A high proportion of child labour is concentrated among the migrant labour.

1.9. The overall low work force participation rate in the State could be looked at in two ways: the extent of marginal workers and the extent of unemployment. Marginal workers comprise about 5 % of the population in this State, compared to 3 % at the national level (1981 Census). In other words, a large proportion of Goan population could find work for less than half the year in the period before the Census. This is particularly the case of women, where almost 7 % of all women are employed as marginal workers (and 2.4 % of males). Of these women, as many as 94 % have reported their primary activity as household work.

1.10. The magnitude of unemployment in Goa is considerable as compared to the total population. Upto end June, 92 1,08,484 persons were on the 'live register' of the State Employment Exchange. This is relatively a large number given the size of population which is placed at 11.69 lakhs. A large percentage of the unemployed are educated, mostly matriculates and graduates in Arts & Commerce.

1.11. It is rather unfortunate that the high level of unemployment is co-existing with high rates of labour immigration in the State. This is explained by the fact that while the demand for labour is for unskilled work, the supply of native Goan labour is by and large educated and cannot be fully absorbed by the relatively small industrial and service sector. This shows that the thrust should be directed towards providing employment opportunities to educated men and women.

ECONOMIC PLANNING

1.12. Goa came into the main stream of planned economic development process only after its liberation in 1961. A conscious development policy was initiated in 1962-63, while the rest of the country had already completed the first two Five Year Plans and was in the midst of the Third Plan. Thus, in real sense, planning for long range socio-economic development virtually commenced only in the Fourth Plan period. Goa made significant progress initially as a constituent unit of the erstwhile U.T. of Goa, Daman and Diu and later as a full-fledged State excluding Daman and Diu since May, 1987. Salient features of development in some important sectors are indicated in the following Chapter. The outlays and expenditure during Plan periods beginning from the Third Plan are summarised in Table below:-

Table 1.1

| 9. Annual Plan. (1992-93) | | 152.50 | - | 89.7 | - | | - |

(Note:- The outlay and expenditure figures from 1962-63 till 1986-87 are for the erstwhile U.T. of Goa, Daman and Diu. The figures for 1987-88 were bifurcated on population norms between Goa (92.73 %) and Daman & Diu (7.27 %)).

1.13. It may be observed from the Table 1.1 that the approved plan outlays increased from Rs.39.50 crores for the Fourth Plan to Rs.761.00 crores for the Eighth Plan and that there has been no shortfall in utilisation of approved outlays during the above period except in the Annual Plan 1991-92, which was due to resource crunch faced by the Nation.

PLANNING PROCESS

1.14. A Planning Board was constituted for the first time in this Territory in 1980. Besides official members, the Board has non-official members from different fields such as education, trade & commerce, economics, industry, etc. The Board renders advice to the Government on the matters of planning including Plan formulation, review and monitoring.

1.15. Since the State comprises a very small area of 3702

sq.kms. which is only about 0.12 % of the total area of the country, decentralisation of developmental planning through the introduction of Panchayati Raj system was not considered necessary. The State has only the basic tier of the Panchayati Raj system in the form of Village Panchayats, the working of which is regulated by the Village Panchayats Act, 1962. The last elections were held around a year back. However, at the taluka level, there is an Advisory Committee (Block Advisory Committee) on which are represented Sarpanchias of all the primary Village Panchayats. The Advisory Committee reviews periodically the developmental activities taken up in the talukas and renders useful advice on the basis of felt-needs of the area and the people. Further, the area of interest runs down to the Panchayat and village level, and in fact, there is total involvement both of public representatives as well as Govt. officials in the entire process of development. The planning proposals are drawn up after constant dialogue and feed-back from different agencies like Village Panchayats, Block Advisory Committees at the taluka level, financial and other institutions.

1.16. The arrangements above are found to be adequate to take care of the peoples felt-needs. The public involvement in developmental process is also very high and people are generally very vocal about their rights and duties of Govt. functionaries. Moreover, in terms of both area and population, this State would be more or less equal to an average district of the neighbouring States. Hence, the State level planning process would continue to remain synonymous with the district level planning process. In the light of this no radical departure in the planning process is envisaged.

1.17. During the Eighth Plan (1992-97) it is proposed to set up a small core machinery for planning at the district level, which has been approved by the Planning Commission. This scheme would continue during 1993-94 as well.

CHAPTER - II

LEVELS OF DEVELOPMENT

As stated earlier, the planning process was introduced in the State only in 1962-63. Nevertheless, significant economic development has taken place during the last three decades or so. The State has already achieved the several welfare targets the Nation has set itself for the year 2000. It has one of the highest per capita income; one of the highest life expectancy at birth, one of the lowest infant mortality rate; one of the lowest net reproduction rate and one of the highest literacy rate. The rapid progress has not been without its pitfalls. The main problems that have emerged are unemployment particularly for the educated, threat to environment and a large number of immigrants and rapid urbanisation with problems like slums, waste disposal, air pollution and other social hazards.

2.2. The Net State Domestic Product (NSDP), at constant prices has increased from Rs.315.46 crores in 1980-81 to Rs.515.01 crores in 1990-91 (Quick estimates) recording an average annual growth rate of 5.0 percent. The percentage change in 1990-91 over 1980-81 is 63.2 percent. A broad sector-wise analysis reveals that in 1990-91, at constant prices (1980-81), the tertiary sector contributed 47.8 %, the secondary sector 34.2 % and the primary sector 18.0 %. The share of primary sector declined from 28.5 % to 18 %, during the period 1980-81 to 1990-91. Likewise the share of secondary and tertiary sectors increased from 29.7 % to 34.2 % and 41.8 % to 47.8 % respectively during the same period. The growth of NSDP at constant prices is indicated in Table 2.1 alongwith sectoral shares.

AGRICULTURE.

2.3. An area of 1,40,698 Ha. (39 %) out of the total geographical area of the State constitutes net area sown and 10,761 Ha. are cultivated twice. Nearly 46 % of the gross cropped area of 1,51,459 Ha. is under cashew and coconut plantations, 35 % under rice and the remaining is under miscellaneous crops like vegetables, pulses, groundnut.

2.4. There has been a threefold increase in foodgrains production during the last three decades. It has risen from the pre-liberation estimates of 0.50 lakh tonnes to more than 1.52 lakh tonnes. There has been a similar trend in the production of plantation and horticulture crops as well. For instance, the production of cashew nut and coconut has increased, respectively, from 3500 tonnes and 70 million in 1961 to 12,250 tonnes and 108.2 million nuts in 1991-92. Sugarcane production which was negligible in 1961 has increased to 95,000 tonnes in 1991-92.

2.5. In 1961 negligible area was under vegetable cultivation. However, due to improvement in irrigation facilities and extension efforts, etc., the area under vegetable cultivation has increased to about 7300 Ha. accounting for more than 5 % of the total gross cropped area.

