ABOUT
RAJASTHAN**

**DIRECTORATE OF ECONOMICS & STATISTICS,
RAJASTHAN, JAIPUR.**

FOREWORD

The need of time series data at one place with a view to studying the changes in the socio-economic structure over time has been long felt in the field of development economics. The Directorate of Economics and Statistics, Rajasthan has been bringing out such statistical publication periodically.

The present publication "Some Development Statistics about Rajasthan" is an attempt to cater to this long felt need. Two such attempts were done by the Directorate of Economics and Statistics, Rajasthan first in 1969 when "15 Years of Rajasthan's Economy" was published and second in 1975 when "21 Years of Rajasthan's Economy" was brought out.

The present publication is an improvement over the former publications in the context that it provides more up-dated Statistics that is being provided by other departments.

It is hoped that this publication will be useful and interesting for the planners, administrators and researchers. I hope further efforts in improving the publication will continue.

PREFACE

In 1975 this department had brought out a publication namely "21 Years of Rajasthan's Economy" giving important socio-economic statistics for each year from 1951-52 to 1971-72. The classification and relevance of information has now been changed and new sectors and classifications have developed.

The present publication "**Some Development Statistics about Rajasthan**" is an attempt to make available latest selected key information on Plan outlays and expenditure, Annual Rainfall, Agriculture/Economic/Livestock Census, Roads, Power, Registered Motor vehicles, Co-operative Societies, Social welfare Schemes, Tourist arrivals, Medical and Health, Education, Panchayati Raj structure, Elections, General Information etc. at one place from 1951-52 to 2007-08.

It is hoped that this publication will provide reference material to all those who are interested in studying the pace of progress and changes in the pattern of socio-economic structure that have been taking place over the years.

This Directorate expresses its gratitude to the various Government Offices and other agencies for their co-operation in time to time supplying the information contained in this publication.

Any constructive suggestion to improve the contents and presentation will be most welcome.
