

STATISTICAL HAND BOOK

OF

WEST KAMENG DISTRICT

Arunachal Pradesh

1995

**District Statistical Office
BONDILA**

F O R E W O R D

The Statistical Hand-Book of West Kameng District: 1995 is brought out by the District Statistical Cell, Bondila. It aims to present a clear picture of the achievements made in various developmental activities in the District. Undoubtedly, it would serve as a very useful guide to the District officials, planners and research scholars.

I thank all the heads of departments who have extended their co-operation towards publication of such Hand-Book.

Sd/- P.K.GOEL, IAS,
Deputy Commissioner
West Kameng District
Bondila.

PROLOGUE

Today the science of statistics has an indispensable part of every sphere of human activity and is extensively applied in framing certain policies and formulating decisions in large numbers of diversified fields of natural, economics, physical and social sciences.

The present booklet entitled "District Statistical Hand Book:1995" and offers a comprehensive account of the resources endowment and development potentialities of the district.

Keeping in view the requirements of continuing thrust in development activities, the Directorate of Economics and Statistics has adopted the plan of such type of publication at state and district level. In all these tables an attempt has been made to refer the data upto 31-03-95.

I feel much indebted to the officers and office workers of the all the source officers of the district who helped our team of workers whenever they sought their co-operations.

In the end, I wish to thank Shri H.P.Das, SIS assisted by the staff colleagues for their untiring efforts in bringing out this publication with speed and efficiency.

Suggestions and comments from all quarters will be most appreciable and duly acknowledged.

Place:- Bomdila.

Date :- Dec/95.

(CHAU TEY MANLONG)
District Statistical Officer,
West Kameng District,

IV.7	Classwise and sexwise distribution of students in Educational Institutions of West Kameng District relating to Non-Arunachal Pradesh Govt. Institutions.	22
IV.8	Result of various examinations in West Kameng District.	23
IV.9	Number of students of West Kameng District studying outside Arunachal Pradesh.	23
<u>V. MEDICAL</u>		
V.1	Circlewise distribution of Hospital/Health centre/ Dispensaries in West Kameng District.	24
V.2	Number of authorised beds in Hospital/ Health centres of West Kameng District.	24
V.3	Circlewise distribution of Medical staff in West Kameng District.	25
V.4	Indoor and outdoor patients treated in Hospital/Health centres of West Kameng.	25
V.5	Disease wise patients treated in Hospital/Health centres of West Kameng.	26
V.6	Acheivement of National Malaria Eradication Programme in West Kameng District.	27
V.7	Acheivement of Family Welfare Programme in West Kameng District.	27
<u>VI. SOCIAL SECURITY</u>		
VI.1	Police Stations/Out-posts and strength of Police personnel in West Kameng District.	28
VI.2	Details of accidents occured in West Kameng Distt.	29
VI.3	Number of cases pending, filed and disposed in west Kameng District.	29
VI.4	Incidence of crimes in West Kameng.	30
VI.5	State showing the general result of trials of criminal cases in West Kameng.	30
<u>VII. AGRICULTURE</u>		
VII.1	Classification of area of west Kameng District	31
VII.2	Area and production of Agricultural products in West Kameng District.	31
VII.3	Area under improved/HYV lands in West Kameng District.	32
VII.4	Area brought under fertilizer and plant protection in west kameng District.	32

Table No.	PARTICULARS	Page No.
VII.5	Consumption of chemical fertilizers in West Kameng District.	33
VII.6	Agricultural Farms and Horticultural Farms/Nursaries/Gardens in West Kameng.	33
VII.7	Area and production of Horticultural crops in West Kameng District.	34
VII.8	Improved Agricultural Implements/Machines distributed in West Kameng District.	34
<u>VIII - IRRIGATION AND WATER SUPPLY</u>		
VIII.1	Implementation of Minor Irrigation projects in West Kameng District.	35
VIII.2	Net area irrigated by different sources in West Kameng District.	35
VIII.3	Water Supply scheme executed in West Kameng	36
<u>IX. ANIMAL HUSBANDRY AND VETERINARY</u>		
IX.1	Circlewise number of Veterinary Dispensaries/Aid Centres in West Kameng District	37
IX.2	Number of Live-stock/poultry Farms etc. in West Kameng District.	37
IX.3	Number of Animals/Birds treated in West Kameng District.	38
IX.4	Milk and Milk products in the Dairy Farm of West Kameng District.	38
IX.5	Statement reflecting the activities of the Regional Sheep Breeding Farm, Sangti of West Kameng District.	39
<u>X. FOREST</u>		
X.1	Distribution of Forest Division/Ranges/Beats in west kameng District.	40
X.2	Area brought under plantation/afforestation in West Kameng District.	40
X.3	Area brought under Forest in west Kameng.	41
X.4	Out-turn of timber and fuel in West Kameng.	41
X.5	Supply of Sleepers to Railways by the Forest Deptt.	42
X.6	Minor Forest products of West Kameng District	42
X.7	Revenue and Expenditure of Forest Divisions in West Kameng District.	43

