growth rates, persistent failure of rains (droughts), migration for work, size of habitations declined, thereby resulting in low enrolments to schools. As per State policy for access to schooling and in the interests of economic efficiency (scale economy) one teacher was shifted to needy schools. That is how there are single teacher schools in the State. Alternative arrangements such as transport networked nodal schools with complete facilities are being proposed. Community acceptance and involvement is a significant factor in this process where in kids of 6,7,8,9 and 10 years of age are involved.

EDI - Over All Index of Upper Primary Schools 2012-13

Source : DISE 2012-13

ACCESS

As per Right to Education Act – 2009, the state has notified the RTE rules and accordingly it is mandatory for the state to provide access to schooling facility to every child within the neighbourhood norms. The neighbourhood has been defined as follows :

Primary schools : -

In respect of children in classes I - V, a school shall be established normally within a walking distance of one km of the neighbourhood.

Upper Primary schools : -

In respect of children in classes VI-VII, a school shall be established normally within a walking distance of 3 k.m of the neighbourhood.

In case of urban areas where local authorities are City Corporations, the area of neighbourhood shall be the area of ward notified for the purpose of governance of local authority.

As such, the school mapping exercise to identify the availability of Government, Government aided and Private(unaided schools) in the neighbourhood of each habitation in both Rural and Urban areas has been undertaken by every district. Through this exercise, the need for opening of new schools, upgradation of schools, provision of transportation and escort facilities, the requirement of teachers at Primary and Upper Primary level in respect to Pupil-teacher ratio and the existing vacancies against sanctioned posts has also been identified and requirement of teachers is placed by the districts.

HABITATIONS AND ACCESS (Primary)

During the year 2012-13, 60888 habitations were identified and no new habitations have been notified during the year 2013-14. Total number of habitations covered by Primary schools in 2013-14 is 59080 as compared to 58253 during 2012-13. Thus there is an improvement in providing of access facility to primary schools. (827 habitations) during the current year. Out of the remaining 1808 habitations, 4 habitations (2 habitations in Mysore and 2 habitations in Gulbarga district) are eligible for opening of new schools. Therefore 4 Kannada medium schools (2new schools in Gulbarga district and shifting of 2 schools in Mysore district) are proposed. One urdu medium school in Dharwad district is proposed with the objective of achieving social access. Districtwise list of total number of habitations and habitations covered / uncovered by Primary Schools.

ANNEXURE
NEW SCHOOL PROPOSED 2013-1

New School Mapping of GULBARGA District 1. Kodiganoor New Extn. Afzalpur :

Justification :

 Among 2 proposed habitations mentioned in above table the in Afzalpur block Kodignur new extention is the rehabilitation center due to Bhima bridge cum barrage. In this habitation 48 families are living and there are 35 children of the age group 6-14 are available. For this habitation the nearest habitation is Kodiganur it is of 3.5 K.M. away from this habitation. Already Government Land is available and concerned Gram Panchat has given undertaking that they will provide the Land for the construction of forthcoming school.

In Koralli Tanda of Aland Block already Social Welfare department is running Ashram School. But Now they wanted to close this school because of teachers. And they have given in writing that education department has to open the new school. Already this school is having well equipped building, we have requested District officials to hand over the building. They have agreed. In this Tanda there are 100 families are living and 36 children are of age group 6-14. If the school is closed they have to walk near by habitation Dayanand Nagar Korali it is of 2 K.m. So as per the norms we are planned to open New school in this habitation using available social welfare building. Only we are asking required teachers under this plan.

2. Mysore

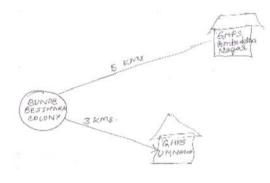

Status of school mapping

Out of which in two habitations Bijapura Colony and Bunde besthara Colony in hunsur block are identified as habitat without schools in 1 km distance. About 140 families are migrated to Bijapura colony from Bijapura Disrict. Hence 73 children will be enrolled from this habitation to the new Schools. In Bijapur Colony 73children are already identified. They are travelling to nearby school at B R Kaval which is 3 Kms and the is inconvenient for travelling because of no road network and forest area. Hence it is very important to open new school at Bijapur Colony. In this matter district level and block level officers have inspected the areas and suggested to open new schools.

Bijapura colony Mapping

A school established from the BCM Department was closed in the year 2012-13 in Bunde besthara Colony in Hunsur Block. About 43 Students of 1 to 5th class have to travel for 2-3 Kms for schooling to GHPS Ummthuru which is nearby to the Habitation. And in this regard the community and the concerned BEO have made the letter correspondence to this office.