2.6. The scope for expansion of cropped area in the State is only marginal, at present. Further improvement in the performance of the agriculture sector has, therefore, to be brought about by way of increased irrigation facilities, increase in productivity and yield levels as also by diversification through cultivation of horticulture crops and multiple cropping.

ANIMAL HUSBANDRY

2.7. The state of livestock prior to introduction of planning in the State was characterised by lack of scientific management practices, inferior quality of cattle, low yield of milk, etc. However, as a result of developmental efforts, milk production which was negligible in 1961 increased to about 68,000 litres per day. The setting up of a dairy plant at Curti opened up a suitable market for rural milk producers and ensured regular supply of wholesome milk to the urban population.

2.8. Poultry development has also made considerable progress. Some 850 poultry units have come up during the last 5 years. The poultry production has reached a level of about 95 million eggs a year and a daily production of 5000 kgs. of broiler meat in 1990-91.

FISHERIES

2.9. Goa's coastline stretches over 104 kms. and inland waterways account for another 250 kms. and therefore rich in marine resources. In addition to this, about 4000 Ha. of low lying land, which is utilised for paddy cultivation during the monsoon season, are suitable for culture of prawns and fish for the remaining part of the year. Barring prawns, all other fish is consumed locally. On an average, about 2,000 tonnes of prawn are exported every year fetching about Rs. 6.00 crore export earnings.

2.10. The increase in fish production has been possible due to major thrust in mechanised fishing. There are now around 850 such fishing vessels and another 900 or so country crafts and canoes fitted with outboard motors. A modern prawn hatchery has been set up. It is expected to supply adequate prawn seeds to encourage pisciculture in around 4000 Ha. of low lying lands.

FORESTS

2.11. In the development programmes of the State due importance has been given to the conservation and development of forest cover. The actual forest cover as percentage of total geographical area is about 32.5 percent which is much higher than the all-India average of 19.5 or so. The State forest areas have been protected and rehabilitated apart from bringing non-forests areas under tree cover through various afforestation schemes, adding to the tree cover. Almost 90 percent of the forest area in the State is confined to the Western Ghats foothills in the talukas of Satari, Sanguem and Canacona. The Government forest area is around 1,000 sq. kms., out of which 354.78 sq. kms. have

been constituted into four Wild Life Sanctuaries.

COOPERATION

2.12. The cooperative movement which started in 1962-63 has gradually expanded and embraced different spheres of activities both in rural and urban areas such as agricultural credit, consumers, marketing, industrial, housing, dairies, fisheries, farming and allied sectors. The number of cooperative societies in the State is more than 1013 at present, with more than Rs.28.00 crores paid up share capital and deposits of around Rs.230.00 crores. The business turnover of these societies increased to Rs.81.00 crores as at the end of 1991-92.

2.13. In the rural sector, all the 87 Primary Agricultural societies have been functioning in an efficient manner. The 138 Dairy Cooperative societies which are fashioned on the Anand pattern have been regular suppliers of milk to the Milk Union which in turn controls the distribution network in the State. The only sugar factory in the State is also in the Cooperative Sector.

IRRIGATION

2.14. Though the State receives about 3000 mm of rainfall annually in a short span of four months, the same was not exploited properly in the State prior to its liberation. Since then several schemes are being implemented in the State to harness water for the benefit of the people. Area-wise utilisation of surface water potential for different types of irrigation schemes is expected to be as follows:-

- i. Minor irrigation - 25,500 (CCA) or 38,250 Ha ultimate
- ii. Major & Medium irrig. 56,760 (CCA) or 88,020 ultimate.

The major part of the irrigation potential is expected to be created by Major & Medium irrigation. The two irrigation projects, i.e. Salaulim and Anjunem when fully commissioned are expected to irrigate 14,360 and 2,100 Ha. respectively. Tillari is the other major irrigation project being executed jointly by the Governments of Maharashtra and Goa. With its completion 16,978 Ha. in this State would get irrigation facilities apart from providing 25 MLD of water for domestic and industrial use.

RURAL DEVELOPMENT

2.15. The Rural Development Agency is implementing Integrated Rural Development Programme (IRDP), Jawshar Rojgar Yojana (JRY), Development of Women and Children in Rural Areas (DWCRA) and the Programme for introducing smokeless chullas.

2.16. Under IRDP 29,300 families have been assisted during the Seventh Plan. The assistance has been in the form of providing irrigation facilities, supply of outboard motors to marginal fishermen, training of rural youths in various crafts, providing self-employment, etc. About 6,238 families are to be assisted during 1992-93.

2.17. The DWCRA was started in 1986-87. Under the programme 163 groups have been formed so far and all are functioning satisfactorily. During 1992-93 another 50 groups are to be formed. Some of the activities which have been set up by the women in these groups include making papade, masala, pickles, sweets and other eatables. The average income per woman is about Rs.600.00 p.m.

2.18. The JRY was started in the terminal year of the the seventh Plan(1989-90). Under the programme employment to the extent of 21.46 lakh vandyas has already been provided upto end 1991-92. In addition to employment, durable assets have been created for the benefit of the community at large such as afforestation on open barren lands, drinking water wells, village roads, government primary school buildings, panchayat ghars,etc.

INDUSTRY & MINERALS

2.19. As on March,92 there were 47 large & medium industries in the State with a total investment of over Rs.300.00 crores and providing employment to more than 9000 persons. There are also 4,987 small scale industrial units with an investmemnt of over Rs.61.00 crores and providing employment to more than 30000 persons. These SSI units manufacture products ranging from T.V.sets,watches,auto components, ceiling fans, nylon fishing nets, processed food, cotton yarn, IMF liquor, fertilizers, pesticides, tyres, drugs, sugar,etc.The percentage contribution of the manufacturing sector to the State Domestic Product has increased from 7.3 in 1960 to 34.2 percent in 1990-91(Q) at constant prices.

2.20. There are 12 industrial estates in Goa having 598 sheds. All these industrial estates are established by Goa, Daman and Diu Industrial Development Corporation.Besides, the Economic Development Corporation which was establiished in 1975, has sanctioned loan amounting to more than Rs.115 crores to about 950 units. The Corporation has also subscribed around Rs.6 crores as equity capital to subsidiaries, joint sector projects and assisted projects. All the companies in the joint sector and subsidiaries of EDC are doing well.

2.21. The main mining activities in the State relate to

extraction on iron ore, which has increased from 63.95 lakh tonnes in 1961-62 to 138.29 lakh tonnes in 1980-81. In 1981-92 the production of iron ore was of 13.433 lakh tonnes. There is also extraction of bauxite and ferro-manganese ores, which accounted to 39,000 tonnes of 1991-92 production. Iron ore is mostly exported to Japan, South Korea and Italy and the foreign exchange earnings are more than 400 crores. Mining industry employs about 8,500 persons directly and equal number of persons are employed in transport and allied activities.