*

A SYNOPSIS OF WEST KAMENG DISTRICT

West Kameng District of Arunachal Pradesh is laying approximately between 91° 30' to 92° 40' East longitudes and 26° 54' to 28° 01' North latitudes. The district is surrounded by Tibet region of China in the North, Bhutan in the West, Towang and East Kameng District of Arunachal Pradesh are in the North West and East respectively. The southern boundary adjoins Sonitpur District of Assam.

HISTORICAL GENESIS :

The name of the district is derived from the Kameng river, a tributary of Brahmaputra, that flows through the District. Till 1914, the district was a part of the Darrang District of Assam. By a Government of India notification of 1914, the area covered by this district became a part of the 'Western Section' of the 'North East Frontier Tract' to which the entry of the British subject was regulated by an 'Inner Line'. In 1919, this tract was renamed as the 'Balipara Frontier Tract' having its headquarter at Charduar of Assam. In 1946, the district area was carved out of the Balipara Frontier Tract with the name of 'Sela Sub-Agency' and its headquarter continued to be at Charduar. In 1954, Sela Sub-Agency was renamed as the Kameng Frontier Division and its headquarter was later transferred to Bomdila. Like other parts of NEFA, it was also under the Ministry of External Affairs and over all in-charge of the district was a Political officer, and Administrative charge of NEFA from the Ministry of External Affairs and Kameng Frontier Division was renamed as Kameng District and the Political Officer was redesignated as Deputy Commissioner.

On 1st June, 1980, Kameng district was bifurcated into East and West Kameng District. East Kameng was formed covering the area of the then Seppa-Sub-Division and rest of the area of erstwhile Kameng District was placed under West Kameng. Finally, on 6th October, 1984, West Kameng District was again bifurcated and carving out the area of Towang Sub-Division, Towang District was formed.

PHYSIOGRAPHY :

The topography of the District is mostly mountainous. A greater part of it falls within the higher mountain Zone consisting a mass tangled peaks and valleys.

In West Kameng, there are three principal mountain ranges apart of Sela range, Bomdila range and Foot-hill range. The Sela range consists of a series of mountains arranged in the form of big line from Tibet in the North, Bhutan in the West and thus forming a tough terrain to pass through it. The altitude of

Sela range varies from 14000' to 15000' and Sela pass is 13714 feet high. The Bomdila range having an average height of 9000 feet is separated by a 4500' high valley of river Dirangchu, a tributary of Kameng River. On this range, the district headquarter Bomdila lies at an altitude varying from 8100' to 9000' above sea level. South of the Bomdila range lies the Foot-hill range having hills of quite low altitude and the area is mostly plain. The area of the Foot-hill range is full of tropical forests with trees of great economic values and varies type of wild game.

The Kameng river flows through the district and leaving the district at Bhalukpong, it ultimately joins the river Brahmaputra in plains of Assam. Tenga, Bichom and Dirangchu are the main tributaries of the river Kameng.

CLIMATE :

The district is situated within the temperate Zone and remote from sea. The sea has thus no influence on its climate and the distance from the Equator is immaterial owing to influence of the snow-clad mountains. The only factor which determines the climate is the direction and height of mountains and the nature of the soil.

Although the district lies close to the tropic, it furnishes every gradation of climate from the sultry suffocating tropical heat of Foot-hill area to the arctic cold of snowclad peaks. Thus the climate is hot and humid upto 4000' in southern area, temperate upto 7000' and cold beyond it. Humidity is generally high throughout the year, the winter months being less humid.

