This publication entitled "Selected Educational Statistics 1975-76" is the first in a new series to be brought out annually. This will replace the previous publication of this Ministry entitled "Educational Statistics at a Glance" which included a few more items but was mostly delayed as complete information from the States was not always forthcoming in time. The Sixth National Conference on Educational Statistics recommended that as far as possible current statistics should be published during the same year to which they relate at least in respect of the most essential items which may be immediately required for purposes of planning and monitoring. Keeping this objective in view, the information in this publication is confined only to those essential items for which the data can be easily collected and furnished by the State Governments.

The reference date for the statistics contained in this publication is 30th September, 1975. Since we were anxious to bring out this publication quickly, the collection and compilation of the data has not been subjected to thorough scrutiny and therefore, may be treated as provisional. It is hoped that it will be possible to bring out the selected statistics for 1976-77 before the end of the year.

The Ministry of Education & Social Welfare take this opportunity to thank the Directorates of Education of various States and Union Territories who had supplied this data and without whose cooperation this publication could not be brought out so easily.