POWER

2.22. Electricity is one of the major items of infrastructure needed for development. The State does not have so far any power generation. The present demand is 120 MW as against the availability of 240 MW from Korba & Vyndhyachal stations in the Western Grid and 105 MW from Ramagundam NTPC station in the Southern Grid.

2.23. All the villages and towns in the State have been electrified. In so far as electrification of households is concerned, 99.3 percent of the total population has been covered. The remaining 0.7 percent which accounts for nearly 2,000 households are also likely to be covered in the near future. The per capita consumption of electricity in the State as at the end of 1991-92 is estimated to be 522 KWH.

TRANSPORT AND COMMUNICATIONS

2.24. The State has a fairly well developed network of transport and communication systems. It is served by railways, roadways, inland waterways and airways as well as by post and telegraph offices, telephones, etc. It has a very good natural harbour at Mormugao. Mandovi, Zuari, Sal, Chapora and Talpona rivers provide inland waterways and are extensively used particularly to transport minetrals to the port.

2.25. The phenomenal rise of vehicular traffic from 8,531 in 1961 to 1,38,858 in 1991-92 has necessitated better network of roads and bridges. Accordingly more than 28 bridges have been constructed and the length of roads, inclusive of rural roads, has increased now to 7242 kms. which gives 1956 kms. per 1000 sq.kms. of area and 619 kms. per lakh population. All the villages in the State have been connected by all weather roads. Emphasis now is on inter-linking of villages.

2.26. There is one head Post Office each at Panaji and Margao, 240 post offices including 56 urban and 184 rural, 73 telegraph offices.

BANKING

2.27. The State has a wide network of banking Offices. As on 31st March, 92 there were 34 scheduled commercial and cooperative banks with 257 branch offices catering to a population of 11.60 lakhs. The average population per branch office in the State is 4,600 as against the national average of 14,000. Total deposits as on 31st March, 92 were of the order of Rs.1476.08 lakhs. Total credits were Rs.514.82 lakhs

EDUCATION

2.28. The State has made considerable progress in the field of education during the last three decades. Facilities for general and professional instruction are well developed. As on March, 1992, the number of primary, middle and secondary schools was 2069. In addition to this there are 45 higher secondary schools, 47 schools for vocational and professional education and 31 colleges for general and professional education. A full-fledged University has been established in 1985. The out-turn of graduates as at the end of 1990-91 was 2,183.

HEALTH

2.29. Health care and medical facilities are well developed in the State as compared to other parts of the country as it is evident from vital indices such as birth rate, death rate, infant mortality rate, doctor-population ratio, hospital bed-population ratio, etc. The State is far ahead of the national goals to be achieved by 2000 A.D. in these aspects.

2.30. The birth rate has declined to 18.79 as against 21 to be achieved at the national level by the year 2000 A.D. The death rate is 6.75 which is more or less at par with developed countries. The infant mortality rate is around 23 as against the national target of 60 fixed for the year 2000 A.D. The doctor-population ratio is one doctor per 893 persons. The hospital-bed ratio is 3 per thousand as against 0.4 at the national level. The State has been singularly fortunate in as much as every village has been covered either by a Primary Health centre, a sub-Centre or an Extension Centre.

2.31. In view of the State's good achievements in health care, emphasis is being laid on qualitative improvement in service to the people and control and/or eradication of diseases which are either related largely to the change in the behavioural pattern of the people such as AIDS, drug abuse, alcoholism and tobacco consumption.

WATER SUPPLY AND SANITATION

2.32. As per the present indications, taking an average intake of 85 litres per head per day, the requirements of domestic water supply for both rural and urban areas aggregates to 102 MLD, besides the industrial/commercial/defence water demand of 68 MLD. As against this, the supply per day at present is 116 MLD which is expected to progressively increase once the Salaulim Water Supply scheme is fully commissioned to its optimum capacity of 160 MLD.

2.34. By the end of Seventh Plan, the water supply programme covered 182 villages fully and 109 villages partially (where per capita daily supply is 40 litres) while only 27 villages were yet to be covered. Some of these villages have been covered during the Annual Plans 1990-91 and 1991-92. The remaining would be covered in the course of the Eighth Plan.

2.35. In the field of sanitation only the sewerage scheme at Panaji was completed in 1968 and its augmentation was recently completed. The sewerage scheme at Vasco-da-Gama was also completed. In the absence of sewerage facilities for other important towns, which are either in progress or yet to be taken up, recourse has been taken to individual sanitary latrines with emphasis on Sulabh Sauchalayas in different parts of the State.

TOURISM

2.36. Goa is on the international tourist circuit. The number of tourist arriving in the State has gone up to about 10 lakhs, out of whom about 1 lakh are foreign tourists. At present, there are about 13,000 beds in 350 hotels and lodging places of different categories. Tourism besides encouraging employment and supporting transport, trade and other developmental activities has a high potential for foreign exchange earnings.

REVIEW OF THE ANNUAL PLANS 1991-92 AND 1992-93

3.1. At the time of formulation of the Seventh Plan proposals in 1984-85, Goa was the major constituent unit of the erstwhile U.T. of Goa, Daman and Diu. Goa was conferred Statehood on May 30, 1987. Since then five Annual Plans have been implemented and the sixth Plan (1992-93) is in progress. The yearwise breakup of the approved outlays for the period 1987-88 to 1992-93 alongwith their utilisation are given in Table 3.1.

Table 3.1.

(Rs. in crores)

| Year | Approved Plan Outlay | Expend. | % Utilisation |
|---------|----------------------|---------|---------------|
| 1987-88 | 79.75 | 88.72 | 111.2 |
| 1988-89 | 92.00 | 98.60 | 107.2 |
| 1989-90 | 110.00 | 112.95 | 102.7 |
| 1990-91 | 130.00 | 135.40 | 104.2 |
| 1991-92 | 170.00 | 158.87 | 93.5 |

3.2. The State received generous Central Assistance prior to attaining Statehood as a part of constituent unit of the erstwhile U.T. of Goa, Daman and Diu and during the initial 4 years after Statehood for funding its Plan programmes. This Assistance has been drastically reduced to about 24 % of the Plan size whereas the Assistance received during earlier period was in the range of 75.6 to 93.5 percent. For the Annual Plans 1991-92 and 1992-93 the formula based Assistance available was to the tune of Rs.42.00 crores only.

3.3. For the Eighth Plan (1992-97) of the State, the Planning Commission has approved an outlay of Rs.761.00 crores and for the Annual Plan 1992-93 an outlay of Rs.152.50 crores. Sector-wise breakup of these outlays are given in Table 3.2 alongwith the outlays approved for the Annual Plan 1991-92 for comparison sake.

