F O R E W O R D

I am happy to release the 'Handbook of Educational and Allied Statistics 1993' in Himachal Pradesh. The Volume contains valuable data in the field of education covering diverse areas, inter-alia, child population viz-a-viz actual number of children in schools including those belonging to Scheduled Castes and Scheduled Tribes; the average distance to be covered by a child to have access to schools; sexwise number of teachers in schools and so on.

We hope to bring out the publication regularly so that those who are engaged in the field of education are benefited from the data presented in this publication. This Handbook shall also benefit educational planners and educational administrators, social scientists, and researchers.

We shall welcome suggestions for the improvement of the Handbook.
