GOA, DAMAN & DIU

PREFACE

"Statistical Pocket Book" is a regular publication of the Directorate of Planning, Statistics & Evaluation, the current issue being the nineteenth in the series. It presents in a compact form useful socio-economic information about the Union Territory of Goa, Daman & Diu thereby attempting to fulfil the ever increasing demand for facts and figures about the changes which are taking place in its economy.

It is hoped that this publication will serve as a useful reference book of basic statistics to all those seeking such information.

The Directorate acknowledges with gratitude the co-operation extended by the various Government, semi-Government and private agencies in making available the statistical data presented in this reference book.

Although the current issue of the Pocket Book is for the year 1985, information regarding the distribution of various portfolios among the Ministers, names of the Secretaries, Joint Secretaries, Under Secretaries and Heads of Departments has been

updated as on the date of sending this publication to the Press. Some additional information regarding autonomous bodies, Central Govt. and Semi Government offices is also published in the current issue.

Suggestions towards improvement in quality and coverage of information in its future release are always welcome.

* To convert degrees Fahrenheit to degrees Centigrade, subtract 32 from the °F and multiply by 5/9. For example:
 $^{\circ}\text{C} = 5/9(^{\circ}\text{F} - 32)$. When $F = 50$, $F - 32 = 18$, $5/9 \times 18 = 10^{\circ}\text{C}$.

** To convert degrees Centigrade to degrees Fahrenheit, multiply the C by 9/5 and add 32. For example:
 $F = 9/5 C + 32$. When $C = 50$, $9/5 \times 50 = 90$, plus $32 = 122^{\circ}\text{F}$.