3.4. It is seen from the table that the financial targets fixed for the Eighth Plan (1992-97) have been maintained during the Annual Plan 1992-93 as well.

PHYSICAL TARGETS

3.5. Some of the important physical targets fixed for the Eighth Plan (1992-97)and Annual Plan 1992-93 under major

sectors of development are given in Table 3.3 below:-

MINIMUM NEEDS PROGRAMME(MNP)

3.6. The MNP which was launched in mid-seventies is being continued in the Eighth Plan. The programme envisages provision of network of basic facilities of social consumption in all areas. The activities covered under MNP are education, rural health, environmental improvement of slums, rural water supply & sanitation, social forestry, public distribution system, etc. The Eighth Plan outlay for the programme has not been fixed. However, the 1992-93 Plan outlay indicated is of Rs.14.16 crores.

20 - POINT PROGRAMME

3.7. The 20 PP was restructured in 1986. The programme is being implemented from April, 1987. It renews Government commitment to eradicate poverty, remove socio-economic disparities, raise productivity, reduce inequalities and improve quality of life besides making efforts for economic equality

of women and justice for scheduled castes. The achievements of the State in the past under the programme have been noteworthy with the exception of points covered under housing sub-sector.

SPECIAL COMPONENT PLAN

3.8. A Special Component Plan for the socio-economic upliftment and educational advancement of SC population of the State was introduced in 1982-83. As per 1981 census the SC population of the State was 20,619 constituting about 2.04 percent of the total population. As per the norms fixed, the Ministry of Welfare expects that at least 2 percent of the State Plan outlay is to be diverted for the schemes formulated for the benefit of the SC population. Most of the SC persons in the State have been covered under one programme or other. The Departments participating in the sub-Plan are finding it difficult to identify beneficiaries not covered under any programme eligible for assistance resulting in under utilisation of the outlay allocated for the programme.

C H A P T E R - IV

AN OUTLINE OF THE ANNUAL PLAN 1993-94

In the foregoing chapters, the general socio-economic background of the State has been briefly discussed and the levels of development in respect of important sectors of the economy have been indicated. A brief review of the Annual Plans 1991-92 and 1992-93 in both financial and physical terms has been made. It has to be noted that even though Goa joined the mainstream of economic development late and that conscious economic development policy was initiated beginning with the Fourth Plan, it has made impressive progress over the last three decades particularly in respect of quality of life of the people.

4.2. There is, however, no denying the fact that this rapid economic growth has not been without its problems. Important of these problems are : Unemployment, threat to environment and rapid urbanisation with consequent hazards of slums, waste disposal and air pollution. Of these, the magnitude of unemployment, specially of educated unemployed, would have to concentrate on generating productive avenues of employment in the agriculture related or even the other sectors in the rural areas so that the people from these areas would not have to rush to cities and towns to find employment. Apart from emphasising pollution free and employment oriented industries, particularly village and small scale industries, measures need to be intensified to conserve the conventional non-renewable sources of energy, to exploit the non-conventional sources of energy and to develop other infrastructural facilities such as improvement in the surface transport network and inland water transport, upgradation of water and sanitation facilities as also of various other social services.

4.3. While formulating the Annual Plan 1992-93 and 1993-94 proposals of the State the objectives of the Eighth Plan as envisaged and finalised in the 44th meeting of the N.D.C. were taken into account. The objectives are:-

- (i) Generating adequate employment to achieve near full employment level by the turn of the century.
- (ii) Containing population growth through active people's cooperation and an effective scheme of incentives & disincentives.
- (iii) Universalisation of elementary education and complete eradication of illiteracy among the people in the age group of 15 to 35 years.
- (iv) Provision of safe drinking water and primary health facilities including immunisation so as to be

- accessible to all villages and entire population and complete elimination of scavenging.
- (v) Growth and diversification of agriculture to achieve self sufficiency in food and generate surpluses for exports and
 - (vi) Strengthening of infrastructure (energy, transport, communication, irrigation) in order to support the growth process on a sustainable basis.
 - (vii) Clear prioritisation of sector/projects for intensive investment in order to facilitate operationalisation and implementation of the policy initiatives taken in the areas of fiscal, trade and industrial sectors and human development.
 - (viii) Making available resources for these priority sectors and to ensure effective utilisation of these resources.
 - (ix) Creation of a social security net through employment generation, improved health care and provision of extensive education facilities throughout the country and
 - (x) Creation of appropriate organisations and delivery systems to ensure that the benefits of investments in social sectors reach the intended beneficiaries.

PLAN SIZE

4.4.. The size of the Eighth Plan (1992-97) of the State has been fixed at Rs.761.00 crores and that of Annual Plan 1992-93 at Rs.152.50 crores. Likewise the size of the Annual Plan 1993-94, has been fixed at Rs.170.00 crores in the recently held meeting between the Deputy Chairman, Planning Commission and the Chief Minister ,Goa. The State has been advised to formulate the proposals within the outlay fixed and the broad sectoral percentiles indicated in the subsequent meeting with the Adviser (State Plans), Planning Commission. The breakup of the outlay proposed by the major sectors of development is given in Table 4.1.

| | Total | 761.00 | 100 | 152.50 | 100 | 170.00 | 100 |

4.5. As can be seen from the Table above, the priorities identified while formulating the Eighth Plan and Annual Plan 1992-93 are being maintained during 1992-93 as well. In fact, there are no major new schemes proposed in the Eighth Plan proposals. About 93 percent of the proposals were for implementation of the continuing programmes/schemes.

CAPITAL CONTENT

4.6. About 69 percent of the total investment proposed for the Annual Plan 1993-94 is towards capital formation. The capital investment in the sectors of Irrigation, Power, Transport and General Services is more than 85 percent whereas in the sectors of Transport and General Economic Services it was 47 and 60 percent respectively. In the sector of Social Services the capital investment was around 50 percent.

EMPLOYMENT GENERATION

4.7. One of the main objectives of the Eighth Plan is to provide gainful employment to the entire population by the turn of the century. The Eighth Plan proposals of the State envisage generation of about 67.2 million mandays. Of these, about 14.1 million mandays are expected to be generated during 1993-94.

4.8. Broad sector-wise analysis shows that during the Eighth Plan period about 40 percent of the employment generation in the Irrigation and Flood Control sector, about 26 percent in the Transport sector, about 15 percent in the Social Services sector and the balance in the remaining sectors. Similar trend is also reflected in the proposals for-

mulated for the Annual Plan 1983-84.