Bunde Besthara colony Mapping

After confirming the availability of site for the colony construction of new school building in Bijapura Colony and Bunde Besthara colony, new buildings for schools is proposed in this habitation and shifting teacher posts by closed schools into new schools. In Bunde Besthara Colony to start new school constructed School building is available which belongs to BCM department and correspondence for the handover of building is made.

Two Schools in Hunsur block, GLPS Shivaji Nagar and GLPS Marura Kaval are closed since 3 years, hence schools are shifted to Bunde Besthara colony and

Bijapura Hadi along with teacher post. New buildings, School grant, TLE grant is proposed.

Proposal for shifting schools : It is proposed to plan for shifting of 2 schools (Hunsur-2) in school less habitation. Physical barriers, distance from existing school has been kept in mind while opening new schools..

Block	Habitation	Nearest Upper Primary school	DISE CODE	Distance from the habitation	Reason for asking new schools
	Bijapura colony	GHPS, B R Kaval	29260401901	3 Kms	This h abitations is not provided with school. ,
Hunsur	Bunde Besthara Colony	GHPS, Ummathru	29260401901	3 Kms	One school managed by BCM was closed in 2012-13, hence school is proposed.

S. No.	Nam e of Distr	Habitations	No. of children living in unserved habitations but enrolled in far away schools						
	ict		Boys	Boys Girls S		ST	Muslim		
1		Bijapura colony	48	25	0	73	00		
2	Mysore	Bunde Besthara Colony	25	18	0	43	0		

3. Dharwad :

For the Social access, there is a need to provide access. The Sasvihalli of Navalgund block has 25 Muslim children 13 of age group 6-10. The habitation is already having the kannada HPS school (29090504601 -- HPS SASWIHALLI).

The detail of the proposed school is as follows:

SI.No	Block	Village	Medium	Boys	Girls	Total	Distance of nearest Urdu School in KM	
1	Navalgund	Sasvihalli	Urdu	13	12	25	29090505910HPUBS ANNIGERI 8 K.M OR 29090502303 HPUBS HALLIKERI IS NEAREST URDU SCHOOL. 10 K.M	

SPECIAL FOCUS DISTRICTS

Diversity is the hallmark of Indian society. This is true of educational scenario. There are 3 districts in the state. Bidar, Dakshina Kannada, Gulbarga which have a high and significant minority (Muslims) population. Incidentally Bidar – Gulbarga districts are also in the north eastern belt of the state which constitutes most backward region. The Gulbarga district was split-up into 2 revenue districts during 2009-10. Dakshina kannada district is a prosperous district with minorities as one of the major chunk of population.

Likewise the Kolar district population is dominated by SC. This is also a district that records perennially low rainfall enjoys more dry spell in the year. Similar is the case with Chikkaballapura district which was carved out of Kolar district during 2008-09 as it constituted a highly backward region of a backward district. Education growth in this region has been bit slow over the years. There is a disparity between the number of primary schools and the upper primary schools. During 2009-10 the ratio was more than 3:1 With SSA support and other government initiatives the district reports a ratio of 1:1.38 for lower primary to upper primary schools.

DISE reports reveal that the retention rate in Bangalore rural was less than 60%. A follow up process reveals that the earlier reporting was a mistake. The corrected figure shows a retention rate of over 95% in the district and across all the taluks. Hence the district does not come under the SFD category.

District wise Out of School Children 2013-14:

Child updation of December, 2012 identified 22741 children in 7 to 13+ age group who are outside the school-net. Bangalore Urban, Yadagir, Koppal, Bidar, Gulbarga and Gadagconstitute the backward districts of the State except Bangalore Urban. OOSC in these 6 districts add upto nearly 56.55 percent of the total OOSC in 34 educational districts [30 Revenue districts] of the State. Including OOSC children, continued from 2012-13, there are 49471 OOSC in State.

Drop-out rates and non-completion rates in these districts are also considerable, specifically in Gulbarga and Raichur districts. These rates are derived from DISE data collected from schools where record-management is continuous, systematic and dependable. However information on Drop-out children as collected from OOSC surveys are much lower than that of DISE figures. It is to be noted that child census figures are obtained from households. It is reported data.

Reasons for Drop-out phenomena as per Child Census :-

The DISE data, given its scale of collection and magnitude of variables, does not provide information on reasons for dropping out of children from schools. The child census exercise collects the reasons. As per the present survey, the prominent reasons are as follows.

Engagement in household work is a major reason for drop-out phenomenon. In a great majority of labourer households where both parents go out for work and livelihood, children, especially girls are expected to manage the households, service drinking water needs, clean the used utensils, wash clothes and in several cases take care of siblings. Residential Special training centres would definitely attract these children, given the poverty levels in rural households and urban slums.

Migration for work, is quite high in several districts, specifically in Bangalore Urban district. Tent schools have been proposed for such children.
