

Introduction

The main aim of this area study bibliography is to provide a selective listing of publications in English language available in major libraries of Goa, Daman, and Diu. This work is a part of a larger project designed to help scholars in locating social science literature, on Indian Union's constituent states and territories. A bibliography on the Andaman and Nicobar Islands has already been issued.

This bibliography includes 95 monographs, including government publications and special issues of periodicals devoted to this area. In the main part, entries, mostly with full contents/annotations, have been arranged by authors. Subject and title indices have also been provided.

While this work is the culmination of collective effort, special mention needs to be made Dr. V.T.Gune, who bears the responsibility of collecting bibliographical data and providing contents/annotations, and locations. Checking of cards and assigning subject descriptors and editing work have been done by the staff of NASSDOC.

It is hoped that the publication will serve the needs of scholars interested in the history, culture, and development efforts of the region on the country's west coast.

Comments and suggestions may be addressed to the Director, NASSDOC (ICSSR), 35 Ferozshah Road, New Delhi - 110001.