EXTERNALLY AIDED PROJECTS

4.8. So far no Externally Aided Projects are being executed in the State. However, the Government of Goa, in response to the guidelines issued by the Ministry of Finance, Department of Economic Affairs for obtaining External Aid under O.E.C.F.Japan has forwarded the following proposals:-

- i.150 MLD Mandovi Regional Water Supply Scheme at Opa amounting to..... Rs.96.50 crores
- ii.Improvement and Augmentation of Water Supply to South Goa District including places of Touristic importance amounting to Rs.64.58 crores
- iii.Improvement of water supply System to Vasco-da-Gama city amounting to..... Re. 8.33 crores
- iv.Horticultural and Plantation crops Development Programme..... Rs.21.69 crores

In addition to the above, proposals for obtaining Assistance from the World Bank for 'Strengthening of Technical Education' in the State are also under consideration .

CHAPTER - V

HIGHLIGHTS OF SECTORAL OUTLAYS

I. AGRICULTURE AND ALLIED SERVICES

For the purpose of agricultural development, the country has been divided into Agro-Climatic Zones. The State of Goa has been grouped under Zone - 12, comprising West Coast Plains and Ghats. The recommendations of the Zonal Planning Team for Zone 12 were kept in view while formulating Eighth Plan proposals and also the Annual Plans.

CROP HUSBANDRY

5.2. The average yield of most of the field crops in the State is reported to be comparatively low due to low fertility of soil. Also, the ratio of irrigated area to the cultivated area is around 18 percent as against the national average of 30 percent. The major crops in the State are paddy, pulses, Ragi, oilseeds, vegetables and sugarcane. The foodgrains production of the State is not adequate to meet the requirements of the local people and the floating population of equal size. Therefore, the Eighth Plan and the Annual Plan 1993-94 proposals under crop husbandry have been formulated with the view to increasing productivity by training the farmers in the use of improved agricultural practices and by providing timely and adequate inputs like seeds, manures, irrigation facilities, etc. Special attention is also proposed to be given for the development of horticulture during the Annual Plan 1993-94 in view of favourable conditions existing in the State for such programme.

5.3. An outlay of Rs.13.00 crores has been proposed, for the development of crop husbandry in the State. Of this outlay Rs.3.80 crores are for the development of horticulture. For the Annual Plan 1993-94 the proposed outlay for this sub-sector is Rs.2.72 crores of which 0.40 crores is towards capital investment. This sub-sector is expected to generate 0.2 million mandays during the Eighth Plan period and 0.05 million mandays during 1993-94.

5.4. Targets proposed under important field crops are given below in Table 5.1.

Table 5.1

SOIL CONSERVATION

5.5 The proposals formulated under this sub-sector relate mostly to measures to be taken for protection, reclamation and maintenance of low lying paddy fields adversely affected by salinity due to inundation of water from river creeks, agricultural lands flooded due to rains and those degraded by the mining activity. For the Eighth Plan and Annual Plan 1993-94, outlays of Rs.2.80 crores and Rs.0.58 crores respectively are proposed. An area of 3065 Ha. is proposed to be protected by embankments during the Annual Plan 1993-94.

5.6. The employment generation under this sub-sector is expected to be 0.233 million mandays during the Eighth Plan, of which 0.056 million mandays would be generated in 1993-94

ANIMAL HUSBANDRY

5.7. Animal husbandry has been an integral part of agricultural activities in the State. The livestock programmes besides improving the quality have the capacity to generate gainful employment particularly for the small and marginal farmers. Most of the programmes under this sub-sector are aimed at meeting the requirements of eggs, milk, draught animal power, farm yard manure and fodder.

5.8. The programmes proposed under this sub - sector during the Eighth Plan and Annual Plan 1993-94 could be broadly grouped into : a. Extension and Training. b.Animal Health and Veterinary Services. c. Breeding of livestock and

poultry and d. Fodder and feed development. The main constraint for the development of this sub-sector is reported to be lack of feed and fodder resources. The fodder resources could not be developed due to lack of suitable cropping pattern, absence of irrigation facilities and small size of holdings. Natural grazing is restricted only to 3 months in a year. These deficiencies are expected to be improved upon with the full commissioning of Anjunem, Salaulim and Tillari Irrigation projects.

5.9. For the development of this sub-sector an outlay of Rs.9.50 crores and Rs.2.00 crores is proposed for the Eighth Plan and Annual Plan 1993-94 respectively. The capital content of Annual Plan 1993-94 proposals is Rs.0.35 crores. This sub-sector is expected to generate 0.155 million mandays during the Eighth Plan period, of which 0.035 million mandays are expected to be generated in 1993-94.

5.10. Under this sub-sector it is proposed to develop the composite livestock farm at Copardem, besides undertaking special livestock breeding programmes. Grants to M/S Goa Meat Complex which is suffering losses due to under utilisation of the plant are also proposed.

DAIRY DEVELOPMENT

5.11. For the development of this sub-sector an outlay of Rs.0.80 crores and Rs.0.17 crores is proposed for the Eighth Plan and Annual Plan 1993-94, respectively. The important schemes proposed are: a. Assistance to farmers for purchase of milch animals/goats and b. Assistance to Milk Union under Operation Flood II Programme.

FISHERIES

5.12. The marine fish production during 1991-92 was of the order of 115,000 metric tonnes. The inland fish production was estimated at 5,000 tonnes. This achievement has been possible due to rapid mechanisation of fishing crafts coupled with the provision of landing and berthing facilities. There are around 850 fishing trawlers and about 900 country crafts and canoes fitted with outboard motors in operation in the State. Efforts are being made for the development of brackish water fisheries beginning from the Eighth Plan.

5.13. Goa with a coastline of 104 kms. has tremendous potential for the development of fisheries. To exploit this potential as well as for the development of inland and brackish water fisheries an outlay of Rs.10.00 crores and Rs.2.10 crores is proposed respectively for the Eighth Plan and Annual Plan 1993-94. The proposals are expected to

generate 0.410 and 0.087 million mandays during the Eighth Plan and Annual Plan 1993-94, respectively. The tentative target proposed for fish production for the Eighth Plan period and Annual Plan 1993-94 is 135,000 tonnes and 127,000 tonnes respectively. The anticipated production during 1992-93 is 105,000 tonnes.

FORESTRY & WILD LIFE

5.14. The main emphasis of the programmes in this sub-sector for the Eighth Plan and Annual Plan 1993-94 is on the improvement of natural forest cover by protecting and rehabilitating forest areas, apart from bringing new forest areas under tree cover through various afforestation programmes. Fuelwood plantations are also proposed to be raised in available areas.

5.15. An outlay of Rs.10.30 crores and Rs.2.17 crores is proposed for the implementation of various programmes during the Eighth Plan and Annual Plan 1993-94 respectively. The proposals are expected to generate 2.1 and 0.41 million mandays during the above period.

5.16. Under the Social Forestry Programme which is identified as MNP in the forestry sub-sector, an outlay of Rs.0.55 crores is proposed for the Eighth Plan period. For the Annual Plan 1993-94 Rs.0.10 crores for the above purpose. Some of the physical targets fixed under the sub-sector are given in Table 5.2.

