HARYANA .

PREFACE

In order to meet the constant demand for the List of Primary Schools in the State, an effort has been made and this Directory has been prepared.

The present publication contains the names of the Primary Schools and indicates their exact location sub-division-wise. In order to appreciate educational development in the field of Primary Education certain important statistical tables depicting separately the number of Government/Non-Government Schools both in rural and urban areas have also been added at the end.

The information contained in this booklet has been collected through the District Education Officers and has been compiled in the Statistical Cell of the Education Directorate. The information in this publication is purely factual and no conclusion from the presented data have been drawn.

It is hoped that this publication will go a long way in helping the Educational Administrators and Planners for the formulation of rational and sound development programmes in the field of Primary Education.

INTRODUCTION

Keeping in view the pressing demand of the administrators and research scholars, this brochure named "the Directory of Primary Schools in Haryana," is being brought out for the first time. An attempt has been made to include the names of all the Primary Schools functioning in the State during the period 1974-75. It provides the exact location of the institutions Sub-Division-wise and District-wise in addition to its characteristic as Rural or Urban. Besides this some important statistical tables have also been added in order to provide birds' eye view to the reader about the number of schools in each sub-Division and District classified separately for Government and non-Government, Boys and Girls, Rural and Urban.

The information contained in this Publication is mainly factual and no effort has been made to draw any analysis. It is hoped that this booklet will serve as a guide to all the Educational Administrators and Planners for chalking out educational development plans in a rational manner.

2. This publication has been compiled in the Statistical Cell of the Directorate of Education on the basis of data received from the District Education Officers and Sub-Divisional Education Officers.