POPULATION :

As per 1991 Census, West Kameng District is having 170 villages with a population of 56421, comprising 30966 males and 25455 females. Bomdila town had a population of 5655 persons.

The literate population of the district as per 1991 Census was 20585 forming 36.48 percent of the total population. However the literacy among males and females was recorded as 44.72 percent and 27.06 percent respectively.

The average density of population per square kilometers is 7 for the district as compared to 8 persons for Arunachal Pradesh.

The district headquarter, Bomdila is declared as urban and rest of the district are still considered as rural. The sex ratio indicated 822 females per 1000 males. The decennial growth rate of population (1981 - 91) was recorded as 35.73 for the district,

LOCAL INHERITANTS :

There are five major tribes in West Kameng, namely Monpas, Nijis, Akas, Sherdukpens and Khawas.

MONPAS :

The Monpas belong to the Tibeto-Mongoloid stock. They are well built, fair in complexion and medium to tall in structure. They are hospitable, gentle and unassuming in temperament. Some of them have good business acumen. Their houses are made of stone and timber.

A Monpa family is patriarchal, Monogamy is general rule though polygamy is also practised. Monpas have castes and clans with no social hierarchy.

Due to slight variations in dialects Monpas can be divided into six linguistic groups, namely Towang Monpa, Dirang Monpa, Lish Monpa, Boot Monpa, Malaktang Monpa and Panchen Monpa. Each group has its own dialects.

Monpas are Mahayan Buddhist by religion with close cultural and religious affinities with Bhutanese and Tibetans. All houses have small altars and chapels with status of Buddha. Offering water in little cups and burning butter lamps are daily ritual. They believe in transmigration of the soul and reincarnation.

The Monpas perform many pantomime dances out of which the 'Ajilamu' dance is very popular. Losar and Choskar are the major religious festival of Monpas. Losar is celebrated to commemorate the advent of New Year. There is great marry-making and dancing during Losar festival. In Choskar festival the Lamas read religious scriptures in the Gumpa for a number of days. Thereafter, the villagers carry the religious books on their back in the procession under the guidance of the Senior Lama and procession goes around the cultivation fields. The significance of this performance is to ensure better cultivation and protect the grains from insects and wild animals and also for the prosperity of the villagers in general.

The Monpas are agriculturists. They practice both shifting and permanent types of cultivation. They keep horses, Yaks, Cows, Pigs, goats, Sheep and fowls. They do hunting by net, angle and trap. The Monpas are known for wood curving, painting, religious scrolls called Thankas, Carpet making and weaving.

MIJI (DHAMMAI) :

The Mijis live in the valley of Bichom river and they are a small group of people. According to their own traditions and belief, they have originally migrated from the plains and even claim to have connections with the Ahom Kings who ruled over Assam. Marriage among the mijis usually takes place by negotiation. Normal price is given by the parents of the bridegroom.

The Mijis belong to the Mongoloid stock. They are divided into two classes, the Nyubbu and Nyullu who do not inter marry. Their religion is indigenous but they have come under certain amount of Buddhist influence.

The Mijis family is patriarchal. The Mijis put prominent tattoo mark in faces. Basketry is a popular handicraft among the man-folk. The Mijis are agriculturist and practice shifting cultivation. They also do hunting and fishing.

The Mijis observe a number of ceremonies in the village, the most important celebration is known as Fungglin or Chindang. The Mijis believe in many gods. Janglungnui is the most powerful of all of them. A festival is observed in honour of the spirit in the month of October. Each village has a Deori or priest who officiate in the ritual.

There is a village council in each Miji village and the council consists of village headman and other leaders of the village.

AKA (HRUSSO) :

The Akas are inhabitants of the South-Eastern part of West Kameng. Their main concentration is noticed in the Thrizino area.

The Aka Society is said to be mainly based on two broad groups, Kutsun and Kovatsun. An Aka family is patriarchal and polygamy is practised. Marriage takes place either by the common way of negotiations or by elopement. Cross cousin marriage is preferred to others. Mithuns are essential part of the bride price for marriage. The Aka house is an elongated structure. The Akas have prominent tattoo marks on the face. The Akas observe a number of ceremonies in the village. The most important community festival is known as Nechido, performed by village priest once in a year.