COOPERATION

5.17. The cooperative movement was introduced in the

State in the year 1962-63. The progress made since then is summarised in table 5.3.

5.18. An outlay of Rs.5.55 crores is proposed for the Eighth Plan under this sub-sector. This outlay is inclusive of Rs.0.80 crores for Food, Storage and Warehousing, Rs.0.05 crores fixed for Investment in Agricultural Financial Institutions, Rs.0.40 crores proposed for Marketing and Quality Control and Rs.4.30 crores for Cooperation proper. For the Annual Plan 1993-94 the outlay proposed for this composite sub - sector is Rs.1.12 crores. The employment generation potential of the schemes proposed under this sub-sector is 0.160 million mandays for the Eighth Plan period. The corresponding figure for the Annual Plan 1993-94 is 0.037 million mandays.

II. RURAL DEVELOPMENT

5.19. Removal of poverty remains the ultimate goal of planning in the country. Consistent with this objective, The Eighth Plan and the Annual Plan 1993-94 proposals have a number of poverty alleviation and employment generation programmes aimed at raising the income levels and productivity of the rural poor.

LAND REFORMS

5.20. The proposals under this sub-sector aim at conferring ownership rights and determining the standard rate of assessment for fixing land revenue of agricultural lands based on factors like physical configuration, climate, rainfall, yield of crops and making assessment of each holding. It is also proposed to computerise the land records.

5.21. An outlay of Rs.0.90 crores and Rs.0.27 crores is proposed for the Eighth Plan and Annual Plan 1993-94 for the purpose. The proposals are expected to generate employment

to the extent of 0.108 and 0.022 million mandays during the Eighth Plan and Annual Plan 1993-94 period.

COMMUNITY DEVELOPMENT AND PANCHAYAT RAJ INSTITUTIONS

5.22. The proposals under this sub-sector include provision for improving the resource base of the Village Panchayats, encouragement for their active involvement in the implementation of Rural development programmes so as to make them effective instruments of popular participation. Provision has also been made for giving free legal aid to Panchayats with weak financial base. An outlay of Rs.3.20 is fixed for the Eighth Plan, of which Rs.0.67 crores is proposed for the Annual Plan 1993-94.

5.23. The proposals are expected to generate 0.215 and 0.043 million mandays of employment during the Eighth Plan period and annual Plan 1993-94 respectively.

INTEGRATED RURAL ENERGY PROGRAMME (IREP)

5.24. The IREP is aimed at managing the local energy resources in order to ensure their effective management, optimum utilisation and efficient distribution so that the minimum needs of every person within the area are fulfilled.

5.25. An outlay of Rs. 1.25 crores and Rs.0.25 crores is proposed for the Eighth Plan and Annual Plan 1993-94, respectively.

INTEGRATED RURAL DEVELOPMENT PROGRAMME (IRDP)

5.26. The main objective of this programme is to provide financial assistance to the weaker sections of rural families to bring them above the poverty line. Under the programme about 30,000 families identified as living below the poverty line are proposed to be assisted during the Eighth Plan. The target for the Annual Plan 1993-94 is 5,000 families as against 2,608 anticipated achievement for the year 1992-93.

5.27. An outlay of Rs.3.50 crores is fixed for the Eighth Plan as State's contribution towards the programme. The corresponding figure for the Annual Plan 1993-94 is Rs.0.70 crores. The proposals are expected to generate employment to the extent of 0.030 and 0.005 million mandays during the Eighth Plan and Annual Plan 1993-94, respectively.

JAWAHAR ROJGAR YOJANA (JRY)

5.28. The objective of this programme is generation of employment to the unemployed and additional employment to the under employed in rural areas as also creation of productive

community assets for direct and continuing benefits to the persons below the poverty line. The programme also envisages strengthening of rural economy and social infrastructure.

5.29. An outlay of Rs.0.80 crores is proposed for the Annual Plan 1993-94 towards the State's share. The corresponding outlay fixed for the Eighth Plan is Rs.4.00 crores. The programme is expected to generate employment of 0.860 million mandays during the annual Plan 1993-94, the target fixed for the Eighth plan is 4.800 million mandays.

LAND ARMY CORPORATION

5.30. The main objective of this Corporation is to take up all types of rural development works and provide assistance, advice and services with a view to providing employment to the unemployed in the State. About 1000 persons are to be registered for providing employment in various construction works that will be undertaken by the Corporation.

5.31. For the Eighth Plan period an outlay of Rs.3.00 crores is fixed for the purpose, of which Rs.0.60 lakhs are proposed for the Annual Plan 1993-94.

III. SPECIAL AREA PROGRAMME

5.32. No programmes are envisaged under this sector.

IV. IRRIGATION AND FLOOD CONTROL

5.33. The State of Goa is endowed with water resources assessed at 8,750 m.cum. but their utilisation has not been to the required level. Considering the topographical, geological and other constraints, the level of utilisation of surface and ground water resources for irrigation is expected to be 1125 m.cum. and that for domestic and industrial water supply around 80 m.cum. and 100 m.cum. respectively. Utilisation of surface water potential for different types of irrigation schemes is as follows:-

| | |
|----------------------------|------------|
| i. Minor Irrigation | 25,500 Ha. |
| ii. Medium Irrigation..... | 25,360 Ha. |
| iii. Major Irrigation..... | 31,400 Ha. |

5.34. The major part of the irrigation potential is expected to be created by Major & Medium Irrigation projects. At present, 4 irrigation projects viz. Salaulim (14,360 Ha.), Tillari(16,978 Ha.), Mandovi(5,900 Ha.) and Anjumem(2,100 ha) are in various stages of construction. Investigation in respect of proposed projects at Kushavati, Uguem, Siridao and Khandeapar rivers are being carried out.

A. Major & Medium Irrigation projects.

a. Salaulim Irrigation Project

5.35. This is a major irrigation project approved in 1971 at an estimated cost of Rs.9.61 crores to provide irrigation facilities to 14,360 Ha. in Sanguem, Quepem and Salcete talukas. However, due to several reasons there has been time and cost over-runs. Latest estimates of the cost are placed at Rs.38.29 crores. The reason for increase in cost is reported to be mainly on account of Court Awards of large increase in rates of compensation for land acquired, price escalation, complete change in design and lay-out of the spill-way, etc. The irrigation potential created under this project upto the end of 1991-92 is 8,244 Ha. out of which 8,140 Ha. is reported to be utilised. The anticipated achievements upto the end of 1992-93 is 8,680 Ha. The proposed outlay for this project during the Annual Plan 1993-94 is Rs. 6.00 crores. The project is expected to create employment of 1.2 million mandays during 1993-94.

b. Tillari Irrigation Project

5.36. This project is a joint venture of the Governments of Maharashtra and Goa. The project cost at the initial stage was placed at Rs.45.21 crores. The latest estimates place the cost at Rs.219.29 crores, out of which the share of the State of Goa is Rs.163.33 crores. The project is expected to irrigate 16,978 Ha. in Goa, besides providing 55.48 m.cum. of water for domestic and industrial purposes. A provision of Rs.17.00 crores has been made towards the project during 1993-94. The project is expected to generate employment of 3.4 million mandays during 1993-94.

c. Anjunem Irrigation project

5.37. The project is complete in all respects. The total expenditure on the project till the end of March, 92 is reported to be Rs.23.13 crores. The target potential of 2,100 Ha.(CCA) has been created and the utilisation would be 100 percent during 1992-93. An outlay of Rs.0.60 lakhs is proposed for the Annual Plan 1993-94 for payment of final adjustment bills. The project is expected to generate 0.120 million mandays during the above period.

d. Mandovi Irrigation project

5.38. Provision of only Rs.0.05 crores has been made towards the project for the year 1993-94, as clearance under Forest Clearance Act, 1980 is still awaited.

