* The overall percent increase in enrolment shows an increased of 7.18%. This in case of girls is higher then that of boys with 9.88% & 4.98% respectively. This shows a positive trend in case of increase in girls enrolment and reducing the gender disparity.

* When details of blockwise figures are seen,six out of ten block show that percent increase in enrolment of girls is more then that of boys. These blocks are Amla, Athner, Betul, Bhimpur,Chicholi & Ghoradongri.

* In all the blocks, Bhimpur is ahead in recording higher enrolment, the percent increase in girls being more then that of boys.

* Amla,Prabhatpattan & Betul blocks need to be given special focus on overall enrolment with concentrated efforts on boys in Amla & Betul on girls in Prabhatpattan, which has shown decline in the enrolment figures.

*In Amla block, last year the percentage of result of boys in comparison to girls was very good hence a good number of of boys passed out after passing V class, while that of girls was good in Prabhat pattan block thus affecting overall enrolment.

* The SC enrolment in Betul indicates a fall in enrolment since 95-96 which is reflected more in case of SC Boys. However the enrolment of SC girls though marginally increased shows a positive trend.

* The increase in enrolment is higher in girls in fifty percent of blocks .

* The focus areas of enrolment of SC children are Bhainsdehi & Ghoradongari block. Multai Block also needs to focus on SC girls enrolment which also happens to have gender disparity by 44.72 points.

* In Bhasidehi Block percentage of SC's is 18% so whenever there is migration to other District percentage falls to a great extent.

* In Ghoradongari Block percentage of SC is 12% hence state of affairs is the same as above.

* In Athner block percentage of ST enrolment 11%. They usually go in search of work to Maharashtra province hence the percentage falls.

* In Ghoradongari Block ST's usually migrate to Hohangabad district hence the percentage falls.

* In rest of the block there is increase in the percentage of enrolment .

Action Points :

- * The enrolment of SC children needs to be addressed with specific efforts.
- * The gender disparities needs to decrease. For this ongoing efforts for girls education needs to be specifically targetted towards enrolment.

* There is an increasing trend in the enrolment of SC& ST children over the year.

* The focus areas for improving enrolment of ST is Begamganj& Obedullahganj & for SC.

Action Points :

- * The efforts made for girls enrolment needs to be continued.
- * The declining enrolment trend of boys as in Udaipur, Obedullahganj and Begamganj needs to be reviewed to make specific efforts.
- * Gender disparity in Udaipur blocks needs to be reduced.

Action Points :

- * There is a substantial increase in the enrolment of class V, which suggests that children from non formal streams also appear for class V board exams.

Action Points :

- * The trends indicated by classwise enrolment figures needs to be studied so that focussed strategies can be formulated to effectively improve classwise enrolment.

- * In Shahdol, there is a decrease in repetition rates by 1.75 points.
- * The repetition rate in girls has gone down in comparison to that of boys thus lowering gender disparity in repetition.
- * Gohparu, Jaithari, Jaisinghnagar, Karkeli & Manpur have shown a decrease in the repetition rates.
- * The problem of repeater needs to be given attention in Pali block.

Action point :

- * The reasons for repetition of children needs to studied, as there is a govt. policy of no detention till class-IV.
- * Special attention on class V results to be given as the number of repeaters may shown an increase due to poor results.

- * There is an increase in number of school in 96-97, 98 schools have been started in Betul district.
- * 151 more class rooms have been provided. But in many blocks there is a decline in number of classroom which suggest that the rooms are either not being used as classroom but as office, staff room or because of the dilapidated condition of classroom, it is not used. this would require repairs.
- * The increase in number of teacher shows a positive trend.
- * The PTR ratio is showing decline which is a positive trend. The PTR in 95-96 which ranged between 53-36 in 96-97 ranges between 46-37.

- * There has been an increase of 157 school in 96-97.
- * The classroom have increased in all the blocks. In 95-96, on an average no. of children per class room was 35 which is also the same in 96-97.
- * The number of teachers has shown an increasing trend. 998 more teachers have been recruited in 96-97.
- * The PTR in nine blocks has declined which is a positive trend. The range of PTR in 95-96 was 54-26 has now come to 50-26 in 96-97.

Action Point :

- * In spite of increase in number of class room, the existing status needs to be assessed so that optimal use of classroom is being made.
- * The teachers show an increase in number, but efforts should be made to rationalise the teacher placements so that there is adequate number of teacher in each school.

Action Points :

- * The data clearly indicates that the physical facilities in schools needs to be improved.
- * Construction of girls toilets and boundary walls needs to be taken up on a large scale. For this convergence with other departments, agencies needs to be made. The community should also be made to involve in this.
- * The schools should be provided with blackborads from OBB scheme. The school contigency given to school to be utilised to procure Blackboards in school, where these are not available or in bad condition.
- * District need to make efforts to make electricity available to the schools.