The Aka women make colourful bags. Basketry is the popular handicraft amongst the man-folk. The most common form of art wood painting.

The Akas are agriculturist and they practice shifting cultivation. They keep Mithun, cow, Horse, Goat, pig and poultry. They practise hunting and chasing by means of spears.

SHERDUKPEN :

The Sherdukpen belong to Tibeto-Mongoloid stock and they are fair in complexion. Their main concentration is spread over four main villages of Rupa, Jigaon, Shergaon and Thongre. However, at present some of them settled in Kamengbari area of west Kameng.

The Sherdukpen society is based on two classes: Thong and Chao. The Thongs are said to be descendants of King Japtang Bura and Chao are the descendants of his partners and servant class. As such, the class thong is superior to Chao. The two classes are again divided into several clans.

A Sherdukpen family is patriarchal and they practise monogamous type of marriage. The Sherdukpen houses are generally erected on substantial stone foundations. The floor and walls are made of thick wooden planks.

Like Monpas, the Sherdukpens are also Buddhist and deeply religious. They observe number of ceremonies, the important ones are (a) Choskar (b) Losar (c) Wang and (d) Khiksiba. The Choskar Losar and Wang are Buddhist Ceremonies. Khiksiba is a non-Buddhist ceremony and celebrated at the out-skirts of the village.

The Sherdukpen are agriculturist and practise both shifting and permanent cultivation. They keep livestock like ponies Cows, Goats, sheep, Fowls and Bullocks. They hunt with bows and arrows. They practise fishing by means of nets, angles, traps. The Sherdukpen women are skillful weavers. The Sherdukpen perform many dances, the principal dances are the Yak dance, the deer dance and Ajilamu dance which are both exciting and entertaining. An interesting feature of Sherdukpens life is their annual migration during the winter months to Doimara and in the adjoining Foot-hills area for the purpose of trade and maintain their age-long relations with the plains.

KHAWA (BUGUN) :

The Khawas inhabit in some of the villages of Thrizino Circle of the district. They call themselves Bugun. The tribe is subdivided into a number of clans. All of them are said to have originated from a single tribal identity called ' Achimpimbu'. The tribe endogamy and clansexogamy is the rule of the tribe. Monogamy is the social norm but sometimes biogamy is also practised.

A Khawa family is patriarchal. The Khawas belong to the Mongoloid stock and are of fair complexion. They have flat nose, conspicuous cheek-bones, black hair and brownish eyes. Both males and females keep long hair and tie their hair like the Akas and Mijis. The Khawa houses are like those of the Akas and Mijis but the roofs of the houses are usually covered with bamboo mattings.

The Khawas are agriculturist. They practise shifting cultivation and keep domesticated animals like cow, horse, pig, sheep, Goat, Fowl and very rarely mithun. They hunt and chase by means of spears, traps, bows and arrows.

The most important ceremony amongst the Khawas is 'Kshyatsowai', The village priest (Phabi) perform the ritual and the ceremonies. The Khawas have a number of songs and dances which are mainly associated with their soci-religious festivals.

ADMINISTRATIVE SET-UP :

The administrative set-up is based on single line administration which aims at keeping a close co-operation amongst various development departments with the administration and thus work together for speedy development of the people and the area.

The entire district is divided into three sub-divisions viz. Bomdila, Rupa, and Nafra-Buragaon. Bomdila sub-Division has got three Circles i.e. Dirang, Bomdila (Sadar) and Bhalukpong, Rupa Sub-Division covers Kalaktang circle: Nafra-Buragaon Sub-Division has got two circle, namely, Nafra and Thrizino.

The Deputy Commissioner, being the over all incharge of the district, maintains law and order with the help of administrative officers and Police force, The villagers have their own customary administrative system in the form of traditional village councils. The councils consists of the Gaon Buras and members. The Assam Frontier Regulation 1945, authorises the village councils to settle all civil matters and certain criminal matters falling within their jurisdiction. However, for all matters, the Deputy Commissioner and some other administrative officers have jurisdiction under the supervision of the Assam High Court which holds the the appellate and the revision authority.

The district has been covered by 3 blocks namely Dirang, Kalaktang and Nafra-Buragaon.