5.39. Under the major & medium irrigation projects an outlay of Rs.114.70 crores and Rs.24.10 crores has been

proposed for the Eighth Plan and Annual Plan 1993-94 respectively. The entire outlay is towards capital formation. This sub-sector is expected to generate 22.94 million mandays and 4.82 million mandays of employment during the Eighth Plan period and Annual Plan 1993-94 respectively.

MINOR IRRIGATION

5.40. Under this programme works relating to construction and deepening of tanks, digging and construction of tube wells / wells for lift irrigation and construction of bandharas are proposed to be taken up.

5.41. An outlay of Rs. 3.75 crores is proposed for the Annual Plan 1993-94 for development of Minor irrigation in the State. The outlay fixed for the Eighth Plan is Rs.13.10 crores. The proposals are expected to generate employment of 2.62 and 0.750 million mandays during the Eighth Plan and Annual Plan 1993-94.

COMMAND AREA DEVELOPMENT (CAD)

5.42. A Command Area development Authority was set up in the year 1980-81 in the State. This Authority is responsible for devising ways and means to ensure full utilisation of irrigation potential created.

5.43. This is a Centrally Sponsored Scheme being implemented in the State. The State's contribution towards the scheme is @ of 50 percent of the cost. Towards this share an outlay of Rs.1.60 crores is proposed for the Annual Plan 1993-94. The Eighth Plan outlay fixed for this scheme is Rs.6.40 crores. The scheme is expected to generate employment of 1.280 and 0.320 million mandays during the Eighth Plan and Annual Plan 1993-94 respectively.

FLOOD CONTROL

5.44. The objectives of the programme are to protect flood prone cultivated land along the river banks to control soil erosion and prevention of excessive silting of the water courses.

5.45. An outlay of Rs.0.20 crores is proposed for the Annual Plan 1993-94 for undertaking the above works. The corresponding outlay for the Eighth Plan is rs.0.90 crores. This sub-sector is expected to generate 0.180 and 0.040 million mandays of employment during the Eighth Plan and Annual Plan 1993-94.

5.46. The total employment generation in the Irrigation & Flood Control sector is expected to be 27.02 and 5.93

million mandays during the Eighth Plan and Annual Plan 1993-94 respectively.

ENERGY

5.47. The State of Goa does not have any power generation project of its own. The present demand is being met from Korba and Vidyachal NTPC stations in the Western Grid and from Ramagundam NTPC station in the Southern Grid. The total share of Goa from NTPC is 300 MVA (240 MW).

5.48. The State does not have adequate transmission links with the NTPC sources. The power is wheeled through M.S.E.B. (Maharashtra) and K.E.B. (Karnataka) systems. Similarly there are constraints in wheeling power from the Southern region on the existing K. E. B. links of 110 KV. All industrial connections after 1983 were released with peak load power restrictions and the power intensive loads beyond 1.00 MW are not being encouraged. Therefore, the effective power availability gets restricted to 126 MW only. During the Eighth Plan, the power supply is to be augmented beyond the present capacity. Therefore, the proposals under this sector are geared for power generation, transmission & distribution and development of non-conventional sources of energy. An outlay of Rs.54.50 crores is fixed for the development of this sector during the Eighth Plan and the corresponding outlay proposed for the Annual Plan 1993-94 is Rs.11.25 crores.

a. Hydel Generation

5.49. During the Eighth Plan it is proposed to complete the mini-Hydel project at Anjunem. The implementation of Duchsagar and Salaulim will depend on the clearance from the authorities concerned and are not likely to materialise soon. An outlay of Rs.0.50 crores is proposed for the Annual Plan 1993-94 towards the above. The corresponding outlay for the Eighth Plan is Rs.3.24 crores.

b. Transmission and distribution systems.

5.50. For the development of transmission & distribution systems in the State an outlay of Rs.10.55 crores is proposed for the Annual Plan 1993-94. The corresponding outlay for the Eighth Plan is Rs.49.06 crores. These proposals are expected to generate 0.549 and 0.072 million mandays during the Eighth Plan and Annual Plan 1993-94.

c. Rural Electrification

5.51. All the villages in the State have been electrified by March, 1988. The scheme proposed for the Eighth Plan and

Annual Plan 1993-94 is for the works of electrification of mudis, crematoriums, public lighting, etc.

a. Non-Conventional Sources of Energy

5.53. The main programmes under this sub-sector are construction of bio-gas units, supply of smokeless chullas, supply of solar heaters and cookers and raising plantations of Jatropha. An outlay of Rs.0.20 crores is proposed for the Annual Plan 1993-94. The corresponding outlay for the Eighth Plan is Rs.2.00 crores.

5.54. The proposals under Energy sector are expected to generate 0.624 and 0.084 million mandays of employment during the Eighth Plan and Annual Plan 1993-94 respectively.

INDUSTRY & MINERALS

5.54. An outlay of Rs. 36.50 crores and Rs.7.87 crores is proposed for the Eighth Plan and Annual Plan 1993-94 respectively for this sector which also includes the sub-sector of Weights and Measures. The proposals are expected to generate 17.398 and 3.559 million mandays during the Eighth Plan and Annual Plan 1993-94 respectively.

a. Village Industries

5.55. The important schemes proposed under this sub-sector for the Annual Plan 1993-94 are : a. Setting up of tool room cum training Centre (Rs.0.90 crores). b. State subsidy for industrial units (Rs. 1.91 crores). In addition, there are another 21 schemes for which an outlay of Rs.1.69 crores are proposed. This sub-sector is expected to generate employment of 0.043 million mandays during 1993-94.

b. Medium and Large Industries

5.56. An outlay of Rs.19.00 crores and Rs.3.25 crores is proposed for the Eighth Plan and Annual Plan 1993-94 for the development of Large & Medium Industries in the State. The proposals are mostly for investment in Public sector Corporations. The outlays proposed for the Annual Plan 1993-94 are as follows: a. Investment in Goa Economic Development Corporation - Rs.2.00 crores b. Investment in Goa Industrial Development Corporation - Rs.1.00 crore. c. Investment in Maharashtra State Financial Corporation - Rs. 0.25 crores. The proposals are expected to generate 0.100 million mandays during the Annual Plan 1993-94.

MINING

5.57. An outlay of Rs.0.07 crores is proposed for the Annual Plan 1993-94 for this sector. The corresponding

outlay fixed for the Eighth Plan is Rs. 0.40 crores.

WEIGHTS AND MEASURES

5.58. For the implementation of the provisions of the Standards of Weights & Measures Act, 1976, Standards of Weights & Measures (Enforcement) Act, 1985 and the Goa Standards of Weights & Measures (Enforcement) Rules an outlay of Rs. 0.05 crores is proposed for the Annual Plan 1993-94. The outlay fixed for the Eighth Plan for the purpose is Rs. 0.30 crores.

VII. TRANSPORT

5.59. With the increased pace of development in the State the need to provide adequate transport infrastructure facilities assumes greater importance. Augmentation of the existing facilities as well as creation of additional ones have been proposed. The proposals relate to development of ports, inland waterways, roads and bridges, road transport, traffic education and railways.

a. Ports & Light Houses

5.60. Under this programme development of minor ports, laying of barrels off five fathom zone and construction of quarters are proposed to be taken up. For the purpose an outlay of Rs. 0.13 crores is proposed for the Annual Plan 1993-94. These proposals are expected to generate 0.068 million mandays during the period.

b. Roads & Bridges

5.61. Surface transport network involving roads & bridges is by far the most useful means of communication and plays significant role in the economy of the State. For the Annual Plan 1993-94 an outlay of Rs. 14.60 crores is proposed for the development of roads and bridges. These proposals are expected to generate 1.2 million mandays during the period.

c. Road Transport

5.62. The proposals under this sub-sector are in keeping with the need for improving the road transport network and performance of the State's Kadamba Transport Corporation. Stress has been laid in selective replacement of buses. The passenger transport is not fully nationalised in the State.

5.63. An outlay of Rs. 4.00 crores is proposed for the Annual Plan 1993-94 towards the above proposals. The employment generation is expected to be of the order of 0.029 million mandays during 1993-94 with the expectation that the

employment potential would be increased to 0.996 million mandays during the Eighth Plan.

d. Inland Waterways

5.64. The State has about 555 kms. of inland waterways, of which 256 kms. are navigable through rivers Mandovi, Zuari, or their tributaries. If these waterways are properly harnessed they would provide quick and economical transportation facilities for passengers and goods. In fact it is essential that the inland water transport network is increased and strengthened and an inter-modular transport system is developed.

5.65. An outlay of Rs.3.35 crores is proposed for the Annual Plan 1993-94 for the purpose. These proposals are expected to generate employment of 2.262 million mandays during the period.

e. Railways

5.66. When the Draft Eighth Plan proposals of the State were finalised the Government of Goa had to contribute Rs.15.00 crores towards the equity capital of the Konkan Railway Corporation. At the beginning of the Eighth Plan only Rs.2.65 crores remained to be paid. However, the Ministry of Railways have informed subsequently that the equity contribution of the State had gone up by Rs.9.00 crores in view of cost escalation of the project. The total equity contribution of the State now stands to Rs.24.00 crores. The State has to raise this additional liability and clear the dues by March, 1994. Hence Rs.6.00 crores are proposed for the Annual Plan 1993-94. The overall equity share of the beneficiary States has also gone up to Rs.400.00 crores.

VIII. COMMUNICATIONS.

5.67. No schemes are proposed under this sector which is under the control of the Central Government.

IX. SCIENCE & TECHNOLOGY

5.68. The Department of Science, Technology & Environment was established in the State in June, 1983 with the main objective of a) advising the State Govt. on effective implementation of policies relating to science, technology and environment, b) implementing all measures connected with the application of science, technology and environment and c) making available the latest technological information and know-how in the field of industry, trade, agriculture, education, etc.

5.69. An outlay of Rs.0.83 crores is proposed for the development of this sector in the Annual Plan 1993-94. The proposals envisage establishment of remote sensing centre, popularisation of science, etc.

GENERAL ECONOMIC SERVICES

5.70. An outlay of Rs.3.33 crores is proposed for this sector for the Annual Plan 1993-94. This is a composite sector covering:

a. Secretariat Economic Services (incld. planning Board)

5.71. The proposals under this sub-sector envisage modernisation of the Secretariat, training of the staff in the official language and the training of the staff in general. It also includes proposals towards the Planning Board which is being reconstituted. For the purpose an outlay of Rs.0.08 crores is proposed for the Annual Plan 1993-94.

b. Tourism.

5.72. Tourism is one of the important sub-sectors of the State economy. The number of tourists (both domestic and foreign) visiting the State in a year is expected to reach 13.00 lakhs by the end of the Eighth Plan. Therefore, the proposals under tourism envisage provision of minimum required accommodation (beds) for low, middle and other income groups at the spots visited most. The number of beds is to be augmented to 16,000 from the present level of 13,000. Besides, the proposals include development of infrastructure required to attract the tourists as also to open new spots.

5.73. An outlay of Rs.2.67 crores is proposed in the Annual Plan 1993-94 for the development of tourism in the State. The proposals also envisage creation of 0.120 million mandays during the year. The estimates of employment for the Eighth Plan are placed at 0.952 million mandays.

c. Survey & Statistics

5.74. The proposals under this sub-sector envisage strengthening of the existing statistical, evaluation and planning machinery, establishment of a small nucleous district planning machinery, development of Computer Centre, strengthening of the administration in the Department and the Office of the Chief Registrar of Births and Deaths. Provision of an independent building for the Directorate and the Computer Centre is also covered in these proposals. An outlay of Rs.0.46 crores is proposed for the Annual Plan 1993-94 for the purpose.

d. Gazetteers

5.75. An outlay of Rs. 0.02 crores is proposed for the programmes covered under this sub-sector, which inter alia include compilation of publications like History of Goa's freedom struggle, etc.

e. Civil Supplies

5.76. The proposals under this sub - sector envisage strengthening of public distribution system and development of infrastructure for storage, warehousing & packaging of commodities. An outlay of Rs.0.12 crores is proposed for the Annual Plan 1993-94.

XI. SOCIAL SERVICES

5.77 An outlay of Rs.62.88 crores is proposed for the Annual Plan 1993-94 for the developemnt of this sector. The corresponding outlay for the Eighth Plan is fixed at Rs.297.10 crores. The proposals envisage creation of 9.718 and 1.999 million mandays of employment during the Eighth Plan and Annual Plan 1993-94 respectively. This is a composite sector covering:

a. General Education