The Panchayat Raj has been introduced in the district with the North East Frontier Agency Panchayat Raj Regulation, 1967. Under this regulation (1) the Gram Panchayat exist at the village level, (2) the Anchal Samity at the Anchal level and (3) Zilla Parishad operates at the district level. The Regulation provides for effective participation of the people in the Administration through the institutions set up under the Panchayat Raj scheme.

HIGHLIGHTS ON IMPORTANT ASPECTS OF WEST KAMENG DISTRICT :

1. Administrative Sub-Division	:	3
2. Administrative Circle	:	6
3. Number of Block	:	3
4. Number of Town	:	1 (Bomdila)
5. Number of villages (As per 1991 Census)	:	170
6. Total Population	:	56421
(a) Male	:	30966
(b) Female	:	25455
7. Total Urban Population	:	5655
(a) Male	:	3243
(b) Female	:	2412
8. Total Literacy Population	:	20585
9. Percentage of literacy	:	36.48
(a) Literacy rate of male	:	44.72
(b) Literacy rate of female	:	27.06
10. Density of population	:	7 persons per SQ.Km.
11. Sex Ratio	:	822 females per 1000 males.
12. Decennial growth rate of population (1981 - 1991)	:	35.73
13. No. of Assembly constituencies	:	4
14. Names of Indigenous scheduled Tribes of the district	:	(a) Monpa :- i) Dirang Monpa ii) Lish Monpa iii) Boot Monpa iv) Kalaktang Monpa v) Panchen Monpa (b) Miji (c) Sherdukpen (d) Aka (e) Bugun (Khawa)
15. Important Rivers	:	(a) Kameng (Bhorali) (b) Tenga (c) Bichom (d) Gacham (e) Dirangchu (f) Worgum (Bhairabkund) (g) Jomuri (Dhansiri)
16. Hydel Project with capacity	:	(a) Dirang (2000 KW) (b) Rahung (750 KW) (c) Sessa (1500 KW)
17.(a) Nearest Rail-head	:	Bhalukpong (100 Km. from Bomdila)
(b) Nearest Airport	:	Salonibari (Tezpur-160 Km. from Bomdila)

18. Altitude of Circle & District Head-Quarters (In Meters) : (a) Bomdila -Varying from 2430 to 2700
(b) Dirang - 1407
(c) Kalaktang- 1113
(d) Nafra - 1790
(e) Thrizino - 1224
(f) Bhalukpong- 213
19. Important Tourist Spots : (a) Rupa (b) Bomdila
(c) Dirang (d) Sela Pass
20. Total Rainfall during the year 1994 : (a) Bomdila - 1409.07 mm
(b) Thrizino- 9673.00 mm
(c) Kalaktang- N.A.
21. Temperature recorded at Bomdila during 1994 (In 0'C) : Maximum : 23.5 (on 15/7/94)
Minimum : (-) 2.8 (on 17/1/94)
22. Known occurrence of minerals : (a) Coal- Near Bhairabkund and Kamengbari.
(b) Copper Ore -Near Dirang.
(c) Dolomite-In Dedza & Rupa.
(d) Glass Sand -In Rupa Areas.
(e) Marble - In Dirang Areas.
23. Important Fores Species : Blue pine, Chir pine, & Sopa Hollock, Cupressus, Jutuli, Hingori, Anari, Dhuna, Gomari, Bonsum, Walnut.
24. Important Fauna :
(a) Mammalia : Leopard, Jungle cat, Jackle Leopard cat, Indian elephant, Barking deer, Indian wild boar, Musk deer, Monkey, Red Panda
(b) Birds : Babblers, Warblers, Chats, Jungle Fowl, Blackneasted Kaleege, Hornbill, Green and Imperial Pigeon.
25. Fishes :
i) Fishes available in natural water : Oreinus, Schizothorax, Mahaseer Chowngyo, Batpal.
ii) Fishes cultured : Common Carp, Mirror Carp, Mirgal, Prown.
26. Land Use pattern : Forest, Jhuming, IRC, WRC, and Horticulture.
27. Main Agricultural Produces : Wheat, Buckwheat, Barley, paddy, Maize, Millet, Rajma, potato, Soyabean.
28. Main Horticultural produces : Apple, pears, plum & Orange,
29. Main Livestock : Yak, Sheep, Pig, Pony, Cattle, Mithun and Goat.
